PUTTING THE WIRES UNDER THE GROUND.

Methods Used by Telephone Company in Laying Cables.

WORK BEGAN LAST WEEK.

THE CABLES HAVE TO BE PULLED THROUGH THE CONDUITS.

West Side of the City to Be Connected First—New Exchange to Be Opened in Spring—Manager Runyon a Busy Man—How the Work is Done—5,020 Feet of Lead Cable Now in Use.

This spring and early summer when workmen were busy laying the conduits, or "ducts," as they are called, for the New York and New Jersey Telephone Company, speculation was rife as to how the cables ever could be placed in them. The workmen opened the trenches, laid the "ducts" and covered them again, leaving no possible opening except the manholes distributed about the city.

The solution to this puzzle was found last week, for with the arrival of 5,020 feet of lead cable, weighing twenty-four tons, and a force of fourteen men, preparations were at once begun to place the wires in the "ducts."

A manhole was uncovered, and a workman dropped down to the bottom. In his hand he carried a bundle of thin wooden rods, each about a yard in length, and fitted with a screw at one end and a cap at the other. A rod was inserted in the open end of a "duct," which was seen coming up flush with the bricked up side of the manhole. This rod was pushed as far into the "duct" as it would go, then before letting go of it, another rod was screwed into the end of the first one and pushed in as far as it would go.

This was repeated until the first rod could be seen projecting from the end of the "duct" in the next manhole. The man in the first manhole attached a wire to the end of his last rod, gave the signal, and the workman below began to pull. Out came the first rod. This was uncrewed and tossed out of the way. The second followed, and the third, and so on until the last rod was through. The wire then came, and on the end of that was fastened a small rope. A thicker one followed that, and lastly came the cable.

The cable was not pulled through by hand, but a machine, especially made for the purpose, was attached to the heavy rope, and drew it through in great shape.

These lead cables contain 100 pairs or 200 wires. They are about two inches in thickness, so the size of the telephone wires can be easily imagined. The work is to be continued from manhole to manhole until all the cables on the west side of the city are in place.

Manager Charles W. Runyon, who is in charge of this work, says that the cable being laid down Park avenue will be the main one. From this main cable branches will go west on Fourth, Fifth, Eighth and Ninth streets. Connections will be made with the North avenue office by fall, and the subscribers in the western part of the city will be connected with the underground system.

It is not the intention of the company to connect the cable on the east side with the North avenue office, as the company expects to get into its office on Park avenue by next April. A bulge has been put on the cable at Fourth street, so it can be pulled into the new office without trouble or expense.

No underground connections with houses will be made, but distributing poles will be erected at convenient distances which will necessarily be above ground. These poles will be of the regular height, fifty to sixty-five feet, and will be placed in the rear of buildings as often as possible. This work is all to be done while the present system is still in operation, and the old wires will not be disturbed until the underground wires are in working order. The subscribers will not be interfered with in the least, and will get their regular service without trouble. When the new system is complete, the connections will be made in a short time, so short a time, it is said, that the users will not know that they were disconnected. All these things Mr. Runyon has to see to, and if anyone thinks that he doesn't have his hands full that person is mistaken.

There is quite some work still to be done before the system can be placed in working order. The distributing poles are to be connected with the cables, and the houses with the poles. The cables have to be spliced and soldered at these breaks, and many other little things will come up which must be done before that system is complete.

SHOOT FOR PETERS' SILVER TROPHY.

Opening Shoot of Central New Jersey Trap Shooters' League.

DUNELLEN GUN CLUB WON.

CLIMAX TEAM LACKED ONE OF ITS REGULAR MEMBERS.

T. H. Kellar's Son Shot His First Match—The Trophy Given by Peters' Cartridge Company Through Mr. Kellar—Kellar Made High Score—Poor Day for Trap Shooting—Much Interest Shown

(Special to The Daily Press.)

Dunellen, August 1.—Even the fierce heat of Saturday could not scorch the enthusiasm of the trap-shooters of this section. They turned out Saturday afternoon to attend the first regular shoot of the Central New Jersey Trap-Shooters' League, which was held on the grounds of the Dunellen Gun Club.

The feature of the meet was the opening of the club contest for the new trophy which has just been offered. The Peters Cartridge Company trophy, it is called, and it was offered through Thomas H. Kellar, of Plainfield, who is manager of the New York end of that well-known concern. There are to be two matches at each grounds and the club winning the most will get the trophy, a handsome silver loving cup.

It was by no means an ideal day for shooting, for the sun was unusually hot and the glare hurt the eyes of the sportsmen. There was, however, a good attendance. The Climax Gun Club, of Plainfield, and the Bound Brook Gun Club were represented beside the home club. New Brunswick is expected to join the league shortly. The Climax Club was minus one man, and so Tom Kellar put in his son, T. H. Kellar, Jr., to make up the five. The younger Kellar has not taken an active part in the sport, so he was not prepared to do any fancy shooting. Considering the fact that he was without experience, his showing was very good. The elder Kellar made the high score of the day, breaking 24 targets out of 25.

The match was won by the Dunellen Gun Club after a lively contest. At the start it was anybody's match. Then Tingley, of the Bound Brook delegation, fell down in his shooting. Young Kellar missed his first target, then broke three straight, and then shot with varying success.

Dunellen won out by six targets, with Bound Brook second, and the Climax team last by six targets. After the match there were several sweepstakes, in which the honors were divided.

The scores in the team race were as follows:

DUNELLEN GUN CLUB.

Lindzay	21
Giles	19
Runyon	21
Cramer	23
Barron	18
	102

BOUND BROOK GUN CLUB.

Anderson	21
Hooey	20
Morrow	21
Jackson	21
Tingley	14
	96

CLIMAX GUN CLUB.

Darby	16
Hobart	21
Apgar	22
T. H. Kellar	24
T. H. Kellar, Jr	7
	90

OLD RESIDENT OF THE BOROUGH.

Thomas A. Staats Passed Away at His Home in Elizabeth.

(Special to The Daily Press.)

Elizabeth, August 1—The death of Thomas A. Staats, aged 66 years, occurred at his home in this city yesterday morning after an illness of short duration. He was formerly a resident of North Plainfield, and was the son of Mr. and Mrs. Joseph Staats, who resided at the corner of Duer street and Lincoln place in that place. He was a brother of Mrs. L. E. Barkalew, Mrs. Robert Randolph and Mrs. William H. Shotwell, all of Plainfield. He leaves a wife and one daughter. The latter is the wife of Lawyer John Powers, who formerly practiced in Plainfield. The funeral services will be held from his late residence, No. 535 Madison avenue, this city, tomorrow afternoon at 3 o'clock. Friends and relatives are respectfully invited to attend. Interment will be in the North Plainfield Cemetery on the arrival of the 4:33 train at Plainfield.

Death of Benjamin B. Newton.

Benjamin B. Newton, son of the late Rev. B. B. Newton, and a brother to Mrs. George H. Goddard and Mrs. J. M. Whiton, of this city, died in Pueblo, Col., yesterday. Mr. Newton was forty-four years of age, and formerly lived in this city.

EMBRACED INVADERS.

Wonderful Reception of American Army at Porto Rico.

TWO OTHER TOWNS FALL.

SURRENDERED GLADLY TO AMERICAN INVADING HOST.

Americans Advanced to Juana Diaz and Yanco, where They were Well Received—Arms Being Turned Over—Many Sign Parole.

(From the Union Associated Press.)

Ponce, Porto Rico, via despatch boat to St. Criox, August 1, 12:52 p. m—Porto Rico is turning American as fast as the United States troops advance.

The citizens of the Island are enthusiasticly giving much help in the location of the recreant Spaniards. Large numbers have already been brought into the cities by the viligant citizens and turned over to the troops.

After signing the parole agreement, the soldiers are released.

The American troops advanced Saturday night toward the outposts of San Juan. Juana Diaz, twelve miles from Ponce, was the second town taken by the troops, Guanica being the first.

Then Yanco surrendered to the Americans. When the troops took possession of the latter town, the Mayor issued a proclamation exhorting the citizens to conduct themproperly towards the troops.

When the American troops arrived, they fell upon their knees and embraced the invading host.

It is a truly remarkable reception that is being given to the invading army.

Ponce today is placaded with posters issued by the mayor of the city upon the order of the American general demanding the surrender of all arms.

Great numbers of arms have been turned in to date. It is thought that over ten thou sand Spaniards will sign the parole documents.

IMPALED ON PICKET FENCE.

Horrible Accident to Geo. Wiegand's Horse Last Evening.

A valuable horse owned by George Weigand, of the borough, sustained injuried last evening which obliged the owner to have him shot and put out of his misery.

Mr. Weigand is employed by F. A. Long, the Somerset street grocer, and he hired himself and horse to Mr. Long for six days in the week, with the agreement that the owner was to have the use of the animal on Sunday. The horse stood in the stable all day yesterday and last evening Mr. Weigand took him out for the purpose of making a call on some friends on the upper part of Somerset street. When he reached the house of his friends he tied the horse to a fence near by. A short time afterward the animal became frightened at something and attempted to jump the fence. In doing so the horse was frightfully injured on the picket fence. Mr. Weigand heard the noise and he hastened to where the horse was tied. He made an examination and found that the horse had to be killed. A few minutes later Marshal Schenck happened along and Mr. Weigand asked him to shoot the horse, which he did. It required five shots from the officer's revolver to put the horse out of misery.

Frank Day Sells Out.

Frank Day, the West Sixth street liveryman, has sold out his business to Adam Blair, possession being given today. Blair was at one time Day's partner. The deal was made through William G. DeMeza.

HUNTER IS MISSING AND MONEY IS GONE.

His Betrothed Says he Borrowed Her Money.

WAS TO BUY FURNITURE.

HE LEFT A WEEK AGO AND HAS NOT RETURNED.

Scotch Plains Excited Over the Disappearance of Her Livery Stable Keeper—Was to Marry Miss Yorke Soon—She Gave Him $200, She Says—He Was to Fit Up a Home With It.

(Special to The Daily Press.)

Scotch Plains, August 1.—The people in the village are wondering what has become of John Hunter, the liveryman, who suddenly disappeared from town a week ago today. Where Hunter is remains a mystery, but the reason for his flight is becoming apparent.

Six months ago a German family by the name of Yorke moved to town and took up their residence in Anthony Farley's cottage on Union avenue. Soon afterwards a sister of Mr. Yorke's came to make her home with her brother and his wife. Among the neighbors who grew intimate with the Yorkes, especially with Miss Yorke, was John Hunter, who resided close by.

Hunter was a frequent caller at the house, and payed Miss Yorke marked attention. They went out together, took walks in the moonlight, and became very friendly. Miss Yorke, it is said, thought a great deal of Hunter, and had promised to marry him.

About two months ago Hunter and Samuel Taintor bought out the livery business of F. K. Clark. Their success pointed to a speedy marriage, and the village gossips were everyday expecting to receive invitations to the wedding.

Miss Yorke had a little money in her own name, about $200, it is alleged, and a week ago Saturday night Hunter persuaded Miss Yorke to let him take it and go to New York to purchase furniture. The prospective bride says that she fully trusted Hunter and turned over the money, which was the result of her savings and earnings for years, to him, expecting him back at night with all the necessary articles with which to go housekeeping.

Hunter is said to have displayed a large roll of bills in one of the hotels that day, which, he laughingly remarked, "was not made in the livery business."

Hunter did not return that night, nor on Monday or Tuseday of last week. The bride to be kept up an impatient watch for him, but when three days had passed bringing no Hunter, she began to make covert inquiries around as to where Hunter had gone.

The facts soon became known, and outsiders interested themselves in the story. Hunter's family say that the missing man is in Baltimore. Others think that he is in New York, and that when the money is all gone he will return to the village. No warrant has been issued for his arrest, but the villagers hint at a warm reception which will be afforded him if he does return.

HORSE DESERTED HIM.

SO MR. HETFIELD HAD TO BUY ANOTHER TO HUNT FOR IT.

The Horse Left Suddenly Wednesday Night With Part of the Harness—Not a Trace of the Animal Yet.

Councilman Walter L. Hetfield has lost a horse. It is a sorrel mare, and ran away from the stable Wednesday night about 12 o'clock, disappeared in the darkness and has not been seen since. Mr. Hetfield, his son and his hired man have been searching ever since for the animal, but without success.

Wednesday night Mr. Hetfield's hired man was taking the harness from off the horse. Both were standing in a box-stall when the animal suddenly bolted out of the barn, and started on a run towards Scotch Plains. She carried with her a part of the harness.

The hired man and W. L. Hetfield, Jr., followed the mare to Terrill road, then down to Mountain avenue, where they lost her in the darkness. No trace of the harness was found, but it is probable that she didn't carry it far. David Hand says he saw a strange horse over in the direction of Netherwood Friday, but it is thought that was a bay.

Saturday Mr. Hetfield was compelled to purchase another horse to assist in looking for the first one. He drove all over the mountains yesterday, but found no trace of the missing animal.

WILL PUSH OPERATIONS.

A Big Army Will Soon Be in Porto Rico.

SIX THOUSAND DUE TODAY

FIFTEEN THOUSAND MORE TROOPS TO SAIL AT ONCE.

Gen. Wade Is Coming to Washington to Superintend the Advance—Lee May Go—Direct Cable Communication Now.

(From the Union Associated Press.)

Washington, August 1, 2:15 p. m—Colonel Allen cables Gen. Greely that direct cable communication has been established from Porto Rico via St. Thomas.

Fifteen thousand soldiers will be sent to Porto Rico immediately to reinforce Gen. Miles. It is the determination of the Government to push the war as stenuously as possible up to the last moment when the armistice is declared.

Gen. Wade has been ordered to take command of the reinforcements. He has been detached from the command of the camp at Chicamauga..

The reinforcements will consist of fifteen regiments. It is also understood that General Lee will be sent to Porto Rico with the Seventh Army corps.

Gen. Coppinger will command the force now gathered at Tampa. Gen. Brooke with six thousand men is due at Porto Rico today.

It is expected that within a fortnight over 40,000 United States troops will be operating in Porto Rico.

MADRID DEPRESSED.

Nothing Left But To Accept America's Terms for Peace.

(From the Union Associated Press.)

Madrid, August 1, 12:13 p. m.—Deep depression is now manifest in government circles.

The news from Augustin in Manila has been so despairing within the past few days that the announcement of the fall of the city is expected any moment.

The American peace conditions are taken to mean the virtual stripping of Spain of all her colonial possessions.

Hope of foreign interference has been abandoned and harsh as the terms are considered, it is believed that there is no other course than to accept them.

WIFE DIES; HUSBAND ILL.

Mrs. Edward Titsworth Died Saturday at Her Home on New Street.

Mrs. Edward Titsworth, an elderly member of the Seventh-Day Baptist church, died at her home on New street Saturday noon. She will be buried this afternoon at 4:30 o'clock from the church.

Mrs. Titsworth has been ill for several weeks. She died from a complication of diseases. Her husband, too, is ill, and has not been permitted to see his wife in three weeks.

Mrs. Titsworth was a daughter of the late David Smith, of Church street, and was married to a Mr. Moore. She had two children by her first husband, Jeremiah A. Moore, of West Fourth street, and David Moore, of Orange. She was married to Mr. Titsworth several years ago, and at the time left the Methodist church to join the denomination to which her husband belonged.

—An earnest member of the W. C. T. U. is circulating a petition about the city to have a public drinking fountain erected in the eastern part of the city. The fountain is much needed and should be erected.

LIGHTNING PLAYS HOVOC IN JERSEY.

Set Fire To Big Barns Near Bound Brook.

HEAVY LOSSES REPORTED.

POOR FARM NEAR ISELIN DESTROYED BY FIRE.

Lightning Started the Conflagration—Another Big Fire Near Flemington—Crops Suffered In the Storm—Bolt Struck Staten Island and Elizabethport Ferry House—Damages Elsewhere.

The breaking of the warm wave, as prophesied by the weather observers, has been attended with thunderstorms of unusual intensity. The rain fell very heavily and the lightning played havoc through this section of Jersey, burning and destroying property that will amount up in the thousands. Saturday evening a storm raged south of this city and much damage has already been reported. Plainfield felt the edge of the storm, but the electrical display that caused so much havoc was further to the south.

At 6:15 o'clock Saturday evening, just as the storm was at its height, a bolt of lightning struck the large barn belonging to I. V. Gulick, who lives on the Raritan river road, three miles from Bound Brook. Martin, the Polander laborer, who is employed about the farm, was in the barn and felt the shock.

The shock stunned him for the moment but he soon hurried out to see the top of the barn all ablaze. The family were all away at the time. In the barn were five horses which the hired man hurried out. He then saved fifteen head of cattle in an adjoining barn.

Meantime, the neighbors began to arrive and dragged out most of the wagons and a buggy from the carriage sheds. The fire spread very rapidly and was soon communicated to the other barn, the carriage shed and two great barracks of hay. The chicken house was also burned.

In the barn was Farmer Gulick's oat crop for the past three years, his new wheat crop and a stock of other grains. All his farm utensils and machinery were destroyed. The buildings were burned to the ground. A shed in the rear of the house was torn down to save it from the flames. The house, which was of stone, was saved.

The fire burned very fiercely until midnight. There was a limited supply of water and it was too far from Bound Brook to call out the department of that borough. The efforts of the neighbors were confined to saving the house and the contents of the barn which could be carried out before the flames spread through the building.

Mr. Gulick is rather uncertain as to exactly what his loss is. He says that it will be $6,000 or over at the least. It was partially covered by insurance. The barns had just been overhauled and put in excellent condition, while the new crops had just been placed there.

The fire did not burn itself out until yesterday afternoon.

The storm seemed to follow the Raritan river and the Kill von Kull, visiting New Brunswick, Metuchen and Rahway. The trolley systems of the places mentioned were affected by the lightning and traffic generally delayed.

The poor farm which is located on the road between Metuchen and Iselin was strck by lightning at 7 o'clock Saturday night. The poorhouse, with the adjoining barns and outhouses were all burned to the ground, together with several barracks of hay. The loss will amount to $10,000. All the occupants were driven out into the rain, losing what few possessions they had. They were temporarily housed on a neighboring farm.

Lightning struck the ferrryhouse of the Staten Island and Elizabethport Ferry Company on the Richmond county side of the Kills. All the lights in the ferryhouse were put out, but the damage caused was slight. A couple of women who were waiting for the boat to Elizabethport were badly frightened and fainted.

A terrific thunder storm, accompanied by high winds and vivid lightning, passed over Flemington. Lewis Cole's barn was struck by lightning and destroyed, with its contents, as were also several outbuildings. At Cherryville, Klinesville, Stanton and other vicinities growing corn was ruined by the gale.

More Jersey Boys Enlist.

James Cockney, James McCann, Dennis Kane, "Doc" Doty, "Dutchy" Bergen and Thomas Casey went to New York this morning to enlist in the Seventh Regiment of United States Light Artillery.

HEAT INTERFERED WITH THE TROTTERS.

Only One Match at the Matinee Meet Saturday.

MYRTLE TWIG WON RACE.

DEFEATED OSBORNE'S WOVEN WIND IN TWO CLOSE HEATS.

Other Events Were Called Off on Account of the Heat—Great Day Planned for Next Saturday—Unique Event Will Be Held—To Drive Nearest Three Minutes—Races Was Not a Success.

The intense heat Saturday afternoon interfered with the racing at the Gentlemen's Driving Park, and the matinee races were not the success anticipated. Only one race came off, that between John Osborne's bay stallion "Woven Wind," and Thomas Brantingham's bay mare, "Myrtle Twig." This race was trotted in two heats, and "Myrtle Twig" was declared the winner both times.

These two well-known horsemen have long contested the merits of their respective steeds, and challenged each other to a trial of speed Saturday afternoon. This event was to have come in connection with other events, and was a drawing card. Instead, the horsemen, with a few exceptions, stayed away, and left "Woven Wind" and "Myrtle Twig" in possession of the field.

The first heat was trotted in 2:25. The horses got a good start, and went around the track side by side. On the second lap "Myrtle Twig" broke, and this gave "Woven Wind" a chance to forge ahead. When "Myrtle Twig" came down again, she closed in on "Woven Wind" and they passed under the wire almost neck and neck. It was a close finish.

The second heat was trotted later in the afternoon and was a repetition of the first. The time made was a little faster, 2:23¾, "Myrtle Twig" winning by a head.

Next Saturday afternoon something of a novel nature is to be introduced. Among the events will be a race for amateur drivers, in which they will see how near they can drive two miles in six minutes. This will be a difficult feat for inexperienced drivers, for they will not be allowed to carry watches or receive any tips from friends as to the pace they are going. He who has a horse that can go in 2:50 will hold in his horse, and probably come in the first mile in 4:00 instead of 3:00. As it will be impossible for him to drive the next mile in two minutes, this driver will be out of the race.

Another man, who has a horse that can go in 3:00 will push him all the time, and may come in in 2:50. A race similar to this one was held a few years ago, and the prize was won by John Osborne, who made the first mile in 3:01 and the second in 2:59, thus winning the prize. Experienced jockeys like Osborne, Brantingham and Brower will be barred out.

The horses will not all be started together, but when the first has reached the quarter pole, the second will start, etc.

Great sport is anticipated, and as prizes will be awarded, the interest will be increased.

Several of the new horses recently purchased are expected to be on the track Saturday and show what they can do.

GUN CARRIAGE SHIPPED.

Work For the Government is Going Rapidly Forward at Pond's.

The work on the disappearing gun carriages at the Pond Machine Tool Works is progressing favorably. Saturday one of the carriages was shipped to Fort McRee, Pensacola, Fla., where it will be erected at once. Captain L. L. Bruff, of New York, was in Plainfield Friday inspecting the carriages, and in addition to the one shipped another carriage was accepted for the Government. The other carriages are being rapidly completed and it will not be very long before the full number is completed.

Summer Night's Festival.

Martha Washington Council, No. 23, Daughters of America, will hold a summer night's festival in the Crescent Cycle Academy, Thursday evening. Any of their friends who have not received an invitation are respectfully invited to be present.

Plainfielders in the White Mountains.

In the records of White Mountain visitors is the statement that Miss Louise Fisk is entertaining R. H. Cox and Miss Cox, of Plainfield, at Onaway, the handsome Jefferson residence of her father, Charles J. Fisk, of West Seventh street.

Secretary Manning, of the Y. M. C. A., has returned from a trip to Europe.

PEACE TERMS TO SPAIN

The French Ambassador Receives and Transmits Them.

THEY ARE MADE PUBLIC

The Negotiations Reach a Preliminary Basis. Minister Campon Appointed by Spain to Act for That Government. Saturday's Conference a Very Important One.

Washington, Aug. 1.—Peace with Spain now seems assured, and the termination of hostilities may be only a matter of a few days.

Progress in the negotiations has been much more rapid than was anticipated by the administration, for the reason that when Ambassador Cambon appeared at the White House Saturday afternoon he presented credentials which entitled him to act as the direct diplomatic representative of Spain, with all the powers usually bestowed upon a minister plenipotentiary and with complete instructions covering every possible phase of the peace negotiations.

The president had expected that he would still act merely as the channel of communication with Spain, but when his credentials as Spain's minister were presented, the whole situation was changed, and a conference followed which was in reality the beginning of the peace negotiations, and which reached results the approval of which by Spain may bring about immediate peace.

The call of the ambassador at the White House was preceded by a meeting of the cabinet at which the general conclusions as to the peace proposals which had been begun were put in final shape, with some slight modifications. The terms proposed by the administration were practically these:

Withdrawal by Spain of her forces and sovereignty in Cuba, the United States to exercise control until a stable government can be established.

Withdrawal of her forces and sovereignty from Porto Rico and cession of this and the minor Spanish West Indies to the United States.

Acquiescence by Spain to permanent occupation by the United States of Guam island, in the Ladrones, already in the possession of the United States.

The United States to exercise control over the city and bay of Manila and the surrounding territory, including Cavite, until such time as the commissioners appointed respectively by the two countries to determine upon the future disposition and government of the Philippines reach an agreemtnt which receives the ratification of the two governments—the United States neither waiving claim to the whole of the Philippines nor specifying the exact boundary limits of the territory she desires to hold permanently.

When the cabinet adjourned Secretary Day addressed a courteous note to Ambassador Cambon asking him to call at the White House at 2 o'clock. At that hour M. Cambon and M. Thiebaut, secretary of the French embassy, arrived, and they remained in conference with the president and Secretary Day until nearly 5 o'clock.

This statement was given out at the White House:

"The reply of the government of the United States has been delivered to the French ambassador, representing Spain but it would not be proper to make it public before the Spanish government has received it."

What was really delivered to the French ambassador was a preliminary agreement as to the basis of peace as complete as he could make it without its express ratification by the Madrid government, and it is possible that when what transpired at the White House is made public it will be accompanied by information as to whether or not the Madrid government has ratified the action of its agent and agreed to peace.

When the ambassador was ushered into the president's private office he presented the credentials he had received from the Spanish government appointing him envoy extraordinary and minister plenipotentiary, with complete instructions as to the manner of acting upon every one of the peace conditions presented by the United States, including the disposition of Cuba, Porto Rico, the Philippines, the Ladrones, indemnity, armistice and all other questions likely to arise in the course of the negotiations.

With these credentials authorizing him to speak, as plenipotentiary, for the government of Spain, and with full instructions on every point at issue, Ambassador Cambon, in behalf of Spain, not only received the peace conditions laid down by the American cabinet, earlier in the day, but thereupon entered upon their full discussion, with a view to reaching a final and complete agreement.

After strong argument the president and Secretary Day consented to a modification of the American terms in one particular. What that modification relates to is not disclostd, but it is believed not to apply to the condition for the absolute independence of Cuba, the cession of Porto Rico or the granting of adequate coaling stations to the United States in the Pacific, or to diminish in any vital particular the terms on which peace will be restored.

The modification brought about practical unanimity between the president and Ambassador Cambon, as plenipotentiary for Spain, and the latter has now transmitted the results of the conference to Madrid for approval, which, if given, will end the war.

The first business of the conference was the presentation of the terms laid down by the United States. Secretary Day read the terms, pausing at the end of each sentence to allow M. Thiebaut, the first secretary of the French embassy, to interpret it into French, as the ambassador's knowledge of English is limited. This reading by Secretary Day and interpreting by M. Thiebaut, took but fifteen minutes. Then began the discussion, point by point.

The president and the ambassador addressed each other directly with the greatest freedom and frankness, each stoutly maintaining the justice of his position on the several points involved. When, at last, after an eloquent plea by the ambassador, it was agreed to modify the conditions in one particular, Secretary Day withdrew for half an hour and attended to drafting the modification. This accomplished the ambassador addressed himself to the president not so much as the advocate of Spain, but personally, having, with the president, man for man, a like interest in humanity.

M. Cambon spoke in French, each sentence being caught up and interpreted by M. Thiebaut, so that the earnestness of the ambassador's expression lost little by this indirect method of communication. The president spoke with equal frankness, and in the lengthy discussion there was scarcely a point in the whole range of the war which was not met and freely considered.

It is now for the Madrid government to give final approval to what was partially accomplished. It is even possible that this approval may come very speedily—within a day or two—for there is no need of extended conferences or correspondence. All that was accomplished when M. Cambon acted as plenipotentiary. From the fact that he acted under instructions, the prospect would seem to be hopeful for Spain's ratifying what has been done.

If Spain accepts the proposals of the United States it will operate as a final settlement of all questions between the two governments on this side of the Philippine islands. The Spanish forces will be withdrawn at once from Cuba and Porto Rico, and they and all the outlying islands will be turned over to the American military authorities.

The question of the future of Cuba will be one to be settled exclusively by the American government and the people of the island. Porto Rico and the minor islands will be governed as Congress may direct.

The conditions imposed are such as to leave no reason for an armistice except in the Philippines. They must be accepted before the United States will consent to the appointment of commissioners to settle the question of the future of the Philippines.

Should Keep the Philippines.

London, Aug. 1.—There is a decided feeling here that the United States ought to keep the Philippines, at any rate for the present. Not only does a portion of the English press support this idea, but many private individuals as well.

A number of people who have interests in the Philippine archipelago, with some Filipinos, who reside in England, have invoked the aid of the American press to direct public opinion in support of the retention of the islands under an American protectorate.

America, they say, cannot dishonor the pledges of Consul Generals Pratt and Wildman and Admiral Dewey and abandon the country as a prey to the Spaniards and to endless disorder.

More Sick and Wounded Soldiers.

New York, Aug. 1.—The United States transport ships Concho and Alamo also arrived at quarantine Sunday morning. The Concho brought about 176 ill and wounded men, who participated in the attack upon Santiago during the first three days of July. When the vessels arrived at Hampton Roads on Thursday last it was reported that there were many cases of typhoid fever on board. Dr. A. Mona Lesser of the Red Cross Society is the physician in charge.

Another Treasure Ship.

Seattle, Wash., Aug. 1.—Another treasure ship, the nineteenth of the month, the City of Seattle, arrived here yesterday with forty-four Klondikers. Nine-tenths of the $300,000 they brought out was in the hands of five men. J. A. Gerrow, a Frenchman, had more than $100,000. George De Mars, who owns No. 9 El Dorado, came out. It took eleven horses to pack the gold cleaned upon his claim to Dawson. He deposited $500,000 in a Canadian bank.

Thorn Must Hang.

Albany, Aug. 1.--Governor Black has decided not to interfere in the case of Martin Thorn, condemned to death for the murder of Guldensuppe.

Military Courage.

The question of the comparative proportion of really brave men in any army will probably never be determined. Great officers on the Continent keep their knowledge on that subject rigorously as a professional secret, and assume as a certainty that all soldiers are brave. They know very well, however, that they are not, and when confidential will admit, as Marshal von Moltke once did in public, that with a great number it takes discipline, and severe discipline, too, to induce them to face shells unshrinkingly. American officers have been known to acknowledge that of their men, who are as brave as any in the world, 20 per cent. would run away if they could, and in every army, even ours, which a man enters only of free will, there is a certain proportion who literally cannot overcome their fears. They are stricken with a sort of paralysis. The proportion is probably not high in any army, the majority, if in health, being able to do their duty, and having intense motives to do it; but neither is the proportion high of those who literally feel no fear.

There are such men who do not quite understand what the emotion is, as there are also some who have in extreme danger a sense of pleasure, which sometimes not only quickens their blood, but distinctly increases their intellectual force. This is said to have been true of Gen. Picton, who, though a hard, rough man, was an "angel when bullets were about"; and was undoubtedly true of the first Lord Gough, who had a trick, highly disagreeable to his staff, of seeking points of full exposure to the enemy's fire.

"Yes," she sighed, "for many years I've suffered from dyspepsia."

"And you don't take anything for it?" her friend asked. "You look healthy enough."

"Oh," she replied, "it's my husband that has it."

MERRITT AT MANILA

Dewey Thinks the Taking of Manila an Easy Task.

AGUINALDO STILL DEFIANT

Both Dewey and Merritt Think Best to Delay Any Movement on Manila Until We Have An Overwhelming Force There. The City Will Probably Then Surrender.

Manila, July 30,--The United States transport Newport, with Major General Wesley Merritt on board, arrived here Wednesday. All were well on board.

Nothing decisive has happened as yet, but it is expected that operations against the Spanish will begin in a few days.

General Merritt assumed command of the American forces immediately after he had reported to Admiral Dewey. He has established headquarters at the Cavite arsenal.

The Newport was escorted to an anchorage near the cruiser Charleston by the gunboat Concord, the crews of the vessels of the American fleet giving her a rousing welcome.

At the close of his official visit to the Olympia, General Merritt was officially recognized by a salute of thirteen guns.

Until he shall have received the reports of the officers who preceded him and made himself familiar with the situation, General Merritt cannot determine as to his future course.

The remaining transports are expected to arrive to-morrow. The fleet saw nothing of the monitor Monterey and the collier Brutus, and it is supposed that the monitor is coaling at Guam island.

The troops encamped at Paranajo have not yet made a move, the condition of the country between the camp and the outskirts of Manila being such, on account of the heavy rains, as to make it impossible to advance. The insurgents are still active, but are accomplishing nothing.

General Merritt's expedition included the transports Ohio, City of Para, Indiana and Morgan City, which left San Francisco June 27, carrying 3,600 officers and men under Brigadier General McArthur; the steamer Valencia, which sailed on June 28, with 600 men, and the transport Newport, which sailed on June 29, with 800 men, under the immediate command of General Merritt.

Altogether there were 5,000 officers and men in the third party. The first expedition carried 2,501 men, and the second carried 3,515 men, so that General Merritt has under his command 11,016 men.

GENERAL MERRITT

Admiral Dewey thinks that it is possible to take the city without the loss of a single life, and he is most anxious to do so. He thinks that it is far preferable to undergo a little further delay in awaiting the arrival of an overwhelming force than to attempt to carry the city now by assault, an undertaking which would most certainly involve heavy loss.

Matters with reference to Aguinaldo, the leader of the insurgents, are assuming a more definite and satisfactory shape. He has instructed the Filipinos not to sell or to furnish transportation facilities to the Americans, except at his order, aiming, doubtless, to delay the Americans, in order that he might be the one to capture Manila. Hearing this, General Anderson served notice on him that he would make requisition on the people direct. He had the notice printed in the native language and scattered broadcast. Thereupon General Aguinaldo promptly replied that he would honor General Anderson's requisitions for military necessaries upon four days' notice.

Washington, Aug. 1.--The following telegram has been received at the war department:

Hong Kong, July 30.

Adjutant General U. S. Army, Washington:

Cavite, July 25.—Arrived to-day about 12. Health of commands good. Remainder of fleet about four days in the rear. All troops assigned me will probably be needed.

MERRITT.
Major General Commanding.

The navy department has made public the following:

Cavite, July 26.

Secretary of the Navy:

Merritt arrived yesterday in the Newport. The remainder of the expedition is expected within the next few days.

A dispatch received from Admiral Dewey announces that Aguinaldo has assumed a bold attitude of defiance and that it would take a large force from this country to subdue the insurgents.

Tarrasch Wins Wins Chess Tournament.

Vienna, Aug. 1.--Tarrasch won first prize in the international chess tournament, $1,500; Pillsbury second, $1,000. The final game to decide the tie was drawn and the score reads: Tarrasch 2 1-2, Pillsbury 1 1-2.

The international chess tournament, of which the above tie match of four games was the outcome, resulted in a tie between Tarrasch and Pillsbury, the American. The score was for each 28 1-2 games won and 8 1-2 games lost.

New Jersey's Greatest Store.

HAHNE & CO. NEWARK, N.J.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

CAMPAIGN IN PORTO RICO

Everything Seems to Be Going Our Way and There is Great Rejoicing at Ponce.

Ponce, Porto Rico, July 30.—After the action at Guantanamo it was believed that the enemy intended to contest the advance of our trops toward San Juan, and General Miles made preparations to send General Wilson's troops to Ponce, with a view of throwing them between Ponce and the enemy and closing in on the latter from both directions.

He sent word to Captain Higginson of the battleship Massachusetts to be ready to cover the landing to-day. An officer, accordingly, was sent ashore yesterday afternoon to formally demand the surrender of the port of Ponce, three miles from the city.

The officer was greatly surprised to learn that not only the port but the city of Ponce was ready to capitulate.

The Spanish commandant, Julison San Martin, with 1,000 men, without artillery, had been taken completely by surprise, and on the advice of the British consul, had decided to make no resistance.

A force of marines was immediately landed from the Annapolis and the American flag was hoisted over the custom house in the port of Ponce. During the night the Spanish troops retired from the city and took the road leading to San Juan, where it is probable that Captain General Macias will eventually concentrate all the Spanish forces in the island.

In the morning General Miles established headquarters at the custom house and raised the American flag.

Among the prizes found in the harbor were seventy lighters used in loading sugar ships, and these were used instead of cutters to convey the troops ashore, during which operation not a man or animal was injured.

When the soldiers reached the wharves along the water front they were greeted with shouts of joy and cheers by thousands of residents.

There were cries of "Vivan los Americanos!" and "Puerto Rico Libre!" The red shirted firemen came down to the wharf in a body and cheered lustily.

Captain Lyons, with Company K of the Sixteenth regiment, immediately marched to the city and established a provost guard in the municipal building. The soldiers were billetted in the frescoed and gold decorated room of the alcade.

On every hand the greatest satisfaction was evidenced. Women adorned themselves in their brightest gowns and waved their hands and smiled as the troops marched through the streets. The doors of the merchants' houses were opened and the whole city presented the appearance of a fete day. The poor were especially joyful.

The city of Ponce is romantic and picturesque, with buildings of old Moorish and Spanish architecture. Its broad plaza, blue, pink and green tinted houses present a pleasing appearance and its streets are clean and well paved.

The inhabitants are mostly native Porto Ricans, a well defined race resulting from a blend of Spanish and original Caribs, with a sprinkling of foreigners, mostly French and Germans and a few English and Americans.

General Henry will effect a juncture with General Wilson here as soon as possible, and their troops will await the arrival of others on the way.

Volunteers Flock to Miles' Army.

Washinton, Aug. 1.—General Miles sent the following dispatch to Secretary Alger. Which was made public at the War Department late last night.

Ponce, Porto Rico, July 31, 98, 3,35 P. M.

Secretary of War, Washinton, D. C.

Volunteers are surrendering themselves, with arms and ammunition. Four-fifths of the people are overjoyed at the arrival of the army. Two thousand from one place have volunteered to serve with it. They are bringing in beef, cattle and other needed supplies. The custom house has already yielded $14,000. As soon as all the troops are disembark they will be in readiness to move.

Please send any national colors that can be spared to be given to the different municipalities.

I request that the question of the tariff rate to be charged in the parts of Porto Rico occupied by our forces be submitted to the President for his action, the previously existing tariff remaining meanwhile in force.

As the Government and military occupation, I have already given instructions based upon the instructions issued to me by the President in the case of the Philippine Islands, and similar to those issued at Santiago de Cuba.

MILES.

Major General Commanding.

The Feeling in Madrid.

Madrid, Aug. 1.—Marked sadness is visible in ministerial circles, from which it is easily gathered that the answer from Washington has been harder than was hoped.

The ministers of the crown are discussing the president's reply.

The ministry desires peace absolutely and is thoroughly sincere in the matter, the best proof of which is the ample measures taken to repress any movement on the part of the enemies of peace, that is, the Carlists.

Nothing is published about the reply, and expectation is high.

The manner in which the natives of Porto Rico received the Americans made a deep impression here.

An Open Harbor Now.

New York, Aug. 1.—New York harbor is again on a peace footing. The submarine mines have been taken up and stored in safe places and the restrictions against entering or leaving port between the hours of eight o'clock in the evening and four in the morning pass at any hour of the day or night. The last of the mines was taken up Saturday.

Survived His Own Funeral.

New York, Aug. 1.—One of the heroes of the San Juan hill, who has the distinction of having survived his own funeral, presented himself on Governor's island Saturday. He was Sergeant George E. Blackmer of Company I, Second Massachusetts Volunteers.

DEATH OF BISMARCK

The Founder of Modern Germany Is No More.

LAST ILLNESS WAS BRIEF

The End Came Suddenly but Peacefully at 10:34 Saturday Evening. Though He Had Been Ill for Several Days Yet His Physician Did Not Think His Condition at All Alarming.

Berlin, July 31.—Prince Bismarck died shortly before 11 o'clock last evening.

Details of the death of the prince are obtained with difficulty because of the lateness of the hour, the isolation of the castle, and the strenuous endeavors of the attendants of the family to prevent publicity given to what they consider private details.

The Lokal Anzeiger publishes a dispatch from Friedrischruhe saying that Dr. Sshweninger was present when Prince Bismarck died, having arrived from Berlin at half past ten o'clock. The prince was unconscious for several hours before his death, and his breath almost failed repeatedly. He died without a struggle.

The death of the former chancellor comes as a surprist to all Europe. Despite the family's denials, there was an undercurrent of apprehension when the sinking of the prince was first announced, inspired more by what was left unsaid than by any information given. But when the daily bulletins chronicled improvement in the prince's condition, and detailed his extensive bills of fare and told of his devotion to his pipe, the public accepted Dr. Schwininger's assertion when he said there was no reason why Bismarck should not reach the age of ninety years.

PRINCE BISMARCK

It appears that the former chancellor's death was not precipitated by sudden complications, but was rather the culmination of chronic disease—neuralgia of the face and inflammation of the veins—which kept him in constant pain, that was borne with the iron fortitude which might have been expected.

The beginning of the end dates from July 20, when the prince was confined to his bed. He had been several days prostrated before an inkling of his decline reached the world, when the Berlin correspondent of the London Times announced that his condition was most critical.

Otto Edward Leopold von Bismarck was born at Schonhausen on April 15, 1815. He was the fourth in a family of six children, three of whom died early. His father was a merry, handsome country gentleman, full of wit, fond of the chase, genial in manner. His mother was a refined and cultivated woman, proud, beautiful and ambitious; a queen in society, a great chess player. She was the brain of the household; the father was its heart. She strove to arouse ambition in her son and predicted his success in diplomacy. The father took most pride in his son's horsemanship.

Otto von Bismarck passed his school years in Berlin, and in 1832 entered the University of Gottingen, where he led a wild, reckless life. During the first three terms of his university life he fought twenty-one duels and received only one wound. Retiring to the University of Berlin, he attended only two lectures, but succeeded in passing his examination with credit. Among hise acquaintances in the university was J. Lothrop Motley, the historian.

After leaving the university Bismarck practised law and found employment in government offices; but the restlessness which his university life had induced was a habit which he could not easily outgrow. He travelled in Belgium and France during the summer and autumn, and in the winter society and the court festivities enticed him away from the cares of official life. One night he accompanied a young lawyer to a court ball and was introduced to Prince William. Looking at the stately forms of the two young lawyers, the prince said with a smile: "Well, justice seeks her young advocates according to the standards of the Guards." This was he first meeting between the Emperor William of the future and his chancellor.

In 1837 the young barrister removed to Potsdam, where he served his year in the army. In 1839 he entered upon the management of the family estates at Kniephof, which his father had relinquished to him and his brother. Under his administration his farms were made remunerative. He was a country squire of the old school—a bold rider, an enthusiastic sportsman, a terrible drinker. Suddenly when all the world was predicting the moral and pecuniary ruin of "Mad Bismarck," he gave up his wild courses and began to read history and to study theology and philosophy, especially the works of Spinoza.

After his father's death, in 1845, he established himself at Schonhausen, and married Fraulein Johanna von Putkammer. His home life was a joyful experience. Even on the busiest days, during the most wearisome journeys, amid the most engrossing cares of state, he found time to write to his wife a few words of tenderness and affection. "Mad Bismarck" became a model husband. "I can't think how I endured it formerly," he wrote to his wife. "If I had to live now, as then, without God, without you, without children, I don't know why I should not throw off this life like a dirty shirt; and yet most of my acquaintances are so and live their life."

Deputy and Ambassador.

The country squire was summoned in his thirty-third year from the peaceful seclusion of Schonhausen to serve his sovereign and Germany. He entered the chamber of deputies with a country nobleman's prejudices against democratic innovations. "More liberty within; more power without." That was the cry of northern Germany in the feverish epoch in which Bismarck came to the front.

In May, 1851, Bismarck was sent to the Diet of Frankfort as first secretary of legation, and three months later he was promoted to the rank of ambassador. He occupied this post for eight years, and during this period his political views underwent a radical change.

In May, 1862, Bismarck was appointed minister to Paris, and soon after presenting his credentials he went to London and had a long conference with Lord Palmerston in reference to his anti-Austrian policy.

On October 8, 1862, Bismarck was summoned by King William to Berlin to take the post of premier and minister of foreign affairs. It was not the same Bismarck who had led the Conservatives and been a thorn in the side of the Liberals in 1848. He was a king's man still, a born feudalist, who believed in kingship and hated social anarchy. But at Frankfort and St. Petersburg he had studied diplomacy under great masters, and his political horizon had widened. A hearty advocate of the king's plan for the reorganization of the army, he realized the need of a firmer consolidation of the defensive powers of Germany.

For 28 years he held the office of chancellor and was master of the German empire. Space forbids us to record the many important transactions of those eventful and stirring times, but in war and peace Bismarck's will was supreme.

His most brilliant achievement after the peace of Frankfort was the alliance with Austria. During the war with France the hostile intentions of Austria had been restrained by the menaces of Russia. After Sedan friendly relations were renewed, and when Count Andrassy succeeded Count Beust a hearty alliance was formed between Berlin and Vienna. Subsequently, by affecting a reconciliation between Austria and Russia, Bismarck laid the foundations of the triple alliance. After the defeat of the Russians at Pleyna he brought the German and Austrian emperors together at Ischl, to strengthen the bonds of alliance, and when peace was made under the walls of Constantinople, he converted the three-emperor alliance into a two-emperor contract, opening a career for Austria among the southern Slavs, giving her compensation in Bosnia and Herzegovina, for the provinces lost in Italy, and creating a counterpoise to Russia in the Balkan peninsula. After 1870 Bismarck used his immense diplomatic influence on the side of European peace. He was the master spirit of the Berlin congress in 1878. He sided with Great Britain in the Egyptian settlement. He uniformly made a benificent use of his enormous power in diplomacy. He resigned the chancellorship on March 17, 1890, and retired to private life with a consciousness of having received from the grandson scant recognition of the services rendered to the grandfather.

Bismarck's statesmanship is to be judged by its fruits, and these are to be garnered in years to come.

Americans Win in Canada.

Ottawa, Ont., Aug. 1.—The Canadian swimming championships were held here Saturday. The American swimmers secured all of the first places.

D. M. Reeder of the New York Athletic Club won the one hundred yards in 1.33 3-5. Wilkinson of Toronto was second. Paul Newmann of the Chicago Athletic Club was practically second, but was carried by the current below the finish mark.

Newmann won the half mile by fifty yards in 14.13. There was a great race for second place between Douglass of New York and Lawless of Ottawa. Douglass was second by seven feet. Fitzgerald of New York was fourth.

Douglass and Lawless were tied in the swim under water, and in swimming off the tie Douglass won.

Natives Fear Spain's Rule.

London, July 30.—The inhabitants of the Philippine islands have called upon the American press for aid in directing public opinion to support the plan for the retention of the islands by the United States.

While the islanders wish to govern themselves, they desire that the United States should establish a protectorate over the Philippine group.

America, they say, cannot dishonor the pledges given by Consul Generals Pratt and Wildman and by Admiral Dewey, and they contend, to abandon the country to Spain would mean a resumption of the spoils system and a return to the disorder attendant upon Spanish sway.

Steam Up on the Maria Teresa

Washington, Aug. 1.—The navy department has posted the following dispatch from Admiral Sampson:

Playa, July 29.

The Infanta Maria Teresa, upon which the wreckers are now engaged, will be floated and brought to Guantanamo as soon as a small leak is located, which is somewhere in the bow of the ship. Whether this leak is due to a small valve being left open, or to a hole which may have been made in the bow, is not yet known. Her own pumps are now being used to remove the water, there being steam up in one of her boilers.

SAMPSON.

To Klondike by Balloon.

Vancouver, B. C., Aug. 1.—A party of French scientists, headed by Dr. Verwange, started for Skaguay last night by the Rosalie. At Skaguay they will fill with gas a balloon they have with them and will attempt to reach Dawson by aerial navigation.

Boston Harbor Clear.

Boston, Aug. 1.—All ships and vessels may now leave Boston harbor at the pleasure of their officers, Colonel E. L. Mansfield of the United States engineer corps having removed all restrictions.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

Unjust Criticism.

It is with a characteristic lack of knowledge of the situation that Editor Runyon criticises the Borough Board of Education for their delay in starting work on the new schoolhouse in North Plainfield. The bonds, he says, have all been sold at a premium, but the Board is still delaying the erection of the new building. Then he mourns upon their slowness and says many foolish things. Had our friend in the sanctum of the News taken the trouble to look into the matter, he would have seen how utterly uncalled for his criticism was. It is a fact that all the school bonds have been sold, or rather purchasers have been found for all of them. The bonds have not yet been delivered, as the intending purchasers are looking into the status of the bonds before taking them.

The principal reason for the delay in awarding the contracts for the schoolhouse arises from a spirit of fairness and justice that pervades the Board. The members of the Board, and rightly, too, feel that it is the right of every builder and contractor in the city to have a chance to bid on the building. Four sets of plans and specifications have been in circulation for some time, and everyone of those who care to are given a chance to figure on the work. The Board will meet some evening this week and receive these bids, open them and award the contract to the lowest bidder.

Instead of the unjust criticism to which the Board has been subjected, their actions are in reality deserving of commendation. It would be far easier for them to hurry the work through with as little trouble for themselves as possible. They are working in the interests of the borough, however, and the fact should be fully recognized by those in whose behalf they attend to the educational affairs of the borough.

Some of the most curious of lawsuits have grown out of inheritance cases where husband and wife have perished in a common catastrophe. The issue has been to determine whether husband or wife died first, thus fixing the line of inheritance for the relations of one or the other. Such a case has sprung from the Bourgogne disaster, involving the disposition of some $30,000. The presumption in such cases in absence of proof is always against the wife, as being the party of naturally inferior strength.

The prize ring is still in evidence with its batteries of fists and bellowing of loud mouthed braggarts. It is a noticeable fact, however, that while nearly all trades, professions and ranks of society are represented in the ranks gallantly risking life for national dignity and honor, not a single known pugilist has gone to the front. These "flash" gentry find fisticuffs far more safe and profitable. Such vermin naturally dislike the purring of the Mausers.

Mr. Cunninghame-Graham, a well known British "crank" and an ex-M. P., has written to the St. James Gazette, charging that the admirable precision of Dewey's gunnery in the Manila battle was due to British deserters, decoyed from the China fleet by high wages. Now he will probably add that Sampson's marksmen ran away from British men-o'-war at Halifax and Nassau.

Peace.

The option of peace lies within the grasp of Spain. All illusion, which deceived her people like a mirage appearing to a desert traveler, has been dispelled. There is scarcely a section of the Iberian peninsula now within reach of a newspaper which does not smart under the knowledge of irretrievable defeat and a premonition of woes to come. There can be no expectation in continued fighting except of still more crushing reverse. The only thing which could now feed Spain's dogged obstinacy in suffering further sacrifice of men and money is the fear of domestic convulsion. Certainly the spirit of proud sentimentalism has gone as far as it need. Nations of Europe desiring a settlement of the Spanish-American issues can help to accomplish it by guaranteeing the monarchy against the chaos of Carlism and revolution. This insures Queen Christina's ministry in dealing with peace negotiations as the sole problem to be studied.

One thing stands, however, immutable with the present current of American sentiment. Spain must needs submit to such terms as to the loss of her colonial possessions as we of our free will choose to dictate. It is not simply a question of grasping new territory on the part of the United States, nor is it confined to the exaction of the only substantial substitute for a war indemnity in money which a bankrupt nation can offer. Spain has misgoverned and debased every dependency she has ever owned. She has lost colony after colony from this cause. In the interests of humanity and civilization the end must come to a power which has been weighed in the scales and found wanting in all those qualities and ideals which justify power. The sooner Spain swallows this wholesome and bitter gall of knowledge the better for her. This country does not lack in chivalry or pity for a fallen foe. But America will stultify herself if she does not exact from Spain complete cession of further right to inflict misery and stagnation elsewhere than on her Mediterranean shores.

Reorganization In Cuba.

The instinct of the English speaking peoples is to build up as well as to tear down. This is well illustrated in the prompt measures to reconstruct the conditions of order, government and trade in the city and province of Santiago. Immediately on the surrender of that center of eastern Cuba, with its 25,000 defenders, to General Shafter's army of inferior number, a system of administration was organized wisely and liberally planned. The Cubans appear to have been greatly disgruntled because the province was not handed over to them to govern in their own fashion. The American government naturally prefers to give its insurgent allies some lessons in the arts of political and civil management before relegating to them so difficult a task. Spanish-American peoples left to themselves have not proved themselves adepts in these most complicated problems of civilization. The disposition suspected from certain Cuban manifestations, too, rather to obey the dictates of hate and persecution toward the opposing element than to follow the policy of conciliation and clemency has had its due weight. We have no sympathy with the cruel and revengeful instincts of a Spanish inheritance. What we did not do in our own war we shall not permit in a foreign war.

The American administration imposes no restraints on life, liberty and business, except such as are essential to law and order. The military problem having been settled, freedom of action and complete protection are guaranteed to all who refrain from hostility to the new regime. This forecasts what the whole policy will be in treating the question as we gain further possession. The sooner the Cuban insurgent government learns to acquiesce and follow cheerfully in the same steps the sooner it will achieve its ambition and justify itself before the world.

Aguinaldo, the insurgent leader in Luzon, evidently distrusts the purposes of the Americans. The proposition of his committee to Captain General Augusti to unite the Spaniards and the Filipinos under one flag, declare a republic, persuade the Americans to withdraw or invoke the interference of the powers, has a treacherous ring quite in accord with his career.

Kaiser Wilhelm the Restless will visit Jerusalem this fall. It will not be with scallop shell on breast in dress of humble palmer to expiate his imperial sins, but in all the peacock gorgeousness of Solomon himself. He will march to the clangor of drums and trumpets and cymbols and patronize the scene of Christ's life and crucifixion with his usual condescension.

The regulars, who fought with the Seventy-first, New York volunteers, in two terrible charges, resent as bitterly the charge of cowardice made against the latter named by a certain New York paper as if made against themselves, if the statements attributed to them are half way true.

The first fruits of Hawaiian annexation crop out in the desire of our new countrymen to enlist in any service under the stars and stripes. There is a fascination in feeding at the public crib, even to the extent of shouldering a rifle.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The tax rate of Orange will be $2.76, an increase of twenty-six points. A jump in the rate was inevitable, because last year's rate was based on a year of eleven months, but we are not so sure but that our municipal authorities might have, by the exercise of greater economy, saved several points. In East Orange the rate will be $2.65, an increase of fifteen points. In West Orange the rate will be also an increase, while Montclair leads all in this regard with a rate of $3.23. Up-to date municipal government comes high.—Orange Journal.

* * * * *

Our game laws are coming in for some publicity. Game associations have tied up some matters to the detriment of the citizen. Game associations are entitled to respect and protection but that protection should not work to the detriment of others, and game wardens should not have laws made to feather their own nests, The farmer on his own property should be permitted to judge of the necessities. If robbins destroy the strawberries why has not the owner a right to kill the robin as we have to kill the burglar who enter our room at night? By insuring the robin's life here, gives the Pennsylvanian more chance to kill and eat robin dinners, as there the robin is not protected. If rabbits are destructive to trees and vegetation, and damage property, there is no good reason why the damage should not have redress. Why should a property owner be legislated into meekly standing by and having his pockets picked. Just why our game associations should wish to close in so tight is beyond explanation, it is controlling matters to the detriment of the masses.

Hunting is purely pleasurable is all right, and it is proper that the interests be fully protected up to the point of reason and right, but not beyond and where there must be a conflict with the rights of property and the protection of individual interests. The individual may depend in part or entirely upon his crops which are not subject to protection against game that is protected. Has then, the Legislature the right to protect the destruction of the thing that destroys, while the constitution gives the right to protect property. Is not the absolute protection of some classes of game, working a wrong to some and is it not a species of harboring a legal nuisance?—Hackensack Republican.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Wednesday evening, June 30, 1898, a tremendous quadruple entertainment was given in New York to Oscar Hammerstein, as a testimonial to his worth as a progressive theatrical manager. The stars of the profession in every line participated. The great Madison Square Garden, the Madison Square Roof Garden, the Garden Theatre, and the Harlem Opera House, were all employed to give the representatives. The monster minstrel feature, under the direction of J. H. Haverly, as is explained elsewhere, occupied the Garden Theatre, and everybody of note in the minstrel world participated. Whole pages of the newspapers the next day were devoted to the huge event, which was originated and carried through to a successful termination by the "New York Telegraph."

The following few lines, referring to the minstrel part of the Garden Theatre, taken from the Hammerstein page of that paper, is a sample of the expression of the entire New York press. A book of one thousand pages could not say more. Mr. Haverly made a contract with these ladies there and then.

"The hit of this portion of the entertainment was made by the Nichols Sisters, who were wildly encored."

These talented artists will be seen with J. H. Haverly's American-European Minstrels at Stillman Music Hall, Thursday evening, August 4th.

J. B. Mills has rented his cottage on Johnston's Drive, near the Mountain Park Inn, to F. Richard Stevens, of 145 East Fifth street, and Mr. Stevens and family took possession this morning. They will probably remain during the month of August.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 1.—Tonight there will be a regular session of the Borough Council.

Presiding Elder G. W. Smith, of Plainfield, occupied the pulpit at the M. E. church yesterday morning and preached a powerful sermon. The attendance was very large. In the evening the pastor, Rev. E. S. Jamison, preached.

There are good prospects that the Central Railroad Company will erect a freight station in the borough this fall. It is understood that the company has practically decided on what kind of a structure to put up.

"Tommy" Martin, the popular warden of the Plainfield city jail, has opened an ice cream saloon in the store adjoining the postoffice.

O. A. Douglass, representative of The Call, who spent Sunday at his former home on Staten Island, has returned home.

The usual service was held yesterday afternoon in the park under the auspices of the American Volunteers, of Plainfield.

Mrs. James Bowyer and Miss McAllister, of Church street, have returned from a visit with Plainfield friends.

Mayor Brakeley, who was taken ill last week, is very much better and he will soon be able to attend to his duties.

W. L. Terry and family, of Church street, have returned from Asbury Park, where they spent the month of July.

Mrs. Adam Dealaman and family, of Washington avenue, are spending the month of August at Asbury Park.

Rev. A. I. Martine, of Church street, has gone to Nyack, N. Y., where he will spend a portion of his vacation.

Wm. G. Holton Council, Jr. O. U. A. M., will hold a regular meeting tomorrow evening in Apgar's Hall.

Rev. E. S. Jamison, pastor of the M. E. church, has gone to Ocean Grove to spend his vacation.

Miss Ransom, of Plainfield, who has been visiting at the home of S. P. Brown, has returned home.

Next Saturday the members of the Dunellen Gun Club will participate in a shoot at Bound Brook.

Next Saturday afternoon there will be bowling on the green at the home of Mr. Schepflin.

Employes of the Brunswick Traction Company are now stringing wires in the borough.

There will be a meeting of Rockview Council, Daughters of Liberty, this evening.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 1—Tomorrow at noon at the Seventh-Day Baptist church will occur the marriage of Miss Hannah Lillian Larkin, daughter of Mr. and Mrs. George S. Larkin, of this place, to Jay William Crofoot, of Alfred, N. Y.

Yesterday morning at the First Baptist church Rev. F. E. Peterson, pastor of the Seventh-Day Baptist church, occupied the pulpit. The attendance was large and Mr. Peterson delivered an interesting sermon.

Rev. Frank Fletcher will leave town this week to enjoy his annual vacation, which will be spent at various places of interest.

Miss Gaskill, of North Plainfield, has been visiting relatives in town.

PLAINS AND FANWOOD.

(Local Correspondence of The Daily Press.)

Scotch Plains, August 1—The grand union excursions of the Baptist, Methodist and Episcopal Sunday-schools, together with six Sunday-schools from Westfield, Willow Grove and Locust Grove, goes to Asbury Park tomorrow and Scotch Plains will have a deserted look, as they expect to take a large crowd.

Rev. Dr. Perry, of Hightstown, this State, occupied the pulpit in the Baptist church Sunday morning and evening. Dr. Perry was the guest of Dr. and Mrs. Westcott during his stay in town.

The Berkeley Heights and New Providence baseball clubs played a ten innings game on the latter's grounds Saturday. When the rain stopped the game, the score stood 2 to 2.

Mr. and Mrs. Edward Emery and family are visiting Mr. and Mrs W. S. Emery, Mr. Emery's parents.

Miss Florence Monte led the Christian Endeavor meeting in the Baptist church Sunday evening.

Fred. Haberle, of Plainfield, was the guest of his friend, John Stillger, yesterday.

August Maturn, is spending a few days with Edwin Fancher, of the borough.

Mr. and Mrs. E. L. Hand and Miss Minnie Hosinger visited Camp Black Sunday.

Mr. and Mrs. George Johnston spent Sunday with relatives in Plainfield.

Phillip Radin spent Sunday with his daughter in Plainfield.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 1.—The Westfield baseball team went up against the crack Riverdale Club Saturday and at the end of the seventh inning when the game was called the score stood 22 to 2 in favor of the visitors. The home team players never did such poor work as at this game. McLarty, of Plainfield, was in the box and he could not find the home plate and when a ball by chance came anywhere near being a strike the batters would send it out in the field for a single or double. Lee had some costly errors on third, and there might better have been a man made of sawdust covering shortstop, as Chauncey Smith who as a ball player Saturday was simply no good. He not only missed everything that came in his hands but was afraid to take chances on many of them, preferring to let the batters get base hits in preference to running the chance of making an error for himself.

Frederick C. Decker, R. M. Stickle, of The Standard, and Frederick Ziegler, went to Fort Wadsworth yesterday to see the Westfield boys who are members of Company C, of the Third Regiment, stationed there. They also saw some of the wounded soldiers who were brought up from Santiago and are now in the United States Marine Hospital at St. George, S. I.

There promises to be an interesting meeting of the Board of Health Friday evening, when it is supposed there will be a complaint from some of the taxpayers about the way the health inspector is doing his work.

The Board of Education will meet tomorrow evening at 8 o'clock in the public school building on Prospect street.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, August 1.—Miss Gertrude Wrench, of Mountain avenue, returned home Wednesday from a visit to friends in Brooklyn, and Friday evening about twenty of the young people of the town, without any warning, marched to her residence and took possession. The surprise, as planned, was perfect in its details, and then followed a delightful social time. Recitations were given by a number of young women present, and Samuel Lawrence rendered one of his fine tenor solos which was much enjoyed. Refreshments were served and a most enjoyable evening was spent until the small hours, when all departed for home well pleased with the first surprise party this town has had.

What came near being a serious accident befell Miss Ella Wagner last week. Having occasion to cut a piece of clothes line, she used a hatchet which had just been sharpened, and with the usual good aim a woman makes on such occasions, she cut the end of her thumb off. It is now healing nicely.

Assistant Postmaster Van Polhemus entertained his sister and Fred Sutfin, of Stroudsburg, Sunday.

Mr. and Mrs. Martin I. Cooley have returned to their home on Rockview avenue, after a few weeks spent in Nova Scotia.

How's This.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

John Shey, of Bound Brook, is visiting friends in town.

Fred Roes, of Prospect place, has returned from his annual vacation.

W. B. Mosher, of Madison avenue, is spending two weeks at Andover, N. Y.

Miss Bessie Smith, of Brooklyn, is visiting Miss Mamie Clark, of Liberty street.

H. B. Salkeld and family, of Sandford avenue, are summering at Lake Winola, Pa.

Mrs. Horace J. Martin and family, of Jackson avenue, are stopping at Asbury Park.

Miss O'Berge, of Haverford, Pa., is a guest at the home of B. J. Shreve, of Grove street.

Chief Marshal Wilson, of the borough, has completed his vacation, and he is again on duty.

P. B. Hodge and family, of Plainfield avenue, have gone to Asbury Park for two weeks.

Mr. and Mrs. Lemuel W. Serrell, of Crescent avenue, have gone to Hathaway Inn, Deal Beach.

Wm. Pearson, of Vine street, left Saturday afternoon for a two weeks' stay at Lake Hopatcong.

Miss Laura J. Runyon, of East Fifth street, is visiting friends at Cornwall-on-the-Hudson.

Charles Burnett and family, of Madison avenue, have returned from an outing at Asbury Park.

Mr. and Mrs. W. W. Coriell, of West Front street, are stopping at the White House, Asbury Park.

A. S. Patterson and family, of Central avenue, have gone to Jamestown, R. I., for the summer.

Mr. and Mrs. Charles F. Stephens, of Trenton, are visiting Mr. Stephens' parents on West Second street.

Robert Davis, assistant secretary of the Y. M. C. A., will spend his vacation this month at Liberty, N. Y.

Former Mayor William L. Saunders and family, of Washington Park, are stopping in the White Mountains.

Mrs. W. C. Hubbard, of West Seventh street, is sojouring at the Stillman House, Noyes Beach, R. I.

Rev. Dr. W. R. Richards and family, of East Front street, are spending their summer at Chatham, Mass.

City Clerk MacMurray spent yesterday at Asbury Park with his wife, who is stopping there for the summer.

Mr. and Mrs. Frederick Benner, of Reading, Pa., are visiting Mr. and Mrs. William Ayres, of West Third street.

Mr. and Mrs. H. C. McVoy, of Sandford avenue, and Miss Josie O'Brien, of Troy, spent Saturday at Boynton Beach.

Mrs. Walter Dodge, of Newton Centre, Mass., is visiting at the home of Randolph M. Stelle, of Central avenue.

Miss Minnie Smith, of White's dry goods store, who has been spending her vacation in Connecticut, returned home today.

Mrs. J. H. Gould, of Rockview avenue, is spending the summer at Camp Osternold, Lake Placid, in the Adirondacks.

William Sampson and family, of East Fifth street, are stopping at Monticello, N. Y., enjoying their summer vacation.

Edward Ross, a clerk in Willett & Son's shoe store on Park avenue, has returned from his vacation, and again resumed work.

Marshal William Campbell, of the borough, started on his vacation today, and he will spend most of the time in Newark.

Harry and LeRoy Hann, of Somerset place, are spending their vacation with Mr. and Mrs. William L. Julliard, at Sergeantsville, this State.

Harry Bartling and family, of Boston, who formerly resided in Washington Park and are well-known there, are spending their vacation at Mantilus Inn, Point Alberton, Mass.

Mr. and Mrs. Will F. Williams, of Central avenue, who have been enjoying a vacation of ten days, will return this evening to their home. They have been stopping in Philadelphia most of the time.

Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, will take his vacation the latter part of this month. During his absence Rev. Charles Dunn, of Freeport, Ill., will preach at least one Sunday.

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—The Y. M. C. A. meeting yesterday was addressed by John Gilchrist, of New York. C. M. Evans rendered a whistling solo.

—Gavett is showing a new line of green and gold glassware that is taking well. His line of fine china and cut glass is complete.

—The "fresh air" children who have been stopping in Plainfield for the past ten days returned to their homes in New York today.

—Tonight Elder Horton speaks on "Present Day Thoughts on Leviticus 16." Tuesday night, "Church Foundation; Christ or Peter."

—Next Wednesday afternoon at 4 o'clock the Woman's Foreign Missionary Society of the First Baptist church will hold its regular monthly meeting.

—Next Sunday at 4:15 p. m. the Y. M. C. A. meeting will be addressed by Private F. Keuhnle, of Co. D, 71st Regt., N. Y. Vols., who was wounded at Santiago.

—Tonight, (Monday,) Prof. V. C. Mengers, brother of Rev. Mr. Mengers, of Philadelphia, will speak in the German Lutheran church. Good music by Miss Ebel.

—The minutes of the last session of the East New Jersey Baptist Association have been received at the Park Avenue Baptist church, and can be secured from the ushers or the church clerk.

—VanArsdale starts in today with his semi-annual clearance sale of summer footwear of some regular lines and all odds and ends of stock. This is a good chance to buy up-to date shoes at a low price. VanArsdale always has a clearing-up time about the end of every six months, and it will pay you to investigate if you need shoes or oxfords.

PARTICULAR MENTION.

Fred Ross, of Park place, has returned from an outing at South Branch.

Martin McComas, of New York, spent yesterday with his family on Stebbins place.

Robert Schriener, of Randolph's pharmacy, will start August 28th on his vacation of two weeks

Mr. and Mrs. William M. Stillman, of West Seventh street, are registered at The Antlers, Racquette Lake, N. Y

Mr. and Mrs. Wm. McBeth, of Newark, are spending a few days with Mrs. McBeth's parents on Stebbins place.

Miss Blanche Fellows, of Westervelt avenue, started today for Saratoga, N. Y., where she will spend several weeks.

Edward B. Ryder, Jr, of Central avenue, is spending the month of August at his father's cottage in Asbury Park.

Private Frank Haurand, of the borough, who is stationed at Fort Hancock, spent Saturday night and Sunday at his home.

Miss Hicks, of Brooklyn, returned home last evening after a delightful visit with her friend, Mrs. A. J. Leader, of 63 Duer street.

Dudley Miller and family, of Orchard place, will take the last two weeks in August for their vacation, which will be spent at Seabright.

Mr. and Mrs. J. H. Greene and Miss Grace Agnes Crane, of this city, were guests of the N. J. A. C. at the clubhouse, Bayonne, Saturday afternoon, to witness the annual regatta.

6 4 3m-m-th-s M. E. WISTAR.

In Chancery of New Jersey.

To Samuel H. Kellogg and Sarah C. Kellogg, his wife, and Caroline M. Coolidge and Henry L. Coolidge, her husband

By virtue of an order of the Court of Chancery of New Jersey, made on the day of date hereof in a cause wherein Phebe M. Sprague is complainant, and you and others are defendants, you are required to appear, plead, demur or answer to the bill of said complainant on or before the twenty-seventh day of September next, or that in default thereof such decree will be made against you as the Chancellor shall think equitable and just.

The said bill is filed to foreclose a mortgage given by Samuel Kellogg and Eliza S. Kellogg, his wife, to Gottlieb Fritz, dated October 25, 1876 and recorded in book, No. 40, of mortages for Union County, on page 573, &c., on lands in the city of Plainfield, in Union County, New Jersey, and held under assignment by said complainant, and you, Samuel H. Kellogg and Caroline M. Coolidge are made defendants because you own said lands or some part thereof, and you, Sarah C. Kellogg, are made defendant because you are the wife of said Samuel H. Kellogg, and may thereby claim an inchoate right of dower in the portion of said mortgaged lands owned by your said husband.

And you, Henry L. Coolidge, are made defendant because you may claim an interest as tenant by their curtesy in the portion of said mortgaged lands owned by your wife, Caroline M. Coolidge.

Dated July 26, 1898.

Edward White.

NEW YORK FASHIONS.

Shirt waists of every variety continue high in popular favor. Nearly every sort of material is suitable for these useful garments and they may be made as ornate as desired. The pattern with the pouched front is the most fashionable just at present, with the

yoke extending well over the shoulder.

A pretty model of sprigged organdie has the front tucked from top to bottom. The band down the center is bordered on either side with narrow ruffles of the material. The sleeves are the regulation shirt waist model, finished at the wrist with a turned back cuff.

Gray a Fashionable Color.

Entire costumes of gray in very many different tones will be highly favored all summer, and skirts of gray vigogne, mohair, canvas, etamine, ladies' cloth, and repped silk or wool will very largely take the place of the useful and universal black skirt so long worn with fancy waists and jackets. Some of the smartest toilets worn at the recent fashionable gatherings in Paris—on varnishing day, at the horse show, and the like—were made of gray in some striking or elegant combination or wholly of one handsome fabric, with white silk or satin guimpe, and vest-front trimmed with gold or silver braid, or again combined with mauve, red, or Spanish yellow. In evening toilets are some exquisite gowns in gray crepe de chine, crepon, nun's-veiling, silk, or silk gauze, or mousseline de soie, made up over rose-colored or brilliant coquelicot red satin or taffeta.

To Clean Fine Lace.

Before fine laces are immersed in naptha or benzine or even alcohol, for this, too, will clean them, although it takes longer, they should be basted with a fine needle and thread on a piece of very thin muslin or old linen. Some of the most expert professional cleaners still use the powdered French chalk to cleanse these valuable possessions. The lace is thickly sprinkled on both sides with the chalk and spread on a thick sheet of writing-paper, covered with a second sheet and placed under a heavy press for several days. In most households the unabridged dictionary is considered the requisite weight. When the lace is taken out, it is lightly shaken to dust off the powder, and its soil will be found to have gone with it.

Dainty Catch-Alls.

A woman packing her trunk for the summer was noticed to lay in two or three stiffly starched square linen doilies. To an inquiring observer she explained that these were for catch-alls when established in her farmhouse summer rooms. "I fold two ends together, tying them at three places with ends of narrow ribbon to make a cornucopia. Sometimes for an especially elaborate one I work eyelet holes down one side with pink or blue silk, and lace my horn into shape with narrow ribbon or cord of the same color. This largest one I shall hang the day I arrive at my summer quarters on the piazza, and it will save many a bit of paper and embroidery silk otherwise tossed over the railing on to the grass."

Flowers Six Thousand Years Old.

Well preserved flowers discovered at Dahsourh, in Egypt, in tombs of the times of the Pharaohs, have just been placed in the Cairo Museum. The commonest of these were the white or blue lotus, the red poppy, the leaves and flowers of the pomegranate, of the saffron, and of the crocus. It seems that the flowers and plants of to-day are the same as flourished then, and that chrysanthemums were known 6,000 years ago. Some of these flowers found in the tombs, when soaked in water, seemed to revive.

French Bathing Suits.

French women are going to take their dips in the sea this summer in black satin and black taffeta bathing dresses. It has been discovered that these fabrics stand the sea water excellently. One would wish, however, to observe the experiment carefully before deserting the known virtues of mohair and good quality flannel.

Probably the smallest painting in the world is that by a Flemish artist on the smooth side of a grain of common white corn, and picturing a mill and a miller mounting a stair with a sack of grain on his back.

Black and White Combination.

A very pretty fashion this summer is the combination of black and white goods—fine muslins and dotted swisses with velvet or silk trimming.

A lovely model of dotted mousseline has the skirt made perfectly plain over a lining of white taffeta. The corsage is tight fitting with the exception of a slight fulness in the front. The yoke,

of embroidered Swiss extends over the shoulder to form epaulets and is edged with ruffles of fine pleated lace. The sleeves are tight fitting. Black velvet ribbon gives the distinctive charm to this gown and is employed for belt, collar and band across bust.

A Shrewd Surmise.

The professor, who by the way, was of Irish extraction, was presiding over the class in English literature.

"What is the meaning and derivation of the word 'impediment'?"

"'Impediment' from the Latin 'pedes,' meaning 'feet' is something in the way; literally 'in the way of the feet.'"

"Very well, someone give me a sentence using the word correctly."

"He had an impediment in his speech."

"That," quickly retorted the professor, with the flash on his face which always heralded his wit, "must have been the man who never opened his mouth without putting his foot in it."

He Is to Be Pitied.

Among the visitors to a fine art exhibition were two old ladies from the country. They were engaged in examining with great interest the statue of a young Greek, underneath which were inscribed the words: "Executed in terra-cotta."

"Where is Terra Cotta?" asked the elder of the two, turning to her companion.

"I haven't the least idea," replied the other.

"Ah, well," observed the first speaker, "it doesn't much signify! The poor man who was executed is not the less to be pitied, wherever it may be."

Silk Grenadines.

The fancy silk grenadines are lovely this year, as indeed are all the new grenadines, and never was there such a bewildering variety. The silk net gowns from famous French ateliers all show different treatment of this elegant diaphanous textile. At one noted house it is black in princesse form, over a slip of cherry-red moire. At another it forms a lovely black-and-white melange—the foundation ivory satin, with bodice decorations of white crepe lisse almost hidden by black guipure lace sprays and insertion.

Travel in Dancing.

An average waltz takes a dancer over about three-quarters of a mile, a square dance makes him cover half a mile. A girl with a well-filled programme travels thus in one evening: Twelve waltzes, nine miles; four other dances at half a mile apiece, which is hardly a fairly big estimate, two miles more; the intermission stroll, and the trips to the dressing-room to renovate

A Canary Club.

The Canary Club of Vienna have opened a canary exhibition in that city. The club is trying to foster canary raising among working people as an easy method of increasing the income of the poor. The exhibition numbers about 1,500 native canaries, and more than 500 of the Dutch variety, together with a large number of other foreign and domestic song birds.

A Curious Fact About Trees.

It is a curious fact that the roots and branches of a tree are so alike in their nature that, if a tree be uprooted and turned upside down, the underground branches will take to themselves the functions of roots, and the exposed roots will in time bud and become veritable branches.

Natty Short Jackets.

Little satin jackets in black, green, gray, and other colors are just now in great request. They are short, natty, and effective en suite, with a stylish gown, and in every instance they have the tailor finish and a silk lining of contrasting color.

Mental Arithmetic in Indian Schools.

In East India schools mental arithmetic is a vastly more serious matter than it is in the schools of this country. Catch questions are numerous, and pupils of ten years are taught to carry the multiplication table up to forty times forty.

Creamed Fish.

To splice out a chafing-dish service of creamed fish, some left-over asparagus will be found particularly useful. A cream dressing is made for the fish, and the cold asparagus cut in two-inch lengths and added with the cold fish. The two can be heated through and served on oblongs of toast.

THROWERS OF DYNAMITE.

The Vesuvius and the Nietheroy Unlike the Ships of Any Navy in the World.

With the incorporation of the Nietheroy into the United States Navy, that branch of the service will have two ships that are unlike those of any other navy in the world—destroyers on a huge plan. These two ships—the Vesuvius and the Nietheroy—are throwers of dynamite. The explosives which they throw do not depend, as do those thrown from the torpedo tubes of ordinary warships or the missile sent from a torpedo boat, on any mechanical contrivance inside of the missile. They travel through the air, and their propulsive force comes from compressed air, which is stored in a tube that is more like a gun than a tube. The shots have ranges far superior to those of the torpedo and accuracy which is almost perfect.

The one question is whether large ships like these can get near enough to an enemy to reach him with their shot. They are not like torpedo boats or torpedo boat destroyers. They are large and noticeable objects, and while the Vesuvius is armored, the Nietheroy has little defensive power. But if they do get near enough to an enemy to use their dynamite guns properly the ship against which they operate is doomed. No armor, no strength of construction, no bulkheads can save the warship that is struck by the tremendous charge of nitro-glycerine or explosive gelatine with which the aerial torpedo is loaded.

The Nietheroy originally was a merchant vessel owned by the Morgan line, and her name when she was in a peaceful occupation, was El Cid. She was bought by the Government of Brazil in the time of the last revolution there, and was to be used against the insurgents, who had seized the navy and were bombarding the forts in the harbor of Rio de Janeiro. She was refitted pretty thoroughly as a cruiser, and her coal bunkers were so arranged that they protect the machinery and the parts necessary to operate the gun. The latter is mounted in the bow, and projects through an opening in the spar deck, giving it a clear range forward and permitting a free motion on each side, so that it can be trained either to port or starboard. The air reservoirs of the gun are in the lower hold, on the starboard side, directly under the gun, and a central air pipe leads up through the foundations on which the carriage of the gun rests. Shields protect the weapon and the men who serve it.

On the way to Brazil the crew practiced with it, using "dummy" projectiles, and its accuracy was found remarkable. The gun was so new, however, that the men were almost as much afraid of it as the enemy was expected to be, and there was considerable relief on board when it was found on arrival in Brazil that there would be no need for firing it with real dynamite, as the revolution was over. Since then the successful installation of two batteries of these guns in United States forts has made artillerists more confident, and much reliance is placed in the work of both the Vesuvius and the Nietheroy.

TO A MOUR GUNS.

How the Range Finder is Used In Place of the Human Eye.

Seacoast guns, the huge engines which are intended, not to kill men directly but to destroy ships of war, are not aimed by gunners' eyes, but by mathematical formula and precise calculation. Indeed, there is nothing by which the eye could sight a modern coast defense gun for any of the great ranges, as the weapon points high up into the air and not at the object which is being attacked. This has made it absolutely necessary to devise a way of aiming which should be exact, and the result has been that the high power rifled steel gun of to-day is the most accurate cannon ever used in warfare. Paradoxically, as guns have increased their ranges they have increased their accuracy of fire.

The instrument that has replaced the human eye to aim the seacoast gun is called a range and position finder, and its purpose is to tell exactly how far from the cannon muzzle the ship to be attacked is. To accomplish this one of the most peaceful professions, that of surveying, has been pressed into service, and the range of fire is ascertained by a method based on the simple process of triangulation.

Besides the range, however, the position of the ship must be known. Some forms of range-finders are designed so that it is necessary to have two of them at fair distances from each other, using the distance between them as the base of a triangle of which the ship is the apex. Thus they tell at once both the range and the position of the enemy.

Others ascertain the range with one movement and the position with another. Of this class is the Lewis range-finder, which has been installed in the forts of the United States. It is of the kind known as depression range-finder, and it, too, calculates the distance by triangulation. The known fire guns, as it is too swift in its flight.

The aerial torpedo which is thrown from the dynamite guns on these two rocket and is about ten feet long. Spiral vanes guide its flight and the explosive charge, consisting of from 200 to 500 pounds of nitro-glycerine, is in the head and middle of the projectile. When loaded the entire affair weighs 1,000 pounds. It can be set to explode either on impact or by a time fuse. A range of 2,000 yards with entire accuracy is attainable.

Ned—If you want to marry an heiress, why don't you propose to Miss Elderly? She's rich.

Ted—Yes; but I object to her past.

Ned—Why, I thought that was above reproach.

Ted—It is; but there's so much of it. —Brooklyn Life.

Lokal-Nachrichten aus der alten Heimath.

Provinz Ostpreußen.

Groß Wronken. Mehrere Knaben begaben sich nach dem nahe gelegenen See, um zu baden. Der 14jährige Jatzungen wurden vollständig umgearbeitet. Das Pistolenschießen wurde bei den Verbandsschießen als fakultativ eingeführt und Gießen als nächstjähriger Festort gewählt.

Neustadt. Ende vorigen Jahres machte Kaufmann Adolf Terpe aus Berlin auf dem hiesigen Friedhof einen Selbstmordversuch, indem er sich eine Kugel in den Kopf jagte. Nach seiner Wiederherstellung trat er in einem hiesigen Geschäft in Stellung. Seit Kurzem nun ist er unter Zurücklassung seiner Braut und seiner Effekten verschwunden. In einem hinterlassenen Brief spricht er die Absicht aus, sich doch noch das Leben zu nehmen.

Württemberg.

Stuttgart. Die Strafkammer des hiesigen Landgerichts verurtheilte den Bankagenten Hugo Liebmann von hier wegen Betrugs und Urkundenfälschung zu 4½ Jahren Zuchthaus und sechsjährigem Ehrverlust. Liebmann hatte sich als Vertreter eines Konsortiums hervorragender Budapester, Berliner und Londoner Banken zur Verwerthung eines großartigen Goldbergwerkes in Australien aufgespielt. Durch Vorzeigen gefälschter Telegramme suchte er seine Vorspiegelungen glaubhaft zu machen. Hier, in Heilbronn und Eßlingen schwindelte er von allerlei Privatleuten 78,000 Mark heraus, die er in der Gesellschaft von Tänzerinnen, Sängerinnen und dergleichen in Budapest, Wien, Berlin u. s. w. verjubelte.

Dettlingen. Ein Opfer seiner Rechenkunst wurde kürzlich ein Bauer, als er sich herbeiließ, auf einen ganz eigenthümlichen Kuhverkauf einzugehen. Der Kubikkilometer seiner Kuh sollte nämlich mit 20,000 Mark bezahlt werden. Dem Manne imponirte jedenfalls die Höhe dieser Summe. Er schloß den Kauf ab und nun erhält er für sein Stück Vieh ungefähr einen fünfhundertstel Pfennig. Der gute Mann wird sich wohl hinter den Ohren gekratzt haben, als er das Rechenresultat bekam.

Ellwangen. Stadtschultheiß Franz Heckmann von Neresheim, der Amtsgelder im Betrage von 30,000 Mark unterschlug und in großem Maßstabe Schulden machte, wurde vom hiesigen Schwurgerichte zu sechs Jahren Zuchthaus, sechsjährigem Ehrverlust und 300 Mark Geldstrafe verurtheilt.

Heilbronn. Bei den Ausschreitungen gelegentlich der Stichwahlen bekam Oberbürgermeister Hegelmaier, der eigentlich an dem Skandal Schuld war, aus Versehen von einem Schultheiß der Umgegend, der gekommen war, Hegelmaier zu seinem voraussichtlichen Siege zu gratuliren, einen Schlag auf den Kopf. Dieser gab den Hieb sofort zurück und traf den Schultheiß mitten auf die Nase. Kaum hatten die umstehenden Schutzleute diesen Zweikampf bemerkt, so war auch der Schultheiß schon ergriffen und auf die benachbarte Polizeiwache geschleppt. Nach einiger Zeit erklärte sich dann dort der Irrthum auf und der Schultheiß wurde in Folge der Intervention Hegelmaiers wieder in Freiheit gesetzt.

Merklingen. Hier hat die 51 Jahre alte Marie Hofacker ihren 81jährigen Ehemann, nachdem sie ihm für 40 Pfennige Branntwein geholt hatte, im Streite mit einem Prügel derart mißhandelt, daß er nach zwei Tagen seinen Verletzungen erlag.

Vaihingen. Kürzlich kam hier ein Kind vor einem beladenen Heuwagen zu Fall. Die Pferde und der Wagen gingen über dasselbe hinweg, ohne daß es den geringsten Schaden genommen hätte.

Baden.

Karlsruhe. Neulich Nachts gegen ½12 Uhr fuhr am Ettlinger Bahnübergang bei ungeschlossener Barriere eine manövrirende Maschine an eine vorbeifahrende Droschke, die zertrümmert wurde, während die Insassen und der Kutscher mit dem Schrecken davonkamen.

Achern. In letzterer Zeit traten mehrfach Typhuserkrankungen auf; ein Sterbefall kam bisher nicht vor. Die Krankheit trat meist nur da auf, wo der Anschluß an die städtische Wasserleitung noch nicht erfolgte und in der Nähe des berüchtigten Illenbächleins.

Mannheim. Zum ersten Bürgermeister unserer Stadt wurde für den zum Bürgermeister in Rastatt ernannten Herrn Bräunig der bisherige zweite Bürgermeister Martin mit 65 von 80 abgegebenen Stimmen gewählt.

Oberkirch. Sparkassenkontrolleur Hugo Kutz ist unter Hinterlassung von Frau und Kindern wegen drückender Schuldenlast flüchtig gegangen unter Mitnahme von 5000 Mark, die er vorher noch bei der Sparkasse Oppenau gegen Bürgschaft erhoben hatte.

We Insure Your Shirts.
We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. This is the time of year when the second-class laundry ruins your Paris Percale or Glasgow Cheviot and tells you "It was the fault of the goods" Let us call for your work.

AMOS H. VAN HORN
Note first name "AMOS" and No. "73" before entering store. Get off car at Front.
This 25th "July Sale"
Means Something
to every maker of a home. It's a seldom offered chance to get two things—often three—for the cost of one. Three great buildings full of furniture and carpets marked at unmatchably little figures—our way of "cleaning house" in July.
Cottage Sets and Chairs.
Stupendous Clean-up—as great a stock as we've got it's all to go—Summer furniture never was so easy for you to get:
All the 5-piece Cottage Sets left—$8.75—were $15.
$4.50 Settees for $3.
$1 Chairs at 89c.
$2.25 ones for $1.90.
$2.25 Rockers, $1.79.
Mattings 10c yd.
—But Carpets are "dropped" too—and such a drop! 'Most pay you to lay in whole rolls of 'em.
At 39c—Ex. Heavy Ingrains, 60c kind. At 65c—All-Wool Ingrains.
At 75c—90c Tapestry Brussels. At 90c—Body Brussels.
At 75c—Velvets, were 90c. At 90c—Moquettes.
Bedroom Suits
Every one of them built on honor—handsome, long wearing, fine trimmings, different woods—eight of them:
$15 Solid Oak Suits—$10.
$45 Birch Suits—$30.
Two $55 Birch Suits—$40 each.
$25 Solid Oak Suits—$14.50.
$65 Oak Suits—$42.50.
A $45 Suit—$33.
$75 Suit for $60. About twenty others at exactly HALF old cost.
Couches--$4 up
—half a hundred kinds—now at far less cost than usual—
$6 ones for $4. $9 Velour ones, $5.95. $12 Corduroy ones, $9.
Deep Tufted Corduroy, varied colors, $12.
"Monarch" Vapor Stoves--$4.98.
Still another price change in famed "Monarchs"—the greatest, safest, simplest vapor stove man ever planned—if you're skeptical, let's show how and why we're right. Operated free—so is that "Wickless Blue Flame Oil Stove" exhibited to visitors—sales always follow—'tis so good a thing.
Sale of "Insurance" Gasolene Stoves—2-burner, $5.35 2-burner, high, $6.40; 3-burner, low, $6.40—lots of other sizes.
Refrigerators
—lots of 'em—4.98 for hardwood kind—pan, pick and tongs free.
75c. A WEEK WILL DO IF CASH IS SHORT.

SHERIFF'S SALE—In Chancery of New Jersey. Between Mary E. Embury, complainant, and Clarence J. Rice, et al., defendants. Fi. fa. for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the court house, in the city of Elizabeth, N. J., on

WEDNESDAY, THE THIRD DAY OF AUGUST, A. D., 1898,

at two o'clock in the afternoon of said day, all that certain tract of land and premises, situate, lying and being in the city of Plainfield, in the county of Union and state of New Jersey:

Beginning at a point in the northwesterly side line of East Second street line of property belonging to Rockwell; thence running southwesterly along the said northwesterly side line of East Second street a distance of two hundred (200) feet, more or less to the northeasterly side line of Church street; thence along the northeasterly side line of Church street northwesterly a distance of three hundred and fifty (350) feet more or less to the southeasterly side line of East Front street; thence along the southeasterly side line of East Front street northeasterly a distance of one hundred and twenty (120) feet more or less to property now or formerly belonging to Manning; thence with that line southeasterly a distance of one hundred and sixty (160) feet more or less to the south corner of said Manning's lot; thence still with said Manning's property and properties now or formerly of Job Meeker and Mary Wilson a distance northeasterly of one hundred feet more or less to Rockwell's line; thence with that line southeasterly a distance of two hundred (200) feet more or less to the beginning. Together with the land in front of said premises to the centres of East Second street, Front street and Church street, subject to the easement of the public therein as public highways forever. Excepting therefrom the following described two tracts of land, viz: The first tract: Beginning at a point in the northeasterly side fence line of Church street, said point being distant northwesterly one hundred and twenty-five feet from the intersection of the northwesterly side fence line of East Second street with the northeasterly side fence line of Church street; thence in a northeasterly direction at right angles to said Church street and parallel with East Second street one hundred and twenty-five feet to a point; thence northwesterly parallel with said Church street fifty feet to a point; thence in a southwesterly direction parallel with East Second Street one hundred and twenty-five feet to the northeasterly side fence line of Church street; thence southeasterly with said fence line of Church street fifty feet to the point or place of beginning.

The Second Tract. Beginning at a point in the northerly side line of East Second street and in line of land belonging to Rockwell; thence with Rockwell's line northwesterly two hundred feet more or less to property now or formerly of Mrs. Manning; thence southwesterly parallel with said East Second street a distance of fifty feet; thence southeasterly parallel with the first course herein two hundred feet more or less to the westerly side line of East Second street; thence along said line of East Second street northeasterly fifty feet to the beginning.

J. M. HETFIELD, P. M.

HOW BICYCLES ARE USED IN WAR

Armies of All Nations Supplied With the "Silent Steed."

Great progress has been made with the bicycle as an adjunct to military service both here and in European countries. Actual warfare, in which the value of the wheel could be thoroughly tested, has not prevailed since the adoption of the bicycle by the armies of the great Powers, but enough experience has been gained to warrant the belief that it will be of vital importance in the next conflict. Probability of hostilities with the armed forces of Spain has aroused great patriotism in the breasts of American cyclists, and many offers have been made the Government by wheelmen who desire to form bicycle companies and fight for their country. While the average cyclist has an idea that the bicycle will greatly aid the army at some future day, he has little conception of how really useful it will prove if employed on lines now laid out.

In the United States the military cyclist has attained considerable prominence, largely due, perhaps, to the general popularity of the bicycle. In England, France, Russia and Germany, however, the army cyclists are in high favor and the service is constantly being improved. General Miles has always been an enthusiastic advocate of the bicycle for military purposes, and this is one reason why it has reached such a state of perfection in our regular army.

For courier service, scouting, road sketching, surveying and route reconnaissance he regards the bicycle as invaluable. A patent is now under consideration that will help the bicycle service very much. It is a contrivance that will enable the soldier-cyclist to come to a stop and retain his seat. It keeps the wheel upright and firm, and is just the thing needed to give the wheel greater value in the eyes of army officers.

The machines now in use in the regular service, together with the usual equipment, tip the scales at about seventy pounds. This makes a heavy load for long journeys, and the tendency now is to decrease the weight as much as possible without sacrificing the safety of the riders.

The customary gear of the army wheels is 66½. Puncture-proof pneumatic tires are used and every wheel has a brake, the weight of the outfit being such that it is almost impossible to stop by back-pedaling when going down hill. An ordinary blouse, with trousers and leggins, double-breasted shirts, felt hat and bicycle shoes constitute the uniform of the army cyclist.

Throughout the country there are many cycle corps in National Guard regiments. Greater New York has half a dozen, the Thirteenth and Eight regiments comprising specially well-drilled companies. In the cycle corps of the National Guard each member furnishes his own machine. A variety of makes, therefore, provides a dissimilarity not observable in the corps of the regular army. The National Guard cyclists always make a fine appearance, and that branch of the service finds great favor in the eyes of the militiamen.

It is said that within a short time a bill will be introduced in Congress authorizing the purchase of a sufficient number of bicycles to supply each fort and military station in the country with ten machines.

The bicycle in the Russian army has been a source of gratification to the Great White Czar. The folding bicycle is used and the service has reached a high state of perfection. In the last manoeuvres of the army the cyclists appeared to such good advantage that the Czar commanded them to defile twice before him. They co-operate with the independent cavalry.

As long ago as 1887 the French adopted the bicycle for use in military operations. The folding machine is used, it being perferred to any other. It can be closed instantly and is suitable for rough work. Compagnie Gerard is the name of the French military cycling corps, so called after the inventor of the folding machine. It is divided into two companies, each under the command of a lieutenant. Each company is divided into sections, each of which is in charge of a sergeant. A blue peajacket, a jersey of the same color, red knickerbockers and cloth gaiters complete the uniform. At scouting, pursuing and harassing an enemy the French military cyclists are exceedingly well-trained and against an enemy would probably prove very effective.

Germany's military cycling corps comprises several thousand experts in the use of the wheel. They are well-trained in map reading and revolver firing and some of them are fast riders. Naturally the latter would be detailed to messenger service in active field duty.

One of the drawbacks to the German cycling service is the use of cushion tires. The time is not far distant, however, when pneumatic tires will take the place of the old-fashioned and less resilient kind.

A folding wheel which can easily be put in ridable condition in less than thirty seconds is in use in the Austrian army. Ambulances also have been tried by the Austrians with every promise of satisfaction in actual service. Hereafter they will be used in all manoeuvres. A writer in the Rambler says that these ambulances are nothing more or less than an ordinary folding safety, furnished with two long parallel shafts joined together by a strong square of sacking. While not in use as an ambulance the vehicle can be employed to carry camp articles or necessities for the commissary department.

"Come into the woodshed with me."

"Hold on, pa. I ain't moved to go into no executive session."

A SONG OF DAYS.

Lazy days and daisy days,
An' time to take your ease
Rollin' in the clover
Or hummin' with the bees.
Merry days and berry days,
An' time to slip away
Where the river's makin' music
Under mosses cool and gray.
Singin' days an' swingin' days,
An' ain't you feelin fine
When you're tangled in the blossoms
Of a honeysuckle vine.
Lazy days an hazy days,
An' life is mighty sweet.
With a green bank for your pillow
And lilies at your feet.

BROKEN CONNECTION.

BY FRANK H. SWEET.

"Two days' limit," said Willis Bates, as he looked doubtfully at the ticket. "Can I make it in that time?"

"Yes," and the agent pushed some change through the window and waited expectantly for the next man in the line. "We make close connections. Ten minutes stop at Columbia, and twenty at Charlotte for dinner. Jacksonville, sir? Nine ten," and Bates felt himself pushed unceremoniously aside by a portly man who was eager to change a bank note for the ticket which was being stamped.

"That's your train on the outside track," the agent called warningly. "Better hurry."

As this advice was accentuated by a sharp "All aboard!" and a rush of a few belated passengers toward the outside track, Bates snatched up his hand bag and sprang forward.

"Whew! That was certainly close connection," he said grimly, as he swung himself on the rear car of the moving train. "If I keep on at this rate I'll get through in time for the sale, and that will mean a thousand dollars in my pocket. Lucky I thought of it."

The parlor car was full, so he went on until he found a seat with a loquacious, insistent hotel runner. Just across was a bright-looking woman in a plain travelling suit, and he glanced at her with sudden, half-recognizing inquiry.

But a traveller is always running across faces that look familiar, and his attention was soon engrossed in warding off the advances of the hotel runner. The train rushed on with the vehement, noisy impetuosity peculiar to southern trains, as though striving to give an impression of terrific speed; and the fine South Carolina dust sifted in through the windows and spread thickly over the dingy plush seats, calling forth handkerchiefs and impatient exclamations from the passengers, and swirling now and then into angry clouds at the feeble onslaught of the train boy's broom. Once he noticed the woman of the opposite seat looking at him inquiringly, as though she, too, was trying to recall something familiar. But when he turned to her she was gazing from the window.

At Columbia he spent the ten minutes in a forced defence of politics, and at Charlotte was glad to leave his companion and join the rush toward the railroad restaurant. As a general thing he avoided such places; there was apt to be poor food and service, and not infrequently one was served so late that he could only snatch a few mouthfuls before it was time to hurry to the train.

But here he was agreeably disappointed, and when he went to the desk near the door to leave his seventy-five cents, it was with a feeling of satisfaction at not having been imposed on.

Outside, he looked at his watch; it still lacked five minutes of train time so he walked leisurely down the platform, with the complacence of a man who has just had a good dinner and who is perfectly satisfied with himself and the world.

As he turned to come back, he found himself face to face with the woman who had sat opposite to him in the car. For a moment they gazed squarely into each other's eyes, then both started forward.

"Ain't you Willis Bates?" the woman asked eagerly. "I thought I knew you on the train."

"Yes, and you are—or was—Alice Durfee," Bates said, no less eagerly. "My! but I'm glad to meet you. Let me see—it's eighteen years since I left the old village, and I haven't seen a soul from there since. How are they all—your mother, and Henry Taber, and my cousin, Bob Bates? Bob's the only kin I have, but he and I never did get on well together. Oh, I beg pardon," hurriedly, "I forgot."

"My mother died ten years ago," she answered steadily. "After that I came South, and have only been back once since. Henry Taber had the post-office the last I knew, and Bob——"

There was a significant movement across the platform, and Bates glanced at his watch.

"It's time to get on board," he exclaimed. "We'll finish our talk in the car."

But she drew back.

"This isn't my train," she said. "I wait here two hours."

"Really?" with sudden dismay in his voice. "Why, I was counting on a good long talk. Is Bob—your husband—well?"

She looked surprised.

"I don't know what you mean," she answered. "I have never married. I came South ten years ago in search of work, and have been teaching school ever since. But you'll miss your train."

It was already gliding down the platform, but he neither noticed it nor her warning. In his eyes was an expression of incredulous inquiry.

"Isn't Bob Bates——"

She motioned imperiously toward the train.

"You'll miss it," she cried again. Then her hand dropped to her side. "There, it is too late! Was it very important?" anxiously.

"Yes—no—that is, I guess so," he answered indifferently. "A thousand dollars, I believe."

A man with the emblematic S. R. on his cap came down the platform, and Bates called him with a gesture.

"How long before the next train north?" he demanded.

"An hour and forty minutes."

"Good!" turning to her with beaming satisfaction. "And you have to wait two hours. That will give us plenty of time to talk. Now," with a strange eagerness in his voice, "do you mean to tell me that you did not marry Bob Bates the fall I left?"

"Certainly I did not," wonderingly. "I never married anybody, much less Bob Bates. I never liked that man."

"Strange, and he told me——"

"What?" she demanded sharply.

"Why, that you were promised to him, and that—well, what he told me was the cause of my leaving, and of my not communicating with any one in the old village during all these years. And to think——"

Here a truck load of trunks was pushed rapidly toward them, and they were forced aside. Bates caught the eye of a waiting hackman and nodded. A moment later the carriage stood beside the platform, with the driver holding open the door for them to enter.

"A station platform is no place to talk," said Bates. "Suppose we take a drive through some of the quiet streets of the city. We have plenty of time." Then he looked at her with a new thought in his eyes. "I didn't see you in the——" he began, then added hastily, "you haven't had dinner, I suppose?"

"No," hesitating and flushing a little. "I——"

"Oh, I understand," quickly. "You are like me and can't put up with the makeshifts of a railroad restaurant. Now I'll tell you what," unblushingly, "I'm about as hungry as a man can be. There's a nice hotel in back there somewhere. We'll go to that and have dinner, and then we'll drive about the city and talk until train time."

There was hesitation and almost refusal on her face, but feigning not to notice it he urged her into the carriage, then sprang in himself, and motioned for the driver to close the door.

An hour passed, and then a half hour, and soon after a train rumbled into the station and then rumbled away. Twenty minutes more, and another train arrived and departed. As it disappeared, the carriage again whirled up beside the station and stopped.

"Has my train gone?" the woman asked anxiously, as she reached the platform.

Bates took out his watch and looked at it meditatively.

"I'm afraid it has," he answered, "and my train, too, with its possible thousand dollars. We've been gone a little over two hours. Driver," severely, "you ought not to have taken us so far."

There was grave concern in his voice, but in his eyes was a sly twinkle which she did not notice. The driver twirled his hat apologetically in one hand, but into the other a generous tip had been slipped, so he was silent.

"It is really too bad," Bates continued sympathetically. "There is only one more train out to-day, and that goes towards Richmond. But I'll tell you what," as though struck by a sudden solution of the problem, "suppose we take that. You know what you have promised me at the end of three months. Now what is the use of waiting that long? You have no people, and I have none; and if you go back to the school you have been telling me about, it will be to unappreciative employers and at wages that will scarce pay your expenses. I have a good house waiting for somebody to look after it, and more money in the bank than I know what to do with. Now my idea is for us to go to a minister—you know where a minister lives, don't you?" to the driver.

"Yis, sorr," grinning.

"And then come back and take the train for Richmond. It is a very nice city, and you are bound to like it. How does the scheme strike you?"

Evidently it struck her unfavorably, or as something too astounding to admit even of a reply.

"Good!" he said beamingly. "Silence means consent. Now we will drive back to the hotel and write a couple of letters. You tell the school committee that unforeseen circumstances prevent your returning, and I will write that the same kind of circumstances have kept me from attending the sale. Come."

She parted her lips as though to protest, and even tried to draw back, but her heart was with this man who had been so much to her youth, and who had returned, and in the end she entered the carriage with him and the door was again closed by the driver.

Two hours later the driver was standing on the platform of the station, watching the train rumble away toward Richmond. Not until it had disappeared did he climb back to his box and drive toward home. Bridget, his wife, was preparing supper when he came in from the stable.

"Och, Pat," she called in sudden apprehension, "how come yez so soon? Is it bad luck ye've been havin' the day?"

"Troth, no, Biddy," catching her in his arms and swinging her about the room, and then slipping a crisp new ten dollar bill in her hand. "That's for the new clothes the childer nade. Sure an' it's an illigant day I've been havin'. Besides that, I've enough to pay the carriage rint an' the horses' fade."

A TRUE COMPANION.

BY MRS. CORBET-SEYMOUR.

Mrs. Clifford said she was miserable. There was some reason for saying so. From her twenty-fifth year she had been a widow, and absolutely devoted to the daughter who was her only child; and now that Nina was married and away, the blank in her mother's heart and life was very terrible to bear.

Worse than the fact that some one else would now be pretty Nina's nearest and dearest, was that she had gone with the young husband to India, knowing that the absence would last several years.

Mrs. Clifford's intimates condoled with her most sincerely. They were forever offering their company to luncheon, or "dropping in" to afternoon tea. It was very kind and thoughtful of them; Mrs. Clifford said so. But she did not feel much better or brighter for their visits.

"I don't know how I am to bear it!" said the solitary woman, speaking her thoughts aloud, as people learn to do when they are much alone. "My pretty home is becoming almost hateful to me. Oh, Nina, Nina! I wish we could go back to the days when you were a little girl and needed no one but me to make you happy."

She said something of the sort one afternoon to one of her most intimate friends.

"My dear," responded Mrs. Macfarlane, "you cannot live alone. You are not the person for it."

"But I have no one to live with me," exclaimed the lady of the house. "So far as I know, I do not possess a living relative—except an old bachelor cousin in Devonshire whom I have only seen occasionally."

"Have a companion," said Mrs. Macfarlane. "I know just the person for you."

This was a new idea Mrs. Clifford was not opposed to thinking it over, and the result of these meditations was the arrival of a spinister lady of some five and forty years of age and a very plain exterior.

"So much better than a smart, showy girl," said the adviser. "Charlotte Atkins will be quite a treasure to you. Relieves you of housekeeping, and everything else you do not care for. I am so glad I thought of such a delightful place! Mutually delightful, as I may say, for the poor thing needs a home as much as you need a companion."

During the first week, Mrs. Clifford tried to imagine herself happier for the presence of a companion in the house; but before the end of the first month she knew that she detested it.

Miss Atkins was eminently trustworthy and respectable, but she was lugubrious—and Nina had been so bright and gay!

Then too she evidently considered that it entered into her functions to confer with the cook, direct the housemaid, and stand at the helm in all domestic affairs.

Probably she was right; but Mrs. Clifford was not yet old enough to enjoy being managed for and made comfortable, and she discovered that she liked best to be mistress in her own domain.

So Miss Atkins was discharged with a substantial present and many expressions of regard and esteem.

Another familiar friend advised a "nice, cheerful girl" as Mrs. Clifford's companion. The daughter of some respectable middle-class family who had to compass self-support; not a would-be smart and up-to-date young lady who might become troublesome and pretentious.

Miss Collingwood knew the "very girl;" would not Mrs. Clifford see her? An interview could do no harm.

So a quiet-speaking, rather timid young person presented herself at the appointed hour, and—more because she was an exact contrast to Charlotte Atkins than for any other reason—was engaged on a month's trial.

What a penitential month that was, none but Mrs. Clifford could tell.

Jessie Dale had professed herself musical; but her repertoire consisted of airs from Faust, a few polkas, waltzes, and plantation melodies, pounded rather than played on the Erard's semi-grand in a style which made any sensitive listener shudder and look round with nervous apprehension, lest the shadowy spirit of the composer should appear and protest.

She had said she could read aloud, but Mrs. Clifford never ventured to put her powers to the test after the first evening, when the girl had hurried breathlessly through a column of the daily paper, with less intelligence than the average gray parrot.

And then in the matter of conversation it was "Yes, Mrs. Clifford," and "No, Mrs. Clifford," varied by "Oh, Mrs. Clifford," or "Do you think so, Mrs Clifford?" until the owner of the name took refuge in silent longing for the clock to strike an hour at which she might reasonably suggest that her companion must be weary and would like to retire to bed.

"A very good girl, I have nothing at all to say against her, my dear Miss Collingwood. But she does not suit me and I really cannot re-engage her for a second month."

The third suggestion came from a bright girl, one of Nina's former comrades.

"Oh, you poor, dear, dull creature!" she said, coming in one day to find the mistress of the pretty drawing-room sitting in dejection amidst her household gods. "You ought not to live here all alone. It is too wretched."

"I must learn to bear it," replied Mrs. Clifford with a smile and a sigh. "I have tried a middle-aged paid companion, and also a young one. And my conclusion, Milicent, is this—solitude is better than uncongenial society."

"But have a companion who is congenial," cried Milicent. "Have a nice dog! You need not laugh," she added quickly. "I know by experience that there's nothing to come near to a dog's faithfulness and sympathy. And the dear creatures seem to understand your moods, and they are quiet when you want to be quiet, and gay when you are in good spirits."

Mrs. Clifford shook her head.

"If Nina were here, it would be quite another matter. I should not like the trouble of a dog."

"But the sort of a dog I mean would be no trouble, only a pleasure," persisted Milicent. "He would take you out——"

"Take me out!" interrupted her friend. "One of my objections when you mentioned the idea was that I should have to take him."

"Quite a mistake. And he wouldn't bore you with stupid conversation; yet when you liked to talk to him he would enjoy it and understand perfectly."

"My dear Milicent," and now the melancholy lady was actually laughing. "I shall begin to think that like the friend who recommended Miss Atkins, and the other friend who persuaded me to try Jessie Dale, you are going to say you know just the companion for me."

"Yes, I do!" Milicent laughed too. "I shall bring him round to-morrow morning; would about ten o'clock be too soon? He won't have to go back and pack up like an uninteresting biped. If you are pleased with his manners and appearance, he will be quite ready to enter upon his duties at once."

So, for a third time, Mrs. Clifford suffered herself to be persuaded into a rather half-hearted assent.

Next day Milicent Darrell arrived; so did Tony.

He was a fine deer hound, with a pensive face and excellent manners; and he—like the bulk of human beings—had a story attached to him.

For the first four years of his life he had belonged to a young officer; those were the years devoted to his education, and he had learned a few tricks which he put from him as childish folly when he was older.

Tony had taken his master's departure for foreign service greatly to heart, but had become consoled by the care and attention of the maiden aunt to whom Captain Crawford confided his favorite.

The dog had slept in her room at night and sat by her side all day, growing dejected if she absented herself even for a half-hour. His distress was pitiable when she died suddenly. For the days that the coffin remained in the house, Tony kept watch beside it; after the funeral he was seeking his lost mistress in every room in the house, and then disappeared. After some hours he was found lying on her grave in silent misery.

Miss Crawford had charged her maid to see to Tony, should anything befall her.

But the girl was on the point of marrying a rising young shopkeeper, and, though she took the dog with her to her new home, hard times began for the poor fellow who had been a pet. He grew to understand that he was not wanted, and took to rambling in the street, only turning in at night to the mat on the kitchen floor which was at his disposal. His owners left him to get food as he could, and Tony—being a dog of discrimination—had scraped acquaintance with two or three kindly people who gave him scraps, besides calling at a butcher's shop where trimmings from the meat were often bestowed on him. Still he had come down in the world, and was greatly to be pitied.

"I would have bought him myself, only I have four dogs already and mother won't let me bring in another," explained Milicent. "But as soon as I saw your mourning face yesterday, I felt sure that Tony was just the companion you needed, and I went for him and made a bargain directly I had finished breakfast. Oh, these people were glad enough to be rid of him—what do they want with a dog like him? A yelping cur to run out and meet every one who comes into the shop is more in their line. I gave a mere trifle for this dear fellow, and you will accept him, won't you? and let him make you happy."

"I can't refuse you or him either, as he has had such a sad time since his prosperous youth. And I will try and make him happy, though I fail to see exactly what he can do for my benefit, Milicent."

"I will come in again next week," said the girl, rising. "I shall expect to hear that nothing would

Have You Seen

CYCLING COMMENT.

Miss Gertrude Wittke, of Westfield, has purchased a new wheel of the Bard Cycle Company.

Philip and George Linnenkohl and Martin Wiseman, of Newark, rode their wheels to Plainfield yesterday and spent the day with George Firstbrook, of Elmwood place.

The bicycle squad of the Park Avenue Baptist Christian Endeavor Society are contemplating another bicycle run soon. Since their organization they have essayed twice to have a run, once to Metuchen and last week to Westfield, but were prevented in each case by the rain, which prevented a full delegation from turning out, although it did not absolutely terminate the ride. They anticipate better luck next time.

Ever since the organization of the Y. M. C. A. cycling division this season there has been a determination on the part of the members here to procure the banner offered to the association holding the best record this summer. From the first the Plainfield association took the lead and have held it ever since. Their pluck and persistence are shown by the determination to go to Newark Thursday night when rain threatened every minute and the roads were in places seas of mud. As it is, Plainfield is far in the lead for the banner, and unless some accident happens, they stand the best chance of winning it.

A Perfect Infant Food

Gail Borden Eagle Brand Condensed Milk

A PERFECT SUBSTITUTE FOR MOTHERS MILK. FOR 40 YEARS THE LEADING BRAND.

"INFANT HEALTH" SENT FREE.

N.Y. CONDENSED MILK CO. NEW YORK.

ROD AND GUN.

Charles Vail and a friend went fishing at Bound Brook last week and came home with 47 catfish.

Jo Jackson, U. B. Crane's colored assistant, spent Friday on New Market pond fishing for eels. He came home with a good mess.

Ezra Loomis, A. A. Taft, Mr. Ross and Rev. Mr. Gardner, all of the borough, have been enjoying a fishing trip at Amboy for several days past. Last Thursday the party caught about thirty-two weak fish. Friday the luck was almost as good. Rev. Mr. Gardner returned home Friday evening and left the other three fishermen to spend today looking after fish. The party was very comfortably quartered in a sailing boat and while they were out they sailed as far as Atlantic Highlands, where they spent one night.

CO-OPERATIVE AUXILIARY.

One Will Be Started Here in Connection With the Association.

Last Saturday evening the Plainfield Co-operative Association held a social at their store at the corner of Central avenue and West Second street. In addition to the social features the members and their friends had the pleasure of listening to an address by James Rhodes, of Cambridge, Mass., who is secretary of the National Association. Mr. Rhodes told about the workings of the ladies' auxiliary which is associated in some places with the Co-operative Associations. As a result of the talk on this subject an effort will be made during the coming month to start such an auxiliary in this city. The association will hold another social on the evening of the 27th of August at their store, in fact a social will be held every month. At the social Saturday evening ice cream, cake and lemonade were served by the committee in charge.

This evening there will be a meeting of the board of trustees of the association at the home of Henry Van-Middlesworth, of Elmwood place, when arrangements will be perfected to start an auxiliary.

Property Transfers.

The following transfers of property have been recorded in the office of the County Clerk during the current week, as reported in the New Jersey Contractor and Gazette: Egbert Alsdorf et ux to John Schoonmaker, southerly side line Front to Second street, corner Dutch church property, $1,000; Plainfield Real Estate Company to Uzal H. McCarter, northeasterly line of Lee place and West Sixth street, Plainfield, $1.

To Build the Parsonage.

Messrs. John Valiant, A. A. Taft, E. E. Winckler, Edward A. Vermeule and Rev. Mr. Gardner compose the building committee having in charge the erection of a parsonage for Grace M. E. church. The committee will hold a meeting in the near future and decide when the work will be started. The parsonage will be erected on the property near the church.

Adjutant Taylor in Town.

Adjutant Taylor, of the American Volunteers, from headquarters in New York, led the meeting at the tent Saturday night and yesterday afternoon and evening. Next Sunday Colonel Heartwright, head of the paymaster's department, of New York, will have charge of the services.

Large Lathe Shipped.

A large lathe has just been shipped from the Pond Machine Tool Works to Driggs Seasbury Gun and Ammunition Company, of Derby, Conn.

MIGHTY FISHERS FISH.

RETURN FROM PERTH AMBOY LADEN DOWN WITH SPOILS.

A Party of Local Fishermen Spent a Day Aboard a Yacht in Raritan Bay—Caught Many Fish—Lots of Sport.

Even the fishes shuddered when they saw the array that departed from the North Avenue station Friday night, en route for Perth Amboy and the fishing ground. Evidently they were prepared for all emergencies for the medical profession was particularly well represented. Judging from the traps they carried, they intended to catch everything in the bay.

The party consisted of Dr. Carman, H. C. Compton, Dr. Nelson, of New Market, Fred Nelson, of New Market, Horsley Barker, R. F. R. Huntsman, Dr. Bedford, Gen. Eli Long, Frank Nelson and Dr. Charles R. Thiers.

At Perth Amboy, they took a yacht and sailed for the fishing grounds off the Navesink Highlands. There they spent the night and slept on board the yacht. At least they were to sleep but no one can tell what happened during the hours of darkness.

Saturday they entered the contest with the fish and a great day they had of it. Nobody made any attempt to count the fish after the first twenty minutes. They had a big crate on board that was heaping full when the sport was ended and the finny occupants of it were to be numbered by the hundred. Altogether the day was a very successful one.

Saturday night, they returned to Plainfield, laden down with the spoils of the day's sport.

CAMP MEETING OPENED.

Colored Evangelists Will Conduct Services at Netherwood Every Night.

The St. Peter's A.M.E. Zion church opened their camp meeting Saturday. It is being held in the grove in Netherwood, between Woodland and Belvidere avenues, and bounded by LaGrande avenue. The meetings are being held in an open air auditorium which has been arranged, capable of seating 2,000 people. Three services were held yesterday, the total attendance being about 1,500. Rev. W. B. G. Coster, pastor of the church, preached yesterday, and the singing was under the charge of A. G. Davis, of Danville, Va.

The meetings will be continued all through this week, beginning at 7:45 every evening. The preacher for this evening will be Rev. J. F. Downs, of Bethel chapel.

COUNCILWOMEN DEPART.

The Lincoln Delegation Departed For Detroit This Afternoon.

(Special to The Daily Press.)

Lincoln, August 1—This afternoon at 1 o'clock Mayor Drake and members of the Town Council left on the Lehigh Valley Railroad for Detroit to attend a convention of the League of American Municipalities to be held in that city. Mr. Drake and the Councilwomen have received certificates of membership into the League and will be allowed every privilege of the floor. They will arrive in Detroit tomorrow morning at 7 o'clock. When the party left Lincoln this afternoon there was a demonstration at the station. The factory whistles tooted.

Carey to Enlist in the Navy.

Alvah Carey, of Central avenue, went to New York today for the purpose of enlisting in the United States Navy. He will probably secure a position with his friend, George Gittens, who has served three years in the navy as yeoman. Mr. Gittens intends to re-enlist for a term of three years. He spent Saturday and Sunday in Plainfield with Mr. Carey and this morning the two went to New York to enlist.

Judgement Rendered.

(Special to The Daily Press.)

New Market, August 1—Attorney J. P. D. Kirch, of Plainfield, secured judgement this morning before Justice Storms in the case of Benjamin A. Mumford & Son, of Plainfield, against Joseph R Runyon, proprietor of the South Plainfield Hotel, for $13.55 and costs. The action was brought on a bill for overhauling and cleaning some carpets and mattresses.

Systematic Horse Stealing.

During sometime Friday night Quartermaster John I. Holly's famous Kentucky charger strayed or was stolen from his stable on Park avenue. As this makes the third or fourth horse that has similarly disappeared within the last week, it looks as though a systematic gang of horse thieves are at work in the vicinity.

Rev. F. E. Peterson Preached.

Rev. Frank Fletcher, of New Market, who was to have occupied the pulpit of the Park Avenue Baptist church yesterday morning, was detained at home, and Rev. F. E. Peterson, pastor of the Seventh-Day Baptist church there preached in his stead. Rev. Mr. Fletcher occupied the pulpit in the evening.

Horses Overcome by Heat.

Two of Capt. Hand's horses were overcome by the heat Saturday. One died near Oak Tree, enroute to Boynton Beach. The other was overcome at the Beach, but is now recovering.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Chief Grant went to Easton today on a business trip.

Ex-Judge W. R Codington is spending a few days on his farm at Millington.

Miss Evra Estelle Wilkins, of East Fifth street, has gone to Orange and Montclair to remain until the middle of August.

Mr. and Mrs. George A. Chapman, of Stelle avenue, go to the White Mountains Thursday for the balance of the summer. They will be registered at "The Waumbek," Jefferson, N. H.

WANTED TO PAY A DEBT.

He Broke Into Perrin's Kitchen in His Anxiety to Square Accounts.

Sydney Barker, a young man 22 years of age, living on Mountain avenue, was arraigned before Justice Crosley, of the borough, this morning, on a State warrant issued at the request of Edward Perrin, of Grandview avenue. The complaint charged that Barker had effected an entrance into Mr. Perrin's house without cause. When the case was called this morning the complainant did not press the charge and the defendant was dismissed.

Some time ago Mrs. Barker borrowed 25 cents from Mr. Perrin, and last Thursday evening about 11 o'clock Mr. Barker took a notion that he wanted to pay the money back. Mr. Perrin told him from an upper window that he could pay the money back in the morning or leave it on the piazza. This proposition did not please Barker and he went to the back of the house and effected an entrance into the kitchen.

He had a warrant issued for Barker's arrest and he was arraigned. Mrs. Perrin, who has been at Asbury Park, but who has since returned, implored her husband not to press the charge and he did not.

SAVED A FREIGHT CAR.

Prompt Work by Engineer Sisk and Others Put Out Fire.

Saturday afternoon David J. Sisk, engineer at the Walter Scott Press Works, discovered a freight car on fire on a siding near the foundry of the works. He ran to Foreman Weseman and reported the matter, and assisted by Messrs. Templin, Smith, Carman and others, the fire hose at the shop was brought into action and a stream of water thrown on the fire which was beginning to burn fiercely on one end of the car. It was soon extinguished. The fire was supposed to have started from a spark from a passing locomotive.

EARLY INTELLIGENCE.

—Letter-carrier J. W. A. Bauersachs is now enjoying the remaining portion of his vacation.

THE TATTLING TONGUE

Rev. Dr. Lewis Preached a Sermon On It at Trinity Church Yesterday.

Rev. Dr. A. H. Lewis, who preached in Trinity Reformed church yesterday morning, took for his text "Taming the Tongue," Proverbs 21:23, "Who so keepeth his mouth and his tongue keepeth his soul from troubles." His talk was a very practical one and commanded the closest attention of his hearers He faithfully depicted the tattling tongue, the quarrelsome tongue and the scolding tongue, and at the close of his interesting discourse gave three never-failing remedies for their cure—God's grace, self-control and silence.

Unconscious Satire.

"I can't help being a little bit afraid of the dark," remarked the small boy, apologetically.

"That is very silly," replied his father. "You will outgrow it when you are older and more sensible."

"Of course. It won't be very long before I'm big, and then I'll be like you and mother and not be afraid of anything except spilling salt and seeing the new moon over my left shoulder."—Washington Star.

Willie Talks.

"Do you think," said Miss Cayenne, that the Senate talks too much?"

"Yes," replied Willie Wishington; "and what worries me is the fact that there is almost as much danger of talking too much about talking too much as there is of talking too much about anything else."—Washington Star.

The Reverse.

"Do you keep stationery here?" asked a young woman of a salesman in a general shop.

"Not much," replied the young man, rubbing his hands together. "The old man's so stingy with his coal we have to bustle about to keep warm."

His Opinion.

"What are you doing, Jimmie?"

"Reading th' dictionary through."

"How do you like it?"

"Oh, some o' th' words is good, but others hain't much sense in 'em."—Judge.

Quite Likely.

Brown—"What would you do if some one should leave you a hundred thousand dollars?" Jones—"I suppose I'd begin to realize how little a hundred thousand really is."—Truth.

A letter recently came to a Georgia rural postoffice with the following address: "To my son William, if he's keepin Good Company; if he ain't, Please Return, as There's $2 in it."

O'NEILL'S,

Sixth Ave., 20th to 21st Streets,

New York.

7,500 Pairs of Blankets Hold Sway.

New York confronts another most interesting situation. Some months ago, long before the advance in wool, we contracted for 7,500 pairs of Blankets for August selling, and at high noon on Saturday last every pair had arrived and was marked for this week's sale. It is a veritable feat, and the week's selling will mark the lowest price records in American retailing. A saving of 40 per cent.

5,000 Pairs of California Blankets.

10-4 at $2.98, $3.98, $4.50.
11-4 at $3.98 to $7.98 per pair.
12-4 at $4.50, $4.98, $5.50, $6.50 to $8.50 per pair.
You save 40 per cent by buying now.

2,500 Pairs Eastern Wool.

10-4 at 55c, 79c, 90c, $1 3 5 to $3.50 per pair.
11-4 at 79c, 98c, $1.50, $1.98 to $3.90 per pair.
12-4 at $3.50 to $3.98 per pair.
You'll have to pay 40 per cent more if you wait till September to do your buying.

Marseilles and Crochet Spreads.

10,000 Crochet Spreads at 59c, 79c, 89c, 98c, $1.10 to $1.35 each, worth from 70c to $1.75.
2,500 white and colored Marseilles Spreads at $1.35, $1.65, $1.85, $2.25 to $2.65, worth from $1.75 to $3.98.

Never in business history have prices of reliable blankets been so low. It will pay buyers within 100 miles to come to the city and investigate these prices. When figures demonstrate facts it's folly to be blind.

Out of town friends will remember that we fill all orders by mail just as well as if you were here in person.

If you come to the city remember our restaurant.

We deliver all purchases excepting bicycles and sewing machines free to any railroad station within 100 miles of New York.

H. O'NEILL & CO.,

Sixth Ave., 20th to 21st Streets,

NEW YORK.

DISTRICT, NO. 170.

(Please Address as Above by Mail.)

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we do not carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2.25. Men's wool bicycle suits in fine checks and plaids, worth $7.50, at $3.90. Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.90. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $8, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's linen coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats, worth $2 30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4.75, worth $10. Boys' long pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., TUESDAY, AUGUST 2, 1898. TWO CENTS A COPY—$5 A YEAR.

PRESENT SEWAGE SYSTEM INADEQUATE.

No More Sewer Connections Are to Be Made Until the Present Difficulty Is Overcome.

THE CITY WILL PAY FOR THE LIBERTY POLE.

JAMES A. MARTIN WAS CHOSEN COLLECTOR AND AN ATTEMPT TO REDUCE HIS SALARY WAS DEFEATED.

The Trouble Over the Payment For the Liberty Pole Was Thoroughly Aired—W. W. Coriell, In a Letter to Councilman Runyon, Denies All Responsibility For the Popular Subscription—The Sewer Beds Sharply Criticized—Mr. Hetfield Thought Any Extra Money Should Be Spent With a View of Carrying the Sewage To Tide Water—Mr. Buckle Said That Plainfield Has the Beds On Her Hands and Must Make the Best of Them—Trolley Ordinance Next Monday—New Building Ordinance Introduced—Rules For Fire Department Made.

The city liberty pole, the sewage farm, the collectorship and its salary, all lent their share of interest to the proceedings of the Common Council at the regular August meeting held last night.

In the absence of President Baker, Councilman Moffett acted as president pro tem. All of the other members were present, and the business of the evening was transacted as expeditiously as possible. A communication was received from the Welsbach Light Company, in which they offered to quote a figure to the Council for one hundred or more lights the same as have been on exhibition on East Second street. The matter was referred to the proper committee.

Druggist R. J. Shaw and others, in a communication, petitioned the Council to take steps to put a check on the city newsboys. It is claimed that business people are much annoyed in the centre of the city; that they are unable to converse over a telephone; that the boys use bad language, and are in other ways a nuisance. The petition was referred to the proper committee with power.

Residents of East Third street petitioned the Council to repair their street between Richmond and Berckman streets. An electric light was petitioned for by the residents of North avenue, in the vicinity of Leland avenue. The residents of Albert street stated, in a communication, that they were willing to pay their share toward having the sidewalks flagged and curbed, and they petitioned to have the work done. Residents of Farragut avenue asked the Council for an electric light, and E. M. French and others asked for a fire hydrant to be located on West Third street.

The Plainfield Water Supply Company stated that new hydrants have been erected as ordered, making a total of 271 hydrants.

Residents in the eastern section of the city petitioned the Council to have a public drinking fountain erected in that part of the city, for man and beast. The Plainfield Gas and Electric Light Company filed a bond, as required, for the faithful performance of the work of placing their wires underground, if their petition is granted. Charles Smith asked to have his liquor license transferred to J. A. Blatz, and the executors of the estate of Fred Caspar asked to have that license transferred to Hans Hansen. The requests were granted.

Building Inspector Doane reported the granting of twelve permits, and Street Commissioner Gavett reported that twenty sewer permits were granted during the past month. Overseer of Poor Hansen reported that during July five new applications for aid were received, and four were granted. During the past three months there was one death. There are at present twenty-two beneficiaries, of which number eight are at the Industrial Home.

At this time Mr. VanHerwerden reported that the finance committee had examined the books of Collector Bird and had found them correct. Mr. VanHerwerden offered a resolution to the effect that $1,000 be borrowed for the fire fund, in anticipation of taxes. The same Councilman recommended the purchase of two new ballot boxes for the new election districts.

Mr. Barrows offered a resolution that C. M. Meeker, D. Bowden and Patsy Christmas be paid what is due them for work done for the city when they shall prove that their bills for labor for such work have been paid.

Mr. Runyon at this time brought up the matter regarding the balance to be paid on the liberty pole. He said that W. Wallace Coriell had informed Chief Doane that he would guarantee the amount of money necessary to purchase a longer pole than the one at first selected. Mr. Coriell appeared very enthusiastic over the idea and encouraged the committee to get a longer pole, remarked Mr. Runyon, but now he has changed his mind, as will be seen by the following letter received from Mr. Coriell:

Plainfield, N. J., June 20, 1898.

Hon. Wm. N. Runyon:

Dear Sir—Yours of the 18th at hand. In answer I assure you that I have no thought nor desire to offer so great an insult to our honorable Council, of which you are an honored member, as to circulate a subscription or in any way belittle their noble bursts of patriotism in throwing to the breeze in our beautiful city the beloved emblem of our country. And at the time when so many of our young men are laying down their lives to maintain our flag unsullied.

Now let the Council complete the work so nobly begun. Your committee who have in hand the work of securing to the city the beautiful staff that adorns the central business part of our city deserve a great deal of credit for the able manner in which they have done their work. Now let them complete their work and present the bills for the same in an honorable way and have them paid by the Council.

And save further disgrace by having the bills for work done on the flag pole for the committee sold on the street at a large discount, rather than wait for the money, which I have been informed has been done.

I would advise that you close your committee work in a business way.

With due respect for yourself and your honorable committee,

I am, very respectfully,
W. Wallace Coriell.

Mr. Runyon stated further that there is yet a balance of $125 to pay on the pole and he offered a resolution that that amount be appropriated. The resolution was adopted, after remarks were made by Mr. Newman, Mr. Hetfield and Mr. Buckle.

Mr. Newman said that Mr. Coriell informed him that he would guarantee the balance of money needed to buy a longer pole. Messrs. Hetfield and Buckle thought the committee should be granted the $125, but they thought that verbal promises could not, as a rule, be depended upon.

Mr. Runyon stated that the heating apparatus in the East Second street fire house required attention and after an inspection by G. J. Tobin it was learned that a new boiler was needed, and other repairs will have to be

CONTINUED ON PAGE 8.

COL. BOGEY'S SCORE ON HILLSIDE LINKS.

Description of the New Course Soon to Be Opened.

AN EIGHTEEN-HOLE COURSE

NAMES AND THEORETICAL SHOTS GIVEN FOR EACH HOLE.

The New Links Form a Playing Distance of 5,000 Yards—A Sketch of the Various Hazards to Be Encountered During the Round of the Course—The Links Are Soon to Be Opened.

It will only be a few weeks before the new links of the Hillside Tennis and Golf Club are opened to the members. The growth of the club since the inauguration of golf three years ago is shown by the complete arrangements of the new grounds and clubhouse.

The old links on Plainfield avenue have only a nine-hole course. They were well arranged, but the new course of eighteen holes is considered one of the best in the State. The new links are now almost ready for use and nearly every pleasant day sees a number of the golf enthusiasts on the grounds looking over the scene of future action.

With the great increase in membership, there has been a corresponding growth in enthusiasm and interest. As a result the new links are watched with much interest.

Particularly is this so with those who will play there frequently when the course is opened. A description of the new course and the probable number of strokes for each hole is therefore very appropriate at this time.

Upon teeing his ball for the opening drive the player is presented with a peculiar proposition. The first hole lies 360 yards away, and is a blind one—that is, it cannot be seen from the tee. This is because it lies in a hollow. There are few obstructions, however, and with any kind of luck the golfer should hole out in three. The hole is called "Alpha." Plenty of difficulties beset the golfer in playing for the "Swamp," or second hole. About midway between the tee and the green lies a piece of swampy ground, in the centre of which is a small pond of water. If a player holes out in six he may consider himself fortunate. It is a matter of 400 yards. It is comparatively easy to reach "Highlands," as the third hole is termed. This lies at a distance of 340 yards. The play is up-hill all the way. In playing for "Facilis" the direction is back toward the clubhouse. It is only 160 yards, and a good drive will reach the green. It generally takes about three strokes to hole out.

A full drive, followed by an iron shot, will put the player in a good position to reach the fifth green. It is 270 yards, and has been dubbed the "Orchard." It is good work to hole out in four. A full drive is all that is required ro reach the sixth green. The hole is known as "Triplets." Should, however, the opening drive be foozled, the mistake will be punished, as a bunker intersects the course about half way. The hole is 190 yards, and, if lucky, the golfer can make it in three. Low score aspirants are liable to be cast into gloom when the seventh, or "Longfellow," is encountered. About 125 yards from the tee is a deep road, and then running parallel with the course is a hazard which will prove disastrous to a sliced ball. This hole lies just one-quarter of a mile away, and if the player is down in six he need have no cause to complain. The eighth hole is called "Shorty." It is only 150 yards away, and an iron shot is usually sufficient to reach the green. It generally takes three strokes.

"Midway" or the ninth hole, is a blind affair, the green lying at a distance of 230 yards. The direction of play is up a hill and the hole ought to be made in four. "Inferno" is the name of the tenth hole, and it is protected by a sand-filled trap. It's 275 yards, but can be made in four. No difficulty will be experienced in reaching the "Trap," or eleventh hole, so long as the player keeps straight along the course. This is usually made in five. "Paradise" is 250 yards, and is considered easy. It's 375 yards to the "water jump." A short distance in front of the tee lies a pond, and a sclaffed ball will be almost sure to get the player in trouble. It is generally made in five.

No. 14 is known as the "Barn," and lies at a distance of 190 yards. The brick ruins of an old barn intersect the play. This is the only hazard. With careful play the hole ought to

ROESEL MUST HANG.

YESTERDAY SENTENCED TO DIE AUGUST 26TH.

He Did Not Display the Slightest Emotion—Dr. B. VanD. Hedges on the Jury That Will Witness the Hanging.

(Special to The Daily Press.)

Elizabeth, August 2—Louis Roesel, the youthful murderer of old Farmer James C. Pitts, of Summit, in September last, was re-sentenced yesterday morning in the Union county court by Judge VanSickel to be hanged Friday, Aug. 26th next, in the county jail here, between the hours of 10 a. m. and 2 p. m. The prisoner did not display the slightest emotion. He was pale from his long confinement, but otherwise there was nothing to indicate that he felt his position. He leaned carelessly against the side of the jury-box, while his counsel, Frank Bergen, was objecting to the right of the Judge to pass sentence at this particular time.

Roesel, on his way back to his cell, said to Sheriff Kirk: "Well, if I hang I hang, and that's all there is to it. I'll keep my courage up to the end."

The sheriff says he never witnessed such a cool display of nerve as shown by Roesel, who appears to have no fear of facing the gallows.

The Court made an order appointing a jury of twelve citizens of the county to witness the hanging and to report to the Court.

The jurors named are men who are well known and competent to be grand jurors in the county. The list selected is as follows:

William M. Oliver, Elizabeth; Victor Mravlag, M. D., Elizabeth; Benjamin VanD. Hedges, M. D., Plainfield; W. H. Swain, Summit; Edward S. E. Newberry, Linden; Emmor K. Adams, Cranford; George Ball, Rahway; Henry A. Rath and Charles P. Ruse, Elizabeth; Mulford M. Scudder; Westfield; William Allen, Union; Edward B. Kelly, Summit.

In addition to this jury the Sheriff selects twelve deputies, and the law also provides for three newspaper reporters the privilege of witnessing the execution.

THE CAMP MEETING.

Programme of Speeches and Services for This Week at Netherwood.

Services will be held every night this week at the open-air auditorium in Netherwood where the St. Peter's A. M. E. Zion church are holding their camp meeting. This evening Rev. A. J. Johnston, of the Filmore Avenue Baptist church, will be the speaker, while tomorrow night Rev. A. J. Davis, of Danville, Va, will be in charge. Thursday night will be a Christian Endeavor evening, the programme being arranged especially for the members of that organization, and all the societies of Union county being invited to be present. Bishop Alexander Waters, of New Jersey, who makes his headquarters at Jersey City, will speak, also Bishop A. G. Petty, of Newburne, N. C. The Alabama Jubilee Singers will be present, led by Prof. Charles Johnston, late of the Fiske University.

Friday evening, Rev. Mr. Groves, of Mt. Zion A. M. E. church, will preach, and Saturday night the speaker will be the evangelist Sister Elizabeth Foote, of Jersey City.

The camp meeting will continue, with meetings every evening, until August 14th. The attendance includes a great many white persons, as well as the members of the various colored churches, as the meetings are of interest to all.

OPEN-AIR CONCERT.

Queen City Band Will Give One Tomorrow Evening.

The Queen City Band will tomorrow evening inaugurate a scheme that the members of the band have been considering for some time. They will then give an open-air concert from the balcony of the City Hotel, corner of Park avenue and East Second street. They will play a number of selections there during the evening and on the turnout and the support they receive will depend the continuation of them.

Fell From a Trolley Car.

George Washington, colored, of Plainfield avenue, fell from a trolley car Sunday afternoon, while the car was rounding the corner of Front and Somerset streets, struck on his back, narrowly escaping serious injury. As it was, one of his feet lay within a few inches of the car wheels. Washington was not holding on as the car swung around the corner.

Fined for Insulting Women.

Patrick Cahill, of the West End, was arrested yesterday in the Boulevard for being drunk and insulting women. Officer Flanagan made the arrest. City Judge DeMeza gave Cahill $10 or thirty days this morning.

AMERICANS ADVANCE.

Miles Still Presses Forward in Porto Rico.

SPAIN WANTS DETAILS.

APPLIED TO WASHINGTON FOR PARTICULARS.

The Conditions of Peace to be Made Public—Investigation of Horrors of Concha Ordered—Pope Appeals to Uncle Sam.

(From the Union Associated Press.)

St. Thomas, August 2, 1:20 p. m—Advices from Porto Rico state that the American troops have reached Coamo, sixteen miles northeast of Ponce, on the road to San Juan. No resistance was met.

Washington, August 2, 1:30 p. m.—The Cabinet is now in regular session. It is expected that a statement of the terms of peace proposed to Spain will be made public immediately after the meeting.

An investigation has been ordered by the War Department to fix the responsibility for the frightful condition on the transport Concho. Sec. Alger has appointed Major Hoyle to investigate the report

The Pope has appealed to the United States Government to protect the Catholic clergymen and church property in the Phillippines from the insurgents.

Madrid, August 2, 1:12 p. m.—The Spanish Cabinet, after discussing the reply of President McKinley to the Spanish peace overtures, decided to send a note to the United Siates Government asking for a more definite expression of the meaning of the words.

The words referred to in particular are "immediate evacuation." They also wish a more definite reference to the Phillippines.

A Carlist newspaper has been suppressed by the Spanish government. Advices from Brussels say that bands of Carlists have made their appearance at Lerida in Catalonia.

STRUCK BY CABLE CAR.

Wm. Swartz, of Clinton Avenue, Met With Serious Accident in New York.

While Wm. Swartz, of Clinton avenue, was in New York a few days ago visiting his wife's sister, he met with an accident that nearly proved fatal. He started out last Sunday forenoon with his two-year-old daughter, Edith, for the purpose of taking a trolley ride. He was crossing Third avenue in the neighborhood of Eighth street, when a cable car came along and hit him. He was knocked down and became unconscious. His daughter also received a slight scratch in the head.

Mr. Swartz was picked up by a policeman and carried to a drug store near by, where proper treatment was given to his injuries. The policeman had detained the motorman, secured his name and the number of the car, and he asked Mr. Swartz if he desired to enter a complaint. The latter stated that at present he was unable to determine who was to blame, and did not care make a complaint. The policeman gave him the name of the motorman and names of eye-witnesses, and Mr. Swartz has placed the matter in the hands of his sister-in-law's husband, who is a lawyer.

Mr. Swartz was assisted to the home of his relatives and he and his family returned home last evening. Dr. Zeglio is attending to his injuries, which consist of a large and deep cut in the back of the head and a wound in the left leg.

Fell on the Sidewalk.

A woman hurrying to the fire in the Revere House this noon, stumbled in front of the hotel, and fell heavily on the pavement. She was not seriously injured.

RUN DOWN BY A HORSE.

DISASTROUS TANDEM RIDE OF FRED SEBRING AND LEWIS PETERSON.

While Riding Along a Newark Street a Baker's Wagon Ran Them Down—Sebring Was Unconscious—Both Hurt.

Fred Sebring and Lewis Peterson, employes of W. H. Rogers, the North avenue wheelman, took a tandem ride to Newark Saturday which ended disastrously for them both. They were run down by a horse and wagon, knocked off the tandem, and Sebring was thought to be injured so seriously that he was taken to St. Barnabas' Hospital.

As they were returning home about 11 o'clock, near the park, a horse and baker wagon swung around a corner, and, turning sharply to the left, ran directly over the tandem. The horse struck the tandem near the middle, brushed it over, and then reared.

Sebring was directly in front of the horse, and his escape from instant death was marvelous. As it was, the shaft grazed his head, and in his fall he struck and bruised his left shoulder, cut his right ankle, and received a deep gash in the head. He was unconscious and was carried into a drug store, and later sent to the hospital, where he remained for five hours.

Peterson received severe bruises on his left side, but being on the rear seat of the tandem, escaped serious injury. When the hospital physicians had examined Fred they found no serious injuries. The shock was so severe that he did not recover consciousness for some time. Peterson assisted him into a carriage and brought him home, where he is still in bed, recuperating from the effects of the accident.

The tandem was badly wrecked and will have to be sent to the factory to be repaired. Both chains are broken, the sprocket wheels bent, one pedal broken, and the handle bars twisted. The name on the baker's wagon was Val. Maharet, and it is said that the proprietor himself was driving. It was clearly the driver's fault, said those who saw the accident. Sebring and Peterson may bring suit for damages.

AGED WESTFIELDER DIES.

Old and Respected Citizen Passed Away Sunday Night.

(Special to The Daily Press.)

Westfield, August 2.—Joseph Moffett, an old and respected citizen of this town, died at his residence on Broad street at 6 o'clock Sunday evening at the age of seventy-two years. Mr. Moffett was born in this town August 28th, 1827, and has lived here all his life. A widow and three children survive him; Mrs. B. H. Woodruff, Mrs. C. P. Wilcox and William Moffett, of Westfield. He also leaves four brothers, James, Joel and Addison, of Westfield, and Rev. W. W., of Merchantville, and three sisters, Mrs. Sarah Todd and Mrs. Harriet Hammond, of Westfield, and Mrs. Hannah Davis, of Morristown.

The funeral services will be conducted by Rev. Charles Anderson, pastor of the Methodist church, assisted by Rev. W. H. Ruth, of Rahway, at his late home on Broad street, this afternoon.

FINDERNE STATION STRUCK.

Bolt of Lightning Entered and Seriously Injured Mrs. Cora Bennett.

(Special to The Daily Press.)

Somerville, N. J., August 2.—Lightning struck the Western Union telegraph office in the station at Finderne yesterday afternoon, and Mrs. Cora Bennett, who was assisting her father, Mr. Osman, the station agent, was shocked and injured.

There was a thunder shower in the distance but no electrical display near. Suddenly a terrifice flash of lightning came and shattered the switchboard, enveloping Mrs. Bennett in flames. She was picked up stunned and bleeding. Dr. T. H. Flynn, of this place, was summoned. He thinks she will recover.

Hurt on the Railroad.

Augustus Martienssen, a railroad man living at Mauch Chunk, was discharged from Muhlenberg Hospital last Sunday evening after having been confined to that place since last December. Mr. Martienssen sustained a compound fracture of the leg and his injuries were slow in healing. He is now well again, however, and able to go to work. He desired The Daily Press to express his appreciation to those in charge at the hospital, and also to Dr. Prabasco for their kind attention.

Dispossessed for Rent.

Joseph Runyon, formerly of this city, and who has been running the South Plainfield hotel recently, was dispossessed yesterday by Proprietor Fitzgerald, who claims that Runyon owes him $50 back rent.

WERE WEDDED AT HIGH NOON.

Charming Mid-Summer Marriage of New Market Belle.

CEREMONY AT THE CHURCH

THE GROOM IS A PROFESSOR AT ALFRED UNIVERSITY.

Miss Hannah L. Larkin United in Marriage to Prof. Jay William Crofoot, of Alfred—Reception at Bride's Home Followed the Ceremony—Valuable Gifts Received—The Guests Present.

(Special to The Daily Press.)

New Market, August 2.—One of the prettiest weddings of the mid-summer season took place today at noon at the Seventh-day Baptist church, when Miss Hannah Lillian Larkin, daughter of Mr. and Mrs. George S. Larkin, of this place, was united in marriage to Jay William Crofoot, a professor in Alfred University, of Alfred, N. Y., in the presence of a large assemblage of relatives aud friends.

The church decorations were very attractive, and consisted of palms, ferns and roses, and were arranged by Mrs. W. J. Davis, of this place.

Precisely at 12 o'clock the bridal party entered the church while the wedding march was played. The bride entered the edifice leaning on the arm of her father. They were preceded by the maid-of-honor, Miss Mildred Titsworth, of Dunellen, and the ushers, Alexander Vars, Ralph Titsworth, Charles Titsworth, of Dunellen, and Waldo Titsworth, of New Brunswick. At the altar the party was met by the groom and his best man, Isaac E. Titsworth, of Dunellen, who entered from the front of the church.

When the party had formed about the altar the ceremony was performed by Rev. A. G. Crofoot, of Jackson Centre, Ohio, father of the groom, assisted by Rev. F. E. Peterson, pastor of the church. The service was a pretty one.

The bride was charmingly gowned in Persian lawn trimmed with valenciennes lace, and she carried a bouquet of bridal roses. The maid-of-honor was attractively gowned in organdie over yellow.

Following the ceremony a reception was held at the home of the bride's parents at 12:30. During the reception hours refreshments were served by the Misses Lulu Davis, Lizzie Boice, Laura Satterlee and Ellen Palmborg, of this place, who are intimate friends of the bride.

The presents received by Mr. and Mrs. Crofoot are all of a very practical nature, as well as ornamental, and gave evidence of the popularity of the couple.

During the afternoon the bride and groom left to enjoy a honeymoon, a part of which will be passed at the seashore. They will return to this place in a short time, after which they will go to Alfred, N. Y., where they will take up their residence.

Among those who were present as guests at the wedding were: Dr. and Mrs. O. E. Larkin, of Chicago; Miss Grace Crandall, of Ashaway, R. I.; Mr. and Mrs. A. C. Prentice, of New York; Mrs. Clark, of Eclair, Wis.; Prof. and Mrs. Frank L. Green, of Brooklyn; Mrs. D. I. Green, of Hartford, Conn.; Mr. and Mrs. Cortez Clawson, of Salem, W. V.; Mr. and Mrs. W. H. Rogers, of Plainfield; Mr. and Mrs. W. R. Larkin, Stelle Larkin, George Larkin, Jr., Mrs. Lucy Titsworth, Mr. and Mrs. T. B. Titsworth, Mr. and Mrs. L. T. Titsworth, Ferdinand Titsworth, Arthur Titsworth, Miss Elmina Titsworth, Mr. and Mrs. Sampson, of Dunellen; Prof. Alfred Titsworth and wife, of New Brunswick; Rev. and Mrs. F. E. Peterson, Dr. and Mrs. Whitford, Mr. and Mrs. Walter Dunn, Mertie Dunn, Jennie Dunn and Margaret Dunn, of New Market.

FUNERAL OF MRS. TITSWORTH.

Rev. Dr. Lewis and Rev. Mr. Main Conducted the Services.

The funeral of the late Mrs. Edward Titsworth was held yesterday afternoon at 4 o'clock from the house. Interment was in the Methodist cemetery.

Rev. Dr. A. H. Lewis and Rev. A. E. Main were both in charge of the services. Two hymns were sung by a quartette composed of Miss Nan Randolph, Miss Elizabeth Allis, A. L. Titsworth and Elmer E. Runyon. The bearers were David Titsworth, David Moore, from Orange, Jeremiah Moore and Mr. Green. A handsome floral piece from the G. A. R., a pillow from the children and other floral offerings were given.

Walter Besant, of Pluckamin, spent yesterday in town.

TWO FOES TO FIGHT

Gen. Merritt Says Our Force Will have to Conquer Insurgents.

HE ASKS FOR 50,000 TROOPS

The Situation at Manila is Unsatisfactory and Dangerous. The Insurgents Are Becoming More Arrogant. The Surrender of Manila to Be Demanded. It May Already Have Been Made. A Conference at Washington.

Washington, Aug. 2.—General Merritt has again cabled the war department relative to the situation in Manila, which he finds very unsatisfactory and dangerous, owing to the attitude of the insurgents. In the opinion of General Merritt the attitude of the insurgents there is similar to that assumed by Garcia's Cubans upon the question of their right to enter and possess themselvts of the city, although in this case the insurgents are a very much more formidable element, being not only more numerous, but better armed and filled with the arrogance following numerous victories over their Spanish foes.

General Merritt, however, indicates that he will do his utmost to protect the citizens from the savagery of the insurgents, though his task is a delicate and difficult one, because of the fact that he must, while fighting the Spaniards, be ready at any moment to repel the insurgents.

To Demand Surrender.

The general gave notice that he was about to combine with Admiral Dewey in a joint demand for the surrender of the city to the United States forces, thus forestalling the insurgents, and this move may cause a rupture. It is possible, in view of the fact that General Merritt's cablegram was sent from Cavite last Thursday, that this movement has been made already by the combined American military and naval forces, although there is some doubt about this on account of a stattment from General Merritt that he may need all of his soldiers before attacking.

Still it is possible that the demand might be made without being immediately followed by an attack, which might be deferred until all the troops have reached Cavite. Up to the date of the report General Merritt had with him about 12,000 soldiers.

So far seven expeditions have left San Francisco carrying soldiers to the Philippines, and it is the intention to furnish the general commanding at least 8,000 men more than his present force. If he delays his attack until all these have reached him, Manila will not be taken in that way before September, for the last of the troops have not yet started from San Francisco.

It may be, however, that the arrangement as to the Philippines which, it is expected, will be included in the peace treaty, will obviate the necessity for further action on the part of the American commanders.

Secretary Alger and Secretary Long went into conference with the president at 1 o'clock yesterday afternoon over the serious situation in the Philippines. They had important dispatches from General Merritt and Admiral Dewey. Secretary Alger admitted the significance of these dispatches, but declined to state their exact nature.

Terrible Conditions on the Concho.

New York, Aug. 2.—The disinfecting of the transport ship No. 14, formerly the Mallory liner Concho, which arrived in port Sunday from Siboney, with 175 soldiers and army officers on board, was so far completed yesterday that 125 of the men were removed to Swinburne island. The officers were landed in the city Sunday night. The men remaining on board, about twenty-five in number, are too ill to be moved, and the Concho must be their hospital for a few days. The transport is the second ship to come with sick and wounded soldiers into port in such a condition, it is alleged, as would seem to call for the most strict and immediate investigation.

When the 175 soldiers on board, ill from fever or wounds, besides several civilians, hospital accommodations, it is said, were provided for less than one-third. There were but 58 cots in good shape on the ship, it is alleged, and over a hundred malaria and typhoid patients were forced to lie on rude bunks without mattresses or blankets, in a foul, ill smelling hold, and where the drainage from the upper decks filtered through on to them.

Bismarck's Funeral.

Berlin, August 2.—A dispatch from Friedrichsruhe to the Hamburg Nachrichten says it has been definitely decided that the remains of Prince Bismarck are to be interred at the spot selected by himself, where a simple mausoleum will be built and to which the remains of his wife will be transferred from Varsin.

Until the mausoleum is completed, the funeral rites will be confined to the simple ceremony of blessing the remains, which will be performed by the local pastor of the village of Brunstorf.

Prince Bismarck's final written instructions, signed by himself, expresses his desire to be buried in the Sachsenwald and conclude: "For an epitaph, I wish 'Prince von Bismarck, born April 1, 1815; died ——— —,' with the addition of "a faithful German servant of the Emperor William I.'"

Rapid Mail Delivery.

New York, Aug. 2.—The Tubular Dispatch Company, of which Mr. Howard Gould is president, held the opening ceremonies of its pneumatic system across the bridge yesterday at 3.30 o'clock p. m.

The company has two tubes at present, one being the circuit of Manhattan and the other to Brooklyn borough. It is promised that there soon will be similar means of transportation for mails in the entire Greater New York. Tests and experiments were made.

The tube is constructed to carry 2,500,000 ordinary letters daily in each direction, and the time saved over former methods, it is claimed, will be a valuable feature of the new plan.

BUYING LORDS AND EARLS

Mr. Hooly Says He Paid for the Use of Earls and Lords in His Business

London, Aug. 2.—The examination of Ernest Terah Hooley, the bankrupt company promoter, was resumed here yesterday.

A number of lawyers were present in behalf of distinguished clients who denied Mr. Hooley's charges in connection with payment of large sums of money for the use of their names or for introductions to people of prominence.

Mr. Hooley, upon examination, insisted, with a few exceptions, upon the truth of the statements he had made. He said in regard to the Earl of Winchelsea that the latter himself suggested he ought to be given ten thousand pounds for joining the directorate of the cycle company.

The earl, the witness added, said he could not take the money personally, but remarked that it could be given to his brother, Mr. Finch-Hatton.

Continuing, Mr. Hooley said he paid him three thousand pounds, and he asserted that the Earl of Winchelsea received two thousand pounds for joining the directorate of a horseless carriage company.

As to the Earl of Albemarle, Mr. Hooley expressed the opinion that his silly disclaimer did not need any explanation.

Later, Mr. Hooley testified that Earl De-La-Warr offered him one thousand pounds to say that the twenty-five thousand pounds paid him by the witness was a gift made after the flotation of the company in which the earl figured.

Mr. Hooley further testified that certain directors of the Humber company offered him one thousand pounds ($5,000) and two thousand pounds ($10,000) to commit perjury and say that the fifty thousand pounds ($250,000) which he had paid them, was profit from other business.

No Negotiations Over the Philippines.

London, Aug. 2.—In the House of Commons yesterday the parliamentary secretary of the foreign office, Mr. Geo. N. Curzon, answering a question, said there were no negotiations between Great Britain and the United States in regard to the Philippine islands, and that no information had reached her majesty's government in support of the statement that Germany had made or was making an attempt to acquire the island of Luzon.

Continuing, Mr. Curzon said the government was aware that the future of the Philippine islands was causing anxiety in Australia, and he further remarked that the matter will, of course, receive the government's close atteention.

Replying to questions on the subject of China, Mr. Curzon said Sir Claude MacDonald, the British minister to China, had been instructed on July 22 to inform the Tsung li Yamen (Chinese foreign office) that Great Britain would support China against any power permitting an act of aggression in China, "because China had granted a British subject permission to aid or build a railroad or other public works. (Cheers.)

A Home for Sick Soldiers.

New York, Aug. 2.—President Clausen of the park board has sent the following letter to Secretary Alger of the war department:

"I desire on behalf of the city of New York to tender to the United States government the use of a piece of property under my jurisdiction as president of the park board, for a home or shelter for convalescents among the soldiers and sailors, whose return from the seat of war was made necessary by reason of sickness or injury.

"It is the premises formerly known as the West End hotel, in Fort Washington park. The building is of brick and is surrounded by spacious piazzas. Its location is a beautiful and salubrious one upon the banks of the Hudson river.

"I am advised that in case the government desires to avail itself of their services, a staff of physicians and surgeons can be recruited from those residing in the neighborhood of the park who will freely offer their services to the government without compensation to assist in the care of patients of such a shelter."

Sending Home the Spanish Prisoners.

New York, Aug. 2.—J. M. Ceballos, the New York manager of the Spanish Transportation line, said yesterday the first transports of the line, which has the contract for taking the surrendered Spanish troops at Santiago back to Spain, had arrived at Santiago. The work of embarking 1,800 soldiers was immediately begun. The transport is the Alicante from Martinique. Manager Ceballos declined to state what other transports are expected at Santiago.

FINE FUNERAL OF A DOG.

A Blue Blooded English Pug Buried in a Casket With Silver Trimmings.

Charley, a 13-year-old pug dog belonging to W. Harry Harlow, of Bangor, Me., has been buried on a sunny slope of Mr. Harlow's lawn. The casket, which cost $40, was covered with broadcloth, trimmed with silver ornaments, and was lined with white satin. The floral offerings were many, nearly every fancier in the city sending something.

The ancestors of Charley were among the bluest of England's blue blooded pugs. His father and mother were bought in England by Alderman, afterward Mayor, O'Brien, of Boston, who paid $500 for them. Charley was born on the Cunard steamer which brought his parents to Boston, and when he was two years old he was presented by Mayor O'Brien to Alfred Harlow. Upon the death of his master in 1889 Charley went to Bangor. He attended all the baseball games and was in the habit of barking furiously whenever the umpire gave a decision against the Bangor nine. He also showed a marked antipathy to the Fall River Club, which was the near rival of the Bangor team for two seasons. He displayed his loyalty to Bangor and Bangor's interests in many ways, making numerous friends, who grieved over his death.—New York Sun.

PORTO RICO CAMPAIGN

The Army Will Wait in Ponce for Arrival of Reinforcements.

A MAYOR'S PROCLAMATION

Strong Infantry and Artillery Force to Advance Along the Military Road Fight Expected at Aibonito, 35 Miles Out from Ponce. Gen. Wilson Will Be Military Governor Until the Arrival of Gen. Brooke.

Ponce, Porto Rico, Aug. 1.—Major General Miles hourly expects the arrival of the transports having on board Brigadier General Schwan's division of six thousand men, and also the Mohawk, with the Fifth regular cavalry.

General Henry's division, consisting of 3,400 men, and including 26 pieces of artillery, has been ordered to march immediately from Yauco to Ponce in order to be ready to join the movement north to San Juan.

The Sixteenth Pennsylvania regiment was sent this morning toward Juana Diaz, eight miles north of Ponce, en route to San Juan, where, it is reported, the Spaniards will make a stand. The Sixteenth Pennsylvania regiment will be reinforced if necessary.

Word has reached here that the Spaniards were murdering native Porto Ricans, and indulging in general outrages.

The first real resistance is expected when our troops reach Aibonito, thirty-five miles northeast of here. Aibonito has a thousand feet elevation.

General Miles says he has no intention of making a landing of troops at Cape San Juan, especially as the place is only a roadstead, where transports are liable to suffer from the prevalent storms.

The railroad from Ponce to Yauco is now in the possession of our troops. General Stone found five torpedoes on the track. These were destroyed and the track is uninjured.

Our troops found seventeen Spaniards in the Yauco hospital all of whom had been wounded in Tuesday's fight. Two of them have since died.

Proclamations have been issued by Yauco, as a United States city, expressing delight at annexation and the administration of General Miles and of our troops.

The mayor of Ponce has called upon all the residents of that place to exercise calmness and circumspection under the new and desirable conditions. He also urges forbearance toward conquered enemies. Much enthusiasm is everywhere manifested at the sight of the Stars and Stripes.

The Mayor's Proclamation.

Following is the text of the mayor's proclamation, issued at Yauco, as a United States city:

Citizens: To-day the citizens of Porto Rico assist in one of her most beautiful feasts. The sun of America shines upon our mountains and valleys this day of July, 1898. It is a day of glorious remembrance for each son of this beloved island, because for the first time there waves over it the flag of the Stars, planted in the name of the government of the United States of America by the major general of the American army, Senor Miles.

Porto Ricans, we are, by the miraculous intervention of the God of the just, given back to the bosom of our mother, America, in whose waters nature placed us as people of America. To her we are given back in the name of her government by General Miles, and we must send our most expressive salutation of generous affection through our conduct toward the valiant troops, represented by distinguished officers and commanded by the illustrious General Miles.

Citizens, long live the government of the United States of America! Hail to their valiant troops! Hail Porto Rico, always American!

Yauco, Porto Rico, United States of America!

El Alcade, Francisco Magia.

Instruction to Wilson.

General Miles has issued a long order of instructions to General Wilson, who will be military governor of Ponce province and city until Gen. Brooke's arrival. It is of the same tenor as the instructions which General Miles gave to General Shafter at Santiago.

Gen. Wade's Expedition.

Chattanooga, Aug. 2.—Major General John F. Wade and the following members of his staff have gone to Washington: Major M. E. Almy, assistant adjutant general; Captain Lloyd C. Griscom, assistant quartermaster United States volunteers; Captain J. Cooke commissary of subsistence, United States volunteers; Lieutenant G. W. Reed and Lieutenant J. P. Wade of the Fifth cavalry, aides-de-camp.

General Wade, it was said at headquarters yesterday, was to take a provisional command of fifteen regiments to reinforce Generals Miles and Brooke in Porto Rico. The object of General Wade's visit to Washington was to receive instructions regarding his expedition, to make recommendations regarding the troops to move and other matters connected with the proposed expedition.

No Attack Up to July 29.

Hong Kong, Aug. 1.—The United States transport Zafiro has arrived in these waters and is anchored outside the Lyconam Pass. She reports that no American or insurgent advances had been made on Manila up to July 29.

The remainder of the third San Francisco expedition was expected to arrive at Cavite during the evening of July 29.

Snow in Nebraska.

Lincoln, Aug. 2.—An unprecedented cold snap is giving Nebraska a premature taste of fall. At Kimball, near the Wyoming line, it snowed for several minutes Sunday, the first time snow ever fell there in July.

No damage to crops is anticipated save a check in the growth of corn.

New Jersey's Greatest Store.

HAHNE & CO. NEWARK.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

Lace Curtain and Blanket Cleaning

The season is here and we are prepared for it. We have the improved method for handling the finest fabrics in Lace Curtains. It requires skill and carefulness to get them a dainty white without injuring a thread or design.

Few can do this, but we can, because we have made a specialty of it.

We also make a study of washing woollen blankets.

Price 50c per Pair.

We also do the

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

PROPOSALS

To construct, maintain and operate a Street Railroad in North Avenue from Orchard Street in the City of Elizabeth, to Richmond Street in the City of Plainfield, etc.

The following resolutions were adopted by the Board of Chosen Freeholders of the County of Union, N. J., at a meeting on Thursday, July 14th, 1898, viz:

RESOLVED, That it is the intention of this Board to widen, straighten and change the grade and otherwise improve Westfield or North Avenue between Orchard Street in the City of Elizabeth and Richmond Street in the City of Plainfield, in order to provide for the construction and convenient operation of a street railroad thereon; said proposed widening, straightening and change of location being shown on a map, consisting of fifteen sheets, this day adopted and filed in the office of the Clerk of the County, and be it further

RESOLVED, That propositions to construct, maintain and operate a street railroad on North Avenue from Orchard street in the City of Elizabeth to Richmond Street in the City of Plainfield, and on Orchard Street in the City of Elizabeth from Westfield or North Avenue to Morris Avenue, and in Plainfield on Richmond Street from North Avenue to Third Street and thence on Third Street to Watchung Avenue, and on West Jersey Street and Bayway in the City of Elizabeth from the present terminus of the street railroad on West Jersey Street to Westfield Avenue, will be received and considered by this Board on the Fourth day of August, 1898, at the hour of half past two o'clock in the afternoon of that day, at the Court House in the City of Elizabeth, N. J., in pursuance of an act of the last legislature entitled "An act to authorize boards of chosen freeholders to widen, straighten, grade and otherwise improve highways under control, and to provide for the construction of street railroads thereon," and that at said time and place all parties interested in said matter may be heard; and be it further—

RESOLVED, That this resolution shall be published in the Elizabeth Daily Journal and the Daily Leader, published in the City of Elizabeth, N. J., the Cranford Citizen, published in Cranford, N. J., the Union County Standard, published in Westfield, N. J., the Courier-News and Daily Press, published in Plainfield, N. J., once in each week until said Fourth day of August.

A LARGE ARMY FOR CUBA

Fifty Thousand Will Go to Havana in the Fall.

Washington, Aug. 2.—An army of not less than fifty thousand men will be sent to Cuba this fall. This army of occupation will operate principally in Havana province.

The administration now feels that peace is assured, and arrangements for adjusting matters in Cuba are being perfected. The army will be under the command of Major Fitzhugh Lee, and its principal duty will be to establish law and order in the island.

Owing to the danger from yellow fever, the movement of these forces is not expected to begin until the middle of September or the first of October. In the meantime all ten of the immune regiments will be sent to Cuba. The army of occupation will consist almost entirely of volunteers.

Since the beginning of the war the president has contemplated sending General Lee to Cuba as military governor. General Lee's experience in Cuba, and his knowledge of Cuban character it is thought, especially fit him for the position. Whether or not he will govern the whole island or confine his jurisdiction to Havana province cannot at present be stated.

The volunteer forces are now in condition to take the field. The men are well equipped and organized. They long for service in the field. The president and Secretary Alger, realizing the desire of the men for active service, will select for this campaign, as far as possible, regiments which have not seen the enemy, but which have for months lived a monotonous camp life. Forces will probably be taken from Chickamauga, Jacksonville and Camp Alger.

The army of occupation will be scattered over the whole island, occupying, under trusted officers, the principal towns and cities. Military rule will be establishtd in Cuba. When the natives establish their government and show their ability to properly conduct the affairs of the island, the troops will be withdrawn. How long this will be no one can say, and it may prove necessary to keep an armed force there for years to come.

The same course will be pursued in Porto Rico. General Brooke, it is said, will have the management of the affairs of that island.

BLOCKADE WORK BY THE BADGER

She Captured a Tug, a Schooner and a Barge at Nuevitas.

Key West, Aug. 2.—The tugboat Childs, has arrived at Tortugas. She brought additional facts concerning the captures by the Badger at Nuevitas. The Badger on Thursday picked up a tug, a schooner and a barge leaving Nuevitas.

The tug was towing the other vessels all of which flew Red Cross flags, and the Badger found on them 382 wounded Spanish soldiers, who were being taken to Havana. Most of the men were severely wounded and in a bad way.

The Badger took them to Tortugas, where they will have every attention. The schooner Dolores, sixty tons, arrived here this morning in charge of Ensign Craven and four men from the Eagle, which caught her on July 23 in Covrienties bay.

The vessel was heavily laden with food and had sailed for Batabano. A large number of papers found on her are believed to be papers of other vessels.

THE NICARAUGA CANAL

The President Said to Regard it Necessary.

Washington, Aug. 2.—Ex-Senator Warner Miller of New York, the president of the Nicaragua Canal Commission, and Senator Morgan of Alabama, the leading advocate of that project in Congress, had a conference on the Nicaraguan Canal question with President McKinley yesterday. The president, it is said, expressed his acquiescence in the belief that the government possession of the Nicaraguan canal is now necessary, and that the war and its results make the canal indispensable to the United States. The president, his callers say, intends to make strong recommendations to Congress for legislation making immediate provision for completing the canal and for making it the direct property of the government.

SPAIN WILL ACCEPT

Cabinet Met Yesterday to Prepare Reply. Peace Expected by August 15.

Paris, Aug. 2.—It is announced in a dispatch from Madrid to the Temps that the Spanish cabinet met yesterday afternoon to draw up Spain's answer to the United State's reply to the peace proposals.

The dispatch adds that it is believed the Spanish government will accept the terms immediately after official assent is given to them and that hostilities will be suspended in the Antilles.

It is the general belief that peace will be an accomplished fact before August 15.

Jernegan in France.

Havre, Aug. 2.—Rev. Prescott F. Jernegan, the vice president and general manager of the Electrolytic Marine Salts Company, for whose arrest on the charge of obtaining money under false pretenses a warrant was issued in Boston on July 30, arrived here by the French line steamer Navarre at six o'clock yesterday morning.

He was not taken into custody, however, owing, it is said, to the lack of the necessary papers, and started for Paris by train without bein ginterfered with.

No Cases of Yellow Fever to Embark.

Washington, Aug. 2.—Surgeon General Sternberg says positively no yellow fever patients will be brought north. None who have had it will be allowed to embark on the transports. It is expected that 20,000 troops will be at Montauk Point within the next three or four weeks.

Thorn Pays the Penalty.

Sing Sing, Aug. 2.—Martin Thorn, the murderer of William Guldensuppe, was executed in the electric chair in the prison here at 11.17 o'clock yesterday. Thorn kept up his nerve until the last. After being strapped in the chair, while waiting for the current to be turned on, he prayed with his spiritual adviser.

WILL SPAIN REJECT?

Her Cabinet is Now Considering Our Terms of Settlement.

ANSWER IS EXPECTED SOON

The President's Note May Be Made Public. Ambassador Cambon's Promise Misunderstood. He Had No Authority to Conclude Peace. Independence of Cuba Not Demanded. Much Discussion of the Peace Terms at the Capital.

Washington, Aug. 2.—The terms of peace are still a subject of energetic discussion, and the promise of two days ago that the proposal on the part of the United States should be given to the public in an official statement has not yet been fulfilled. The hope of the jingoes that the administration would insist upon the cession of the whole Philippine group has been rudely shaken by the estimate of Rear Admiral Dewey that we should require 150,000 troops to make good our demand by it as a matter of negotiation.

The Spanish government received President McKinley's answer in regard to peace Sunday and yesterday the French ambassador notified the state department that there would be no objection to making public the president's note.

Owing to the fact, however, that Secretary Day has not returned from Atlantic City, where he spent Sunday with his wife, it is stated that the president's move may not be made public until late this afternoon, and it is just possible that it may be held until tomorrow.

There seems to be a misunderstanding in regard to the French ambassador's exact position in regard to the peace negotiations, but it is stated in the most positive manner to-day at the state department that M. Cambon has not received extraordinary or plenipotentiary powers in the negotiations now pending. He has simply been designated the intermediary for the transmission of the note. He has not been made ambassador from Spain for two reasons.

First, to do such a thing would be to renew diplomatic relations between the United States and Spain, a course which the president would not take at this time, because no diplomatic relations can exist between two countries at war with each other.

Secondly, the French republic would not allow its ambassador to act as ambassador for Spain. M. Cambon has the permission of his government, as well as the consent of the United States to act as intermediary, but not with any plenipotentiary powers.

It is further stated at the state department that the French ambassador has no authority to conclude peace negotiations, for all notes or diplomatic communications must be sent direct to Madrid. It is stated, therefore, at the state department that although Spain has received the president's terms, it cannot be stated positively when an answer will be given. It is true that there was a slight modification of the text of the president's note made at the White House on Saturday afternoon during the ambassador's call, but this did not relate entirely to the Philippines.

It was a slight change in the language in regard to other parts of the note to make it appear less severe diplomatically.

As to Cuba.

There is one point made clear in the president's note, and that is that it does not demand the independence of Cuba, but demands that the sovereignty of Spain over this island, as well as the others in the West Indies shall cease, and the Spaniards withdraw their armed forces. This is a most important feature and will add greatly to the prospect of an early acceptance by Spain of the terms. If the independence of Cuba were demanded it would mean the immediate withdrawal of our troops from the island as well as the Spanish army and the turning over of Cuba to the Cubans. The president's policy is not to do this, but to send an army of occupation to the island, to remain there until a stable government can be established, if this is possible.

While it is the opinion of some that Spain wil send her answer to the French ambassador by to-day, this opinion is not held by officials of the state department. The president took three days to formulate his answer, and certainly Spain will require at least that long to decide a question which means so much to her.

President Names New Officials.

Washington, D. C., Aug. 2.—The president has made the following appointments:

George G. Pierie of Pennsylvania to be consul of the United States at Munich, Bavaria.

Richard G. Banks, collector of customs, Norfolk and Portsmouth, Va.

James Stone, supervising inspector of steam vessels for the Ninth district.

Lunsford De Fricks and Mark J. White, assistant surgeons in the marine hospital service.

Joseph Foster, pay inspector in the navy, with rank of commander.

Frank T. Arm, paymaster in the navy, with rank of lieutenant.

James W. G. Walker, civil engineer in the navy, with rank of lieutenant, junior grade.

William Melville Carton, assistant surgeon in the navy, with the rank of ensign.

Direct Communication With Ponce.

Ponce, Aug. 1.—The Signal Corps service has succeeded in establishing direct telegraphic communication between General Miles's headquarters at Ponce, Porto Rico, and Washington. Lieutenant Colonel Allen left St. Thomas last week with instruments to replace those which the Spanish soldiers had destroyed. Immediately upon his arrival at Ponce he set to work to refit the cable office. The work was completed yesterday.

Hawaii Will Settle.

Yokohama, Aug. 2.—It is reported here that Hawaii has agreed to pay Japan 40,000 pounds, $200,000, sterling, in settlement of the dispute which arose out of the exclusion of Japanese emigrants from the Hawaiian islands.

LAST CHANCE FOR GOING TO FRONT

Influence Being Brought to Get Regiments Assigned to Gen. Wade.

Chickamauga, Chattanooga National Military Camp, Tenn., Aug. 2.—The departure of General Wade leaves Brigadier General R. T. Frank in command of Camp Thomas, pending the arrival of General Breckinridge, who has been assigned to the command. It is understood here that General Wade is to command a provisional detachment of fifteen regiments from states that have the least representation at the front. Men and officers from the various regiments at Camp Thomas are in a state of anxiety, and will continue so until it is known who will go.

The present indications are that the next troops to go will be from the Third Corps. Powerful influences have been brought to bear lately upon the president and the war department in behalf of the First Vermont, Eighth New York and Third Tennessee, these regiments comprising the Third brigade, First division, Third corps, Brigadier General Leonard commanding. General Colby is a warm personal friend of Assistant Secretary of War Meiklejohn, Senator Proctor of Vermont, Congressman Benton McMillan of Tennessee and prominent representatives of New York have urged the incision of this brigade in an early expedition to the front.

The brigade is mustered to its maximum, is fully equipped and splendidly drilled. The states represented have no very considerable representation at the front as yet.

Senator Proctor has telegraphed the First Vermont that it would assuredly be included in the very first movements.

The Texas Receives an Ovation.

New York, Aug. 2.—The United States battleship Texas, once spoken of disparagingly as the "hoodoo of the navy," but now nicknamed in the service "the fighting Texas," for the leading part she took in the naval battle ending in the destruction of Cervera's fleet, is anchored at the Brooklyn navy yard, where she is to undergo repairs and dry docking that will keep her here about a week. The Texas arrived at this port early Sunday morning, coming direct from the scene of her naval triumph at Santiago de Cuba, which she left about a week ago. The battleship made a short stop at the naval anchorage at Tompkinsville S. I., and shortly before noon she proceeded to the navy yard, and was made fast to the Cob dock, directly opposite the cruiser Chicago, where she now lies.

Her trip up the East river and through the shipping in the lower bay was in the nature of a triumphal procession and there was not a man, woman or child who sighted her leaden colored hull, with the Stars and Stripes floating gayly from her stern, making a most beautiful and impressive picture, who did not cheer the gallant tars who lined her sides and gazed again at the familiar sights of the harbor, so sharply in contrast to the tropical ports lately visited by the ship. All the shipping in the river, as well as the crowds that lined the shore, and the big bridge, joined in celebrating the arrival of the warship, and from the big Atlantic liners, tramp steamers, sailing craft and coasters, down to the little fussy tugs, every vessel gave her a salute in the shape of a long, shrill, regular New Year's eve sort of a blast from her steam siren. In the case of the sailing vessels, the entire crews manned the sides and cheered and waved their hands and hats as long as the Texas was in sight.

The morning excursion boat passengers, however, had the best of it, as they had the satisfaction of an extra attraction, without extra cost, in the shape of "a real battleship just back from taking part in a real battle," as one of the crew put it laughingly yesterday morning. The boats going to Coney Island and Rockaway turned out of their way to give the passengers a view of the Texas anchored at Tompkinsville, and the passengers crowded to the sides in such numbers in order to get a view that it seemed as if several of the boats must turn turtle.

A number of the crew of the Texas were given shore leave Sunday, but early yesterday morning all hands got back to business again and were kept at work lightening ship.

The Texas is so heavy that without lightening her there is some danger that she might be injured while crossing the side of the dry dock.

In consequence, all of her ammunition and most of her coal will be taken out, and with these hundreds of tons out of the ship she will be rapidly floated into the timber dry dock No. 2, which has been prepared for her reception.

She expects to enter the dock early this morning, but Captain Phillips said yesterday morning that if the work of lightening her was completed in time she would go in last night.

Transports to Porto Rico.

Washington, Aug. 2.—The quartermaster's department has received orders to get ready as soon as possible the transports Alamo, Leona, Rio Grande, Concha, Minnewaska and Manitoba, which are to be sent to Newport News to take General Grant's division to Porto Rico.

The Minnewaska was to have taken the First regiment of New York volunteers, the engineers, to Porto Rico, but owing to her horse carrying capacity it was decided to send her to Newport News.

The engineers will go Thursday on the Chester. It is thought the Manitoba will sail to-night.

Fire Results Fatally.

Chicago, Aug. 2.—Guests of the Berwyn hotel, No. 148 North State street, were roused from their slumbers at 3 o'clock yesterday morning to find the hostelry on fire. So rapidly did the blaze spread that men and women found themselves cut off from all escape by the stairs.

Three lives were lost and a number of others were maimed and bruised by jumping from high windows to the pavement.

Help for the Red Cross.

New York, Aug. 2.—A telegraph order for $1,000 was sent by the Red Cross society to the agent of the society at Chickamauga yesterday to meet the expense of establishing at once a new camp hospital for the care of sick and wounded soldiers.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

The Sewer Beds.

The meeting of the Common Council last evening brought to light the fact that, under present conditions, the sewage disposal system is not adequate to the needs of the city. As a result, it was necessary to ask for an appropriation to increase the effectiveness of the sewer beds.

The fact that there has been a large increase in the number of sewer connections, and no corresponding increase in the number of beds is the cause of the present difficulty. In the original plan twenty beds were provided for, but that number was not completed. The present number used, seventeen, cannot take care of the sewage as they should.

There was much truth in the remark of Councilman Buckle that now the city had the sewer beds, they would have to make the best of it.

Weather Affects Merchants.

Many of the local tradesmen are complaining that the frequent showers of the past two weeks have seriously affected their business. The showers have taken to coming at such unexpected intervals that many of their usual customers will not venture out unless they find it necessary. Umbrellas are carried at all times, no matter how clear the sky. Instead of shopping through the city, the people rush after what they want, purchase it in a hurry and depart at once, keeping one eye on the sky. Liverymen find that many of their patrons fear being caught in the rain and so postpone their usual drive.

Of course, when the shower comes, there is no business for anybody except trolley cars and hacks.

Intervention.

It is not desirable to cross bridges till we come to them, nor do the American people anticipate any interference on the part of Europe in dealing with the questions of peace and war and the results of war now confronting us. Whatever the disposition of foreign nations, they are too much at cross purposes among themselves, too certain of the practical co-operation of the greatest of the world's naval powers with this country, to take serious risk in attempting to enforce conditions. Yet we must not shut our eyes to the fact that recent history reads us certain warnings, nor to the omen that there has been open discussion abroad as to the desirability of an international congress to revise our terms of peace with Spain, should these seem to Europe excessive or otherwise objectionable.

Between the first peace overtures, with their dilatory pourparlers on one side, or both, to the actual preliminary business of the protocol or rough basis of discussion between the accredited negotiators some time ordinarily elapses. Mr. McKinley will not delay the course of such an important business, but will doubtless insist on equal sincerity on the other side. But it can scarcely be expected that steady progress will be made without many dangerous halts and hitches in so delicate an affair. It is at such times that the intervention of foreign diplomats has been often exercised, though it may be in a circuitous and indirect fashion. If everything proceeds to an apparently satisfactory end, as far as the two countries are concerned, intervention sometimes comes in the form of direct international pressure. The congress of Berlin in 1878 snatching the fruits of victory from Russia; the revision of the treaty of Simoneseki at the end of the China-Japan war; the veto put on the porte after the late Greek war; the enforced restoration of Thessaly and the reduction of indemnity from $50,000,000 to $10,000,000, are more recent examples of interference to which many parallels could be added.

It does not change the status of the argument that in some cases such intervention has been in accordance with the sympathies of civilization. It is enough that nations have frequently assumed the power and made themselves the arbiters of right and wrong. And who does not know what the arbitration of international right and wrong means in such cases? After all the matter reduces itself to a question of power and the answer to the question, "Is the game worth the candle?"

THE SIEGE OF MANILA.

The picture shows the disposition of the defending and attacking troops at Manila. Brigadier General Anderson divided his forces into two brigades, Brigadier General Greene being placed in command of the second.

The University Need.

Clark university at Worcester, Mass., sets a model for a class of institutions of which we need more. It is the one educational faculty which provides solely for "graduate" instruction. All our other colleges and universities, however much they may encourage and establish foundations for postgraduate study and original research, for the most part fasten their attention on the mental training of youth as a means to some end to be attained afterward. This is essentially true even of Yale, Harvard, Columbia, Princeton, the Chicago university, etc., in spite of the fact that these institutions are noted for departments of theology, medicine and science. But Clark university, with its 11 professors, aims solely to offer facilities for research in special lines, though these are versatile and widely divergent. It is an institution for serious and intellectual young men, not for lads feeling their way toward culture and enlivening it with frolic and athletic contests. It aims at the highest university ideal, and, though young in life and only blessed so far with 40 students, it is already greatly discussed and respected in educational centers abroad. To increase the number of such institutions and to further develop similar lines of work in our other great universities should be the aim of our endowment giving rich men and not to plant more small colleges, which are in effect higher "high schools." Of the latter class we have enough, valuable as they are.

One thing was made clear even to those previously inclined to carp by the official reports made by Admiral Sampson and his officers of the great naval battle. It was this—that the absent admiral was entitled to his proportionate share of the glory, as the battle was fought tactically on the plans and orders which he had provided. Yet one is tempted to regret that there had not been something more of the magnetic warmth and cordiality which Schley displayed in his congratulations to Sampson in the words of Sampson speaking of Schley. Both are valiant and faithful servants of Uncle Sam, but there is a difference in temperament.

Foolish philosophers have a way of sneering at the caprices of feminine fashion. Yet the history of fashion is the history of civilization. From the day of Eve's fig leaf to that of the sophisticated Worth gown it spans either directly or by implication all that is most interesting in human society.

The well known American artist E. A. Abbey was made an associate of the Royal academy three years ago, and now he has been elected member. These almost unprecedented honors might cause some of his jealous brother artists to cite them as another evidence of Anglo-American rapprochement.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The excursion of the Plainfield First Presbyterian and mission Sunday-schools to Asbury Park came out over $100 short. Long and tedious excursions by train to a spot whose interest is worn threadbare are much more expensive and less attractive than the cheap and delightful river and ocean excursions that are now so popular.—Bound Brook State Centre.

* * * * *

The most frightful-looking ghost ever seen in New Jersey is said to haunt a certain shaded roadway near Pluckamin, long a favorite resort of lovers, but since the spook's appearance none will go near it at night. The spectre is described as having an unearthly countenance, red eyes and a terrible voice which is constantly calling for a drink. Mayor Melick thinks the ogre resembles the shade of a Tilden Democrat whom he has not lately seen in the flesh.—Bound Brock State Centre.

* * * * *

The war has developed worse things than the "extra" habit. One of them which grieves the postoffice men is the hard-tack habit. Soldiers in camp will send to the folks at home and to sweethearts, the latter especially, pieces of hard-tack as a specimen of warrior's bill of fare. Of course those little mementoes are highly appreciated by the addressee when they are received in good condition, but as a matter of fact the hard-tack is not tough enough to withstand the knocks of a mail pouch, and but few of the specimens are received without being chipped or broken. Some of them are broken up into such small particles that the reading of the address is altogether out of the question, and the remnants are swept together at the sorting table and stored away in official envelopes. Whenever possible, the pieces are pasted together with postoffice mucilage and then the cracker represents more closely a piece of ancient mosaic than it does a United States hard-tack. For the benefit of the soldier boys it might be stated that the army hard-tack is not robust enough to be sent home without the accompaniment of a pasteboard box or at least a stout envelope.—Newark Call.

THE COURTS.

JUSTICE MOSHER.

Summons issued—In the case of Bryant vs. Gobel, on contract, returnable August 8.

Case settled—Case of Margateno vs. Lewis, settled out of court.

How's This.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 2.—Harry Dodwell, of Front street, returned last evening from Manasquan, where he spent his vacation. Sunday he celebrated the anniversary of his twentieth birthday in a quiet and appropriate manner.

Thursday evening last Miss Maude Wilcox entertained a few of her friends in honor of the fifteenth anniversary of her birthday. Dancing was the feature of the evening and music was furnished by Miss Ray Vail and Archie Brakeley. Among those present were Miss Millicent Winges, of New York; the Misses Bessie Vail, Edna Coriell, Maude and Margaret Wilcox, Sarah Vail, Helen Harned, Ray Vail, Aubrey Brakeley, Max Brakeley, Abner Coriell, Frank Fletcher, Charles Lake, Mr. and Mrs. F. Wilcox, Fred and Hudson Wilcox, Howard and Edgar George.

Saturday afternoon last Goldsen Smalley lost one of his valuable horses by death. The horse was being driven to a stone wagon and he was overcome with the intense heat. He dropped on the road and was removed later in the day.

Despite the warm weather last Sunday a large number of Plainfield people came to the borough on the trolley cars and spent the day wandering about the borough trying to find a breeze.

Adam Dealaman, of Washington avenue, spent yesterday at Asbury Park with his family, who are spending the month at that place.

The public schools will open early next month, and the prospects are that there will be a large increase in the attendance of scholars.

The trolley feed wire was placed in position yesterday and in a few days it will be connected with the wire of the Plainfield company.

Mrs. O. B. Chandler, Miss Lizzie Martine and Miss Mary Martine are visiting Mrs. Chandler's sister at Glen Head, L. I.

Conductor Charles Dodwell, of the Central, enjoyed a day off last Sunday and spent it with his family on Front street.

Mrs. Abbott, of Church street, will return this week from Asbury Park, where she has been enjoying an outing.

Rev. A. I Martine, of Church street, has gone to Nyack, N. Y., for a few days. He went with horse and wagon.

H. L. Terry and family, who have been spending several weeks at Asbury Park, have returned home.

Mr. and Mrs. J. N. Apgar have returned from Bedminster after visiting Mr. and Mrs. D. S. Cambell.

Louis Wahl, of Washington avenue, has returned from Passaic Valley, where he spent Sunday.

Miss Esty has returned to her home in Bayonne after a visit with Mrs. Charles Boice.

Miss Hunt, of Westfield, spent Sunday with Mrs. William Dunham, of Church street.

Miss Florence Mallison, of New York, spent Sunday in the borough with friends.

Mrs. William Dunham and children have returned from a short stay at Asbury Park.

Mrs. Jeremiah Dunham, of Church street, is spending a week at Asbury Park.

Miss Edna Vail is the guest of friends at Phillipsburg for a short time.

Walter Bodine, of Front street, is spending a month at Ocean Grove.

Frank Bowyer, of New York, spent Sunday in town with his mother.

Mr. Bogardus and family are spending a week at Asbury Park.

T. C. Bodine, of Front street, is sojourning at Asbury Park.

Mayor Brakeley, who has been ill, is again able to be out.

—Press want ads bring results.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 2.—That very exciting (?) story in the Plainfield News of last Saturday concerning a mad-dog furnished enough amusement to last over Sunday. Mr. Nelson, the owner of the dog, was asked about the matter, and said that his dog had not been mad, neither had he bitten anyone. The dog is so small that a person would have some trouble in finding him, instead of being bitten by him. This is another case of where it would be better for the News' reporter to investigate instead of depending on others to write up his stories.

Today the Piscataway Township Committee is holding a regular meeting at Nelson's Hotel.

Progress is being made with the improvements on the public school building.

Miss Lizzie Carpenter has been visiting friends in Plainfield.

PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, August 2.—Miss Minnie Meyers has returned from a week's visit with relatives in New York City.

Mr. Crausse, of Cranford, secretary of the Union County Sunday-School Association, acted as superintendent in Mr. Hall's place, who is enjoying a vacation, at the Baptist Sunday-school, Sunday afternoon.

Rev. Mr. Lewis, who is occupying Rev. Mr. Woodruff's pulpit during his absence, was the guest Sunday of Mr. and Mrs. T. S. Whitenack.

Mr. and Mrs. A. L. Jimerson, of Westfield, were the guests Sunday of their daughter, Mrs. George W. Marsh.

The trustees of the Baptist church held their regular monthly meeting in the church parlors last evening.

Mr. and Mrs. Fred Cooper, of New York, are visiting Mrs. Cooper's father, Loftus Hollingsworth.

Dr. J. H. Buchanan, of North Plainfield, visited friends in town Sunday.

Herbert Tucker, of Elizabeth, was the guest Sunday of Edward Johnston.

Miss Laura Bundar, of Morristown, is visiting her cousin, Miss Eva Messler.

The excursion to Asbury Park took out a large crowd this morning.

Edward Dorward, of New York City, spent Sunday with his family.

Charles Davis, of Plainfield, spent Sunday with friends in town.

John Thys, of New York, spent Sunday with friends in town.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 2.—Mrs. Charlotte L. Perry, wife of George Perry, Jr., died early yesterday morning after an illness of several months with asthma. Mrs. Perry, whose maiden name was Ungerer, was 24 years of age and had been married only two years. The funeral will be held from her husband's home, on Woodlawn avenue, tomorrow afternoon, and will be private.

The hotel keepers have been notified that hereafter they must close their bar rooms sharply at 12 o'clock Saturday nights and keep them closed until Monday morning. Some of them have been doing more business Sunday than on any other day.

The Congregational church will be closed during the month of August and there will be no services of any kind, as the church is being repainted and decorated and new carpets put down.

Rev. N. W. Cadwell, of the Presbyterian church, with his family, leave tomorrow for a month's stay in the northern part of New York State with Mr. Cadwell's relatives.

Ezra Bloodgood, of Company C, Third Regiment, is at home on a twenty-four hours' furlough to see his daughter who is confined with the measles.

A large part of the population of Westfield is at Asbury Park today enjoying the excursion of the Presbyterian and Baptist church Sunday-schools.

At the meeting of Bucket and Engine Company held last evening Lawrence Powers was elected a member.

The Westfield Jr. baseball team will go to Rahway Thursday to play the Juniors of that town.

Mrs. Cash is entertaining Miss Lousie Brown, of Bordentown.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, August 2—The damage to the residence of G. W. Hunt by the recent fire is being repaired by Thomas Mounard, of Jersey City.

Ten new monitor machines have been purchased for the steel works which are expected to arrive daily.

Private A. C. Taylor, of Co. F, 1st Reg., N. J. Vols., located at Camp Alger, is spending four days with his mother, Mrs. H. W. Angleman, of 226 East Fourth street.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Miss Edith Hulburt, of West Front street, has returned from her vacation.

Mrs. Cobb, of Fairview avenue, is spending the summer in the mountains.

Frank Kent, of Newark, spent Sunday with Rufus Larew, of West Fourth street.

Mr. and Mrs. Fred Breem's daughter is slowly recovering from a severe illness.

Marshal Winn, of the borough, is on the sick list, and is not able to be on duty.

Mrs. E. N. Erickson, of West Eighth street, has gone to Brooklyn for the summer.

Miss May Hughes, of White's dry goods store, started on her vacation yesterday.

Mrs. Charles Suhr, of New street, is visiting her mother at Odgensburg, this State.

Letter-Carrier R. H. Loughlin started on his vacation of ten days yesterday.

Miss Alice Callahan, of Woodland avenue, is spending four weeks at Highland Beach.

Dudley Miller, of Randolph's pharmacy, spent Sunday in New York with his brother.

Mrs. J. H. Van Winkle, of Duer street, is visiting relatives at Atlantic Highlands.

Charles Wittke, of Westfield, has been visiting Sanford Robinson, of West Second street.

Robert Suffren, of Sycamore avenue, has returned after spending his vacation in Liberty, N. Y.

Miss Lou Crosson, of Park avenue, is spending her vacation in visiting several places of interest.

Charles H. Lee and family, of Grove street, will spend several weeks at the Trenton House, Asbury Park.

Miss Constance Patton, of West Fifth street, has returned from an outing in the White Mountains.

Dr. Samuel Ayres, of New York, spent Sunday with his father, William C. Ayres, of West Second street.

P. M. French, of Somerset street, is improving from his severe illness, and his friends are much encouraged.

Mrs. Isaac Smalley, Jr, of Philadelphia, is visiting Mr. and Mrs. Isaac Smalley, Sr., of East Front street.

Mrs. Theodore I. Runyon and daughter, of West Fourth street, have gone to Asbury Park for two weeks.

Miss Mary Louisa Powelson, of Pluckamin, spent Sunday with Miss Louisa VanEps, of East Front street.

P. B. Hodge and family, of Plainfield avenue, will spend this week at Asbury Park, and next week at Somerville.

Frank Bushnell and family, of Madison avenue, left today for Norfolk, Connecticut, where they will spend August.

Miss Maggie Whalen, of I. H. Boehm's dry goods store, left yesterday for Easton, Pa., where she will spend two weeks.

Councilman and Mrs. E. D. Moffett spent Sunday with Mrs. Wilbur Chamberlin, of Jersey City. Mrs. Moffett will stay for a few days.

Miss May Smith, a saleswoman at I. H. Boehm's dry goods store, is enjoying a vacation of two weeks with friends at South Plainfield.

Next Thursday Miss Anna Fenner and Miss Mabel VanMiddlesworth, of Elmwood place, will go to Manasquan, where they will spend their vacation

Andrew Stiglitz. Mr. and Mrs. William Beiter, Mrs. Fred Casper, Miss Caspar, Emma Larew and Miss Carrie Beiter spent Sunday at Warrenville.

Sydney R. Titsworth, of West Fifth street, leaves Thursday to spend the month of August at Watch Hill, R. I., where he will be the guest of Nathan E. Lewis.

Mrs. Joseph Cooney and daughter, Miss Florence Cooney, of West Sixth street, are visiting Mrs. Cooney's mother, Mrs Hoffman, of Bowmanstown, Pa.

William T. Kaufman and family, of West Seventh street, who have been sojourning on Long Island, have gone to Jefferson, N. H., for the remainder of the summer.

Walter G. Voorhees, assistant secretary of the Somerville Y. M. C. A., who has been spending a week with his brother, Oliver Voorhees, of East Front street, has returned home.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Don't forget the dance at Mountain Park Grove Thursday night.

—The American Queen for August has arrived. Subscribers can procure their copies at White's.

—Miss L. A. Smalley, of East Front street, has closed her dressmaking establishment for the season.

—Winfield Scott Post, No. 73, G. A. R., will not meet again until the fourth Tuesday in this month.

—The regular business meeting of the W. C. T. U. will be held in their rooms Thursday afternoon, Aug. 4th, at 3:30.

—The Borough Public School is being cleaned and thoroughly renovated preparatory to the opening of school next month.

—A meeting of the Exempt Fireman's Association will be held in their rooms this evening at 8 o'clock. Important business will be transacted.

—"River Rest," a large boarding house near Bound Brook, has been compelled to close for the summer owing to the scarcity of water in the neighboring well.

—The Epworth League meetings at the First Methodist church will be held as usual in Vincent chapel Sunday evenings, August 7th and 14th, although there will be no preaching service in the church on those two dates.

PARTICULAR MENTION.

Silas Yerkes and family, of East Sixth street, returned home from Asbury Park yesterday.

Miss Jennette Clawson, formerly of Dunellen, but now of this city, has been secured to teach school at Bound Brook next year and not Miss Alice Clawson, as reported previously.

David Snediker and family, of Grove street, left yesterday for Michigan, where they will visit relatives until fall.

Mrs. Hunt and family, of the Jackson building, left yesterday for a short trip through the New England States and Long Island.

Mr. and Mrs. Thomas H. Kellar, of East Front street, have started on the Old Dominion Line for a week's trip through the south. They left yesterday.

COLONEL BOGEY'S SCORE

CONTINUED FROM PAGE 1.

be made in three. The "cross-road" hole lies 410 yards distant. A road has to be crossed, but this should be done on the second brassey shot. A pulled ball will be penalized by a trap. "Colonel Bogey" makes this hole in six. "Down grade" derives its name from the nature of the play, which is down an incline. It is 255 yards, and can easily be made in four. A road is the principal hazard that intersects the play for "lowland," or the seventeenth hole. It is 305 yards. The "home" hole is 150 yards, and while short, is not the easiest in the world The play takes one over a fence into a hollow, and a pulled ball will cause the sphere to roll downhill considerably off the course. If no mistakes are made it can be made in three.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

Edward White.

A Calendar Box.

Steamer letters as a fad pure and simple are losing their novelty to the transatlantic traveller. They are still very grateful to the voyager when they come from his immediate family and closest friends, but the wholesale writing among exuberant young people of dozens of scores of steamer letters on the strength of a slight acquaintance, has brought the idea into disrepute. A variation of the custom was that illustrated the other day in the going away for a year's study abroad of a young woman who rejoices in the possession of an extended family circle. Her parents and brothers and sisters arranged a calendar-box for the voyage, which was taken on a slow vessel and was to last eleven days. In this box, committed to the paid care of the steward, was a gift for each day of the crossing, the articles embodying the fulfilment of some expressed desire of their recipient. The climax of the treasures, delivered the eleventh morning out, was a beautiful cabinet picture of the young girl's mother, taken in the gown and bonnet which she wore at the ship, so that her counterfeit presentment would appear in this latest and most familiar guise to the daughter. The picture was enclosed in a little flat leather frame that could be easily carried about, and the delighted girl wrote back that she stepped on foreign soil hugging her mother's picture. In deference to the war season, the first day out, as her young brother wrote in his note of bestowal, to preserve her patriotism, a pretty silk American flag was bestowed. The charm of this calendar-box, as of any gift, was largely in the thoughtful care that its contents showed rather than in their money cost.

New Ideas.

A new riding cushion for bicycles has been designed to attach to the body of the rider and inflate to desired degree of hardness.

A French woman has patented a scrubbing brush which is to be attached to the shoe by straps and a heel plate, thus making it possible to clean floors while standing upright.

The handle of a new shaving brush is hollow and contains a stick of soap, which is forced into the bristles by a spring and discharges a small quantity when the brush is dipped in hot water.

Russian Don Cossack regiments are now being drilled in crossing rivers on a novel sort of improvised bridge. Seven or eight lances are passed between the handles and tops of a dozen cooking kettles, and are held firmly in place by the handles, and are besides tied together by forage ropes. A dozen bundles of these lances fastened together form one section of a raft or floating bridge, which, it has been found, will support half a ton of weight. A section can be put together in twenty-five minutes.

Blue Lawn Shirt Waist.

A simple shirt waist for a young girl may be made of light blue lawn. This waist is made without a yoke and is adorned with groups of tucks, running up and down the corsage. Two groups of three tucks trim the top of the sleeves, which are the regulation shirt sleeve pattern. A standing collar, white accordion pleated tie and a black satin ceinture gives the finishing touch to this pretty waist.

The most attractive point about the blouses and shirt waists this season is the diversity of ties which may be worn with them. Besides the stiff Ascots and four-in-hands there are all manner of fluffy ties of net and mousselaine which tend to give a dressy finish to the plainest waist.

Plain and Embroidered Linen Waist.

A novelty in blouses is composed of plain and embroidered linen and trimmed with ribbons. It is cut low in the neck to wear over a guimp, and fastens invisibly under a shield of plain cadet blue linen, in the front.

The guimp of finely tucked white lawn has a high stock collar. The remainder of the corsage, the sides and back, are of the embroidered linen, made slightly full over a tight fitting lining. Two straps of blue velvet ribbon extend from the under arm seam and terminate beneath the shield. A ceinture of velvet encircles the waist finishing at the left side beneath a large rosette. The sleeves are of the plain linen.

Spinach.

Boiled spinach is a vegetable for all housekeepers to order during the spring as it is a very excellent blood purifier. Prepare it as follows: Take a peck of washed spinach picked from the stalks, shake dry and put into a saucepan without water, add a little salt, and let it cook for about a quarter of an hour. Then take up, pour into a colander, press dry, turn on to a board, and chop very finely. Have a clean sauce-pan ready, put the chopped spinach into it, season with pepper, salt, and add a lump of butter. When all is hot, set in a hot dish and serve.

Black Net Visiting Toilet.

One of the many fashionable materials which has made its appearance this season is black net, and nothing makes a prettier gown.

An elegant visiting toilet is made of black Brussels net, combined with and made over an exquisite shade of pink silk. The bodice is quite intricate, being alternately net and silk, the latter material shirred. The sleeves are of the plain taffeta with gathered epaulets over the shoulders. A belt of black velvet encircles the waist, while the collar is of silk. The skirt is a continuation of the corsage and is finished at the base with a deep flounce of the net.

The oldest piece of wrought iron in existence is believed to be a roughly-fashioned sickle blade found in Egypt. It is now in the British Museum, and it is believed to be nearly 4,000 years old.

Why We Are Right Handed.

Primitive man being by nature a fighting animal, fought for the most part at first with his great canine teeth and fists, till the process of time added to those early and natural weapons the further persuasions of a club or shellelah.

He also fought, as Darwin has conclusively shown, in the main for the possession of the ladies of his kind against other members of his own sex and species.

And if you fight you soon learn to protect the most exposed and vulnerable portion of your body, or, if you don't, natural selection manages it for you, by killing you off as an immediate consequence.

To the boxer, wrestler, or hand-to-hand combatant, that most vulnerable portion is undoubtedly the heart. A hard blow, well-delivered, on the left breast, will easily kill, or at any rate, stun a strong man. Hence, from an early period men have used the right hand to fight with, and have employed the left hand chiefly to cover the heart and to parry a blow aimed at that specially vulnerable region. And when weapons of offence and defence supercede mere fists and teeth, it is the right hand that grasps the spear or sword, while the left holds over the heart for defence the shield or buckler.

From this simple origin, then, the whole vast difference of right and left in civilized life takes its beginning. At first, no doubt, the superiority of the right hand was only felt in the manner of fighting. But that alone gave it a distinct pull, and paved the way at last for the supremacy elsewhere.

For when weapons came into use, the habitual employment of the right hand to grasp the spear, sword, or knife, made the nerves or muscles of the right side far more obedient to the control of the will than those of the left.

The dexterity thus acquired by the right—see how the word "dexterity" implies this fact—made it more natural for the early hunter and artificer to employ the same hand preferentially in the manufacture of flint hatchets, bows and arrows, and all the other manifold activities of savage life.

And to the end the right hand remains especially "the hand in which you hold your knife;" and that is exactly how your children to this day decide the question which is which when they begin to know their right hand from their left for practical purposes.

A Lovely Folding Sachet.

Many pretty pieces of fancy work can be done by the woman with deft fingers during the warm weather. A pretty fashion is to have a folding sachet nearly as long as the width of the bed, laid at the foot to put a night sachets are decorative an are often most elaborate.

The accompanying sketch represents one made of pale blue satin, embroidered with marguerites, field flowers and grasses, a silk cord and lace ruffle making the finish. Some dainty orris powder is the best scent for such a purpose and makes a lovely sachet.

He Had a Great Scheme.

He was enthusiastic.

"Talk about your gold mines!" he said.

His eyes sparkled, and he showed the most intense excitement.

"Speaking of Klondyke!" he exclaimed. "Dicussing the diamond fields of South Africa! Referring to a corner in tea! I have a scheme that will make them all look small! In the first place, I will induce meteorological authorities to go into partnership with me. All they will have to do will be to give me advance information in regard to the weather."

"What do you want with that?"

"Why, you've noticed the kinds of wind that we get here every little while, haven't you? Some of them are regular twisters, aren't they? If your hat gets away from you it is likely to travel four streets before it hits the ground, and a sheet of paper may land anywhere within a radius of eight miles."

"True enough, but what of it?"

"Why, I can arrange with the meteorological people to get advance tips of such storms. It is my intention to establish a circular-distributing agency and do away with the expense of the ordinary human distributors. Talk about bonanzas!"

India Silks Fashionable.

The pretty silks printed in small Pompadour designs are hardly to be called India silks, although they certainly very closely resemble the fine, light textiles from that far-off country. However, whether they come from India or Indiana, Palestine or Paterson, they are dainty, durable, and firm in texture, and made up in the prevailing styles, which render them suitable for nearly every possible occasion. They will be very fashionably and comfortably worn throughout the entire summer and autumn.

Siberia is an empire in itself. There have been discovered along its line of road 54 bituminous coal-fields, 20 gold, 40 copper, and 2 silver deposits.

Latch Keys for Women.

Latch-keys have ceased to be a male perquisite since the old-fashioned spinster has been replaced by the bachelor maid. The bachelor girl is nothing if not determined, and so she has adopted one of the last remaining articles that a man could call his own.

When the key came the pocket had to come with it, of course, and now it is cut in the back of the dress-skirt very near the belt line, and with a bit of flap over it to conceal the fact that a coat tail is missing.

And thus it is that the freed woman goes on her way, conscious that she may at least enter her own doors at all sorts of coveted and fascinating hours without arousing everyone, from the butler to the aged grand-parent who "disapproves."

When the pocket came the key-chain had to follow in its wake, and, behold, from a button proudly sewn to the tailor girl's "weskit," hangs the jeweller's device, for she has not been emancipated long enough to leave off sterling silver and take to plain nickel plate.

When the bachelor girl went into business she was forced into some of the needs of a man, and some of his patented rights had to come to her, and so there came the key-ring in the train of the key and chain, and there was another chance for the smithy to turn out pieces of artistic workmanship.

They are oftener heart-shaped wires of silver, solid and wide. So it seems that woman never gets so "new" that she cannot carry hearts about.

Other designs are serpents, and over the spring-set tails go the door-key, the letter-box key, the escritoire key, and all the rest of the lot that used to be always "among the missing."

Stuffed Spanish Onions.

A substantially and usually liked dish for a home luncheon is Spanish onions stuffed with kidneys, or chopped calf's liver. These large, tender onions are peeled, and a piece around the top cut off, part of the centre scooped out, an dthe shells placed in a little pan of water to parboil. After five minutes take them out, drain and turn upside down on a sieve to get rid of all moisture. The kidneys or calf's liver, previously thoroughly cooked, are minced finely, an equal amount of fresh bread crumbs added to it, together with the chopped onion that has been scooped out. This stuffing should be highly seasoned with salt and pepper, and moistened with a little warm, melted butter. The mixture is then packed in the onions, and grated bread crumbs sprinkled over the top, and the onions placed in a pan, with about an inch of water to which a tablespoonful of beef extract has been added. Cover and cook slowly in the oven for about an hour. Just before taking out, the cover should be removed to allow the tops to brown. Small onions treated in this way make a pretty garnish for various dishes. Sometimes calf's liver and bacon is served on a platter, surrounded by these small onions stuffed simply with highly seasoned bread crumbs. The French stuff the onions, too, sometimes with mushrooms preparing them in the same way.

The Thrift of the Wealthy.

A study of some of the advertisements in the women's periodicals of London gives an illuminating knowledge of the thrift of even the aristocracy over there. One seen recently read as follows: "Lady C. and friends for years have sent their cast-off clothes, jewelry, plate, gold teeth-plates, antique lace, etc., to Blank." Evidently, much less is given away in these aristocratic establishments than is sold. One can hardly fancy an American woman bartering for the disposition of her gold teeth-plate, for example. However, it is true that much is actually thrown away in American households that admits of perfectly legitimate sale. There are places where even old plated silver is bought, and bits of broken jewelry, gold, and silver are easily sold. The travelling umbrella-menders will take and pay for handle rods to which are hanging only broken ribs and shreds of the used-up silk covers. In these days of closely watched refuse barrels, it is often impossible to dispose of things that are no longer of any use in the household. A little care, however, will usually show how some itinerant merchant will find them valuable.

Serving Cool Drinks.

At some of the late season days at home in town now, in lieu of the perennial tea, various summer drinks poured from tall glass pitchers and served in what a child calls "muglets" are offered. With these are thin sandwiches of graham bread usually spread with a mayonnaised salad leaf or chopped nuts or olives. Some homemade sponge cakes are an additional dainty to this truly seasonable little feast. Dates stuffed with marshmallows is a new combination for the bonbon dish as a luncheon relish. One date does not need a whole marshmallow, only enough being put in to take the place of the pit when it is removed.

A Simple Challie Frock.

A dainty summer frock, which may be made up quite simply and inexpensively is shown in the illustration. The material employed is a pretty challie with a narrow satin stripe and pale pink morning glories on a cream ground. The skirt is made with the attached flounce, bordered at the top and base with a full ruffle of the material.

The corsage is very plain, with close fitting leg-o-mutton sleeves, slightly puffed at the top. A collarette of open work embroidery, bordered with fine lace and with straps extending to the waist line in front, is the sole ornamentation on the waist.

Lokal-Nachrichten aus der alten Heimath.

Elsaß-Lothringen.

Straßburg. Eine für Radfahrer interessante Entscheidung wurde vom hiesigen Schöffengericht gefällt. Der Fahrradhändler Blaschke von Schiltigheim hatte ein Strafmandat erhalten, gegen das er Einspruch erhob. Zur Hauptverhandlung vor dem Schöffengericht erschien er in einem eleganten Sportskostüm. Das Gericht betrachtete das Auftreten im Sportskostüme als grobe Ungebühr und verhängte über Blaschke eine Ordnungsstrafe von 5 Mark. Blaschke legte gegen dies Urtheil Beschwerde beim Oberlandesgericht in Colmar ein.

Hagenau. Hier wurde der 32 Jahre alte französische Gymnasiallehrer Johann Maria Josef Ravenne, der erst unlängst nach Frankreich „geschubt" worden war, wieder verhaftet. Die Worte Bannbruch—Verhaftung—Gefängniß—Schub nach Frankreich—Rückkehr nach Deutschland, insbesondere nach Hagenau—Verhaftung u. s. w.—geben in aller Kürze den genauen, in den letzten Jahren sich immerfort gleichenden Lebensgang des Mannes, dessen Loos nun wieder darin bestehen dürfte, nach Absitzung einer mehrwöchigen Freiheitsstrafe neuerdings nach Frankreich „abgeschubt" zu werden.

Oesterreich.

Wien. Oesterreich besaß bisher keine Orden für Frauen. In besonderen Fällen verlieh der Monarch hervorragenden Frauen das goldene Verdienstkreuz. Anläßlich des Regierungsjubiläums stiftet nun der Monarch einen nach der Kaiserin genannten Elisabethorden, welcher ausschließlich Frauen verliehen wird. Der neue Frauenorden wird in demselben Range wie der Franz Josephs-Orden stehen.—Kürzlich Nachts brannte die Pferdebahnremise im Prater ab. Die 400 Pferde, die dort standen, wurden gerettet. Der Schade beträgt 80,000 Gulden.—Bei der Preisvertheilung an die Sieger im Jubiläumsschießen erhielten Loidl (Langau) den Preis des deutschen Kaisers, Diehl (München) den Preis des Prinzregenten von Bayern. Koch (Uberstedt) erhielt den vom Kaiser Franz Joseph gestifteten Preis und Köbe (Görlitz) die Ehrengabe der Stadt Wien.

Bregenz. Mit Rücksicht darauf, daß immer wieder kleine Ruder- und Segelboote während des Verkehrs der Dampfschiffe vor der Seehafeneinfahrt kreuzen und daß dadurch sehr oft die Insassen in Lebensgefahr gerathen, hat die kaiserlich königliche Bezirkshauptmannschaft Bregenz eine Kundmachung veröffentlicht, nach welcher die Bootsbesitzer wiederholt ermahnt werden, der Hafeneinfahrt und dem vorgelegten Seetheil bei Vermeidung einer Strafe bis zu 100 Gulden oder Arrest bis zu 14 Tagen mit den kleinen Ruder- und Segelbooten fernzubleiben.

Budapest. Baron von Edelsheim, Sohn des früheren Budapester Korpskommandeurs, aus einer badischen Familie stammend, gibt das löbliche Beispiel der Parzellirung von zwei großen Gütern in Bauernpachtgrundstücke.

Budweis. Hier und in Krummau haben die deutschen Gemeindebehörden es abgelehnt, für den auf einer Inspektionsreise befindlichen Statthalter Graf Coudenhoven einen Empfang zu veranstalten.

Eger. Sämmtlichen Militärpersonen wurde hier das Tragen von Kornblumen auf's Strengste verboten.

Innsbruck. Im Monat Juni sind hier 8304 Fremde eingetroffen. Darunter befanden sich 3550 Reisende aus Oesterreich-Ungarn, 3467 aus Deutschland, die übrigen aus anderen Ländern. Im gleichen Monat des Vorjahres betrug die Fremdenzahl in Innsbruck 7057 Personen. Heuer also ein Mehr von 1247 Personen.

Lemberg. Aus Gram über kürzlich erlittene schwere geschäftliche Verluste hat hier der angesehene Bankier Paul Schellenberg seinem Leben durch Erschießen ein gewaltsames Ende gemacht.

Salzburg. Der Landgerichtsauskultant Graf Bulgarini ist mit einer hiesigen Bürgerstochter verduftet. Er hinterläßt ungefähr 20,000 Kronen Schulden.

Schweiz.

Bern. Der Nationalrath hat in Zustimmung zu dem Beschlusse des Ständerathes eine Bundessubvention von 4,500,000 Francs zu dem Simplon-Durchstich mit 78 gegen 8 Stimmen genehmigt.—An der Universität Bern hat sich Fräulein Dr. Anjuta Tumarkin aus Rußland für Philosophie und Literatur habilitirt.

Zürich. Im Kanton Zürich wurde bei der Abstimmung über das neue Advokaturgesetz die Zulassung der Frauen zum Rechtsanwaltsberuf mit 21,717 gegen 20,046 Stimmen angenommen.

Uri. Der erste Postillon von Klausen hat seine Fahrten nach dem Urnerboden eröffnet. Fährt die Post auf der Klausenstraße auch noch nicht hinüber an die Gestade des Vierwaldstättersees, so ist doch immerhin schon mit der Route Linthal-Urnerboden dem Fremdenverkehr ein mit Naturschönheiten außerordentlich reich bedachtes Gebiet erschlossen, das seine Anziehungskraft nicht verfehlen wird.

Solothurn. Die allgemeine geschichtsforschende Gesellschaft der Schweiz wird ihre Jahresversammlung am 8. und 9. August in Solothurn abhalten.

Basel. Bei Rheinfelden sind bei der Heimfahrt des Genievereins Basel in Folge Umkippens eines Kahnes drei Pontonnier ertrunken.

Graubünden. Als Kuriosität dieses nassen Sommers verdient Erwähnung, daß am 26. Juni in den Bündner Bergen Schneefall eingetreten ist.

Waadt. Der Bach, der das Moor von Baulmes durchfließt, verschwindet durch einen unterirdischen Ablauf, von dem man nicht wußte, wo er wieder an die Oberfläche trete. Eine Färbung des Wassers mit Fluorescin ergab einen unterirdischen Zusammenhang des Baches mit den Quellen des Mont de Chamblon, die vier Kilometer von dem Punkt entfernt sind, wo der Baulmesbach in der Erde verschwindet. Die Versuche sollen fortgesetzt werden.

What It Means.

To a Plainfield Citizen. No Experiement Required.

People with bad backs are always looking for relief.

Plasters helped at first, but their effect lessened with use.

Liniments acted the same way.

They didn't reach the cause.

The kidneys can't be plastered.

Can't be rubbed with liniment.

And in most cases the kidneys are the cause.

Doan's Kidney Pills do it all.

They right the kidneys action.

Do you realize what this means?

It means no more backache.

If you take Doan's Kidney Pills.

It means well kidneys and health.

No need to experiment to find relief.

Doan's Kidney Pills cure.

Plainfield people say so.

Mr. C. E. Hepburn, of 123 Duer street, formerly of Canada where he first heard of Doan's Kidney Pills, says:— "Doan's Kidney Pills have my endorsement for they cured me of a long standing case of backache which annoyed me very much, especially if I took cold, for at such times I was in pretty bad shape. I heard different people speak very highly of Doan's Kidney Pills and concluded to try them. I got a box from my druggist, Mr. L. W. Randolph, and used them according to directions, with the above results. I do not hesitate to give my endorsement of a preparation like Doan's Kidney Pills for I know they can be relied upon and possess the merits claimed for them."

Doan's Kidney Pills for sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S.

Remember the name Doan's, and take no substitute.

J. M. HETFIELD, P. M.

THE SAGE OF MONTICELLO.

Thomas Jefferson, the Profound Statesman in His Younger and Older Days.

The celebration on April 13 of the one hundred and fifty-fifth anniversary of the birth of Thomas Jefferson, promises to be unusually enthusiastic and general this year. Probably the most notable event of the day will be the subscription dinner held at Washington, under the auspices of the National Association of Democratic Clubs. This dinner, in nearly every respect, will be a repetition of the now famous dinner of 1897. Mr. Bryan again will deliver the principal address. Other orators of national reputation and Democratic persuasion are to be present. It is expected that every state in the Union will be represented; and that upwards of 600 staunch Democrats will be there to honor the memory of Jefferson.

Another notable gathering will be the banquet given by the Iroquis Club of Chicago. Grover Cleveland is to be present and will deliver the address. Senator Caffrey of Louisiana, and possibly, Bourke Cochran are among the renowned speakers. This will be a gold Democratic dinner, and the silver men in the club will have, probably, other engagements on the night of the banquet.

When Thomas Jefferson wrote the Declaration of Independence he built his most enduring monument. The world read it; and straightway inscribed the name of Jefferson on the roll of those who have done a great work for liberty. But, to the student of United States history, the author of the Declaration of Independence is subordinated to the statesman who with sense and judgment helped to mold the destinies of the young Republic. Washington, Jefferson and Hamilton were the nation's master-molders; and to them more than to any other three men the great Republic owes the solidity and breadth of its foundations.

Jefferson stood for simplicity and economy in administering the functions of the government at a time when something of the grandeur of the ceremonial pomp of the courts of Europe was beginning to appear in public life, and the nation's administrators were unloosening too freely the strings of the public purse. He advocated universal suffrage. The people found in him their ablest champion. To-day the influence of his deeds still works for the same things—simplicity, economy, the people—the whole people. The Democratic party claims him for a father; but his achievements are the common heritage. They belong to no party; but to the nation.

The Sage of Monticello! What a pleasant picture of Jefferson, after he had retired from active public life to spend the time yet remaining to him in the busy quietude of Monticello; these words recall. The tall stately figure, straight and erect though crowned with the snows of seventy Winters; the fine scholarly face, with its thin firm lips, strong chin and high forehead; the kindly eyes, not as bright now as they were when they guided the pen that wrote the Declaration of Independence; the firm step, just beginning to halt as the old man strolls around the home of his own making—this was Jefferson when old age found him dwelling in peace beneath the porticos of beautiful Monticello.

Jefferson loved Monticello, and no wonder for it almost grew out of the native soil at his command. The bricks which composed its walls, the nails which united its wood-work, much of the furniture, the building itself, and even the state carriage, an essential and characteristic appendage of the period, all were the product of the skill of his slaves and servants. His own brain planned every architectural feature of the building, and laid out the walks and drives and gardens that beautified the surrounding grounds. For years, as time and means permitted, the structure grew, under his direct supervision, until it became one of the fairest homes in America.

Here Jefferson spent the last seventeen years of his life in the pursuits of literature, the management of his farms and other interests and in entertaining, with true southern hospitality, the many distinguished guests who came to do honor to his greatness. To few men have been given a more perfect ending to a long and fruitful life; but the clouds came.

His business interests became involved; and at last hopeless bankruptcy confronted the old man. He feared that he would be compelled to part with Monticello, dearer to him now than ever, for age clings with ever increasing fondness to the associations of by-gone days. But a tardy public sympathy was at last aroused, and contributions sufficient to justify the hope that beautiful Monticella would be saved, were sent to him.

He died, comforted by this thought, at Monticello, early in the afternoon of July 4, 1826, the fiftieth anniversary of the signing of the Declaration of Independence. A few hours later in the day John Adams passed into history.

Strange that these two men, Jefferson the author of the Declaration of Independence and Adams its most eloquent defender, should both have died on the afternoon of the same day; but, more striking still, that the day should have been the Fourth of July.

The last words of Thomas Jefferson were: "'This is the Fourth?" Then after a brief pause he repeated in a very faint whisper: "This is the Fourth?" and, with an expression of pleasure lighting up his face, sank into unconsciousness.

When the attendant bent over John Adams, to catch the last utterance of the dying man, he heard what he thought to be, the words: "Thomas Jefferson still lives"; as the aged patriot passed from life to death.

WHERE LAND IS EASY.

ON A COFFEE PLANTATION IN THE UNITED STATES OF COLUMBIA.

Land and Labor Are Both Cheap—Americans Are Held in High Regard at Santa Marta—No Color Line Drawn Between Spaniards and Negroes.

"If any man with $10,000 wants to make a modest fortune and enjoy an easy life while he is doing it," said Mr. Henry M. Senter, "all he has to do is to go to the United States of Colombia, purchase a 'hacienda,' and raise coffee. It is the biggest chance I know of. The climate is perfect, your altitude you may choose at will, you are right at a seaport, so that the transportation of your crop to the ship costs practically nothing, and the demand for coffee is never oversupplied. Besides these points, land and labor are cheap and the property of foreigners is sacredly respected.

"When I say that land is cheap, I mean it literally. Government land bonds, each calling for one hectare of the public domain, or two and a half acres, are now selling for 27 cents, silver, or about 11 cents in our money. This is less than 4½ cents an acre. Claims may be located by the holders of these bonds on any unoccupied government lands, and I have taken up 1,500 acres about seven miles from the seaport of Santa Marta. My plantation, Las Nubes, which means 'The Clouds,' is in the Sierra Nevadas, 4,500 feet above the level of the sea. The manner of taking up land is the simplest thing in the world. You purchase your land bonds, select your property and have it surveyed. Then you go before the alcalde and declare your intentions to improve the land. He gives you his blessing and you give him whatever you feel his blessing is worth. You then begin to clear the heavy forest, which covers all the mountainous parts of the coast, and a year later your friend, the alcalde, pays you a visit to see that you are in possession and making improvements. If everything is satisfactory, including a little 'recognition,' he issues you a title deed and you become monarch of all you survey.

"Right here it may be remarked that while 'recognition' is expected in Colombia by public officials, it is not a very serious matter. They are a remarkably reasonable lot of people, and that is the only way you are taxed, with the exception of a poll tax, amounting to $4 silver, or $1.60 in our money.

"Labor is cheap. Such men as are required to clear the land and plant the coffee trees only get $1.40 a day in paper money, which is worth 56 cents in our currency. Of course, you needn't do any great amount of labor yourself, beyond learning the 14,000 different methods adopted by the native laborers to 'soldier' on you. They are constitutionally tired, and need a good deal of driving to keep them at work. Slavery was abolished about seventy-five years ago, and since that time the freed negroes and their descendants have considered themselves as good as any white man. Strangely enough, the proud descendants of the Spaniards seem to have conceded this position, and there is absolutely no color line drawn. Negroes and mulattoes, if they secure wealth, are on an absolute social equality with the children and grandchildren of those who were once their masters.

"The population of Colombia, as stated in the encyclopedias, is the wildest kind of a guess, for no white man has ever penetrated the interior and the natives are too ignorant to give any reliable estimate. Santa Marta is a town of about 5,000. It was founded in 1525 and is mainly known to fame from the fact that Kingsley, in 'Westward, Ho!' used the locality for some of his scenes. The foreign element is about equally divided among Americans, English and Germans. Spanish is exclusively spoken, and in the entire town there are only three natives who can speak English.

"Education is at a very low ebb. The children of the better classes are sent abroad for their schooling, and those who remain at home glory in their ignorance. The wealthier class, those who have accumulated money by exporting coffee, hides and bananas, mainly to the United States, live with much pomp and circumstance in the ancient Spanish houses. Speaking of bananas reminds me that they ship about 16,000 bunches every week to New York, a voyage of seven days. Their commerce is almost entirely with this country, and Americans are regarded with greater favor than is bestowed on either the French or German residents.

"To my mind the most interesting thing in the country is the evidence of an ancient and forgotten civilization which forces itself upon one on every hand. In prehistoric times a mighty and highly civilized people inhabited Colombia. On my land there are beautifully constructed stone roads and the remains of two villages of about 600 houses each, where we find stone beads, pottery and ancient tools from time to time.

"Unquestionably there are rich deposits of gold and other metals in the interior, because the Spaniards carried off vast amounts of it, for which they traded the natives tin and glass beads. No Spaniard or other European, however, has ever attempted to penetrate the country and return alive. The fact that the natives will accept no money except gold shows that they are familiar with its value, and it is probable that when this terra incognita is explored, as it doubtless will be some day, some mighty interesting secrets will be revealed."—Chicago Inter-Ocean.

THE CARRION BIRDS OF CUBA.

Hideous Turkey Buzzards That Are Allies of the American Army.

A feature of campaigning in Cuba which has inspired the soldiers from the North with horror and disgust is the presence of the huge turkey buzzards on the battle fields. The bird is, perhaps, in appearance and habits, the most loathsome creature of air known to this continent. It is, of right, a vulture, stands about two and one-half feet high and is of a lustrous brownish black plumage. The hideous part of the bird is its head and neck, naked of plumage, and reddish, like raw flesh. Below this is a circular ruff of feathers, which seem to accentuate the revolting appearance of the neck. The bill is long and slender, with a powerful curved tip for tearing flesh.

Carrion is the food of the turkey buzzard, though it will eat fresh meat, and when in force will even kill small animals or birds. But American soldiers in Cuba, with their dead lying in the thick underbrush, know too well what the approach of these vultures means, and for them the nauseous birds form the chief horror of the war. In a letter to a friend in this city, written after the fighting at Baiquiri, one of the Rough Riders tells of watching the buzzards come and shooting at them as they settled down to their feast. One of his company, he adds, who fought as bravely as the best during the battle, went into a sort of hysterical fit at the approach of one of the birds, and cowered away from it, crying like a child. Other instances of the soldiers shooting at the buzzards and killing or driving them away have been related.

Yet there is much to be said on the side of the carrion birds. They are our best allies, and as soon as the battle is over their work of sanitation begins. In that hot climate death lurks in the dead and reaches forth for the living. Close behind death in battle waits death by pestilence, ready to claim more victims than shot and shell. It is here that the vultures perform their part, terrible to think of, but very necessary to the army's weal. After the battle friend or foe lie dead together in the all but impenetrable chaparral. What he burial parties cannot find in that tangled underwood the instinct of the vulture discovers. Far away in the sky-distance a black spot appears, grows larger and sails along on motionless wings until presently it settles down to earth. Others follow, gathering from all parts of the compass. They settle in little bands of five or six or eight or even a dozen, and when they have risen, instead of the intolerable and horrible residue of humanity which lay in the brush, a menace of pestilence, there remains only a skeleton to whiten in the sun and rain.

All through the South the worth of the turkey buzzard as a scavenger is well understood. Laws are in force protecting these birds, and anyone shooting them or wantonly disturbing them is fined. In the smaller towns they are the street cleaning department, and even in cities like Charleston they stalk about the streets unmolested, and uttering their harsh, hissing note. New Jersey is as far north as they get on the Atlantic coast, but the southern states teem with them, and in Cuba they have multiplied rapidly in the last two years. Hideous and foul as they and their ways are, the northern soldier who shoots them unwittingly commits an offense against the whole army of invasion, for if there were no turkey buzzards in Cuba many a good American who will return home to tell of his part in the war would leave his bones for testimonial to a more deadly foe than the Spanish.—Chicago Inter-Ocean.

LIVING LEAVES OF FLORIDA.

How These Peculiar Insects Scared Away a Party of Spaniards.

A party of Spanish soldiers, landing on the coast of Florida, to procure fresh water, were alarmed by seeing a supposed shower of leaves suddenly become animated, jumping, walking, fluttering over the ground. They left, declaring that the place was bewitched. One of them averred that on their retreating the trees started in pursuit.

How these brave men would have stared had they known that it was only a harmless insect that was at the bottom of it all.

The Phillium scythe, or leaf insect, leads a sluggish life, making its home on the branches of a tree. Its body is very thin and flat, its large wings shaped, veined and colored exactly like a leaf. When disturbed it tucks its legs under its body, thus perfecting the resemblance to a leaf, with petiole and stem complete. In the summer its wings are bright green, but in the fall they change with the deciduous leaves to a brown, withered hue. Its hold upon the branch is slight, a puff of wind being enough to throw it upon the ground, when it at once sets out to regain its home in such manner as terrified the Spanish soldiers.

There is another race of leaf insects, butterflies. While the upper surface of their wings is bright, like a flower, the lower resembles a withered leaf, with fungus like blotches. Their flight is very swift, and they settle on twigs only, never on leaf or flower.

When pursued and hard pressed the leaf butterfly has a way of vanishing as suddenly as a full fledged ghost. In the twinkling of an eye the insect has become a leaf, so far as its pursuer is concerned. Settling on a twig, it folds its wings closely, back to back, with the head and antenae hidden between them. The tiny tails of the wings touch the twig, forming a perfect stalk to the leaf, which is held in place by the middle pair of feet. While thus at rest the most observant eye would not suspect it to be other than a withered leaf.—Philadelphia Inquirer.

"Oh, Bridget, I told you to notice when the apples boiled over." "Sure, I did, mum. It was quarter-past eleven."

AN INFORMAL PRAYER.

"The proper way for a man to pray,"
Said Deacon Lemuel Keys,
"And the only proper attitude,
Is down upon his knees."
"No: I should say the way to pray,"
Said Rev. Dr. Wise,
"Is standing straight, with outstretched arms
And rapt and upturned eyes."

"Oh, no, no, no!" said Elder Slow,
"Such posture is too proud.
A man should pray with eyes fast closed
And head contritely bowed."
"It seems to me his hands should be
Austerely clasped in front,
With both thumbs pointed toward the ground,"
Said Rev. Dr. Hunt.

"Las' year I fell in Hodgkin's well
Head first," said Cyrus Brown,
"With both my heels a-stickin' up,
My head a-pintin' down;
An' I made a prayer right then and there—
Best prayer I ever said—
The prayinest prayer I ever prayed,
A-standin' on my head."
—Lynn (Mass.) Item.

A DINNER DIALOGUE.

When I entered the drawing-room Mrs. Tregunter smiled on me quite amiably.

"I want you to take down Molly," she said, graciously.

I crossed to Molly at once, but she would not look at me. I ventured to remind her of my presence.

"Oh, it's you, is it?" she remarked pensively.

"Yes, you've got to go down to dinner with me."

She heaved a sigh.

"Is that quite polite?" I asked reproachfully.

She flashed a glance at me.

"Life is a continual pairing," she observed, standing up and shaking her draperies into becoming folds; "and so seldom with the right man."

"That is the comedy of life," I remarked.

"And what is the tragedy?"

"Having no partner at all."

I indicated Miss Allemand, the governess, who was following alone.

"Poor dear!" said Mollie. "I will relinquish you to her."

But I declined firmly.

"I am afraid of governesses," I said explanitorily. "It was a governess who wrecked my young life."

"What did she do?" asked Molly, seriously.

"She declined to elope with me."

Molly withdrew her arm.

"I fear you are a dreadful person."

"I was only fourteen," I put in, hastily.

We had taken our places at the the table. I like a white shoulder, but white shoulder for two courses is too much.

"Is it quite fair to devote yourself solely to Thomas!" I ventured to ask.

"He says such clever things."

She flung the words beamingly over her sleeve.

"You mean to insinuate——" I began crossly.

"Nothing at all."

"I don't think Miss Allemand has brought you up at all nicely."

"What do you mean?" she said, turning to me suddenly with a very severe face.

"Oh, nothing at all."

"You are very stupid."

"That isn't the way to speak to your ma's guests."

She scrutinized me.

"I don't see what that girl could see in you," she murmured.

"What girl?" I queried eagerly.

She shook her head.

"I oughtn't to have said that."

"But you did say it! And I insist on hearing to whom you referred."

She pouted.

"Will you promise not to tell?" she replied, after a little pause, her face suddenly lighting up with a roguish smile.

"I promise."

I watched the dimple growing on her cheek. She gave a little burst of laughter.

"Mary Vandyke was here his afternoon."

"Oh!"

"She is my dearest friend."

"How nice for her."

"We have no secrets from one another," said Molly, becoming very serious.

"Haven't you?"

My mind rushed helter-skelter through the past. Molly kept her bright eyes on mine, and I saw the dimple come and go.

"She tells me everything.

Her smile deepened.

"Really?" I said, fidgeting.

"About the regatta, for instance."

I looked at her for a moment. She nodded gravely.

"It isn't true—upon my honor it isn't."

I felt I was reddening.

"And what you said!"

"I assure you I didn't."

"And what you—did."

"I deny it."

"It's all right," said Molly, consolingly. "She's very fond of you."

I gasped.

"I don't care two pins about her."

"How can you say so?" asked Molly, reproachfully—"after all that has occurred between you."

"Nothing has occurred," I cried, despairingly.

"And the letters you have written."

"I never wrote any letters."

"I have read them."

"She had no right to show you those letters."

"Oh, but—I assure you it was in strict confidence."

"I don't remember in the least what I said."

"I do," she struck in quickly. "You said your heart was a boat moored in the light of her eyes, and——"

"Hush!"

I looked around apprehensively.

"I thought it so pretty," went on Molly. "And then there was that poem beginning ——"

She laughed again. It was strange that a weak woman should rejoice in a strong man's agony.

"Of course I don't care for her," I said boldly, trying to make a stand.

Molly pursed her lips.

"Of course I don't believe that."

"But you must believe it," I cried desperately. "I only flirted a little with her because——"

"Because?"

"Well, you weren't there, you know."

"Oh, indeed!" She looked at me severely. You mean you would have flirted with me instead if I had been there?"

"Not flirted," I said, weakly.

"What do you mean?"

"If you had been there, I wouldn't have looked at her."

"Oh, indeed," repeated Molly.

"It was only in fun. She knew it was only in fun."

The dimple began to dawn again.

"Oh, no, she doesn't," she responded, gaily. "She thinks you are in earnest."

"Nonsense," I cried.

"She told me so. She told me you had practically proposed."

"You are teasing me," I said crossly.

"Am I indeed? Wait and see."

"It can't be true. Say it isn't true?"

She gave another little burst of laughter.

"Of course you don't mind," I said, bitterly; "though it was all your fault."

"My fault!" cried Molly. "Well, of all the——"

"Why weren't you at the regatta, then?" I asked. "You see what you have done."

"I take no responsibility," said Molly hotly. "Good gracious; if I had to be responsible for you!"

"I wish you would," I said, earnestly.

"It's no use talking," said Molly. "You must face the music."

"Why didn't you tell her I was engaged?"

"What, another of them!" cried Molly, looking serious.

"You know what I mean. From the way you speak, one might imagine I was a flirt."

"Um—yes," murmured Molly.

The truth is there wasn't a decent looking girl there except——"

"Except Mary," echoed Molly sarcastically.

"Well, she isn't bad looking in the moonlight."

Molly turned her head away a trifle disdainfully.

"You must save me from her," I said after a pause.

"How can I do that?"

"You must tell her I am already engaged."

"To whom?" asked Molly, her color rising slightly.

"To—the only girl I love."

Molly's eyes were fixed on her plate.

"Her name?" she asked in a low voice.

"Surely you can guess," I whispered.

Her color deepened.

"Please don't be absurd."

"It is the only way."

"Nonsense!"

"But I tell you it is. I won't marry her."

"Perhaps she wouldn't have you," she said with a mischievous look in her eyes.

"But you said——"

"I was only teasing you."

"Really?" I cried with a sudden sense of relief.

Molly toyed with a grape.

"She came to me to say that somebody else had proposed to her and to ask my advice."

"Well."

"I advised her to——"

"Yes?"

"Accept the other man."

"Molly, you dear girl!"

"So it won't be necessary for you to get engaged to any one else," she went on, looking down.

"Molly, you know I love you."

"Hush!" she whispered.

"Won't you Molly—Oh, Molly, you must."

She turned and smiled.

"What a silly boy it is!"

"I consider we are engaged."

By great luck I caught one of her hands beneath the tablecloth.

"There's the signal. I must go," said Molly, hastily.

"Say just one word," I urged.

"Do you know the little conservatory?" she murmured, pushing back her chair.

I opened the door. As she went out I caught her eye; she blushed divinely.

Horse That Wears Specs.

Among the wonders of Surrey, which is a suburb of Londontown, is a horse that wears spectacles, says an exchange. He wears them for a purpose, too, for his eyesight is so dim that he can't see a yard in front of his nose unless he has on his "specs." Queer sight, a horse with nose glasses. But Toby—that's what they christened him—takes his affliction and his spectacles as a very matter of fact thing, and goes about his daily duties calmly. He has suffered from myopia for two years. Veterinary surgeons recommended some kind of glasses. Toby got them and wears them. He owns the unique distinction of being the only four-footed animal in the world equipped with spectacles.

Appearance Against Him.

Cabby—Have a cab, sir? Take you home, sir?

His Jags—Why, my dear—hic—friend, if I was to go home in a cab m' wife an' all the—hic—neighbors would think I was 'toxicated.—St. Louis Globe Democrat.

Mrs. Askington—Does your husband suffer much from his dyspepsia?

Mrs. Akinside—Yes, but not half as much as the rest of us do.—New York Journal.

A Judicial Opinion:

"A Life Insurance Policy is the best investment obtainable for the family. It is the only assest that never shrinks in value."
THE PRUDENTIAL policy, backed by over $23,000,000 assets, guarantees absolute security to your family.

ROD AND GUN.

Mr. and Mrs. E. E. Marshall, of Fairview avenue, will spend Thursday fishing at Amboy.

On a recent crabbing trip to Boynton Beach Miss Clara Williams and Miss Caroline Livezey captured over thirty.

CYCLING COMMENT.

Thomas Lyness and Horace Sherwin rode on their wheels to Paterson Sunday.

To Camp on the Shrewsbury.

A party of Plainfield young men left Saturday to establish a summer camp on the banks of the Shrewsbury River near Red Bank. The party included Thomas U. Smith, Clifford Smith, Louis Darling, William L. McClure and Roger Erickson. They will spend several weeks there sailing, swimming and fishing.

Collector Martin Sworn In.

It's Collector Martin now. He is ready for business for he has already been installed in his office in the Coward building. This morning Tax Collector James A. Martin appeared before City Judge DeMeza and was officially sworn in.

Divorces Cost Money.

In the suit for absolute divorce which Henry H. Corey is bringing against his wife, Alice V. Corey, the petitioner has already expended $230 for the typewritten copies of the evidence alone, which the Vice-Chancellor ordered to be secured.

John Wilson Mixed Drinks.

John Wilson, a farm hand from Newark, was picked up by Officer Cash last night, who found him helplessly drunk on East Second street. Sentence was suspended on him this morning.

A Wounded Soldier to Speak.

Private F. Keuhnle, of Co. D., Seventy-First Regiment, N. Y., who was wounded in the arm at the battle of Santiago, will speak at the 4:15 meeting at the Y. M. C. A. Sunday.

Mrs. S. E. Thayer, of East Ninth street, has gone to Mt. Pocono.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Wednesday evening, June 30, 1898, a tremendous quadruple entertainment was given in New York to Oscar Hammerstein, as a testimonial to his worth as a progressive theatrical manager. The stars of the profession in every line participated. The great Madison Square Garden, the Madison Square Roof Garden, the Garden Theatre, and the Harlem Opera House, were all employed to give the representatives. The monster minstrel feature, under the direction of J. H. Haverly, as is explained elsewhere, occupied the Garden Theatre, and everybody of note in the minstrel world participated. Whole pages of the newspapers the next day were devoted to the huge event, which was originated and carried through to a successful termination by the "New York Telegraph."

The following few lines, referring to the minstrel part of the Garden Theatre, taken from the Hammerstein page of that paper, is a sample of the expression of the entire New York press. A book of one thousand pages could not say more. Mr. Haverly made a contract with these ladies there and then.

"The hit of this portion of the entertainment was made by the Nichols Sisters, who were wildly encored."

These talented artists will be seen with J. H. Haverly's American-European Minstrels at Stillman Music Hall, Thursday evening, August 4th.

LUNCH WAS DELAYED.

A Small Fire at the Revere House Called Out the Department.

An alarm of fire from Box 26, at Park avenue and Eigth street, shortly before noon today, called the fire department to the Revere House. A small blaze was discovered in the floor beams to the kitchen, caused by an over-heated range. The damage will amount to $25.

Clerk Potts, of the hotel, turned in the alarm. There was a little trouble between Chief Doane and the chief cook. The Chief ordered the cook to draw his fire, but the cook refused to do so, saying that it was lunch time. Lunch was delayed, however.

Farm Purchased.

Francis McMulken has sold his farm of 79 acres on the Metuchen road to Leslie P. Mick, of New York. Mr. McMulken will give possession in about four weeks. The purchaser has not yet decided when he will move in. Mr. Mick takes stock, farming implements and crops except potatoes.

Children Take a Long Walk.

"Ebbie" and Stella Freeman, children of Mr. and Mrs. E. Freeman, colored, of Arlington avenue, strayed from home yesterday morning and were found by Warden Tom Martin at Dunellen late in the afternoon. The police had been notified of their disappearance.

Prize Choristers.

The prize choristers of Grace church for July were Harris Egan, Harry Messerschmidt, Douglass Murphy, Reginald Chandor, Miss E. Noe and Miss E. Van Deventer. The regular choir will not sing during the month of August.

Field Day at Boynton Beach.

Tomorrow will be Daughters of Liberty Day at Boynton Beach, and a lively time will be given to all who attend. The State Council will hold its annual field day and there will be a big attendance of members.

Manila's Fight on the Raritan.

James Townsend, of Milltown, will reproduce the battle of Manila on the Raritan River at New Brunswick on the evening of Labor Day, Sept. 5th.

Jacob Jennings, the veteran newsdealer at the North Avenue station, is detained at home by illness.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss Etta Raybert, of North avenue, is stopping at Asbury Park.

Allan F. Squires, of Clinton avenue, spent Sunday at Fort Wadsworth.

Miss Steiner, of Somerset street, will spend August at Asbury Park.

Miss Anna O. Marsh, of Madison avenue, is the guest of relatives at Perth Amboy.

Miss Florence Marsh, of Madison avenue, has returned from a visit to Corning, N. Y.

Miss Lonella T. Mills, of East Fifth street, left for Port Jefferson, L. I. yesterday morning.

Miss Angie S. Kuhl, of Somerville, is the guest of Miss Constance Patton, of West Fifth street.

Charles Clifton, of West Seventh street, is at the Clifton House, at Patchogue, Long Island.

Miss Agnes Stevenson, of Lambertville, is visiting Mr. and Mrs. Charles Graves, of Liberty street.

Mr. and Mrs. Samuel Gibson, of Paterson, are visiting Miss Charlotte DeMeza, of West Second street.

Miss Nellie DeLong, of Harlem, is visiting Mr. and Mrs. Charles C. Graves, of South Second street.

Gerald Lowe, son of William E. Lowe, of Park avenue, has returned from abroad to visit his friends.

George B. Snediker, of Grove street, has returned from Asbury Park, where he has been for the past three weeks.

Miss Belle Price, of Flemington, who has been visiting Mrs. E. A. Ross, of Prospect place, has returned to her home.

Miss Mary Thompson, daughter of David Thompson, of Rockview avenue, is visiting friends in Shelter Island.

Merton Lunger, of Somerset street, who recently passed through a successful operation for fistula, is improving.

FINDERNE BOY SHOT.

He Was With the Army at Santiago, But Is Now Home.

Fred. V. V. Shaw, who was wounded in the battle in front of Santiago, is at his home at Finderne on a forlough of a few days. His wound is healing nicely. A Mauser bullet passed entirely through the ankle, cutting a hole through which a lead pencil could have been put. He will return to the hospital at Tampa in a few days.

EARLY INTELLIGENCE.

—The order of the Temple was conferred on four candidates at the conclave of Trinity Commandery, No. 17, K. T., last night.

COLONEL ASTOR'S BUTTONS.

As Polite to the Colored Girl as to a Fifth Avenue Belle.

The train was crowded and the usual signs which decorate southern railway carriages and separate the black passengers from the white had been discarded.

Col. John Jacob Astor and another officer had beguiled the time pleasantly enough, but as they neared Chattanooga the multi-millionaire soldier was left alone. The day was warm, and he nodded a little, but he straightened quickly at a feminine voice saying quite close to his ear:

"Maanin', sah. I hopes I sees yo' puty tolable?" And a black woman calmly took the vacant place. He acknowledged the greeting courteously, and she smiled in cheerful friendliness.

"Yose fur de No'th, I reckon. Oh, I knowed dat! Yo all's so! Jus' gwine ter Cuba? Lan,' lan,' how dem buttons does shine! I allus wanted one ob dem buttons. Dat I did. Ef yo' all ud gib me one I—I'd war hit foh a hatpin to 'membah yo' by."

Colonel Astor bowed with grave politeness, and the eyes of the negro country girl shone as he detached a button from his blouse and handed it to her.

"T'ank yo' sah!" she said. "I'm monstrous glad foh ter git dis. I'se gwine ter go now. I libes yere at dis city. But I'se gwine ter pray foh yo'. I dunno yo' name. But de Lord, I 'spect, he's keeping track of yo'. I'll jes' say de sojer what gib me de brass button, an' he'll know. Good-bye! 'Membah, I'se gwine ter pray!" She waved him a farewell, and he raised his hat in acknowledgment. Some of the officers smiled, but there was no smile on his face as he turned away.—Chicago Journal.

A Twisted Miracle.

"Well, Uncle Rasburry, how did you like the sermon?"

"It war a pow'ful sermon, Marse John."

"What was it about?"

"It war 'bout the mir'cle ob seven thousand loaves and five thousand fishes bein' fed to de twelve 'postles."

"Seven thousand loaves and five thousand fishes being fed to the twelve apostles? But where does the miracle come in?"

Uncle Rasburry scratched his head a few moments mediatively. Then he replied:

"Well, Marse John, de mir'cle, 'cordin' to my perception of de circumstances, is dat dey all didn't bust."

THE COUNCIL MEETING.

CONTINUED FROM PAGE 1.

made. He then offered a resolution that an amount not to exceed $450 be appropriated and used to make such repairs as are needed, and that the fire and building committee be authorized to secure estimates for the work.

Mr. Hetfield was of the opinion that an entire new apparatus could be purchased for $450, and he amended the resolution so that the committee will report back in the matter when they have secured estimates of the work.

Mr. Runyon then reported on the bids received for the erection of an engine house in the West End, and offered a resolution to the effect that Wyman & Haberle, being the lowest bidders, they be awarded the contract. Their bid was $4,775, which includes all work.

Another resolution was offered by Mr. Runyon which provided that the Mayor and Clerk be authorized to make the necessary contract with Wyman & Haberle for the erection of the new house.

On a resolution offered by Mr. Newman four electric lights were ordered placed on East Front street between Leland avenue and Terrill road.

Mr. Runyon presented a voluminous set of rules and regulations to govern the fire department. They were read and adopted. The rules make every provision for the government of the department and protection of property in case of fire.

Mr. Barrows made a motion that when Council adjourn it be to meet next Monday evening when the application from the trolley company for an extension of their road would be received. He stated that the company had informed him that consents had been secured on Richmond street from the corner of Fifth street to the corner of Second street, and his motion for an adjournment was for the purpose of allowing the matter to come up.

Another resolution by Mr. Barrows provided for the sale at public auction the old carts and implements used in street work. He said that they were practically worn out and were of no use to the city. On Mr. Barrows' motion the action fixing the bond of George White in the sum of $1,000 for the purpose of keeping Sycamore avenue in repair until it was macadamized, was rescinded, and the amount of the bond was reduced to $500.

The sidewalk ordinance was enforced on a number of property-owners on a motion offered by Mr. Barrows.

Mr. Barrows then brought to the attention of the Council the matter concerning the system of sewage now used in the city. He stated that in November, 1895, a number of sewer pipes in the eastern section of the city were broken by an explosion, and it had thus far cost the city $600 for repairs. He said that the streets where the pipes were found to be broken were in terrible condition, and had to be attended to. From that subject Mr. Barrows passed on to that of the sewage beds and their present condition. He stated that at present there are seventeen beds that can be used, but they were not adequate to take the amount of sewage that passed through the pipes. He said that it was a great necessity to have two more beds in condition to use. He stated that the Dunellen people are cognizant of the fact and had of late kept remarkably quiet on the subject. He also spoke about the Board of Health requiring people to connect with the sewer, when it is impossible to take care of the sewage at present with the number of beds being used.

Mr. Hetfield stated that the remarks made by Mr. Barrows confirmed his ideas, that the system was wholly inadequate and useless. He also cited the fact that the Board of Health is working directly in contact with the Council, and he moved that it be the sense of the Council that the Board of Health require no more connections to the sewer, unless absolutely necessary, until the present difficulty is cleared away. This motion was adopted. Mr. Hetfield continued by saying that at the present rate it would require about one hundred beds to take the entire sewage of the city. At present only half of the city is using the sewer and seventeen beds are not sufficient. Increase the number of beds, and the stench will be increased also, remarked Mr. Hetfield.

Mr. Buckle made a few remarks in which he stated that inasmuch as Plainfield has got the sewer beds it will have to make the best of them until something else can be done.

Mr. Barrows offered a resolution that the sum of $1,500 be appropriated to place two more beds in condition for use. In addition to the resolution, Mr. Barrows said that the fair name of the city must be preserved if it cost $1,500 or $15,000. He spoke of the urgent necessity for such action. He then cited the fact that in a trip of four thousand miles recently taken through this country and Canada he saw only one place that equaled Plainfield, and that is Evanston, Ill., with a population of 25,000 and a tax rate of $6 on a hundred. He thought that Plainfield people are getting a good deal for their money.

Mr. Hetfield stated that he would not vote to expend one more penny on new beds, that it would be far better to take $15,000 and put it toward going toward tide water. All voted for the resolution for $1,500 except Mr. Hetfield. Mr. Newman voted against it at first, but in explanation, he stated that he thought the beds were a confounded nuisance, and that the pipes should be run to tide water, but until something else could be done he would vote for the extra money.

Another discussion arose over the collectorship. Mr. Runyon called for Mr. Bird's resignation, and it was read. Mr. Runyon then nominated James A. Martin for the position, and Mr. Hetfield nominated Eugene A. Laing. Messrs. Hetfield and Barrows were appointed tellers. Mr. Martin received seven votes, while Mr. Laing received three.

Mr. Hetfield then moved that the salary of the collector be reduced to $1,500. Mr. Runyon stated that he thought Mr. Hetfield was too late, he should have made his motion prior to the election. Mr. Hetfield remarked that it appeared ridiculous to him, such talk, that he never heard anything like it before.

"It is a new collector, and we have a right to change his salary," remarked Mr. Hetfield.

Mr. Barrows stated that he thought it would be unfair to change the salary at such a time when only about five months of the year remain, and the hardest months, too.

Mr. VanHerwerden said that he had received a letter from the Corporation Counsel in which he stated that the salary ought to be changed before the election.

To this Mr. Hetfield took exceptions, and thought there must be a mistake somewhere. He said that the Council could fix the salary after or before as well as not, and sympathy should not enter into the action. The motion to cut the salary to $1,500 was defeated by a vote of 6 to 4. Messrs. Moffett, Liefke, Hetfield and VanHerwerden voted in the affirmative, while Messrs. Barrows, Andrews, Homan, Buckle, Runyon and Newman voted in the negative.

The resignation of James Martin, as first assistant chief of the fire department, was then received and accepted, after which Mr. Bird's resignation was accepted.

Mr. Runyon introduced an ordinance relative to the building ordinance, and on motion the reading of it was dispensed with and copies of it were ordered sent to the members. Mr. Runyon voted against this action, but the other members were anxious to get home and the meeting then adjourned.

Excursion Thursday.

Now that there seems to be a break in the continued bad spell of weather there is every indication that fair weather will be provided for Thursday when the Crescent Avenue church, its missions, St. Stephen's and Grace P. E. churches will go to Asbury Park. Under this management a highly successful excursion is the rule and there will be no exception this year. The committee in charge have personally arranged for every comfort and convenience and a large number of people should avail themselves of a day at the shore.

Death of Little Son.

The sympathy of the community is extended to Mr. and Mrs. William Western, of 44 Fairview avenue, who lost their infant son, Lyman Pangborn Western, this morning by death. The little fellow was taken ill with cholera infantum and was unable to withstand the disease which he suffered with for a week.

Insurance Men Picnic.

Two stage loads consisting of the employes of the Metropolitan Insurance Company and their families, spent Saturday at Boynton Beach. The day was a fine one, and all had a good time. They left for home about 11 o'clock.

Hotel Changes Hands.

Mr. Hansen, of Elizabeth, who has purchased the saloon and hotel business formerly conducted by Fred Csapar, on East Front street, took possession yesterday.

In Chancery of New Jersey.

To Samuel H. Kellogg and Sarah C. Kellogg, his wife, and Caroline M. Coolidge and Henry L. Coolidge, her husband

By virtue of an order of the Court of Chancery of New Jersey, made on the day of date hereof in a cause wherein Phebe M. Sprague is complainant, and you and others are defendants, you are required to appear, plead, demur or answer to the bill of said complainant on or before the twenty-seventh day of September next, or that in default thereof such decree will be made against you as the Chancellor shall think equitable and just.

The said bill is filed to foreclose a mortgage given by Samuel Kellogg and Eliza S. Kellogg, his wife, to Gottlieb Fritz, dated October 25, 1876 and recorded in book, No. 40, of mortages for Union County, on page 573, etc., on lands in the city of Plainfield, in Union County, New Jersey, and held under assignment by said complainant, and you, Samuel H. Kellogg and Caroline M. Coolidge are made defendants because you own said lands or some part thereof, and you, Sarah C. Kellogg, are made defendant because you are the wife of said Samuel H. Kellogg and may thereby claim an inchoate right of dower in the portion of said mortgaged lands owned by your said husband.

And you, Henry L. Coolidge, are made defendant because you may claim an interest as tenant by the curtesy in the portion of said mortgaged lands owned by your wife, Caroline M. Coolidge.

Dated July 26, 1898.

FRESH-AIR CAMP FOR POOR CHILDREN.

Glimpses of Life at Camp Woolfe, Westfield.

HOW THE MOVEMENT BEGAN

THE PLAINFIELD ENDEAVORERS ARE TAKING ACTIVE INTEREST.

Facts Concerning Westfield's Great Charitable Institution—Description of the Camp and the Life of Its Occupants—What Has Been Accomplished—A Charity That Pays—The Workers There.

In the midst of a pretty grove on the outskirts of Westfield may be seen the cluster of buildings composing Camp Woolfe, where every summer a happy company of women and children, gathered from the slums of New York, may be seen enjoying life amid the unaccustomed surroundings of fresh air, plenty of good, simple food, kind words and religious teaching. Many Plainfielders visit Camp Woolfe, and it would pay many more to do so, for it is an example of a practical, helpful charity, working with perfect success.

The history of the camp dates back to the spring of 1895, when five mission workers in the east side of New York had laid on their hearts the need of an outing, during the heated term, for the poor mothers and their younger and sickly children. Their desire was to separate them from their miserable surroundings, instruct them in housekeeping and home making, and, if possible, lead them into a definite Christian experience, and as this need was not met by any of the Fresh-Air Charities of the city, they decided to start a camp for such a work. Accordingly, forty-two mothers and children, in charge of the present matron, Miss Sara Curry, were brought out to Camp Woolfe, July 5. There were only funds to last two weeks, but the work soon attracted the interest of philanthropic people, by whose help the camp was kept open ten weeks. The present wooden buildings were not then built, the first month the guests slept, ate and attended religious services in a large tent. In August, however, the substantial farm dormitory was built, capable of sheltering a hundred persons.

By this time, the Christian Endeavor Societies and Epworth Leagues of Westfield and vicinity had become greatly interested in the work. The Union Fresh-Air Mission Association was formed, and since then each department of the work, being in the hands of an efficient committee, has been conducted with gratifying success. A substantial frame auditorium was substituted for the tent which served for dining and meeting room, and here the guests of the camp may be found during the day, the mothers reading or chatting or caring for their little ones, the children laughing and playing about. Swings and hammocks abound, and little folk who scarcely knew what grass and trees were, a short time ago, revel in the free, outdoor country life.

In the frame building which constitutes the kitchen, the women can learn clean and economical methods of preparing food, and personal cleanliness is made easy by a newly construsted washhouse. A sewerage system with complete sanitary arrangements has been constructed.

A nursery building capable of accommodating twenty babies has been erected, thoroughly equipped, and placed in the charge of a competent nurse. There are cared for sickly babies whose mothers are obliged to work during the day, and so cannot come to the camp. Many babies grow remarkably stronger, after a few weeks in these pleasant quarters, and few deaths have taken place.

The Endeavor Societies and Epworth Leagues conduct short gospel services every night and Sunday afternoon, and many have gone home from Camp Woolfe renewed spiritually as well as physically. Even the children join in the services with enthusiasm, and sing their favorite hymns with an energy that nearly raises the roof. The children are the most fascinating part of the whole, to the visitor. The babies in the nursery beam at the kindly faces above them, and the older ones talk freely with visitors and seize with pathetic delight any little toys or books that are given them. Camp Woolfe is a charity that has paid, and is paying right along. None of those who have been among its pleasant influences and under the charge of its earnest Christian matron, can ever go back to just the old life again.

The officers of the Union Fresh Air Mission Association for the present year are as follows: President, George E. Woolfe, of New York; vice-presidents, Arthur N. Pierson and David M. Torrey, of Westfield; secretary, Miss Jane R. Morrow, of Westfield; treasurer, Miss Edith T. Morehouse, of Westfield.

INJURED JUDGE'S HORSE

FAULTY REPAIRS, IT IS ALLEGED, WERE THE CAUSE.

Combination of Rain and Heat Caused Boards on Bridge to Curl—Tripped Over Them and Was Injured Somewhat.

Owing to an accident to his new road horse, City Judge George W. DeMeza has been obliged to place the animal on a farm, with a chance to rest and recover. The accident happened on the Somerset street bridge, and was due to a curled up piece of board which caught the horse's foot and threw him heavily.

When the bridge was built the planks were not set as close together as they should have been. The action of sun and rain on them drew them apart and left wide cracks which were not very safe to wagon wheels. Then the members of the Board of Freeholders covered the cracks with pieces of plank running parallel with the street, shaved off the ends so as to offer very little resistance to wagon wheels, and thought the improvement permanent.

They worked all right until this last damp spell, followed by a day or two of fierce heat, which curled up the ends of the planks, and made a dangerous place in the centre of the street.

City Judge De Meza's horse was the unlucky one to fall. Striking the plank fairly, the horse stumbled and struck his knees before he recovered. In the fall both knees were barked, and the animal otherwise stiffened so that his owner considered a rest necessary. City Judge De Meza may bring suit against the Freeholders upon the recovery of his horse.

A NEW KIND OF APPLE.

THE OFFICERS DROPPED AMONG THE ORCHARD RAIDERS.

The Boys Were Shaking the Very Trees in Which the Marshals Were Hiding—Boys Were Fined $5 Each.

"Oh, Bill, just look at those apples," loudly whispered one of the boys as they scaled the fence last evening around Mayor Wilson's orchard, in the rear of the Borough Mayor's handsome home, "Tunlaw." Apparently there was no one in sight. Soon the boys were greedily gathering the fruit and shaking down more.

Now, Mayor Wilson has a very fine orchard and he naturally takes much interest in it. Frequent visits are made to the orchard and some of the finest fruit disappears. This caused His Honor no end of trouble. He informed Chief Wilson that the boys must be kept out of the orchard, and the officer said that the Mayor's wishes should be complied with.

Yesterday evening the boys made a visit to the orchard. They were shaking one tree vigorously for the apples. The fruit dropped, and they were just congratulating themselves on their good luck when two of the biggest apples they had ever seen dropped in their midst. They quickly recognized Chief Wilson and Marshal Wise. In short order the officers had under arrest Albert Perry and another boy. They were arraigned before Recorder Long. Each one was fined $5 and was then discharged. They were not conscious of the fact that in the very tree they were shaking were the two officers hiding, so when the latter dropped down the lads were badly frightened.

NOT MUCH BUSINESS.

After A Remarkably Short Session, the Board Went Into Executive Sessions

One of the shortest meetings of the Board of Education ever held was the regular open meeting held last night. The session didn't convene until 8:15 o'clock, and lasted fifteen minutes, most of which time was taken up with the reading of minutes.

Those present were President J. B. Probasco, M. D., and Messrs. Lovell and Lounsbury. Bills were ordered paid and a communication from E. H. Bird, the tax collector, read. It stated that taxes to the amount of $1,295.53 had been received as follows: For 1895, $7.90; 1896, $956.07; 1897, $331.56, with interest $167.78, making a total of $1,463.31.

Doctors Murray and Tomlinson sent communications accepting their appointments as medical examiners. The Board then went into executive session.

No Trace of the Horse.

Councilman Walter L. Hetfield has as yet received no news of his lost horse. He has searched the country around pretty thoroughly without success, and hardly knows what to do now.

Lots of Business.

It is possible that the City Council will hold two more meetings this month, as business of importance will have to be considered.

WANT TO BE ANNEXED.

How the Porto Ricans Consider American Invasion.

NINE CITIES SURRENDER.

SLIGHT SKIRMISHING REPORTED FROM THE FRONT.

Refugees Arrive at Ponce and are Given a Grand Welcome—Report of Conference with Leading Citizens on Annexation.

(From the Union Associated Press.)

Ponce, Porto Rico, August 1, via St. Thomas, August 3, 12:55 p. m—Nine additional cities have yielded without resistance to the advance of the American army under Gen. Miles.

Spanish troops were quartered in most of the cities taken. There was no fighting, however, at any of them. The American troops are being enthusiasticly welcomed by the citizens. Thus far no Spanish sympathizers have been found.

In many cases the Spanish troops garrisoning the towns were compelled by the people to leave the place and retreat on the road toward San Juan.

Ponce, Porto Rico, August 1, via St. Thomas, August 1, 1:05 p m—The auxiliary cruiser St. Louis arrived this morning bringing the Porto Rican refugees who were the ringleaders in the revolution a year ago.

After the revolution they went to San Domingo, but returned to Porto Rico, where they were caught by the Spanish and put in jail. They were subsequently deported, but have since been in New York.

Upon their arrival here they were received like heroes. Bands played American airs and prominent officials made speeches of welcome. Their progress to their homes was a continual ovation.

The returned refugees had a conference this afternoon with the leading citizens and say that ninety per cent. of the population prefer annexation to the United States to self-government.

Besides the refugees, Gen. Brooke with the Third Illinois arrived here. The govermental post office will be opened tomorrow.

Ponce, Porto Rico, August 2, via St. Thomas, August 3, 1:20 p. m.—Garrison's brigade arrived here today from Yanco, making the total American fighting force in this vicinity nine thousand men, equal to the Spanish force on the entire island.

There was some firing last night between the American pickets and the Spanish soldiers who are hiding in the bush. No one was hit on the American side. It is the general belief that there will be no forward movement until the other transports arrive.

Had No Contract.

The Daily Press is again called upon to correct the mis-statements of its blundering contemporary on Front street. The News tells how the contract between the Dunellen Council and the Watchung Water Company has been broken. Now there never was any contract to break, therefore the statement was decidedly wrong. The Council did contemplate a contract but the Watchung Company would never sign it and the matter fell through.

Death of Miss Jennie Hays.

The death of Miss Jennie Hays, daughter of Henry Hays, of 1106 Dunellen avenue, occurred yesterday, after a long illness. The funeral services will be held from the residence tomorrow afternoon at 5 o'clock, and interment will be in Cypress Hill Cemetery, Brooklyn.

FAST MEN TO MEET IN A ROAD EVENT.

Lister's Fifteen Mile Road Race To Be Held Tomorrow.

A LIST OF THE ENTRIES.

TWENTY-FOUR RIDERS WILL START IN THE EVENT.

The Course Will Be Out Park Avenue—The Start Will Be At Randolph Road—Race Begins at 6:30 o'Clock—Winner of Irvington-Milburn Race Will Ride—Other Fast Men Entered.

But for the series of road events, arranged by Harry K. Lister, the bicycle racing season in Plainfield this year has been an unusually slow one. The second of Lister's races will be held tomorrow evening at 6:30 o'clock over a course of fifteen miles.

The start will be made on Park avenue, corner of Randolph road. The riders will then go to Pumptown, via Oak Tree, around the pump and return over the same course to Avon Park where they will turn and go back to Pumptown, around the pump again and finish at the starting point. The course has been so arranged as to make it just fifteen miles.

To make the contest of particular interest, Harry Lister has provided an excellent lot of prizes. There will be two time prizes, the first a silver watch, and the second a gold chain. The six other prizes will be as follows: First, diamond ring; second, sweater; third, gold link cuff buttons; fourth, racing saddle; fifth, pearl-handled pen-knife; sixth, cyclometer.

The entry list is a large one, including twenty-four names. Among them are Jorden Hanson, of Perth Amboy, the man who won the Irvington-Milburn race, and John Cunningham, of the same place, who finished fourth in that great event. Both of them will, of course, start from scratch. George Voorhees, the well-known New Brunswick road rider, and Fred Nelson, of Stelton, who started from scratch in the other race, will be the other scratch men. Ray Poole, of this city, is entered, but his rival, Peter Simmonds, Plainfield's colored rider, is missing.

The officials will be the same as those who officiated in the first meet. Harry K. Lister will act as clerk-of-the-course.

The entries with their handicaps are as follows:

Name	Residence.	Handicap.
George Voorhees	New Brunswick	Scratch
Fred Letson	Stelton	Scratch
Jorden Hanson	Perth Amboy	Scratch
John Cunningham	Perth Amboy	Scratch
		Seconds
Eugene Richter	Netherwood	30
J. W. McDowell	New Brunswick	30
Ray Poole	Plainfield	30

George Apgar	Plainfield	1:30
Morris Sorensen	Plainfield	1:30
F. H. Herdman	Stelton	2
Bert Townley	Plainfield	3
Henry Angerbauer	Plainfield	3
M. Owens	Plainfield	3
C. Rittenhouse	Plainfield	3:30
H. Kathyen	Plainfield	3:30
Fred Kroaner	Plainfield	3:30
Lewis Peterson	Plainfield	4
Clarence McMurtry	Plainfield	4

TELL A WEIRD TALE.

Young Men Claim to Have a Note from Suicide.

Frank Denckiau, Wyatt Barnes, George Snedeker and Harold Phillips went swimming yesterday in the pond back of the paper mills at Scotch Plains. When they returned, they told a ghastly tale of finding a corked bottle floating around in the water in which was a note telling the finder that the writer was going to commit suicide, and that his dead body would be found in the bottom of the lake. The boys insist that their story is true, and are thinking of organizing a searching party to drag the pond.

Cory Divorce Case Continued.

A great part of Monday was taken up in the Vice-Chancellor's court at Newark in listening to the summing up of Lawyers Swackhamer and Newcorn, who represent the parties in the suit for divorce brought by Henry H. Corey against his wife, Alice V. Cory. Mr. Newcorn opened at 9:30 o'clock and took until shortly after 3 o'clock, when Mr. Swackhamer arose and talked until court adjourned. The arguments will be continued Saturday morning.

A Bicycle Party.

Miss M. G. Morse, of Franklin place, gave a bicycle party last night to a few friends in honor of her guest, Miss Edna Minita Howell, of Chester, Pa. The party started just at dusk, and rode out to Pumptown and back, returning to find the house illuminated and decorated with Japanese lanterns. Dainty refreshments were served on the large piazza, and a period of sociability closed the evening.

—Press want ads pay—try one.

ACCEPTANCE IS AWAITED.

All Confident that Spain Will Accept Peace Terms.

NO OFFICIAL NOTICE YET

UNOFFICIAL REPORTS SAY SPAIN WILL ACCEPT.

President McKinley Says He Has Received Unofficial Notification—Day Says No Official News—Nothing Definite Received.

(From the Union Associated Press.)

Washington, August 3, 1:06 p. m—President McKinley, soon after 10 o'clock this morning, said that he had received unofficial notification as to Spain's agreement to our peace terms.

He was expecting Spain's reply to the American communication at any moment. Secretary Day says that he has not received any official advices as yet of any action on the part of the Spanish government on the peace terms.

At 10:30 o'clock there had been received at the French Embassy no Spanish response to peace terms although a commnnication not definite in character had come to hand.

TEXAS DRYDOCKED.

She Will be Thoroughly Overhauled While Here and Repaired.

(From the Union Associated Press.)

New York, August 3, 1:24 p. m—The battleship Texas was placed on the drydock at the Brooklyn Navy Yard this morning.

A number of the plates in her hull will have to be replaced. She will also be thoroughly overhauled and her engines looked over.

The hospital ship Relief has finished loading hospital supplies and delicacies and will sail this afternoon direct for Ponce.

ROUGH RIDERS TO RETURN.

They Will Leave Santiago on the First Available Transport.

(From the Union Associated Press.)

Washington, August 3, 1:55 p. m.—Roosevelt's Rough Riders were today ordered to Moutauk Point.

They will come with Wheeler's cavalry on the first available transport from Santiago.

Uprising in Spain.

(From the Union Associated Press.)

London, August 3, 1:20 p. m.—A despatch from Barcelona says that a formidable uprising of Carlists has taken place at Lerida, province of Catalonia.

A Day at the Shore.

Tomorrow the excursion of the Crescent Avenue church, together with a number of other local churches, to Asbury Park will take place. The indications are that the day will be a fine one, and that all who go will fully enjoy themselves. The recent bad weather has had a depressing effect on everyone, and a day at the seashore is what many need to make them feel rested. It is fully expected that a large crowd will join in the outing.

A Cruise Near Sandy Hook

Mrs. Margaret Wilson and son, Allan, of Grove street, started this morning on a pleasant trip on board one of the government steam yachts in company with State Fish and Game Warden Shriner and wife, of Paterson. Warden Shriner goes on a two-days' cruise around Sandy Hook to detect illegal fishers, and takes a few personal friends with him.

Will Visit Somerville.

Frank Conshee, of the borough, for being drunk and disorderly was arrested last evening by Marshal Schenck, and this morning Recorder Long imposed a fine of $10 or 10 days. The offender took the days.

PLUMBERS GO TO COURT.

TROUBLE OVER QUESTION OF SUPPLIES FURNISHED EACH OTHER.

Galbraith & Walsh Sued E. D. Barrett for Materials and He, in Turn, Filed a Setoff Against the Firm.

A dispute between two plumbers of this city over goods bought and sold on each side, ended in a trial before Justice Nash yesterday afternoon. Dennis J. Galbraith and his former partner, Thomas Walsh, were the plaintiffs in the case, the defendant, Ernest D. Barrett. Both parties have been in the habit of accommodating each other by furnishing sundries, etc., when they ran short.

Galbraith & Walsh sued for a bill of $17.84 balance. Barrett filed a setoff nearly covering the amount claimed by the plaintiffs, and altogether the case was as complicated and tedious a one as a Justice is generally asked to decide.

According to an alleged custom among plumbers, Galbraith & Walsh charged Barrett 10 per cent. advance on all the goods they purchased. This, said Mr. Galbraith, was one-half the advance generally charged to customers. The plaintiffs had two other plumbers as witnesses, E. H. Enander and John H. Carney.

Irving L. Brady represented the plaintiff and W. S. Angleman appeared for the defendant. Their defence was a setoff and a claim that part of the bill had been paid.

After listening to the evidence Justice Nash reserved his decision for one week.

DRAGGED BY A RUNAWAY

A FRISKY HORSE SERIOUSLY INJURED B. S. BRAIDER YESTERDAY.

He Was Climbing Into a Delivery Wagon When the Horse Started—He Clung to the Wagon and Was Dragged.

Yesterday afternoon about 4:30 o'clock B. S. Braider, who is manager of the Plainfield Co-operative Association store on Central avenue, and who delivers goods, met with a serious accident.

He was driving a young horse and after delivering some groceries in a house on Manson place, he untied the horse and attempted to get into the wagon. The frisky animal started before Mr. Braider could reach the seat, and at a rapid pace he ran down the street. Mr. Braider held on and was dragged about two blocks. Both of his arms were terribly lacerated and in some places the skin was torn loose. Finally Mr. Braider was obliged to let go, but the horse continued his wild run. The rig finally wound up in a large field, where the wagon was kicked into kindling wood by the horse.

The animal was frantic and it was some time before he could be subdued. He was caught by a man employed by the Great Atlantic Tea Company, who happened to be in the vicinity, and later Mr. Braider came along and took the horse in charge.

It was at first thought that Mr. Braider's injuries were of a critical nature, but an examination proved that they are not so bad. It will be several days, however, before he will be able to fully attend to his duties.

PLAINFIELD BOY PROMOTED.

Frank Vosseller Selected to be Quartermaster's Clerk at Camp Thomas.

The friends of Frank Vosseller, who is now located at Camp Thomas, Chickamauga Park, Ga., will be pleased to learn that he has about recovered from a recent operation which necessitated the removal of a fistula. Mr. Vosseller is now able to be around again. It will also be of interest to his many friends in this city to learn that purely on his own qualifications he has been promoted. This change took place last Friday when he was selected as a clerk in the department of Qurtermaster-Sergeant Trougott, with headquarters near those of the Colonel of the regiment. Mr. Vosseller possesses clerical abilities that has won for him the position he has recently acquired, and his friends will congratulate him on being so fortunate. The other Plainfield boys in Camp Thomas are doing well.

Carrier Pigeons Start.

Manager Mills, of the U. S. Express Co., received a lot of carrier pigeons this morning from Eli Moreton, of 412 South Tenth street, Newark, and he liberated the birds at 8:25. The crowd at the station watched them as they circled about for fully ten minutes. They then started on their homeward journey direct.

For Boynton Beach.

A four-horse stage was requirred to take the members of Lucetta Council, Daughters of Liberty, to Boynton Beach this morning, at the annual outing of the order from all over the State.

A NIGHT IN A CELL AT THE CITY JAIL.

An Old Salt Tells of Strange Sights There.

MANŒUVRES OF INSECTS.

JOHN PHILLIPS NEVER SAW ITS LIKE BEFORE, HE SAYS.

Was Arrested for Begging and Being Drunk—Locked Up Over Night—That Was Punishment Enough—Was Glad Enough to Leave the City—The Judge Suspended Sentence and Let Him Go.

"Well," quoth John Phillips, a man from "anywhere," as he stretched out on the wooden seat in the cell, where Patrolman Saffron landed him late last evening, "I might have struck it worse." There was a cold damp air to the semi-underground cell, but John was used to almost anything and he did not mind it. He laid down on the bench, pillowing his head on the old worn coat that had served him in that way many a time before.

All was quiet in the jail save when a train went rushing by. John could not see them but the roar pierced its way into his confinement. He had settled down for a snooze when he was attracted by a scratching in the corner of the cell. In the dim light from the solitary electric light in the corridor, he could see something advancing across the floor.

Looking again, he saw it was a monster black bug. Following it were others. But what attracted his attention was the regularity of this insect force. They were formed by fours with here and there a file-closer. They marched to the centre of the cell and there formed company front. A detachment of centipedes, led by a monster of his kind, filed out by platoons and deployed to the left. Then came smaller bugs of a dark red color, then others until John's hair fairly rose on end.

"Great Cæsar's soup tureen," shouted out the prisoner, and then he swore.

The insect army went through all sorts of manœuvres as the night went by and John watched them from his post of observation. This morning he confidentially told one of the officers that in all his experiences in the jails throughout the country, he had never seen one equal to that of Plainfield. It marked an era in his experiences.

Phillips was arrested for begging and for being drunk on Watchung avenue last night. He had been a sailor and had visited many ports all over the world. He was now an umbrella mender. His home was "anywhere."

When the Judge heard what a night he had had, he suspended sentence on the old salt on condition that he would leave town in ten minutes. Phillips said that it would be necessary to tie him here to persuade him to remain. He departed and cast not one look behind.

DUNELLEN PASTOR MARRIED.

Rev. A. I. Martine Wedded to Mrs. O. B. Chandler, at Glen Head, L. I.

(Special to The Daily Press.)

Glen Head, L. I., August 3.—The marriage of Rev. A. I. Martine, pastor of the Dunellen Presbyterian, church to Mrs. O. B. Chandler, also of Dunellen, was celebrated this morning at 10 o'clock at the home of Mrs. Chandler's sister, Mrs. Smock. The ceremony was performed by Rev. John Smock in the presence of a very few relatives. The bride and groom will leave this place today with horse and carriage and will spend their honeymoon taking a drive of about one hundred miles, during which time they will visit friends at Nyack, N. Y., and Mr. Martine's sister at Pine Ridge, N. Y. They will return to Dunellen to live the latter part of this month.

PLAINFIELD BOY AT TAMPA.

W. S. Stewart, a Cavalryman, Expects to Be Ordered to Porto Rico.

D. F. Stewart, of John street, has received a letter from his son, William S. Stewart, who is in Troop K, Sixth U. S. Cavalry, at Tampa. With the letter came four Mauser cartridges, the kind that the Spanish soldiers use, and formidable looking shells they are, too. Stewart and Frank Marsh, who is with him, are well, and at the time of writing were expecting to move on to Porto Rico.

New Fire Ordinance.

Councilman Will N. Runyon has in preparation a new fire ordinance which he will present in the near future. It is said that it will require one whole evening to read the document, and Mr. Runyon's friends are trying to persuade him to put the matter off till cool weather.

THE PORTO RICO ARMY

Many Troops Ready To Embark to Join Gen. Miles.

TRANSPORTS VERY TARDY

The Sixth Cavalry Started for Tampa Yesterday. A Ship Loading for the Comissary Department. At Newport the Delay Becoming Vexatious. Gen. Grant's Men Are Tired of Waiting for Transportation.

Tampa, Fla., Aug. 3.—At daylight yesterday morning the Sixth cavalry began breaking camp and loading baggage and tents into cars. There are four troops of this regiment, but as no horses were carried by the troops sent to Santiago, the men left here have had to care for the 1,200 horses belonging to the regiment. Everything was loaded and the regiment started for Fernandina in the afternoon.

Transports have begun to arrive at Port Tampa, and the movement from Tampa to Porto Rico will begin as soon as the ships can be loaded. The Arkansas began loading with grain, hay and commissary supplies on Monday, and will be the first to leave. The side-wheel steamer Clinton and the Mallory steamer San Marco were released from quarantine last night and as soon as coaled will begin loading. The Saratoga is expected up to-day and will also begin loading.

One regiment of regular cavalry, one of regular infantry, three of volunteer infantry and six batteries of artillery will constitute the force that will sail from here under the command of General J. J. Coppinger, commander of the Fourth army corps. The artillery will be under the command of Brigadier General J. I. Rodgers.

Situation at Newport.

Norfolk, Va., Aug. 3.—General Grant's brigade of nearly 4,000 men encamped at Newport, is getting restless. Sickness, too, has broken out among the troops, and several men are sent to the field hospital at Fort Monroe every day. Several typhoid and malarial fever patients were removed to the hospital to-day and there are many cases of mumps and measles. Three patients were sent away from the One Hundred and Sixtieth Indiana, nine from the First Kentucky and forty from the Third Kentucky. The delay in starting to Porto Rico is due to the absence of the transports, the Hudson being the only one here at present. Large amounts of stores, clothing and ammunition were sent from the commissary department at Norfolk yesterday from Newport News; but will have to lie there until the transports arrive.

The First South Carolina regiment of volunteer infantry, which was expected on Sunday, had not arrived up to this afternoon.

One visitor in Camp Grant today was the paymaster, who arrived with $100,000 to pay the men off.

First Sergeant Brewer of Company M, Third Kentucky, died yesterday of typhoid fever. He was a son of Captain Brewer of the same company.

The two colored companies of Norfolk-Langston and National Guard were yesterday mustered into the service of the United States and will camp near Richmond. They are excellently drilled and equipped.

The loaded collier Caesar, one of Watson's fleet, started for sea this morning, but quickly returned. It is not known why she was recalled.

Must Know the Reason Why.

Washington, D. C., Aug. 3.—General Shafter has been officially called down by the secretary of war for his conduct in permitting our troops to be sent home from Santiago in vessels that were not in fit condition to convey them home, vessels inadequately supplied with the necessities of life, without pure water and without medicines or sufficient medical attendance.

General Corbin said last night: "I have done everything in my power to have the sick soldiers brought home as they should have been and I have been greatly distressed at the reports of the conditions of things on the Seneca and Concho.

"Matters reached a climax last evening," continued General Corbin, "when the secretary of war sent an official dispatch to General Shafter informing him of the reports here as to the condition of the Concho and the sick soldiers on this vessel, and telling him that he would have to be prepared to answer for himself any criticisms that might arise and vindicate his cause at the end of the line. General Shafter was also ordered not to permit any sick soldiers in the future to be brought to this country except on vessels suitable for their conveyance, and that hereafter all such ships must be provided with all the necessaries in the way of food supplies and medicines and be in charge of a commissioned officer and a regular army surgeon."

Allotment of Bonds.

Washington, Aug. 3.—It was learned yesterday at the treasury department that there is now little doubt that subscriptions for war revenue bonds, ranging in amount from $2,500 to $3,500, will be allotted. This will be good news to the subscribers, who, while they do not come under the head of small subscribers, who took amounts ranging from $50 to $100, do not represent the banking interests. It was believed, not long ago, that allotments of $5,000 would be made, afterward this amount was reduced to $4,500, and now a still further reduction is made.

It is not believed that any subscription over $3,500 will be rewarded with an allotment of bonds.

Jernegan Has Disappeared

Paris, Aug. 3.—The Rev. Mr. Jernegan of the Electrolytic Company of Boston, for whose arrest a warrant has been issued and who arrived at Havre on board the French line steamer Navarre, subsequently taking the train for Paris without molestation, seems to have deserted the train while on his way to this city, for all inquiries as to his whereabouts are of no avail.

TYPHOID FEVER AT CAMP ALGER.

The Entire Second Division to Be Moved. Two Deaths.

Washington, Aug. 3.—The typhoid fever epidemic at Camp Alger continues to spread, and orders have been issued to move the entire Second Division to farms south of the present camp site. The Second Division now occupies the camp originally selected. It has been found that the removal of the First division to Dun Loring has not accomplished the desired results, as all but one of the wells drilled there have been condemned. Two typhoid patients died yesterday. They were Privates A. W. Stockholm, Company G, Thirteenth Pennsylvania, and Fred Fay, Company G, Twelfth Pennsylvania.

Forty suspected cases were reported and there are fifty men of the One Hundred and Fifty-ninth Indiana, in addition to these, who show slight symptoms of typhoid. Of the 106 men in Company G, Twelfth Pennsylvania, only forty-eight could report for duty yesterday.

The plans for a review of the corps by the president have been abandoned until the change of camping grounds has been completed. The review by Secretary Alger will follow both of these events.

EXTRA SESSION NOT EXPECTED.

Senate to Meet to Ratify a Treaty.

Washington, Aug. 3.—There probably will be no extra session of Congress, though the Senate will have to be called together for prompt ratification of the treaty of peace if the present plans of the president prevail. It is stated at the White House that unless there should be some extraordinary development, the House will not meet until it convenes in regular session next December. This statement, made on the authority of the president himself, in an answer to personal inquiries, is the contradiction to reports current among public men that Congress will soon meet to draft legislation to meet the demands that will follow the close of the war, as well as to give formal assent on the part of the Senate to the treaty.

COAL MINERS RESTLESS.

Threatened Labor Troubles in the Pittsburg District.

Pittsburg, Aug. 3.—If the coal operators of the Pittsburg district do not conform with the terms of the Chicago agreement by August 10, 5,000 miners will be ordered to strike. This is the decision of the convention of United Miners of this district, now in session here. A series of strikes are to be inaugurated in the Young district, the third pool, and if it is at all possible the New York and Cleveland Gas Coal Company will be compelled to pay a penalty for mining coal at a rate lower than provided for in the agreement.

"We are not anarchists nor chronic

Large Gold Transport.

New York, Aug. 3.—The announcement has been made that Messrs. Lazard Freres had $2,000,000 of gold engaged in London for importation to this country. Simultaneously came the report that the steamship Monna, which sailed from Sydney yesterday for San Francisco, carried $1,650,000 in gold for this country.

Fourth Expedition Nearig Manila.

San Francisco, Aug. 3.—The steamer Doric, which arrived late last night, brought news of the arrival at Honolulu of the fourth Manila expedition.

The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well and on Monday the boys in blue were ashore and were given a royal reception and a grand feast.

Navy Yard Recruits.

Chicago, Aug. 3.—Boatswain Henry Hudson left Chicago last night over the Pennsylvania road for New York with 38 naval recruits. The men, who are first class seamen, firemen, machinists and shipwrights, are destined for the New York navy yard, where they will go aboard the receiving ship Vermont, there to await appointments to seagoing vessels.

New York's Quota Filled

New York, Aug. 3.—The president's second call for 4,300 troops from this state was filled yesterday by the arrival of three companies of recruits of 106 men each at Camp Black. All of the companies were recruited in Buffalo and came direct from that city.

SITTING ON THE FLOOR ADVOCATED

Considered to Have Advantages Beneficial to Health.

An eminent English physician, Sir James Crichton Browne, who has wonderful aptitude for making medical subjects interesting to the public at large, announces that men and women would derive great benefit from sitting on the floor instead of chairs. Women would benefit even more than men by the practice.

The position of sitting on the floor or the ground is more natural than that of sitting on a chair. It was once general with the entire human race. It is both healthy and natural.

The exercise of getting up from and down to the floor is beneficial. Through the general adoption of the sitting position among the civilized races many muscles have become stiff and obsolete. Persons who sit on the floor have strong back and thigh muscles. Turks, tailors and shoemakers are examples of this fact.

If you sit on the floor you can change your attitude as often as you please, and can enjoy an endless variety of pose, and however often you alter it and however you may place yourself, there is never any chance of your falling off. If you sit on the floor you achieve all kinds of comfortable positions which it is impossible to obtain even with the easiest of easy chairs. The influx of visitors need never cause anxiety to the well constitutioned mind on the subject of chairs. All he has to provide is a quantity of cushions—cushions of every size and shape. Let guests select any they please, and it will be their own fault if they are not comfortable and happy.

MORE MEN TO MERRITT

Many Now in Eastern Camps May Have a Chance to Go.

FORCE WILL BE INCREASED

Gen. Merriam Notified That Gen. Merritt Has Asked for an Increase in His Command from 20,000 to 50,000 Men. Fourth Manila Expedition at Honolulu Safely. The Men Aboard Were All Well.

Washington, D. C., Aug. 3.—Although the war department officials will not admit that they have any information of reinforcing further General Merritt's forces at Cavite, there is reason to believe that some of the troops now in eastern camps who desire to see active service will soon find the opportunity unless the government shall change its present plans with respect to the Philippines.

It is believed to be necessary even if our claim is limited to the claims stated in the conditions submitted to Spain namely, to the military occupation and government of the territory on the shores of the bay of Manila to furnish to General Merritt a larger force than he has now at his command.

It is realized that 20,000 soldiers can scarcely be expected to maintain United States possessions and protect the inhabitants over a territory of this extent, for it must be remembered that the bay of Manila is twenty-five miles deep from the entrance at Corridor island to the city of Manila at its head.

It will also be necessary to possess protection extending some distance back to the bay in order to make sure of the preservation of the water works. Of course a considerable force would not be necessary if the insurgents under Aguinaldo could be taught to realize their interests lie in the permitting of United States possession of the territory.

But the natives would not keep the rich loot to be had in Manila without an adequate force to protect the place. Then with the growing heat and dampness it is to be expected that illness will develop among the troops; not to the extent that it appeared at Santiago, but sufficient to require some of the men to be invalided home and their places to be taken by fresh troops from the United States. At present the large majority of General Merritt's force is composed of troops drawn from the Pacific coast or far western states.

San Francisco, Cal., Aug. 3.—In reply to a dispatch received from General Merritt, now at Cavite, General Merriam yesterday cabled that since the departure of the governor general of the Philippines five transports with 4,897 men had sailed from this port.

Scarcely had the message been sent before General Merriam received word from the war department that General Merritt had asked to have his command increased from 20,000 to 50,000 troops in order to be able to meet any emergency which may arise on account of the hostile attitude of Aguinaldo and the insurgent forces.

Fourth Expedition at Honolulu.

San Francisco, Cal., Aug. 2.—The steamer Doric, which arrived last evening, brought news of the arrival at Honolulu of the fourth Manila expedition. The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well and on Monday the boys in blue were ashore and were given a royal reception and a grand feast.

The fourth expedition left here July 15 and reached Honolulu without mishap to either of the vessels. Great preparations are being made at the islands for a grand celebration on the arrival of the annexation commissioners and the raising of the Stars and Stripes.

The recruits of the First Colorado, Second Oregon and First Nebraska, by order of Brigadier General King, have been added to the command of Lieutenant Colonel Barnett, making, with the recruits of the Tenth Pennsylvania, a force of 1,0000 men. This action was taken in order to mobilize the scattered Camp Merritt forces.

The Dead Chancellor.

Friedrichsruhe, Aug. 3.—The emperor and empress arrived at the castle yesterday afternoon and took their departure after a visit of half an hour. The stories of friction between the emperor and the Bismarcks are somewhat weakened by the fact that the emperor upon arriving at the castle kissed Prince Herbert Bismarck upon both cheeks.

Two hundred or more persons assembled outside the gates of the castle, awaiting the arrival of the emperor and empress.

It is learned that Prince Bismarck left a fortune of 30,000,000 marks, of which Count William Bismarck and his sister, the Countess von Rantzau get 1,000,000 marks each, the remainder going to Count, now Prince, Herbert Bismarck.

The family received holy communion yesterday morning in the castle.

Prince Herbert Bismarck has refused to allow the sculptor Begas to take a plaster cast of the features of his father, or even to make a sketch of his face.

Prize Steamer Sold.

New York, Aug. 3.—There were only two bids—$125,000 and $130,000—when the prize steamship Guido was put up at auction yesterday at the Mallory line dock, Pier 20, East river.

The auctioneer refused to give the name of the first bidder, but it was said that the bid was made to protect the sailors who captured the ship and among whom the prize money will be divided.

For four minutes there was no other bid. Then W. D. Munson bid $130,000 and as there was no advance for three minutes, the ship and her equipment were knocked down to Mr. Munson, who said he acted for the New York and Cuba Mail Company.

Our Troops at Coamo.

St. Thomas, D. W. I., Aug. 2.—The American troops have reached Coamo, about sixteen miles northeast of Ponce, on the road to San Juan. Thus far they have met with no resistance.

New Jersey's Greatest Store.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

SMOKELESS POWDER FOR THE NAVY

The Department Yesterday Decided to Purchase a Million Pounds.

Washington, Aug. 3.—The operations of the military and naval forces of the United States in the war have taught the Federal authorities many valuable lessons, not the least of which is the great benefit derived by the use of smokeless powder. The naval administration has been studying the smokeless powder question in all its aspects for several years, but practical experience was not had until the siege of Santiago to demonstrate how necessary this brand of explosive is for the purpose of warfare. As a result of the renewed consideration in the light of what was demonstrated at Santiago, particularly by the New Orleans, the only vessel of the American fleet using the new explosive, the navy department decided to purchase 1,000,000 pounds of smokeless powder for general distribution among the ships of the service. The requirements of the navy are 3,500,000 pounds, so that powder of the smokeless variety will fill less than a third of the magazine space on the various war vessels. Eighty cents a pound is the estimate made by the navy department for the entire contract, thus insuring an expenditure of $800,000 for the initial contract.

CHANGES AT THE NAVY YARD.

Large Contracts to Be Awarded Shortly by Secretary Long.

Washington, Aug. 3.—Contracts for nearly $760,000 worth of work at the New York navy yard will be awarded by Secretary Long during the next few weeks. The principal job is the repair of timber dock No. 2, which is in need of a new entrance and extensive alterations. The dock has been in use but a few years, and is already in bad condition. This work will not be undertaken until the new timber dock is completed. The contractor's time on that structure expires in about two weeks, and the experts believe there will be no delay in the delivery of the dock to the government.

The other contracts are for two new storage houses to cost $70,000; the extension of the railway system, $25,000, and for a crane, $100,000. It has not been decided whether a travelling crane or a floating crane will be built. The engineers favor the latter.

Again Tom Reed.

Portland, Me., Aug. 3.—The Republicans of the First district of Maine held their convention here yesterday. After preliminary business the name of Mr. Reed was presented to the convention by Hon. J. W. Symonds of Portland. The nomination was seconded by Hon. H. H. Burbank of Saco, and Mr. Reed's name was accepted by acclamation amid much enthusiasm.

Later, Mr. Reed appeared on the floor of the hall. He was greeted with deafening applause, which prevailed until he began to speak. Then some one shouted: "Take the platform!"

"No," said Mr. Reed. "Let me have my way once," and the convention broke into laughter.

A Noted Violinist Here.

New York, Aug. 3.—Ovide Musin, the violinist, was a passenger on the steamer Westernland, which arrived Tuesday morning. He comes to this country to introduce the system of instruction pursued by him at the Royal Conservatory of Music at Liege, Belgium, where he holds the position of first professor.

M. Musin will also be heard in concert, making his first appearance at the Worcester Musical Festival in September. This will be M. Musin's first appearance in America since his tour around the world, which lasted five years.

Catholics Fear a Massacre

Washington, Aug. 3.—The war and navy departments have received cable dispatches through Cardinal Rampolla, the private secretary of the pope, expressing anxiety for the safety of the bishops and other clergy at Cavite.

The Vatican has received information to the effect that Aguinaldo and his forces have planned the massacre of the Catholics.

Immediately upon the receipt of the dispatches from Cardinal Rampolla the authorities sent cablegrams to General Merritt and Admiral Dewey to take every means to prevent Aguinaldo from harming the Catholics.

A Threatened Coal Strike.

Pittsburg, Aug. 3.—If the coal operators of the Pittsburg district do not conform to the terms of the Chicago agreement by August 10, five thousand miners will be ordered to strike. This is the decision of the convention of United Miners of this district now in session here, and a series of strikes is to be inaugurated in the Young district, the third pool.

A Sleeper Capsized.

Syracuse, Aug. 3.—As an engine of the Rome, Watertown and Ogdensburg Railroad was shifting cars from the Syracuse train to through train No. 7, from Utica, at Richland yesterday morning, the through sleeper from Syracuse to Clayton, mounted the rail and tipped over on its side.

Two passengers were severely injured.

A Royal Wedding.

Coburg, Aug. 3.—Duke Ernest Gunther of Schleswig-Holstein, brother of the empress of Germany, was married at the Court church here yesterday to Princess Dorothea Marie Henrietta Augustine Louise of Saxe-Coburg. The wedding breakfast took place in the throne room of the palace.

The Alabama Election.

Birmingham, Aug. 3.—Sixty out of 66 counties in the state have been heard from as to Monday's election, though the reports from none are as yet complete.

Reports from the partial returns received indicate a Democratic majority of between fifty and sixty thousand.

The Spaniards Are Quiet.

London, Aug. 3.—A dispatch to the Daily News from Gibraltar says that the cheapening of bread throughout Spain has restored comparative prosperity and the country is quiet.

THE TERMS OF PEACE

State Department Makes Public the Answer to Spain.

NO REPLY YET RECEIVED

Evacuation of Cuba, the Cession of Porto Rico and One of the Ladrones, and Occupation of Manila Pending Final Decision as to the Future of the Philippines. Status of the Negotiations.

Washington, August 3.—The following statement was given out at the state department late yesterday:

"In order to remove any misapprehension in regard to the negotiations as to peace between the United States and Spain. It is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador on Saturday last are in substance as follows:

"The president does not now put forward any claim for pecuniary indemnity, but requires the relinquishment of all claim of sovereignty over, or title to, the island of Cuba, as well as the immediate evacuation by Spain of the island; the cession to the United States and immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies; and the like cession of an island in the Ladrones. The United States will hold and occupy the city, bay and harbor of Manila, pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines.

"If these terms are accepted by Spain in their entirety, it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated."

As will be observed, the statement shows that the announcement of The administration plan in these dispatches last Wednesday afternoon was authentic. The only point of divergence is the inclusion in yesterday's statement of a proposal to retain possession of one island in the Ladrone group.

The Ladrone clause is inserted in the terms of peace as a sort of make weight. If Spain consents to all the rest of the terms and stands out on the Ladrone question, she can have this whole group of islands back intact for the asking.

As a matter of fact we have no use whatever for Guam or any other Ladrone island in its neighborhood. If we should establish a coaling station there we should probably pay a good round sum for the expense of stocking it up and supplying it with necessary defences, and then we should find that it lay too far off the track of any commerce now in progress, or any in which we are likely to engage. This is the prophecy made by men who have made a study of the Eastern question on its commercial as well as its military side and from the point of view of the United States, some of those who are most assured that we have no use for the Ladrones or any part of them are nevertheless strong advocates of our possessing and holding the Philippines, which shows that their view of the Ladrone question is not due to any prejudice against the imperialistic or colonial idea as a whole.

The supposition has been from the start that the Spanish government would stickle over the terms of peace when first presented, no matter how severe or how mild they might be. Under these circumstances it might be desirable to give Spanish pride a bridge on which to cross the abyss of total disaster. With the lack of geographical knowledge among the Spanish people, if the Madrid cabinet should say, "We have secured an important modification of the proposals as first presented, the Americans were glad to yield what we asked for the sake of making peace," it would help Madrid out of a bad place and it would not do Washington any hurt, and the Ladrone feature of the peace terms could be used for the purpose of conceding the "important modification," and affording Madrid a cue for harmless but perhaps necessary dramatics.

Spain Accepts

London, Aug. 3.—The Madrid correspondent of the Daily Mail says: "The government has accepted the principle of the American conditions, but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled, thus rounding off the preliminary basis."

The Gibraltar correspondent of the Daily News, telegraphing Monday evening, says: "The censorship is daily becoming more severe, and little is known beyond the fact that peace is assured. It is understood that the note from America asks only part of the Philippines, and that, Senor Sagasta having replied that the terms will be accepted, hostilities are consequently suspended.

President Has Not Received Acceptance

Washington, Aug. 3.—(Special.)—At 11.30 last night a member of the cabinet who had just left the president said that not a word had been received of the Spanish acceptance of the peace terms of the United States, which London announces is a fact.

The United States Will Settle.

Washington, Aug. 3.—It is understood to be the present intention of the administration to assume liability for all the indebted claims preferred by American citizens against Spain on account of injury to personal property in Cuba. Some part of this liability may be imposed upon the government of Cuba later on, when that shall have been established, and may include such cases as can be directly charged up against the insurgents, where they have destroyed the property of American citizens in the course of their operations.

Fatal Mine Explosion.

Wilkesbarre, Pa., Aug. 3.—Five men were badly burned by an explosion of mine gas in the Parrish colliery at Plymouth yesterday. It is not known what caused the explosion. D. J. Reese, one of the victims, is an ex-member of the Pennsylvania legislature.

MANY ILL AT SANTIAGO.

A Slight Decrease in the Figures. Sixteen Deaths Reported.

Washington, Aug. 3.—The detailed condition of the health of the army at Santiago, together with a list of the deaths on each day, is shown in the following telegrams from General Shafter:

Sanitary condition for July 29.—Total sick, 4,164; total cases of fever, 3,212; new cases of fever, 609; cases of fever returned to duty, 792; death list: Private P. D. Gearny, Company G, Sixteenth infantry, July 28, dysentery; on July 29, Principal Musician George Holderness, Thirty-fourth Michigan, yellow fever; Private Max H. Pausler, Company C, Thirty-third Michigan, yellow fever; Private William Brondt, Twenty-fourth United States infantry, yellow fever; Private Edward Benjamin, Company D, Thirty-third Michigan, dysentery; Private David McCafferty, Company E, Second United States infantry, pernicious malarial fever; Private Gustav Graem, Company L, Seventy-first New York, dengue; Sergeant William S. Young, Company E, Seventy-first New York, dengue; Private Rinaldo K. Sheed, Company H, Thirty-fourth Michigan, acute dysentery; Private W. J. Dolan, Company D, Thirty-fourth Michigan, malarial remittent fever.

Sanitary condition for July 30.—Total sick, 3,892; total cases of fever, 2,692; new cases of fever, 543; cases fever returned to duty, 815; deaths on July 30: Captain Charles Dodge, Twenty-fourth infantry, yellow fever; Private S. O. Johnson, Company F, Seventh United States infantry, asthenia, following yellow fever and diorrhoea; Major Patrick J. Grady, Ninth Massachusetts, functional disease of the heart; Private John F. Minnis, Company H, Second United States infantry, pernicious malarial fever; Private John H. Clease, Company E, Second United States infantry, pernicious malarial, fever; on July 29, Private Andrew Thorn, Company G, Ninth United States infantry, malarial fever and diarrhoea.

In another dispatch, dated Santiago to-day, General Shafter says that he has in the hospitals wounded and sick prisoners to-day, 2,181.

START FOR HONOLULU THURSDAY.

First Detachment of the 1st New York Will Leave on Two Transports.

San Francisco, Aug. 3.—It is now thought that the first detachment of New York troops and the battalion of engineers will sail for Honolulu on Thursday. Orders were to be issued today for them to embark to-morrow on the transports Lakme and Charles Nelson, preparatory to their departure on the following day.

Major Chase examined the steamships yesterday and expressed his satisfaction with them. The steamship North Fork, however, was relegated to duty as a freight carrier. The Alliance of Locke, Johnson & Co., left Seattle for San Francisco to-day, and will be placed at the disposition of the government for the transportation of troops to Honolulu. Even with this there will be 300 men unprovided for.

The contract made by Major General Otis on behalf of the government with Locke, Johnson & Co., provides a demurrage of $350 a day for delay caused by the United States, while making no provisions for tardiness on the part of the shipping firm. The Tacoma, a sailing vessel, will leave on Thursday for Manila with horses, mules and general supplies. The military authorities here are completely in the dark as to the Athenian and Tartar, which have been reported as purchased by the war department for the transportation of troops to the Philippines.

The North American Commercial Company is negotiating to charter some of its Alaska steamships, particularly the Leelenaw, which is due to arrive at any moment. She is capable of accommodating 1,500 troops.

GOLD COMING OUR WAY.

Total Imports for the Current Week Foot Up a Grand Total of $1,650,000.

New York, Aug. 3.—The gold movement, which began last week with an order by the Bank of British North America for $50,000 in gold for import, has set in. Since then the same bank has engaged $125,000 for shipment Saturday. It was announced yesterday that Lazard Freres have $150,000 on the Britannic, $300,000 on the Augusta Victoria, $325,000 on the Eutruria, and engaged for shipment during this week, $1,175,000, making a total of $1,950,000 by this firm. The total by both firms to date is $2,125,000. At the Bank of British North America it was learned that the amount might be increased before Saturday.

Solace Leaves Navy Yard.

New York, Aug. 3.—The hospital steamer Solace left the navy yard and passed the Battery yesterday, bound out. It is said she will go to Santiago first and the nto Porto Rico.

While she has been at the navy yard her ice capacity has been increased and electric fans have been added to the blowers already in use, to keep up a continuous circulation of air. Other improvements have been made to give comfort to the sick and wounded.

Reported Defeat of Cubans.

Madrid, Aug. 3.—An official dispatch from Havana says that four hundred insurgents recently attacked the Spanish detachment, numbering twenty men and commanded by a sergeant, near Huanes, in the western part of the province of Pinar del Rio. After a fearful fight, the dispatch says, the insurgents fled, having killed ten of the Spaniards and wounded a number of others. The survivors are to be decorated and recompensed.

The Attitude of Don Carlos.

London, Aug. 3.—A dispatch to the Daily Mail from Lucerne, says: "Count Melgar, the constant companion of Don Carlos, has telegraphed to a friend in Paris that Don Carlos orders his followers not to embarrass his country while she is in mourning."

More Immunes for Santiago.

Macon, Ga., Aug. 3.—Colonel P. H. Ray, commanding the Third regiment, United States volunteers (immunes), which has been organized here, has received orders to be prepared to move [illegible]

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

COMING EVENTS.

August 7—Private F. Keuhnle, of Company D, Seventy-first Regiment, N. Y. Volunteers, who was wounded at Santiago, will address the 4:15 p. m. meeting at the Y. M. C. A. Lemonade and fans.

The City Park.

Although there are, perhaps, many of our citizens who do not realize the fact, Plainfield has a city park. And furthermore, the city park is no longer the eyesore that caused so much unfavorable comment. The efforts of the Town Improvement Association have not been in vain. The park has assumed a neat and orderly appearance and there are already many who take advantage of the shady seats provided by the Town Improvement Association and rest there for a moment.

For nurses with their accompanying charges, the park has grown to be quite a resort. There has been plenty of criticism of the methods and practices of the association of the Plainfield women, but in that respect there cannot be ought but praise for their efforts in behalf of the park. It cannot all be done in a day, a week, or a month, for that matter, but the decided improvement that is now to be noticed should be a matter for general satisfaction on the part of every good Plainfielder.

Postmaster Bird.

Elias H. Bird has severed his connection with the city of Plainfield as one of its corps of public officials, and is now devoting all his energies to his duties as a servant of Uncle Sam in the office of postmaster of Plainfield. After considerable delay Mr. Bird's resignation, as city tax collector, was accepted Monday evening by the Common Council, and the city lost the services of a capable official. Since his first appearance in the tax collector's office, Postmaster Bird has made many friends. He conducted the business of that department in up-to-date fashion, and his books have now been audited and found correct in every detail. He leaves the office with the best wishes of those with whom he came in contact, and who were best qualified to judge of his faithfulness to his duties. The city has lost a good servant, but Uncle Sam has gained one.

The Nicaraguan Canal.

Among the questions which will press for immediate solution at the close of hostilities will be that of our great projected interoceanic waterway. Always important, it will have been made an exigency by the new conditions which will exist, whatever may be the detail of our settlement with Spain. The long journey of the Oregon at a time when her absence might have been a most serious matter brought the problem home with great vividness of instruction to the people of the United States. Our most thoughtful statesmen, our prominent merchants and our naval officers have pressed the matter in and out of season as a matter of theory. But now with our acquisition of the Hawaiian Islands and our certain extension of relations with eastern Asia, whether or not a political relation be one of them, theory becomes a condition. The American people will quickly respond to the lesson and public opinion will carry legislation with it.

The Nicaraguan canal will more than double our practical naval strength in the Atlantic and the Pacific through quickness of transit, and pari possu our army facilities should these be called on by future occasion. Over all the waters and islands of the great ocean to the shores of Asia it will vastly increase our influence. It will reduce the sailing distance between New York and the Hawaiian Islands more than one-half (about 8,000 miles). New York will be nearer Hongkong by 2,000 miles, nearer Yokohama by 1,000 miles and nearer the Philippines by about 3,000 miles than is Liverpool by the Suez canal now to any of these destinations. The engineering practicability of the canal is assured. Its margin of cost can be easily reckoned and will not be inordinate if honestly constructed, which the Suez canal was not. Beneficial to all the world, it has become of cardinal necessity to America in the immediate future. We look to see this great work promptly taken up and carried through to a successful issue at an early date after we shall have resumed peaceful relations with Spain. More than all other helps, it will aid in cementing and building up the results which Americans associate with the present controversy of arms.

LIONIZING HOBSON.

Since his return from Santiago Lieutenant Richmond P. Hobson, the hero of the Merrimac incident, has enjoyed an almost continuous ovation at the hands of his appreciative countrymen. The illustration shows Hobson as he was leaving the navy department at Washington.

If there had been no other reason for our intervention in Cuban affairs, the perpetual danger to our land from yellow fever would have been worth considering. For example, Cuban fever imported into New Orleans in 1878 cost the country the loss of many thousand lives and of $200,000,000. Havana and Santiago have been the two great hotbeds of this dreadful epidemic. Now that we have taken possession of one of these danger centers, the application of sanitary skill and experience may be looked for. The present condition of Santiago is an abomination. But there is good reason for supposing that what General Butler's stern energy and gumption did in New Orleans in 1863 can be duplicated in the Cuban city. If the problem is a more difficult one, sanitary science is vastly better equipped to meet it today. The situation of Santiago, surrounded by healthy and breezy hills, too, offers excellent opportunities for the treatment of fever patients under desirable hospital advantages. Our own sick soldiers are enjoying the benefit of the test. There is no reason why the yellow fever terror in Cuba cannot be so shorn of its threats as to cease to alarm the world. But to accomplish this will require the dominating force of American energy and knowledge imported into native shiftlessness. Spanish ignorance has kept the disease endemic for 200 years. But what English capacity and vigor did in Jamaica can be easily repeated.

"If these utterances," said Senator Hoar the other day, speaking of those who have decried the motives of our recent national policy, "came from an enthusiasm for a loftier ideal, from the desire to raise the country to a nobler or loftier plane, we might forgive them But the men who utter them have neither enthusiasm nor ideals. It is the doctrine of arrogance, of contempt, of pessimism, of bitterness, of despair." Perhaps the senator barbs his shaft too much, but it rings true on the white.

The latest amusement fad among the British aristocracy is that of driving small domestic creatures, such as cats, pigs, peacocks, hens and the like, to compete in a race for a prize. Each racer carries special colors, and the jockeys, from archbishops and peers down to plain M. P.'s, handle the reins with great zeal. The women share in the sport, and the result is the wildest fun and hilarity. After all, true dignity does not impeach itself in condescending to innocent folly.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

Jersey's amateur tars on the Badger were breaking their hearts as one chance after another of doing some real fighting passed them by, but according to the accounts from Key West they have at last been gratified. With only another auxiliary cruiser helping, they shelled the town of Nuevitas, and the Badger also captured three Spanish vessels.—New York Tribune.

* * * * * *

There are four valiant Republicans who want to be Sheriff of Somerset, and if the three who cannot reach the prize will retire gracefully and support the one there will be no doubt of the county giving the Republican candidate for Congress in the Third district a handsome majority. Those who are hustling for delegates to the county convention include Sanford Snyder, of Millstone; C. V. N. Suydam, of Middlebush; George Cooper, of Somerville, and P. V. VanDoren. The Democrats, or a faction of them, want Selah Schoonmaker to get into the muss against William Logan, the candidate of the Bryan organization. It is now only a question as to the candidate between these two. The question of his defeat already is settled in the minds of the Republicans.—New York Press.

NEW BOOKS AT LIBRARY.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 3.—A little friction was evidenced yesterday between the officers of the Brunswick Traction Company and those of the Plainfield Street Railway. Employes of the former company had already stretched their wires and were given orders to taken down the iron arms on the trolley poles just inside the Plainfield city line, presumably for the purpose of attaching the trolley wires together. For some reason Superintendent Adleman countermanded the order, but the order came too late. The arms were down. However, Mr. Adleman informed the boss electrician that the arms must be put back. The employe of the Brunswick company told Mr. Adleman that he would not put them back until he had received orders from his boss. Late yesterday afternoon the necessary orders arrived and the arms were put back to the satisfaction of the Plainfield officials. Just what this action means it is hard to tell.

Joseph Tunison, of Glen Gardner, an employe of the Central Railroad Company, has moved to the borough. He has now secured a position on a passenger train between here and Jersey City.

Mr. and Mrs Robert Giddes left yesterday for Lake Hopatcong, where they will remain until Saturday. From there they will go to Asbury Park for a week.

John B. Brown and Whitfield N. Brown, of Plainfield, were in town yesterday watching with interest the progress of the trolley.

Mr. Dickenson and family, of North avenue, will return from Dover about September 1st, where they have been spending the summer.

North avenue is now beginning to look like itself again. The work of macadamizing goes steadily on.

The members of the Ladies' Aid Society of the M. E. church are holding a meeting this afternoon.

Rev. M. Johnson, pastor of the Fillmore Baptist church, Plainfield, was a visitor in town yesterday.

The work of placing a switch in the trolley tracks opposite the railroad station was started today.

Mrs. Jane Dunham, of Church street, entertained company from Stelton yesterday.

Mrs. John Herbert, of Church street, has returned from a visit with New York friends.

Miss Ethel Jamison, of Church street, is visiting friends at Boonton.

Miss Mabel Jamison, of Church street, is sojourning at Asbury Park.

Arthur Giddes, of Staten Island, is visiting relatives in the borough.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 3.—Miss Edna Howell, of Chester, Pa., visited at the home of Prof. Titsworth and family yesterday.

Rev. A. G. Crofoot, of Jefferson Centre, Ohio, who has been visiting relatives in town, is now the guest of Mr. and Mrs. W. C. Rogers, of Plainfield.

Justice Storms, who has been on the sick list for some time, is much improved, and is able to attend to his duties.

Prof. Titsworth and family, of New Brunswick, are spending the summer in town.

'PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, Aug. 3—Mr. and Mrs. Thomas Walsh's home is brightened by a little girl.

Mr. and Mrs. Henry Phillips and Miss Garcia, all of North Plainfield, spent Sunday with Mr. and Mrs. T. M. Paff, Sr.

Arthur Chapin is entered in the two-mile handicap race to be held at Maltby's track Saturday.

Mr. and Mrs. William Hazel, of

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss Anna Voilin, of New York, is visiting Miss Etta Blatz, of Somerset street.

Laurens H. VanBuren, of Central avenue, left today to enjoy his annual vacation.

The Misses Hoagland, of Somerville, are visiting Mrs. E. A. Ross, of Prospect place.

Wm. Runyon, of South Orange, is visiting his brother, Isaac P. Runyon, of North avenue.

Jacob Jennings, the news agent, is back on duty again at the North Avenue station after a few days' illness.

Mrs. John Albert, of East Fourth street, who has been very ill, has had a relapse and her condition is critical.

Miss Addie Parker Jackson, of Arlington avenue, leaves this week for the Clifton House, Patchogue, L. I., where she will spend a few weeks.

Mrs. Anna E. Leggett and daughter, Margaret, of Madison avenue, left today for the Adirondack Mountains, where they will spend the month of August.

Miss Catharine Webster, of East Second street, started Monday for Santa Barbara, Cal., to spend a few months with her uncle, Hugh Vail. She went on the B. & O. road as far as Chicago.

Scott Foster, of New York, who is stopping at the home of D. N. Groendyke, of Mercer avenue, was one of the pall-bearers Monday morning at the funeral of Robert Maclay, who had served as president of the Board of Education of New York city.

Miss Minnie Wilson, daughter of Mayor Wilson, of "Tunlaw," accompanied by Judge and Mrs. Arnold, of Philadelphia, left this morning for Newport and Bar Harbor. They will remain at the above places during the month of August, and toward the latter part of the month they will go to the Thousand Islands, where they will remain until the middle of September.

Elizabeth, visited relatives in town Saturday and Sunday.

Charles Wade led the Epworth League meeting in the Methodist church Sunday.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 3—The Board of Education held their regular monthly meeting last evening at which County Superintendent D. B. Holmes spoke on the laws which have recently been passed relating to schools. Bills to the amount of $192.76 were approved and ordered paid. There will be 17 teachers in the two schools, instead of 16, as last year. It was moved to put a new roof on the Locust Grove School building at a cost of $55, and to enlarge the playgrounds at the Lincoln School at a cost of $100. Something out of the ordinary happened in regard to this playground. The committee on buildings and grounds offered a bid of $100 from one man, but said they expected a bid from another man who might do the work cheaper. This amused the newspaper men present, although the members of the committee didn't seem to think it funny that they should make one public offer before getting the other.

The Presbyterian and Baptist church Sunday-schools' excursion to Asbury Park Tuesday was a success in every way and the committee in charge are very glad to report that the sum of $300 was cleared.

A large number of the members of the local lodge of the Daughters of Liberty are at Boynton Beach today in attendance at the annual field day exercises of the State Lodge.

Mr. and Mrs. Lawrence Bastable left this morning for Belmar, N. J., where they have taken a cottage for the remainder of the summer.

The Baptist church of New York avenue has postponed their excursion until August 17th, when it will go to Boynton Beach.

Miss Lena Drover, of Trenton, is the guest of friends on Westfield avenue.

James O. Clark is enjoying a vacation of one month in New York State.

How's This.

Edward White.

START OF MAY IRWIN

TWENTY YEARS AGO SHE AND FLORA WERE REAL CHERRY SISTERS.

Penniless She Sought the Stage to Earn Her Bread—Pathetic and Laughable Incidents of the First Night at a Variety Theater.

Twenty-one years ago, when the Canadian train stopped at Rochester one bleak November night, a young woman, dressed in widow's mourning, left the car, followed by two little girls, also clad in black. The younger of the two children was a chubby little thing, and in her arms she jealously held a wretched little woolly mongrel dog. The widow asked a 'bus driver the name of a good but inexpensive hotel, and was conducted to the hostelry which he served. Being unused to hotel, or, indeed; to anything but the ways of a Canadian lumber village, she was made acquainted with a register and wrote her own name and her children's, as follows:

"Mrs. Thomas Campbell."

"Georgia Campbell.

"Ada Campbell."

Mrs. Campbell then summoned the landlord, who was rather upset by her first sentence, which was about like this: "I have just got $100 in the world. I am a widow. My husband's death has left me a beggar. My family want me to live on their charity, but we'd rather die."

MAY IRWIN.

"Yes, we would," echoed two small voices in chorus.

"I want you to tell me," continued the mother, "how to get theatre engagements for Georgia and Addy. They can both play on the piano, and they sing like angels. Please do help us."

The children, who were about 9 and 11 years of age, were deeply conscious of their pecuniary difficulties, and evidently bent on impressing the landlord.

"Mister," said the younger and chubbier, still holding tightly to her dog, "we can sing, honest we can. We can sing 'Genevieve,' and 'Under the Daisies,' and 'Oh, Ye Tears,' and 'Wings,' and lots of other things, and we'll be real good if you'll help us."

That settled it. The landlord bade his theatrical party go to bed, and said he would give them an introductory letter to the manager of a good show the next day. And he did. Georgia and Addy Campbell proved to be good singers. They were possessed of the gift of piano playing, but they were green with a verdancy which even a variety theatre manager in the town of Rochester twenty years ago dared not make a stage feature.

The little girls were myself and my sister Flora; the widow was my mother. Our family name is Campbell; it was then, and is now. How we came to be called Irwin I will relate later. Neither of us had ever been upon the stage in our lives, except in the exhibitions of the Canadian schoolhouse. We were little Cherry sisters of a type not fashionable in the '70s. After rehearsing for two weeks, while we looked forward each day to an opening night that was to make things brighter, and, while the hundred dollars was fast slipping away, and the mother striving to hide her anxiety from her little would-be wage-earners, an awful thing happened.

The Rochester manager flunked. He said he didn't care to try it, but he had gotten an opening for us in Buffalo, and if we succeeded there he would give us an engagement immediately afterward. How little there was of the hundred dollars left, how broken-hearted the mother, how plucky and resolute we tried to be, words do not entirely convey.

The Rochester manager sent us on our way with much good advice and a bottle of home-made pink dye for our white stockings, which were to be made gorgeous as flesh-colored silk by a mere dip. The hotel proprietor was very moderate in his bills, and said we would come back in triumph, little thinking that he was a prophet. We found ourselves one never-to-be forgotten night in hastily constructed and hideous costumes, furnished by the wardrobe woman of a Buffalo second-rate variety theatre, the butt of a group of men and women, old-timers of the serio-comic school. Our dresses were so short that the home-made and undorned pantalets fell far below our skirts, and the pink stockings were a ghastly failure. I stood in the green room, crouched behind a stove, tugging every moment at my abbreviated skirts, in the hope, born of despair, that they would lengthen by my efforts. Georgia sat upon a chair, frankly sobbing, with mother similarly occupied by her side.

To our surprise the Rochester manager wrote, sending a contract for mother to sign, and when we returned to that city we failed to recognize ourselves as the originals of the two little faces in gorgeous lithograph posters with which the town was billed, telling in startling type how "the little Irwin sisters," Flora and May, would astonish Rochester by their musical skill," etc. Without taking the trouble to consult us singly or collectively, the Rochester manager had baptized us Irwin—Flora and May—and from that day to this we have been known by no other name. Even mother is Mrs. Irwin.—May Irwin, in Chicago Inter-Ocean.

INVENTIVE WOMEN.

Some Useful and Unique Devices Discovered by the Fair Sex.

It is not generally supposed that many of the labor-saving inventions of the world may be credited to women. The Chinese Empress Tao, for example, worked out useful ideas in her busy brain. She invented the spinning of silk, never dreaming of the immense industry that would grow from her creation. A luxurious woman of Asia discovered the attar of roses, and this same woman, Mhearai Misi, invented the ingenious handicraft, the cashmere shawl. History is silent as to her end. The women who are kept from want by the making of pillow lace have reason to bless the name of Barbara Uttman, of Saxony. Wood engraving was discovered by the Cunio sisters, two Italian women, and it was the widow of General Nathaniel Greene, who made the suggestion of the cotton gin, which was perfected by Eli Whitney. The grandmother of Clara Louise Kellogg invented an attachment to the machinery in looms in mills, and another woman's genius worked out a device for deadening the noise of railway trains. A Miss Knight invented the paper bag, and at once people wondered why so simple a contrivance had never been thought of before.

Mme. De Long invented metal-cutting machinery, which has been used in France for some time. This machinery is worked by steam, and from the solid metal cuts out gates and other architectural work without casting. Mme. De Long has cut plates of brass a foot thick into lattice work at a single operation. She has also made picture frames, crests and lace pins, turning them out of the metal fully finished, every operation being performed by the steam-driven machinery. She first conceived the idea of her remarkable apparatus over 20 years since, when a paralysis of her right arm compelled her to give up her trade of jewel worker. She has received many medals from various Paris expositions. The first laureate crown ever offered to a woman has been bestowed upon Mme. De Long by the Society of French Architects in Paris. Mrs. Barton Parnell, who has worked for over 40 years in the Australian gold mines, has made fame and fortune for herself as an assayist. She discovered the secret of treating ore before roasting it so that as much gold as brown stone could be obtained from it. Mrs. Parnell intends to found a college in England for women, where they will be trained to be practical miners. It is stated that there are nearly 5,000,000 self-supporting women in the United States alone, and it is difficult to find a branch of trade in which they are not doing successful work.—New Orleans Picayune.

SENDS CUBA THE SINEWS OF WAR.

Palma Lost His Estate by Rebellion and is now Head of the Junta.

Thomas Estrada Palma, the head of the Cuban Junta in Americaa, has been a conspicuous figure in the affairs of Cuba since the last rebllion began. He was proclaimed president of the revolutionary party when the flame broke out three years ago. In 1877 Palma was chosen as president of the Cuban republic. He fought valiantly in the ten years 'war, and at the restoration of peace was offered pardon and a restoration of his fine Cuban estates if he would swear allegiance to Spain. The offer was rejected, and Palma became an exile, first to Honduras and then, in 1883, to the United

THOMAS ESTRADA PALMA.

States. He established in Orange County, New York, an institute for the teaching of languages and to this school hundreds of the children of wealthy Cubans were sent for their education. Senor Palma was born in Cuba, but he is a descendant of one of those ancient families of Castile, celebrated in the songs of the country. His father was a rich planter, at whose death Estrada was studying law in Seville. On his return to Cuba young Palma determined that he would do all in his power to strike the shackles from the Pearl of the Antilles, and he has kept his promise.

Hawthorne and d'Aubepine.

As a nom de plume for a great deal of his works Hawthorne assumed the French translation of his name. His stories in the Democratic Review of this time are attributed to M. d'Aubepine. Lowell says of him in his Concord address: "You would think me extravagant, I fear, if I said how highly I rate the genius of Hawthorne in the history of literature. At any rate, Hawthorne taught us one great and needful lesson, and that is that our own past was an ample storehouse for the brightest works of imgination and fancy."—Edward Everett Hale in Outlook.

First Combatant—"——! ——! ——! ——! etc.

Bystander—Why don't yer answer 'im back?

Second Combatant—'Ow can I? 'E's —d all the best words!—Punch.

CURRENT COMMENT.

The laws of health, as well as those of political economy, declare that convicts should not be kept in idleness. A few selfish men, who think they see danger to their industries from convict competition, say they should.

There was a great deal of human nature in those importers of jews-harps who, having contended that their wares should be classified as musical instruments, and not toys, were confronted by their own plea, made when toys paid a lower duty than musical instruments, that they should be rated as toys. Naturally they wished to get the benefit of the lower rate of duty in either case. But nobody with an ear for harmony would class the jewsharp as a musical instrument.

It is a pleasure to note that the hustling propensity of the Buckeye is not directed exclusively along political lines. Ohio was the first state to report troops ready for service under the call of the president, and hers were also the first volunteer troops to arrive at Chickamauga. Governor Bushnell evidently does not devote all his energies to the pleasant task of fighting Senator Hanna; he reserves an appreciable quantity for fighting Spain.

The "American Siberia" has a new chapter added, in the leasing of four hundred and thirty men, women and children prisoners at Albion, Florida, to the four contractors making the lowest bids for them. These convicts have been leased for a year, and for that time they are the actual property of the contractors, and may be subleased by them. They will work in the phosphate and turpentine camps and at road making. The condition of these camps whenever they have been investigated rivals the horrors that rend our souls when they are perpetrated by other nations in foreign lands.

An experiment made last summer on Staten Island demonstrated so well the feasibility of destroying mosquitoes by the use of oil, that it is to be repeated this year on a scale which is expected to keep a large section of the island completely free from the pests. If this can be done in one place, why not in another? It is a very simple and by no means a costly process. It is merely to cover the stagnant water in the affected locality with coal oil. Crude oil or waste stuff will do, the only requirement being that it shall form a scum on the surface of the pool, which will prevent the eggs of the mosquitoes, which are always laid in stagnant water, from hatching. The odor of the oil is not agreeable, but most persons would choose it in preference to the buzzing and biting of the insects; and, besides, in most cases, the water is at such a distance from dwellings that the odor would not reach them. What makes the scheme still more feasible is the fact that, unless carried by a strong breeze, mosquitoes seldom go more than a few hundred feet from the place where they were hatched, so that a merely local application of oil will give immunity to that locality, whether locations join in to make the work general or not. If Staten Island makes the plan successful on a large scale, it is probable that the New Jersey resorts will soon take it up. With its mosquitoes killed and its railroads rendered dustless by the same useful agent, New Jersey may yet become an earthly paradise.

No better time than the present, when Great Britain is showing so many signs of an amicable disposition toward this country, and when this country is likely to have so much need of its friendship, could be taken for a review of the differences between the two powers with a view to their complete adjustment. These differences are caused almost entirely by our relations with Canada. It happens that the time fixed by the Paris award for a revision of the sealing regulations expires this year, and an exellent opportunity is thus afforded for not only readjusting the very unsatisfactory condition of our relations with regard to the seals, but also a number of other matters in which our Government is at odds with that of Canada. Our government has already proposed that the subject of the seal fishery be taken up for revision, but the British government, while assenting to this proposition, suggests that the other matters in dispute be taken up and disposed of also. It is greatly to be wished that this may be done, and negotiations are now on foot looking to the convening of a joint commission to provide for adjusting everything, either by legislation or treaty, at as early a day as possible. There would probably be no difficulty in settling all the troubles in a manner satisfactory to both nations if we had only England to deal with, but Canada will exercise a great deal of influence in the matter, and she is disposed to make trouble. However, under the circumstances, the imperial government would probably be willing to exercise a salutary amount of prerogative upon Canada.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Der Abbruch des alten Landtags- und des Reichstagsgebäudes hat begonnen. Das Material wurde für die Summe von 10,900 Mark verkauft.—Dieser Tage war es hier so empfindlich kühl, daß man es in den Krankenhäusern für nothwendig befunden hat, die Zimmer, in denen schwer kranke Patienten untergebracht sind, zu heizen.—Nach 40jähriger Ehe in derselben Stunde gestorben sind hier der Kaufmann Hermann Brose und seine Gattin, 61 und 58 Jahre alt. Er starb an den Folgen einer schweren Darmoperation, und wenige Minuten später folgte ihm in den Tod die Gattin, die von einem Herzschlag getroffen worden war.—Ein Seesoldat zündete sich an dem Gitter der hiesigen Hedwigskirche eine Cigarre an, wegen welchen „Vergehens" er in Haft genommen wurde. In seiner Rocktasche wurde eine Nummer des „Vorwärts" gefunden.

Spandau. Zwei 12jährige Jungen, Otto Lehmann und Karl Leipoldt aus Berlin, wurden neulich Nachts in einem Hause am Markt hier schlafend angetroffen. Man übergab sie der Polizei, der sie erzählten, sie hätten beabsichtigt, nach Hamburg zu wandern, um sich als Schiffsjungen zu verdingen. Die Eltern haben die beiden Abenteurer nach Hause geholt.

Provinz Hannover.

Hannover. Auf der von der Hannover'schen Straßenbahn-Gesellschaft gebauten elektrischen Straßenbahn Hannover-Sehnde ist der Betrieb bereits eröffnet. Der regelmäßige Verkehr findet gegenwärtig von Hannover nach Sehnde und umgekehrt an Wochentagen 20 Mal, an Sonn- und Festtagen 40 Mal statt. Diese Strecke wird noch bis Haimar weitergeführt.

Celle. Unser ältester Verein, die „Bürger-Brüderschaft," feierte das Fest seines 250jährigen Bestehens. Der Verein, welcher zur Zeit circa 550 Mitglieder zählt und über 13,000 Mark Vermögen hat, ist im Sommer 1648 gegründet. Ein treues Zusammenhalten kennzeichnet die Brüderschaft. Selten tritt ein Mitglied aus. Ihre alljährliche Feier ist ein schönes Beispiel von Familienfeiern. Seit dem Vierteljahrtausend ihres Bestehens hat die „Brüderschaft" manches Gute gestiftet.

Provinz Hessen-Nassau.

Homburg. In einer der jüngsten Stadtverordnetensitzungen wurde der Vertrag mit dem Vorstande des hier zu errichtenden ersten deutschen Golfklubs genehmigt, der 1899 die Audenwiesen, auf denen im vergangenen Jahre das mittelrheinische Kreisturnfest stattfand, zu einem Spielplatz herrichten und dort auch ein größeres Klubhaus errichten will.

Schmalkalden. Der Kaiser bewilligte Brotterode 15,000 Mark Staatszuschuß behufs Verzinsung der Schuldenlast, zunächst auf drei Jahre.

Wiesbaden. Der kürzlich hier verstorbene Schriftsteller und Alterthumsforscher August Demmin hat seine werthvollen Sammlungen von Waffen und Gegenständen der Keramik der Stadt Wiesbaden, seine in der Kapellenstraße gelegene Villa mit großem Garten dem Deutschen Journalisten- und Schriftstellerverbande in Berlin und der Pensionsanstalt Deutscher Journalisten und Schriftsteller in München vermacht.

Provinz Pommern.

Groß-Wunneschin. Der Waldarbeiter Johann Mießling, welcher Abends, um Geld zu holen, nach Langböse gegangen war, wurde am nächsten Tage von seiner Frau im Walde todt aufgefunden. Ein Schlagfluß hatte ihn getödtet.

Kolberg. Der in der städtischen Verwaltung angestellte Bureauassistent Siebholz ist aus seinem Amte entlassen worden. Die Ursache hierzu war eine Veruntreuung, die derselbe als Rendant der großen Kolberger Sterbekasse sich hat zu Schulden kommen lassen. Diese ist dadurch um circa 2563 Mark geschädigt worden.

Provinz Posen.

Posen. Das hiesige Komite des achten Kongresses polnischer Aerzte und Naturforscher richtete in einem längeren Schreiben an den Minister des Inneren die Bitte, der Minister möge den Regierungspräsidenten v. Jagow und den Polizeipräsidenten v. Hellmann anweisen, von der beabsichtigten Ausweisung ausländischer Theilnehmer am Kongreß, der im September in Posen abgehalten werden sollte, abzusehen.

Inowrazlaw. Der erste Kassirer der Dampfmühle von Grabski, Wilkonski u. Co., Paulus, ist nach Unterschlagung von 30,000 Mark geflüchtet.

Provinz Ostpreußen.

Königsberg. In Folge der Unterschlagung amtlicher Gelder seitens des Regierungskassenboten Hellwig ist nach dessen Verhaftung das Zwangsverfahren über sein Vermögen eingeleitet worden. Hellwig hatte einen großen Theil der veruntreuten Gelder an Bekannte auf Darlehen ausgegeben. Die Schuldner des Hellwig sind aufgefordert worden, die entliehenen Beträge sofort an die Behörde einzuliefern.

THE YUKON MOSQUITO.

Drives Moose, Deer and Caribou to the Snow Line and Stings Bears Blind.

Not only do the Yukon mosquitoes attack men and overwhelm them, but they drive the moose, deer and caribou up the mountains to the snow line where these animals would prefer not to be in berry time. They kill dogs and even the big, brown bear, that is often miscalled the grizzly, has succumbed to them. Bears come down to the river from the hillside in the early fall to get some of the salmon that are often thrown upon the banks when the "run" is heavy.

If bruin runs foul of a swarm of mosquitoes and has not his wits about him his day has come. The insects will alight all over him. His fur protects his body, but his eyes, ears and nose will soon be swollen up and bleeding, and unless he gets into a river or a strong wind he will be driven mad and blind, to wander about hopelessly until he starves to death.

Although the Alaska summer is short, two broods of mosquitoes hatch out each year, and are ready for business from one to ten seconds after they leave the water. It rains a good deal along the Yukon, and rain is welcomed for it drives the mosquitoes to cover. They hide under leaves and branches until the shower is over; then they come out boiling with rage at the time they have been forced to spend in idleness, and the miner has a harder time than ever after his respite.

Mosquitoes and snowflakes are not contemporaries in the states, but in Alaska it is different. Snow does not bother them so much as rain, and an early snow may fall while they are still on the wing. Fog does not choke them either. They appear to like it. They float about in it as in ambush and take the unwary prospector by surprise.—Denver Times.

CUSTOMS MAY CHANGE.

The Typewriter Has a Chance of Becoming the Style for Social Notes.

Until very recently the typewriter has been put solely to business and professional uses and has never invaded the social field. To write a personal letter on a typewriter has been considered an evidence of ignorance of good manners. But all this may be changed. At an rate some English notables have been amusing themselves with typewriters, and the result may be that social notes, invitations etc., will hereafter be printed by means of the time-saving writing machine. The young Duchess of Marlborough is among those ladies who are using the typewriter. Former Empress Eugenie on account of failing eyesight, adopted it some time ago, and Queen Victoria can and does write very neatly on a typewriter occasionally; consequently the writing machine has earned a distinct social value in England. The one the Duchess of Marlborough uses is an American make, mounted on a charming little inlaid desk and very sumptuously trimmed with gold and red enamel wherever such decoration is possible. The paper her little grace uses in the machine is sent her from the quality used for single copy work, but in the centre at the top of every sheet is stamped a black ducal coronet, with the letters "C. M." in gilt beneath.—

"You look scared, Lieutenant!" said a coarse-grained fellow in the ranks to an intelligent young officer as the regiment was ordered to charge. "I am scared," was the answer, "and if you were half as scared as I am you would be on the run five miles in the rear."

A BIG PURCHASE.

HOW DUPONT SUPPLIED THE POWDER FOR THE CIVIL WAR.

As "Mr. Jones" the Great Powder-Maker Bought All the Saltpetre There was in England and Charged the Government Nothing for His Services.

On the banks of the Brandywine, in Delaware, are the great Dupont Powder Mills. Established in 1802 by the French Royalist, Eleuthere T. Dupont de Nemours, who found republican France an uncongenial home, they have grown to be the greatest mills in the world for the making of explosives. At the time of the civil war the Duponts were, as they are to-day, powder makers for the United States government. In 1861 the secretary of war sent for the Duponts, and La Motte Dupont, one of the heads of the firm, went to Washington in reply to the summons.

"Are you prepared to furnish a very large amount of gunpowder?" asked the secretary of war.

"That depends on our obtaining saltpetre," was the answer. "The saltpetre of the world is mined in India, of course, under the control of the British government and the markets are in London and Liverpool."

The secretary of war was startled. If England should prove unfriendly during the course of the war which was opening, the saltpetre market would, of course, be closed to the United States.

"The government must buy a large amount at once," he said.

"Excuse me," said Mr. Dupont, "the United States cannot go into the market and buy saltpetre at any reasonable price--indeed, it might not be able to buy it at all, but the Duponts can get it without exciting comment."

"Will you go to England and buy it--buy all there is?"

Mr. Dupont agreed to go, and he and the secretary of war talked a few moments longer; they made a few figures and the powder man was provided with letters of credit on the Rothschilds.

On the next steamer he sailed for England and presented himself with letters of introduction to the Rothschilds.

"Very sorry, Mr. Dupont, your letters of credit have not arrived," and he was politely bowed out.

He next presented letters of introduction to Baring Brothers, the London correspondents of the Duponts. One of the firm, a Mr. Archibald, cordially received the powder manufacturer.

"Very happy to meet you, Mr. Dupont. We have never had the pleasure of meeting a Dupont, although we have done business with the firm for fifty years."

"I am very glad to meet you," said the American, "for I am in need of money."

"We shall be most happy to furnish you with all that you require. About how much will you need?"

Mr. Dupont looked meditatively at the floor for a moment, and Mr. Archibald looked with some curiosity at his American customer. A homely man was this powder maker; high cheek bones, a square chin, covered with a thin, uneven bristly beard, spectacles on his deep, kind eyes; a man who somewhat resembled Lincoln in the character of his face. Mr. Archibald thought he might want several hundred pounds. This American had perhaps found London a little more expensive than in his western simplicity he had supposed. Mr. Dupont, looking up, said:

"I shall want 500,000 pounds, and I want it right away."

Mr. Archibald was amazed. Only his British phlegm prevented him exhibiting his astonishment. Was this American a new Monte Cristo!

"By right away, do you mean now?" he managed to ask.

"I mean in twenty-four hours; that is what we call 'right away' in the United States."

"You will pardon me if I consult my partners--it is a good deal of money."

Mr. Dupont admitted that it was a good deal of money and he took his hat.

"By the way, when you send word to my hotel, ask for 'Mr. Jones.' I am registered under that name."

Before he was out of bed the next morning Mr. Archibald called. The Barings would let Mr. Dupont have the money.

Mr. Dupont now had money to burn (this is not altogether slang) and he set out to buy saltpetre. He proposed to buy only the large lots, but to buy them all. He went first to Liverpool, and found the saltpetre in the hands of four dealers. He was a "Mr. Jones," who wanted some saltpetre.

He bought the stock of all the dealers and each man hugged himself with delight because he had sold his saltpetre, until he discovered that there was none in the market, and the price had advanced; therefore, the balance of his days, he cursed the tricky Yankee.

This great supply of saltpetre bought the next thing was to hire ships to carry it to America. He found American vessels in Liverpool which would undertake to transport it, a matter of some risk, for saltpetre was contraband of war.

The loading began; everything moved slowly. Mr. Dupont was exasperated at the tedious delays, for all the means of transportation moved deliberately in England. At last the vessels were ready and he informed the harbor master that the ships would sail at high tide that evening. The harbor master found it impossible to have the papers ready--it would take two or three days. There was red tape here and red tape there. Mr. Dupont was now in a fever of impatience. Every hour increased the danger of the government finding out that all the saltpetre in England was about to go over the sea; another day's delay and the ships might not sail at all. He pressed the harbor master for the clearance papers. The polite official explained that it would cost him his position if it was known that he had violated the rules.

"And how much is your position worth?"

"Three hundred pounds a year."

Mr. Dupont looked at the harbor master attentively; he was a man of over sixty years. Then he put his hands in his pockets and looked out the office window, which bristled with masts of all nations. Now Mr. Dupont knew his Dumas well, and at that moment he was turning over in his mind the method the Count of Monte Cristo used to rid a garden of dormice which ate his peaches.

"I should like to draw a check for three thousand pounds in exchange for the papers," he said. The ships sailed on the next tide.

When Mr. Dupont reported to the secretary of war there was a love feast in the office of the war department. After the congratulations were over the secretary said:

"How much do we owe you, Mr. Dupont?"

The powder maker named the amount of his expenses, to which he added $15,000 to the harbor master.

"But what charge do you make for your services in the negotiation?"

Then this Franco-American, who might have demanded a princely sum for his extraordinary services, bowed to the secretary and replied:

"I have had the distinguished honor of helping the government; I wish nothing further."

There is a sequel to this story. When the war was over, Mr. Dupont, realizing the tremendous risk run by the government in relying upon native saltpetre, set himself to inventing an artificial substitute, and hereafter, with mountains of nitrate of soda in China and potash everywhere, the United States will never be in such straits again.

In 1884 this distinguished powder maker fell a victim to his enthusiasm for his business and while experimenting with high explosives, was killed in an explosion.--New York Tribune.

HARDTACK BETTER THAN BREAD.

Army Food Which Improves Upon Close Acquaintance.

"One of the queerest things about new troops is the prejudice against army crackers," said the major, as he recalled some happenings of the civil war, "but they all get over it in time, and come to understand that the soldier's stomach has no standby like hardtack. Our company had this tenderfoot notion that fresh or dry bread is better than crackers for soldiers on for march. On one occasion we loaded up with bread to last for three days. The second day most of it was sour, and the third day it was worse. Before we returned to camp we were crazy for crackers, and we never went back on them after that.

"We learned to appreciate hardtack in the forced march from southern Tennessee to Louisville in 1862. Regular rations ran out and flour was issued instead of crackers. This didn't seem objectionable at first, but when we had to march all day and got our rations of flour at midnight, with orders to move at 3 a. m., the heavy swearers came into action. There was no time to cook even flapjacks or sinkers, and if you attempted to carry flour in the rain you came out at night with a bag of paste. A cast iron stomach could not stand such messes as the soldiers made of the flour. They made dough and baked or half baked it in ashes or on dirty hot stones, and ate so-called biscuits, with the soft, unbaked centers burning lips and throats, and, after they were swallowed, lying like lumps of lead in not overstrong stomachs. The whole division cheered like wild men when we struck the cracker line at West Point, on the Ohio."—Chicago Inter-Ocean.

After Long Years.

"Do you remember," said Miss Ancient Oldgirl to Col. Crabtree, "how when you were a young man you proposed to me and I rejected you?"

"It is one of the happiest recollections of my life," said the Colonel with an air of gallantry. And Miss Oldgirl is still wondering.—Puck.

THE SONG OF THE BULLET.

I peacefully slumbered a thousand years,
A thousand years and more.
The centuries, with noiseless tread,
Marched past my chamber door.
And grasses grew and flowers bloomed
At my threshold, year by year.
At peace with God and man were we
And nothing knew of fear.

A rude awakening came one day,
One day in the long ago,
When the awful fire of hate had set
The heart of man aglow.
Then was I made a messenger
Of misery and death,
Woe was in my cursed voice,
And evil in my breath.

Over the land and over the sea,
A frantic thing, I fly.
Courageous men grow faint with fear,
When they hear my vengeful cry,
And women list, with anguished hearts,
To the dreadful song I sing:
For tidings of death and ravished love
To their tortured ears I bring.

—Thomas Holmes.

The Tiger—I've been chasing a missionary for ten miles. Have you seen anything of him?

The Lion—He just stepped inside.

WASHINGTON NOTES.

Special Correspondence

Major Joseph W. Wham, paymaster in the United States army, has been under a strange and distressing sentence since 1894, when President Cleveland, in mitigating a sentence of dismissal, decided that Major Wham should be suspended from duty until 1904 at half pay. Recently Major Wham's friends brought forward a bill to restore him to duty, which could only be done by setting aside the court martial finding. The bill was passed by the House, having been recommended by Secretary Alger, who had examined the history of the case and concluded that the man had been too severely punished. The House took that view of the case, for it seems from the accounts of it in the report which was made to Congress that Wham's army record was good from the time he was a private soldier during the rebellion; that he had since that time distinguished himself for soldierly qualities, and that the transaction for which he was court martialed was one with a private citizen involving the question of the payment of a note of $1,000. Wham neglected to make the proper defence in the case brought against him for payment of the $1,000, and he was very vigorously prosecuted as soon as he ventured to become a candidate for paymaster general of the army. During the debate this was alluded to, and there was also some rather vague criticism of the composition of the court martial. Some members of the House objected to paying Major Wham his full salary for the years he had not served, but Mr. Ray of New York very quickly suggested that if he had been improperly or wrongfully sentenced, the government ought to pay him, in justice, as the restoration to the pay roll was an admission that he should never have been taken from it.

Gen. Henderson's Kindness.

General Henderson, "Dave" Henderson, as his intimates call him, who has represented the Third Iowa district since the Forty-eighth Congress, is one of the best liked and most popular men in Congress. He is said to have been absolutely fearless and brave in action, during his service in the civil war, yet his heart is as tender as a woman's, and men who fought under him tell stories of his kindness and sympathy for his boys who were wounded.

One poor fellow in his command was shot through the lungs when loading his gun, and fell to the ground shrieking and cursing with pain. The wound was, of course, mortal, the service of the surgeon of no avail, so the chaplain was brought to comfort and prepare him for death. When General Henderson arrived on the scene he found the dying soldier still shrieking and cursing and the chaplain busy with his prayers, exhorting the poor victim to stop cursing and prepare for death, saying that he might be damned if he went into the presence of his maker blaspheming. The chaplain's ministrations were as perfunctory as possible, and waving him aside, General Henderson sat down by the side of the dying man.

"You are a hero, my brave fellow," he said, laying his strong hand upon the poor writhing form, "just as great a hero as though you died at the front by the enemy's bullets. You have given your life for your country, man, nobly given it, and your country will be grateful. Let that console you. Grit your teeth and die like a brave soldier, like the hero that you are."

"Is that true, colonel? Is that true?" gasped the dying man. "Am I dying for my country? God bless you for those words of comfort. God bless you and thank you, sir," and smiling peacefully the poor fellow lay back on his pillow and the few moments left him were passed in contentment.

New Post Offices.

The postoffice department always reflects, in its list of new postoffices some of the popular feeling. Occasionally it reflects something else, but when heroes are being made the postoffice department finds it out. Since the recent war broke out there has been a distinct tendency to prove this. Immediately after the capture of Manila the naming of postoffices for Dewey began, and it is still going on. A new one pops out every day or two. Immediately after the destruction of the fleet of Cervera a postoffice with the name of Schley was established. None of the land forces have won postoffice names as yet. Hanna is selected now and then for a new postoffice. A new office in Oklahoma is named for Alger. Secretary Bliss has not yet begun to name postoffices, the number of offices by that name being ten, or just the same as on March 4, 1897. A few offices were named for the late postmaster general, Mr. Gary, but the demand for that name seems to have expired with the retirement of that gentleman from office.

SENATOR.

Shipping Bees in Ice.

It is not generally known that a great many insects can live for weeks in a state of suspended animation under the influence of cold, and yet revive if slowly thawed out. This fact has been taken advantage of lately in the shipping of bees. Different varieties of bees are often sent from England to her colonies, but cost heavily to send alive with plenty of food. Now they are frozen, packed quite firmly in a very small box, and thawed out on their arrival. A number of bumble bees have recently been shipped to New Zealand in this manner, where they are found most useful in fertilizing the red clover that has lately been introduced into that colony.

"Didn't your absconding cashier leave you any message?"

"Yes; he left a line in the cashbox transferring to me his paid-up membership in a Don't Worry club."—Chicago Record.

ATHLETES' NEW HOME

SOME OF THE DETAILS OF ITS PECULIAR CONSTRUCTION.

One of the Most Costly and Beautiful Club Houses in the World—Over a Million Dollars Required to Complete and Furnish It.

At Fifty-ninth street and Sixth avenue, New York City, there is being dedicated one of the most costly and beautiful club houses in the world—the new home of the New York Athletic Club. It has been the aim of this club, one of the wealthiest in the world, to make the building an ideal home for club men; and its promoters are satisfied that in all that goes to make a beautiful and comfortable stopping-place for men of athletic turn of minds and plethoric pocketbooks, this house has not its equal anywhere. A brief description of its most salient points of interest will indicate with what success the something over one million dollars, the sum required to complete and furnish the house, has

BARTOW S. WEEKS, CHAIRMAN.

been expended in order to provide our wealthy club men with luxurious quarters for their physical and mental entertainment.

The building is eight stories in height, with a frontage on Central Park of 120 feet, by 100 feet on Sixth avenue, and has a depth of 200 feet with a front on Fifty-eight street 200 feet wide. The top of the cornice is 140 feet above the sidewalk. The first story is of light red-stone, with little ornamentation, except over the main entrance, where the carving of the panels is elaborate. The terra cotta work is of a warm buff color, richly ornamented; and the thin Pompeian brick have a Salmon tone, with black mottlings. The roof is of red Spanish tiles. The coloring of the outside is in harmonious contrast with the green of the park and the cold brown of the adjacent buildings.

Of course the principal room in a structure of this nature is the gymnasium. It is situated on the fourth floor, and occupies the entire park front. Its immense floor space of 116 feet long by 58 feet wide, is free from all obstruction, save two pillars on the west side. Opening off the gymnasium are a boxing room, a wrestling room, a director's room, offices, etc. A movable stage has been provided, so that the gymnasium can be utilized in giving exhibitions. The gallery, which is really on the fifth floor, contains a running track, sixteen laps to the mile and seven feet wide. Near this track are located the fencing, measuring and lounging rooms. The distance from the floor of the gymnasium to its ceiling is 30 feet.

One of the most interesting rooms in the house is the main lounging and smoking room, situated in the center of the second floor and occupying 38 by 48 feet of space. The room is decorated with club trophies, pictures, weapons, relics and various implements of the sport and the chase. This is the appropriate place for sportsmen to come together to recount past adventures and triumphs and to meditate upon these yet to come.

The main entrance hall is 38 feet wide and extends through the center of the building. Mosaic tilings and fancy marbles furnish the decorations. The library is entered from this hall, and is rendered as quiet and excluded as possible. On this floor are situated a reception room, offices, telephone rooms and a serving room. The Fifty-eight street entrance has a runway for bicycles, with accommodations for 75 wheels, and an ample repair shop and cleaning room. This entrance opens into a large reception hall 40 by 18 feet.

A commodious Turkish bath, with separate plunge, is located in the basement. In order to do away with the annoyance of heat, etc., all the hot water and steam rooms have been placed under the sidewalk of Fifty-ninth street. Here also are located a special shower-room, linen, slab, massage, chiropodist, sleeping and attendants rooms; and the natatorium which is 25 by 75 feet, and finished in white marble. Above the natatorium is a promenade gallery, which can be entered from the main hall, and between this gallery and the level of the tank runs an intermediate gallery.

The boilers, engines, dynamos, storerooms and an ice-making plant have been placed in the sub-basement.

Twenty-seven large sleeping rooms and ten handsome parlors occupy the third floor. Locker, shower and massage rooms, together with the instructors' rooms are on the sixth floor. Here also are the billiard room, with thirteen tables, a spacious parlor, where the art exhibitions will be held and the Board of Governors' room, cafe and chess room. The main dining hall, 116 feet long by 40 feet wide, is situated on the seventh floor, and faces Central Park. There is also a breakfast and supper room on this floor.

NEW YORK LETTER.

Special Correspondence.

When President King of the Merchants' Association told Mayor Van Wyck that there were 40,000,000 persons in the United States who had never seen the city of New York and had an unfavorable opinion of it, the mayor asked why. Mr. King replied that they think it is a corrupt city. The mayor then laid the blame on the metropolitan newspapers, which, he said, publish all the bad things that are done here, and do not afterwards take the trouble to correct the false impression created. But even Mayor Van Wyck can take no exception to the way the New York newspapers are supporting the work of the Merchants' Association. This is an organization for the purpose of advertising the city of New York in order to attract visitors and increase trade. It is doing its work well and the newspapers are giving it the most loyal support, realizing the fact that if New York is to retain its commercial supremacy, it must ever be vigilant and meet the competition of other and no less enterprising cities. At a time when war is making a news sensation every day, the papers here are devoting columns to this association. One of the results of their active co-operation is the fact that Mayor Van Wyck himself has woke up to the importance of the movement, and has assured a delegation representing the association, of his lively interest in, and sympathy with, its work, and of his desire to co-operate in every way he could.

Watching Cyclers.

A growing Sunday amusement in this city is to line up along the Boulevard and see the bicyclists go by. Fashionably dressed men and women stand in groups or stroll along separately or in pairs, while hundreds of cyclists and cyclistes glide by, forming an ever-changing, particolored panorama of human nature of every possible phase. For the most part the crowd is respectful and attentive, and only gives vent to its emotions with half suppressed "Ahs!" and "Ohs!" as some particularly fantastic costume on a slight female figure flashes past. And the ancient stout gentleman, who sits erect in his gray suit, the small boy who rides with his body horizontal, and imagines he is a "scorcher," the tandem lovers, and the bronzed and alert policeman, all receive proper attention. We doubt whether Rotten Row or the Bois is ever graced with such earnest spectators and such varied dramatis personae to look upon. And so Sunday after Sunday the crowd lines up with unfailing regularity for its bicycle matinee.

The Martins to Live in England.

The Bradley Martins, having lived so much abroad, now announce this condition permanent, and have therefore bought a magnificent house in London. Well, their money may be missed, but not its owners. It is surprising to see the humble origin of these worshipers of foreign style. Bradley Martin is the son of an old fashioned Albany cashier, while his wife is the daughter of an equally old fashioned lumber dealer, who, by economy and industry, became a multi-millionaire. How these old fashioned capitalists would have been shocked could they have known that their hard earned wealth would be spent in a foreign land! It now appears that the grand costume ball that the Bradley Martins gave last year at the Waldorf-Astoria was intended as a social farewell, but perhaps the country can get on without them.

600 Typewriters in One Company.

The constant increase in typewriting is one of the features of the present day, and the Metropolitan Life Insurance Company has 600 machines in service. Typewriters, however, are increasing in numbers far too rapidly, and it is estimated that nearly one thousand are now out of employment in this city. Stenography generally accompanies typewriting and brings increase of pay. Chauncey M. Depew and other leading business men never travel without a private secretary possessing both of these equipments, and the pay under such conditions is generally $25 per week, but ordinarily typewriters do well to earn one-half or even one-third of this rate.

Elbridge T. Gerry Didn't Sell.

Among those who did not rush at the top of their speed to sell their steam yachts to the government when the present war broke out was Elbridge T. Gerry, formerly Commodore of the New York Yacht Club. Mr. Gerry owns the handsome and comfortable steam yacht Electra, which is one of the most satisfactory craft of her kind ever launched. She may be seen in the afternoon lying off the New York Yacht Club anchorage at the foot of East Twenty-sixth street. That is to say, she is there when she is not at Newport. It is hardly likely that the war alarm will prevent Mr. Gerry from making his customary summer cruises. He seldom goes further from New York than Bar Harbor, and in spite of all reports it seems highly improbable that the Spanish warships will interfere with him.

The Elevated Operates the Bridge.

The Brooklyn Bridge Railroad will no longer be operated by the city of New York. Under a contract entered into by Bridge Commissioner Shea and the receiver of the Brooklyn Elevated railroad, and ratified by the supreme court, the Brooklyn Elevated has taken possession of the bridge railroad and will operate it, paying $20,000 a year for track privileges and ten cents a car toll. The city will be relieved of the heavy expense of operating the railroad and it is hoped that a deficit in the finances of the bridge will be avoided.

CYRUS THORP.

The Maid—"Miss Ethel is not in, sir, but I'll tell her you called."

Algy—"Aw—thanks. Tell her right away, please, so you won't forget it."

FARMERS GATHER.

Annual Picnic Held at Duke's Stock Farm, Raritan, Today.

(Special to The Daily Press.)

Raritan, N. J., August 3.—Duke's stock farm, just outside the village, is the scene of a concourse of farmers from all over Somerset and Middlesex counties, the occasion being the annual farmers' picnic. The day will be passed in a social way with speeches, and dinner will be served on the lawn.

—Press want ads bring results.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

With the opening of the month of August, Plainfield sees another lawyer start in his profession in this city. Councilman William N. Runyon Monday actively entered into his duties as partner with his father, ex-Judge Nelson Runyon. Councilman Runyon is by no means new in the profession, having already practiced in New York for several years. His location in this city bears a significance that has already been noticed by many. It means a more active part in city affairs and local politics on the part of the young Councilman. The rise of Councilman Runyon in city affairs has been rapid. He has been a hard worker in the Republican party, and has bent all his energies in whatever course he has chosen. His candidacy for Councilman was opposed by some on the ground that he was too young for such an important office, but he has so far shown his ability to fill the place with credit. There isn't any doubt but that Will Runyon is a rising young man and that he bids fair to become a leader of his party in county and State politics as well as those of the city.

At present, however, it is said that the young Councilman is after his party nomination for the office of City Judge, the term of the present incumbent expiring this year. As it is necessary for a candidate to practice law in this city, Councilman Runyon's location here is pointed out as a proof of his candidacy for the City Judgeship.

* * * *

There has been a quiet laugh going the rounds in Fanwood at the expense of one of its residents, well known there and in this city. When he moved to Fanwood from Scotch Plains he kept up his membership in the Excelsior Fire Company of Scotch Plains. Now some weeks ago, a new bell was purchased for the Episcopal church, which lies between Scotch Plains and Fanwood. The bell was placed in the belfry unbeknowns except to a few.

One Sunday morning the bell began to ring. The Fanwoodite heard it and it sounded exactly like that in the tower of the Excelsior house. "Fire" he yelled, and grabbing his trumpet, donning the heavy fire-helmet, he jumped on his wheel and away he went. The morning was a hot one but he scorched along past the residents of the borough who were quietly going to church. It was not until he had almost reached the Episcopal church that he discovered his mistake. Then there was an angry man even if it was Sunday morning.

The same bell fooled another fireman in Scotch Plains, a trustee in one of the churches there. He thought it the fire bell in Fanwood and rushed in that direction until he located the sound in the Episcopal church belfry. Now he wants them to get a new bell and not ring the old one for he says that one run of that kind is all that is good for him.

Said He Stole Shears.

Wm. VanMangues, a German, living in this city, and recently employed by George Bremmer, the Somerset street tailor, was arrested this morning by Constable Pangborn on a complaint made by Mr. Bremmer. The complainant charges that the defendant stole a pair of shears and some tools from his shop. The case will be given a hearing this afternoon at 4 o'clock before Justice Thomas.

E. L. Bonny, of Mercer avenue, is spending his vacation in the Adirondacks.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Mabel and Lulu, the Nichols Sisters, who are a star feature with J. H. Haverly's American European Minstrel Company, season 1898-99, burst upon the amusement firmament of the metropolis of Greater New York with a bound. Only a few of the imitators of the southern Negro are women, because women do not like to blacken their faces. It's all very well to get to the centre of the stage, but if it can't be done with her own complexion conventionally reinforced, the usual songstress will "rest" rather than work. But the Nichols Sisters paint their faces coal black to match their stockings and gloves. They begin with "Get Your Money's Worth," which has been sung for months by black Negroes and pink soubrettes, but never with such acceptable exag-

geration of pronunciation and mannerisms. From start to finish "r" gives way to "uh," and in a quarrel they threaten and jostle in ways that are comically artistic and in contrast with those of careless delineators. In the refrain of an ultra-tender love ballad, entitled "She's My Wahm Baby," one woman throws her head back, bares every tooth, and bellows ecstatically. The other sticks more musically to the air, but her feet are in lively motion, and at the climax the ardor of both finds vent in a cake walk. The lovers of minstrelsy will Thursday evening, August 4th, at Stillman Music Hall, have an opportunity of seeing the very best company Mr. Haverly has ever had.

* * * * *

There is not an American deserving of the name but who is intensely interested in the great naval manœuvres that have been in progress during the last two months about Cuba, Porto Rico and the Phillippines. The privilege of witnessing them is given only to the contestants and a few newspaper men and experts who are closely following every movements of the ships of the United States and Spain. Imre Kiralfy, the originator and designer of so many forms of entertainment for the people of both continents, is now preparing to bring to the very feet of the American people a faithful representation of all the happenings. Opening next Monday evening, there will be produced at Madison Square Garden, New York, an original American Naval Show. The magnitude of the undertaking can hardly be appreciated. A mammoth lake has been made in the Garden and every detail of the recent naval conflicts at Manila, Santiago and the rest will truthfully be portrayed by miniature fleets, manœuvred and directed by ingenious mechanism. It will be one of the most remarkable spectacles ever presented in the nineteenth century and which many Plainfielders will be privileged to witness. George Wotherspoon, formerly of this city, a young man of considerable push and energy, is the press agent of this coming exhibition and is making a very satisfactory showing in his department.

* * * * *

The box office of Music Hall will be open until 9 o'clock tonight to accommodate purchasers of reserved seats for Haverly's Minstrels performance tomorrow night.

MANY GO TO CAMP MEETING.

The Services Continued Last Night With Great Success.

The clear skies, the full moon and the cool temperature tempted many out to the grand camp meeting in the grove at Netherwood last night. As a result, the largest attendance of the week was present. Rev. A. J. Johnston, pastor of the Fillmore Avenue Baptist church, delivered an interesting discourse and pleaded hard with his hearers to follow the right path. While many of the visitors occupied seats in the open-air auditorium, there were many who drove there and sat around the grove in their carriages. The singing was led by Prof. Downs.

Rev. Dr. Carpenter, an eloquent colored speaker from Brooklyn, will address the meeting tonight. Tomorrow night will see the great meeting of the week. It is given to the Christian Endeavorers of the county, particularly. There will be prominent speakers and the famous "Jubilee Singers."

THE CITY'S HEALTH.

Board Transacts Routine Business at Regular Meeting Last Night.

The regular monthly meeting of the Board of Health was held last night. Only routine business was transacted. The report of Health Inspector Addis is given below. Number of contagious diseases under quarantine last report, 1; number of cases reported during month, 7; total number cases, 8; number of cases relieved from quarantine during the month, 1; total number of cases still under quarantine, 7; number of visits to houses with contagious diseases, 67; number of inspections on complaint, 14; number of inspections of water test of soil pipe, 19; number of inspections of sewer connections, 32; number of inspections house connections to cesspools, 4; number of inspections of completed plumbing system, 5; number of inspections of hopper closets, 14; number of alterations to plumbing, 4; number of house inspections, 73; total number of inspections and visits to houses with contagious diseases as per daily memorandum, 240.

Sebring Makes Improvemen's.

Charles P. Sebring, president of the Watchung Water Company, of Bound Brook, has made a decided improvement in the motive power that pumps the water and runs the dynamo for electric lighting, etc., at the works, Greenbrook, by blasting out the rock under his turbine water wheels, giving a free fall for the water passing through the wheels, and thus increasing their power.

Adventist Tent.

Weather permitting, the subject tonight will be "What Was Nailed to the Cross?" Tomorrow night, "Bible Conversion."

Rev. C. L. Goodrich and A. C. La Boyteaux will attend the Christian Workers' Y. M. C. A. conference at Northfield, Mass., this month.

THE TRUE DEFINITION OF CREOLE.

Sometimes Taken to Mean a Mixture of Colored Blood.

What is a creole? A creole properly, and in strict sense, is the child of any foreign parents who is born on American soil. The accepted use of the term, however, is one who is born of French parents in the Franco-Latin states of the south, especially Louisiana, Alabama and Florida. In those states the creole is the high-caste native, but the term has been misused to designate the mixed mulatto races, descended from French or Spanish fathers and Indian or other native mothers; but this use is incorrect in toto. The word comes from the Spanish "crillo," or the word "criada," signifying "born here." In the gulf coast region the generic term "Daygo" (a corruption of the Spanish name, "Diego"), is used to cover all the mixed races except the Creole proper. He is the very Hidalgo of the coast country; the F. F. V. of the south, as it were. He is ever proud of his blue-blooded descent, and not infrequently comes from an old and titled family. He is proud, gracious, fond of cigarettes and sometimes absinthe, and has an inborn boycott on labor. The creole women have a languid and sinuous beauty and grace of their own, rarely equaled by those of colder blood and skies. It is a fad with the old creole families of New Orleans not to mix socially with the American society. A type of the class is Madame Latour, in De Leon's novel, "Creole and Puritan," a grand dame of eighty, who knows no word of English and has never crossed Canal street.—Atlanta Journal.

THE CICYLIST'S VOCABULARY.

Some Up-to-Date Expressions Affected by the Wheelers.

Cyclists who want to be up to date must keep posted on the latest cycle expressions and similes. Here are a few gathered by Sporting Life, at the late National meet:

An awkward person is a "wabbler."

A gossip travels with a "loose sprocket wheel."

If your clothes are not in style you are a "'95 model."

Any rider abraiding the spin by a fall merely "scrapes off some of his enamel."

A stupid individual, if there be any such on bicycles, has "sand in his bearings."

A proud person, or one unduly naughty, "rides with his handle-bars raised too high."

One who is disposed to be imaginative to the extent of romancing, "is geared up to 100."

The individual who shouts at night when others desire to sleep, is the victim of "loose spokes."

The unfortunate condition of being broke is described as a "compound puncture of the pocket-book."

Needed a Beast of Burden.

Visitors to Devon and Cornwall, cannot fail to notice what an important part the patient ass plays as a beast of burden. A very good story is told in this connection of a rather handsome Devon maiden, living at T——. The young woman had had little education, but there was none to beat her in the whole district in the preparation of linen. She got it up equal to new.

Every one was surprised when last year she proposed to and married Tom D——, a poor-looking youth that no girl would glance at. Meeting Sally the following week, the parson's wife told her how surprised they all were.

"Oh," said Sally, "'ee zee, 'twas this er way: If I didn't 'a 'ad he I should have had to buy a donk', 'cause the clothes is getting too many for me to take round."—Weekly Telegraph.

CURRENT COMMENT.

If the report that the Philippines are prodigiously rich in gold only waiting to be mined turns out to be true, there may be an indefinite amount of material for an able-bodied volunteer American army there in a few months

The Chinese are so much opposed to railroads that they pull up the engineers' stakes as fast as they are located, but persons who commit this offense hereafter will be beheaded. A railroad boom in China is a queer affair.

This nation is on the high road to real greatness. We are building up a navy that will command the respect as well as the admiration of the world. With a great navy there will come a great mercantile marine as a matter of course. The American traveler of the future will have no excuse for complainig that the Star Spangled Banner is seen nowhere on earth outside of the United States.

The Vandelbilt system of railroads now extends from ocean to ocean, and covers a great portion of the United States. Heretofore, it has been the Vanderbilt system merely because the Vanderbilt family owned or controlled a maojrity of the stock of the various roads included in it—a control that was precarious and might be parted with at any time. Now, however, arrangements have been made to consolidate a number of the leading lines in such a way as to give permanence to the largest railroad holding ever attempted in this country. Great possibilities for good or evil are involved in this new departure.

The despatch of trained nurses to the Klondike and neighboring fields to look after the sick and disabled miners is one of the signs of the times. Several churches, as well as civic organizations, have already sent, or are about sending, corps of nurses, mostly women, to that desolate region on this benevolent errand. It speaks well for the philanthrophy of the governing bodies that they have undertaken such a work of mercy and done it so promptly, and it speaks well for the courage and enthusiasm of the women that they are willing to go, but whether the scheme will do all that its benevolent projectors expect from it may be doubted. Experience has shown that women sent to such pioneer regions in professional capacities usually marry soon after reaching their destination, and settle down in a domestic field of labor.

Returns from the town liquor agents in Vermont show that in the past year the sum of $167,156, or 87 cents for every man, woman and child in the State, was expended there for intoxicants of one sort or another. Every drop of this was sold for "medicinal, mechanical, or chemical purposes," but it would take more than human credulity to believe that more than one drop out of twenty was used for such purposes or for any other than the quenching of what it is customary to call thirst. How much more the Vermonters spent for liquors besides the sum mentioned nolicit dealers than do the residents of other prohibition States, and as they are not less inclined thereto, the total amount devoted to "rum" was cerbody knows, but as they have no difficulty in making purchases of illtainly two or three times that which went into the town agencies. Still, Vermont seems to be content with her present system, and will not hear of license or local option. It is her own business, of course, but an expression of mild wonder is justified by the retention of a plan which not only fails, and confessedly, to accomplish its avowed end, but also trains a large portion of the population in petty lawbreaking and sneaking mendacity.

The United States has been a nation with foreign relations for about a century and a quarter. During that time, seven representatives of foreign governments have been dismissed. The first instance was the case of Genet, minister from France, during Washington's second term. He was recalled in 1794 at the request of this country for endeavoring to stir up trouble between the United States and Great Britain. During Jefferson's administration, Vrojo, the Spanish minister, was sent home on account of conduct not only unbecoming a diplomat, but even in an honest man and a gentleman. Jackson, the British minister during Madison's first term, was recalled on a request from Washington because of offensive criticism of this government. In 1849 Gen. Taylor, then President, sent the French minister, M. Poussin, his passports. During Gen. Grant's first term, the Russian minister, Catacazy, was recalled at our own request, and during President Cleveland's first term a like fate happened to Lord Sackville West, the British minister. Then follows the De Lome affair of recent date. In all, the recall of seven ministers has been demanded, two British, two French, two Spanish and one Russian.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we don't carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2 25. Men's all wool bicycle suits in fine checks and plaids, worth $7.50, at $2 90. Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.50. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1.28. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $10, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's crash coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats at $2 30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4.75, worth $10. Boys' knee pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

An Anaconda's Long Fast.

Doctor Tanner's famous fast of forty days is thrown into the background by the performance of a big anaconda at the Philadelphia Zoological Gardens. Only recently the great snake was tempted to eat a rabbit, after going hungry for twenty-two months. It may have been even longer, but the keepers have no record of the creatures doings before its captivity. Snakes frequently abstain from food for several months, at the end of which time death generally results; but the anaconda's case is distinctly different. It betrayed no evidence of ill health, and, after the spell was broken, now calls regularly for its meals.

Johnnie. I can't buy skates for a dime and you can't buy any for a quarter. Let's put it all together and get pop a Christmas present.

Tommie. Where will we come in?

Johnnie. At the finish. We'll give him the self-sacrifice act an' he'll give us both a pair.—St. Louis Globe-Democrat.

THE MEN WHO WANT TO BE GOVERNOR.

Voorhees Has a Host of Rivals in the Field.

MR. PITNEY A CANDIDATE.

THE GOVERNOR'S DANGER IS FROM OTHER POLITICIANS.

Gen. Sewel Seems to Favor Voorhees—Hobart Might Prove a Prominent Factor, But is Likely to Hold Off—Essex County Has Two Candidates in the Coming Race for Governor.

(Special to The Daily Press.)

Trenton, August 4.—"Look out for developments which will completely change the situation insides of two or three weeks," said a prominent Republican leader the other day when talking about gubernatorial candidates. "It may seem on the surface that Foster M. Voorhees has things now all his own way, but I can tell you that an earnest effort is being made to have someone else nominated for Governor. Mr. Pitney is an active candidate and my firm belief is that he will be successful. He was in Trenton today in consultation with Republican leaders and he feels much encouraged at his prospects." The purveyor of this information holds a State office and is an energetic politician. All along he has been opposed to the nomination of Voorhees, and, of course, his opinion of the situation must be taken as coming through prejudiced lenses. He is doing all he can to defeat Mr. Voorhees and his candidate for the office is undoubtedly Mr. Pitney.

It cannot be denied, however, that Governor Voorhees has lost some ground lately. Even his own friends acknowledge that he has, and they feel that hereafter he must pay more attention to his fences than he has been doing since he made his official headquarters at the Sea Girt camp grounds, in order to make his candidacy a success. It is not that the Governor has lost any of his popularity among the masses of the voters that the danger is felt as to the collapse of his boom. He is just as popular as ever in that regard. The great danger comes from unfriendly politicians who have their own axes to grind, and who believe they could be ground better with any other Republican in the executive chair than Foster Voorhees. Pitney, Murphy, Fort—any of these prominent men would suit certain politicians better than Voorhees.

It is true that General Sewell and many of his friends have shown a disposition to have Voorhees nominated. While they have not said much in his favor, yet they have not spoken against him.

It is reported that Judge Fort has decided to enter the arena. Learning that Franklin Murphy had concluded to put to a test his popularity as a candidate, it is stated that Judge Fort instructed his friends to bring his own name to the forefront of the contest. With Murphy and Fort as rivals in their own county of Essex, the favorite son question will be revived in a manner that will produce sensational incidents.

It may be that a Voorhees-Fort alliance has been formed, which will make itself felt at an opportune time. An agreement may have been made that either one must get the nomination, provided, of course, that the alliance is strong enough to sweep the Republican State Convention.

Vice-President Hobart is very friendly to Judge Fort, and it may be stated that the latter will not be a candidate unless he is encouraged by the former. Mr. Hobart, no doubt, could turn the tide in favor of any candidate he should decide upon, just the same as he did three years ago, when he had Griggs nominated, and when he made John Kean bite the dust. It is doubtful, however, if Mr. Hobart, will take any active part in the campaign this time, owing to the high office he now fills. He can, however, by advice save a friend from disaster, and that he will do when he sees how the popular current is running.

Cranford's Big Time.

Next Wednesday is the date of the grand entertainment to be given by the Cranford Red Cross Society on the lawn at the home of Joseph Purcell on Riverside avenue, Cranford. Both Wheelers orchestra and Allen's band will be in attendance and there will be other attractions. The Suburban Electric Light Company will place over 200 lights on the lawn and this will make the place as light as day.

James Strapp, of Madison avenue, has entirely recovered from his recent illness.

STREET IMPROVEMENTS.

SANDFORD AVENUE MACADAMIZED FROM GUTTER TO GUTTER.

Commissioner Gavett's Men are Kept Busy Now—Richmond Street Owners Need Not Worry About Crosswalks

In spite of the wet weather recently, the street commissioner's men have been working on the streets and doing much work that will tell. The scraping gang are on Sherman avenue and West Eighth street, and are cleaning East Second street.

The next work of the stone laying gang will be to lay the crosswalks on Madison avenue, where that street has been recently macadamized, and also on Richmond street. There has been some general alarm among the property owners on Richmond street for fear the crosswalks were to be laid just where the stones have been placed, in the middle of the blocks or near each end. But the stone was dropped carelessly, and when the men get to work it will be seen that the crosswalks will be laid in the right places.

Next will follow the culvert on Westervelt avenue and East Front street. Sandford avenue is almost entirely finished. It has been macadamized throughout its entire length from gutter to gutter, all of the property holders having consented to pay the 10 cents a foot opposite their property for this advantage

COL. HINE THANKS ENDEAVORERS.

Letter Received Acknowledging Receipt of Comfort Bags from Trinity Church.

A letter has just been received from Col. Hine, of the Second New Jersey Volunteers at Camp Cuba Libre, Jacksonville, Fla., thanking the Christian Endeavor Society of Trinity Reformed church for the box of comfort bags that was sent to the soldiers some time ago. He also sent a list of the soldiers who received them.

The Colonel's letter is as follows:

Camp Cuba Libre.
Jacksonville, Fla., July 11th, 1898.

I beg leave to acknowledge receipt of your kind letter written in the interest of the Y. P. S. C. E., of Trinity Reformed church, of Plainfield, advising of the shipment of a package of comfort bags to be distributed among the members of my command, and I also acknowledge receipt of the bags, and following your request, I hand you enclosed a list of the names of the men who received them.

Permit me to extend to your society the gratitude of myself and officers of this regiment for your very kind remembrance, which I assure you is fully appreciated, and we thank you most heartily for your kind wishes and interest in our behalf. I am,

Sincerely yours,
Edwin Hine,
Colonel Commanding.

The list is as follows:

Robert Yahn, Co. H; Private Peter Gaffney and Herbert McDermott, Y. M. C. A., Co. L; Sergeant John W. Shackleton and Corporal Thomas Robson, Co. A; Sergeant George Williams and Private Charles Clark, Co. E; Sergeant Walton Burroughs and Corporal Charles H. Mabie, Co. G; Lieuts. Albert Van-Walraven and Wm. W. Stalter, Co. C; Privates Henry G. Sleinheur and Chas. Essenberger, Co. B; Sergeant George Wilfong and Private Harry Curtis, Co. K; Sergeant Richard Keeley and Corporal Matthew Chalmers, Co. I; Private George E. Hoagland, Co. M; Sergeant Wm. W. Coe and Sergeant Horace W. Little, Co. F; Privates Joseph Melnot and Robert Parkhill, Co. D; Sergeant Chas. Squire, Co. H.

HARDSHIPS IN CUBA.

A Member of the Seventy-first Tells of Soldier Life at the Front.

D. R. Curtis, of East Third street, has received a letter from his grandson, D. L. Curtis, who is with the Seventy-first Regiment, N. Y. Volunteers, in Cuba. Curtis enlisted among the first as a private. He is in Company B, but has lately been selected as mounted orderly to the commanding general of the First Brigade, of the First Division.

Curtis has been on Cuban soil now for some time, and has become accustomed to army life and army scenes. He writes an interesting letter and describes admirably the hardships and dangers that the soldiers have to endure.

Each man is given a piece of pork, some hardtack and a cup of black coffee three times a day, and on this he is expected to live. No cooks are provided in the field and each soldier has to prepare his own meal. Curtis says that he boils his little coffee, soaks his hardtack in it, and devours some of it morning, noon and night.

Besides the poor food, Curtis refers to the dangers the soldiers are exposed to. Day and night work in the trenches is telling on men and officers, especially when exposed to the fire of Spanish sharp-shooters, as were the boys of the Seventy-first. Curtis was also in the battle of San Juan hill, but escaped unhurt, while man after man on either side of him fell in the conflict. Yellow fever prevails in camp, so says the writer, but at the time of writing Curtis said he was enjoying the best of health.

Calvary Church Incorporated.

Murphy & Blatz have incorporated the Calvary Baptist church, (colored.) The certificate of incorporation was filed a few days ago.

TROOPS TO GO NORTH.

Army Must Leave Santiago Without Delay.

YELLOW FEVER THE PERIL

SEC. ALGER'S ORDER OPPOSED BY OFFICERS.

He Wanted to Send the Troops Inland to San Luis, Where the Conditions Were Most Healthful—Council Opposed It.

(From the Union Associated Press.)

Santiago, Cuba, August 3, via Playa del Este, August 4, 12:18 p. m.—A meeting was held this morning of every commanding and medical officer in the army here. They were summoned by Gen. Shafter.

Gen. Shafter read a cable message from Secretary Alger ordering him at the recommendation of Surgeon-General Sternberg to move the army into the interior to San Luis where there are healthier conditions.

As a result of this conference, Gen. Shafter will insist upon the immediate withdrawal of the American to the north.

The peril from the yellow fever is so dire that the council of officers opposed Secretary Alger's order to move the troops to San Luis, but counselled that they be sent away from Cuba to the north without delay.

Gen. Shafter will take immediate steps to have the troops sent north.

PARDON FOR A VOLUNTEER.

President McKinley Extends Clemency to Sergeant Wiseman.

(Special to The Daily Press.)

Washington, Aug. 4—Clemency has been extended by President McKinley to one of the first volunteers who was brought before a court martial in the present war. Sergeant W. C. Wiseman, of Company A, Third New Jersey Infantry, who was found guilty of neglect of duty, having been found asleep while supposed to be guarding the powder works at Pompton Lake, N. J., and was sentenced to be reduced to the ranks and confined at hard labor at Fort Hancock for three months, was pardoned yesterday.

Friends of Sergeant Wiseman, who was a jeweler at Asbury Park, interceded in his behalf, and a letter to the commanding officer of the Department of the East, which was received yesterday from Adjutant General Corbin, announced the President's clemency.

To Close the Charter List.

A regular meeting of Watchung Court, I. O. F., was held last evening and steps were taken to close the charter list. It was decided to close the list at the next meeting in two weeks. The new court will start with about twenty-five members, all prominent men in this city and the borough. Nothing else of importance was considered last evening.

Reception for the Ladies.

The Plainfield Catholic Club will give a reception tomorrow evening to the lady friends of the members. The reception will be held in the club-house on Liberty street. A programme is being arranged for the occasion.

To Teach Manual Training.

Olaf Saugstad, who has so successfully acted as superintendent of the Boys' Club in this city, has accepted a position as instructor in manual training at the Montclair Public Schools.

Crowded the Hospital.

The necessity of new hospital buildings seems to be growing more every day, so say those in charge, and it will only be a matter of a short time when the building will have to be erected.

Hand Cut in Machinery.

Louis A. Rheaume, of Rushmore & Co.'s planing mill, cut his hand this morning in the machinery, and was obliged to have it dressed by Dr. Edward Rushmore.

OFF FOR THE SEASHORE

CLOUDY WEATHER KEPT MANY FROM GOING ON THE EXCURSION.

Bethel Chapel Contingent Were Arrayed Resplendent in Holiday Clothes—Second Section was Only Partially Filled.

As the milkman was completing his rounds early this morning there was an unwonted stir in many households. There was a hurry and scurry to get ready for the excursion to the seashore.

Today the Sunday-schools of the Crescent Avenue church and its chapels, Grace P. E. church and St. Stephen's church started on their annual outing to Asbury Park. Now, under ordinary circumstances, such a combination as that would make the largest excursion of the season. Knowing that, two sections of twelve cars each were provided.

It was the weather, however, that rather cast a wet blanket over the affair and kept so many at home. The cloudy sky this morning was too threatening for many of the would-be excursionists. They stayed at home rather than take chances of a wet day at the shore.

Nevertheless, there was a great rush for the train this morning. The dusky members of Bethel chapel have been planning for months for this event, and they were not to be deterred by the prospect of a little rain. They came out all resplendent in white duck shirts and trousers or some other manner of holiday attire.

While there was a large crowd that turned out for the excursion, the accommodations were more than sufficient to handle them. The first section of twelve cars followed out the 7:55 express, with its cars all filled. The second section followed the 8 o'clock accommodation and another Sunday-school excursion from Flemington. Six of the cars were fairly well filled, but the other six cars were empty and were left behind at Roselle.

A LEGAL RACE.

The Plainfield Beef Company Secured Judgment and Made the Levy in Time.

By the quick work of Justice Nash and Constable Mattox, early this week, a New York firm, Jackson & Co., dealers in butchers' outfits, were stopped from taking away certain articles from John Murphy's butcher shop on South Second street, which the company claim were purchased from them and never paid for.

Through Murphy & Blatz, lawyers, the Plainfield Beef Company brought suit against Murphy for $96 for beef purchased. Monday afternoon the case was tried before Justice Nash and judgment rendered. Execution was issued Tuesday morning after the trial, and a levy made by Constable Mattox.

After this levy had been made, an expressman drove up to the store, backed his truck to the door, and began to tear down the fixtures preparatory to loading them in the wagon. The constable stopped him and explained that a levy had been made, and that the goods would not be allowed to leave the store.

The expressman explained that Jackson & Co. had ordered him to seize the fixtures and ship them to New York. Mattox refused to allow them to go, and they will be sold at public sale Monday morning at 10 o'clock. Meanwhile the constable is keeping watch over them to prevent anyone else taking them.

Murphy keeps a butcher's establishment in Mrs. Catherine Brown's store, and the goods levied upon include blocks, butcher's tools, racks, ice chest, etc.

ENDEAVOR NIGHT.

Young Christians Will Be at the Camp Meeting Tonight.

Even with the promise of a shower at any moment, there was a goodly attendance at the camp meeting in Netherwood last night. The attendance was large and an increased interest was shown.

Tonight will be Christian Endeavor night at the camp and a special invitation to all Christian Endeavorers is extended to attend the service. Bishop Walters, of New Jersey, will conduct the meeting, assisted by Bishop Petty, of North Carolina. A feature of the service will be the singing of the Alabama Jubilee Singers.

Old Landmarks Gone.

Some old landmarks on East Grand street, near Broad, Elizabeth, have been razed to make room for buildings. The New York and New Jersey Telephone Company has purchased the land and will erect a fireproof building four stories high. It will cost $30,000.

The Borough's Health.

At present there is not a contagious disease to be found in North Plainfield. This speaks well for that borough during the present extreme bad weather.

A BATTLE IS AT HAND.

Albonito is Surrounded by American Troops.

BROOKE FLANKED IT.

STONE IS RECONNOITERING TOWARD ARECIBO.

Gloucester and Wasp Captured the City of Arroyo—Citizens Assembled on Beach to Greet Them—No Shots Were Fired.

(From the Union Associated Press.)

Ponce, Porto Rico, August 2, via St Thomas, August 4, 11:58 a. m.—Gen. Stone, while reconnoitering northwards along the road to Arecebo with a company of the Second Wisconsin, encountered opposition at Utaudo by a small force of Spaniards.

They had been instructed by Gen. Macias, the Spanish commander, to resist to the bitter end. The Spanish refused to surrender, whereupon Stone telephoned to Adjuntas that he would push on aided by a force of natives armed with machetes.

Before the messenger left Adjuntas in return, a Spanish force was reported to be beween Stone and Adjuntas. Stone and his little force was said to be pocketed on the trail between Adjuntas and Utuado in the heart of the mountains.

The troops can move only in single file so ten men can stop a whole regiment.

Ponce, Porto Rico, August 2, via St. Thomas, August 4, 12:13 p.m.—Strong American forces are closing in from front and rear upon Albonito, where five thousand Spanish are strongly intrenched and will try to hold the road to San Juan.

The decisive battle of the Porto Rican campaign will be fought there within a few days.

The flanking of the Spanish has finally been accomplished by Gen. Brooke who landed five thousand troops at Guayama, east of Ponce, proceeding by the military road to a position in the rear of Albonito.

The chief attacking army is now twenty-two mile from Albonito and is steadily advancing over the main road. The retreat of the Spanish seems entirely cut off.

An expedition under Gen. Stone made a daring penetration into the interior last night with a small force. A Spanish force, numbering over 400, retreating in great haste before him. Stone was enthusiasticly received all along the route.

Ponce, Porto Rico, August 3, via St. Thomas, August 4, 12:23 p. m—The Spanish are reported to be advancing on the road from San Juan in addition to the force at Albonito. It is reported that the enemy have mined the cliffs preparatory to blocking the road.

The Spanish commander, Senor San Martin, who evacuated Ponce without orders, is a prisoner at San Juan, where he will be tried for cowardice. He will probably be executed.

Ponce, Porto Rico, August 3, via St. Thomas, August 4. 12:55 p. m.—The city of Arroyo, thirty miles east of Pance and twenty miles near San Juan, surrendered today.

The Wasp and Gloucester were ordered there this morning. The inhabitants hearing of their coming, assembled on the beach headed by the Alcaide and the priest.

Lieut. Wood, of the Gloucester, went ashore shortly after 11 o'clock.

CONTINUED ON PAGE 8.

OVERCOME BY THE HEAT

PUSHING A LAWN MOWER PROVED TOO MUCH FOR VERNON WATERS.

The Sun and Exertion Caused Him to Collapse While at Work—Taken Home Where He is Recovering Himself.

Vernon Waters, of East Third street, who is employed by the Union Beef Company, was overcome by the heat this morning while mowing ex-Councilman R. I. Tolles' lawn, on Orange street. He was taken home by Harry Vail, bookkeeper for the company, and is getting along nicely.

Frank Vanderhoof, a butcher, who was delivering meat in that vicinity, and J. H. Searing, who happened to be near, saw Waters at work on the lawn. When both men were near, Waters suddenly fell. He got up at once, and started once more to push the lawn mower, but fell again and this time did not rise.

Vanderhoof and Searing ran across the street and up to Waters, who was motionless on the grass. They suspected that he was exhausted by the heat, and getting some brandy and water from a neighbor, did their best to restore him to consciousness.

In this they were successful, and just then Mr. Vail happened to drive by, so Waters was placed in the wagon and carried to his home. The hot sun completely exhausted him, he says, but after a short rest he will be able to be out again.

LITTLE ONES RAISE MONEY.

Gave a Fair for the Benefit of Fresh Air Camp at Westfield.

Two little girls, about eleven years of age, Edith Glaentzer and Ethel Lorton, held a fair yesterday afternoon on Mrs. E. V. Lorton's piazza, 436 West Fifth street, and sold cake, candy, lemonade, peanuts and fruit for the benefit of the Fresh Air Camp in Westfielld.

The sale was held on the piazza which was prettily decorated with flags and flowers for the occasion, and was well patronized by the children and grown people of the neighborhood. Seventy-four cents was the sum made, which will be sent to the camp at once.

Edith and Ethel were assisted behind the tables by Louise Voorhees, Frances Mosher, Elsie Knowlton and Herbert Glaentzer.

TONIGHT'S ROAD RACE.

Names of Officials Who Will Act at the Event.

Harry K. Lister's road race this evening will begin at 6:30 o'clock, so that it may be completed before dark. There will undoubtedly be a large number of spectators out to see it.

Harry Lister has selected the following officials to act:—Judges, Nathan Titsworth, George W. Rockfellow, F. Richard Stevens, Thomas A. Cuming and Charles B. Morse; timers, Charles E. Vail, J. W. Van Sickle and Samuel H. Edwards. Lister will act as clerk-of-the-course. Checkers and umpires will be stationed along the road.

The complete list of entries was published in last night's Press. Programmes giving the names and numbers can be procured at the time of the race.

CONNECTING THE TRACKS.

Plainfield and Brunswick Companies Soon to Be Joined.

(Special to The Daily Press.)

Dunellen, August 4—About 100 employes of the Brunswick Traction Company started work this morning connecting their tracks with those of the Plainfield Street Railway. It is believed that the work will be completed today, after which connection with the wires will be made. A turnout is also being located on North avenue, opposite the railroad station. It is generally believed that the officials expect to run cars over the new rails in a day or two.

To Wheel to Rhode Island.

Arthur J. Spicer, of West Fifth street, and Frank Maxson, of West Sixth street, started this morning on a wheeling tour with Westerley, R. I., as their destination. They went from here to New York, intending to ride out through Long Island to some point opposite New London, Conn., where they will ferry across the Sound and then continue their way awheel through Connecticut to Rhode Island and their destination. They will then spend a week with relatives at Westerley, R. I.

Hurt in a Collision.

Two young ladies, one of whom was from Metuchen, collided while rounding the corner of Park avenue and East Seventh street, this noon. One rider had her dress torn and her wheel bent so that she could not ride it.

—Press want ads bring results.

—There are sixteen patients at the hospital, but none of the cases are considered critical.

MUSIC IN OPEN AIR FINDS MUCH FAVOR.

First Open-Air Concert of the Queen City Band.

BIG CROWD LISTENED TO IT.

THE BAND WAS LOCATED ON BALCONY OF CITY HOTEL.

The Audience Filled Sidewalk and Street for a Block in Every Direction—A Small Shower Came, But the People Did Not Mind it—Programme Rendered as Published in The Press.

Free music is always popular with the Plainfield people so the first open-air concert of the Queen City Band, held on the balcony of the City Hotel last evening, was listened to by a crowd that must have numbered close to a thousand. Even the threat of a thunder storm didn't daunt the spirits of the audience, and they remained there or wandered about the neighborhood until the band completed their programme for the evening.

It was the first open air band concert of the season and was something in the light of an experiment. The location where it was held was also something of an experiment. The band was safely ensconced on the balcony of the hotel, which was lighted with a number of additional electric lights. With short intervals between the different selections, the Queen City Band rendered the programme as given in last evening's Daily Press.

The audience was a large one and further, an enthusiastic one. Each selection, particularly those of a patriotic or popular nature, was greeted with a round of applause that extended up the streets on either hand.

Down Park avenue, nearly to Front street, up Park avenue to North avenue and out Second street for half a block in either direction the people were. Many stood by the curb or against the buildings while a steady stream flowed up and down within range of the music. Around the City Hotel, the crowd extended out into the street itself and it was was with difficulty that the police were able to keep a passage clear for vehicles.

The wheelmen were out in force and rested at the curb or gyrated to and fro. Carriages also brought additions to the audience and stopped along the side of the road where there was any room.

It was nearly 9 o'clock when the rain began to fall, and there was a scattering on the outskirts of the crowd for places of shelter. It only lasted for a minute or two, and then all went on as before.

At 10 o'clock the programme was completed and the audience went to their homes. The music was fairly well rendered. If there were trifling irregularities at times they passed off under cover of the night and the crowd enjoyed themselves. Altogether, the first open air concert was a success, and the big crowd was well satisfied with what they had heard.

A PLACE FOR SIMPLE WORSHIP.

Assemblage Known as Christians to Have Their Own Edifice.

J. F. Parker, of Grove street, one of the leaders in the religious society known as Christians, has purchased for the society a valuable plot of land on Fairview avenue near Somerset street from Judge DeMeza. It is the intention of the society to erect a building suitable for a meeting house, and no doubt the work will be started at an early date. The building will be in harmony with the neighborhood and will be an attraction to the locality. It will not be called a church, for the members are adverse to that name, but it will simply be a place of meeting for the society.

Sometime ago the members held their meetings in the First Church of Christ on Grove street, but when the members of that church decided to take their church for their own worship, the Christians were obliged to meet elsewhere. They now deem it wise and necessary that they should own a place of worship.

Barber Sells Out.

Henry Becker, who kept a barber shop on Somerset street, near the brook has sold his business to Mark Schoettlin. The deal was made through Murphy & Blatz. Becker has gone to New York, and will open a shop in Harlem.

Robert E. Speer to Preach.

Next Sunday morning and evening Robert E. Speer, of Elizabeth, will preach in the Crescent Avenue church. While in this city he will be the guest of Councilman and Mrs. Fred H. Andrews, of Central avenue.

—Use Press want ads for returns.

SPAIN'S REPLY AT HAND

Minister Cambon Has Not Yet Presented It.

CONTENTS IS NOT KNOWN

The Despatch Received by Ambassador Cambon Last Night. Spain's Reply Said to Be of an Uncertain Tone. Spain Must Accept or Reject the Terms as a Whole. Some Doubt Yet as to Her Sincerity.

Washington, Aug. 4.—It was stated at the French embassy yesterday that the dispatch received by the ambassador Tuesday in reply to his message of last Saturday communicating the peace terms of the United States government would not be presented to the president until to-day. No arrangements for an interview have yet been made.

Officially the embassy will only admit that a telegram has been received.

Unofficially it is learned that the reply is of such a character that the French ambassador will probably not present it until he has received further instructions. He has sent for them and awaits an answer.

The knowledge that Spain's reply is of this uncertain character increases the fast growing belief that Spain is sparring for time and is not disposed to accept or reject promptly the terms of the United States.

At a late hour Tuesday night M. Cambon, the French ambassador, who is acting as intermediary between the United States and Spain in the preliminary peace negotiations, received a long dispatch, presumably containing the reply of the Sagasta ministry.

Late as it was the ambassador, the secretary and the attaches of the embassy set to work to translate the dispatch, a task that occupied them until nearly daylight.

It was necessary to translate the cipher first into Spanish, and then into English, and to exercise the greatest care to preserve literally the language of the Spanish note.

The ambassador would not make public any statement as to the nature or contents of Spain's reply.

Whether the president will make public the note when he receives it depends largely upon whether Spain has actually accepted the terms laid down in the government's note of last Saturday, or whether there are diplomatic reservations and qualifications that will compel further diplomatic fencing or possibly the withdrawal of the terms by the United States.

The president has demanded that the terms be accepted "in their entirety," and, of course, Spain must eventually accept or reject them as a whole. She may not do so at once, however. Cabinet officers and others who are conversant with the president's views of the situation were disinclined to express an opinion as to the nature of Spain's reply, in view of the fact that it will probably be made public very shortly.

The prevailing opinion in the cabinet has been that Spain would accept, as the only possible thing to do under the circumstances, but there are two or three of the secretaries who have no faith whatever in the good intentions of Spain and who are still inclined to think that her reply will be a quibble and that she will haggle for a better bargain.

Should the reply be found to be an acceptance of the president's terms, however, the details of the acceptance will be formally arranged, an armistice will at once be agreed upon, and announced by proclamation, peace commissioners will be appointed and the work of gathering the fruits of the war begun at once.

In the meantime it is thought all the troops in Cuba, Porto Rico and the Philippines will be maintained there.

Said to Be Waiting on the President.

Paris, Aug. 4.—The Madrid correspondent of the Temps telegraphs, saying that if the definite reply of the United States on the peace proposals arrives to-day the Spanish cabinet will meet this evening and officially accept the terms. The cabinet ministers, the correspondent adds, believed that the agreement would be accepted by the country without opposition and the government will not summon the cortes before the autumn.

The newspapers are attacking Premier Sagasta and his colleagues, the correspondent of the Temps at Madrid continues. They assert that the premier opened negotiations with Senor Pidal, president of the Spanish chamber of deputies, with the view of returning the Conservatives to power so soon as peace is arranged, believing that Conservatives are more competent to reorganize the country. Senor Sagasta's partisans deny this.

For the Cup Race.

London, Aug. 4.—Sir Thomas Lipton, the challenger for the America's cup, has instructed William Fife, of Fairlie, to design a yacht to be built by Harland & Wolff, the great shipbuilders of Belfast.

The Yacht Racing Association meets this week, when a deputation from the Ulster Yacht Club will attend and settle al the matters connected with the challenge, so far as this side of the water is concerned.

Secretary Kelly of the Ulster Yacht Club will accompany Mr. Charles Russell, Sir Thomas Lipton's representative to New York, should the challange be accepted by the New York Yacht Club.

To Raise the Colon.

New York, Aug. 4.—The third expedition of the Merritt-Chapman Wrecking Company, consisting of four pontoons and the barge Fred A. Sharp, left Staten island yesterday for Santiago. The pontoons were selected by Lieutenant Hobson last week and will be used in raising the cruiser Cristobal Colon.

Enlarge Reciprocity Treaty.

Paris, Aug. 4.—The Temps says the United States have notified the French minister of foreign affairs, M. Delcasse, that they desire to enlarge the reciprocity treaty by including new products. France, the paper adds, has accepted the suggestion and negotiations on the subject will be opened.

BOCK LANDS IN HAVANA.

A Case Which May Lead to Serious Complications.

Havana, Aug. 3.—Aboard the German cruiser Geier, which has arrived from Vera Cruz, is the German banker and cigar manufacturer, Gustav Bock.

The German warship Geier arrived at half past nine o'clock this morning from Vera Cruz. When passing Cabana fortress the Spanish military band played the German imperial march.

At 10.45 the French cruiser D'Estaing arrived. She reported the French steamer Manoubia taken to Key West by the American ships at Isabelas.

May 21 last Gustav Bock brought himself into prominence by his strenuous endeavors to get back to Havana from Key West. His interest in the cigar business in the Cuban city was said to be about $4,000,000. He claimed to be a German subject and managed to obtain a permit to go through the blockading fleet on the German steamer Polaria.

Then the Cubans took a hand to block him and charged that he was no German, but a Spaniard and an intense partisan. Further, that he was a colonel of Spanish volunteers. On these grounds his arrest as a spy was called for.

As the days went by evidence accumulated as to Bock's hatred of all things American and Cuban, and it came out that he had offered $10,000 for the body of Antonio Maceo when that leader was harrassing Havana.

When it was impolitic to talk about Spain, Bock became an ardent champion of Germany, and took special pains to vent his impotent spleen against England. At this time it was commented on with much surprise that among others who gave him credentials recommending that he be allowed to enter Havana, was General Fitzhugh Lee.

May 23, Colonel Bock was still held at Key West. The district attorney admitted knowing he was a Spanish sympathizer, but said a court martial should act in his case. The district attorney said further that he thought Bock would have been arrested before but for the fact that the country thought the war would not amount to anything. Meanwhile Mr. Bock was putting in his time holding conferences with the German naval attache at Key West.

May 24, the New York Herald received a letter identifying Bock as a German. The communication was written by one who knew him, a relative in fact.

The same day Secretary Long of the navy, to whom the case had been referred, decided that Mr. Bock could not enter Havana, and the decision gave general satisfaction.

June 5, Mr. Bock expressed himself as having given up his idea of going to Havana and two weeks later said he would leave Key West and go to the Catskills to rest.

June 25, Bock was in New York and stated that he was no spy, and that his sympathy for Spain was because he had lived in Havana for forty years. Mr. Bock further said that in May he had returned from Germany, where his family resided.

Bock's Landing a Serious Matter.

Washington, Aug. 4.—The state department has received no official notice to the effect that Gustave Bock, the alleged Spanish spy, has been landed at Havana by a German vessel.

If such is the case it would be regarded as a serious matter by the officials of the government. It is not thought that Germany would allow Bock on board of one of her vessels, and especially it is not believed that the German authorities would land him in Cuba.

If the report proves to be true, it may prove a source of complaint by the United States authorities.

The First Steamer to Ponce.

Brooklyn, Aug. 3.—The steamship Silvia, which will sail next Saturday from the South Central Pier, Atlantic Basin, for Ponce, Porto Rico, will carry a full cargo and many passengers. She has been leased by Miller, Bull & Knowlton for the New York and Porto Rico Steamship Company, which formerly ran a regular line to Ponce, San Juan and the other parts of the island.

Behring Sea Award Paid.

Ottawa, Ont., Aug. 4.—The check of the United States for $473,000, the amount of damages adjudged by the Behring Sea Claims Commission to have been sustained by the Canadian sealing fleet in consequence of illegal seizure by American cruisers prior to the Paris award, was received by the department of marine and fisheries yesterday.

One on Dr. Johnson.

Dr. Sam Johnson was sometimes "come up with," and was honest enough not to be offended when his outspoken rudeness met a spirited rebuke, as the following anecdote shows. At the time Stuart was a young man, studying under the great painter, Benjamin West. He gives the story in his "History of the Arts of Design in the United States."

"Dr. Johnson called one morning on Mr. West to converse with him on American affairs. After some time Mr. West said he had a young American (Gilbert Stuart) living with him, from whom he might derive some information, and introduced Stuart. The conversation continued (Stuart being thus invited to take part in it), when the Dr. observed to Mr. West that the young man spoke very good English, and, turning to Stuart, rudely asked him where he had learned it. Stuart replied: 'Sir, I can better tell you where I did not learn it—it was not from your dictionary.' Johnson seemed aware of his own abruptness and was not offended."—Hartford Courant.

Rules for a Long Life.

A distinguished physician gives nineteen rules for longevity, most of which, like "keep your temper," are well known. But others are less familiar, such as "Do not have your bedstead against the wall," "Have a mat to your bed room door," "Allow no pet animals in your living rooms," and "Eat plenty of fat, to feed the cells which destroy diseased germs." One of the rules, "Exercise before breakfast," is noted for its enthusiastic abandonment after a short trial.

THE NICARAGUA CANAL

An Important Work Which Will Be Undertaken Soon.

CONGRESS SHOULD FAVOR

Recent Developments Have Shown the Great Need for This Waterway. May Take Seven Years to Finish Its Construction The Government Should Build and Assume Control.

Chicago, Aug. 4.—Lymon E. Cooley, the well known civil engineer, after a visit east, and a conference in New York with representatives of the Maritime Canal Company, owners of the rights and concessions along the proposed route of the Nicaragua canal, believes that the government of the United States will construct the great waterway in preference to letting the contract to private companies or corporations. Mr. Cooley says that on this important point the complexion of the Nicaragua canal matter had changed perceptibly since last winter, when he, with a party of engineers, looked over the ground of the future enterprise.

On being shown a dispatch from Washington stating that Admiral Walker of the canal commission has received a number of reports indicating that the cost of the work will be much less than hitherto estimated, Mr. Cooley gave a list of the recent discoveries, which he believes are responsible for Admiral Walker's opinions. They are as follows:

Six miles of dredging in the lower end of Lake Nicaragua.

Non-existence of rock in San Juan river to Toro rapids.

Good foundation for immense dam at Ochoa.

Favorable conditions for embankments at San Francisco bas.n.

New site for dam at Tano or Grande.

A Big Saving.

According to the estimate, a saving of several million dollars is represented in these items.

The expenses incurred by the government in war and the rapidly developing indications that the Nicaraguan canal cannot only be constructed more cheaply than at first imagined, but ought to be constructed by the United States, are combining, he intimates, to assure the waterway connection between the Atlantic and the Pacific within a few years.

"President McKinley," said Mr. Cooley, "and many of the leading members of Congress now appreciate more than ever before the supreme importance of this canal to our country. Senator Morgan said to me not long ago that the annexation of Hawaii practically clears up the question of immediate necessity of the Nicaraguan canal. It is a question, however, whether or not Congress will be able to pass the proper law or take the proper action at the short session beginning in the fall to enable the work to begin at an early date.

"The construction of the waterway will not be a tremendous undertaking, though it may take seven years to do it. The Maritime Canal Company asks for $11,500,000 from the government to relinquish all of its rights and concessions. The company, it is understood, will take $7,000,000 in the stock of a new company that the government might form, and $4,500,000 from the government to validate its bonds. The company bought out all the concessions of the old Nicaragua association, which is said to have expended something like $6,000,000. The Maritime Canal Company was then organized and it has spent $2,000,000 in Nicaragua on the canal undertaking, but had to quit the work.

"The company is perfectly right when it says that no private corporation could be expected to take up the canal project since Congress has put its hand in the matter and when there is a strong likelihood of the government building the ditch itself.

"These are some of the hindrances in the way of the early opening of the narrow strip of land between the two great oceans. Again, it is not definitely known that the commission will be ready with its report during the short session of Congress. The report may be submitted and may cause a vast difference of views as to what course should be pursued. Senator Morgan and all other canal advocates appreciate these things, but the manifest broadening of the scope of our national policy of late has impressed everyone so strongly that none can see any obstacle large enough to prevent the construction of what will be an invaluable holding and possession in the United States in time of peace and in time of war."

The Government Owes $38,000,000

Washington, Aug. 4.—Assistant Secretary Howell of the United States treasury, has made public the total receipts and disbursements of the government during the fiscal year ending June 30, as follows:

The receipts, including Pacific Railroad items, were $405,321,335. Expenditures, including Pacific Railroad items, $443,368,582, leaving a deficit of $38,047,247. If we exclude the receipts from Pacific railroads, amounting to $64,751,223, and the expenditures on this account of $4,549,368, the accounts would stand as follows: Receipts, $340,570,111; expenditures, $438,819,214; leaving a deficit of $98,249,103.

To Work in Porto Rico.

Jacksonville, Aug. 4.—The government transport Ute, which arrived a week ago, left to-day for Porto Rico. She carried, in addition to about 75 mechanics and nearly 600 colored laborers, about 600,000 feet of lumber to construct pontoons and buildings for use by the United States troops.

A large supply of all kinds of building material was also included in the cargo.

The Sick at Santiago.

Washington, Aug. 4.—General Shafter has sent the following sanitary report for August 1:

Total sick, 4,239; total fever cases, 3,179; new cases of fever, 689; cases of fever returned to duty, 679; deaths on August 1, 15.

New Jersey's Greatest Store.

HAHNE & CO. TRADE MARK.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

TRY J. F. MACDONALD'S COFFEES.

FROM 20c. TO 35c. per lb.

Guaranteed to equal 50c and 60c goods or money refunded.

Our 15c. is continuing to make friends, and our 20c. in the grain has no equal.

Send or call for samples—we are pleased to give them.

Telephone 49 B. 186 East Front Street.

ORDERED TO MONTAUK

Wheelers Cavalry and Roosevelt's Rough Riders to Be Sent at Once.

Washington, D. C., Aug. 4.—The war department has at last taken steps to bring to the United States the American troops that are not needed at Santiago.

A dispatch was this morning sent to General Shafter to send at once to Montauk Point, L. I., the cavalry detachments of all regiments now at Santiago. The cavalry recruits, horses and equipments and all the belongings of these troops are also to be put en route to Montauk.

General Shafter is instructed to report the number of horses that belong to each regiment.

Orders were given to the commissary general to furnish five days' supply of rations for the troops while on the way to Montauk.

This order will bring to Montauk Point all the cavalry men under General Wheeler and aso all of the Rough Riders.

Special interest attaches to the fact that Colonel Roosevelt is to return to the United States with his men. It will give him a chance to make a fight for the government of New York, and in this event his campaign will be managed from Montauk Point.

Brigadier General Randall, recently promoted from lieutenant colonel of the Eighth infantry, to-day was ordered to assume command of the new camp to be established at Montauk Point, L. I. He will be temporarily in command only, until one of the major generals now at Santiago arrives. General Randall is one of the most efficient officers in the army and has just returned from an important mission connected with the relief of miners in the Klondike region. He will assume command of the new camp at once.

General Shafter has been directed to use all the transports he can command and to send the troops north as rapidly as possible. The regular cavalry with Shafter comprises eight companies each of the First, Third, Sixth, Ninth and Tenth cavalry, all dismounted, and four mounted troops of the Second cavalry.

Gen. Wade's Command.

Washington, Aug. 4.—Major General Wade, U. S. volunteers, is, by direction of the secretary of war, assigned to command of six brigades and will conduct them to Porto Rico.

On his arrival there he will report to Major General John R. Brooke, United States army, for duty with the forces under the immediate direction of the major general commanding the army.

These regiments are detached from the corps with which they are now serving for this campaign only, at the termination of which they will be returned to their respective corps. They will be accounted for on all returns as on detached service.

On completion of this service General Wade will resume command of the Third Army Corps, by order of the secretary of war.

(Signed) H. C. CORBIN,
Adjutant General.

The six brigades will be composed as follows:

First Rhode Island, First North Carolina, First New Hampshire, First New Jersey, Second Texas, First Maine, Fourth Missouri, First Alabama, First Vermont, First West Virginia, First Connecticut, Third Tennessee, Twenty-second New York, First Arkansas, Fifty-second Iowa, Third Virginia, First Delaware and First Maryland.

These regiments will be organized into brigades as follows:

First Brigade—First Rhode Island, Fourth Missouri, Twenty-second New York.

Second Brigade—First North Carolina, First Alabama, First Arkansas.

Third Brigade—First New Hampshire, First Vermont, Fifty-second Iowa.

Fourth Brigade—First New Jersey, First West Virginia, Third Virginia.

Fifth Brigade—Second Texas, First Connecticut, First Delaware.

Sixth Brigade—First Maine, Third Tennessee, First Maryland.

Whom Shall We Honor.

Washington, D. C., Aug. 4.—Secretary Long has determined to appoint a special board to consider and recommend for promotion, officers below the grade of captain who deserve recognition for gallant conduct displayed in the battle with Cervera's fleet.

The president will reserve the right to determine which of the flag officers and captains are deserving of recognition.

The cruiser Newark has been detached from the eastern squadron and Commodore Schley's flag has been transferred from the Brooklyn to that vessel.

The Brooklyn has been assigned to the eastern squadron.

Orders have been given to Commodore Watson, but their nature cannot be definitely learned.

The fleet has not yet started, however, from Cuban waters.

No News of Rev. Jernegan.

Paris, Aug. 4.—The police here have thus far received no instructions to arrest the Rev. P. F. Jernegan of the Electrolytic Marine Salts Company of Boston, wanted in that city on a charge of obtaining money under false pretences.

The Rev. Mr. Jernegan arrived at Havre on Monday, from New York, and mysteriously disappeared from the train on which he embarked for this city.

Maine Arsonist Arrested.

Lubec, Me., Aug. 4.—The first arrest in connection with the Jernegan case was made yesterday, when William Arrington, the chemist of the Electrolytic Marine Salts Company, was taken into custody, charged with being implicated in fraud.

He was arraigned before a trial justice and held in $25,000 for his appearance in the supreme court in October.

$25,000 to Chicago University.

Chicago, Aug. 4.—Mrs. Emmons Blaine, who is a daughter of the late Cyrus H. McCormick, the harvester manufacturer, has given the Chicago University $25,000. The gift is to be used to establish in the down town district of Chicago a branch of the university for the higher education of teachers in the public schools.

A MARCH OF TRIUMPH

Many Towns in Porto Rico Yield to American Forces.

FIGHTING IS NOT NEEDED

Gen. Miles Awaiting the Arrival of Cavalry Force Before Moving on San Juan Brooke Arrives With Reinforcements. Bands of Music Instead of Bullets Greet the Invaders. Cable Office Now Open.

Ponce, Porto Rico, Aug. 2, via St. Thomas, Aug. 3.—It is not extected that there will be any eztensive movement of the American army toward San Juan until after the arrival of the cavalry, as there is a lack of mounts for reconnoitreing. In the meantime reports come from San Juan showing that it is not unlikely that that place will receive our soldiers as Ponce did. People from San Juan arriving at Ponce say that most of the citizens will welcome American annexation, and say also that the report of the number of Spanish soldiers there is greatly exaggerated. They assert that there are not over 6,0000 troops there, and many of these are as badly frightened as the soldiers at Ponce were. They will surrender if they get a chance.

In the meantime the sight of the American warships, which are constantly cruising outside of the harbor, is having a good effect. The blockade of the port is effective. Once in a while a warship comes in close to shore, and this, with the constant rumors of imminent bombardment keeps the Spaniards in continual fright.

If there are any loyal Spaniards in Porto Rico the Americans have not found them. The army has been here almost a week, and, with the exctption of one night, not a shot has been fired.

Rumors are continuously coming in that the Spanish soldiers have gathered at this or that point, but there are never any found when they are looked for.

The Americans don't know what Spanish soldiers look like, and everywhere the Yankee soldiers go the Porto Ricans greet them with cheers and, after the manner of the country, hug them.

There was a report yesterday that there were some Spanish soldiers at Juana Diaz, and four companies of the Sixteenth Pennsylvania were sent to find them.

Couriers announced the coming of the Americans to the people of the town and a brass band came out to greet them. All the citizens were assembled on the outskirts of the town and as the Yankee volunteers appeared up the road the band played "Yankee Doodle," and other patriotic American airs, while the people cried "Vive los Americanos!"

Many had presents of cigars, cigarettes, tobacco and bananas and other fruits with which they loaded down the soldiers, and many insisted upon taking the visitors to their homes and making them welcome.

Half the houses in the town had the American flag waving. In the public square the mayor made a speech of welcome, in which he said that all the people of Juana Diaz were Americans now, while the crowd shouted: "Death to the Spaniards!"

Besides the towns already mentioned nine others have signified their delight at the coming of the Americans. These towns are Arroyo, Patillas, Yabucoa, Salinas, Santa Isabel, Adjuntas, Penuelas, Guayabal and Guayama. There were Spanish troops in all of the important towns in this list.

Guayama had a large garrison. It was reported to the American camp that these soldiers intended to make a fight, and this morning General Wilson sent two companies there. On the way the Americans met couriers who stated that the citizens had ordered the Spaniards out of the town and hoisted the American flag.

The mayors of four other towns visited Ponce and told General Wilson that the people of their towns were glad to be Americans. The towns had surrendered and they were ready, they said, to turn over everything to the Americans and have American officers appointed.

The auxiliary cruiser St. Louis arrived here this morning, bringing Porto Rican refugees, Antonio Matel Lluveras, a wealthy merchant; Rafael Munoz, Mateo Fajardo, Jose Maria De Soca and six others. The men started a revolution in Porto Rico a year ago. They went to San Domingo, but came back.

They were caught by the Spaniards and put in jail, but subsequently released and later deported. They have been in New York since. Upon their arrival to-day they were received by the populace as heroes. The bands played American airs, prominent men made speeches of welcome and the people fell upon their necks and hugged and kissed them and wept tears of joy. Their progress to their homes was a continual ovation.

The returned refugees had a conference this afternoon with leading citizens of the town, and several of them later said that there was no question that ninety per cent. of the people want annexation. They feel that the United States are their deliverers, and would rather join the American republic than have self government.

They were accompanied here by Mr. Powell, United States minister to Hayti.

Besides the refugees the St. Louis brought General Brooke and the Third Illinois volunteers. General Brooke landed and reported to General Wilson. Two batteries of artillery have arrived from Guanica and been sent ahead to join the outposts, fourteen miles distant. As they were going through Ponce they met with a big reception.

The St. Louis also brought Mr. Robinson, who came from Washington to establish a postoffice here. He at once had a conference with General Miles. General Wilson said later that the office would be opened to-morrow morning.

The cable office was opened yesterday in charge of the Signal Corps. The telegraph lines have been restored, and there are now four stations connecting all of the headquarters.

LEE WILL TAKE CARE OF CUBA.

Preparations Making to Send the Troops from Jacksonville.

Washington, Aug. 4.—Preparations are being made to dispatch Major General Fitzhugh Lee and the Seventh army corps to Cuba immediately after the conclusion of peace between the United States and Spain. The plans provide for the embarkation of the men within a week if Spain submits to our terms of peace.

For the last two weeks the Seventh corps has been fully equipped by the assignment of signal officers, engineer officers and surgeons to duty under General Lee, and the regiments of his command have been mobilized at Jacksonville, a convenient point for embarkation.

It has been generally understood in official quarters for some time that General Lee would have the honor of entering Havana with the troops of his command. It was presumed that this would be done in the fall, when the campaign in northern Cuba should be begun, but now that an early peace seems probable, General Lee will go in at the head of the garrison force to administer the military government pending the installation of the Cuban administration.

The troops will be distributed among the large towns of northern Cuba, notably Havana, Matanzas and on the southern coast at Cienfuegos.

It is probable that three or four regiments of General Lee's corps will be withdrawn from Jacksonville to join the provisional division under General Wade for Porto Rico.

FROM THE LAKES TO EUROPE.

Inventor of the Big Whalebacks Think Such Communication Near.

West Superior, Wis., Aug. 4.—The largest whaleback ever built, the steamer Alexander McDougall, has left the slip at the barge works and gone to the Missabe ore docks to load with 6,000 tons of ore for her maiden trip down the great lakes.

Captain McDougall, the inventor of the whaleback, is of the opinion that lake boats will soon be going direct from Superior to Europe. He says:

"Next year the new Canadian canal will be opened and offer a broader field for lake carriers. Boats carrying 2,000 to 2,200 tons will be able to go direct from Duluth to Montreal and Quebec and thence to England and European ports. The new canal will permit of the passage of boats 270 feet long and drawing 14 feet of water. Vessels of this type can sail on the lakes during the season of navigation and can then go to the sea and remain there in commission all winter, when freight rates on the ocean will demand it. Within the next five years I expect to see a fleet of at least one hundred boats of this class trading between Duluth and European ports."

HOSPITAL SHIP SAILS.

The Relief Starts for Porto Rico.

New York, Aug. 4.—The hospital ship Relief sailed from Pier 17 East river yesterday afternoon with nearly everything in the way of delicacies and medical supplies intended for the sick soldiers in General Miles's army aboard. Surgeon Major Torney who is in charge of the floating hospital, said that he would not stop in the lower bay, but would go direct to the ocean and steer for Ponce, Porto Rico, which he expects to reach in four days. In addition to the seventy members of the hospital ship's working force, two military surgeons accompany the expedition as observers.

One of these is Surgeon Karl Rudberg of the Swedish army, who rendered valuable assistance to the American wounded at Santiago, and the other is Surgeon General Terry of the National Guard of this state. This medical officer goes in his capacity of national guard officer for the purpose of making observations which may be useful to the National Guard hospital corps hereafter.

Revenue Receipts Large.

New York, Aug. 4.—Receipts for the sale of stamps in the Second internal revenue district amounted to $1,688,578.27 for the month of July, whereas for the same month last year the receipts were only $253,549.86. The difference of $1,435,028.41 represents the amount of revenue raised for the government by the sale of war stamps in the second district alone.

Internal Revenue Collector Treat said that the sale of revenue stamps now amounted to about $75,000 a day. He now had every variety of stamp issued by the government for the war tax on hand, and instead of a rush, he said, there was a steady sale of proprietary and documentary stamps.

Misunderstandings of the law are growing fewer in his district and things are settling down to a systematic basis.

The Carlist Uprising.

London, Aug. 4.—A special dispatch from Barcelona says a formidable rising of Carlists has taken place near Lerida, Catalonia.

Lerida is a city of Spain, in Catalonia, and capital of the province of Lerida. As the key of Aragon and Catalonia, it is one of the most important military points in Spain. It possesses great strength, being surrounded by walls flanked with bastions and by a wet fosse. It is defended by a castle and several batteries.

Rising Reported Near Palermo.

London, Aug. 4.—The Madrid correspondent of the Daily Telegraph says that a Carlist rising is reported at Venta de Banes, south of Palencia.

Days as Cruisers Ended.

New York, Aug. 4.—The International Navigation Company has received information from Washington that the charters to the government of the American line steamships St. Louis and St. Paul will be vacated as soon as these auxiliary cvruisers can be returned from Porto Rican waters. The Yale and Harvard, formerly the Paris and New York, will be utilized by the war department instead of by the navy, and the charters will be transferred at once. The release and exchange of the ships mean a saving of $10,000 a day to the navy department, while only $5,000 a day will be saved to the government.

COMING EVENTS.

August 7—Private F. Keuhnle, of Company D, Seventy-first Regiment, N. Y. Volunteers, who was wounded at Santiago, will address the 4:15 p. m. meeting at the Y. M. C. A. Lemonade and fans.

Success of a Noble Endeavor.

Though it was the destruction of the Maine in the Havana harbor that virtually brought the strained relations of Spain and the United States to the climax of battled conflict, it is seldom now that the ill-fated battleship figures in the public mind. Other events growing out of the trouble which the loss of the noble ship precipitated have more than overshadowed the calamity that stirred the country to its deepest patriotic depths.

An action taken by the Board of Freeholders of Middlesex county yesterday, however, is an echo of the high patriotic feeling that run through the country in the days of last February and March. It was the granting of permission to have a monument set in the county court house yard, which is to be erected in memory of the three New Brunswick boys who lost their lives when the Maine was blown up. The dedicatory shaft was purchased by a sum of money contributed by poor and rich alike bound to memorize the honorable death which the sailors suffered at the treachery of the nation who has now paid dearly for their terrible deed.

The monument will be 8 feet wide, 4 feet deep and 12 feet high. It will bear the inscription: "The city of New Brunswick erects this memorial to her three sons who perished on the United States ship Maine, February 15, 1898, in Havana Harbor, Cuba—Frederick Lawrence Jernee, William Henry Robinson, John Henry Zeigler."

The money was raised through the energy of the New Brunswick Times, which deserves great credit for the success of the noble endeavor.

The Civic Federation Abroad.

That very noteworthy and interesting body of men and women in Chicago known as the Civic Federation has been laboring assiduously for half a dozen years or more to uplift the moral tone as manifested in the public aspects of the community where it had its origin. It has tackled social and municipal questions with the zeal of a modern St. Paul and labored in season and out of season for the common weal. It has been measurably successful in some of its aims, it has failed in many so far as immediate practical results go. Many a satirist has poked fun at the institution as a pretentious mugwump debating society where the members go to swell with pride at the sonorous flow of their own fine language, as they pose before the mirror of self complacency. This slander, however, is the futile abuse of the Philistines who shudder at the name of reform. It is beyond all question that the Civic Federation has been a powerful element of political culture. It has crystallized conviction among the better classes by the discussion on the broadest scale of public and social evils, wherein lie their roots, wherein their remedies and as to what difficulties must be overcome to enforce those remedies successfully.

The aim in view is a noble ambition and worthy of rivalry, not only as an attempt at better things, but as an effective instrument of practical work. As brought to bear on municipal problems with a specific end to be reached its value is manifest. But the organization has been inspired to achieve larger conquests, if anything can be greater than municipal reform. It has called a meeting of representative minds throughout the land to gather at Saratoga in the latter part of August with the purpose of educating opinion about the harvest which we ought to reap from the war in the settlement of terms and the reaching out after results. It is eminently within the rights of free speech to do such things, and debate is a potent instrument of truth. The men who have been summoned to the rally are among the prominent figures of the intellectual and political world. Opposing views will be freely ventilated, and the jingo will lock horns with the conservative in the battle of words. But after all it looks very much like a junketing without much working pith in it. The thesis in view has been discussed to tatters by the newspapers, pro and con, and the argument of the controversy has been fully exploited. There is no such practical purpose in view as in the special field of the Civic Federation. It is not likely to affect the end by a jot or tittle. Yet if it does no good it will work no evil. One ventures to hope that the federationists will get much gain of health and strength by a copious absorption of Saratoga water.

WONDERFUL RECOVERIES.

The present war has been productive of many wonderful recoveries from apparently mortal wounds. The results are certainly evidences of the advances that have been made in surgery. The above illustration, from the New York Journal, shows some of the noteworthy cases.

Efforts are making and it is believed by the postal authorities in the United States and England that the conclusion is near at hand when the uniform postal rate between the two countries will be the same as in that in either country, 1 penny, or 2 cents. The conviction of experts is that the increase of postal matter at the reduced rate would increase the postal revenue for both countries. Yet by a strange anomaly of conditions Great Britain is likely to be baffled in the attempt to make a similar reduction between the mother country and her confederated colonies. The objection on the part of Australia and Canada is that on their side of the bargain it would be unprofitable. What a curious turn may be presented by the early future—England and the United States with common postal dues; England and her colonies with discriminating rates!

The demoralization of the personnel of the shipping service in the United States is pretty well known. It strikes a note of alarm at a time when other influences and conditions look to a recreation of our shipping interests and carrying trade. We are prepared to build the best ships in the world now, and we should be able to man them efficiently. The brutalities of shipboard life have driven the American Jack out of the business, and foreigners for the most part man our seagoing vessels. Similar conditions exist in Great Britain, to the discomforture of all students of commerce there, and a thorough investigation is making preliminary to attempts at reform. It is time for us to be up and doing too, if not for humanity's sake, in the interests of business at least.

General Shafter's report of losses reaches only 1,595 casualties of killed and wounded among a force not much more than 15,000 during all the fighting about Santiago. This is a small ratio as compared with many of the battles of our civil war. Yet our brave fellows exposed themselves with the most reckless daring and gave the Spanish riflemen the best possible chances. It makes a world of difference who is at the butt of the gun.

Spanish law prohibited importation of patent medicines. Now that American law will supersede the people of Santiago will have the ineffable privilege of dosing themselves ad lib. with pills and nostrums. It is said that there are some 12,000 patent medicines recorded in Washington. What a chance to wreak further vengeance on the Spaniard under the guise of interest in his health!

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

"The question whether we are to have a boulevard or not is altogether a question of price," is the opinion of one of Bergen's little echoes is permitted to put into print.

Not by a long shot! The Cranford Township Committee has an absolute veto power on the scheme and the action it will take is clearly indicated by the resolution passed without dissent that it is unalterably opposed to the boulevard plan.

Mr. Bergen and his echoes may think that the Cranford Township Committee has a price; but the people know better. Not all the money in Union county or New Jersey would neutralize the unalterable opposition of our municipal authorities. The franchise has been offered for sale, but the votes of the Cranford Township Committee are not in the market.—Cranford Chronicle.

* * * *

It is not certain that the scheme to widen the county boulevard is popular with the people. In fact if a vote were taken upon the matter at this time it seems likely that a substantial majority would be recorded against the project. This opposition of the people to a magnificent public improvement is based upon the sound business sense of the communities interested. In the midst of committee reports and verbal pyrotechnics from interested parties, the taxpayer does not forget that he is to be called upon to foot the bills. Prudent men realize that in public as well as in private expenditures, the line must be drawn somewhere or chaos will result. In view of the many handsome improvements that have been made in Westfield in recent years, no one can charge her people with being unprogressive; but they have not gone mad on the subject of improvements. The city of Elizabeth did that thirty years ago, and paved for herself a broad boulevard to bankruptcy. The final word upon the county boulevard project has not been spoken yet. In the end the taxpayers may give it their endorsement; for the present they are thinking it over and looking somewhat askance at the enthusiasts who are hankering to saddle upon the county a few additional hundred thousands of bonded debt.—Westfield Leader.

ROYAL BAKING POWDER CO., NEW YORK.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 4.—Peter A. Runyon and daughters, of Stelton, who have been visiting relatives in town, have returned home.

Next Sunday morning Rev. Mr. Chambers, of Plainfield, will occupy the pulpit of the Presbyterian church. During the pastor's absence it is expected that Rev. Mr. Skellenger, formerly pastor of the church, will preach. If he cannot be secured Rev. Frank Fletcher will take his place.

Next Saturday afternoon there will be bowling on the green at Mr. Schepflin's home. It is expected that there will be a large attendance of the members of the club. During this month and the first of next month there will be several contests on the green which will be of special interest.

Mayor Brakeley has about recovered from his recent illness and is again feeling like himself. He was not, however, well enough to attend the Borough Council meeting Monday evening.

At the meeting of Rockview Council, Daughters of Liberty, next Monday evening it is expected that several applications for membership will be received.

John Sebring, of Greenbrook, lost one of his horses by death Tuesday evening. The animal died from being overheated.

Miss Mattie Humble, of North Plainfield, has been visiting Mr. and Mrs. Richardson, of North avenue.

Charles Apgar, of Westfield, is spending two weeks with his mother, Mrs. Emily Apgar, of Front street.

William Fenner, of New York, has been visiting his sister, Mrs. Harry Swackhamer, of Church street.

George Moore, of Brooklyn, is spending a week with his aunt, Mrs. W. H. Terry, of Church street.

Mr. and Mrs. Charles VanArsdale, of Flemington, are visiting Mrs. Emily Apgar, of Front street.

Mrs. Harold Tomlinson and son, of North Plainfield, spent yesterday with relatives on Church street.

The condition of Mrs. Winckler, who is ill with diphtheria, is considered improved.

Mrs. Abner Coriell has been visiting friends in Plainfield for a short time.

Mrs. Charlotte Bowyer, of Church street, is visiting Brooklyn relatives.

Tomorrow evening a class meeting will be held at the M. E. church.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 4.—Last Tuesday afternoon after the marriage of Prof. and Mrs. Crofoot in the Seventh-Day Baptist church, an excellent photograph was taken of the interior of the church, showing the decorations.

Rev. F. E Peterson, pastor of the Seventh-Day Baptist church, will leave soon for Milton, Wis., to attend a convention of the Seventh-Day Baptists.

Miss Edna Howell, of Chester, Pa., who has been visiting friends in Plainfield, was the guest last evening of her uncle, Prof. Alfred Titsworth.

This week Rev. Frank Fletcher is enjoying a pleasant rest from his duties.

Mrs. White, of Red Bank, has been visiting her parents, Mr. and Mrs. Coriell.

'PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, August 4.—As the Scotch Plains part of the excursion was leaving Asbury Park Tuesday evening quite some excitement was caused when it was found that Anna, the seven-year-old daughter of Mrs. Annie Miller, of Fanwood was missing. A thorough search of the second section, in which the Scotch Plains excursionists were supposed to come home in, was made, but no Anna was found. Mrs. Miller became very much alarmed and stayed at the beach until after 7 o'clock, but could find no trace of her. Upon the arrival of the first section at Westfield, Miss Anna alighted, unconscious of the alarm she had caused by her mistake in taking the wrong section.

Mrs. John Flannery, who has been making her home for sometime in Plainfield with her son, J. E. Flannery, has returned to town and taken up her residence with her granddaughter, Mrs. George Johnston.

A number of young men from Rahway are enjoying camp life along Green brook, near Marsh's pond.

Mrs. Hezikiah Hand, of Plainfield, spent Tuesday with her parents, Mr. and Mrs. Jacob V. Coles.

Mrs. Monte and daughter, Miss Florence, spent yesterday with relatives in Plainfield.

Mr. and Mrs. Gilmour, of Newark, were the guests Tuesday of Dr. and Mrs. Westcott.

Cory Johnson and family are in New York attending the funeral of an uncle.

Twilight Council, Jr. O. U. A M., meet in their rooms tomorrow evening.

Miss Mamie Merceir, of Plainfield, spent yesterday with her parents.

Burton S. Jones, of Plainfield, visited friends in town Tuesday evening.

Miss Susie L. Parse visited friends in Plainfield Tuesday.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield August 4.—The Arlington baseball team, of Rahway, will cross bats with the Westfield team on the Westfield grounds Saturday afternoon, and a good game is promised. The backers of the home team have made up a purse of $25 for the purpose of procuring enough players to patch up the team and enable them to win this game, as a great deal of money is said to have been bet on the outcome.

The Westfield Club will hold its monthly meeting August 8th, when it is expected there will be a number of applications for membership, as the board of governors have decided to do away with the initiation fee for a while, until the membership list is brought up to the limit.

Freeholder Mulford M. Scudder has been chosen as one of the witnesses to the hanging of Louis Roesel, August 26th.

Mr. and Mrs. R. A. Fowler, of New York, arrived here today to spend the remainder of the summer.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, August 4.—The Central Railroad Company have been distributing material and rails for a siding at this place during the past few days.

The Lincoln Social Club announce a social and dance to take place in the grove Saturday evening, August 27th. Elaborate preparations are being made to make this one of the grandest events this town has ever had, and the following committee which has the affair in charge, is a sure guarantee of an enjoyable time: John C. MacNeills, president; Frank Smalley, secretary; James Little and Frank W. Cushing. An orchestra of five pieces has been engaged, ensuring excellent music for dancing.

A number of our citizens attended the meeting and reception given in Bound Brook by Indianola Tribe, No. 219, I. O. R. M., Tuesday evening, and judging by the time they arrived home they made a night of it.

Alfred Hunt, of Company H, Third N. J. Volunteers, now at Sandy Hook, is expected to arrive home on a twenty-four-hour furlough today.

Mrs. Thomas Watts and Miss Anna O'Keefe, of Plainfield, were visitors at the residence of Mrs. William Ashton Wednesday afternoon.

PARTICULAR MENTION.

Letter-carrier J. W. A. Bauersachs is visiting Newark relatives.

Charles Faber, of Rockview avenue, is spending his vacation out of town.

William Sharp, a clerk at the post-office, has returned from his vacation.

Alvah Carey, of Central avenue, has returned from a visit with New York friends.

J. B. Hill, of Westervelt avenue, has returned from a visit to Boston, his old home.

E. B. Clark, of Crescent avenue, has returned to his home after a vacation spent at Thousand Islands.

Substitute Letter-carrier Robert Tingley has recovered from his illness, and is again on duty carrying Carrier Giese's route, while the latter is on his vacation.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Councilman Tolles and family have returned from their outing.

Miss Florence Dodge, of Bayonne, is visiting Plainfield relatives.

Martin Hibbitts, of West Fifth street, has gone to Hoboken on a visit.

Miss Etta Blatz, of Somerset street, is visiting Miss Anna Voilin, of New York.

William McGraff, of South Second street, is spending a few days out of town.

Silas Yerkes, of East Sixth street, is suffering with an attack of facial neuralgia.

Assemblyman VanDoren, of East Millstone, was a visitor in Plainfield yesterday.

Miss Cora Sheppard, of White's dry goods store, is visiting friends at Easton, Pa.

E. C. Martin and family, of Putnam avenue, have returned from their summer vacation.

William Townley, of the fire department, had a day off yesterday and spent it out of town.

Mr. and Mrs. Frank Raymond and Mr. and Mrs, Waldo, of the Seminary, have gone to Loon Lake.

Miss Mabel Gillies, of Central avenue, is stopping at Asbury Park. She will stay until October 1st.

Miss Phillips, of West Front street, will secure her annual vacation the last two weeks in this month.

Col. Julian Scott, who has been visiting friends in Vermont for some time past, has returned home.

Frank Probasco, formerly of this city, but late a resident of down east, is visiting friends in Plainfield.

The son of Mr. and Mrs. William N. Pangborn, of Linden avenue, is improved from his severe illness.

Miss Messler, a nurse at Muhlenberg Hospital, is spending her vacation in the vicinity of Somerville.

G. L. Colgate, of Putnam avenue, the head of the Bard Cycle Company, is taking a needed rest at Belmar.

Miss Gilbert, one of the nurses at the hospital, is enjoying her annual vacation at her home in New York.

Mr. and Mrs. Ireland and family, of Somerset street, have gone to Asbury Park to spend the month of August.

Miss Anna Murphy, of Washington avenue, who has been enjoying an outing at Belmar, has returned home.

Department Commander William C. Smith, of the G. A. R., was called to Elizabeth today on important business.

Mr. and Mrs. W. S. Lowry, of Sherman avenue, are home from Asbury Park, where they have been summering.

Elmer E. Runyon, of Madison avenue, has returned from a short stay at Asbury Park. His family will remain there for a time.

Frank Anderson, who for four years has been employed by Daniel Roberts, the liveryman, sailed for Sweden yesterday to visit relatives for two months.

Miss Wilhelmina Vroom, formerly of A. V. D. Honeyman's office, has taken a position as stenographer and typewriter in the law offices of Charles L. Moffett.

Miss Anna Fenner and Miss Mabel VanMiddlesworth, of Elmwood place, left today for Manasquan, where they will spend several weeks with friends and relatives.

Former Councilman S. A. Ginna and family, of Watchung avenue, left the city today for the White Mountains, where they will spend the rest of the summer.

Mrs. Woodhull, of Sycamore avenue, is very much improved from her severe illness, and she and her husband hope to be able to leave town soon to enjoy their summer outing.

Miss Sarah Hand, of Netherwood, and Miss Frances Thorn, of East Third street, have returned from an extended trip to Washington. While at the Capitol City they visited Camp Alger.

B. A. Hegeman, Jr., of Washington Park, has returned from Point Breeze Camp, Wolfboro, N. H. His family are spending the summer at the Camp, and Mr. Hegeman will make frequent visits there.

How's This.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—A communion service will be held at the First Baptist church next Sunday morning.

—The work of laying drainage pipes through Plainfield avenue is progressing favorably.

—There will be the usual Thursday night dance at Mountainside Park Grove tonight.

—B. A. Hegeman, Jr., will soon take possession of his new barn which is about completed.

—As mentioned yesterday, the subject at the Advent tent tonight will be "Bible Conversion."

—Rev. Dr. Carroll, of the borough, will preach at the First M. E church next Sunday morning and evening.

—There will be an interesting meeting of the Reform Club this evening. A cordial invitation is extended to all.

—The regular monthly meeting of the Reform Club will be held this evening and every member is urged to attend.

—Monday evening the members of the Park Avenue Baptist C. E. Society will have charge of the meeting at the Fresh-Air Camp in Westfield.

—At the meeting of the Woman's Relief Corps tomorrow evening something of interest will be prepared and every member is urged to attend.

—The members of Zephyr Hook and Ladder Company are requested to meet at fire headquarters this evening at 7:15 sharp, for the purpose of participating in a drill.

—The collection of books and literature have multiplied so fast at the Y. M. C. A. recently that the authorities are about to send them to Fort Hancock by freight.

—A 44-piece silver service on exhibition in Woodhull & Martin's basement is offered this week for $9.98. It is guaranteed for 10 years and is the best $10 value ever offered.

—There are two or three places on West Second street between Park avenue and Central avenue, where the drainage is so poor that pools of water stand to a considerable depth in the gutters. In one place a green scum has formed on top of the water.

—A. D. Thompson, Jeremiah Manning and J. D. Runyon, of this city, have purchased of ex-Mayor W. L. Strong, of New York, representing an estate, a number of choice building sites at Netherwood. Several of them are near the Hotel Hunterston. They will erect several fine houses at once, two being on Belvidere avenue, near Denmark road.

—Leggett, the popular and up-to-date Front street druggist, is now giving away a useful present to purchasers of prescriptions at his store. It is an aluminum dial similiar to the face of a watch. It bears the different hours of the day, also a small hand which is adjustable. It is intended for persons taking medicine and can be set to the hour when the next dose is to be given. It is certainly one of the neatest and most useful articles yet seen.

Mrs F. W. Morse, of Garwood, and Mrs. E. B. Taylor, of New York, both until recently of this city, are stopping for several weeks at the Surf Avenue House, Ocean Grove.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

Edward White.

LITTLE ELIZABETH HARRISON.

Her Coming to the Household Was Regarded as a Public Event.

With the exception of small Ruth Cleveland no other young daughter of a former President of the United States ever received such an ovation in the way of gifts on the day she first made her debut on this mundane spere as little Elizabeth Harrison. The coming of a little girl into both the Cleveland and Harrison households was regarded as a public event, and friends and strangers alike vied with each other in manifesting their interest and good will in the substantial form of presents of all kinds, both useful and ornamental, which deluged the two households on these two memorable days.

LITTLE MISS HARRISON.

Little Ruth has grown to be a big girl now and three other baby members have since come to swell the Cleveland muster roll; but Elizabeth Harrison is still in her early babyhood and reigns supreme as the sole tiny ruler of the Harrison family circle. This is the first time that her baby face has appeared before her many well-wishers, whose generosity has made her the heiress of so many of this world's goods.

Elizabeth was born in Indianapolis, Ind., about a year ago, in the fine residence owned by General Harrison on Delaware street.

Already she is quite a little traveler, for last Summer she spent at Old Forge in the Adirondacks, where her father owns a camp; in the Fall she made a journey to New York, where she held court, and was visited by the social and political magnates of the great metropolis, and this Winter she went on to Washington and was taken by the former President to the White House to pay her respects to President and Mrs. McKinley, who were delighted with her sweetness and good fellowship, for she is a friendly tot, and much enjoys good company.

She is the image of her father, who adores her, and who will sit by the hour holding her on his lap and taking more real pleasure than all his public honors afforded him when he presided as head of the nation. She has his excessive white skin, a pair of big violet blue eyes, and a bewitching little dimple in her chin, also copied from her father's more staid one.

Her mother, who is the daughter of the first Mrs. Harrison's sister, is most devoted to the daily care of her precious daughter, and is showing her usual judgment and common sense in bringing up the little lady in a simple, practical manner as a good, every-day little American and laying no stress on the fact that she will one day inherit a snug fortune of her own.

THE ERRATIC NEEDLE.

In One Part of Russia It Deflects Over Ninety-Six Degrees.

One of Russia's innumerable mysteries is the erratic behavior of the magnetic needle in many parts of the great empire. The compass is freaky enough anywhere, but it seems to take a particular delight in refusing to point north for the subjects of the czar. French and Russian scientists have recently been investigating this subject on the vast central plains between Moscow and Barakov.

The greatest aberrations were found in the province of Kursk, the capital town of which is some 600 miles almost due south of Moscow. In the northern part of the province, near Tim, the needle deflects twenty degrees, farther south in the province of Staraol Oskol up to thirty degrees, while in the southeast of the province, about 150 miles south of Tim, the deflection is over ninety-six degrees, the needle standing almost perpendicular and pointing nearer east and west than north and south.

This reversal of the magnetic forces may have some curious effects. A number of new railways are building in that region and the engineers are interested in finding out whether the durability of their lines will sustain the long accepted theory that those rails last best which are parallel with the magnetic meridians. As these run east and west over a considerable part of Russia, it will be the north and south lines that first show signs of wear, whereas such lines in other countries are the more easily maintained in repair.—Boston Traveler.

Youthful Marriages in Algiers.

A census was taken lately in Algeria, and it was found that the youngest Arab married man was twelve years old and that there were very many boys who were married at thirteen and fourteen, while some at fifteen years of age had several wives. There is a youthful widower of fifteen, and a divorced husband of the same age. Girls are still more precocious, and are sometimes married when only eleven years old, though twelve is the more usual age. There are 189 widows of fifteen, and 1,176 divorcees of the same age.

ROCKS THE BABY'S CRADLE.

Electricity at Last May Be Said to Rule the World.

The baby has been the last member of the family to which electricity has proved a boon. All the other members of the family down to the cook have, in one form or another, been beneficiaries of electric science, and now the electric cradle, with its fanciful revolving fairy-like lights, delights the heart of its youngest member. In many of the American residences electricity is employed for lighting, for electric elevators, and sundry minor domestic purposes, and for such houses the motor cradle is now provided. This device is a great improvement on the old rocker, as it can be set in motion and will run indefinitely. The motion is imparted to the cradle by means of a small electric motor, and connection with the current supply being made by means of a flexible cord and plug attached either to the electrolier or to a special socket in the base board. The motion may be accelerated or slackened simply by turning a switch, causing the motor to run at different speeds. At the foot of the cradle is a revolving globe studded with lamps of different colors, and as soon as the cradle is set in motion these are illumined and their ever changing colors are a constant source of delight to the children. Any one who has watched a child assume the most uncomfortable positions in order to watch the lights in a trolley car will appreciate the amusement these revolving lights will afford a baby. Once baby's mind is directed to the lamp the slow even motion of the cradle and the constant flickering lights soon lull him to sleep.—Philadelphia Record.

AS MANY KINDS OF TURTLES AS FISH

But of This Great Variety Only Two Can Be Converted Into Soup.

When, on occasions all too rare, you have indulged in green turtle soup, have you ever given thought to the turtle?

Did you ever know that there were turtles of so many kinds that it required the mind of a naturalist to remember their names? And did you know that out of all these, only two varieties were convertible into savory soup? They are the Chelonia Mydas and a variety of terrapin.

They are caught mainly in the Gulf of Mexico. The desirable weight for a turtle is from 110 to 140 pounds. It is a delicate being and requires tenderest care or it will inconsiderately die before being cooked. At the same time, by an almost feminine contradiction, it is quite likely to refuse to die for twelve or fifteen hours after having its head chopped off.

The turtle which provides soup for Aldermanic banquets and that which provides combs for Aldermanic wives are not the same brand. The latter is the hawk's-bill turtle.

The common turtle is the only amphibious animal whose contentment is proverbial, but whose brain is so small that it can't be taught a single trick.—New York Journal.

A Queer Boat in Which to Ride.

The "driver ant" is to be met with in many parts of South America. A peculiarity of the insects of this species is that, when in danger, they form themselves into balls. When overtaken by a flood they rush to a certain place near their dwellings, and in a few seconds clinch each other in such numbers that they become a living ball.

A traveller once saw thousands roll themselves together in this way until the ball was at least one foot in diameter. Then, when one flood came, they were swept down the stream. Following the ball, in the canoe, the traveller saw it lodge in the top of a tree to which the aunts on the outside clung. When the water had subsided somewhat the ants left the ball in great droves, seeking refuge in the upper branches.

As soon as the flood had disappeared they marched back to their former place of abode. One of these balls, in which all the ants were dead, was found, and it may still be seen in a museum in England.

Disappointed.

Five-year-old Dickey had been instructed that whenever he wanted anything he would pray for it.

He had prayed long and earnestly for a bicycle, but his father, thinking him too young to ride one, had bought him a tricycle. When he awoke on the morning of his birthday and found the three-wheeler by his bedside he was disgusted.

"Doesn't the Lord know the difference between a bicycle and a tricycle?" he whimpered.—Chicago Tribune.

The camphor trees of China, Japan and Formosa are beginning to fail, and the United States has tried the experiment of growing camphor in Florida with encouraging success.

NEW COMB FOR EVENING COIFFURES

A STRANGE WOMAN.

BY PAUL PHODEN.

I had sold my mill, and was on my way home. It was evening when I reached Granville, where I took the stage. An old woman was my sole companion. She appeared to be one who had seen much trouble in life, and at the present time she seemed weighed down by some special care.

She was rather a large woman somewhat bent, and quite unwieldly in her movements. She was evidently used to hard work, for when I took her arm to help her in, although it was under her shawl, I could feel the strength of one well used to the labor of house and farm, so common with women of that region. Her dress was shabby, and her face was covered by a black veil, which was disturbed but once to my knowledge, and that was when I had been looking out into the darkness, and saw it drop when I turned back my head. She was very hoarse, and any attempt to respond to some passing remark from me would set her into a violent fit of coughing. Weighed down by her troubles as she was, I saw that she should be left to herself, and so I said but little.

The country through which we were riding was a dreary one, and pictures of road-agents, and the cleaning out of my five thousand dollars, not to speak of a worse fate than robbery, would occasionally come up to my imagination. I wasn't nervous, but the consciousness of the tempting bait I carried with me was sufficient to awaken certain apprehensions in spite of myself.

Three months before this, a stage had been stopped some twenty miles from here, and one of the passengers who had attempted resistance was shot. Why might not this one be the next to take its turn?

I could but wish that a vigorous man was sitting in the seat opposite in place of that helpless old woman. As far as I could learn, she was to stop at a crossing two miles this side of my destination, where her son was to take her home in his wagon. I should have four miles of it alone, though, to tell the truth, I felt more lonely with such company as this than if I had been by myself.

Finally she appeared to fall into a doze, her bowed head and swaying body indicating a long flight into dreamland. She had been watching at the bedside of a consumptive daughter, and now must go home to tend a grand child that was suddenly stricken down with diphtheria.

"You need your sleep, my good soul," I thought. "We know not who have the greatest trials in life. Mine is at present an imagined evil, yours is in the real."

As the stage rumbled over the uneven road in the gloom of that wild and swampy country, the spectral pines retreated endlessly to the rear, revealing an occasional star appearing in the north, that seemed to gaze in admonitory silence upon me.

My eyes had got so used to the growing darkness that I could make out objects near me with some distinctness. At one time I noticed that the old woman was uneasy in her sleep; the action of her hands indicated something exciting. They were under her shawl, but the movement was very perceptible. I had been looking from the window, and I observed this uneasiness when I turned my glance inside the stage.

I was gazing curiously on the shabby figure when a suspicion darted through my mind that sent the blood to my heart. I had read of such things, and why was this not—but pshaw! my money was simply a magician conjuring up visions and spectres of the night.

The stage slackened up, and then it stopped. The slumberer started and awoke. For an instant the entire figure seemed to change in its aspect. Every line of the cumbrous body was full of vigor that ill-compared with the air of exhaustion which had previously characterized it.

I was interrupted in my observations by the entrance of a fresh passenger, whose deep, heavy voice had already indicated a powerful physique. He was a formidable looking customer. His great height compelled him to stoop considerably as he entered, and when he took his seat by the side of the old woman, the stage appeared to settle on his side.

I could make out but little in the gloom, but this man's face was sufficiently distinct to show a resolute character, fearless and ready in an emergency. He had an aggressive air, and the reserve of a man who was not to be made free with. He peered into my face from under his heavy brows, and then glanced at the sleeper by his side.

I couldn't quite analyze my feelings when I found this third passenger shut up with me. That he was a man not unused to violence was apparent. As a bravado or the leader of a vigilance committee he could readily act his part. Which role would he incline to? There were still several miles to cover, and I was interested.

I did not like the way he had of turning his eyes on that old woman. I couldn't make out in the dark just their expression. What struck me as being rather singular was her utter stillness after the vigorous start she had given. She couldn't have fallen again into a sleep as quick as that. I confess to a creepy sensation as I viewed this pair opposite me.

"This is a dreary ride for any one who has reason to wish his journey over," said the new passenger, at last, in his bass voice.

What did he mean? Did he know about my money? Here was a deepening of the mystery. It certainly was becoming a dreary ride to me. I controlled myself, and pointing to the woman, said,—

"One like her might well call it so."

"How's that?"

"Sickness at her home—perhaps death!"

"Ah!" and he turned a look upon the unconscious subject of our remarks, the meaning of which I could hardly fathom.

The northern lights were now shooting up in the heavens, reflecting a dim light in the stage.

A vision of my cheery home rose to my mind. Mother and children were pictured in that pleasant sitting-room, talking perhaps of father and his return.

Should I ever see those dear ones again? What if—But my meditations were interrupted by the heavy voice of the passenger.

"Returning home, I take it, sir?"

"I am."

"You consider this a safe road, do you not?"

"Never heard of any trouble here."

"It's going on around us, though. Heard of the pull last night?"

"The pull?"

"The robbery on the Hanson road, I mean."

"Robbery!" I gasped. "I did not hear of it."

"Oh, yes; it's getting pretty near."

"Nothing worse, I hope."

"Murder!" and the speaker's voice sank to a still deeper tone.

The old woman started in the corner, as if disturbed in her dreams.

He glanced meaningly at her, and then directing his thumb that way, he said,—

"An uncommon sleeper."

"Tired out."

"We'll not disturb her."

"The murderer has a devilish name," he said, after a brief silence.

"Which?"

"The last robber—no, not the last, exactly, for the robber and murderer of all is one man."

The stage entered a gully thickly shaded with trees, and when the passenger said this in his abysmal voice, my scalp crept over my head. It was so dark that not even his herculean form could be seen.

"What was the name?" I asked, in a hush.

"Left-handed Dick."

The stage went very slowly at this point, and my ear caught a movement as if the sleeper was again uneasy, and was adjusting her shawl.

"Why that?"

"He lost his right hand in a fight, and he is a demon with his left."

"I'd rather tackle a dozen than a left-hander."

"This man is equal to a dozen. I know he has murdered as many as that."

The impression was gaining on me that the man before me was honest. He struck me, moreover, as having a purpose here in this stage known only to himself, but which I began to suspect. He acted like one that had serious business in hand.

"Is there no way of trapping the fiend? I think if he could come into your grip, sir, he would fetch up pretty quick."

"Size doesn't always tell," he returned. This fellow is like a madman. He neither fears nor waits."

"How does he keep it up?"

"He's cunning as the devil. He goes disguised."

"How!" I exclaimed. "Disguised. But his handless arm—"

"Oh, that's easily fixed. If he's a man he has it in his pocket—"

"If he's a man! How else does he go?"

The stage emerged into the open country. The aurora was at its height, and threw its pale light into the stage. The shawl of the sleeping woman was suddenly twitched at the hands, and I noticed that the old black veil was somewhat awry. I also noticed that her neighbor had changed his position.

"My good woman, I hope your sleep has rested you," I slowly uttered, sharply eyeing her shawl in the gloom.

Her answer was a violent fit of coughing.

The stage was moving rapidly, and it rocked us to and fro. The coughing ceased, and a startling transformation followed.

By an instantaneous movement the shawl and skirt, the veil and bonnet were thrown aside, and a man was revealed, his right arm a stump, in his left a long-bladed knife.

"Left-handed Dick!"

As I pronounced this dreaded name, I threw myself into a position of defence. I was not the object of attack, however. Like a flash of light the villain struck at the breast of the man he feared. As the deadly knife descended, the arm was caught in a human vise. With fearful oaths he struggled to free himself, but the giant was on the alert, and bore down on the assassin with all his weight and power.

The outlaw was not to be easily overcome. He was truly a madman in spirit and strength. I now took part in the struggle, and the fellow was soon brought under. His arms were pinioned behind him, and the driver, who had stopped his horses, was directed to move on.

The road-agent was duly disposed of by his captor, who proved to be the most daring and formidable sheriff in that part of the country.

I reached my home in good spirits, and my arrival was a glad surprise. I said nothing of my adventure till the next day. You may well imagine that there was thanksgiving in that house.

Mrs. Todgers—Mrs. Monson wears a sealskin sacque, but I've never heard her petticoats rustle yet.—Chicago News.

Lokal-Nachrichten aus der alten Heimath.

Provinz Westpreußen.

Elbing. Bei der Verfolgung zweier Exzedenten wurde der Polizist Daut von diesen überfallen und ihm Säbel und Revolver entrissen. Von einem der Exzedenten mit dem Säbel sehr bedenklich zugerichtet, wurde der Beamte in das Krankenhaus überführt. Die beiden Burschen wurden später verhaftet.

Konitz. Das Schwurgericht verurtheilte die Wittwe Helm-Skietz, die ein Haus ihrer Feindin, der Wittwe Woyda, in Brand gesetzt und dadurch den Tod eines Kindes verschuldet hatte, zu 12 Jahren Zuchthaus.

Rheinprovinz.

Köln. Der Landtagsabgeordnete für den Stadtkreis Köln und Reichstagsabgeordneter Eduard Fuchs, ein Mitglied der Centrumspartei in beiden Vertretungskörpern stürzte in einer Straße dahier vom Zweirad und wurde, ehe er seiner schmerzenden Glieder wieder Herr werden konnte, von einem einherjagenden Rollwagen überfahren. Jetzt liegt er mit vierfach gebrochenem Arm auf dem Schmerzenslager darnieder.

Aachen. Für einen in Neuß wohnenden Pferdehändler kamen aus Lüttich auf dem hiesigen Templerbendbahnhof zwei Wagen mit Pferden an. Den einen Wagen mit 12 Fohlen hatte der Begleiter dicht verschlossen und sogar die Luftlöcher zugedrückt, in Folge dessen waren sämmtliche Thiere erstickt.

Elberfeld. Der Abgeordnete Dr. Böttinger hat anläßlich seines 50. Geburtstages für die Arbeiter der Farbenfabriken vormals Friedrich Bayer u. Co., deren Direktor er ist, 20,000 Mark geschenkt.

Saarbrücken. Bei Altenwald wurden ein Mann und zwei Knaben, welche größere Summen, die für Lohnzahlungen bestimmt waren, trugen, von zwei Strolchen überfallen. Der eine Knabe wurde niedergeschlagen und dessen Geldkasse mit 8000 Mark Inhalt geraubt. Die Thäter sind entkommen.

Provinz Sachsen.

Erfurt. Das Werkstättenpersonal sowie die Unterbeamten der hiesigen Eisenbahnverwaltung wurden kürzlich in zwei Extrazügen kostenlos auf Anordnung der Eisenbahndirektion nach Frankenhausen befördert, um so den Leuten Gelegenheit zu geben, sich das Kyffhäuser-Denkmal ansehen zu können.

Mühlhausen. Die Eröffnung des hier errichteten Elektrizitätswerks ist für die Licht- und Kraftabgabe zu Mitte September in Aussicht genommen. Der Bau ist nach Beendigung des Maurerstrikes jetzt tüchtig gefördert worden. Die Schienenlegung für die Straßenbahn schreitet ebenfalls rüstig vorwärts.

Provinz Schlesien.

Friedeberg a. Qu. Die hiesige Tischler- und Drechslerinnung feierte ihr 350jähriges Bestehen.

Grünberg. Mit der Untersuchung der Weinpflanzungen auf die Reblaus und der Obstbäume auf die San-Jose-Schildlaus ist von der königlichen Regierung in Breslau der Kunstgärtner Bromme hier beauftragt worden.

Lauban. Hier hat sich eine Genossenschaft gebildet, die jährlich 20,000 Centner Rohflachs zu einer Waare verarbeiten will, wie die Spinnereien sie verlangen. Der Minister hat derselben für das erste Jahr 5000 Mark als Unterstützung und 24,000 Mark als Darlehen gewährt, jedoch mit der Bedingung, daß jeder Genosse verpflichtet ist, die nöthige Morgenzahl anzubauen und deren Ertrag an die Genossenschaft abzuliefern.

Provinz Schleswig-Holstein.

Altona. Der Deutsche Verein für das nördliche Schleswig, der sich die Förderung der Ansiedelung deutschgesinnter Landleute zur Aufgabe macht, theilt mit, daß er ungefähr 200 Stellen zum Preise von 1500 bis 100,000 Mark zum Verkauf an der Hand hat. Seine Vertrauensmänner vermitteln den Ankauf unentgeltlich und sorgen dafür, daß der Käufer preiswürdig zu einem Besitz gelangt. Auch verschafft der Verein unter Umständen billigen Vorschuß für Vieh und Geräthe, um jungen Landwirthen Gelegenheit zu geben, sich selbstständig zu machen.

Kiel. Mehrere Fahrzeuge der ersten Torpedobootsflotille haben auf der Manöverfahrt nach der Nordsee Havarie erlitten und sind zur Reparatur hierher zurückgekehrt. Das Torpedoboot „85" ist in Folge eines Zusammenstoßes mit dem Panzerschiff „Weißenburg" beschädigt.

Provinz Westfalen.

Münster. Das hiesige Schwurgericht verurtheilte den 22jährigen Bäcker Fritz Flechtner aus Ostick bei Werne, welcher seinen eigenen Vater mit dem Beil erschlagen hat, zu 15 Jahren Zuchthaus.

Dortmund. Vor sieben bis acht Jahren verschwand in dem Dorfe Kley spurlos ein Knecht. Kürzlich nun wurde bei Aufräumungsarbeiten auf Zeche Borussia einige Fuß unter der Erdoberfläche ein Skelett gefunden, in dem man das des verschwundenen Knechtes zu haben glaubt. Man nimmt an, daß er damals erschlagen und von den Mördern verscharrt worden ist.

What It Means.

To a Plainfield Citizen. No Experiement Requir. d.

People with bad backs are always looking for relief.

Plasters helped at first, but their effect lessened with use.

Liniments acted the same way.

They didn't reach the cause.

The kidneys can't be plastered.

Can't be rubbed with liniment.

And in most cases the kidneys are the cause.

Doan's Kidney Pills do it all.

They right the kidneys action.

Do you realize what this means?

It means no more backache.

If you take Doan's Kidney Pills.

It means well kidneys and health.

No need to experiment to find relief.

Doan's Kidney Pills cure.

Plainfield people say so.

Mr. C. E. Hepburn, of 123 Duer street, formerly of Canada where he first heard of Doan's Kidney Pills, says:— "Doan's Kidney Pills have my endorsement for they cured me of a long standing case of backache which annoyed me very much, especially if I took cold, for at such times I was in pretty bad shape. I heard different people speak very highly of Doan's Kidney Pills and concluded to try them. I got a box from my druggist, Mr. L. W. Randolph, and used them according to directions, with the above results. I do not hesitate to give my endorsement of a preparation like Doan's Kidney Pills for I know they can be relied upon and possess the merits claimed for them."

Doan's Kidney Pills for sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S.

Remember the name Doan's, and take no substitute.

HOW ELECTRICITY GUARDS A BROOKLYN CHURCH SANCTUARY.

St. Augustine's Tabernacle Is Made Burglar Proof by Harveyized Steel Doors Operated by an Electric Motor—Father McCarty Planned This Electric Church

Electricity has recently been turned to a novel use. It has been set to guard what is in all probability the costliest and most elaborate church tabernacle in America. A complicated mechanism, operating sliding doors, controlled by the electric current, keeps watch and ward over $10,000 worth of gold, silver and precious stones that, made into a superb receptacle, is the treasury of the sacrament of St. Augustine's church, Brooklyn.

A file of soldiers on grim guard, a platoon of police, could not more perfectly protect this shrine than this current of electricity does. A touch of a tiny button, and slowly, with measured movements, curving doors come out from behind and shut in the tabernacle with their plates of steel. A touch of another button, and with the same slow movement these doors open, revealing once more the costly structure of gems and valuable metals. So far it would seem as if there were little protection, as if any one could press the button and open or close the "safe" at pleasure. It is true these buttons are in plain view. But they only work when the current is turned on, and the motor controlling them is hidden somewhere in the depths of the church, the push buttons here that must be pressed being in a fire and burglar proof vault, the combination of which is only known to the rector and his associates.

Superb as the tabernacle is, however, the beauty of this high altar is not diminished when the tabernacle, upon the touch of the button, vanishes from view. In its place now are steel doors, but steel doors that mask with art the protection that they are. Curving in lines that are artistic in themselves, they are covered with rich gold leaf that has a subdued gleam of its own. Instead of the tabernacle now there stand these doors, only, fitted closely together, they do not seem doors. In the center of the traceried mass of Carrara marble, with its sculptured figures and its reliefs, there is now a portion of a cone of gold, a glorious bit of color against and in the midst of the gleaming white. Not alone is this "safe," as it stands here, a wonder of mechanics, but it is absolutely unique in the annals of the churches. Other congregations and other priests have tried from time to time to devise some plan of guarding their tabernacles, but never until now has there been a system planned that is burglar proof and does not injure the high altar's architectural design.

In detail the tabernacle the golden magic doors guard is exceedingly wonderful. Of Gothic design, harmonizing to perfection with the architecture of the high altar, it is chiefly of silver, its upper structure entirely so. Here there are Gothic pinnacles and ornaments, figures and traceries, all of silver, in rich modeling. Its body is of solid gold, even the lining being of gold plates. The four sides are adorned with symbolic designs, carved in relief, in this precious metal. The front shows the cross and circles in relief, studded with diamonds. There are 87 diamonds set in this design, and 27 more are scattered over this front plate. But diamonds are not the only jewels here. There are bands of amethysts, opals, topazes and other stones, and a superb emerald of fine cut glistens conspicuously.

One of the opals upon the touch of a finger (it is mounted upon a screw) turns aside, revealing a minute keyhole. On the little silver steps of the structure lies the key that fits into it. A turn of the hand and the tabernacle is open. Below these jewels, on the front panel of gold, is a band of passion flowers in relief, superbly designed. No less elaborately finished are the panels of the side and back. On the right side, in a raised design of gold, are the grapes; on the left, the wheat, both symbolic of the sacrament. On the back panels, never seen, but yet quite as carefully and artistically worked out, is the pelican, emblematic of the Saviour, because it feeds its young on its own flesh.

There is $3,000 worth of gold in this tabernacle, and the silver and jewels aggregate in value the remaining $7,000. The jewels and precious metals were contributed by hundreds of individuals in trinkets and coins. Over a period of seven months all this was accumulating.

Sixteen hundred pounds is the weight of the curving doors and the base on which this tabernacle rests. This unique safe actually consists of four pieces—the base, a curving panel of steel at the back that is stationary, and the two doors, that at their faint signal come slowly together or else curve slowly apart. These panels or doors are of harveyized steel. They meet as they close in a dome and overlap each other tightly. Their motion is given to them by heavy roller bearings, which are operated the instant the circuit is closed by the pressing of either the closing or the opening button, by the electric motor already spoken of, hidden in the cellar below.

And these buttons will not respond until this electric motor is itself set in motion. Either Father McCarty or one of his assistants—it was Father McCarty, it should be said, that designed these altars, planned this electric church system and had the tabernacle built—must open the vault below, the combination being known only to these priests, and press another set of buttons first. Until this is done the curving doors of gold are immovable, and no power can make them yield an inch. Masked in its covering of gold leaf this steel shell is a superb piece of mechanism, one of the finest that electrical science has yet given to the world.—New York Herald.

CATHOLIC ARMY SERVICES.

Every Facility to Be Afforded Priests at the Various Camps.

Since the troops began going into camp in the several parts of the country complaints have been received by the Catholic bishops and archbishops that it has been extremely difficult to get the consent of the commanding officer to permit Catholic priests to hold services for the benefit of the vast number of soldiers who are communicants of the Catholic church. These complaints became so frequent that some of the archbishops and bishops communicated with Mgr. Martinelli, the apostolic delegate at Washington, with the request that he call the matter to the attention of the government. It seemed to the authorities of the Catholic church that with the very large proportion of Catholics in the army every opportunity should be offered to worship in their own way.

Archbishops Ryan of Philadelphia and Corrigan of New York have received word that Mgr. Martinelli's intercession with the government in the interest of the Catholic soldiers has not been without effect. According to letters received by them, the apostolic delegate had the matter put before Secretary of War Alger, with the result that the latter promised to issue an order immediately bearing on the subject. This order will be in substance that the commanders of regiments shall give every possible opportunity for the men espousing the Catholic faith under them to exercise their religion and to furnish every facility for the Catholic priests in the vicinity of camps to minister to the men in cases where there is no chaplain of that belief attached to the command.—New York Sun.

THE CHURCH IN CHINA.

Don Carabelli Says the Tolerance Extended to Catholics Is Quite Satisfactory.

A letter from a distinguished Italian priest in China, Don Giuseppe Carabelli, brings interesting particulars of the progress of the Catholic faith there. The intervention of the powers in China has already had at least one good effect in obliging the government to adopt a much more conciliatory attitude toward the Catholic missions. The murderers of Father Mazel, the young missionary done to death last year in the Kuang-si, have been brought to judgment, and on the peremptory demand of the French embassador at Peking an indemnity of 73,000 francs was paid over by the government for his assassination. A part of this sum has been forwarded to the Society of Foreign Missions in Paris and the remainder to the young martyr's relatives in Rodez.

It was noted as a striking event, which made a marked impression on the whole population, that the Chinese authorities were present in solemn form at the consecration of Mgr. Favier in Peking a few months ago. Around Hongkong especially, writes the ecclesiastic above referred to, is the Catholic religion now looked upon with favor and consideration. Certain prejudices are rapidly disappearing and the tolerance extended to Catholics is quite satisfactory. The inhabitants of a little village near Hongkong have as a body decided to embrace the Catholic religion, and have extended the most hearty welcome to an Italian missionary, who at their request has gone to give them instruction in the doctrines of our faith.—Catholic Times and Opinion.

Repartee at the Vatican.

Here is another from Hon. George Russell's "Collections and Recollections:" A friend of mine in the diplomatic service, visiting Rome in the old days of the temporal power, had the honor of an interview with Pio Nono. The pope graciously offered him a cigar, saying, "I am told you will find this very fine." The Englishman made that stupidest of all answers, "Thank your holiness, but I have no vices." "This isn't a vice; if it was, you would have it." Another repartee from the Vatican reached me a few years ago, when the German emperor paid his visit to Leo XIII. Count Herbert Bismarck was in attendance on his imperial master, and when they reached the door of the pope's audience chamber the emperor passed in, and the count tried to follow. A gentleman of the papal court motioned him to stand back, as there must be no third person at the interview between the pope and the emperor. "I am Count Herbert Bismarck," shouted the German as he struggled to follow his master. "That," replied the Roman, "may account for, but does not excuse, your conduct."

New Idea In Settlement House Work.

Something new in settlement house work is to be inaugurated by the Paulist fathers in New York. Their new property in Sixty-first street, near Columbus avenue, came into their possession last week. The price paid was $20,000, and the work of alterations is to be begun at once, to cost about $5,000. The new idea is the public profession of total abstinence in connection with settlements. The leader in the movement is the Rev. A. P. Doyle.—Boston Herald.

Sonnet to Amerigo Vespucci.

The subjoined sonnet has been suggested by the discovery by Father Razzoli in the church of Ognissanti in Florence of Ghirlandajo's fresco of Our Lady of Mercy with the portrait of Amerigo Vespucci, the navigator, at the age of 18:

Amerigo, that upward gaze of thine,
Rapt with the vague expectance of a seer's
On the fair vision from celestial spheres,
Seems all intent the future to divine,
As though from heaven itself, bold Florentine,
To wrest the secret of the coming years,
Thou fain wouldst question her who thus appears
As the august protectress of thy line.
Is the known world too narrow even now
For thee, predestined pilot of Castile?
And dost thou dream of days when thou shalt plow
Unfurrowed gulfs with lone, adventurous keel,
And steering south beyond the equator's girth
Forever write thy name on half the earth?

—London Tablet.

Proceedings of the Board of Chosen Freeholders of Union County.

[OFFICIAL.]

Adjourned session of the Board of Chosen Freeholders of the County of Union, held on Thursday, July 14th, 1898, at 2:30 p. m.

Roll call showed all members present except Freeholders Miller and Hulskamper—2.

The minutes of the previous meeting, reading of bills being omitted, were, on motion, approved as read.

REPORTS OF COMMITTEES.

By Committee on Bridges in New Providence:

To the Board of Chosen Freeholders of Union County:

Your committee appointed to examine bridge on New Providence avenue, in New Providence, respectfully report that they have examined said bridge, and would recommend that a new bridge be built at a cost not to exceed $175.

Signed,
John F Wahl, John Robison, W. H. Swain, Committee.

Freeholder King moved that the report be received and recommendation adopted, which motion on roll call was unanimously adopted.

By the Committee on County Roads:

To the Board of Chosen Freeholders:

Gentlemen—Your committee on county roads, to whom was referred the matter of widening North avenue, from Elizabeth to Plainfield, in order to provide for the construction of a street railroad thereon, beg leave to report as follows:

During the past few years several efforts have been made by different street railroad companies to obtain a franchise to construct a street railroad from Elizabeth to Plainfield. The territory is a very desirable location for a street railroad enterprise, and no doubt a street railroad properly constructed between the two cities would be a public benefit, and add largely to the market value of real estate along its line. There are six villages betweeen the cities. Public improvements made within recent years have rendered the villages desirable places of residence, but they still need modern street railroad facilities. Different plans and routes have been proposed and advocated. Some who have taken part in the discussion consider merely the local and temporary aspects of the matter, others think it should be treated as a subject of importance to the county, and with regard to the necessities of the future as well as the advantages of the present.

There are two avenues extending from Elizabeth to Plainfield parallel with the Central Railroad, and both are but sixty-six feet wide nearly all the way. A trolley road practically monopolizes eighteen feet of the width of a street. If a street railroad should be constructed on either avenue as now laid out, and 24 feet set apart for sidewalks, but 24 feet would remain for gutters and carriages; that is, two strips each 12 feet wide between the curb lines and the tracks. Neither of these avenues was laid out with a view to accommodate a street railroad; but both will no doubt be occupied by street railroads in the future. It is important, therefore, that these avenues be widened where it is practicable to do so, and the expense of widening should be obtained in consideration of street railroad franchises. One need but look at the condition of First street and West Jersey street, in Elizabeth, and Front street, in Plainfield, where a double track street railroad has been constructed, to see the result of constructing railroads on streets but 66 feet wide.

Last fall the matter of widening North avenue and constructing a street railroad thereon from Elizabeth to Plainfield was examined by a committee of citizens, and they reported that the sugestion was both feasible and desirable. They estimated the cost as follows:

Right of Way	$ 57,500 00
Removal of Buildings	71,300 00
Grading, Pipes, Bridges and Masonry	23,680 00
Twelve Miles Double Track Railroad including overhead work	196,104 00
Cycle Path 12 feet wide	24,010 00
Ten Per Cent for Contingencies	35,259 40
Total	$387,853 40

That estimate, it will be noticed, contained items of $196,104.00 for a street railroad, $24,010 00 for a cycle path and $35 259 40 for contingencies—the contingencies being 10 per cent of the other items. According to the report the cost of widening would amount to $132,480 00 and 10 per cent therecf for contingencies. The report was signed by Messrs. B. A Vail, A. B. Carlton, Jas. T. Pierson, F. W. Westcott, Louis Quien, Alexander Kerr, W. H. Coffey, George W. Doty and Jaspar C Hunt.

The committee, however, did not recommend that the avenue be widened for short distances in Cranford and Westfield because of the expense, and they suggested a route from Fanwood to Plainfield by way of Midway avenue probably for the same reason.

We have endeavored to ascertain whether it is feasible to widen the avenue to 100 feet from Orchard street, in Elizabeth, to Richmond street, in Plainfield, except for a few hundred feet in Cranford, and have had estimates made of the cost of that plan. The cost, according to the estimates, would be $351,838, but that sum, in our judgment, is excessive.

The gentlemen who estimated the value of vacant land required to widen the avenue failed to deduct the benefits that no doubt would be conferred by the improvement on the remaining land of the same owners, and it is manifest that such benefit in many cases would exceed the value of the land required. Nearly all of the unoccupied land along the avenue is for sale for building purposes, but sales of lots are not numerous because most of the property is inaccessible for want of a street railroad. We think that in case of a vacant building lot 200 feet or more in depth, or of a farm abutting on the avenue, the benefit of the improvement to the land remaining would be at least equal to the narrow strips required to widen the avenue, and we are informed that in widening the boulevard across Hudson county a few years ago, that rule was applied, and generally regarded as fair. Of course, where lots are shallow or built upon, damages should be paid, and nearly all cases have been liberally estimated.

We think that $102,481 can be safely deducted from the item of $351,838 for the reason stated above, and by omitting to widen for a short distance in Westfield. In any event, $300,000 would cover the cost of the improvement.

It is, however, inportant in our judgment that the proposed improvement should not be laid out on a plan that would probably cost more than could be obtained for the franchise. We would not be willing to issue bonds of the county to pay the deficiency. For this reason we think that it would be better to adopt a plan more nearly like the plan recommended by the committee of citizens last November, which we are convinced can be carried out without expense to the county. It is still feasible to widen the avenue to 100 feet throughout its entire length, except for a few hundred feet in two localities, and the condition in those localities illustrates the difficulties that would soon extend all along the line unless the avenue is widened now.

We submit maps of the proposed improvement herewith, and recommend that they be adopted and filed, and bids for the franchise solicited by advertisements as required by law. The board may then accept any or reject all propositions, as you prefer.

Respectfully submitted,
J. Martin Roll, Benjamin King, Jas. A. Burnett, W. H. Swain, Committee.

Freeholder King moved that the report be received, and the recommendations contained therein adopted.

Considerable discussion ensued, during which Freeholder Brucklacher said that he was not in favor of the plan as presented, but was in favor of adopting the plan as heretofore presented, which contemplated widening the road through Westfield and Cranford; he would, however, at this time vote for the report of the committee

Freeholder Robison was against any plan that did not contemplate the widening of Westfield avenue 100 feet the entire length of the road.

Freeholder Adams said that the Cranford people were unalterably opposed to the whole plan as recommended.

Freeholder Scudder said that the Westfield people wanted a road 100 feet wide.

Freeholder Roll spoke in favor of the report, and said that the committee would be glad to make the road 100 feet wide, except for the expense involved in Cranford and Westfield. If the bids received were sufficient the road through said two townships could be made 100 feet wide.

Freeholder King's motion was then adopted by the following vote, viz:

Ayes, Director Hubbard and Freeholders Brucklacher, Burnett, Ehrlich, Farrell, King, McCandless, Roll, Swain, Tier and Wahl—11.

Nays—Freeholders Adams, Higgins and Robison—3.

Not voting, Freeholder Scudder—1.

Absent, Freeholders Miller and Hulskamper—2.

NEW BUSINESS.

By Mr. Roll:

Resolved, That the map of Westfield or North avenue, from Orchard street in Elizabeth to Richmond street in Plainfield and of Orchard street in the city of Elizabeth, from Westfield or North avenue to Morris avenue, and in Plainfield on Richmond street, from North avenue to Third street, and thence on Third street to Watchung avenue, and on West Jersey street and Bayway, in the city of Elizabeth, from the present terminus of the street railroad on West Jersey street to Westfield avenue, consisting of fifteen sheets, made by Messrs. J. L. Bauer and F. J. Hubbard, civil engineers, showing the proposed widening, straightening and change of location of said Westfield or North avenues, be and the same is hearby adopted, and that the same be signed by the clerk of this board for the purpose of identification, and forthwith filed in the office of the clerk of the county.

Freeholder Farrel moved the adoption of the resolution, and on roll call it was adopted by the following vote, viz:

Ayes, Director Hubbard and Freeholders Brucklacher, Burnett, Ehrlich, Farrell, King, McCandless, Roll, Swain, Tier and Wahl—11.

Nays, Freeholders Adams, Higgins and Robison—3.

Not voting, Freeholder Scudder—1.

Absent, Freeholders Hulskamper and Miller—2.

On motion a recess was ordered for ten minutes.

On roll call after recess all members were present except Freeholders Hulskamper and Miller—2.

By Mr. King:

Resolved That in pursuance of Chapter 41 of the Laws of 1889, and its supplement and amendments, the following parts of certain highways in the county of Union hereinafter mentioned shall be and the same are hereby acquired and control thereof assumed by this Board of Chosen Freeholders:

1. Orchard street, in the city af Elizabeth, from Westfield avenue to Morris avenue.

2. Union street, in said city, from Westfield avenue to West Grand street.

3. West Grand street, in said city, from Union street to Broad street, and

4. North avenue, in the township of Westfield, from Central avenue to Picton street.

And be it further resolved, That the map heretofore made and adopted, and filed in the office of the clerk of this county, showing the county roads heretofore adopted, shall be changed so as to show that the streets or highways mentioned above have been acquired as county roads, and that a certified copy of this resolution be filed in the office of the clerk of Union county, and recorded in a book heretofore provided and kept for that purpose, as required by law.

Freeholder Roll moved the adoption of the resolution, and on roll call it was adopted by the following vote, viz.:

Ayes, Director Hubbard and Freeholders Brucklacher, Burnett, Ehrlich, Farrell, King, McChandless, Roll, Scudder, Swain, Tier and Wahl—12

Nays, Freeholders Adams, Higgins and Robison—3.

Absent—Freeholders Hulskamper and Miller—2.

By Mr. Swain:

Resolved, That it is the intention of this board to widen, straighten and change the grade and otherwise improve Westfield or North avenue, between Orchard street, in the city of Elizabeth, and Richmond street, in the city of Plainfield, in order to provide for the construction and convenient operation of a street railroad thereon; said proposed widening, straightening and change of location being shown on a map consisting of fifteen sheets, this day adopted and filed in the office of the clerk of the county; and be it further

Resolved, That proposition to construct, maintain and operate a street railroad on North avenue, from Orchard street, in the city of Elizabeth, to Richmond street, in the city of Plainfield, and on Orchard street, in the city of Elizabeth, from Westfield or North avenue to Morris avenue, and in Plainfield on Richmond street, from North avenue to Third street, and thence on Third street to Watchung avenue, and on West Jersey street and Bayway, in the city of Elizabeth, from the present terminus of the street railroad on West Jersey street to Westfield avenue, will be received and considered by this board on the fourteenth day of August, 1898, at the hour of half past two o'clock in the afternoon of that day, at the Court House in the city of Elizabeth, N. J., in pursuance of an act of the last Legislature, entitled, "An act to authorize Boards of Chosen Freeholders to widen, straighten, grade and otherwise improve highways under their control, and to provide for the construction of street railroads thereon," and that at said time and place all parties interested in said matter may be heard; and be it further

Resolved, That this resolution shall be published in the Elizabeth Daily Journal and the Daily Leader published in the city of Elizabeth, N. J., the Cranford Citizen, published in Cranford, N. J., the Union County Standard, published in Westfield, N. J., the Courier News and Daily Press, published in Plainfield, N. J., once in each week until said fourth day of August.

Freeholder King moved the adoption of the resolution, and on roll call they were adopted by the following vote, viz:

Ayes, Director Hubbard and Freeholders Brucklacher, Burnett, Ehrlich, Farrell, King, McCandless, Roll, Swain and Tier—10.

Nays, Freeholders Adams, Higgins, Robison and Wahl—4.

Not voting, Freeholder Scudder—1.

Absent, Freeholders Hulskamper and Miller—2.

By Freeholder Higgins:

Resolved, That a committee of three (3) together with an engineer, be appointed to investigate as to the advisability of widening and building a new bridge on Locust avenue, near the C. R. R of N. J., in Roselle.

Freeholder Brucklacher moved the adoption of the resolution, and it was adopted without dissent.

The director appointed as the said committee Freeholders Higgins, Roll and Farrell.

By Freeholder Adams:

Resolved, That a committee of three be appointed with power to clear the county road of standing water in front of the Opera House block at Cranford, N. J. This stoppage of water is caused by the owner of the Opera House block closing up the two basins which were built by the Board of Freeholders in 1892 or 1893.

Freeholder Farrell moved as an amendment that the matter mentioned in the resolution be referred to the county road committee for investigation, which was so ordered.

By Freeholder King:

Resolved, That the county collector be and is hereby authorized to draw a duplicate check to John W. Murray, Jr., for $20, in the place of one that was lost in October last, upon his giving bond of indemnity.

Freeholder Swain moved the adoption of the resolution, and on roll-call it was unanimously adopted.

Freeholder Wahl moved to adjourn, which was carried.

The Director declared the Board adjourned until Thursday, Aug 4, 1898, at 2:30 p. m.

S. RUSLING RYNO, Clerk.

A SHORT ROAD TO KNOWLEDGE.

How Busy Women Read the News of the Day by Proxy.

The secret is out. It is no longer a mystery how the ladies of the official set of Washington are enabled to discuss intelligently all questions of national and State affairs, as well as all other subjects of the day, social and literary, without neglecting social or home duties.

It has been noticed that at least one morning in the week the thinking aristocracy of Washington arise early, and, in fetching and appropriate costumes, gather at 10:30 in the parlors of the Wimondaughsis Club, on New York avenue.

There, behind closed doors, they meet a brilliant young woman, Miss Janet Richards, who, in a talk of an hour and a half, posts her fair hearers on all the current topics of the day.

In a concise and interesting way Miss Richards, with a wonderful knowledge of current events, explains to them the happenings of the week and the matters likely to be discussed during the coming week.

Beginning with European politics, she reviews the situation there, interspersing her remarks with humor and sarcasm enough to make them interesting. She is pi

SPORTING.

GOSSIP OF THE DIAMOND.

CURRENT BASEBALL NEWS IN AND AROUND PLAINFIELD.

Bits of Information and Comment Gleaned From the Great National Game —Latest Scores of the League Teams

The Raritan nine administered a sounding defeat to the Clinton Avenue Club Saturday afternoon that they will not soon forget.

Baseball seems under a hoodoo this season among the clubs of this section. The latest club to announce that unless better support is given, they will have to give up, is the Cranford team. Everybody here thought that both the Cranford and Westfield teams were decidedly propular and were receiving strong support, but it seems otherwise.

Games Played Yesterday.

At St. Louis:
Brooklyn.... 1 0 2 0 0 0 0 0 0—3
St. Louis.... 0 0 0 0 0 2 0 0 2—4
Base hits, Brooklyn 8, St. Louis 8. Errors, Brooklyn 3, St. Louis 1.

Second game:
Brooklyn.... 2 0 0 3 1 2 0 1 0—9
St. Louis.... 0 0 0 5 2 0 1 0 0—7
Base hits, Brooklyn 13, St. Louis 12. Errors, Brooklyn 2, St. Louis 8.

At Pittsburg:
Pittsburg... 1 0 0 0 1 0 0 2 *—4
Washington. 0 0 0 0 1 0 0 0 0—1

CYCLING COMMENT.

James Conway, of West Seventh street, is riding a new wheel.

Newark is arranging a big bicycle parade for next Wednesday evening. A number of prizes are offered.

The law students who are getting up the series of road races which are to be run soon, are taking entries as fast as they come in. The races are not confined to law students alone, but others, friends of the students, are allowed to compete.

It is a pity that Roy Poole and his rival on the wheel, Peter Simmonds, will not meet in Lister's road race this evening. There is still some hard feeling on the part of Simmonds' friends over the result of the last race. It was hoped, however, that they would meet on this occasion and settle the question of their respective abilities.

There is likely to be a surprise at Lister's race this evening. While there are some fast men on the scratch mark, it is predicted that some of the youngsters are going to show surprising speed. Harry Cuming the crack little rider of the High School, is to start with the minute handicap and it will be a hard rider that is going to pass him. Cuming has taken no part in the road contests so far but he is a young rider who is likely to make a strong showing.

Frederick J. Keer, chairman of the hotel and repair shop committee of the New Jersey Division, L. A. W., announces that the list of official hotels for New Jersey has been completed, the following being the final appointments:

Name.	Place.	Discounts per cent. Day.	Meals
Hasbrouck H. Hotel	Hasbrouck Heights	10	10
Old Homestead	Hasbrouck H's	10	10
Carlstadt Inn	Carlstadt	20	20
The Madison	Lakewood	25 and 33⅓	
Palace Hotel	Hoboken	12½	
Brunner's French Restaurant	Paterson	12½	
Dairy Kitchen and Hotel	Asbury Park	12½	20
Wortendyke Hotel	Wortenkyke	33⅓	30

Probably no publication of the L. A. W. has ever met with such pronounced success as the road book of the New Jersey Division this year. At the office of the secretary-treasurer they are daily in receipt of many letters, congratulating them on the appearance of the book, its value and simplicity. Among these letters is one from a Philadelphian, who is probably one of the most extensive tourists in this section of the country, Frank G. S. Kennedy, in which he says: "Let me thank you for the 1898 book at hand this morning, and also permit me to compliment your division on its handsome appearance and its apparent worth and simplicity. The latter point especially is one of the most important and most often overlooked in such compilations."

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

To those who have occasion to go into upper New York, the sight of the Neptune House, situated just this side of the Harlem river on the New York, New Haven and Hartford Railroad, is no doubt familiar. But few know that this famous hotel, once called the Railroad House, is named after a magnificent St. Bernard dog which was at one time owned by W. D. Williams, of Woodhull & Martin's dry goods store. Mr. Williams gave the dog to the hotelkeeper, who, after the animal's death, erased the former name and painted on it "Neptune House."

* * * * *

On the night when Leal's commencement exercises were held in the Y. M. C. A. hall, over a month ago, a young lady lost a handsome cape in the hall. Notice was given to the general secretary, but no trace of the cape could be found. Now it suddenly comes to light in an unexpected way, and has been returned to the Y. M. C. A., but in the meantime the general secretary has forgotten the name of the young lady who lost it. Some one at the hall that night picked up the cape and took it home, expecting to see it advertised. She kept it a while, then gave it to a friend who remembered that a similar cape was lost at the hall, and turned it over to Mr. Manning.

* * * * *

Several days ago Street Commissioner Gavett met with an experience that was very amusing, and which luckily did not result disastrously. He was riding along West Front street when two good sized dogs made their appearance in the road. They were so close together that Mr. Gavett could not escape them, and he was compelled to do the next best thing—run over them. He did so, and was not thrown from his wheel. Neither of the canines were injured. After he had run over the dogs, one of them ran after Mr. Gavett and tried to catch him by the trouser leg, but was unsuccessful. The little episode was as amusing to the by-standers as it was to Mr. Gavett, and all enjoyed a good laugh.

* * * * *

Persons of not more than ordinary physical power often become possessed of extraordinary strength in an emergency. Not long ago the parsonage of Rev. Charles Francis Taylor, formerly a resident of this city, now of Cranbury, N. J., took fire from a blazing oil stove, and was partly burned. William Alberti Whiting, who lived in this city until recently, picked up and carried out of the house the sewing machine of his sister, Mrs. Taylor, and after the excitement was over it required two men to restore it to its place with difficulty. Three men carried out the heavy piano, and after the fire it was a sufficiently hard task for eight to carry it in again. There seems to be some latent power in mankind that only comes to the surface when there is an especial call for it, for history is full of instances in which even weak and fragile persons have, when occasion called for it, shown a strength and ability which, in the common days, they never even dreamed of possessing.

* * * * *

Groans are heard from Plainfield's many wheelwomen as the morning's promise of a pleasant day for wheeling fades into noonday sultriness and afternoon thunder showers. Two full weeks of miserable weather have reduced two young women to despair of ever being able to ride without coming home in too melting a mood for comfort, and the other night they determined that they would have an enjoyable ride the next day, if it did not actually rain, in spite of heat and humidity. They followed the southern plan of doing their going out before the sun had been up long enough to get up much energy, and started for their bicycle ride at half-past five in the morning. The world was still cool, and they had it all to themselves, except a stray milkman who wished them good morning and a pleasant ride. If the present sort of weather is the only thing the weather authorities have in stock, the example of these young women may well be followed by all who wish to take a ride in comfort.

EARLY INTELLIGENCE.

—The regular meeting of the Borough Council will be held tomorrow evening, when it is expected that business of great importance will be considered.

—There is every prospect that the summer night's festival at the Crescent Cycle Academy this evening will be a great success. It is given under the auspices of Martha Washington Council, No. 23, Daughters of America.

—Sigmund Frucht, the bicycle dealer, went to New York on Tuesday last and purchased at a sheriff's sale 500 Vim cycle tires. They are a select assortment of racing, road and special tires and they will be sold at a low figure.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Constable Pangborn, of Linden avenue, is spending today at Amboy fishing.

Mrs. Anna Spencer, of New York, is visiting her father, Alfred Bonnell, of Manning avenue.

Charles Wittke, of Westfield, has been visiting Sanford Robinson, of West Second street.

Miss Edith L. Burt, of West Seventh street, has returned after a visit with relatives in New York.

Miss Henrietta Bonnell, of Manning avenue, is spending six weeks in the Adirondack Mountains.

Frank B. Probasco, who has been firing on the West Shore R. R., is visting friends in town.

Mrs. Henery Thomas, of Martense Park, L. I., is visiting Mr. and Mrs. G. F. Watts, of Chatham street.

Miss Lillian Zeisz and Miss May Kohler, of the borough, have returned from a visit in Brooklyn and Bath Beach.

Miss Rodman, daughter of Rev. E. M. Rodman, of East Seventh street, has returned to her home after several weeks stay at Wareham, Mass.

Rev. and Mrs. W. E. Honeyman, of Lincoln place, are enjoying the summer in the mountains. They will probably return the latter part of this month.

Augustus Searing, of Westervelt avenue, the well-known electrician, went to Clifton, Hunterdon county, yesterday, to examine a large factory with a view of wiring it.

Rev. A. G. Crofoot, of Jackson Centre, Ohio, who is visiting W. H. Rogers, of Central avenue, is today enjoying the breezes at Coney Island with his host, Mr. Rogers.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

"Love is not what it used to be," so sings the poet. Well, perhaps the poet is right, for love has, no doubt, changed, as has a great many other things. But there is one thing in particular that has not changed, and positively remains the same, and that is the excellence of the entertainments presented by J. H. Haverly's Original American-European Minstrels, who are this evening to appear at the Stillman Music Hall. The annual visit of the "Haverly" is always classed as an event of the theatrical season, and unusual enthusiasm has been aroused this time through the fact of the "always reliable" show coming with even a stronger company than ever before. It would require too much space to mention the names of the entire company; however, it is, suffice to say that an enjoyable performance may be expected, for Haverly never disappoints.

EXCHANGED SHOTS WITH BURGLARS.

Men Who Tried to Enter a Raritan Drug Store Fired On.

(Special to The Daily Press.)

Somerville, August 4.—Three burglars who attempted to enter the drug store of A. B. Rohn, at Raritan, about 1 o'clock yesterday morning had a lively reception. The men were noticed earlier in the evening by "Jerry" Burns, a saloonkeeper, whose suspicions were aroused. He followed them, and saw them begin operations on Rohn's front doors. They had a kit of tools and had bored through the panel when Burns, who was standing behind a large tree not far distant, drew his revolver and ordered them to throw up their hands.

Instead of obeying the burglars began firing at Burns while they retreated. Burns kept up a vigorous fire, and thinks that at least one shot took effect, as one of the men had to be assisted by the others.

Yesterday afternoon a small boy reported that a man with blood on his clothing was lying in the bushes near the river. Constable Corcoran and a large crowd of men and boys beat the bushes for two hours, but failed to find anyone.

WAR NEWS.

CONTINUED FROM PAGE 1.

The people immediately crowded about him cheering. The people then gave away to allow the priest to talk to Wood.

It resulted in their intention being known to the American officer that they wanted American rule. Eight minutes afterwards the American flag was raised over the custom house, amid great enthusiasm.

The surrender of the city is quite important as the railroad leads from there to Guayama, direct to military road to San Juan.

Troops were landed this afternoon at the harbor of Arroyo from the St. Louis and the St Paul, including the Third Illinois and the Fourth Ohio.

FAMOUS LAKE CARNIVAL.

Will Be Witnessed at Asbury Park by Many Plainfielders.

The Plainfielders spending the month of August at Asbury Park or Ocean Grove will witness the famous carnival upon Wesley Lake, which separates the twin cities. It will be held Wednesday night, August 17th.

The event this year will be of more than ordinary interest, and an effort will be made to outdo all previous events of a similar nature. The fireworks display will be more elaborate than last year, and the prizes will be larger, therefore making it a greater inducement for neat and original boat decorations.

Bartow's Beach Band, of Asbury Park, will furnish lively music as the procession of gaily-bedecked boats encircles the pretty lake, and hundreds of colored incandescents lights will add beauty to the scene. Residents along either side of the lake will be requested to decorate their houses and lawns, and if sufficient funds are raised, a prize may be awarded for the most elaborate decorations of this kind.

As a whole the carnival promises to be one of the leading features of the summer's amusements provided for the benefit of guests at public expense. The event is always witnessed by thousands of people, and has come to be a permanent feature.

To Camp at Boynton Beach.

The Passaic Boys' Brigade will go into camp at Boynton Beach Saturday, staying a week. Military discipline will be enforced by the officers in charge.

Sandford Robinson, of West Second street, is spending a week's vacation at Hempstead, L. I.

AN ACT OF TENDER SYMPATHY.

Which Sent One Young Man to Cuba with a Lighter Heart.

A recent traveller to Spain, writing in Blackwood's Magazine, describes a touching scene witnessed at the departure of a regiment for Cuba. All day long there had been heard the measured tread of soldiers, marching through the streets; all day long gaily bedecked boats had been passing to and from the vessel that was to take them to Havana.

The twilight had begun to deepen when the correspondent saw "a startling and pretty sight"—the impetuous action of a portly, good-looking and well-dressed lady, who noticed a young soldier walking dejectedly along down the pier in his travelling gray, with a knapsack strapped over his shoulders.

All the rest of the men had friends, their novias, mothers, relatives, and made the usual gallant effort to look elated and full of hope. This lad had no one, and it might be devined that he was carrying a desolate heart overseas.

The handsome woman burst from her group of friends, took the boy's hand and said: "My son has already gone to Cuba. He is in the regiment of Andalusia and sailed two months ago. You may meet him, Pepe G.; take this kiss to him." She leaned and kissed his cheek.

An English boy would have shown awkwardness, but these graceful Southerners are never at a loss for a pretty gesture and a prettier word.

The boy flushed with pleasure, and still holding the lady's hand, said, with quite a natural gallantry, without smirk or silly smile. "And may I not take one for myself as well, Senora?"

The lady reddened, laughed a little nervously, and bent and kissed him again, to the frantic applause of soldiers and civilians, while the boy walked on braced and happy.

A Conscientious Doctor.

A good true story is told of a San Francisco woman and a doctor with a conscience. The doctor performed a successful operation for a rich woman, and when asked for his bill, presented one for $50. The lady smiled and said, "Do you consider that a reasonable charge, considering my circumstances?" The doctor replied: "That is my charge for that operation; your circumstances have nothing to do with it." The lady drew a check for $500, and presented it to him. He handed it back, saying: "I cannot accept this. My charge for that operation is $50." "Very well," the lady replied. "Keep the check, and put the balance to my credit." Some months after, she received a lengthy itemized bill, upon which were entered charges for treatment of various kinds, rendered to all sorts of odds and ends of humanity, male and female, black and white, who had been mended at her expense. She was so delighted at it that she immediately placed another check for $500 to her credit on the same terms, and it is now being earned in the same way.

Altogether too Practical.

Dolly Swift—"Young Mr. Pensmith, the editor of the Weekly Visitor, has just made me a written offer of marriage."

Sally Gay—"He is a handsome fellow. What will be your answer, dear?"

Dolly Swift—"He is handsome, I'll admit, but I shall be forced to decline him with thanks. He is too horrid business-like. After requesting an early answer, he added: 'Please write briefly, to the point, and upon but one side of the paper. Sign your full name, not for publication, but merely as a guarantee of good faith, and do not forget to enclose a postage stamp if you desire a reply."—English Exchange.

HOSPITAL DONATIONS.

Various Articles Contributed to Make Life Easier for the Sick.

The following are the donations made to the hospital during the past month:

Mrs. D. T. VanBuren, 6 quarts ice cream; Mrs. Morris, 6 quarts ice cream; Mrs. T. B. Brooks, 4 quarts milk; Dr. Bushmore, flowers: Mrs. B. O. Bowers, 25 lemons; Mrs. H. M. Stockton, 12 glasses jelly; Brotherhood St. Andrew, Ladies Home Journal; Mrs. Weihers, vegetables; Mrs. E. Woltman, vegetables; Mrs. A. M. Griffen, old linen; Mrs. H. Hastings, water melon; Mrs. Wilcox, peaches and pears; W. C. T. U., flowers; Mrs. Guion, literature and old linen; Friend, literature and 6 glasses jelly; Miss Webster, literature and old linen; Dr. Probasco, literature; Mrs. H. Cummingham, vegetables; Miss Richardson, flowers; Mrs. G. P. Mellick, flowers; Mrs. Talmage, flowers; T. S. Hunn, Sunday papers; Mrs. Pliny Fisk, vegetables; Mrs. W. D. Williams, flowers; Mrs. E. Serrell, flowers; Mr. A. Neuman, flowers; Mrs. G. W. VanBoskerck, freezer lemon ice; Mrs. L. W. Serrell, literaturt; Mrs. Little, literature; Mrs. Hetfield, glass of jelly.

Constantine P. Ralli Sued.

Constantine P. Ralli, of Belvidere avenue, was sued in Justice Mosher's court yesterday afternoon by Russel O. Howell for a $200 grocery bill. The defendant was not present in court, and the case went against him by default.

Doesn't take Much Money for MEDICINES

Here. That is not nearly so much as they cost in other places. Our prices are ALWAYS LOWER than everybody else's—while quality is better than in most stores—as good as the best in all. All drugs, medicines and toilet requisites are new and fresh.

TRY POWERS' SHERBET.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we don't carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2 25. Men's all wool bicycle suits in fine checks and plaids, worth $7.50, at $2 90 Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.50. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1.98. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $10, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's crash coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats at $2.30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4.75, worth $10. Boys' knee pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

(Special to The Daily Press.)

Elizabeth, August 5.—The Union County Board of Freeholders held a meeting yesterday to receive bids for the franchise for a trolley road between Elizabeth and Plainfield. Only one bid was received, and this was an entirely new one from ex-Congressman John Kean. His previous offer was $100,000, but today he offered $250,000. Mr. Kean's bid was laid on the table until August 10, when a special meeting will be held to consider it.

The Union County League, of which the leading spirits are Alden B. Bigelow and William Drysdale, of Cranford, together with Wright Babcock, of Fanwood, are opposed to Mr. Kean's proposition, and will fight it when the matter comes up for a hearing. They have retained Richard V. Lindabury, ex-Senator F. C. Marsh and Paul Q. Oliver as their counsel.

Mr. Kean's offer is as follows:

To the Board of Chosen Freeholders of the County of Union:

The Elizabeth City Horse Railroad Company hereby proposes to construct, maintain and operate a street railroad on Westfield or North avenue, from Orchard street in the city of Elizabeth to Richmond street in the city of Plainfield; also on Orchard street in the city of Elizabeth, from Westfield or North avenue to Morris avenue; also on Richmond street in the city of Plainfield, from North avenue to Third street, and thence on Third street to Watchung avenue.

If this proposition is accepted it is the intention of said company to construct a double track street railroad on North or Westfield avenue, from Orchard street in the city of Elizabeth to Richmond street in the city of Plainfield, as the same appears widened and straightened on a certain map, adopted by your honorable body and filed in the county Clerk's office, July 14th last; a doube track street railroad on Orchard street in the city of Elizabeth, from Westfield or North avenue to Morris avenue, and a single track street railroad on Richmond street in the city of Plainfield, from North avenue to Third street, and thence on Third street to Watchung avenue, with a siding on Third street 200 feet long, extending easterly from Watchung avenue.

The motive power to be used on said railroad is electricity.

The rates of fare to be charged on said street railroad are as follows:

Between points east of the township of Cranford on the lines of railroad above mentioned, and points in the city of Elizabeth on any line owned or controled by said company, or with which the same may be connected, five cents.

Between points in the townships of Cranford and Westfield, five cents.

Between points west of Westfield, five cents.

Between points in Cranford and Plainfield, seven cents.

Between points in Westfield and Elizabeth, eight cents.

Between other points not above mentioned and not exceeding five miles apart, five cents.

Return tickets between points in Elizabeth and Plainfield, twenty-five cents.

Thirty-three school tickets to be sold for $1, to be good between points where a 5-cent fare is charged for adults, and twenty-five school tickets to be sold for $1, to be good between points where more than 5 cents for a single trip is charged for adults; provided such school tickets are offered between the hours of 8 a. m. and 5 p. m. on days when schools are in session, and when presented by a scholar going to and coming from school, such tickets to be void if detached.

The amount of money to be contributed by said company for defraying the cost of improving the said public highways, or any of them, as indicated in part on the said map adopted by your honorable body on the 14th of July last, is $250,000, and interest at 4 per cent. for ten years on whatever sum, if any, said improvement shall cost in excess of said sum

THE BISHOP DIDN'T COME

DISAPPOINTMENT AT THE COLORED CAMP MEETING.

Bishop Walters Unable to Address the Endeavor Service Last Night—He Will be Here Tonight With Jubilee Singers.

Since Sunday open-air services have been held in the grove opposite the Hotel Hunterston, at Netherwood, under the auspices of St. Peter's A. M. E. church. Camp meetings are still something of a novelty here, especially those conducted by the Methodist church, and these have been well attended.

Church bodies, like all other organizations, are doomed to disappointment. They experienced one last night. Bishop Walters, of New York, one of the trustees of the United Society of Christian Endeavor, the first colored man to hold that office, was unable to be present.

Only six of the jubilee singers arrived, but they sang several selections and the music was enjoyed by all. They will remain over tonight and Bishop Walter has positively promised to be present at that service.

The speakers last night were Dr. W. F. Carpenter, of Brooklyn, Rev. M. D. Peddy, of Newbern, N. C., and Rev. A. J. Davis, of West Virginia, besides Rev. W. B. G. Coster, D. D., pastor of St. Peter's. The congregational singing was led by Charles A. Johnson, of Jamaica, L. I.

The meetings will continue till Sunday, August 14th. Next Sunday Lizzie Babbitt, of Brooklyn, a noted evangelist among her race, will speak. On the 14th, at the closing of the meetings, there will be marching around the grounds, singing of farewell songs, and ending with a love feast.

LOST! A KEG OF BEER.

One Fell Out of Frank Linke's Beer Wagon—Found by Officer Flanagan.

Lying under the Liberty street railroad bridge yesterday afternoon, Officer Flanagan found a keg full of liquid and labeled "Pale Beer." By marks on the keg it was found to belong to Frank Linke, and it probably dropped off one of the wagons as it drove through that part of the city.

Officer Flanagan loaded the keg on a truck that was passing, and the truckman took it to Linke's. The officer expressed great surprise that someone had not found the beer, for a crowd of young men and boys had been hanging around the corner of Third and Liberty streets all the morning, and would have no doubt made short work of the contents of the keg had they found it.

EARTH DIDN'T SETTLE ENOUGH.

Telephone Company Must Level Off Trenches Made by Them.

Manager Runyon, of the N. Y. and N. J. Telephone Company, met with the members of the street committee last night and talked with them about leveling the ditches in the various streets where the telephone conduits were laid.

The earth thrown in over the conduits is packed so well, even better than the telephone company expected, and so far has refused to settle as much as was expected. Mr. Runyon promised to make the work satisfactory.

Y. M. C. A. Gym to Close

During the month of September the Y. M. C. A. gymnasium will be closed to permit some necessary repairs to be made. The apparatus in the gymnasium will need tightening and overhauling, and the swimming tank is to be painted. This alone will take a month, one week for the tank to dry, another to paint it and two weeks more to let the paint thoroughly dry.

First Time Arrested.

Patrolman Cash found a man in a sadly bemuddled state last evening and locked him up until morning on the charge of being drunk. He was arraigned before the City Judge this morning. He gave his name as Peter Peterson, of Clinton avenue. First time he had ever been arrested, he said. The Judge suspended sentence.

Surface Drain Work.

Patsy Christmas, the contractor, is making excellent progress on Plainfield avenue in laying the surface drainage pipes underground. The job is being done in a very satisfactory manner to the street commissioner. The contractor hopes to finish his work by next week Wednesday.

Adventist Tent.

Tonight the subject will be "The Seven Churches of Revelation." Tomorrow at 3 p. m. Sabbath service, and at 8 p. m. preaching. Sunday night Rev. A. A. Phelps will occupy the pulpit.

To Start the Work Soon.

Wyman & Haberle, contractors, who were the successful bidders for the work of erecting a new engine house in the West End, will start the work at an early date.

THE ARMY COMES HOME.

First Detachment of Shafter's Troops Sails.

OTHERS TO FOLLOW.

OUR BOYS TO BE BROUGHT FROM CUBA AT ONCE.

One Transport Has Sailed for Montauk Point and Others are Loading at Santiago—Shafter Received the Orders Thursday.

(From the Union Associated Press.)

Santiago de Cuba, August 4, via Playa del Este, August 5, 11:55 a. m.—Gen. Shafter received orders at 11:45 o'clock this morning to remove the entire army north immediately.

There are six transports here which will take the first shipment. The embarkation will begin tomorrow. There was great rejoicing among the troops when the substance of the order became generally known.

There is great bustle and activity at headquarters to comply with the orders. Three transports are expected soon. A dozen vessels will soon be carrying the soldiers back to the United States.

The first troops to go north will be the Third and Sixth Regiments of regular cavalry, the First Regular and First Volunteer Cavalry, which includes the Rough Riders. Col. Wood will remain behind as military governor.

Those suffering from yellow fever or any other infectious disease will be left behind. Every precaution will be taken to provide safe and healthy transportation for the troops.

Washington, August 5, 1 p. m.—The first transport containing soldiers of Gen. Shafter's army at Santiago has already left there for Montauk Point.

There are eight others off Santiago which will be loaded immediately with troops. The entire command should be transferred by the 20th.

The First Immune Regiment has reached Santiago and four others are expected there shortly.

WILLING TO SURRENDER.

Spaniards at Manzanillo Demoralized By Bombardment.

(From the Union Associated Press.)

Santiago de Cuba, August 4, via Playa del Este, August 5, 1:17 p. m.—The warships Massachusetts and Dixie arrived here this afternoon and started coaling. The commander of the Wilmington reports that the Spaniards at Manzanillo are demoralized and would quickly surrender.

PARTICULAR MENTION.

Mrs. Dalley, of Manning avenue, is recovering from a severe illness.

Mrs. Francis Whitely, of Steiner place, is confined to the house by illness.

Senator Reed will go to Belmar tomorrow to spend Sunday with his family, who are stopping there for the summer.

Horsley Barker, of Grove street, spent yesterday with his wife and daughter, who are visiting friends on Staten Island.

Tomorrow P. B. Hodge and family, of Plainfield avenue, who have been stopping at Asbury Park for a week, will go to Somerville and spend a week of their vacation with relatives.

Mrs. A. J. Hope, a guest of the Revere House, gave a box party last evening to a number of the ladies of the Revere House. They seemed to enjoy the performance of Haverly's Minstrels immensely.

HARD LIFE WITH THE AMBULANCE TRAIN.

Daniel C. Main Tells of Army Tribulations in Cuba.

STALLED BY RAIN AND MUD.

MULE CARRIED HIM ACROSS STREAM IN A HEROIC MANNER.

Took a Ten-mile Drive After General Chaffee, But Latter Decided Not to Use the Ambulance After All—Without Food All Day He Underwent Privations, Bringing on Malarial Fever.

Daniel C. Main, who is with the ambulance train with Shafter's army in Cuba, has written the following very interesting letter of his experiences to his father, Rev. A. E. Main, pastor of the Seventh-Day Baptist church:

Am just recovering from a few days' attack of fever, but am nearly well, so that I can eat heartily and do considerable work. We are hearing all sorts of reports about this part of the army; that it has done its share of the fighting; that we are soon to go home; that we are to draw double pay; and so on. For one thing I should like a permanent camp. One night we are in the mud, the next on a mountain; one day we have three full meals of beans, bacon, hard tack and coffee, the next day but one meal.

Our ambulances are busier carrying sick men now than we were with wounded men during the fighting, excepting that we do not have to work nights. What brought my fever on was being sent out one morning before breakfast with my ambulance on a ten-mile drive after Gen. Chaffee. The roads were muddy and it took us till 11 a. m. to reach his headquarters. He kept us ttil 1:30 p. m., and then decided not to return with us. In the meantime it had begun to rain, and at 5 o'clock we were still five or six miles from camp. You know nothing of mud; when four mules are pulling an ambulance through mud three or four inches deep, they are working. At 5 o'clock we crossed one creek, and it was dangerous there; but one-hundred yards further on there was a larger stream so swollen that an army wagon was stalled, and men on horse and mule back had to start away up stream on the opposite bank, in order to reach the place in the bank on our side where the road was.

We had picked up three patients on the way; and six of us, the colored driver, the patients, the civilian doctor who had been sent to care for the General on the trip, and myself, made ourselves as comfortable as possible with a night before us, minus food and bedding. About 7:30 I had grown pretty hungry, having had nothing all day, so I took one of the mules, managed to cross the stream which was running at terrible speed, and started on for our camp. I crossed three more creeks about as bad as the first, swimming the mule each time. At one place the only road was down the creek bed about 100 yards. The water had never been over two or three feet deep before, with a good gravel bottom, but then it was from four to six. How the mule found the landing I do not know, but find it he did, and, getting on his back again, I proceeded. The best of the road was at least knee-deep with mud, and it nearly 11 o'clock p. m. when I reached camp. I expected to carry food right back to the ambulance, but our doctor said I must not do that as wet as I was, but go to bed, and early in the morning return to the ambulance with the mule. This I did, and we got in with the ambulance about noon. The creeks were still high, but had gone down enough so we could cross them. That afternoon I had a high fever.

Am hoping we shall move nearer Santiago, now that it has surrendered; and we may come home by fall. Have received the first mail for over a month, I believe.

Now that the fighting is over, our camp has been made a medical distributing station as well as an ambulance station, and two of us, on account of our knowledge of drugs, have been placed in charge. For a few days we worked ourselves nearly to death, then we protested and a third man was added, one that I knew in New York. We handle the medicines, dressings and delicacies for the whole army. Each brigade surgeon sends a requisition to us for what he wants, and we put it up. Some orders are large, some are small, and they keep us hustling mornings, but we do not have much to do afternoons.

We get up about 5 o'clock a. m., build a fire out of doors whether it rains or not, go to a side of bacon that hangs on a tree limb and cut off what we want, and fry it in one-half

AGUINALDO HEARD FROM.

Writes Letter to American Consul Wildman.

HE COULD TAKE MANILA.

AMERICA, NOT HE, TO SAY FOR WHAT HE IS FIGHTING.

Read In Newspapers That He Was Getting the Big Head—Will Not Blindly Outline a Policy—Does Not Take Manila to Save Men.

(From the Union Associated Press.)

Hong Kong, August 5, 12:30 p. m.—The following message from the insurgent leader in the Philippines has been received by United States Consul Wildman at Cavite.

"I have read in the newspapers that I am getting the big head and am not behaving as I promised.

"In reply, I would ask why should the Americans expect me to outline my policy for the present or future and fight blindly in their interests when America will not be frank with me.

"Tell me, am I fighting for annexation, protection, or independence? It is for America to say, not me.

"We can take Manila now as we have defeated the Spanish elsewhere but what would be the use. If America takes Manila, I can save my men and arms for what the future has in store for us.

"Now good friend, believe me, I am not a fool and a rogue. The interests of my people are as sacred to me as are the interests of your people to you.

"Aguinaldo."

OPPOSE LANDING.

Spanish Erect a Small Battery at Fajardo Where War Ships Are.

(From the Union Associated Press.)

Off Fajardo, Porto Rico, August 4, via St. Thomas, August 5, 1:23 p. m.—The warships are gathering here awaiting orders. The Spanish have erected a small battery to oppose the landing of troops.

INITIATED BY VISITING TEAM.

Four New Members Conducted Into Norah Dove Encampment.

Noah Dove Encampment, No. 28, I. O. O. F., had a big time last evening, when four members were initiated into the order by the crack team from the Encampment from South Trenton. The team consisted of twenty-six members and they won admiration from all present for the way in which they did their work.

After the business of the evening all adjourned to Washington Hall, where a bountiful repast was served by a committee in charge. At the banquet there were a number of members from Queen City and Plainfield Lodges, I. O. O. F. Excellent speeches were made and several vocal solos were given by the visiting members. The visitors left town on the 1:17 Philadelphia train.

Cool at the Shore Yesterday.

Those who joined the excursion to Asbury Park yesterday were glad of it. There was an exhilirating breeze blowing off from the Atlantic ocean and its cooling effect was in delightful comparison to the sweltering heat which prevailed in Plainfield yesterday. The excursion trains were well managed and everything passed off pleasantly. The churches represented in the excursion were the Crescent Avenue Presbyterian and its chapels, Grace and St. Stephen's Episcopal.

A Timely Topic.

Rev. Carlos Martyn, D. D., of New York, who preaches in Trinity Reformed church Sunday morning and evening next, will speak on "American Citizenship in the Light of Spanish War," at the evening service.

WANTED HER CHILDREN

DEPRIVED OF THEM THE MOTHER'S RAGE TOOK FORM IN BLOWS.

Mrs. Emma Freeman Accused of Assault by Her Sister-in-Law, Mrs. Orrisetta Garrison—Held to Keep Peace.

Justice Mosher's court was the scene of a lively squabble yesterday afternoon between two colored women, one whom said the other struck her Wednesday.

Mrs. Orrisetta Garrison was the complainant, and her sister-in-law, Mrs. Emma Freeman, the defendant. Loud talking was indulged in on both sides, and it was only after repeated calls to order that the Judge could secure quiet.

About a year ago, so Mrs. Garrison alleged, Mrs. Freeman was threatened with arrest for beating her little children. She left the town and during her absence Mrs. Freeman's husband, who is Mrs. Garrison's brother, took his children to Mrs. Garrison's for safe keeping.

When Mrs. Freeman returned she began to make trouble for her husband and Mrs. Garrison over the children. Finally Wednesday night the quarrel culminated with a visit to Mrs. Garrison's house and a demand for the children. The demand was not complied with, and so Mrs. Freeman, in her rage, struck the other woman several blows over the shoulders.

As soon as Mrs. Garrison could escape she went to Justice Mosher and swore out the complaint, and yesterday Mrs. Freeman was arrested. Mrs. Garrison's story was corroborated by two witnesses, who stood near and saw the assault, Mrs. Rachel E. Stevens and Mrs. Addie TenEyck, and the defendant was held in the sum of $100 bonds to keep the peace for six months.

MID-SUMMER NIGHT'S FESTIVAL.

Successful Affair Carried Out by Daughters of America.

A mid-summer night's festival was held in the Cycle Academy last evening under the auspices of Martha Washington Council, No. 23, Daughters of America, and the affair was fairly successful. Music for dancing was furnished by Nathan Guttman, and was a feature. The committee in charge consisted of Gilbert Sutphen Martin, chairman; Mrs. T. S. Riker, secretary; George Allen, treasurer; Fred Walsh, Mrs. Fred Walsh, Garret Mattis, Mrs. George Allen, Mrs. Hoffman, Mrs. Smith and Mrs. Thompson, and they did all in their power to make the evening one of pleasure for those who attended.

NO BIDS ACCEPTED YET.

Board of Education Defer Awarding Contracts.

Last evening the Borough Board of Education met for the purpose of opening the bids for the construction of the new school house to be erected in the borough. A number of contractors, all bidders, were present, but they were not allowed to attend the meeting, except as the board desired to ask some question about a bid. The meeting was not a very long one, and the board finally decided to adjourn to this evening. No decision was reached last evening and not one of the bids was accepted. It is expected that the contracts will be awarded at the meeting this evening.

ITALIANS QUARRELSOME.

One Who Threatened to Kill Held to Keep the Peace.

A dispute between two Italian laborers in Smalley Brother's stone crusher, was aired in Justice Thomas' court Wednesday evening. Salvatore Vumpoka was the complainant. He charged John Baptiste Caffatilla with threatening to kill him and to cut out his heart. The prisoner was held in $200 bonds to keep the peace. Isaac P. Runyon appeared for the complainant. The alleged trouble occurred at an Italian resort in Prideville.

His Ninth Birthday.

Master Walter Scriven, of the Babcock building, entertained a number of his young friends yesterday afternoon in honor of the anniversary of his ninth birthday. The afternoon was passed in playing games, after which refreshments were served. Those present were: Edna and Walter Kennedy, Sadie and Phillip Leinchentritt, Roy Titsworth, Florence Scriven, Phillip and Boardman Mosher, Ethel Rogers, Jessie Smith, Walter and Elmer Scriven.

Washout on West Third Street.

The heavy rain last night caused another washout on West Third street, near Clinton avenue. The soil is soft and porous there and the washout is only a repetition of what has occurred in that locality before. It will be repaired as soon as possible.

RAY POOLE WINS FRESH LAURELS.

Finished Second in Harry Lister's Road Race.

HE WON FIRST TIME PRIZE.

RICHTER, WHO FINISHED FIRST, IS PROTESTED BY OTHERS.

Claimed He Did Not Make Last Turn—Checker's Record Shows He Did—Winner of Irvington-Milburn Race Took Second Time Prize—Many Witnessed the Race—Twenty-two Starters.

The second of Harry K. Lister's road races took place last night, and, like the first, was decidedly successful. It was held early in the evening ever a course of 15 miles laid out Park avenue between Plainfield and Pumptown.

There is just a shadow of doubt as to the winner of the race, and the judges are still withholding their official report, but there seems little doubt but that Eugene Richter, of Netherwood, will be declared the victor. The time prize unquestionably goes to Ray Poole.

The race lay between the men with the low handicaps. Fifteen miles with the heavy wind of last night was too strong a pull for the limit men and they succumbed one after another.

There were twenty-two men who faced the starter. Lewis Peterson and Clarence McMurtry were the first to start with four minutes handicap. McMurtry punctured his tire at Holly's Corners. Peterson gave out after riding seven miles. H. Ratbjen and M. Owens also quit.

The race sarted on Park avenue, just north of Randolph road. The course was out to Pumptown and return to Avon Park turning about Campbell's road house, to Pumptown again and back finishing where they started.

When they reached Campbell's after covering half the distance, Clarence Rittenhouse was well in the lead, riding all alone. Then came a bunch of the 1 minute, 30 seconds men who had held together and after them the scratch men. Jorden Hanson and John Cunningham, of Perth Amboy, and Ray Poole, of this city, were the scratch men. While passing Avon Park, a carriage turned into the path of Cunningham, throwing him. He mounted again and caught the bunch only to puncture his tire on the long hill to Pumptown. Richter was with them.

The scratch men overhauled the bunch and went on, acccompanied by Harry Cuming, Joseph Burke and Charles Dodd. Richter says that he ran away from that bunch on the Oak Tree hill and came on alone. At any rate he came flying over the tape, a hunder yards in advance of the bunch, riding hard. His tire was nearly flat.

There was a pretty sprint by the men in the bunch. Poole jumped out and led over the tape with Dodd second, Cuming third and Hanson half a wheel behind him. Burke was pushing the Perth Amboy man closely. Sorensen and Westerfield came in together with Rittenhouse not far behind. Then the crowd broke ranks and the other riders who finished had to dodge pedestrians and carriages to cross the tape. The crowd finally became so great in the roadway that the stragglers, knowing that they were not placed, made no attempt to pass the judges.

A protest was made against Richter by several riders, the claim being made that he did not make the last turn at Pumptown. Vernie Waters, the checker there, however, had checked him all right on the last turn. It was claimed that Richter had said that he did not make the turn. When interviewed by one of the judges, he declared that he had completed the entire course. With the evidence of the checker, it looks as if Richter would receive first.

First time prize wet to Poole. Hanson, the Irvington-Milburn winner, was three-fifths of a second behind him and received second time prize. The order of finish of the first thirteen men, with their corrected time, was as follows:

ORDER OF FINISH.

Name and Residence.	Hand. Minutes.	Time.
Eugene Richter, Netherwood..	1	38:02
Ray Pool, Plainfield.....	Sc.	37:50
Charles Dood, Elizabeth.....	1½	39:20 1-5
Harry Cuming, Plainfield.....	1	38:50 2-5
Jorden Hanson, Perth Amboy..	Sc.	37:50 2-5
Joseph Burke, Plainfield.....	1	38:50 4-5
Yep Sorensen, Plainfield.....	1½	39:24
Charles Westerfield, Plainfield.	1½	39:24 1-5
Clarence Rittenhouse Plainfi'd.	3½	41:26
John B. Terry, Jr., N'w B'w'k.	1	38:59
Edward Thomas, N'w Br.wi'k..	1	38:59 1-5
Morris Sorensen, Plainfield.....	1½	40:23
Henry Angerbauer, Plainfield..	3	41:54

Fred. Kroaner, of Plainfield, was next, but his time was not caught.

Harry K. Lister acted as clerk-of-the-course and starter. The judges were Thomas A. Cuming, Charles B. Morse, H. L. VanEmburgh and Chauncey Stout. The timers were J. W. VanSickle, Lindley M. Hillman and Clarence Rogers.

SOLDIERS COMING HOME

Part of Shafter's Men Now on Their Way. More to Follow.

IT MEANS DEATH TO STAY

The Santiago Troops Ordered Relieved from Further Duty There and Will Be Hurried North as Fast as Transportation Will Allow—Ships for Spanish Prisoners—Five Regiments of Immunes Will Garrison Santiago.

Washington, Aug. 5.—Upon being informed of the formal request made by the generals of the American army at Santiago to have their men moved immediately to the United States, the war department officials stated that this request has been anticipated, and that the department had been directing the best part of its energies to the return of General Shafter's forces to the United States. It has also provided for their reception in an ideal camp at Montauk, L. I., and orders were sent forward yesterday to begin the homeward movement by embarking at Santiago five cavalry regiments of Shafter's force, including Roosevelt's Rough Riders. It is the intention of the department, and General Shafter was instructed to so inform the troops publicly, to conduct this movement as rapidly as the resources of the government will permit, having a regard for the safety of the men themselves. It was not deemed possible nor desirable to bring them all here at once, not only from the lack of transports, but for medical reasons, the physicians representing that a sudden change in climate probably would kill many of the soldiers who have not passed the convalescent stage.

So it was the purpose to remove to the mountains back of Santiago such of the command as could not be embarked immediately, in order to place them in the best possible hygienic surroundings while they were waiting for their turn to come to go aboard ship. So far General Shafter has made no formal report of the meeting which took place at Santiago resulting in the presentation to him of the request of the commanding generals.

An Official Statement.

The following official statement has been issued:

War Department,
Adjutant General's Office,
August 4, 1898.

The secretary of war has ordered General Shafter's troops relieved from further duty in Santiago, as fast as transportation can be provided, and the transfer of Spanish prisoners will admit of reduction of the garrison.

American transports now at Santiago have the following respective capacities:

Catania, 800; Gates City, 600; Grand Duchess, 1,200; Miami, 900; Mateawan, 720; Vigilancia, 800; Olivette, 500; Berkshire, 250; total, 5,770.

These will sail for New York as fast as they can be comfortably embarked.

Against Havana.

The rest at Montauk Point will prepare these seasoned troops for the campaign against Havana, in which they probably will take part. The first transport left Santiago yesterday. The movement is expected to be completed by the 20th of the month. Five United States volunteer regiments, immunes, have been ordered to Santiago for garrison duty. The first has already arrived, and the others are being pushed forward as rapidly as transportation can be furnished.

The movement north has been greatly accelerated by the following letter to General Shafter:

Col. Roosevelt's Letter.

Major General Shafter:

Sir: In a meeting of the general and medical officers called by you at the palace this morning, we were all, as you know, unanimous in view of what should be done with the army. To keep us here, in the opinion of every officer commanding a division or a brigade, will simply involve the destruction of thousands. There is no possible reason for not shipping practically the entire command north at once. Yellow fever cases are very few in the cavalry division, where I command one of the two brigades, and not one true case of yellow fever has occurred in this division, except among the men sent to the hospital at Siboney, where they have, I believe, contracted it.

But in this division there have been 1,500 cases of malarial fever. Not a man has died from it, but the whole command is so weakened and shattered as to be ripe for dying like rotten sheep when a real yellow fever epidemic, instead of a fake epidemic like the present, strikes us, as it is bound to do if we stay here at the height of the sickness season, August and the beginning of September. Quarantining against malarial fever is much like quarantining against the toothache. All of us are certain, as soon as the authorities at Washington fully appreciate the conditions of the army, to be sent home. If we are kept here it will in all human possibility mean an appalling disaster, for the surgeons estimate that over half the army, if kept here during the sickly season, will die. This is not only terrible from the standpoint of the individual lives lost, but it means ruin from the standpoint of the military efficiency of the flower of the American army, for the great bulk of the regulars are here with you.

The sick list, large though it is, exceeding 4,000, affords but a faint index of the debilitation of the army. Not 10 per cent. are fit for active work. Six weeks on the north Maine coast for instance, or elsewhere where the yellow fever germs cannot possibly propagate, would make us all as fit as fighting cocks, able as we are and eager to take a leading part in the great campaign against Havana in the fall, even if we are not allowed to try Porto Rico.

Can Be Moved at Once.

We can be moved north, if moved at once, with adsolute safety to the country, although of course, it would have been infinitely better if we had been moved north or to Porto Rico two weeks ago. If there were any object in keeping us here, we would face yellow fever with as much indifference as we face bullets. But there is no object in it. The four immune regiments ordered here are sufficient to garrison the city and surrounding towns, and there is absolutely nothing for us to do here, and there has not been since the city surrendered. It is impossible to move into the interior. Every shifting of camp doubles the sick rate in our present weakened condition, and anyhow, the interior is rather worse than the coast, as I have found by actual reconnoisance. Our present camps are as healthy as any camps at this end of the island can be.

I write only because I cannot see our men, who have fought so bravely, and who have endured extreme hardship and danger so uncomplainingly, go to destruction without striving, so far as lies in me, to avert a doom as fearful as it is unnecessary and undeserved.

Yours respectfully,
THEODORE ROOSEVELT,
Colonel Commanding First Brigade.

PEACE COUNCILS IN SPAIN.

Sagasta Awaits Another Reply from Us—Conferences To-day.

Madrid, Aug. 5.—A council was held at the palace yesterday, the queen regent presiding. Senor Sagasta made a statement dealing with the peace negotiations and General Correa made a statement in regard to Porto Rico. He denied that Colonel San Martin had been shot, but confirmed the report of the suicide of Colonel Ruig.

No reply from Washington had been received and consequently the ministerial council, which was to have been held later, was postponed until to-day, to enable Premier Sagasta to confer with the leaders.

He made appointments to confer with Senor Montero Rios at 3 o'clock, Senor Vega de Armijo at 4, General Martinez Campos at 5 o'clock, and the Duke of Tetuan and Senor Romero Robledo at 6 o'clock yesterday afternoon. Senor Capdepon has also been summoned to a conference. Great interest is evinced in the result of these conferences.

London, Aug. 5.—The Madrid correspondent of the Times says:

"Though peace is regarded as assured, it may not be attained so quickly as is generally expected. Senor Sagasta objects to being hustled and insists upon everything being done in a quiet, orderly and dignified manner. He considers it necessary to have full and satisfactory explanations as to all doubtful points in order to enable him best to protect the national interests against the aggressive tendencies of the Washington cabinet.

"He has also to examine very minutely the exigencies of the internal situation and home politics, so as to avoid popular dissatisfaction and political unrest. The Spanish people, although sincerely desirous of peace, are disposed to admire the hesitancy and tenacious holding out till the last, although aware that it implies greater sacrifices.

"As an illustration of this feeling, while General Toral is blamed for capitulating at Santiago, Captain General Augustin, continuing a hopeless resistance at Manila, bids fair to be a popular hero. It would be premature to suppose that the political consultations now proceeding foreshadow the resignation of the Liberal cabinet when peace is concluded. The Conservatives have so constantly and loyally supported Sagasta throughout the war that no factious opposition need be feared from them."

The Madrid correspondent of the Daily Mail says:

"The government has not yet answered the American note nor received President McKinley's reply to the explanations asked for by Senor Sagasta. The Premier said to-day that the government would reply to the American demands early next week.

"In consulting the party leaders, Sagasta is following the precedent of Castelar, when the Virginius affair threatened war with the United States. It is not probable that he will resign as a result of the conferences.

"The premier is inclined to rush the treaty through without convoking the cortes, trusting to get a bill of indemnity next month, but the party leaders are not likely to consent to this course."

Killing Rabbits for Their Fur.

Out on the plains they are killing jack rabbits by the hundreds for the fur hat trade. The rabbits are so numerous on the Western Kansas plains that they can be scared up by the score simply by dragging over the sod a long wire that will brush the grasses. Behind this, as horses haul it forward, come the hunters, and they shoot the hares without mercy, filling the wagons by the end of the day. The skins are quoted as follows: Good skins, 3 cents each; damaged, half price; culls and pieces, 5 cents a pound; cottontail rabbits, 3 cents a pound. The Kansas farmers are putting in their time in this way and are making money.

Something to Learn.

As Mr. Ruffedge sat down after having elbowed his way back from a between-acts trip, he happened to see some Japanese students sitting farther in front.

"A great many Japanese come over to this country to get civilized, don't they," he remarked. "I suppose it takes them a good while to get used to our ways."

"I suppose so," replied Miss Cayenne. "And I don't think those young men have been here very long."

"Why?"

"I haven't seen one of them climbing over the people between him and the aisle every time the curtain went down.—Washington Star.

A Misinterpretation.

Mrs. Dewtell—It aggravates me orful tew hear people lie,

Mr. Dewtell—What's ther matter neow?

Mrs. Dewtell—Why, ol' Cy Prime wuz talkin' terday 'bout "our furrin' relations," when I know puffeckly well there haint never bin a Prime thet didn't live in Podunk.—New York Journal.

PORTO RICO AFFAIRS

The Subjugation of the Island Is Likely to Take Some Fighting.

MORE TROOPS GO FORWARD

Reasons for Changing the Road—Gen Stone at Utuado—No Fighting Expected for Several Days—Roads and Cliffs Mined—Departure of the Transport Hudson—The Manitoba Ready to Sail.

Ponce, Porto Rico, via Kingston, August 4.—A flank movement was practically begun yesterday by the occupation of Adjuntas, eighteen miles above here, on the road to Arecibo, the second principal seaport on the upper coast.

The San Juan road between Juana Diaz and Coamo is mined; the cliffs are also filled with explosives, necessitating the change to the Arecibo road, and thence along the upper coast to San Juan.

General Stone, with Company C, Second Wisconsin, pushed forward to Utuado, fifteen miles beyond Adjuntas, today. No enemy was encountered.

The road from here is impracticable for artillery and wagons. Cavalry and infantry are all right. Transports will take the others to Arecibo, and there is a good road thence to San Juan.

The inhabitants of Adjuntas and Utuado are enthusiastic over the advent of the Americans.

Ponce, Island of Porto Rico, August 4.—So far as is known, no further forward movement will be made by the American troops until the arrival of more transports, which are expected hourly.

There has been no fighting up to the present, so far as is known. The Spaniards are expected to make their first stand at Abonitas, thirty-five miles from here, where two or three thousand Spanish regulars are believed to be intrenched.

The present prospect is that there will be no actual fighting for several days.

Ponce, August 3, via Kingston, Jamaica.—The Spaniards are reported to be advancing, though this is not generally believed. In addition to the regular fortifications at Abonitas, on the road to San Juan, it is reported that the Spaniards have mined the cliffs, preparatory to blocking the road if obliged to retire.

San Martin, the Spanish commander here, who evacuated this place without orders, is a prisoner at San Juan de Porto Rico. He will be tried for cowardice and will probably be executed.

Norfolk, Va., Aug. 5.—Half of the First Kentucky regiment of volunteer infantry, 650 in number, under command of Lieutenant Colonel Bellnap, sailed for Porto Rico last night, their ship, the Hudson, leaving the capes at 12.30.

The Manitoba, another transport took her place, and the order was given by Major Castleman to the two batteries of artillery, A and C, and the Governor's and Sheridan troops of cavalry from Pennsylvania to break camp. They got their equipments together in short order, and marched down to the Casino grounds, and later the order was given to go aboard the Manitoba, upon which is also part of the Sixteenth Indiana. The Pennsylvanias number 548 men and have 354 horses. This large number, together with the equipments and stores, makes it very uncomfortable on the vessel. The other transports are anxiously looked for but as yet none has been sighted.

General Grant and his staff will go on the Yale, which vessel will probably be the last one to leave, but with her great speed she should overtake the slower vessels. The Third Kentucky will go on the same ship as their general. As soon as the Leona arrives the other half of the First Kentucky, 650 men, will embark. On the Alamo, Colonel Grunder, with 650 men from the crack One Hundred and Sixtieth Indiana, will embark, and on the Concho, the transport of unsavory reputation, 600 men of the same regiment, under Lieutenant Colonel Geiger, will take passage, while Lieutenant Colonel Richard, with 470 men of the Sixteenth Pennsylvania, will sail on the Rio Grande. It is possible that the Hudson and Manitoba may sail this afternoon and Saturday should see the whole of Grant's brigade on their way to the seat of war. The health of the men with the exception of those in hospital is excellent, and they are full of fight. As one big Indiana soldier expressed it, "We only want to get there before this peace business overtakes us."

Watson's loaded colliers and the Massapequa and Mahansett, the two ships flying the British flag, are still anchored in Hampton Roads for an indefinite period, it appears now. The Sterling, another collier, joined the fleet to-day. The auxiliary cruiser Yosemite, which is having her coal bunkers steel lined, her machinery overhauled and repairs made to her forward five-inch guns, which expanded at the muzzles from too rapid firing at San Juan. The ugly and almost useless ram Katahdin is here. A survey was held on her and extensive repairs ordered. The Dolphin, which sustained serious injuries in a collision with the Newark, has about completed repairs and is ready to sail.

The Buena Ventura Sold.

New York, Aug. 5.—The first prize steamer captured by the Americans during the present war, the Buena Ventura, was sold yesterday to the highest bidder for $12,200. The sale took place at pier 20, East river. The first bid of $2,500 was made by Hugh King. The figure then rose by $100 bids all the way to $12,200, which was called out by Lewis Luckenbach, at which price he got the vessel. The price is considered a fair one.

The Buena Ventura was captured by the gunboat Nashville off Key West, on April 21. Another distinction of the vessel is that she was the first to pass through the Suez canal. She is of 1,348 tons net and 1,763 gross; length 280 feet, breadth 36 feet, depth 26 feet. She was built at Sunderland, England.

New Jersey's Greatest Store.

HAHNE & CO. NEWARK.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

NOTICE
to all interested in
Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

A BAD HOSPITAL SHIP.

About 200 Soldiers Were Sent Home in a Floating Stable.

Washington, Aug. 5.—The war department has on its hands still another hospital ship scandal. Information has reached the department that the condition of affairs on the Santiago, which has arrived at Egmont Key, Fla., with sick and wounded on board, is fully as bad as that of the Seneca and Concho.

The Santiago arrived at the quarantine station, Egmont Key, several days ago, and since then the sick soldiers have been kept aboard ship. The vessel was last used for transporting the horses of Gen. Randolph's artillery brigade to Santiago, and was converted into a huge stable for that purpose.

After the ship had discharged her cargo General Shafter was in great haste to send the Santiago back to Tampa for use in transporting troops and supplies to Porto Rico. It is reported unofficially to the war department that the Santiago was started on the return trip without having been cleaned. Also, she was made to carry about 200 sick officers and men.

She still has these on board, while the quartermaster'e department is making slow arrangements to carry the officers and men to New York on the San Marcos.

NAVY DEPARTMENT NEWS

The Alcohol Trust. The Question of Fast Battleships.

Washington, Aug. 5.—The report of a trust among dealers in spirits interest naval officers greatly, as alcohol enters into the composition of smokeless powder, of which the navy department will buy one million pounds. Any increase in the cost of this article will add to the expense of the powder. The department possesses no information on the subject.

There is opposition in influential quarters to a recall of the invitation for bids for battleships. It is stated on authority that bidders are willing to present plans for machinery capable of giving a speed of eighteen knots in the space and within the weight permitted by the existing specifications. It is deemed wise to open bids under the present advertisement on the theory that the results will show whether an eighteen-knot ship can be built on the present displacement, and if no propositions are presented, Congress will be asked to make an additional appropriation. This advice has been given to Secretary Long, who is assured that a bid from a reputable firm will be handed in for an eighteen-knot ship.

A FIGHT NEAR SANTIAGO.

Gen. Garcia Defeats a Body of Spanish Soldiers.

Santiago de Cuba, Aug. 3.—The Spanish general at Manzanillo has asked General Garcia that he be allowed to march to Holguin with his command without molestation by the Cubans, and the Cuban leader has granted his request.

Garcia is now marching upon Holguin, where heavy fighting is expected. Large numbers of Spanish guerillas have deserted to the Cubans, and are fighting the Spaniards with the same ferocity that they formerly manifested toward the Cubans.

Garcia has gained an important victory over the Spaniards at Mayari after heavy fighting. The Spanish were completely routed and lost heavily in killed, wounded and prisoners.

The steamship City of Berlin has arrived here with two regiments of immunes from New Orleans.

General Wood, military governor of Santiago, in order to put a stop to abuses, has fixed the value of the Spanish dollar at 50 cents in American money. The health of the city is still bad.

TROOPS GO TO FERNANDINA.

The Last Expedition Has Left Tampa.

Tampa, Fla, Aug. 5.—There will be no other expeditions from Tampa to Porto Rico. Orders to this effect were received by Major General John J. Coppinger, commander of the Fourth army corps, last night, and, while the ships now at Port Tampa are still loading, they will be held until further orders. Detachments of the Seventh United States cavalry and all of the detachments of the various regiments left here when the Fifth army corps left for Santiago, are engaged to-day in loading their baggage on the cars and will leave this afternoon for Fernandina, where they will go into camp until the movement to Montauk Point, L. I., begins. There are at least 100 cases of typhoid fever among the troops here.

Gen. Young Will Command at Montauk.

Washington, Aug. 5.—Major General S. B. M. Young, colonel of the Third United States cavalry, a well known officer of the army, will be in charge of the camp at Montauk Point. He commanded the cavalry brigade at Santiago, and was taken ill there. He applied for duty with the Porto Rico expedition and came to Washington in the hope of again securing duty at the front. He made a report to the president yesterday on the situation in Santiago, and was to-day assigned to his new command.

To Send Troops to Cuba.

Washington, Aug. 4.—The conference between the president, Secretary Long, Assistant Secretary Allen, Colonel Hecker and General Butler has decided upon an immediate movement upon Cuba, landing troops on the north coast at various points as the peace negotiations have progressed so far that the administration can now figure on just what it wants to do towards setting up a military government in Cuba.

Big Iron Mine Deal.

Pittsburg, Aug. 5.—The Oliver Mining Company, controlled by the Carnegie Steel Company and the Oliver-Snyder Steel Company, bought out two large mines, the Zenith and the Pioneer, in the Superior regions. The deal is the largest of the year, but the price was not made public. Work will begin at once.

Old Glass Wages Adhered to.

Pittsburg, Aug. 5.—At a conference of manufacturers and workers of the paste-mould branch of the flint glass trade, held here yesterday, the scale of wages of last year was adopted for the next five years.

PEACE STILL DELAYED

The President Awaiting Spain's Formal Reply.

UTMOST SECRECY PREVAILS

President McKinley Has Informed M. Cambon That Our Terms Will Not Be Modified in Any Respect—Full Information Given as to the Protection That Will Be Afforded Spaniards.

Washington, D. C., Aug. 5.—The United States government is now waiting to hear again from Spain, and this time it is expected the answer will be final. Firmly, but courteously, the president has declined the earnest appeal of the French ambassador to modify the United States' demands except in slight and unimportant respects.

There is no doubt that peace negotiations are progressing to the entire satisfaction of the president and members of the cabinet. A statement to that effect was made to-day by a high officer of the administration.

The conference yesterday afternoon at the White House, in which the president, M. Cambon and Secretary Day participated, was devoted to a discussion of the details which are regarded by the president as unimportant and hence the requests of the French ambassador for the most part will be acceded to. One of these was that the commission to be appointed to settle the terms of peace shall meet outside of the United States and preferably in France. The president sees no objection to grantin gthis request and it is said to be practically settled that the conferences will be held in paris.

Madrid Asked Many Questions.

The Madrid government, through M. Cambon, propounded a number of questions as to the time when Spain would be expected to evacuate Cuba, and the territory to be ceded by the United States, and as to what provisions would be made by the United States to protect the interests of the Spanish subjects in these islands while the evacuation was in progress.

The peace negotiations have been conducted with such secrecy that most of the information which slips out has been based upon intimations and inference rather than direct authority. Putting two and two together, however, the matter seems to shape itself in about this way:

The Madrid government made up its mind distinctly on the receipt of the American terms of peace to accede to them.

At the same time the president's message left a number of important details entirely in the dark. On what terms, for instance, were the Spanish authorities to evacuate Cuba and Porto Rico? The United States government had not claimed a surrender which would simply have made all Spanish governmental property ours, and laid upon us as well the provision for 100,000 or more prisoners of war. If the renunciation of authority was to be strictly in the nature of a peaceful evacuation, or orderly retreat, the army would retire as an army, with its organization intact, its arms and colors in hand, and its equipments, ammunition and stores generally, accompanying it. This would rob us, perhaps, of some of the pomp and glory of a conquest in war, but it would likewise absolve us from a deal of responsibility attaching to capture.

Another question which was liable to prove vexatious later on, was the position the United States would assume on the Philippine question, when the peace commissioners should come together. To enter the final tribunal blindly, not knowing what one's adversary is going to demand, is like responding as defendant to a lawsuit without being furnished with a copy of the complaint.

Roosevelt's Protest and Algers' Rebuke.

Washington, Aug. 5.—Following is the correspondence which has passed between Colonel Roosevelt and Secretary Alger:

Santiago, July 23, 1898.

My Dear Mr. Secretary:

I am writing with the knowledge and approval of General Wheeler.

We earnestly hope that you will send us, most of the regulars, and at any rate the cavalry division, including the Rough Riders, who are as good as any regulars and three times as good as any state troops, to Porto Rico. There are 1,800 effective men in this division; if those who were left behind were to join them, we could land at Porto Rico in this cavalry division, close to 4,000 men, who would be worth, easily, any 10,000 National Guards armed with black powder Springfields or other archaic weapons.

(In the copy of the letter given out at the war department asterisks were inserted at this point, indicating that a part of the Roosevelt letter was suppressed by Secretary Alger.)

Very respectfully,
THEODORE ROOSEVELT.

Washington, Aug. 4.

To Colonel Theodore Roosevelt, Santiago:

Your letter of 23rd received. The regular army, the volunteer army and the Rough Riders have done well, but I suggest that unless you want to spoil the effects and glory of your victory you make no invidious comparisons. The Rough Riders are no better than other volunteers. They had an advantage in their arms, for which they ought to be very grateful.

R. A. ALGER,
Secretary of War.

(The reply of Secretary Alger was cabled to Colonel Roosevelt.)

Ice for Shafter's Men.

Santiago de Cuba, Aug. 5.—The Red Cross schooner Mary E. Morse arrived here this afternoon towed by the tug Briton, being twenty-four days out from Kennebec with 900 tons of ice, the gift of Mrs. Adele Gardee of Long Island. Miss Clara Barton presented the complete cargo to General Shafter for the use of the army. The gift was greatly appreciated by the sick, as the hospital corps was in need of ice.

STATE CANAL COMMISSION.

Disapproval of Many Things—Much Money Wrongly Spent.

Albany, Aug. 5.—The report of the commission appointed by Governor Black last month to inquire into the conduct of the general canal improvement work, under the $9,000,000 appropriation, has been made public. The report is signed by every member of the commission, which was composed of four Republicans and three Democrats. The Republican members are George Clinton of Buffalo, Darwin R. James of Brooklyn, Frank Brainard of New York and William McEchron of Glens Falls. The Democratic members are Smith M. Weed of Plattsburg, A. Foster Higgins and Franklin Edson of New York city.

This commission was appointed for the purpose of determining how much money would be needed to complete the canal improvement work before any further appropriation was made, as well as to ascertain what work had already been accomplished and how the $9,000,000 had been expended. The commission submitted its report to the governor last Saturday, and the time intervening since then has been consumed in its printing. The report embraces 70,000 words.

Naturally in connection with the carrying on of such a stupendous public work the commission finds some things to criticise, but does not find that any of the public officers having supervision of the work were dishonest.

In making its criticisms of the carrying on of the work and the expenditure of some of the money, the commission does not place blame upon any particular state officer. The commission says that at least $1,000,000 was improperly expended in different ways and that about $1,500,000 was expended in doing work which should have been performed under the "ordinary repairs" appropriation. It is estimated that it will cost $13,651,000 to complete the canal improvements, which amount will be reduced to below $12,000,000 if the commission's recommendation that the pneumatic lift locks at Cohoes and Lockport be omitted from the plan of improvement, be adopted. The report says that State Engineer Adams's first estimate, furnished the constitutional convention, that the improvement work would cost only $11,573,000, was little more than a guess and not based on sufficient data.

The recommendations of the commission, as contained in the report, do not point out or suggest that any particular officer is responsible for the matters criticised.

Governor Black has considered the report carefully and in view of the generalities indulged in by the commission, has referred the report and the testimony to Attorney General Hancock, requesting that he examine the same and report to the governor whether judicial proceedings should be instituted against any of the persons referred to in the testimony of the commission's report; and if so, the nature of such proceedings.

As special counsel to aid in the attorney general's office in the examination of the report of the canal investigating commission and the evidence taken before the commission, Governor Black has appointed Judge Edwin Countryman of Albany. This is done so that the attorney general's office may, through special counsel, sift the evidence in an endeavor to fix responsibility for the matters criticised by the commission in its report, to the end that a prosecution may be made if it is possible to formulate a case against anybody. Judge Countryman is a prominent Democratic attorney.

This is the method that must be pursued under the law. Governor Black is determined that if any wrong has been committed in the conduct of the canal improvement work it shall be placed where it belongs, and that if any official person connected with the work, be he high or low, is guilty of any wrongdoing, he shall be punished.

BISMARCK'S FUNERAL SERVICES.

Great Public Interest in the day's Exercises at Berlin.

Berlin, Aug. 5.—The funeral services held here yesterday in memory of Prince Bismarck were of the most impressive character. They were attended by the emperor and empress of Germany, the various German princes and princesses, all the members of the foreign diplomatic corps, and the chief military and civil dignitaries. A guard of honor was placed in front of the Emperor William Memorial church, where the services took place.

The public generally associated itself in various ways with the funeral services. All the banks and many of the shops and offices in this city were closed, flags, many of them black, were hoisted at half mast everywhere, shop windows were covered with crape, and there was a universal display of mourning emblems and portraits and busts of the dead chancellor wreathed with flowers and draped with black cloth.

More Klondike Treasure.

Victoria, B. C., Aug. 5.—The steamer Amauense has arrived from St. Michael's Alaska, with 260 passengers from Dawson City and a large amount of gold dust and drafts. Purser Richards is authority for the statement that the amount of gold and drafts brought down was $3,000,000, of which $1,125,000 was in gold dust and nuggets. Following is a list of those having the largest amounts of treasure:

F. Neves, Victoria, $800,000; Michael Trainor, Victoria, $30,000; H. Dorer, $17,000; Louis Paulus, $400,000; N. Blackman, $150,000; T. Rogers, $650,000; F. Van Bibben, $300,000; C. Stephens, $150,000.

The last six named are all from Seattle. Others are credited with amounts ranging from $10,000 to $50,000.

A Rousing Reception.

New York, Aug. 5.—Lieutenant Hobson, the hero of the Merrimac, arrived in this city from Atlanta yesterday. In the evening he presided at the benefit entertainment at the Metropolitan opera house and was accorded a magnificent reception by the thousands present. Addresses were made by ex-Minister Woodford, William McAdoo and others and the vocal and instrumental music by local talent was very inspiring. A handsome sum was realized for the relief of soldiers and sailors' families.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

COMING EVENTS.

August 7—Private F. Keuhnle, of Company D, Seventy-first Regiment, N. Y. Volunteers, who was wounded at Santiago, will address the 4:15 p. m. meeting at the Y. M. C. A. Lemonade and fans.

"Don't Forget Your Parcels."

The habit of carrying bundles containing anything from a bunch of roses to ehad roe is such a distinctive one of the suburban resident leaving New York that it is seldom that a true blue commuter trods a ferryboat homeward bound without his accompanient of packages. While hurrying through a crowded street of the metropolis in the endeavor to catch a train that leaves in a half minute and being yet four blocks away from the ferry slip it is the aggressive duty of the commuter to hold fast to his bundles as though they were his last earthly possession. But once ensconced in a seat on the train and deeply engaged in the columns of an afternoon paper the commuter as suddenly becomes oblivious of the existence of the heretofore precious packages as he was conscious of their seeming inestimable value but a few minutes before. By just what process of mental cogitation this change of mind is brought about has defied all students of human nature, but it is an historical fact that if the commuter acts as if his life depends upon the safety of his packages while rushing for the train he loses all such senses when he arrives at his destination.

And thereby hangs a world of trouble for the train crews of the various roads over which the commuter seeks rapid transit to his residential elysium. Cars strewn with packages of various sizes, containing most everything that the suburban homes may need, are left to be cleared at the terminal. Then the next morning a torrent of enquiries greet the train men from the disgruntled passengers who the night before have encountered the wrath of their better-halves for not having brought home the articles that were ordered a twelve hour before. Sometimes the packages are recovered and sometimes they are not, but at all events it is certain that the railroad company is not pleased with the fact that the missing articles are left to their care by the capricious commuter.

How to overcome the forgetfulness of the commuter has been a problem long debated in official railroad circles, but until very recently the matter has not been successfully coped with by any railroad company. Now, however, the Delaware, Lackawanna & Western Railroad seems to have struck a solution—except for those commuters who are hard of hearing. Besides calling out the name of the station it is the duty of trainmen on that road to add:

"Don't forget your parcels."

There you have it in a nutshell—simple enough, it appears, but quite effective. The Lackawanna has set a pattern and at no distant day the timely admonition quoted above may be added to the cirriculum of the trainmen's duties on all railroads running out of New York.

The County Trolley.

A quarter of a million dollars sounds like a big sum of money for a privilege that heretofore has been usually given away. But John Kean's offer of $250,000 for the franchise to build and operate a trolley road between Elizabeth and Plainfield, as provided for under the Squire law, demonstrates what values the existing transit companies in this section have received for almost nothing as much as it shows the bigness of the bid of Mr. Kean.

John Kean's reputation as a shrewd business man compels the belief that the franchise is actually worth more than what is offered, but if that sum will be sufficient to pay the expenses of the changes that it will be necessary to make along the proposed route of the county boulevard the majority of taxpayers will doubtless be satisfied if Mr. Kean is granted the franchise and the boulevard scheme is consummated.

But there is one factor which must be reckoned with as boding serious obstacles to the scheme. That is the disposition of the people of Cranford to fight the matter. From what we can learn sentiment in Cranford seems strongly against the plan to widen the county road. And since the Squire law embodies a clause making it necessary to have the consent of each municipality through which the proposed widening is to be made, there is prospect of plenty of delay. Especially is this so since the objectionists have employed high priced legal talent to put up a defense for them.

Undoubtedly in time there will be trolley connections between Plainfield and Elizabeth and when there are it will be for the benefit of the people at large, but whether the improvement will come through a movement like the Bergen scheme or result from the endeavors of private capitalists is still an open question.

LOADING BIG FIELD GUNS.

It is no small task to transport the big field guns which our troops are using in the fight for Cuban independence. To place them on board and remove them from the transport vessels requires time, patience and labor. The picture shows a transport loading a big gun at Tampa.

Spelling Reform.

From time to time the demand for change in English orthography is pressed with zeal. In the ranks of the reformers are many who present scholarly and practical reasons, yet the progress made has been very gradual. At first view the inconsistencies in our language in spelling and orthoepy as well are extraordinary and unreasonable. Viewed more thoughtfully, these apparent defects are evidences of the splendid vigor and growth of our tongue, like the irregularities of a great tree. A rich and abundant life never expands according to rule. Changes in spelling have taken place from century to century in an organic way without artificial pressure. It seems on the whole wisest to leave it at that.

There are so many objections to radical and sweeping changes in orthography that it is doubtful whether any sufficient consensus of intelligent opinion could ever be effected to carry out the aims of the spelling reformers. The greatest of these relates to the value of words as fossils of the past. Our language is a great bed of these fossils, which tells an eloquent story of the history, institution and social usages which mark the milestones of development from barbarism to our present highly advanced status. One is reminded of the fly embalmed in amber. It is this fact which gives English words in great degree their strength and significance. The same thing holds true of other languages of course, but in the case of such a composite as our noble tongue it is a superlative fact. Planed down by arbitrary rule, English would be a Samson shorn of his locks. All the minor inconveniences of complicated spelling are not to be considered by the side of this invincible claim. English, in spite of its structural obstacles and the alleged difficulty which foreigners have in acquiring it, is the commercial tongue of the world. More than any other it bids fair to become the universal language. This does not seem as if its orthography presented so serious an objection as the spelling reformers urge.

Theft of Ideas.

Professor Max Muller, in a recent article in The Fortnightly Review, entitled "Coincidences," traces the origin of certain beautiful passages in modern poets to the Sanskrit, Heine and Matthew Arnold being among the special victims of his great erudition. Plagiarism hunters have been for a long time alert to impale the idea robbers. Many of these sagacious critics are probably as anxious to exploit their own research as to add to the sum of human truth. One can only think in following many of these animadversions that the sleuthhounds of literature have an endless pursuit on their hands. There is scarcely a great poet from Chaucer down to Tennyson who has not been in some sense a plagiarist. Shakespeare was one of the greatest of literary bandits, though he always immensely enriched what he stole. The puritanic Milton even is not free from the reproach, and among modern poets Tennyson has appropriated lavishly from those who have gone before, especially the old Greek poets. Even in such essentially original poets as Shelley and Wordsworth, each unique in his special place, the sleuth dog will find good hunting ground.

In music the opportunity is equally good. Handel, it is well known, rifled without scruple among the old Italian composers, and many of his most admired airs are transposed with a change of rhythm and easily detected dislocations. From the very nature of music it is easy to do this, and such geniuses as Mozart, Weber and Gounod have not been exempt from the charge. Genius, however, strives to add something when it steals, and this perhaps is its justification. There is nothing new under the sun now, and all that the cleverest man of genius does in many instances is to present the old gem in some novel setting which enhances its beauty.

The reports from Havana imply impending starvation, so effective has been our blockade. If this is the case, we shall not have to wait for active resumption of hostilities in the field to secure surrender of the Cuban capital. Famine is a more terrible foe than enemies armed with guns and bayonets.

The American surgeon general, as was predicted, has seen fit to revise his dictum against the woman nurses of the Red Cross. Now that yellow fever has attacked our soldiers about Santiago he is as anxious for those gentle and devoted assistants as he was before averse.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

No man is so great that the world cannot spare him, and the masses of men, struggling slowly and painfully up to self-knowledge and self-government, cannot count the Bismarks, large or little, as helpers and friends.—New York Journal.

* * * * *

The discussion in relation to the sewer beds at the meeting of the Plainfield Council Monday evening brought out some ugly admissions, and the fragrant effluvia from them which has been compared to the attar of roses by their defenders, has evidently failed to come out of the right end of the bottle. It may be all right when "frost" strikes the beds, but it is a little out of season for such an occurrence with the thermometer high up in the eighties.—Dunellen Call.

—A number of improvements have been made about the grounds around Reform Hall.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 5.—Miss Addie Fenner, of Plainfield, spent yesterday with relatives in the borough.

The Borough Board of Education was much surprised last Tuesday to receive the resignation of Prof. Whitney, principal of the public schools. Mr. Whitney had been re-engaged for next year after much discussion, which also resulted in the discharge of Miss Imogene Smith, a teacher. Mr. Whitney and his family are stopping at Deerfield, Mass., with relatives, and this action on his part has caused some surprise. It will now be necessary for the Board to secure another principal and a special meeting will probably be held very soon.

Rev. A. S. Phelps, rector of the Holy Innocents' church, who has been spending his vacation in Ulster county, N. Y., will return this week, and services will be resumed at the church next Sunday morning.

Benjamin Carpenter has secured the contract to repair the schoolhouse and his bid was $103.45. The work has been started.

Miss May Apgar, of Front street, returned yesterday from a sojourn of three weeks at Asbury Park.

Tomorrow afternoon a cake sale will be held in the W. C. T. U. rooms on Washington avenue.

Mrs. A. E. Post, of Paterson, is visiting her sister, Mrs. C. D. Taylor, of North avenue.

Mrs. Harry Swackhamer, of Church street, entertained company from New York yesterday.

Ernest Peters, of North avenue, is visiting friends at Fanwood for a few days.

Miss Maude Wilcox is the guest of friends at Westfield for a short time.

Charles Luckey has opened an office in town and is now practicing dentistry.

Fred Louzean is visiting at the home of William Sharp, of Pittstown.

Miss Carrie Fisher is visiting Miss Clara Davis at Port Jefferson, N. Y.

Mrs. S. F. Petit is entertaining her sister from Beaver Valley, Pa.

Mrs. P. Powell is entertaining Mrs. F. Wardell, of Brooklyn.

W. H. Terry spent yesterday with friends at New Durham.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 5.—Charles Ward has recovered from a slight illness.

For the next two Sundays there will be no services in the First Baptist church. During that time Rev. Frank Fletcher, the pastor, will enjoy his vacation.

Prof. Frank L. Green and wife, who have been visiting in town, left yesterday for Alfred, N. Y., where they will remain for a time.

Mrs. Hastings, of Paterson, is visiting Mrs. William Dunham for a few days.

Elbert Stevens, of Newark, is spending a few days with friends in town.

Miss Mamie Morgan, of Brooklyn, is the guest of Mrs. Lucy Titsworth.

Miss Bertha Sheppard has returned from a sojourn at Long Branch.

PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, August 5.—Mr. and Mrs. Schuck, of Mountain avenue, are entertaining Mr. Schuck's sisters for a few days.

Benjamin Clark, who has a large field of potatoes on Mountain avenue, promises to make it warm for the party who got away with a bushel or more Wednesday evening, if they come again.

Rev. Frank Fletcher, of New Market, will occupy the pulpit in the Baptist church Sunday morning and evening.

Arthur Chapin is entered in the two-mile handicap in the races to be held at Maltby's track, Plainfield, Saturday.

F. K. Clark foreclosed a chattel mortgage on the stock of Taintor & Hunter, the liverymen, Thursday.

Mrs. Charles Grant, of Plainfield, spent Thursday with her parents, Mr. and Mrs. T. M. Paff, Sr.

Mrs. Millie Crane, of Plainfield, spent Thursday with her parents, Dr. and Mrs. J. H. Parks.

Robert Walpole and Thomas Emery spent Thursday crabbing at Tremley Point.

Miss Etta Cook is visiting friends in Patchogue, L. I.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 5—Ward's second annual clambake will be held this year Wednesday, August 17th, at Vreeland's Mill.

The Board of Health will meet in the township rooms this evening at 7:30 o'clock, and the Township Committee will meet at 8 o'clock.

Miss Harriet Young, a member of the Baptist church, has entered the Baptist Home at Newark.

Mrs. H. C. Sergant and Miss Sergant are registered at the Clifton House, Patchogue, L. I.

Mr. and Mrs. John L. Clayton are spending the month of August at Ocean Grove.

CASTORIA

The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Dr. Endicott, of Seventh street, is spending his vacation at Mays Landing.

James E. Murray, of Central avenue, started on his annual vacation today.

Charles Hazeltine, of Westervelt avenue, is enjoying himself at the seashore.

Miss Laura Ianson, of Somerville, has returned from a visit with friends in this city.

Miss May Williams, of Amboy, is visiting Miss Matie VanHorn, of Duer street.

Marshal Winn, of the borough, has recovered from his illness and is again on duty.

Andrew McArdle, of West End Park, has returned from a business trip to Trenton.

Miss Margaret Kenney and Miss Nellie Rafferty have gone to Easton to spend two weeks.

Mr. and Mrs. J. Kirtland Myers, of Seventh street, left town today to enjoy their annual outing.

Mrs. Frank Storr and son Harold, of West Front street, are visiting A. T. Smith, of Somerville.

Lawyer J. P. D. Kirch and his clerk, Charles McCann, went to Elizabeth today to make search.

Mrs. Elvaine Van Name, of Elmwood place, is spending her vacation on Staten Island with friends.

Dr. and Mrs. D. C. Adams and family, of Grove street, have returned from a sojourn at Asbury Park.

Lawyer S. S. Swackhamer and wife, of the borough, have returned from a visit with friends at Whitehouse.

Miss Lulu Kuhn, of Somerville, who has been visiting Mr. and Mrs. Adam Neuman, of this city, has returned home.

Leonard Spangenberg, former Councilman, was in Brooklyn yesterday looking up some real estate purchasers.

John Honeyman, of Knoxville, Tenn., who has been visiting Plainfield relatives for sometime past, returned home yesterday.

Miss Etta MacMurray, of the City Clerk's office, has returned from Sound Beach, Conn., where she has been spending her vacation.

Mr. and Mrs. John H. Doane, of LaGrande avenue, will leave the first of the week for Pennsylvania, where they will spend their vacation.

THE COURTS.

Summons issued—In the case of Stout against W. Beach on contract, returnable August 12

Judgement rendered—In the case of Knowlton against Lambertson, for $15.55 and costs.

PARTICULAR MENTION

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Nellie Brown, of New Market, has been visiting relatives in this city.

Miss Nellie Backer, of the borough, is visiting her father at Whitehouse.

Miss Nettie Kreitling, of West Front street, is visiting friends in New York city.

Miss May Hughes, of Jackson avenue, is taking a week's vacation from White's.

Mrs. W. G. Anderson, of Franklin place, has returned after a visit at Erie, Pa.

Watson Randolph, of Plainfield avenue, has returned from a visit in Harlem.

William M. McCutchen, of Rockview terrace, is home from Belmar for a few days.

Bert Gray, of Elmwood place, has returned from a visit with relatives in Elizabeth.

Miss Elizabeth Allis, of West Fifth street, is the guest of relatives in Montclair.

Dr. F. C. Ard, of Park avenue, will spend his vacation in the Adirondack Mountains.

Steven Aldrich, of Sherman avenue, has gone to Asbury Park to spend a few weeks.

Mr. and Mrs. Lemuel Cole, of Duer street, have been visiting friends at Whitehouse.

A baby boy has arrived to brighten the home of Mr. and Mrs. H. C. Vail, of Orange street.

Clifford M. Crane, of West Eighth street, is spending part of his summer vacation in Plainfield.

Mr. and Mrs. W. T. Pelletier, of LaGrande avenue, have returned after an outing at Mount Desert.

Mr. and Mrs Amos Gray, of Elmwood place, are entertaining Mrs. Gray's sister from Elizabeth.

Miss Grace Tugnot, of Roselle, has returned home after a visit with Miss Bertha Thorn, of Craig place.

The Misses Loretta and Edith Darby, of Alton, have gone to Mullica Hill, N. J., for their summer vacation.

Miss Jeanette Simpson, of this city, will leave this week for Asbury Park, where she will spend her vacation.

Mr. and Mrs. Frank J. Hubbard, of West Fifth street, returned yesterday after a week spent at Noyes Beach, R. I.

Mrs. Lindsey Woolley, of New street, will spend her vacation at Manasquan the latter part of August.

Rev. and Mrs. W. C. O'Donnell, of Franklin place, are spending their vacation at the Minot House, Asbury Park.

Mrs. J. A. Allis, of Montclair, has returned home after a visit at the home of J. P. Allis, of West Fifth street.

Mrs. Alonzo Aldrich and children, of 900 Sherman avenue, have returned from Yonkers, where they have been visiting relatives.

Mrs. J. D. Spicer and Miss Nellie Spicer, of West Fifth street, have gone to Richfield Springs, N. Y., for the month of August.

Miss Edna M. Howell, of Chester, Pa., who has been the guest of Miss M. G. Morse, of Franklin place, has gone to visit friends in South Jersey.

B. S. Braider, of the borough, who met with a bad accident a few days ago, is now able to attend to his duties at the Co-operative store on Central avenue.

Mrs. A. T. Maxson and Miss Mabel Maxson, of West Sixth street, and Miss Alice Ross, of West Fifth street, are registered at the Carlton House, Belmar.

Robert Davis, assistant secretary of the Y. M. C. A., left today for Long Island. He will spend part of his vacation there and the remainder at Liberty, N. Y.

Sydney R. Titsworth, of West Fifth street, left yesterday afternoon for Watch Hill, R. I., where he will spend the month of August as the guest of Mrs. George H. Babcock.

George W. F. Randolph, of West End Park, is growing stronger every day and is now able to sit up a half hour at a time. He hopes that he will soon be able to see his friends.

How's This.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Don't pass Peck's store for none can surpass his goods.

—The Plainfield Catholic Club will hold a reception this evening.

—There will be no services in the Congregational church Sunday.

—Miantonomo Tribe of Red Men will hold a regular meeting tonight.

—The repairs on the Plainfield public schools are nearing completion.

—Columbia Lodge, A. O. U. W., will hold a regular meeting this evening.

—Miss Smalley, of East Front street, has closed her dressmaking parlors for the summer.

—The organ in the First M. E. church is being thoroughly overhauled and put in order.

—Augustus Searing is assisting Walter B. Rittenhouse in the wiring of the First M. E church.

—A misses spring-heel tan vice lace shoe, cost to make $1.50, now $1 25 at VanArsdale's clearance sale.

—The Union Meat Market, 207 West Front Front street, is offering specials for tomorrow. See adv.

—F. A. Wright, of New York, has been chosen as architect of the new building of the Bound Brook First National Bank.

—Alfred Compton's new house on West Front street, is now enclosed, and the work is being rapidly pushed toward completion.

—The annual excursion to Asbury Park under the auspices of Franklin Council, No. 41, Jr. O. U. A. M., will take place August 18th.

—There will be a regular meeting of Perseverance Lodge, Knights of Pythias, tonight There will be some initiatory work to be done.

—Charles Conover, of Elmwood place, is having the house he recently purchased, connected with the sewer. He is also having city water put in.

—The house at the corner of Franklin place and LaGrande avenue, owned by B. O. Bowers, has been greatly improved by a new coat of paint and many repairs to the exterior and interior.

—Flynn Brothers, shoe dealers, of 222 West Front street, don't start in today nor any other day with a clearance sale as they have no odds and ends of stock, their stock is composed of all fresh goods and is up-to-date.

—J. Harry Manning, general secretary of the Y. M. C. A., has rented J. B. Mills' house at 413 East Sixth street, and will take possession September 1st. Mr. Mills will have the house thoroughly overhauled, painted and papered.

—Doane & Edsall are booming their annual summer sale of shoes, and say that not only has the entire profit been cut off, but on many lines one-half of the real value as well. They are offering a big assortment of trunks, dress cases and bags at cut prices, too.

—The guests of the Revere House had a moonlight coaching party on the tally-ho Independent to New Brunswick Tuesday evening. After a dance and refreshments at the Mansion House they returned in the small hours of the morning.

—At VanArsdale's August clearance sale you can buy many shoes and oxfords at an exceedingly low price. He is making a "sweep up" on summer goods, getting ready for fall and winter lines, and the prices he has put on them make it an object to buy, even if you don't want them today.

—The city hand and steam laundry, at 19 Somerset street, give a domestic finish to all linen. They call for and deliver goods. Their wagons run to Westfield, Fanwood, Metuchen, Netherwood and Dunellen. Don't take your laundry to New York when at 19 Somerset street you can get the finest up-to-date work done of all kinds.

Mr. and Mrs. H. S. Stotkoff, of the Revere House, gave a theatrical party last evening to witness Haverly's Minstrels at Music Hall.

At Randolph's.

Edward White.

THE SUNDAY LESSON.

INTERNATIONAL SERIES, WITH COMMENTARY BY DR. STEARNS.

Golden Text:—How much more shall your heavenly Father give the Holy Spirit to them that ask Him? Luke xi: 13. August 7, 1898.

6. "And Elijah said unto him, Tarry I pray thee, here, for the Lord hath sent me to Jordan. And he said, As the Lord liveth and as thy soul liveth I will not leave thee. And they two went on." The man who had wanted to die was not going to die, but was going to be taken by a whirlwind up to heaven (verse 1). He had said to Elisha, both at Gilgal and at Bethel, "Tarry here, I pray thee," but in each case Elisha had with the same words refused to leave him. They make us think of the words of Ruth to Naomi, and of Ittai to David, in Ruth i, 16, 17, and II Sam. xv, 21, and of the advice of Barnabas to the believers at Antioch, that with purpose of heart they would cleave unto the Lord (Acts x., 23).

7. "And fifty men of the sons of the prophets went and stood to view afar off, and they two stood by Jordan." Gilgal, Bethel, Jericho and Jordan are suggestive of stages in Christian experience, but there is no place where we should ever be content to stop. We must ever be going and growing (II Sam. v, 10, margin). Gilgal suggests salvation, the reproach rolled away and the passover kept (Joshua v, 9, 10); Bethel reminds us of visions of glory (Gen. xxviii, 19); Jericho had a pleasant situation (verse 19), but in none of these may we rest as a matter of attainment.

8. "And Elijah took his mantle and wrapped it together and smote the waters, and they were divided hither and thither, so that they two went over on dry ground." Thus for these two men God did what he had done before for millions when He took the whole nation across this river on dry land. Jordan cannot be suggestive of literal death, nor Canaan of heaven, for when Israel crossed Jordan into Canaan it was to encounter many enemies and do much fighting. Jordan, which means river of judgment, seems rather suggestive of that judgment of self which henceforth practices constant denial of self that the life of Jesus may be made manifest in our mortal flesh.

9. "And it came to pass when they were gone over that Elijah said unto Elisha, Ask what I shall do for thee before I be taken away from thee. And Elisha said, I pray thee let a double portion of thy spirit be upon me." The greatest thing for a redeemed soul is to be filled with the spirit of God for his service; dead with Christ, risen with Christ, one with Him for whatever He may please of service, if only we can be a comfort to Him, a vessel meet for His use.

10. "And he said, Thou hast asked a hard thing. Nevertheless if thou see me when I am taken from thee it shall be so unto thee, but if not it shall not be so." To be filled with the spirit means readiness for whatsoever God may appoint that He may be glorified. According to the story of the Acts of the Apostles, it might mean such service as was endured or rendered by any of the apostles or deacons; it might mean serving tables or preaching the gospel, winning souls or enduring imprisonment, scourging or death; it might mean to be used in a great revival or sent to a desert place to reach one person. To be filled with the spirit means grace to say under all circumstances, "My Jesus, as Thou wilt," or "Yes, my Father, this is so, because that Thou hast found it good" (Math. xi, 26).

11. "And it came to pass as they still went on and talked that behold there appeared a chariot of fire and horses of fire, and parted them both asunder, and Elijah went up by a whirlwind into heaven." They still went on. This suggests the only thing for the believer day by day that he still goes on growing in grace and in the knowledge of our Lord and Saviour (II Pet. iii, 18).

12. "And Elijah saw it and he cried, My father! my father! The chariot of Israel and the horsemen thereof! And he saw him no more and he took hold of his own clothes and rent them in two pieces." Not for a moment did he take his eyes off him and he was rewarded by seeing him taken. The one great difficulty with believers is that we allow so many things to take our eyes off the Lord, yet we know that our instructions are to run with patience, looking unto Jesus, and to consider Him lest we be weary (Heb. xii, 2, 3). There is no other way to rest. Although Elisha saw him no more for the present, he knew better than to imagine that he was on any of the mountains round about (verses 16, 17)

13. "He took up also the mantle of Elijah that fell from him and went back and stood by the bank of Jordan." We are instructed to put on the Lord Jesus and make no provision for the flesh to fulfill the lusts thereof (Rom. xiii, 14), to put on the new man, which after God is created in righteousness and true holiness (Eph. iv, 24). We who receive the Lord Jesus and are saved by Him and delight to say Elijah (my God is Jehovah) should take equal delight in saying Elisha (my God is Saviour), and in making it manifest that He does save us from ourselves and from all self pleasing or self seeking. "Not I, but Christ," in all our daily life.

14. "And he took the mantle of Elijah that fell from him and smote the waters and said, Where is the Lord God of Elijah? And when he also had smitten the waters they parted hither and thither and Elisha went over." Thus the Lord did for one person what He had done for two and what He had done for millions, even for all Israel.

15. "And when the sons of the prophets, which were to view at Jericho, saw him, they said, The spirit of Elijah dost rest on Elisha. And they came to meet him and bowed themselves to the ground before him." When the rulers saw the boldness of Peter and John and perceived that they were unlearned and ignorant men, they marveled, and they took knowledge of them that they had been with Jesus (Acts iv, 13). When the spirit of Christ has such complete possession of us that those who know us best see Him and not us, then God will be glorified in us as He was in Paul (Gal. i, 24). It will largely depend upon the sincerity and earnestness of our desire in this matter, according to II Chron. xvi, 9; Jer. xxix, 13.

EPWORTH LEAGUE.

Lesson For the Week Beginning Aug. 7. Comment by Rev. W. J. Yates, A. M. Topic, Giving to God.

SCRIPTURE READING.—Luke xxi, 1-4. Do you enjoy religion?

Do you enjoy religion? This used to be a frequent question among Christians some years since. It was heard especially among Methodists in their class meetings. And with good reason. They had a faith and practice that made their possessors happy and joyful. They believed in conscious salvation from sin and in personal testimony to the fact of such a salvation. They lived devoted lives and enjoyed the service of God.

In many cases they were poor, and the support of the church taxed their resources. But in the main they were generous in hospitality and liberal in their contributions to the benevolent enterprises of the church. They were trained to give as God prospered them.

How to Enjoy Religion.—It can only be by loving service of God. If the heart is not loyal, if there is not a sentiment of deep affection toward the Lord, then all service becomes a burden and is given through fear or from a hope of reward. Unless there is a spontaneous affection in the soul there will be no real enjoyment. Whenever there is a tender regard for God and His work, there will be a deep desire to give one's time and thought and money to carry on the enterprises that will advance His kingdom.

The widow's mite is remembered to this day, not because of its intrinsic worth, but as showing the true type of piety. She had received from God pleasant things and she had also patiently endured poverty and bereavement. Her heart had not grown bitter and hard under her bereavement and hardship. She had grown tenderer in spirit. She did not lack a prudent mind and proper care for her resources. Beyond the needs of body were the demands of the inner love. As Mary of Bethany showed her intensity of grief and love for Jesus by the costly anointing of His feet with spikenard, so this poor widow expresses her deep heart's devotion by dropping into the temple treasure chest her last coin to aid in the purchase of some offering for the altar of sacrifice or incense for the golden altar of praise.

Hoarding cannot give happiness. The generous soul shall be made joyous. Only by giving to others and especially to God's work distinctively can the heart find permanent peace and enjoyment. All one has should be held as a trust from God to be used for His glory. As much as is needed for self aid should be used conscientiously. As far as it is possible to use the rest in aiding others and helping forward the cause of God this should be done. To work with and for God is the source of highest blessedness possible.

The Rule of Spain.

The events of the past few months call attention forcibly to the religious results of the rule of Spain in America as well as in the home peninsular. The most intensely conservative and churchly of all the Catholic nations of Europe, no opportunity for Protestantism has occurred in Spain and not till recent years has there been any opening in the American colonies once under her sway.

No more fascinating chapters of history have ever been enacted than those connected with the struggle of Mexico and the Spanish-American states for their freedom from the mother country. As deeply interesting as this is also the story of the introduction of our schools and church services in these lands. Drs. J. W. Butler and C. W. Drees, who are the respective superintendents of the Mexican and South American missions, were graduates of Boston University School of Theology in the class of 1874. They have seen grow up under their hands a work of magnitude and importance.

The League should devote time to the study of the progress of the evangelical church and especially of Methodist missions in Mexico, Peru, Chile, Buenos Ayres and the other Spanish speaking lands of America.

Do Something For Somebody.

Much of the unhappiness and discontent which many suffer would be quickly removed if they would find some one they could help and then give the needed aid. Very few people live who do not have some ache of body or soul. Many a mother awakens in the morning with dull headache and heartache and would gladly spend the day in sleep. Rising because the household demands her care, she works off the aches and forgets her own pain in helping the children and making other lives happy. Whoever gives of himself and his goods to help another finds greater benefit and joy than he ever gets from gifts received or goods hoarded.

"Give and it shall be given unto you."

Forget self in helping some one and you shall find your true self and priceless riches.

Father, Guide Me!

So I sang in childhood's days,
"Father, Thou shalt guide me!"
So I sing in darker ways,
Whatsoe'er betide me.
Young feet turn so oft aside,
But the older need a guide,
And I pray
Every day,
"Father, Father, guide me!"

Thou hast led o'er mountain slope
And in deeper hollow.
Thee through many a vale of hope
Have I learned to follow.
In the dark and in the light,
Gladsome dawn and blackest night,
I have been
In changing scene
Safe, with Thee to guide me.

Now I wait, as oft before,
Where the way is hidden
Till the journey shall be o'er.
I will go as bidden.
Naught there is for me to fear
When I know that Thou art near.
Here I stand.
Take my hand.
Oh, my Father, guide me!

—Selected.

Lokal-Nachrichten aus der alten Heimath.

Sachsen.

Dresden. Der Bund der königlich sächsischen Militärvereine feierte hier sein 25jähriges Bestehen. Der Bund zählt jetzt in 1441 Vereinen 4470 Ehren- und 163,617 andere Mitglieder. Für die Unterstützungen bedürftiger Mitglieder sind seit dem Bestehen des Bundes aus dessen Kasse 129,410 Mark, aus den Kassen der einzelnen Vereine jedoch 6,381,202 Mark bezahlt.—Der Ingenieur Hammer aus Rosenberg in Westpreußen wurde hier zu einem Monat Festungshaft und 150 Mark verurtheilt, weil er einem Kollegen eine Herausforderung auf Säbel hatte zugehen lassen.

Chemnitz. Das angesehenste Blatt der Stadt und des Erzgebirges, das „Chemnitzer Tageblatt," beging sein 50jähriges Jubiläum. Es vertritt in der Hauptsache konservative Anschauungen, ohne indeß Parteiblatt zu sein.

Crimmitschau. Sämmtliche bei der Wasserleitung und Kanalisation beschäftigten Arbeiter haben wegen Lohnherabsetzung die Arbeit niedergelegt.

Freiberg. Seit einiger Zeit führte der Senat der königlichen Bergakademie gegen eine Anzahl russischer Studenten eine Untersuchung wegen Betheiligung an der sozialdemokratischen Agitation, die jetzt damit abgeschlossen worden ist, daß mehrere der Studenten von der Akademie weggewiesen und anderen die gleiche Maßregel angedroht wurde.

Glauchau. In Herrenhaide brach beim Neubau eines Saales das Gerüst zusammen. Zehn Maurergesellen stürzten in die Tiefe, vier liegen hoffnungslos darnieder, drei sind schwer verletzt.

Leitelshain. Der Inhaber der großen Wollwaarenfabrik O. Stößer hat sich erschossen.

Werdau. Hier brannte die große Maschinenfabrik von C. F. Dittes total nieder. Sämmtlicher Bestand ist verbrannt. Der Schaden ist groß.

Zwickau. Die Bergleute haben nach Ablehnung ihrer Forderungen seitens der Werksverwaltungen und bei der Aussichtslosigkeit einer weiteren Dauer des Ausstandes die Arbeit wieder aufgenommen.

Thüringische Staaten.

Gotha. Hier wurde dieser Tage eine aus Anlaß des 75jährigen Bestehens des Gothaer Gewerbevereins veranstaltete Landesgewerbe-Ausstellung feierlich eröffnet. Sie ist stark beschickt und veranschaulicht in ebenso lehrreicher wie interessanter Weise den gegenwärtigen Stand der gewerblichen Thätigkeit im Herzogthum.

Jena. In diesem Herbst werden hier zum ersten Male Fortbildungskurse für Volksschullehrer eingerichtet. An den Kursen werden sich Lehrer aus Thüringen und den angrenzenden Gebieten betheiligen. Die Leitung der Kurse, bei denen es sich um eine Reihe wissenschaftlicher Vorlesungen handelt, haben mehrere Universitätsprofessoren übernommen.

Meiningen. Vor dem hiesigen gemeinschaftlichen Landgericht fand hier die tyrannische Züchtigung von Schulkindern durch den Lehrer Gärtner aus Schnellbach bei Schmalkalden eine ernst Sühne. Der Lehrer war wiederholter Körperverletzungen, die er strafweise Schülern zugefügt, angeklagt. Die Zeugenaussagen waren zumeist dem Angeklagten ungünstig; der Staatsanwalt hatte sechs Wochen Gefängniß beantragt, der Gerichtshof hielt aber die Strafweise des Lehrers für so schwer, daß auf acht Monate Gefängniß erkannt wurde.

Freie Städte.

Hamburg. Hier findet in diesem Jahre vom 10. September bis 2. Oktober eine allgemeine Ausstellung für Volksernährung und Gesundheitspflege, verbunden mit einer Sonderausstellung für Kochkunst, Brauerei und Wirthschaftswesen statt. Sie wird in sämmtlichen Räumen des auf Staatsgrunde stehenden Konzerthauses Hamburg, St. Pauli, und auf dem anstoßenden Heiligengeistfelde in einer eigens zu erbauenden Maschinenhalle veranstaltet. Dem Ausschusse der Ausstellung gehören die hervorragendsten Männer aller in Frage kommenden Fachkreise Hamburgs an.

Bremen. Der Stadtverordnete Grunow, ein Sozialdemokrat, wurde wegen Unterschlagung von Parteigeldern verhaftet.

Lübeck. Durch Funkenflug von einem vorbeikommenden Eisenbahnzuge wurden fünf Gebäude des benachbarten Gutes Fredeburg eingeäschert. Viel Vieh fand den Tod in den Flammen.

Oldenburg.

Hooksiel. Beim Abfeuern von Böllerschüssen am Geburtstag des Großherzogs platzte ein Rohr. Einem Postbeamten wurde die Hand, einem Kaufmann der Daumen abgerissen. Der Postbeamte erlitt außerdem schwere Brandwunden im Gesicht.

VALUABLES TAKEN on STORAGE.

STORAGE OF FURS.

Special attention is directed to our exceptional facilities for storing furs and fur lined garments, fur rugs, etc., in our new store, 308 West Front street, and the insuring of same against damage by moths, fire or burglary, at very low prices. Now is the time to have your furs repaired, altered and redyed. Summer prices prevail. Estimates cheerfully given.

H. KOHN, 308 West Front Street.

We Insure Your Shirts.

We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. This is the time of year when the second-class laundry ruins your Paris Percale or Glasgow Cheviot and tells you "It was the fault of the goods" Let us call for your work.

Hillier & Co.,

Telephone 30 M.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

Public Sale of Real Estate.

City of Plainfield.

Notice is hereby given that by virtue of a warrant issued by George W. DeMeza, Esq., City Judge of the City of Plainfield, in the County of Union, to make the unpaid taxes assessed on lands tenements, hereditaments and real estate in said City of Plainfield in the year eighteen hundred and ninety-six, the subscriber, the officer nominated and appointed by the Common Council for that purpose, will on the fourteenth day of September, 1898, at the hour of two o'clock in the afternoon, at the Collector's Office, No. 109 Park Avenue, in the City of Plainfield, sell the land, tenements, hereditaments and real estate, hereunder described, at public vendue, for theshortest time for which any person or persons will agree to take the same and pay such taxes, together with the interests thereon, and costs, fees, charges, and expenses.

Have You Seen

The Fancy Timothy Hay that we are now receiving? It is all last year's crop and far superior to most that we have seen.

BALED BY OURSELVES—which means large bales, free from dirt

Don't Risk New Hay.

Second game:

Baltimore....	0	1	0	0	0	0	0	0	0	—1
Chicago.....	0	0	0	0	0	0	0	3	*	—3

CYCLING COMMENT.

Officer Flanagan, of the police force, has purchased a Pennant wheel for his daughter.

Wyatt Barnes, of Norwood avenue, rode on his wheel to Asbury Park yesterday to remain a few days.

Kenyon's race meet is scheduled for tomorrow afternoon, at Maltby's track. There will be a number of interesting events. The races are called for 4 o'clock.

Several runs are being arranged for Wednesday evening, to attend the river and lawn festival at Cranford. The festival is to take the place of the carnival and cyclists who used to attend that attraction are preparing to go to the new affair.

There has been an unusual number of bicycle parties out Park avenue during the last full moon. The weather has been rather unpropitious for such events but the few pleasant nights, that have been, have been amply taken advantage of. Park avenue is in pretty good condition and the absence of any steep grades make it a favorite ride for those who have not become expert wheelmen but enjoy a spin now and then.

AMONG THE STEPPERS.

C. N. Apgar has sold his road horse, "Major McKinley," to C. V. Waters, of Bayonne. This is an exceptionally fine animal, and previous to being purchased by Mr. Apgar was used for track purposes and had a mark of 2:28.—Somerville Unionist-Gazette.

"Myrtle Twig," Thomas Brantingham's fast mare that already has a record of 2:23, will not appear on the track at the Driving Park tomorrow afternoon on account of an attack of catarrhal fever which she is experiencing. The mare was taken a week ago, and although she trotted the match with John Osburne's "Woven Wind" last Saturday, was not feeling her best. The fever is something that has been attacking several trotting horses this summer and is not at all serious. "Myrtle Twig will no doubt be out with all her old speed in a week or two.

BASKET BALL

Although so early in the season, the basket ball players at the Y. M. C. A. are already at work training for the matches to be played this coming winter, Tuesday and Friday nights are given up to practice, and the gymnasium is the scene of some lively playing. Two and perhaps three teams will be organized this winter, and from the interest being taken in the game so far, the coming season promises to be one of unusual activity in that line.

ROD AND GUN.

The Asbestos Club received a large basket of fish this morning from Langhorne, the photographer, who is fishing at Barnegat.

Mr. and Mrs. E. E. Marshall, of Fairview avenue, indulged in a crabbing expedition yesterday, and they returned home with thirty-five to their credit.

N.Y. CONDENSED MILK CO. NEW YORK.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

There will be two full moons this month, one occurring last night and one on the 31st. Full moons occur twice in the same month only about once in three years, and there will not be two full moons one month again until 1901. The time which elapses between the two consecutive full moons or new moons is termed a synodical month, and consists of 29 days, 12 hours, 44 minutes, 3 seconds, consequently all the phases proper to the moon must occur during that interval. If, therefore, a new moon occur on the first of the month, and the the month has more than 29 days and 12 hours, the same phase of the moon may occur again. The same rule holds good for the full moon. The harvest moon is the moon which is nearest the autumnal equinox, and will be this year the full moon occurring on September 29.

* * * * *

Now that the boys on the U. S. S. Badger have at last seen fighting and have captured three prizes, they are well fitted to pose as heroes on their return. They will have something substantial however beside the reputation and honor they have gained on their last cruise. The prizes captured will net a very satisfactory sum, which, when divided among the boys, will allowed them each about $800. Now there was little thought of prize money when they started out, but now that it has come, or rather will come soon, there will not be any objections. The $800 will be a very satisfactory amount to bring home after the war ends for there will be little or no chance to get rid of it until that time.

Mrs. E. A. Mosher, of Brooklyn, who has been staying in this city for several weeks on account of ill health, will spend Sunday in Montclair.

KEAN BIDS $250,000.

CONTINUED FROM PAGE 1.

of $250,000. Payment of said sum to be made by instalments as required by your honorable body as the construction of the street railroad proceeds in each municipality.

The amount to be paid annually for the franchise is $100,00.

If this proposition shall be accepted, it is the purpose of this company to connect the street railroad proposed to be built with the road now owned and operated in the city of Elizabeth by the Elizabeth Street Railroad Company, said street railroad to be constructed and equipped for operation by electricity, thus forming a direct route from the ferry at the foot of East Jersey street to the centre of the city of Plainfield; such connection to be made as far as practicable by means of street railroads already existing, and if reasonable terms for that purpose cannot be made without delay, application will be made to your honorable body and to the council of the city of Elizabeth for a franchise to construct a street railroad from the junction of Morris avenue and Union street to Broad street by way of Union street and West Grand street.

The company will also agree to sprinkle its roadbed when dusty at its own expense.

The material to be used in the construction of the street railroad shall be of standard quality, and shall be located on such parts of the said highways as may be designated by your honorable body. The cars to be used by the company shall be provided with fenders of approved design, and shall be run on an average headway of at least fifteen minutes between the hours of 6 o'clock a. m. and 10 o'clock p. m., and at other hours according to the needs of travel.

This proposition is made in the expectation that the franchise, if granted, will be for the term of 75 years.

Sealed and respectfully submitted by order of the board of directors of the Elizabeth City Horse Railroad Company, August fourth, eighteen hundred and ninety-eight.

The Elizabeth City Horse Railroad Company.

By John Kean, President.

Attest:

J. W. Whelan, Secretary.

WITH AMBULANCE TRAIN

CONTINUED FROM PAGE 1.

of one's cooking kit, which consists of two oblong pans, one having a handle. If you prefer your hardtacks toasted, put them into a frying pan, which, of course, is half full of grease. They are much better this way than dry. You are given enough coffee for one cup, which is on the fire while the bacon is frying. If we get canned tomatoes I put in broken hardtack and cook them in the frying pan. Roast and corned beef we eat cold, or warm or cooked up with tomatoes. If we get potatoes, which we have not had for a long time, or onions, we cook them with the beef and tomatoes and call it "slum." We had a bag of oatmeal and one of corn meal given us, and this we cooked in our tin cups.

When I get home I want nothing but mince pie, lemon pie, pumpkin pie, cream hot biscuit and butter, with a little steak and chicken thrown in.

From where I sit, in front of the supply tent, I look upon a scene truly tropical; reeds from four to six inches through and 50 to to 90 feet tall; immense palms; high cocoanut trees; cacti a foot through and 50 feet tall; and all sorts of tropical trees that I do not know the names of. Guanos grow wild all through the woods, mangoes and other tropical fruits. Some of the roads made by the engineer corps are through veritable jungles, and are very rough, too. But it is not easy to be painstaking when constructing roads over which a whole army is waiting to march to the front.

Besides putting up the orders from the surgeons, we prescribe for some, mostly men from the pack trains and who have no regular doctors to look after them.

Ambulance Train,
Shafter's Fifth Army Corps,
Santiago, Cuba

PARTICULAR MENTION.

Miss Morgan, of this city, is visiting in Bayonne.

The Misses Madge and Victoria Martin, of New York, are visiting their cousin, Miss Gertrude Tier, of Bank place.

Mrs. Wilson, wife of Chief Wilson, of Grove street, is quite ill at her home, and her husband is obliged to be off duty.

Special Marshal Whiteley, of the borough, is on duty today in the place of Chief Wilson, who is detained at home owing to the illness of his wife.

Miss Edith Annin, of Liberty Corner, and Miss Elizabeth Milligan, of New York, who are summering at Washingtonville, are now visiting Miss Maude Eleanor VanDyke, of East Front street.

SAT IN A CHAIR AND DIED

SUDDEN DEATH OF FRANCIS J. DOREMUS LAST NIGHT.

Retired in Apparent Good Health, But Soon After Felt Distressed—Was a Former Morris County Assemblyman.

Hon. Francis J. Doremus, aged 82 years, a resident of the borough for the past eleven years, died very suddenly last evening at 10:30 o'clock at his home on Prospect place. Previous to that time Mr. Doremus was apparently in the best of health, and his death, due to apoplexy, was a terrible shock to his wife, who was alone with him. He had been to bed, but awoke with a feeling of distress He got up and took a chair for awhile. He had not been sitting there very long when he dropped out of the chair, dead. Mrs. Doremus was nearly prostrated, as she had not the slightest intimation of his condition.

Miss Teeple, who resides in the house, was awakened and she at once told Edward Ross, who lives next door, to go for Dr. Adams and for W. C. Townsend, son-in-law of the deceased. By the time Dr. Adams arrived life was extinct, and the doctor pronounced death due to apoplexy.

Word was sent to County Physician Wagoner, of Somerville, and this morning he gave a certificate for burial after satisfying himself as to the cause of death.

Mr. Doremus was born at Madison, Morris county, and spent most of his younger days in that vicinity. Later in life he engaged in the contract business and travelled extensively in attending to the erection of large buildings. He was at one time elected Assemblyman from Morris county, and represented his constituents in an able manner. He owned considerable property throughout the State and was considered to be a well-to-do man.

Fifty-nine years ago he was married to Miss Rhoda Bonnell, of Chatham, this State, and she survives him, as do also four children. One son, Jefferson Doremus, lives at Spring Valley, this State, while another son, Monroe Doremus, lives at Genesee, Ill One daughter, Mrs. Fred Treat, lives at South Orange, and the other daughter, Mrs. W. C. Townsend, resides at 430 West Sixth street, this city.

Arrangements for the funeral have not yet been made, but the interment will be at Chatham.

CAPTURED BY BADGER.

NEW JERSEY NAVAL RESERVES DO SOME FINE WORK.

Secured 400 Spanish Soldiers as Prisoners—One of the Captured Boats is Said to be Worth at Least $70,000.

(Special to The Daily Press.)

Key West, August 5—The Badger was covering the blockade station at Nuevitas July 26th, when one of the Spanish boats slipped stern foremost to the mouth of the harbor and took a peep at her. The enormous hull of the American ship, bristling with Nordenfeldt guns, scared her and she scurried back to shelter.

Three vessels were observed coming out a little later, in excellent formation, and Captain Snow thought a good fight was coming. He brought his ship up at the mouth of the harbor and prepared to give the Spaniards a vociferous greeting, when it was discovered that, instead of gunboats, the advancing ships were a tug, a brigantine and a barge, the last two in tow, all flying Spanish and Red Cross flags.

Two shots from a 6 pounder were fired in their direction, and they promptly surrendered. The tug was the Humberto Rodriguez, fine and new, and worth about $70,000. The brigantine was the Safi and the barge was the SanFernando.

Men from the Badger boarded the prizes and found distributed over them about four hundred Spanish soldiers, who, it was said, had been ordered to Havana by General Salcado. The surgeon in charge asserted that there were six cases of yellow fever among the troops, but a careful examination by Dr. Simpson, the Badger's doctor, and afterward by other physicians at Tortugas showed there was no infection among the men, and that the Red Cross flags were used as a decoy.

The Badger proceeded with her prizes from Nuevitas to Havana, where she reported to Commodore Howell, who ordered them to the Tortugas.

Lieutenant Edward McG. Peters, with two officers and two men, was put in charge of the prizes and left with them for Havana. He will thence proceed with a tug-load of the Spanish prisoners to New York.

The Badger is manned by New Jersey Naval Reserves.

EARLY INTELLIGENCE.

—The city flag has been repaired and will be swung to the breeze in a few days.

—Charles Hand, of East Fifth street, lost a valuable horse last evening with colic.

Mrs. Horsley Barker, of Grove street, is visiting relatives on Staten Island.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

The next attraction to be presented by Manager Maze Edwards will be the celebrated John L. Sullivan and his company, who make their appearance Friday night of next week.

* * * * *

Seated in circles around what was represented to be the foredeck of the gallant ship Olympia, that carried Admiral Dewey and his fleet to victory at Manila, the members of Haverly's minstrels made a decidedly patriotic debut in Music Hall last night. The idea of the first part was very timely, and in natty naval costumes the minstrels made merry with jest and song to the evident delight of the large audience that greeted them. The jokes were new and in no way suggestive or ribald, and very humorously the comedians knew how to tell them. The songs run the gamut of all sentiments and were rendered with artistic finish by the vocalists. In the olio the Nichols Sisters made the distinct hit of the evening in their portrayal of southern girls as they appear in their natural, innocent pastimes. Bogert and O'Brien, eccentric musical comedians, were also very good. The afterpiece, "The Princess of Madagascar," was a pretentious effort for a minstrel company, but it was produced in a pleasing manner.

MISSIONARY BANKING.

Some Drafts Sent as Small as 25 Cents and Pass as Readily as Currency.

Each Foreign Board Treasurer seems to have his own way of transmitting money to foreign fields. Nearly thirty years ago the Methodists adopted a plan which their secretaries declare cannot be improved upon. The plan is this: A Secretary draws a three-day draft on the Treasurer of his own Board. This draft he mails to a missionary in some part of the globe. The missionary cashes the draft at any local bank. No missionary is permitted to draw on the Treasurer of his home Board. No mission-secretary is authorized to sign a draft.

Some advantages of this plan are: 1. The saving of the cost of a bank draft, because the Secretary uses his own draft. 2. The saving of interest while the money is in transit. 3. A gaining of time. To illustrate the latter advantage it is needful only to point out that, were a draft purchased at a bank, the money or its collateral would of course have to be forthcoming to pay for it. Under the plan in use the Secretary sends the draft to the missionary whether he has the ready money or the collateral in hand at the moment or not. One to three months are required for the mails to bring the draft back. By that time the money is in hand.

In Africa the drafts of the Methodist Board are similar, in both appearance and availability, to United States money. Some are issued for as small a sum as 25 cents. They pass as readily as currency along the coast and in fact as currency all along the coast and in many parts of the interior. Often they are many months, in some cases years, in being returned to the home office for redemption.—Church Economist.

THE CZAR'S DIPLOMACY.

His Quiet Way of Rebuking His Soldiers for Snubbing a Comrade.

The luxury and extravagance amongst the upper grades in the Russian army makes it exceedingly difficult for an officer who is not rich to keep up his dignity. Recently a young Russian lieutenant, none too well off, rode to his barracks in a street car, and his brother officers were so scandalized by this undignified action that the young soldier was snubbed and an intimation conveyed to him that his resignation would be desirable. Somehow this reached the Czar's ears, and, inpursuance of a policy of simplicity and common sense that has rapidly been endearing the present Russian ruler to his people, he went out with a single attendant, jumped on a car and rode to the barracks himself. When he presented himself before the officers of the regiment, he said: "Now, gentlemen, I hear that to ride in a tram is beneath the dignity of an officer of your regiment. I have just been riding in a tram, and I am your Colonel; do you wish me to send in my papers?" The apology was, of course, immediately forthcoming, the young lieutenant was reindicated, and probably the first known instance in which the Czar rode in a public street car was made a matter of history.—Philadelphia Times.

"FRESH MEAT"

Is a much abused term. Very often it means nothing at all. When we use it it means a whole lot. Young, juicy, wholesome, delicious meat of every kind is the only kind we sell. If you want to feel perfectly safe and save money at the same time, come here.

FRED ENDRESS.

131-135 W. Front St. Branch 203 Liberty St.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. BRIEF WORK OF THE BOROUGH SOLONS.

Nothing But Routine Matters Brought Up for Consideration.

THE COLLECTOR'S REPORT.

SEVERAL PETITIONS RECEIVED ON DIFFERENT SUBJECTS.

Fire Department Reported to Be in First-class Condition—Special Marshal Appointed for Park Golf Club—A Request That Somerset Place Be Accepted as a Public Street of the Borough.

One of the shortest meetings ever held by the Borough Council was the regular August session held last evening. Councilmen Valiant and Burtis were among the missing, and no doubt were enjoying a much cooler atmosphere. The Mayor and the rest of the members were present and quickly transacted the small amount of business on hand.

Clerk Arnold reported a cash balance of $255.30, and the sum of $3,030.09 paid county and State. He also reported the collection of $27.60 from fines, licenses, etc.

The report of Collector Brown showed that since the last report the sum of $1,232.58 had been collected as back taxes, making the total collections to be $4,974.58. The disbursements were $3,920.49, and there is a balance of $1,054.09. In the borough fund there is $687.88, and $366.21 in the Watchung avenue improvement fund.

The members of West End Hose Company reported that Charles Hummer had resigned from the company and that the resignation had been accepted. The members of Warren Engine Company reported that David C. Allen and Z. Conover had served seven years in the company and are therefore entitled to exemption papers. This company also reported the election of J. W. Bamberger and R. Schenck to membership, and asked the Council to confirm the election.

In a communication, E. E. Marshall, of Fairview avenue, stated that he had been assessed for two properties, one of which is owned by Mary Leland, and in order to be released and secure his property he was obliged to pay the entire assessment. He asked the Council to deduct the amount on the property which he does not own. The matter was referred with power. A. E. Faber asked the Council to repair Grove street north of Greenbrook road. A. V. Searing and others petitioned the Council to lay a crosswalk at the corner of Grandview and Westervelt avenues. This matter was referred with power.

Mr. Woolston, of the street committee, reported that during the month of July the sum of $509.39 was expended on streets. He also stated that it would require about $200 to complete the work of repair on Greenbrook road.

Mr. Rogers, of the fire, water and lamps committee, reported everything pertaining to the fire department to be in first-class condition. Mr. Rogers also offered a resolution accepting a fire hydrant which has been located at the corner of Mountain and Westervelt avenues by the Plainfield Water Supply Company.

At the solicitation of the members of the Park Golf Club, through B. A. Hegeman, Jr., the Mayor appointed Fred Coverly as special marshal at the club's house.

A petition was received from W. L. Smalley, Sr., of Craig place, asking the Council to accept Somerset place as a borough street. The Mayor stated that the street should be accepted as the borough has been keeping it in repair and furnishing water and light on the street. The matter was then referred. There is no doubt but what the street will be accepted, but the usual legal course will have to be taken. This concluded the regular business of the evening and the Council went into executive session for the purpose of examining the books of the assessor. It is the intention of the Mayor to refer the books to a special committee and to have them devote a number of evenings in the examination. It is expected that at the next meeting the tax rate for the borough for next year will be announced.

Dogs Were a Nuisance.

Harry Bennett, of the borough, was arraigned this morning in the borough court and sentenced to ten days or fined $10 for violating a section of the health ordinance, in keeping dogs at his place which proved to be a nuisance. Mrs. Utzinger, a neighbor, made the complaint against Bennett. As the defendant failed to pay the money he was taken to Somerville to serve ten days.

TRACK RACES AWHEEL.

BICYCLE RACE MEET THIS AFTERNOON AT MALTBY'S TRACK.

Race Given by G. H. Kenyon—Will Include Four Events—List of Events—Prizes and Entries—Races Begin at 4:30.

Four amateur bicycle races will be held at Maltby's track this afternoon, beginning at 4:30 o'clock. They are arranged by G. H. Kenyon. The events and prizes are as follows:

Five-mile handicap—First, electro bicycle lamp; second, racing suit; third, L. A. W. watch charm (gold).

Time prize—Half-dozen Rogers' best silver spoons.

Two mile handicap—First, gold locket; second, gold cuff buttons; third, silver scarf pin.

One-mile open—First, sweater; second, pair of bicycle shoes; third, Veeder cyclometer.

One-mile open, for boys under 16—First, cyclometer; second, bicycle stockings; third, pocket knife.

The entries for the different events are:

One-mile open for boys under sixteen years of age—Harry Condit, Edwin Duck, Joseph Harkins and Arthur M. Chapin.

One-mile open—Charles Westerfield, Eugene Richter, Alfred Springer and Joseph Burke.

Two-mile handicap—Charles Westerfield, Eugene Richter, Arthur M. Chapin, Harry Condit, Alfred Springer, J. Sorensen and M. C. Sorensen.

Five-mile handicap—Morris Sorensen, Michael Owens, J. Sorensen, Michael Burke, Eugene Richter, Joseph Burke, Charles Westerfield, Alfred Springer and Henry Angerbauer.

RICHTER IN FIRST PLACE

THE JUDGES COULD NOT GO BACK OF CHECKER'S REPORTS.

Other Contestants, However, Claimed That Richter Never Passed Them, But He Insisted That He Did So.

Eugene Richter has been officially announced as the winner of Harry K. Lister's fifteen-mile road race, held Thursday evening. The protests of the other riders that he never made the last turn at Pumptown were not sustained. According to the record of the checker at that point, Vernon Waters, he turned around the pump twice as did the other riders. He was also checked at Campbell's. Under the circumstances there was nothing for the judges to do but award him first prize.

A meeting of the judges was held last evening at The Daily Press office and the protests duly considered. Waters was very sure that Richter made the two turns, so was Richter. The riders of the bunch were very sure that Richter had never passed them. The evidence of the checker was there, however, and left only one course open to the judges.

The prizes were awarded last night after the meeting of the judges.

RUN INTO FIGHTING DOGS.

Thrilling Experience a Plainfield Cyclist Underwent.

(Special to The Daily Press.)

Scotch Plains, August 6.—William A. Leland, of Plainfield, collided with two dogs while wheeling through the village yesterday afternoon, bent his bicycle and cut his arm and leg. Leland was riding quite fast when a wagon turned out directly in front of him. Between the wagon and the gutter two dogs were fighting.

Leland had to choose which to run down, and chose the dogs. He struck them both, was thrown, and struck the hard roadbed. He was helped to his feet and his cuts bound up. One of the pedals was bent all out of shape, but it was put back in shape again, and Leland was able to ride home.

At the Camp Meeting.

Bishop Walters, of New Jersey, was the principal speaker at the camp meeting in Hyde's grove last night, and an enthusiastic service was held. Besides the bishop, Dr. Carpenter, of Brooklyn, and Rev. A. R. Davis, of Danville, Va., also delivered addresses. Tomorrow will be a jubilee rally day. The attendance will probably be the largest of the season.

Strange Faces in the Pulpit.

Rev. A. J. Steelman, of Ottowa, Ill., will preach in the Park Avenue Baptist church tomorrow and next Sunday. Rev. S. Gifford Nelson, of Brooklyn, will occupy the pulpit the last two Sundays in the month.

To Barnegat for Two Weeks.

Frank Hedden, the liveryman, with seven companions, will go to Barnegat August 14th for a two weeks' fishing trip. They have hired a yacht, and will spend most of the time on the water.

—Use Press want ads for returns.

PEACE OR MORE WAR?

Question Will Probably be Settled Today.

SPAIN'S REPLY READY.

CASTILLO WANTS WOODFORD AS COMMISSIONER.

Asks that Negotiations be Continued at Paris—Long Cipher Despatch Received at the Frenoh Embassy—Answer Today.

(From the Union Associated Press.)

Madrid, August 6, 11:29 a. m.—The correspondent of the Associated Press here corroborates the statement that the Spanish reply to the United States, accepting the terms of peace, has been completed.

It will be presented to the Queen for her signature previous to this afternoon's meeting of the Cabinet.

Paris, August 6, 11:43 a. m.—At the suggestion of Senor Castillo, the Spanish government has asked the United States through M. Cambon, to appoint Gen. Woodford, former minister to Spain, as one of the peace commissioners.

The United States is also asked that after the signing of the preliminary contract, that the peace negotiations be conducted in Paris.

Senor Castillo knew that Ambassador Porter, America's representive in France, helped to block the Spanish loan in Paris and hence he desires to confer with Woodford in preference to Porter.

Washington, August, 6, 12:43 p. m.—A long cisher despatch was received at the French Embassy this morning. It is said to be Spain's reply to the State Department's communication through the French Ambassador.

High officials state that the momentous question of peace or continued hostilities will be settled today for sure.

WHISKEY MADE HIM ROAR YEOW!

Sad Plight That a Young Farm Hand Got Himself Into.

"Yeow!" he yelled as he ran down North avenue from the freighthouse in the direction of Netherwood yesterday afternoon. Children fled, women looked alarmed and men wondered what had happened.

Richard Ayres is a young man who has been employed at Milkman Terry's farm. He was perfectly harmless and had a good reputation. Yesterday afternoon he was sent to unload a wagon filled with beer-grains at the Plainfield freighthouse. It was a pretty warm day and the violent exertion made the prespiration run freely.

Now to brace himself up, it is said that Dick provided himself with some whiskey and water, of which he partook at stated intervals, which, it is feared, were too close to each other for the good of the young man. Some of those who saw him say that he put too much water in the whiskey and that it went to his head.

At any rate, he suddenly quit work, left his horses standing there and went forth roaring along the street. Thus it was that Roundsman Frederickson found him near Netherwood yesterday afternoon, and locked him up for the night.

When Ayres was arraigned before City Judge DeMeza this morning the Judge heard his story and suspended sentence.

Not a Society Effort.

The Woman's Christian Temperance Union wishes to correct the impression that the petition for a drinking fountain recently presented to the City Council originated with them. The work of getting the names was the work of one member of the Union on her own responsibility.

Francis J. Blatz, of Somerset street, went to Perth Amboy yesterday.

COLORED PREACHER EXHORTS TOO LOUDLY

Demonstrative Services in Calvary Baptist Church.

NEIGHBORS ARE DISTURBED

FIRST BAPTIST CHURCH SERVICES ALSO INTERRUPTED.

Colored Minister Uses a High Voice When Preaching and He Can be Heard a Block Away—Informal Complaint to City Authorities to Have Less Noise Made by Colored Brethren.

People who happen to be in the vicinity of West Front street and Central avenue Sunday evenings, have been able to hear the preacher in the room over Manning's marble works, where the Calvary Colored Baptist church has been holding services. Sometimes the preacher raises his voice. In fact, he does so quite frequently. Now these warm nights, no body can sit with the windows closed. The consequence is that the exhortations of the colored parson are to be heard by everybody within a radius of a block.

Right across the street from the place where the colored Baptists worship is the home of the largest Baptist congregation in the city, the First Baptist church. There Rev. Dr. D. J. Yerkes speaks earnest words to the members of his flock. The windows are open and he has just reached an impressive point in his discourse when, of a sudden, the edifice is filled with the shouts of the colored brethern from across the way.

Such incidents are unpleasant particularly when they are frequent. On one occasion, word was sent to the colored worshippers to kindly refrain from too loud demonstrations. Not only does the preaching frequently take on a loud tone but the singing is sometimes remarkably demonstrative.

It is an understood fact that everybody has a right to worship as they please, provided, however, they do not disturb those around them. Now some of the neighbors of the colored church are not pleased with the situation. They feel that the colored brethern should put some check to their enthusiasm if only for the sake of those living in the neighborhood. These people have consequently appealed to the city authorities, only informally as yet, to see if the trouble cannot be peaceably settled.

Up to the present time no formal complaint has been made. If, however, there is not a cessation of the noise in the future, one will be made and the city authorities will be asked to step in and look after the interests of the neighbors.

WOUNDED SOLDIER TO BE HEARD.

A Member of the Seventy-first Regiment to Talk at the Y. M. C. A. Tomorrow.

The speaker at the Y. M. C. A. meeting Sunday afternoon will be Fred Keuhnle, of New York. Mr. Keuhnle was a bookkeeper in a large business house at the time the war broke out, and being a member of the Seventy-first New York, resigned his position to go to the front.

Mr. Keuhnle, when in New York, was an earnest Christian worker, and spent much of his time in mission work. He was the Wednesday night leader of the Doyle Street mission, in Chinatown, and continued his work in the army.

In the battle of Santiago Mr. Keuhnle was wounded three times. He thought at first that he would lose one of his arms, but now it is thought that he will not. He will tell of his experience at the front, and no doubt his talk will be very interesting.

Dance at Catholic Club.

One of the regular midsummer-night dances was held at the Catholic Club last night and was well attended. The hall was decorated with the National colors, and to music furnished by Prof. O'Reilly the merry dance was kept up until a late hour. The handsome new Steck concert grand piano, which was recently purchased by the club, was used last night for the first time. The house committee had charge of the dance.

Coal Cars Jumped the Track.

(Special to The Daily Press.)

Bound Brook, N. J., August 6.—Four coal cars, part of a train drawn by engine No. 316, jumped the track this morning at East Bound Brook while the engineer was taking a siding. They were placed on the rails again in a short time. Travel was not interrupted.

Caught a Big Turtle.

"Billie" Hartman, proprietor of the Amboy Hotel, recently hooked a 96-pound sea turtle off the lighthouse. The turtle was the largest one ever caught around there.

SAN JUAN MUST FALL.

Peace Movement Will Not Stop Advance.

SHAFTER COMING HOME.

SOME OF HIS TROOPS ALREADY EMBARKED.

One Army is Marching to Victory and the Other Returns Home To Rest After Its Victory—Miles Prepares To March.

(From the Union Associated Press.)

Ponce, Porto Rico, August 5, via St. Thomas, Dutch West Indies, Aug. 6th, 11:22 a. m.—By order of General Miles nobody will hereafter be allowed to communicate with the Spanish town officials.

The artillery has been ordered to be ready to advance. The peace negotiations, Gen. Miles says, will not affect the march to San Juan.

The advance is now waiting for wagons. A transport loaded with rifles was sunk in the harbor today. The troopship Massachusetts was floated off the reef at noon today.

Washington, August 6, 1:10 p. m.—The War Department has received information that the transportation of Gen. Shafter's army is well under way.

A shipload of calvary left Thursday and three more sailed yesterday. It is expected that they will arrive at quarantine Thursday next.

Secretary Alger states that the department expects to have ten thousand men on their way to Montauk Point by the end of next week.

ROESEL NOT TO DIE YET.

The Murderer's Lawyer to Carry the Case to Court of Errors.

(Special to The Daily Press.)

Elizabeth, Aug. 6.—Louis Roesel will not be hanged here on August 26th for the murder of James C. Pitts, of Summit. Frank Bergen made application Thursday to Chancellor McGill for a writ of error, but it was denied. He will take the case on appeal to the Court of Errors, which does not meet until November. This will act as a stay of proceedings until the issue raised has been passed upon by this court. Lawyer Bergen's contention is that Judge Van Syckel had no right to sentence the prisoner when the Court of Oyer and Terminer was not in session.

BOILER EXPLOSION AT PEAPACK.

Fireman Gulick Badly Injured and the House Entirely Demolished.

Peapack, August 6—The boiler on the premises of C. L. Blair exploded Wednesday afternoon, severely injuring the fireman. The boiler was used for running a large pump for distributing water over Mr. Blair's premises. The boiler-house was frame, and it was totally demolished by the explosion. The boiler was carried about 400 feet from the building.

Frank Gulick, the fireman, was standing in the doorway at the time, and sustained severe injury. He was taken to the farmer's residence, where he was attended by Dr. E. F. Farrow.

In Honor of Guests.

Miss Gertrude Tier, of Bank place, gave a party last evening in honor of her cousins, the Misses Madge and Victoria Martin, of New York, and entertained many of her friends. Music and dancing was the feature of the evening. At a late hour refreshments were served.

Looking Over the Assessor's Books.

During the executive session of the Borough Council last evening it was decided to commence next Monday evening and hold meetings every evening until the books of the assessor were examined and approved. The work will have to be completed by August 15th.

TROLLEY TRACKS GROW.

BOUND BROOK SOON TO SEE THE CARS ON MAIN STREET.

Nothing is Heard, However, of the Project to Connect That System With the New Brunswick Line.

Bound Brook, August 6.—It will now only be a question of a few days before Bound Brook will see trolley cars running down Main street, right through the centre of the town. Over a week ago, the bridge of the Middle brook was completed and the cars run down the turnpike as far as the turn into Main street. There was some delay in getting the curved rails, but they will be ready for use now in a short time. The tracks through Main street and out East street to Union avenue are completed and run out Union avenue as far as the embankment. The wires are now being strung on Main street preparatory to running the cars there.

While much activity is displayed in that part of the trolley line, there is a complete silence regarding when and how the street railway system in Bound Brook is to be connected with the present line to New Brunswick. The Bound Brook Borough Council gave the company permission some time ago to run its tracks under the railroad bridge and to the borough line beyond. It was the intention of the Brunswick Traction Company to run its tracks down the causeway between the two railroads, but the general impression is that the consents could not be obtained to run a line out to the river road that way. The other plan proposed was by East Bound Brook, through the property of Dr. Pierce, crossing the Jersey Central and Lehigh Valley Railroads on an overhead bridge. Dr. Pierce and the company failed to agree on the terms and that plan fell through. Meanwhile people are beginning to wonder what is to be done about completing the connection with the line to New Brunswick.

CONTRACTS GIVEN OUT.

CARPENTERING AND PAINTING FOR NEW BOROUGH SCHOOL.

G. and C. W. Hummer and Woolston & Buckle the Successful Bidders—Other Contracts Awarded Next Week.

The Borough Board of Education met last evening in adjourned session and considered the bids for the construction of the new public schoolhouse to be erected in the borough. The contract for mason work was not awarded, as the Board think it desirable, if not too expensive, to make some changes in the original plans and specifications, and to ask each of the bidders for the mason work to submit an estimate for the cost of the additional work as soon as the specifications for the changes are prepared by the architect.

The Board will not formally enter into any contracts until such time as the purchasers' attorneys, who are passing upon the validity of the school bonds, make their report, which will be within a few days.

The contract for the carpenter work was awarded to G. and C. W. Hummer. The bid was $4,689. Woolston & Buckle secured the contract for the painting. Their bid was $475.

The contracts for heating, plumbing and ventilating will be awarded at a meeting to be held next week some time. Mr. Wells presided at the meeting last evening and all the members were present except President McCutchen and A. V. D. Honeyman.

A Pleasant Affair.

Marshal William Campbell and wife, of Summit avenue, entertained a few friends at their home last evening, and an evening of music and sociability was enjoyed by all. Those present included Mrs. Windham, Miss Windham, Mrs. Sheritt, Miss Sheritt, Mrs. Tucker, Mrs. Campbell, A. Campbell, Mr. Dentz, Frank Dentz, Miss Carrie Dentz, O. Phillip, Mrs. Phillip, Miss Bertha Phillip, Miss Mamie Phillip, Miss Jennie Clawson, Miss Flora Bilyeau, Edward Smalley, Irving Mills, Mr. and Mrs. Mills, Ira Faun, Miss Mair and Oscar Vaughn.

Received Many Honors.

(Special to The Daily Press.)

Lincoln, August 6.—Mayor Drake and the Councilwomen of Lincoln returned from Detroit, Mich., this morning, where they have been in attendance at the National convention of Mayors and Councilmen. They report having had a fine time and being showered with many honors.

The Next Excursion.

Next week Thursday the Methodists of Plainfield and North Plainfield will go on their annual excursion. These people always conduct a successful outing and this year there will be no exception.

—Press want ads bring results.

A TINY "R" CAUSED DETECTION OF THIEF.

A Servant Girl Succeeded In Stealing $110.

HER EMPLOYER THE VICTIM.

MARKED BILLS WERE DISCOVERED IN HER POCKETBOOK

Annie Price, Colored, Who Worked for C. T. Rogers, of New Market, Confessed to Having Regularly Taken Money From Her Boss—$75 Found in Her Trunk—Was Not Arrested.

(Special to The Daily Press.)

New Market, N. J., August 6.—C. T. Rogers, a clothing manufacturer, having a shop and place of business near the lake, has been missing sums of money during the past few months. The losses became so frequent that Mr. Rogers sought counsel from Lawyer William Newcorn, of Plainfield, who suggested that a colored servant, Annie Price, employed about the house, was the thief. A plot was laid to catch her, and yesterday afternoon the girl was detected and forced into a confession. The aggregate amount stolen is $110.

Mr. Rogers hired Annie Price about last fall, and soon after her installation in the household the thefts began to be noticed. Mr. Rogers employs a large force of hands, and each week goes to Plainfield and draws $200 or $300. The money comes tied up in packages of $25 each, which were placed in Mr. Rogers' desk and locked up.

When Mr. Rogers would go to his desk he would find that some of the bills had been extricated from the packages. One time he missed $15, another time $30; although the amount generally taken was only $6 or $8.

Last spring Mr. Rogers changed the lock of the desk, but the thefts continued, and later he bought a safe. He noticed that the packages of money were always unbroken after this, and the mystery was deeper than ever.

What first drew Mr. Rogers' attention to the girl was a sudden determination on her part to go to her home in Martinsville, Va. Mr. Rogers knew that her railroad fare would be $20, and that she had sent several registered letters containing money home, and he couldn't understand how it was that she had the means to go.

Thursday, Mr. Rogers consulted Lawyer Newcorn, and acting on his advice placed two packages of bills in the desk. Each package contained bills marked with a small "R" in the corner. In an offhand way Mr. Rogers let Annie know that the money was there.

Before breakfast yesterday Mr. Rogers looked in his desk and found the money all right. After breakfast $9 were gone. Annie suddenly determined to go to Plainfield.

After her departure Mr. Rogers went to Plainfield and got Mr. Newcorn. Together they returned to the house, and getting a search warrant from Justice Storms, Mr. Newcorn, Mr. Rogers, Justice Storms and Constable Luther Mundy proceeded to Annie's room and broke open her trunk.

There, lying hidden under fine dresses, dainty underwear and soft linen of the very best kind, the searching party found $75. None of the marked money was there, however. While busy with the girl's things, Annie appeared on the scene. In her fright at what she saw she laid down her pocketbook, which she carried, and Mr. Newcorn, slipping over to it, seized it, and opening it found $4 there. Two of the bills bore the fatal "R" and Annie's guilt was established.

The girl at first stoutly denied taking anything, but through Mr. Newcorn's adroit cross-questioning she at last admitted taking the $9. At last she said that she had been taking these sums ever since last November, until the purchase of the safe prevented her taking any for a time. While in Plainfield she bought a plain gold ring for $6.

Annie begged so hard for mercy, and promised faithfully to work hard and pay back all she had taken, that Mr. Rogers took only $55 of the $75, thus leaving her $20 with which to get home. She promised to leave town at once and was placed on a train soon afterwards.

Annie absolutely refused to tell how she succeeded in getting in the desk, saying that she always found the drawer open.

Slander Case Adjourned.

The Sherman-Neal slander case came up in Elizabeth at the Circuit Court yesterday, and was adjourned until September 2d.

MAKING HASTE SLOWLY

Spain's Reply to Our Terms May Be Delayed Some Days.

CAMPOS SPEAKS FOR PEACE

Spain's Answer is Expected to Be a Complete Acceptance of Our Terms. Fears That the Reports from Santiago May Affect the Decision. Madrid Advices Tell of Continued Conferences.

Washington, Aug. 6.—Secretary Day announced after leaving the cabinet meeting yesterday that there was nothing to be made public in regard to the peace negotiations. Nothing had been received from Spain or from the French ambassador, and the opinion given the cabinet at the meeting was that there would be no answer from Spain until at least the first part of next week.

The cabinet spent a good portion of the session in discussing plans to be pursued in regard to our new possessions after peace is established and pending the negotiation of a treaty. This related especially to the garrisons needed in Cuba and Porto Rico, as well as the situation at Manila. While peace will end hostilities in Cuba and Porto Rico, pending the report of the peace commissioners, the situation at Manila will be unchanged. The American and Spanish forces will still be facing each other, unless Manila surrenders, and even then the situation on the other islands will remain the same.

In speaking about Spain's answer, a cabinet member said yesterday that the president was going ahead on the assumption that Spain would accept unconditionally our terms. "I think," said he, "the answer will be received early next week. Our assurances are that it will be a complete acceptance of the terms, but circumstances may change the situation."

When asked if he thought the condition of our troops at Santiago would have any effect upon the Spanish government and their answer, the cabinet member shrugged his shoulders and replied:

"No one can tell. Certainly, if they learn of the reported conditions there, it may affect them, but we hope that it will not. The reports from Santiago are exaggerated, but that will not affect Spain's position, but only make her change her mind, if it does anything. This is only conjecture, for I firmly believe that when the answer comes it will be an absolute and final acceptance of all our terms."

The administration is becoming convinced that Spain is seeking pretexts for delay in the peace negotiations, as they have in all stages of the war. They have everything to gain and nothing to lose by such a course, as their surrendered soldiers are being fed by the United States, our soldiers in Santiago are dying of fever and the sending of Watson's fleet is hel din abeyance. Some of the cabinet members favor the plan of making Spain give a definite and final reply to the peace terms at once, but it is probable that the usual diplomatic deliberation will be allowed and the whole matter permitted to remain open at least until next week.

Peace Conferences Held.

Madrid, Aug. 6.—The conferences between the political leaders on the subject of the peace terms continue. Senor Silvela, the Conservative leader, acting in behalf of Senor Castelar, the Republican leader, who was prevented by illness from being present, has conferred with the premier, Senor Sagasta, on the subject.

He said Senor Castelar, though an advocate of peace, was of the opinion that in negotiating its conclusion the government "should remember the Virginius affair, when the energy displayed by Spain in dealing with the United States saved Spanish interests, and he thought every effort should be made to preserve Spanish sovereignty over Porto Rico."

Senor Silvela added that he personally did not favor any change of policy.

The Liberal, moderate Republican, yesterday published an interview with Marshal Martinez Campos, who is quoted as saying:

"I openly favor peace. Everything that has happened in this war could have been foreseen, but the most pessimistic could never have imagined that our misfortunes would be so great—the destruction of Montojo's and Cervera's squadrons, the surrender of Santiago and the rapid and unresisted occupation of Porto Rico. No one could have imagined it, even taking into consideration the superiority of the United States.

"Neither the present government nor any other can change our situation. It would be madness to think of rejecting President McKinley's conditions. The Liberal party can bring about peace, but Sagasta should not be asked to sign it. Such a course would not be prudent and another Liberal cabinet should be constructed."

Marshal Martinez de Campos, it is pointed out, evidently referred to Senor Gamazo as the man who should succeed Senor Sagasta as premier. Senor Gamazo is the present minister of public instruction. His name has been frequently mentioned recently in connection with the premiership, in the event of the formation of a new cabinet.

Sickness Among Spanish Prisoners.

Santiago de Cuba, Aug. 4.—General Toral, cammander of the Spanish troops, sent a letter to-day to General Shafter advising the latter that the camp of the surrendered Spanish troops is in an unhealthy condition. The Spanish officer also reported that there were several hundred sick in the hospitals, and that there was an average of twelve deaths daily. General Shafter will take action at once to improve the sanitary condition of the Spanish soldiers and their camp.

Coal for Manila.

Norfolk, Va., Aug. 6.—The British steamship Indra, Captain Burkeil, has sailed at 9.50 o'clock with 9,150 tons of Pocahontas coal. She cleared for Singapore, but is destined for Manila.

Of her load 8,500 tons is cargo; the remainder is for her bunkers.

SPAIN ACCEPTS THE TERMS!

She Yields to the Ultimatum Presented by America The Queen Will Approve.

Madrid, Aug. 6.—4.40 a. m.—At the cabinet meeting last night the ministers agreed upon a reply to the United States, accepting the principle of the American terms, without prejudice to the discussion of certain essential points regarding the Philippines. They will communicate their decision to the queen regent to-day. Her agreement is considered assured.

It is now believed that Sagasta will continue in power.

The council approved a project to raise the total issue of bank notes to 2,500,000,000 pesetas.

Senor Gabaza, minister of public works, believes that peace will be made on easier conditions than those announced.

London, Aug. 6.—The Sun correspondent in Madrid telegraphs that the ministerial council last night decided practically to accept the conditions of peace laid down by the United States.

Marines Land at Cape San Juan.

Off San Juan de Porto Rico, Aug. 4, by way of St. Thomas, Aug. 5.—The Americans have taken peaceful possession of the eastern portion of the island. Small parties of marines have been landed, who have lighted the lamps in the lighthouse at Cape San Juan, and on other lighthouses along the coast.

They met with no resistance. Indeed at Cape San Juan, deputations of citizens came out to meet them.

The warships now in this vicinity are the Montgomery, Annapolis, Puritan and Amphitrite. The two first named are looking for the transports with troops, which left the United States and have scattered all about the island. The Annapolis rounded up the Whitney, the Florida and the Raleigh yesterday, and they are now at Cape San Juan.

There seems to have been a serious mistake as to the rendezvous, for no two ships go to the same place, and it will take several days to locate them and get them to Ponce, where General Miles is waiting.

Off San Juan the New Orleans alone maintains the blockade. The city is grim and silent, but back of her yellow walls there will be plenty of determinationand fight when the Americans open fire.

Captain General Macias has issued a proclamation, in the course of which he says:

"Spain has not sued for peace, and I can drive off the American boats now as I did Sampson's attempt when he tried before.

The daughter of the captain general is helping to drill the gunners in the forts. Altogether there are 9,500 Spanish regulars in the city. The troops of the enemy who are retreating from Ponce and the other towns on the south coast occupied by the Americans have not yet arrived.

The German steamer Polynesia, with a cargo of rum, canned meat and tobacco, tried to run the blockade this morning, but was stopped by the New Orleans.

Madrid, Aug. 5.—An official dispatch from Porto Rico says:

"American cavalry, assisted by the insurgents, have captured Fueneta and Cabejas, the lighthouse station at San Juan."

Alger on the Defensive.

Washington, Aug. 6.—There is less temper in the War Department to-day over the publication of the letter form Colonel Roosevelt and the round robin to General Shafter, but that Secretary Alger resents the position in which he has been placed by the implied criticisms of his subordinates is evidenced by the issuance of the following statement in his own defense.

"Until quite recently it was supposed that yellow fever was epidemic in Santiago, and it was not believed that it would be safe to send ship loads of men north, largely infected with yellow fever. The disease, it was believed, would spread rapidly on ship board and result in the death and burial of many at sea.

"On the 28th the Secretary of War telegraphed to General Shafter that as soon as the fever subsided the men of his command would be moved North, to a camp that has been selected for them on Montauk Point. On the 30th of July General Shafter telegraphed. Made know Secretary of War's telegram the troops would be moved North as soon as fever subsided, and it had a very good effect on the men."

"When however, the true condition was made known, an order was issued to General Shafter to move his comand North as rapidly as possible, and all ships in the quatermaster's service possible to get to Santiago were sent there and the St. Paul and St. Louis were also ordered there. All this was done before the communication signed by General Shafter and his generals was received, and before Colonel Roosevelt's letter was published.

"Over 150 surgeons are at Santiago, and 175 immune nurses have been sent there besides the usual hospital corps that always attends such an army. There have been fewer deaths in Santiago by yellow fever than by typhoid fever in any camp of the same size in the United States."

Yesterday the secretary of war gave all attention to the effort of making Colonel Roosevelt ridiculous in the eyes of the volunteers and their friends. To-day he devoted his time to proving that the conditions at Santiago were not thoroughly understood, and not at any rate so bad as represented.

There is one announcement in Secretary Alger's defence of the war department which attracts much attention. It is that "there have been less deaths in Santiago by yellow fever than by typhoid fever in any camp of the same size in the United States."'

WILL LEAVE SANTIAGO

Gen. Wheeler's Cavalry Is Due In New York Thursday.

ORDERS FOR TRANSPORTS

The Troops Will Be Inspected by Surg. Sternberg Before Going to Montauk. The Yale Harvard St. Louis and St. Paul to Convoy the Troops North. Tents and Hospital Buildings Are Being Pushed Towards Completion.

Washington, Aug. 6.—The first of the transports—the Louisiana—bearing the troops from Santiago to Montauk Point is expected to arrive at Quarantine in New York on next Thursday. The troops consist of cavalrymen from Gen. Wheeler's division.

They will be personally inspected at quarantine by Surgeon General Sternberg of the army and Surgeon General Wyman of the Marine Hospital service, and will thence be taken to Montauk Point.

The arrangements for bringing the troops north are being pushed forward the immune regiments arrive at Santiago the vessels carrying them will be as rapidly as possible, and as fast as utilized for bringing the troops back. The auxiliary cruisers Yale and Harvard, St. Louis and St. Paul, which have been turned over to the war department, will also be used for transport purposes.

Secretary Alger said that the situation was much more favorable and that the concern felt by the administration was in a large measure abated by the reports received.

There are eight transports now off Santiago, and these will be loaded at once with troops. These vessels have accommodations for about 5,770 men. As the total strength of Shafter's army is about 18,000 men, it will be seen that more transports are needed and needed quickly.

Vessels now at Tampa, Newport News, New York and Porto Rico will be dispatched to Santiago with all possible speed. It is expected that the movement will be completed by August 20.

There are about 4,000 ill, according to General Shafter's latest report from the front. The work of transporting these patients north in a proper manner, so as to avoid a repetition of the Seneca and Concho scandals, will not be a very easy task and cannot be accomplished in a day. Suitable vessels must be obtained and these must be adequately supplied with medical stores and appliances for the care of the sick and wounded.

The first of the immune regiments to relieve the troops at Santiago has already arrived and others are expected to reach Cuba shortly.

Rush orders have been sent to the quartermaster's department in New York to fit out the camp at Montauk Point with all possible speed. Orders to send tents to the camp from all the military stations in the East have been dispatched.

The equipment of hospitals for the care of the sick will be the greatest work for the department. Suitable buildings and hospital tents will be erected at once.

The transports expected here to carry the Spanish troops back to Spain have not yet been heard from.

Ready to Surrender.

Santiago de Cuba, Aug. 5.—The warships Massachusetts and Dixie arrived at Guantanamo bay last night and started coaling immediately.

Commander Todd of the Wilmington reports that the conditions at Manzanillo, as learned from General Rios, are as follows:

There are about two thousand regulars, one thousand volunteers and five hundred bombardores, or firemen there. They appear to be well supplied with cattle and provisions, but are believed to be short of ammunition. Recent events in that vicinity have caused them to become disheartened, and it is believed that the appearance of an American force, even of only one thousand men, would result in capitulation.

The Maria Teresa Raised.

Norfolk, Va., Aug. 6.--Advices to the Merritts are to the effect that the Maria Teresa has been pumped out and floated, and will soon start for Norfolk under her own steam.

Another expedition will leave here today for Santiago to work on the Cristobal Colon. Four immense pontoons will be carried to be used in trying to float the Spanish ship.

The tugs Plymouth and William E. Chapman, towing two pontoons and a barge, passed out quarantine at 10.35 yesterday afternoon, bound for Santiago, to be employed in the attempt to raise the Spanish cruiser Cristobal Colon.

A Daring Bank Robbery

Richland, Mich., Aug. 6.—One of the most daring and successful bank robberies ever perpetrated in Michigan was carried out by six robbers yesterday morning. Some of them came from the East on a handcar and evidently had confederates with a horse and carriage. They secured about $5,000 in cash from the Union bank and $4,800 in notes. The horse and carriage were taken into Augusta and left there. There were three explosions, which awakened many people.

An Ocean Steamship Lost.

St. Johns, N. F., Aug. 6.—The mail steamer Virginia Lake arrived at Tilt Cove, on West Bay, 230 miles from here, yesterday, bringing certain corroboration of the reported loss of an ocean liner in the straits of Belle Isle. A fisherman at Noddy Bay reported to her that he saw a steamer in collision with an iceberg and that it sank soon afterwards. The report is generally believed, but nothing reliable is obtainable.

Capt. Clark Condemned.

Washington, Aug. 6.—Captain Chas. E. Clark, the commander of the battleship Oregon, has been condemned by a medical survey at Santiago and will be sent home from Guantanamo at once.

SEVEN SUTHERLAND SISTERS

Hair Grower and Scalp Cleaner

For Over 14 Years these highly meritorious preparations have stood at the head of all hair restoratives. More than 3,000,000 bottles have been used by the American people, and thousands of testimonials bear witness to their excellence, while there were never any complaints when directions were followed.

ROYAL WORCESTER CORSETS

SOLD EVERYWHERE

Who? Who? Who?

says the Owl.

Who sells the best Wall Paper?
Who sells the most Wall Paper?
Who has the largest stock of Wall Paper?

Says the Public:

MARSH, AYERS & Co.,

of course.

The Owl is the symbol of wisdom—a fit symbol is it, therefore, to head an advertisement that will convey to you the wisdom of buying your Wall Paper of us.

Marsh, Ayers & Co.,

WALL PAPERS, PAINTS, OILS, GLASS, etc. 201 Park avenue, cor. E. Second street.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

The Standard of Highest Merit
in a Piano is reached in the Fischer. The Fischer Piano received the Highest Possible Award at the World's Fair, Chicago, 1893, for Purity of Tone with great depth and resonance, staying-in-tune power, smoothness and elasticity of Action and Perfect Workmanship. This great testimonial of the

FISCHER PIANOS

is nothing more than confirmation of the high endorsement already given it by Artists, Musicians and Musical people everywhere. This universal recognition has only been obtained by an absolute and unfailing adherence to the very highest ideals in every detail of the art of piano-making throughout the fifty-eight years in which the firm has been established. Further and more substantial proof of the popularity of the Fischer Piano is shown in the fact that during this time

CUN'S WEEKLY REVIEW.

The Situation Continues Very Encouraging in Nearly All Lines of Trade.

New York, Aug. 6.—Failures were in number fewer in July than in either of four preceding years, and in amount of liabilities smaller than in any year excepting the last, when July failures were the smallest in any month on record. Trading failures were both fewer and in amount smaller than in any previous year.

Prospects of peace stimulate many kinds of business. In spite of records, the impression prevails that delay and hesitation have legitimately resulted from war, and larger contracts are in fact coming forward for iron products with a better general demand in most industries. The volume of payments through all clearing houses was the largest ever known in July, being eight per cent. larger than in 1892 for the month, and for the past week 11.7 per cent. larger. Most industrial works have resumed after a shorter vacation, with fewer participating than usual. A few labor troubles only call attention to the fact that this season has been remarkably free from such hindrances.

In spite of a promise of 700 million bushels of wheat, including 300 spring this year, the price is 2 1-2 cents higher for the week. The disposition of farmers to hold back their wheat for prices more like those obtainable recently accounts for receipts 36 per cent. smaller than last year, but exports, including flour, were 3,641,647 bushels, against 2,530,725 for the same week last year, and for five weeks of the crop year 12,474,839 bushels, against 9,873,192 last year. Corn exports for the week have been only 1,734,347 bushels, against 2,725,090 last year, though the price has scarcely declined. Cotton is unchanged, and crop advices are so favorable that with acreage not quite half of one per cent., smaller than last year, some expect a crop nearly one million bales larger.

A rather better demand for staple cotton goods does not relieve the overproduction in print cloths, and goods are practically unchanged in price. Western stiffness in holding wool, and the New England wool paper drifting this way and largely refused, indicate another attempt to tire out the manufacturers, who are actually offering for worsted wool 4 to 5 cents below asking prices, and buying scarcely any. Sales at the three chief markets amount to 4,886,600 pounds for the week, against 12,052,300 last year, and 9,291,700 in 1892.

The iron manufacture has nearly, if not quite resumed its full production, except in the valleys, where Bessemer producers are closing in turn under agreement to force prices upward. While there has been large buying, one Pittsburg steel concern, with all its furnaces at work taking 50,000 tons more, the price there does not change as yet, nor does local pig at Chicago although with much better buying, one southern concern advancing its price 25 cents.

The actual shipments of boots and shoes for the year thus far are slightly larger than in any previous year to date, 2,586,669 cases, exceeding last year's by 232,000 and those of 1896 by about 300,000, but only slightly exceeding those of 1895.

Stocks seem to have started upward after a surprisingly long period of steadiness. The average for sixty most active stocks, $60.43, rises for the first time in this year over $60 per share against $59.94 a week ago, having never been lower than $58.45 nor higher than $59.94 until this week since the first of June.

ADMIRAL CERVERA IN NORFOLK.

His Visit to His Wounded Officer and Sailors.

Norfolk, Va., Aug. 6.—Admiral Cervera and his son, Lieutenant Cervera, arrived here yesterday on the Bay Line steamer Georgia from Baltimore. They left Annapolis, where they have for several weeks been prisoners of war, on parole, having been granted special permission to visit Captain Concha, commander of the admiral's flagship, Maria Teresa, and the other Spanish sick and wounded at the naval hospital here.

This was the first time they had met since that fatal dash out of Santiago harbor. The meeting was a pathetic one, the admiral and captain embracing one another like children. The admiral then visited Lieutenant Noval of the Pluton, who lost a leg, Drs. Nicoll and Augusti of the Vizcaya, and the scenes were equally as affecting when their former chief entered the ward where the Spanish sailors are. Their faces lit up and they embraced him as best they could, their joy being plainly visible. The admiral took lunch with Medical Director Cleborne, and it is said will remain here several days Being on parole he is not guarded.

For Cheap Dining-Rooms.

London, Aug. 6.—It has just been learned that ten days ago Sir Thomas Lipton, who is to challenge for the America cup, visited Marlborough house and presented the Princess of Wales with a check for 100,000 pounds to start dining rooms in London, at which working people may secure substantial meals for from two to eight cents.

There will be a central dining room capable of accommodating 2,000 people simultaneously, and it is expected that from 8,000 to 10,000 dinners will be served there daily. The trustees, of which the Princess of Wales will be one, will shortly be appointed to manage the project, which will be known as the "Alexandra Trust."

The Sixth Massachusetts Affair.

Washington, Aug. 6.—The war department people know nothing yet in regard to the Sixth Massachusetts resignations. They are awaiting a reply to the following telegram:

"General Miles, Ponce, Porto Rico: Secretary war desires to know if there is any unusual cause or incident connected with the reported resignation of the colonel and lieutenant colonel of the Sixth Massachusetts. This inquiry is made at the instance of governor of Massachusetts.

H. C. CORBIN,
Adjutant General.

For the Paris Exposition.

New York, Aug. 6.—Ferdinand W. Peck, who was recently appointed by President McKinley commissioner general for the Paris exposition of 1900, has opened offices in the Equitable building, 120 Broadway. Mr. Peck is on a trip to Washington and Chicago in the interests of the exhibitions from the United States.

PORTO RICO IS READY

Everybody Favors Annexation to the United States.

NO SERIOUS FIGHTING YET

Our Warships Assembling Off Fajardo To Attack the Port Guayama. Landing of Troops at Arroyo Bay. Designs Against the Spanish Force at Aybonito. Desire of the Inhabitants for Annexation

Porto Rico, Aug. 5.—Our warships are rendezvousing here awaiting orders. The Spanish have erected a small battery to oppose the landing of our troops. They will not open fire, so our ships are not shelling it.

Arroyo Bay, Porto Rico, via St. Thomas, Aug. 5.—Under a brilliant moon and the searchlight of the cruiser Cincinnati the last of aines's brigade has been landed, and Gen. Brooke has established his headquarters.

General Grant's Fourteenth New York is expected. The artillery and cavalry from New York are wanted, but the transport Massachusetts is stuck in the mud at Ponce with them on board.

The design is to take Guayama and advance over the mountain to Cayey. Beyond is Abonito, where the enemy is concentrating, a movement which General Brooke will head off, while our troops on the Ponce road come up behind them, and thus stand at the Thermopylaean pass at Aybonito. This may possibly be circumventedl and the Spanish be frightened on farther toward San Juan.

Guayama is garrisoned by three battalions of 150 men. The Spanish cavalry, which was sent to attack the Gloucester's marines at Arroyo last evening, had four men wounded. As already stated, fifteen men wearing Red Cross badges sent to recover them this *morning were captured. The British* consul, recognizing a physician, a dentist and an apothecary among them, all were released. They said that the Spanish volunteers sympathized with the United States, to which the district exports sugar and molasses.

The Cincinnati and Gloucester will shell Guayama to cover the advance of our troops, but an order has been given not to injure the church, which is the finest on the island. The town, at the foote of a slope, hides among the trees. Resistance is unlikely until our troops are over the mountain.

Guerillas are shooting at our outposts north of Arroyo and Ponce.

Ponce, Porto Rico, via St. Thomas, Aug. 5.—In Porto Rico no desire is expressed for anything except annexation to the United States. Trade connections and political sympathies are mostly American. The Spanish volunteers say that they were impressed into service against their inclination, and wherever our army has its headquarters they are glad to surrender and take the oath of new allegiance.

The English and French settlers are strongly pro-American. General Roy Stone was entertained by a delighted English planter, who had not spoken his own tongue for twenty years.

The natives would probably organize a revolt if Porto Rico did not become one of the United States.

Majdr General Wilson has moved his headquarters from Ponce to Juana Diaz.

Sampson to Command Eastern Squadron.

Washington, Aug. 6.—Rear Admiral Sampson has been ordered to assume command of the eastern squadron, which will be ordered to proceed to the coast of Spain, provided the reply expected to-day from the Madrid government to the president's terms of peace is not satisfactory.

The fleet is now assembled at Guantanamo bay, ready to sail the moment the orders are received. It comprises the battleships Iowa, Indiana, Massachusetts and Oregon, the armored cruisers New York and Brooklyn, the protected cruiser New Orleans, and the auxiliary cruisers Dixie, Yankee, Yosemite and Mayflower.

Orders were given some days ago for the departure of the fleet, but they were subsequently revoked, in view of the probability of peace resulting from the negotiations initiated by Ambassador Cambon.

A Long Sail With a Small Craft.

New York, Aug. 6.—Joshua Slocum, skipper of the little yawl rigged craft Spray, has just reached this harbor after completely circling the globe in the smallest vessel in which the perilous voyage was ever attempted.

The voyage was made in three years, during which the little craft weathered more than 100 gales and covered 46,000 miles.

The skipper, who is 54 years old, has followed the sea since he was a boy.

A Protest from Georgia.

Atlanta, Ga., Aug. 6.—Hoke Smith, General John B. Gordon, Clark Howell and Judge Dorsey have sent a telegram to President McKinley indignantly protesting against the ordering of the Third Georgia regiment of so-called immunes to Santiago, where yellow fever is raging.

The telegram states that the men are not immune at all, and as a matter of fact, there is no such thing as an immune.

War Vessels Will Not Be Sent Norh

Washington, D. C., Aug. 6.—Secretary Long said yesterday that he has decided to send no more war vessels north until the peace negotiations are concluded. Unless the terms of the treaty should be accepted during the next ten days or two weeks, this will necessitate the postponement for the time being of the trip of the cruiser Brooklyn to the Brooklyn navy yard.

Dexter Dies Suddenly.

New York, Aug. 6.—The famous trotting stallion Dexter, owned by Lawson N. Fuller of this city, died suddenly yesterday while being driven with his mate. He was 18 years old.

ANXIETY IN LONDON.

Apprehension Expressed of a Conflict With Russia Over the Situation.

London, Aug. 6.—There is great uneasiness on all sides here in view of the Chinese situation, which is regarded as bringing an open conflict between Great Britain and Russia within measurable distance, and it is universally felt that the Marquis of Salisbury's invertebracy in yielding to Russian aggressiveness is responsible for the dangerous complication, which can only be overcome by the most prompt and most firm intimation that Russia's open opposition to British commercial concessions must cease.

In connection with this a curious story is current. It is now said the Princess of Wales's hurried departure from England was in response to a dispatch from her sister, the Dowager Empress of Russia, bearing upon the Anglo-Russian relations.

It is well known that the Dowager Empress is strenuously working to conclude a definite understanding regarding Anglo-Russian interests in the far East, and it is said great importance attaches to the meeting of the sisters at Copenhagen.

Prices on the stock exchange yesterday broke all around, owing to the scare caused by the strained relations between Great Britain and Russia. The Paris market was also nervous for the same reason.

It was reported on the stock exchange during the day that the British government had "monopolized the St. Petersburg wire for 24 hours."

FOOD FOR SHAFTER'S MEN

Col. Woodruff Preparing to Purchas Quantities of Fresh Provisions.

New York, Aug. 6.—Colonel Woodruff, commissary of the subsistence department for the local army depot, was making preparations to feed the 18,000 members of General Shafter's army, who are soon to go into camp at Montauk Point.

He already has in store a large quantity of provisions like coffee, tea, sugar, canned meats, etc., which are not regarded as perishable, but in addition to those articles he will have for the men while in camp here as much fresh food as possible. For that reason Colonel Woodruff yesterday invited bids in unlimited quantities on the following articles: Fresh beef, potatoes, onions and soft bread. He estimates that it will require about 100,000 pounds of food a day for the 18,000 soldiers.

It will take 20,000 loaves 0of bread a day. Of course the army cooks could prepare the bread, but upon their arrival in camp they could not have the same advantage in the way of ovens as regular bakers would.

If the bids received from bakers are low enough the bread will be sent into camp fresh every day.

The beef and vegetables will be cooked as usual in camp.

Wade's Expedition May Not Go.

Washington, Aug. 6.—There is a strong possibility that the eighteen regiments selected to go to Porto Rico in a provisional division to be commanded by General Wade, will not embark on the expedition at all. The news from Porto Rico encourages the belief that the Spanish garrison in the island will be disposed of soon after General Miles reaches the end of his march from Ponce to San Juan. Meanwhile the quartermaster's department finds itself unable to provide promptly a sufficiently large number of transports for General Wade's expedition, and the time when there will be no excuse for sending more troops to Porto Rico is approaching.

Adjutant General Corbin said yesterday afternoon that the expedition of General Wade had been abandoned for the present because all the transports were needed to carry General Shafter's men to Montauk Point.

Another reason exists for the abandonment of the expedition. The administration has been accused in many quarters of projecting the Wade expedition for political purposes, and, however groundless the charge may be, the officers are unwilling to incur censure unless there is necessity to do so.

A telegram has been received at the war department from the governor of Vermont, informing the department he does not wish to have the First Vermont volunteers sent to Porto Rico unless the regiment is needed for the campaign.

To Discharge Naval Reserves.

Washington, Aug. 6.—The reduction of the present large naval force of the United States will begin to-day, when the Michigan Naval Reserves manning the United States auxiliary cruiser Yosemite will be discharged from the service. The Yosemite is at Newport News, Va. She was formerly one of the Morgan line steamships and will probably be resold to that company.

Only a caretaker will be left on board after the men are discharged. The Naval Reserve organization will be discharged from the service as fast as the navy department can dispose of the vessels they are manning.

Four Thousand Troops to Relieve Shafter.

Savannah, Ga., Aug. 6.—Four thousand troops are on their way to Savannah to embark on the transports for Santiago to relieve the troops there. The troop ships Rio Grande, Leona and Minnewaska, which left New York yesterday, are expected to arrive to-morrow. The troops, who are all immunes, are the Third regiment from Macon, Ga., and the Third and Fifth regiments from Columbus, Miss. The Mississippi regiments will arrive today.

Chicago Plans a Peace Jubilee.

Chicago, Aug. 6.—An elaborate autumn carnival in Chicago has been decided upon by the Chicago Commercial Association. President McKinley will be present during the gala time, which will be simultaneous with the several peace jubilees and the ceremonies attending the laying of the corner stone of the new postoffice. It is proposed to have a week of celebrations and gorgeous pageantry, the greatest of which will be on Chicago day, October 9.

No Cars Running in Syracuse.

Syracuse, Aug. 6.—The 400 employes of the Syracuse Rapid Transit Company, including all the motormen, conductors, shed aids, inspectors and switchmen, went on a strike at noon yesterday, completely tying up the various street railway lines controlled by that company, or every line in the city except two suburban ones.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

COMING EVENTS.

August 7—Private F. Keuhnle, of Company D, Seventy-first Regiment, N. Y. Volunteers, who was wounded at Santiago, will address the 4:15 p. m. meeting at the Y. M. C. A. Lemonade and fans.

The Attack on Mr. Clark.

The editor of The Somerset Democrat views the recent attack on the party fealty of Alvah Clark, a prominent Somerset county Democrat, in the following light:

As everyone knows, leadership comes of itself. No man can make himself a leader unless the people push him there by reason of his capacity to lead, which manifests itself in such way as to inspire confidence in those who thus recognize him as such.

The persons inspiring such items as that of The World are not prompted by good motives, nor have they the best interests of the party at heart. The Democrats of Somerset have not a vote to spare, much less the host of friends of any prominent man.

With a united front this fall, we might carry this county, but such items will not tend to unify the party. The proclaimers of such a scheme are either prompted by jealousy or wish to create dissension and make confusion in the ranks greater instead of less. If we win in Somerset this fall we want all of our votes. In fact, we have not one vote to spare, and we don't want any such misrepresentations as have been imposed on The World correspondent.

An Enterprise Not Appreciated.

The hundreds of people living in Plainfield who seek a summer resort where quietude, cooling breezes and excellent service are attributive to the visit seem to be unconscious of the fact that on the summit of the Watchung mountain the Mountain Park Inn furnishes all these things and many more pleasant ones.

Mountain Park Inn is an enterprise that is not appreciated as well as it ought to be by Plainfielders. The Inn was built to cater to local citizens who had long bemoaned the lack of such a resort in our midst when the natural surroundings were so appropriate to its establishment, yet now that it is here dependent upon public favor the prospective guests from Plainfield do not materialize in such numbers as was anticipated.

Such an enterprise as Mountain Park Inn adds to the attractiveness and worth of Plainfield as a residential place and is an important factor in the aggregate of beautiful things which we have to offer the advantage of to prospective residents. We believe that it is to the best interests of Plainfield that all such establishments as Mountain Park Inn should succeed. It may smack of free advertising, but we do not hesitate to speak a good word for its success.

Kean's Offer.

To the ordinary mind reading the terms with which John Kean surrounds his offer of $250,000 for the county trolley franchise, the proposed agreement seems to be fair and just for both Kean and the public. Yet when the offer is thoroughly dissected by those who may understand trolley franchises and their actual worth better than the everyday citizen, who only looks casually at the proposition, it will probably be seen that in many instances Kean has kept the best end of the bargain for himself. This is very natural and to be expected, however.

An interesting observation on the offer is made by The Newark Advertiser as follows:

The terms offered as to rates of fare are not as favorable as those obtained by Newark and adjoining townships from the Consolidated Traction Company, and there is nothing said about a tax on the gross income.

The form of revenue obtained by Newark from its trolley franchises represents an annual interest of four per cent. on nearly two million dollars.

Want Voorhees to Stay in Senate.

A prophecy is ventured that the next Legislature will be very close. In view of that result many Republicans are opposing the nomination of Foster Voorhees for Governor, because in the event of his election as Governor his party would lose a vote for United States Senator. He would then be forced to resign his seat as Senator from Union County. The vacancy could not be filled until after the election for Senator.

In 1877 the Democrats had a majority of only one in the Legislature, when John R. McPherson, for the first time, was chosen United States Senator. And that majority of one was brought about by the election of J. Vance Powers to the Assembly in the Third district of Mercer county by a majority also of one. Some Republicans fear that the next Legislature may be as close, and consequently they believe that Foster M. Voorhees had better hold on to his position as State Senator from Union county, he having one more year of his term to serve.

The Great Asiatic Problem.

The fact is curiously interesting that the oldest and most densely populated empire in the world, which is also highly civilized in its way, is becoming as much of a cockpit for the rival aggressions of Europe as if it were a region occupied by African savages. Whatever else may be said of China, the gorgeous Cathay of Marco Polo, she is the inheritrix of an ancient and once amazing culture. That she has remained petrified in that culture, indifferent to the strides of the rest of humanity, makes her now the victim of the powers, which have long beaten at her doors and now burst them in. At least five centuries behind every other great nation in all the arts and sciences which constitute power, she may be compared to a whale stranded on the beach. Her future now promises to be just what half a dozen powerful and ambitious governments hungry for extension of commerce and influence permit it to be. The grip they already have will be relentlessly extended at every opening and under every pretense.

That aspect of the problem which is found in the question, "What will become of China?" is not more interesting, however, than speculation as to what this apple of discord will evolve as a stimulant to quarrels among the powers of the west. The old eastern question which kept European civilization wrangling and on the perpetual verge of war centered in Turkey and the Danubian principalities. The new eastern qustion, even more rife with explosive possibilities, has traveled 5,000 miles eastward. We can scarcely believe that the lions snarling over this immeasurably tempting prey will long keep their powerful fangs from each other. No division of spheres of influence, mapped out as in Africa, will make them contented any more than it has done on the dark continent. History will inevitably repeat itself. England's extraordinary naval estimate for the next five years indicates her lucid forecast of the forthcoming. Is America to be drawn into the terrific armed scramble which sooner or later will come? Should we become an oriental power as owner of the Philippines it will make our interest in the struggle directly personal. However tempting the thought of extending our possessions to the remote eastern seas, the imminent risk of entanglement in that mighty world quarrel beginning to mutter is one to be very seriously considered.

Commercial Battle.

The United States are not looking for any open rupture with Germany. We do not anticipate the mustering of serried battalions and of battleships to meet those of the kaiser in armed conflict, but Germany has none the less been waging a species of war on us which is mischievous and persistent. This war, a commercial one, has been in operation for a good while in spite of all our reasonable protests. The prohibition of our food products on the most frivolous pretexts and in open face of the true facts of official inspection would be ludicrous if the financial side were less momentous. France's edicts against American pork and dressed beef were revoked several years ago, but kaiserland has obeyed the agrarian demands, wherein the junkers go hand in hand with the peasants, and more enlightened opinion makes but little headway against the tide. Our own government has at last lost patience and now proposes retaliation based on similar pretexts. Official chemists in Germany persist that American food products threaten public health and interest. Our agricultural department chemists are now busy analyzing the paints and colors on German toys, as there is an impression that there is poison in these compounds. If it is proved that German toys are liable to injure children from such a reason, our government will find one Roland for the Teutonic Oliver by prohibiting German toys, and thereby give great joy to American manufacturers. The American prohibition will affect a very large class in Germany, and Berlin will hear trumpet blasts from Nuremberg and other manufacturing cities. Similar investigations may be expected to follow in good time if the first hint is not taken.

Po Mun, the editor of Mun Kee, a Chinese paper of San Francisco, is credited with having perpetrated a "beat" on all other newspapers in having published the first cable news of the battle of Manila. It was only ten words long and sent as a piece of guesswork from Hongkong by another Chinaman, but it smote the nail square on the head. Now Po Mun has retired on his laurels and will print no more cable news.

Professor Charles Eliot Norton, the pro-Spanish apostle, has written a letter of bitter reproach for his severe castigation to Senator Hoar. The senator's vigorous reply ended with a model of satiric apology: "I should be sorry to do you any injustice. Indeed it is not in anybody's power to do you injustice but your own." This is a neat argumentum ad hominem.

"All here," wrote a correspondent of the London Times from Havana, a few weeks ago, "eagerly desire to see an American force land on the Cuban coast and try conclusions in fair fight with the troops of Spain." Well, this desire of the Spanish eyes has been satisfied in full now.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The man who whips his horse because it gets scared at the trolley, or anything else, does not cure it, but only adds to its fright. Suppose a man should whip his child everytime it showed symptoms of being frightened at a thunder storm—why the neighbors would have him arrested or treat him to a coat of tar and feathers. We should have as much sympathy for the noble horse and treat them kindly when frightened. Keep the whip off their backs when frightened.—Somerville Democrat.

* * * * *

Somerset county is to be thoroughly equipped with many miles of trolley roads. When the line through Franklin township, on the south side of the river to New Brunswick, is completed, and the trunk line through Franklin to Princeton, and the proposed line from Somerville to Far Hills, the most remote portions of Somerset will be within easy reach. To the traveling public this will be a great advantage, and where the roads run on private lands so they can carry freight, they will greatly benefit the farmers who can ship their produce from their fields right into market. Yet these trolley companies will bring with them many annoyances and frequently a positive damage to property. —Somerville Unionist Gazette.

* * * * *

If Governor Voorhees gets the nomination for Governor it will be necessary to elect a Senator in Union county, making eight Senators in all to be elected. The hold-over Senators, in that event, would consist of six Democrats and seven Republicans. In everyone of the eight counties, with the possible exception of Ocean, the Democrats are getting ready for a desperate fight, and they are being aided, too, in three of the counties by alleged Republicans who profess to have personal grievances. If the Democrats elected five of the eight Senators they would have a majority in the Senate, and to prevent that will require unceasing vigilance and activity from now on among the Republicans. The Democratic leaders are hard at work planning and scheming. They are taking nothing for granted, and are not neglecting any loophole for breaking into the Republican camp. Atlantic came near electing a Democrat six years ago, and Mercer, Cumberland, Bergen and Morris have elected Democrats before this. Hudson, of course, is incorrigible. —Tribune.

—J. B. Mills, the contractor, has leased one of his houses on West Sixth street, near Lee place, to Miss Margaret Gottheil, and she will take possession August 20th.

—During the heavy wind storm early yesterday morning a large tree on Central avenue near West Second street, was partly uprooted and blown against the brick building opposite Reform Hall. The tree is still in the position in which it was placed by the wind, and there is not much prospect of changing it.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 6—Rev. Augustus Todd, of Rutherford, was the guest of friends in town yesterday.

The Brunswick Traction Company will not connect their trolley wire with that of the Plainfield company until the last thing. This action is taken for the reason that everything else must be completed first. The present difficulty experienced with the crossing of electric light wires in the borough is a source of annoyance. The poles carrying the electric light wires will have to be supplanted by longer poles, and the trees along the line are now being trimmed to permit a change.

Work was stopped on the trolley temporarily yesterday owing to the fact that work had to be stopped in carting crushed stone to macadamize North avenue. The road leading from the crusher to North avenue was in horrible shape and the wet weather prevented the crushing of stone. Alvah Gray took advantage of the stoppage and had new shoes put on his horses.

Tomorrow Rev. F. E. Peterson will occupy the pulpit of the M. E. church. It is hoped that Rev. Dr. Nelson, of North Plainfield, can be secured for the following Sunday.

Mr. and Mrs. Robert Giddes returned today from Lake Hopatcong, and this afternoon they started for Asbury Park, where they will spend a week.

Adam Dealaman went to Asbury Park today to spend Sunday with his family, who are stopping there for the month of August.

Mrs. B Conover fell a few days ago and severely sprained her ankle. She is confined to the house in consequence.

Miss Cora Laire, of Plainfield, accompanied by Cecil Hoffman, of Annandale, were callers in town yesterday.

Mrs. VanNest, Mrs. Charles Conover and son Ernest Conover, of Plainfield, were visitors in town yesterday.

Miss Cornelia Herring, of Brooklyn, is visiting at the home of Mr. and Mrs. B. Conover.

Mrs. J. D. Anderson, of North avenue, is entertaining Miss Becker, of Raritan.

Miss Lulu Gise is the guest of friends at Clinton, Hunterdon county.

G. W. Churchill, of Asbury Park, was the guest of borough friends yesterday.

Mr. and Mrs R. F. Bogardus will return next Monday from Ocean Grove.

Mrs. Josephine Dunham has returned from a sojourn at the seashore.

Andrew Love, of North Plainfield, was in town yesterday on business.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 6.—There will be a meeting of the Piscataway Township School Board next Tuesday at the Nelson House. It is expected that the new work on the school wil be accepted by the Board.

No services will be held at the First Baptist church tomorrow or next Sunday, as the pastor is on his vacation.

William Jenner is entertaining Mrs. Smalley and daughter, or Brooklyn.

Mrs. S. R. Runyon, of Newark, is visiting Mrs. Nelson Runyon.

PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, August 6.—The Misses Billings, of Brooklyn, are visiting Mrs. George Lyons.

Judge Clark had the pleasure of making two happy hearts beat as one Thursday evening. The contracting parties were from Newark, and at their request the Judge withheld their names.

Thomas Emery has rented of Loftus Hollingsworth the house occupied by Mrs. Ritchie, on Front street. Mr. Emery takes possession about the 10th.

George Hall and family, of Fanwood, are enjoying a vacation trip through the west.

Miss Hattie Wilcox and Miss Jennie Hoyt, of Brooklyn, are visiting Miss Wilcoxs' mother.

Rev. Mr. Lewis leads the prayer meeting in the Methodist church this evening.

Mr. and Mrs. T. M. Paff, Sr., are entertaining Mrs. Wm. Darby, of Somerville.

Miss Lizzie Reick, of Plainfield, spent Thursday with her father.

John Wade is spending a few days with relatives at Lyons Farms.

Mrs. T. M. Paff, Jr., and children are visiting relatives in Brooklyn.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Edward Schenck, of this city, is visiting Dr. Ribble, of Harlingen.

Mrs. Depew, of Plainfield, is registered at the Rumson Beach Hotel.

Mrs. John Albert, of East Fourth street, who has been quite ill, is much better.

Miss Pauline Denton, of Hillside avenue, is visiting Miss Nellie Brown, of Dunellen.

Irving Clark, of Crescent avenue, has gone to Island Heights to spend several weeks.

Mr. and Mrs. J. J. Henderson, of Rockview avenue, have gone out of town for their summer recreation.

J. S. Johnson, of Woodhull & Martin's dry goods store, is spending a two weeks' vacation at his old home in Hackettstown.

Mrs. Fred Haberle, of West Front street, will return this week from the Catskill Mountains, where she has been spending three weeks.

Miss Townsend and her brother Jack Townsend, of Bryn Mawr, Pa., are visiting at the home of their uncle, B. J. Shreve, of Grove street.

Rev. and Mrs. Jackson, of East Third street, have taken possession of the parsonage adjoining the Mt. Olive Baptist church, where Mr. Jackson preaches.

Walter S. Gibson, formerly of Plainfield, but now with the C. R. Newman Electrical Construction Company, of Passaic, N. J., made a short visit with his parents, of West Second street, last evening.

Rev. H. K. Carroll, editor of The Independent, whose residence is on Westervelt avenue in this city, is one of the faculty of the Ocean Grove Sunday-school of Theology, holding its fourth annual session this week at Ocean Grove.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 6.—At a meeting of the Township Committee held last evening Township Attorney Paul Q. Oliver was instructed to attend the next meeting of the Board of Chosen Freeholders and look after the interests of the township and to let the members of the Board known that the people of Westfield as well as the members of the Committee were opposed to any trolley scheme which did not widen the avenue through here as well as in other parts of the county, and that the Committee would not give any company a permit which would not widen the avenue from Cranford to Fanwood. No other business of importance was done.

Rev. and Mrs. George A. Francis leave Monday for the New England States where they will spend a month. Rev. Charles Fiske, of the Episcopal church, leaves the same day for Bernardsville where he will be the guest of friends for the next three weeks. Rev. N. W. Cadwell, of the Presbyterian church, will also leave Monday for New York State where he will join Mrs. Cadwell and they will remain for the month of August.

Township Attorney Oliver has served notice on the Cranford Gas Light Company that the streets through the township that have been torn up by the contractors putting in the gas mains have been left in an unsafe and dangerous condition and that unless they are fixed within ten days the Committee will have the same done and hold the company liable for the cost and expense of the work.

Mrs. S. L Stickle and Mrs. Martin C. Havens, of Dover, were the guests of R. M. Stickle, of The Standard Friday.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

L. E. Harte has gone to Asbury Park.

George Swayer, of Duer street, has been quite ill at his home.

Councilman E. D. Moffett is confined to his home by illness.

Miss Fountain, of Jackson avenue, is sojourning at Asbury Park.

Carl Pfeiffer, Jr., of Madison avenue, has gone on his summer vacation.

Miss Etta Raybert, of North avenue, will return from Asbury Park Monday.

Nelson VanWinkle, of Central avenue, will spend Sunday in Asbury Park.

Rev. P. S. Simpson, of Netherwood, is spending his vacation in New York State.

Alex Lusardi, of Madison avenue, has moved to a flat on West Front street.

Mrs. S. P. T. Wilbur, of East Front street, has returned from a pleasant outing.

Miss Bertha Swackhamer, of Whitehouse, has been visiting relatives in town.

Marshal Schenck, of the borough, will start on his annual vacation next Monday.

Thomas DeMeza, of West Second street, is the guest of relatives in Paterson.

Dr. George W. Endicott, of East Seventh street, is stopping at Mays Landing.

Mrs. James McGowan, of Brooklyn, is visiting Mrs. V. W. Nash, of Prospect place.

Vincent Gulick, of the borough, has accepted a clerkship in J. H. Leggett's drug store.

Miss Eva Jenkins, of East Sixth street, has returned from a visit at Flemington.

Miss May Williams, of Perth Amboy, is visiting her friend, Miss VanHorn, of Duer street.

Miss Louise Wilbur, of East Front street, is visiting at the home of Ellis Campbell, of Avon Park.

Mrs. A. M. Gillem and Miss Emma Gillem, of Duer street, have gone to Bedminster for a few days.

Miss Nellie Backsen, who has been visiting friends in town, has returned to her home in Whitehouse.

Mr. and Mrs. Atterbury, of West Seventh street, have returned after a sojourn at Gloucester, Mass.

Marshal Campbell, of the borough, will return this evening from a vacation of one week spent in Newark.

Mr. and Mrs. Robert Clark, of Washingtonville, leave today for Connecticut, where they will spend a vacation.

Miss Grace Hurtt, of Manasquan, is visiting her grandparents, Mr and Mrs. M. D. Brown, of East Fourth street.

Mrs. Jackson and her daughter, Miss Addie Parker Jackson, of Arlington avenue, are sojourning at Pat chogue, L. I.

The Misses Hoagland, of Somerville, who have been visiting Mrs. E. A. Ross, of Prospect place, have returned home.

Mr. and Mrs. Lewis Meeker and son, William DeCamp, of this city, have returned from a visit with Somerville friends.

Edward White.

WASHINGTON NOTES.

Special Correspondence.

The thory that the aboriginal inhabitants of America came originally from Asia is to be looked into by expeditions representing the American Museum of Natural History. They will visit the tribes of Indians in the northwest corner of North America, live among them for a season, study their modes of life, make a collection of their implements and dig into their mounds for skeletons. At least ten tribes will be inspected for proofs that the American Indians are descended from tribes that found their way to this continent over the narrow Behring Strait. It is an easy way to account for the first natives of the New World.

Receipts from Stamps.

A statement issued by the Post Office Department shows that the receipts from the sale of stamps for the quarter before last were $22,361,705, an increase of nearly $2,000,000 over the receipts for the corresponding quarter of the previous year, and the largest increase on record. For the last quarter the money orders issued numbered nearly 8,000,000, an increase of 1,500,000 over the corresponding quarter.

These remarkable increases are attributed by post officials to the revival in business.

Work in Navy Vessels.

Marked progress in the work on all vessels building for the navy is shown in the report by Chief Constructor Hichborn, who assigns the improved conditions of affairs to the peremptory instructions issued recently that work on every ship must be pushed forward with despatch. The list of new vessels under construction shows that battleships and torpedo boats are practically the only types now being constructed for the service, and that the boats of the latter class are now so far advanced that all except two will be in readiness for service within three months. The report shows that the battleships Kearsage and Kentucky are more than half completed.

The three sister battleships Illinois, Alabama and Wisconsin, contracted for one year later, are only ten per cent. behind the Kearsage and her twin, and all three will be launched some time this summer. The submarine boat Plunger is behind two years, and will not be in service for three months.

An Aggressive Politician.

Theodore Roosevelt has been a unique figure of President McKinley's administration. He has kept himself before the public eye more or less for full fifteen years. He began his career in New York City, and his record as a reformer, national and civic, is equaled by few of his fellow citizens. The political interests of this country are his interests, and he is always found ready to fight for a just cause.

THEODORE ROOSEVELT.

Because of his aggresive attitude in all reforms the cartoonists found a large field for their imaginative powers during his administration as Police Commissioner in New York, but with bull-dog tenacity, of which his square chin is indicative, he went on his way, never once phased by the ugly pictures of himself or the criticisms of the journals.

Judgment Was Entered.

One of the cases disposed of recently by the Supreme Court was that of the New York Indians vs. the United States, appealed from the Court of Claims. The New York Indians brought suit against the United States to recover $2,393,600 claimed to be due them by virtue of the failure of the Government to carry out terms of the treaty of Buffalo, promulgated in 1838. This treaty provided for the removal of the Indians to a point west of the Mississippi River, for which the Government was to appropriate $400,000. There was also to be paid to the Indians $126,500, and a half section of land was to be allotted to each Indian. On the other hand, the Indians were to cede to the Government the lands they held in Wisconsin. To carry out the provisions of the treaty the Government expended $9,464 and gave 10,240 acres of land in Kansas to thirty-two Indians. Later the Government paid $256,000 to the Tonawanda band of Senaca Indians and secured a release of their rights under the treaty. Upon the basis of this arrangement the remaining Indians calculated the value of their rights under the treaty at $2,393,600, and for this brought suit. The Court of Claims dismissed the bill, and the Supreme Court reversed that judgment and ordered that judgment for the claim of the Indians be entered. SENATOR.

Profits from Small Inventions.

A patent for fastening kid gloves has yielded a fortune of several hundred thousand dollars for its fortunate owner, and the inventor of a collar-clasp enjoys $20,000 royalty a year as the reward for his endeavor. A new kind of sleeve-button has made $50,000 in five years for its patentee, and the simple twisting of safety pins in such a way that there is no possible danger of the point sticking in the child promises to enrich its owner beyond any of his early dreams of wealth.

CHARLES EMORY SMITH.

The New Postmaster General a Man of High Attainments.

Mr. Smith, successor to James A. Gary, was born February 18, 1842, at Mansfield, Conn., and seven years later removed with his parents to Albany, N. Y., where his early education progressed until, at the age of 16 years, he graduated from the local academy. Six months later he entered Union College and during the interim, though he was then, as stated, but 16 years old, he wrote leading articles for the Albany Evening Transcript. He graduated from Union College in 1861, and was soon afterward appointed to the staff of General Rathbone, who was in command of various depots in New York state where volunteers were organized into regiments, and having spent two years in this work he exchanged the post for one in the faculty

CHARLES E. SMITH.

at his old school, the Albany Academy.

In 1865 Mr. Smith left the scholastic world and entered the journalistic profession, becoming the editor of the Albany Express, of which he had charge for five years, undertaking, in addition, for several months of 1868, the duties of private secretary to Governor Fenton. In 1870 he became associated with George Dawson in the conduct of the Journal, the leading Republican paper in Albany, becoming editor-in-chief on Mr. Dawson's retirement in 1876.

In 1874 he was president of the State Press Association and delivered the annual address at its meeting. For six successive years he served as delegate to the Republican State convention. In 1880 he was selected as temporary and permanent president, and was chairman of the committee on resolutions in each of the other years, excepting 1877, when Roscoe Conkling held that post and Mr. Smith was secretary. He was also a delegate to the National Republican convention in 1876, and, as New York member of the committee on resolutions, a large portion of the platform was drafted by his pen.

In 1871 Mr. Smith was elected a trustee of Union College by his fellow alumni, and in 1879 the State Legislature elected him a regent of the University of the State of New York.

In February, 1880, Mr. Smith resigned the editorship of the Albany Journal and the following month took up his residence in Philadelphia, of which he has since been a citizen, having at that time acquired the editorship of what had been known as Forney's Press and of which he assumed charge March 8 of that year, becoming, soon after his appointment as editor, part owner of the paper. He transferred to this city and State the active interest that had made him a prominent participant in the political affairs of New York, especially in State and national politics. In the interim he has become a well known figure in Republican State and national conventions, as well as upon the stump as a Republican speaker. He was one of the committee having charge of Mr. Blaine's nomination in 1884, and made the speech in the convention of 1888 presenting Mayor Fitler as a presidential candidate.

He was made minister to Russia by President Harrison in 1890, assuming charge of that post on May 14 of that year at St. Petersburg. During his service there he bore a large part in the distribution of the extensive relief supplies sent from this country for the benefit of the famine-stricken peasantry. He resigned the post in May, 1892, and resumed the editorship of the Press, a position he has since retained. His name was mentioned frequently in connection with a portfolio when President McKinley's cabinet was first being formed, and particularly in connection with the one that has now been given him.—Philadelphia Ledger.

The Bomb in Jeff Davis' Desk.

When the United States troops occupied Richmond, Va., April 3d, 1865, General Edward H. Ripley, of Vermont, who was appointed military governor of the city, found in the desk of Jefferson Davis, in the house occupied by the Confederate President, a cast-iron bomb in the shape of a lump of coal. It was evidently cast from a good-sized piece of coal, was coated with coal tar and coal dust, and could hardly be distinguished when handled from a lump of coal. It was hollow, and would hold powder enough to make a heavy explosion. Army authorities have never doubted that the otherwise unexplained blowing up of a steam vessel loaded with amunition at City Point was the work of a bomb of this kind, which had been dropped into a pile of coal and shovelled into the furnace of the steamer, and similar bombs probably occasioned similar catastrophes during the war.—Burlington, Vt. Free Press.

"Mamma," said Bobbie, "when you go to town buy me a whistle, and let it be a religious whistle, so that I can play with it on Sunday."

REJUVENATING POSTAL CARDS.

A Process by Which the Printed Matter is Removed.

An advertisement has appeared in some of the daily papers in which a cash payment has been offered for uncancelled printed postal cards. It seems that many business houses have occasion to have a large number of postal cards printed to advertise some special line of goods or for the use of some traveling man. For some reason or other, the conditions may change, so that perhaps only half of the cards are used. Being printed, they cannot be used in any other way, and the result is that in nine cases out of ten they are consigned to the waste basket, as the government does not redeem uncancelled postal cards as it does stamped envelopes.

A process has been discovered by which all of the printed matter may be removed from the card, leaving it in the same condition as when bought at the postoffice. A charge of one-half cent per card is made for this work; or, in other words, a man sends five hundred cards to be "made over." The man who does the work charges $2.50 for his services, and the customer saves $2.50, as the printed cards were of no use to him.—Boston Transcript.

SHOES FOR ONE-LEGGED MEN.

Not Difficult to Buy Only One—The Other Sent to the Factory to be Remated.

The one-legged man buys his shoes precisely like the two-legged man. At the big stores they break a pair to sell the single shoe that the one-legged man requires, without the slightest hesitation; and he can get any kind of shoe he wants. The single shoe remaining is sent back to the factory to be mated up, and this is done with perfect accuracy. Every pair of shoes is numbered, and it could easily, if it were desired, be traced back to the stock from which it is made. There is no guesswork about it. The shoe required to mate the shoe remaining may not be made on the identical last upon which the original shoe was made, but it is made upon a last of mathematically the same proportions, and the pair thus restored is as perfectly mated as the original pair.

The one-legged man who buys in this way a single shoe pays slightly more than half the price of a pair. One-legged men are in the very largest shoe stores among the regular customers; and they are not so unusual as to be remarkable.—New York Sun.

WISE MIRTH.

Serious People Have a Quick Perception of True Humor.

There is a saying of Chamfort which many serious-minded people, under the pressure of care and work, would do well to lay to heart, "the most thoroughly wasted of all days is that on which one has not laughed." It has often been said that only they who take life with profound seriousness can be really humorous, for they alone perceive those fundamental contrasts which make humor possible.

Mr. Ford has laid the country under lasting obligation by correcting the impression that Washington never laughed. Deeply serious as he was by nature, and retired and non-communicative as he was in large companies, no man could appreciate and enjoy fun of any good kind more thoroughly than the great leader when with his intimates. It is true Emerson hated to laugh, but his radiant smile was better than laughter. Carlyle, on the contrary, was given to earth-shaking laughter—a kind of Berserker laughter, not with undertones of pathos running through it, Lincoln's love of stories, both in the hearing and the telling, was a safety valve for one whose tremendous burdens fell on a temperament deeply tinged with sadness.—Outlook.

PUT HER LESSON INTO PRACTICE.

A Man's Life Saved by a Woman's Courage and Practical Use of Knowledge.

Miss Susan W. Randall, daughter of the late Samuel J. Randall, of Philadelphia, proved a while ago the true meaning of first aid to the injured. She was driving along a street in Utica, where she was visiting, when George D. Frazier, a veteran soldier, was run over by the electric cars, which severed his legs below the knees. There were several attendants and inmates upon the veranda of the Whitesboro Sanitarium, in front of which the accident occurred, but they seemed too horrified to offer any assistance to the injured man. Miss Randall sprang from the carriage and, examining Frazier's wounds, called for help from the Sanitarium. Receiving no attention, she rushed into the yard, and, cuttting down the clothesline, she bound up the limbs, stopping the flow of blood. She afterwards assisted at the amputation, and the physicians declare that the man owes his life to her prompt action.—New York Tribune.

He Had No Desire for Resumption.

A traveling medium who recently gave a seance in a Georgia town began by saying: "I have been requested by some of the men present to recall the spirits of their wives, who have gone before. Keep perfectly quiet, friends—in one moment they will be with you." "John," whispered an old man in the audience, "Gimme my hat—quick! I don't mind meetin' Molly in heaven, but I'll be durned ef I want her to resume business on earth!"—New York Tribune.

Thomas W. Burton, a Wisconsin farmer, who was a Federal scout in the Civil War, once lay within twenty feet of General Robert E. Lee, and tried for five minutes to make up his mind to shoot the great soldier. The deed seemed too much like murder, however, and the General's life was spared. Burton now treasures a letter, in which Lee thanks him.

Lokal-Nachrichten aus der alten Heimath.

Braunschweig.

Blankenburg. Geängstigt durch die vielen Nachrichten über Beschlagnahme amerikanischer Würste, verfiel ein hiesiger Kaufmann auf den eigenthümlichen Gedanken, einen Posten von 40 amerikanischen Würsten zu vergraben, um Weiterungen mit den Aufsichtsorganen zu entgehen. Eine Frau, die in einem Schutthaufen Ausgrabungen nach altem Eisen, Knochen u. s. w. machte, entdeckte den verlockenden Fund. Wie die ärztliche Untersuchung ergab, waren die Würste vollkommen trichinenfrei und genießbar. Zu seinem Schaden hat der vorsichtige Händler nun auch noch den Spott zu tragen, der ihm reichlich zu Theil wird.

Mecklenburg.

Pampow. Hier wurde eine neue Kirche eingeweiht, wozu der Herzogregent eingeladen war. Derselbe hat, wie man jetzt erfährt, seine Theilnahme an der Feier deshalb abgelehnt, weil bei der letzten Reichstagswahl in der Gemeinde Pampow so zahlreiche sozialdemokratische Stimmen abgegeben worden sind.

Großherzogthum Hessen.

Darmstadt. Als ein wichtiger sozialpolitischer Schritt dürfte zu verzeichnen sein, daß nunmehr die Versicherungsanstalt Großherzogthum Hessen in die Lage versetzt ist, Darlehen auf Arbeiterwohnungen auch an Arbeiter, und zwar zu dem ermäßigten Zinsfuß von drei Prozent, mit der Maßgabe zu gewähren, daß jährlich mindestens ein Prozent auf die Schuld abgetragen wird und die äußerste Beleihungsgrenze zwei Drittel des Schätzungswerthes des Objekts beträgt.

Gießen. Eine die hiesige höhere Töchterschule besuchende 13 Jahre alte Tochter einer Kölner Familie wurde neulich Nachmittags, als sie zur Pause am Arm einer Freundin den Schulhof betreten wollte, von einem vom Dache fallenden etwa zehn Pfund schweren Sockelstück erschlagen.

Mainz. Die hiesige Eisenbahn-Direktion ist mit der Ausarbeitung von Plänen für die Errichtung einer Eisenbahnbrücke über den Rhein beschäftigt, die vom hiesigen Ufer über die sogenannte Ingelheimer Aue und die Petersaue nach Kastel geführt werden und in der Hauptsache bestimmt sein soll, unsere Bahnstrecken von dem Güterverkehr zu entlasten, besonders von dem durchgehenden Güterverkehr.

Bayern.

München. Die Jahresabschlüsse der (staatlichen) Brandversicherungsanstalten weisen eine starke Mehrung der Brandschäden gegen frühere Jahre und insbesondere eine auffällige Zunahme der Blitzgefahr aus. In den 20 Jahren von 1875—76 bis 1896—97 sind von 34,519 Brandfällen (90,267 beschädigte Gebäude) 5095 gleich 15 Prozent auf Blitzschläge zurückzuführen. (In Preußen ist der Prozentsatz nur 6.086.) Nicht ohne Einfluß sind hier mangelhafte Blitzableiter. Der in den 20 Jahren durch Blitze angerichtete Immobiliar-Brandversicherungsschaden beziffert sich auf 5,400,000 Mark. Die Gesammtentschädigung für alle Immobiliarbrandschäden betrug in dieser Zeit 88,600,000 Mark. — Die Aufstellung der Pschorrbüste in der Ruhmeshalle hinter der Bavaria hat dieser Tage stattgefunden. Die Büste des um die Münchener Brauindustrie so hoch verdienten Mannes ist von Bildhauer Professor v. Heß modellirt worden.

Augsburg. Die von der Schuckert-Gesellschaft dahier errichtete elektrische Straßenbahn soll einer neu zu gründenden Aktiengesellschaft mit dem Namen „Augsburger elektrische Straßenbahn Aktien-Gesellschaft" übertragen werden. Das Aktienkapital beträgt 2,500,000 Mark.

Dießen. Der Forstamtsassessor M. v. Coulon hatte auf der Jagd das Unglück, daß ihm bei der Verfolgung eines angeschossenen Rehbockes von einem Aste das Gewehr von der Schulter gestreift wurde. Das Gewehr entlud sich und der Jäger bekam die ganze Schrotladung in den Körper.

Landshut. Im Wiederaufnahmewege sprach die hiesige Strafkammer die ledige Dienstmagd Katharina Lechner von hier von der Anklage eines Verbrechens des schweren Diebstahls frei, legte die Kosten der Staatskasse auf und verfügte die Veröffentlichung des Urtheils. Unter der Anklage, im Hause ihrer Dienstherrschaft einen Geldbetrag von 180 Mark mittelst eines Nachschlüssels sich zugeeignet zu haben, war sie zu vier Monaten Gefängniß verurtheilt worden. Da die Lechner während des Wiederaufnahmeverfahrens starb, stellte nun ihre Mutter den Wiederaufnahmeantrag.

Massing. Den Haupttreffer der Ferienkolonien-Lotterie mit 15,000 Mark gewann Expeditor Gaßner dahier.

Nürnberg. Heuer flossen die Mittel so reichlich, daß 240 Kindern die Wohlthat eines dreiwöchigen Landaufenthaltes zu Theil werden kann; ferner werden zur Badekur 15 Kinder nach Bad Kissingen auf sechs Wochen, 15 nach Soolbad Jagstfeld auf vier Wochen und 15 nach Reichenhall auf zehn Wochen versendet.

We Insure Your Shirts.

We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. This is the time of year when the second-class laundry ruins your Paris Percale or Glasgow Cheviot and tells you "It was the fault of the goods" Let us call for your work.

Telephone 30 M.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NEW YORK TERMINALS—Foot of Cortlandt & Desbrosses and West 23d streets.

THEY TOOK LI'S ADVICE.

New York's Chinamen Lend Money on Soiled Linen.

"I want to see the descendants of Confucius in America develop the business instincts common to the people of the United States," said Li Hung Chang in an interview during his recent visit to this country. And thereupon the Mongolians throughout Greater New York lost sleep devising ways and means to take advantage of the American system of gathering in the hard cash. Out of the many methods put into use, perhaps the most successful attempt at money making was developed among the Chinese who do your laundry.

The scheme is a simple one and productive of good results. This is the way it is done: Suppose, for instance, a gentleman who is in need of a few small coins, wants to make a temporary raise. All he has to do is to wrap up his soiled linen and hie himself to the nearest laundryman, where he expresses a desire to get a loan.

John glides his long fingers through the pile of clothing, inspects the texture and quality of your white shirts, examines the ply and brand of your collars and offers from 15 to 75 cents advance on the lot. If you accept his terms you are obliged to come around before a week expires and take your washing away, paying the regular rates, plus the amount loaned, together with a small interest. If you do not call the package is sold for what it will bring, and John Chinaman continues to take Li Hung Chang's advice.—New York Journal.

MONEY IN MARRYING RAILROAD MEN

One Woman Received Nearly $10,000 for the Loss of Three Husbands.

Marriage is not a failure in the experience of a woman living at Benwood Junction. Her three husbands all worked for the B. and O. and belonged to railroad brotherhoods, and hence were entitled to death benefits and insurance when they were successively killed on the rail. The first was a conductor, who died some years back, and his widow received $4,500 from the company and the Order of Railway Conductors. The next was an engineer, and he in turn was killed, $2,500 following the event. Again it was an engineer, and the death benefit was this time also $2,500. It is safe to say that the widow's next spouse, if the proverbial superstition among railroaders does not defeat her good intentions, will also be a railroad man.

How Bees Embalm.

Bees, Says "Horbis," can embalm as successfully as could the ancient Egyptians. It often happens in damp weather that a slug or snail will enter a beehive. This is, of course, to the unprotected slug a case of sudden death. The bees fall upon him and sting him to death at once. But what to do with the carcass becomes a vital question. If left where it is it will breed a regular pestilence. Now comes in the cleverness of the insects. They set to work and cover it with wax, and there you may see it lying embalmed just as the nations of old embalmed their dead. When it is a snail that is the intruder, he is, of course, impenetrable to their sting; so they calmly cement his shell with wax to the bottom of the hive. Imprisonment for life, with no hope of pardon! —Golden Days.

Tree with a Distinction.

The stump of the tree to which Israel Putnam was once tied in the French and Indian war is still standing in the little village of Crown Point, a town in the upper part of New York.

It was in the course of a skirmish near Wood Creek, at the time of the French invasion in August, 1758, that he was captured by the Indians and tied to this tree.

While the flames were searing his flesh he was saved by Captain Molang, a French officer, Captain Molang, who rushed through the crowd, scattered the firebrands, cuffed and upbraided the Indians and released their victim. Putnam was taken to Montreal and presently freed by exchange.

The Fire Lasties of Sweden.

At the jubilee festivities of King Oscar of Sweden and Norway one of the features that appeared most to interest him was the exhibition of the female fire brigade of Koenissen. There are one hundred and fifty of these young women, from twenty to thirty years old, directed by a male commander—who is married. In vigilance, quickness and bravery the firewomen are said to be the equal of any of their masculine competitors. They came in full uniform to go through the evolutions beneath King Oscar's windows, where they aroused great enthusiasm.

A Thirst for Knowledge.

The country clergyman was nailing a refractory creeper to a piece of trellic work near his front gate when he noticed that a small boy stopped and watched him with great attention. "Well, my young friend," he said, pleased to see the interest he excited, "are you looking out for a hint or two on gardening?" "No," said the youth: "I be waiting to see what a parson do say when he hammers his thoomb." —Cincinnati Inquirer.

J. M. HETFIELD, P. M

THE ELDER'S CHOICE.

BY SUSIE M. LORD.

Greenwood was in a flutter of excitement, and any one at all acquainted with the quiet town would not have wondered at it. The little white church, with its green blinds and tall belfry, had been closed for more than a year, except on rare occasions when old Deacon Ramsey conducted a meeting, or a few devoted members joined in holding an evening service. Since good Elder Damson had passed to his reward no one had been called to fill his place. But now the new minister Elder Pottle, had come, and this was his first Sabbath among the people of Greenwood since his installation.

The congregation had listened devoutly to the sermon, and as the people wended their way homeward, the theme of their conversation was the ladies' sewing circle, which, as the new minister had announced, would meet the following Tuesday with Miss Abby Brown.

Miss Abby Brown, or "Aunt Nabby," as she was familiarly known, lived in an old farmhouse not far from the center of the town; many a sewing circle, husking bee and quilting party had been held there, and it was with great delight that the people anticipated a renewal of these festivities.

The following day was a busy one for Greenwood. Hurried calls, savored with bits of gossip, were in order, and kitchens steamed with the fragrance of pies and cake. The season of sewing bees was to be inaugurated in a bounteous manner, and Aunt Nabby declared that she would do her share if she had to sit up all night to do it.

"But I tell you what, Aunt Nabby," remarked Sister Simpkins, who had just stepped in to rest a minute on her way to the village store, "the new minister preached a powerful sermon last Sunday. Some folks say they don't believe he can be beat in this part of the country. I thought his sermon was real smart myself, but I couldn't help noticin' how often he looked toward the Widder Hopkins' pew. It seems to me she's pretty pert for a woman of her years, and Elder Pottle ain't the first man she's set her cap for since the deacon died."

"Mercy sakes, Sister Simpkins," returned Aunt Nabby, "the widow's old enough to be the elder's mother, allowing he is a widower; and then, again, just as if he had any such thoughts, and his wife not dead a year!"

"Well, mebbe I'm mistaken, but stranger things than that have happened. I, for one, am sorry the elder's wife couldn't have lived to come to Greenwood with him."

"Sakes alive!" repeated Aunt Nabby, when his visitor had departed. "Just as if the new minister was thinking of Mis' Deacon Hopkins when he preached that beautiful sermon! I do hope Sister Simpkins won't tell it anywhere else. She always was dreadful newsy."

The eventful Tuesday dawned bright and clear, a typical New England autumn day. The early frost had tinted the leaves of the maple trees in front of the old farmhouse, and in a blaze of yellow and gold they rustled musically over the heads of merry maids and sedate matrons as they wended their way to Aunt Nabby's hospitable door.

Within the large and homelike rooms Aunt Nabby bustled about greeting her guests with a kindly smile and the injunction to "put your cake and pies right in on the pantry shelves," which they did, until the shelves fairly groaned with their weight.

Truly the sewing circle had opened auspiciously. Nimble fingers kept time with busy tongues as the women plied their needles and thread.

"I declare it does beat all, the way some people act," exclaimed Miss Simpkins, bending over her sewing. "Making so bold to attract attention, and they old enough to know better!"

"Why, what do you mean, Sister Simpkins?" inquired Aunt Nabby in surprise.

"I mean just what I say. Are you stone blind that you don't see the way Widder Hopkins is carrying on? 'Twas only this morning that I saw her go way across the street to speak to our new minister, and here's the afternoon pretty nigh gone, and she ain't been here to set a stitch yet, and she a church member."

"Oh, probably something's hindered her. I've no doubt she'll come by-and-by."

"Yes, this evenin', mebbe, about the time he gets here."

"Oh, well, Sister Simpkins, I really think it will turn out all right, and I wouldn't mind if I were you."

"Wouldn't mind!" exclaimed Miss Simpkins, indignantly. "Why, Abby Brown, I hope you don't think I care! No, indeed, not I! It's nothin's to me, of course; but as a member of the church I can't approve of all I see." And the speaker bent to her work with so much energy that she put the needle through her finger instead of the cloth, and broke the thread with a snap, while poor Aunt Nabby looked distressed as she saw how vain had been her effort to soothe her troubled spirit.

Meanwhile the Widow Hopkins was in a distant part of the town, kindly ministering to poor old Mrs. Smith, who had been confined to her bed for months. Indeed, it was in her behalf that Mrs. Hopkins had crossed the street that morning to speak to the minister. And now, as he entered the Smith's cottage, bringing the medicine which she had asked him to procure, a bright smile lighted up her face.

"So very kind of you, Elder Pottle, to get this for us, and saving me such a long walk."

"Yes, Elder Pottle," faintly added poor Mrs. Smith, "beside giving Mrs. Hopkins so much extra time with me. Oh, I know the Lord will be good to her, for she has been good to me. All day she has staid here, and this the afternoon of the sewing circle, too, and I'm sure they are looking for her there this very minute."

The conversation then turned to the sewing circle, Elder Pottle remarking that he did not remember having met Miss Abby Brown, although her name sounded very familiar to him.

"I have heard my sister say," said he, "that several years ago, when she was teaching school in some New England town, she fell ill at the house of a Mrs. Brown, with whom she was boarding, and to the untiring care of Mrs. Brown and her daughter Abby, to whom she became very much attached, she owed her recovery. The friendship was continued, I think, until the death of my sister in the West, two years ago. I have been thinking that the Miss Brown who lives here may be the same 'Abby' for whom my sister entertained such strong regard."

"Several of our village school teachers boarded with Mrs. Brown previous to her death," said Mrs. Hopkins, "and I have no doubt that 'Aunt Nabby' as we have all learned to call her, is the lady of whom you speak. Are you going to her house to tea?"

"Yes, such is my intention, for I am desirous of making her acquaintance."

"Then I'll introduce you this very evening," exclaimed Mrs. Hopkins. She is one of the dearest old maids you ever saw, Elder Pottle, and I know you'll like her."

It was late in the afternoon when Mrs. Hopkins started in the direction of Aunt Nabby's, accompanied by the minister, who remarked as he bade her adieu at the village post-office.—

"I will surely call this evening, Mrs. Hopkins. Do not forget your promise."

"Oh, never fear! I'll keep my word, Elder Pottle."

Hurrying on her way she met little Elsie Jones, who greeted her with,—

"Mamma is real sick and I've just been after the doctor, Mrs. Hopkins. Won't you come in and see her just a minute?"

Taking the child's hand the kindly widow went on her errand of mercy, little thinking that the words which passed between her and Elder Pottle had been overheard by one of the "society," and were now being carried without delay to the sewing circle.

"What do you think?" breathlessly exclaimed Mrs. Roberts, as she rushed into the presence of the "sisters." "As I was on my way here I overtook Mrs. Hopkins and our new minister, and when she left him at the post-office I heard him say he would call on her to-night, and that she must not forget her promise!"

"There! I told you so!" shrieked Miss Simpkins, while several women inquired,—

"What did she say, Mrs. Roberts?"

"Why, that she would surely keep her word, and she has gone off up Oak Street with little Elsie Jones, and I came right over here. I should have been earlier, but I have had company all the afternoon. But I'm beat about Widow Hopkins."

"The pert thing! and she nigh on to fifty if she is a day!" spitefully remarked Miss Simpkins.

An hour later Mrs. Hopkins, bright and rosy, appeared at Aunt Nabby's.

"There, I'm here at last!" she exclaimed, laughing. "Dear me! if only time would wait for us poor mortals to do all we would like to do!"

"Why, what has kept you so late, Sister Hopkins?" inquired Miss Simpkins, glancing significantly at the others.

"Oh, I have been making sick calls," returned the widow; and then she proceeded to relate her day's experience.

"Poor thing! You must be all tired out," said Aunt Nabby, sympathetically, while a contemptuous sniff from Miss Simpkins was plainly audible.

As darkness approached the sewing was put aside, lights appeared, and the young people and some of the male members of the society began to arrive among them the new minister.

The widow kept her word and introduced him to Aunt Nabby, and as soon as the opportunity came she brought them together in a corner and related the story of Elder Pottle's sister as told to her by him.

"Well, I declare!" exclaimed Aunt Nabby, while her eyes dilated with astonishment. "Is it possible that you are James Pottle? I have heard Harriet speak so many times of her brother James, who was studying for the ministry, but I didn't think you were he. And poor, dear Harriet! I heard of her death, but tell me all about her, Elder Pottle."

When the evening was over Elder Pottle declared that Aunt Nabby Brown was really the dearest old maid he ever saw, and to show his gratitude to Mrs. Hopkins for her part in the affair, he escorted her home, which act so enraged Miss Simpkins that she vowed vengeance on the widow, and made up her mind that matters had gone far enough, and that she would tell the elder the very next day just what she thought of it.

Soon it was noticed that Elder Pottle called very often on Aunt Nabby—in fact, as Miss Simpkins expressed it, a great deal oftener than he did on anybody else. And indeed those were happy evenings which he spent during the winter at the old farmhouse. And when summer came, and it was announced, that there would be a wedding at Miss Abby Brown's, Miss Simpkins declared that it was simply scandalous, while the Widow Hopkins laughingly maintained that it was she who made the match.

Aunt Nabby's step grew lighter and her smile brighter, and one day, in conversation with the Widow Hopkins, she exclaimed,—

"And to think that I should meet Harriet Pottle's brother James and settle right down here in Greenwood! I declare, it does beat all!"

NEW EVERY MORNING.

Every day is a fresh beginning;
Every morn is the world made new.
You who are weary of the world and sinning,
Here is a beautiful hope for you—
A hope for me and a hope for you.

All the past things are past and over;
The tasks are done, and the tears are shed.
Yesterday's errors let yesterday cover;
Yesterday's wounds, which smarted and bled,
Are healed with the healing which night has shed.

Yesterday is now a part of forever,
Bound up in a sheaf, which God holds tight,
With glad days and sad days and bad days, which never
Shall visit us more, with their bloom and their blight,
Their fullness of sunshine or sorrowful night.

Let them go, since we cannot re-live them,
Cannot undo and cannot atone.
God in his mercy receive, forgive them!
Only the new days are our own;
To-day is our, and to-day alone.

Here are the skies, all burnished brightly,
Here is the spent earth all reborn,
Here are the tired limbs springing lightly
To face the sun and to share the morn
In the chrism of dew and the cool of dawn.

Every day is a fresh beginning,
Listen, my soul, to the glad refrain,
And, in spite of old sorrow and older sinning,
And puzzles forecasted and possible pain,
Take heart with the day and begin again.

BLOOD WILL TELL.

It was rapidly growing dusk on the wide prairie, and the stars were just beginning to show like glittering diamond pionts. Just the suggestion of the autumn was in the cool night air. The stillness as Jim and Miss Waring drove along over the silent plain was broken now and then by a sharp, startling rattle, a sound once heard never to be forgotten, the danger signal of the deadly rattlesnake, coiled up on the long, brown grass.

"Hit appears to me," Jim was saying, "that that air wind don't bode any good to the settlers round about these here parts."

"Why so, Jim?"

"Guess you hain't ever been on one of our Dakoty peraries afore, Miss Waring, or you wouldn't have asked such a question. There's two things out hyar that's more feared than the Old Nick himself—one on 'em's a perarie fire, and another's a perarie fire with the wind a-blowin' a forty-mile-an-hour gale."

They rode on again in silence. Alice Waring had come from the far great city to visit her brother on his western ranch. Jim, the man-of-all-work, was driving her from the station, fifteen miles from the ranch.

"By the long-horned spoons!" said Jim, suddenly, rising in his seat and stopping the horses with a tremendous jerk, "look over there, will you? Thar's bizness for us, sure's you're a foot high! Git up there!" he yelled to the horses, and, giving one of them a stinging blow with his whip, they sprung into a run. Across the level plain shone a light, the light at the ranch headquarters, nearly a mile away. To the left of it a dull, reddish glow had come up, and now and then, at the horizon line, where the darker part of the sky was lost in the prairie, sharp flames were darting up.

"Don't be skeered!" Jim ejaculated, as he whipped the horses into a yet more furious pace; "there ain't any danger—leastwise for us!"

Alice was a self-possessed city girl with a generous stock of old-fashioned common sense, but she was startled at Jim's actions and her face had grown pale.

"Everything's all right," said Jim, as reasuringly as he could under the circumstances. "Don't you be skeered."

He had seized the reins between his firm, strong teeth, and now with one hand, now with the other, now with both, he was whipping the horses into still greater speed. Hate ter lick a team like this," as the wagon bounced and rattled along; "hate ter do it—but hit can't be helped—when there's life—depends—on it!"

A few moments more and the horses dashed up to the big ranch headquarters house. Jim threw the lines to the ground, and, seizing Alice by the wrist, jumped with her.

"Sorry ter be so unperlite, but there ain't any time ter wait—kin you ride hossback?"

Barely waiting for an affirmative answer from the girl, who was passionately fond of riding, and who modestly owned the gold medal for superior horsewomanship in her city riding club, Jim ran to the barn, flung a man's saddle on a beautiful horse, and before Alice had time to recover from her surprise at this novel introduction to her brother's establishment, the horse was before her.

"You say you kin ride; wa'al here's the best chance to show hit you ever had in your life. Thar's the best hoss in McLeod county—racin' blood for five generations; there ain't nothin' but a perarie fire kin ketch him. Jump him, Miss Waring, ride straight toward the fire yonder; thar ain't no danger now till you git ter Mule crick. Jest over the crick, a quarter of a mile or so, thar's a Russian woman an' her six weeks' old baby. She is all alone, fer I saw her husband in town when we left. They hain't back-fired an inch, and you've got to git the woman and her baby over the crick, see? I'd go myself, but the wind is shifted, and this hull ranch'll be in danger afore long. You'll pass your brother and a parcel of men backfirin' along the line; don't stop fer any explanations, but ride fer the crick, an' ride as if the Old Harry was on yer track. You been't afeered, be you?"

"You say there's little danger of my losing my life, Jim?"

"Not a bit—ef you only git the woman across the crick in time; but don't wait—jump quick, for the Lord's sake, or you'll be too late!"

With a rude toss he threw her into the saddle as if she had been a child, and handed her the reins. As he did so he thrust a short, cruel rawhide into her hand.

"Don't hit him with that unless you have to—he's never been licked in his life, but he kin outrun a cyclone. Ef you have ter hit him, give it ter him red hot."

It is long sometimes before a horse and its rider become acquainted with one another, but it seemed but a few seconds to Alice before she and the noble animal were old friends. Jim was right. Prince Hal could run, and after the first few tremendous jumps and Alice had steadied herself in the saddle, the thrilling excitement stirred her blood like an intoxicant, and she realized that Jim had told the truth; it promised to be the race of her life.

"Je-ho-sa-phat!" exclaimed a man who was ploughing a fire furrow along the edge of the ranch where the men were at work. "Mr. Waring, look, will you? Look at Prince Hal!"

Mr. Waring had not more than time to look up before he saw his choicest mount pass by him like the wind, a girl with hair flying behind her on his back, the horse flying at a pace that not his fastest Kentucky ancestors ever matched.

On the horse went, as if he, too, knew of the life-saving mission of the hour. The foam came back from his teeth and his flanks were white. Alice leaned forward in the saddle as she urged him on, and stroked his neck.

A moment more and they were at the creek, a shallow stream. Beyond, Alice could see a low house silhouetted against a great red bank of flame. The fire was coming. Already she could feel the intense heat. A leap and a bound and they were over the stream and on again with still swifter flight. It was a matter of seconds now until the low sod house was reached. In front of it was the Russian woman, frantically trying to save some of her household goods by dragging them with one hand further from the course of the fire, while in one arm she clutched the baby, around which she had thrown a wet shawl to protect it from the heat.

"Why don't you run?" cried Alice, as she jumped from the horse; "don't you see the fire is almost on you? You can't save your things; run for the creek! Run, I say, or you'll be burned to death!"

Alice grabbed the child from the woman's arms and sprang up into the saddle as best she could. The woman stood as if stupefied, the red glow from the coming flames lighting up her stolid face. The fire was coming on faster now; they could hear the roar and crackle as it swept through the long, man-high grass of the swale beyon dthe fence.

"Quick! Quick, I say! No, you can't run fast enough now to get to the creek; jump up behind me. Quick! Quick, or we shall all be burned! I can't leave you here to die!"

The woman's stolid nature was roused at last by the animal fear of danger, and while the heat grew more intense every instant she clambered up behind Alice.

Prince Hal's face was toward the fire. He had not moved since he reached the spot. He seemed like some beautiful statue, his body motionless, his ears sharp, erect; his nostrils distended; the awful fascination of the fire was upon him.

Alice pulled at the bit to turn him. He paid no attention. She spoke sharply, but he only moved uneasily; he would not stir from the spot. Swifter than an electric shock came the thought to her mind that horses in burning buildings would stay and die in the flames before they would be led out. It would be impossible to reach the creek on foot. In half a minute more the flames would be on them. Grabbing the wet shawl from the baby with one hand and swinging the child backward to its mother with the other, she threw the shawl over the horse's head. With the sight of the fire shut out he quivered, turned as the bit gave him a sharp twist, and just as the flames were leaping over the sheds hard by the house he sprung away.

It was a race for life now—for three lives—for the wind had increased to a gale and there is nothing more terrible in this world than such a relentless ocean of flame as was rolling over the grass grown plain.

Alice thought of Jim's parting advice.

"He's never been licked in his life, but if yer have ter, give it ter him red hot!"

With a sharp cry, urging the horse on under his heavy burden, she struck him with all her strength on the quivering flank, not once, but many times. He jumped as if stung by a rattlesnake, and, seizing the bit in his teeth, sprung away as if shot from some mighty catapult.

Alice had lost all control of him now. She could neither guide, nor check, nor urge him. The blood of a noble ancestry, the blood of a racer, was on fire in his veins. Down the short hill, over the brook, up the farther side, on over the plain, like some wild spirit of the night he ran. A cheer that you could have heard a mile, and that mayhap was heard clear up to the stars of heaven, rang out as Prince Hal, white with foam, flew by the crowd of men.

"Wa'al, ef you ain't the pluckiest gal," said Jim, as he helped Alice from the saddle. "An' you ain't a-goin ter faint, nuther, I kin tell it by yer eye. Didn't I tell you he could outrun a cyclone? But there had ter be somebody a-top of him who knew how ter ride."—The Independent.

NEW YORK LETTER.

Special Correspondence.

A committee of the New York Presbytery has reported in favor of a scheme for counteracting the influence of the saloons by providing for the working people attractive and safe resorts, especially in the evening. Rev. Dr Thompson, Secretary of the Presbyterian Home Missions, says this plan is not a new one, but really a continuation of a work started years ago. Rev. Dr Rainsford, several years ago, proposed to open attractive saloons, where beer and other mild drinks were to be sold. The places were to be made attractive with reading rooms, gymnasium, etc. "That part of Dr. Rainsford's proposition," says Dr. Thempson, "was all right, but the sale of beer was not commendable. We don't intend to dispense anything to young men or old, or to women, that might tend to give them appetites for intoxicants. On the contrary our aim will be to counteract that appetite by teaching the evils of intoxicating beverages."

The Brooklyn Bridge.

The East River bridge is now practically a free bridfe. It was long ago thrown open to pedestrians without toll but a charge of 3 cents was made for a ride on the bridge cars. This toll is still maintained, but any one using the regular trolley cars which now cross the structure pays 5 cents for the ride to his destination in Brooklyn and secures his passage across the bridge free. In other words, the patrons of the trolley cars save their daily bridge fares both ways. This means a loss of a large revenue to the bridge.

This depreciation in receipts seems to be looked upon as a public calamity in New York. But why should this bridge be made a source of profit more than any other bridge? The proper view to be taken seems to be that a bridge is a public highway, and as such should be free to the public. Toll bridges, like toll roads, are rapidly becoming anachronisms in the older sections of the country.

Papers Noted for Their Poets.

The Herald is not the first New York paper of that name, as the semi-weekly edition of The Evening Post was for many years called the New York Herald. It may seem strange that a daily paper should change its name for a different edition, but a similar instance was found in The Commercial Advertiser, which once issued a semi-weekly edition called the New York Spectator. It was discontinued several years ago. The Commercial Advertiser and The Evening Post, both evening papers, were at one time noted for their poets, Byrant being the bard of the latter, while Robert C. Sands held the same distinction on the former. He did not equal Byrant, yet some of his poems were highly deserving. The chief editor of The Commercial Advertiser at that time was William L. Stone, who held this position for a quarter century and was only removed by death while in the midst of his powers. He was not only an able journalist but also a historian of equal ability, and was the first American editor to become historical authority. His son, who bears the same name, is also a noted historian, and his "Sir William Johnson" is the only reliable biography of that remarkable man. Like his father he also engaged in newspaper work and was for several years city editor of the Journal of Commerce, but he is now chiefly engaged in history, to which he is adapted, both by taste and application.

The Original John Jacob Astor.

The founder of the Astor estate was a stout built German, and both his features and his speech recalled the "fatherland." He always said "dat" for that and "tousand" for thousand, and he loved to talk in his native tongue with his old friends whom he met at the German Lutheran Church, of which he was a member. Most of our business men require recreation, but Astor was an exception. He neither loved horses nor pictures; did not visit watering places; had no mania for rare books or curiosities, and really had no fad whatever. His long life was occupied by plodding business, in which he found sufficient pleasure, and he continued to attend to it until his faculties failed. The Astor library was intended to be a family monument, and was thus viewed by his son William, who made a handsome donation, both of land and money, for its enlargement. William's sons, John Jacob and William, also held the same view, but the consolidation with the Lenox and the Tilden extinguishes the old names and soon the Astor library will be no more. Could the old man indeed have forseen such a result there never would have been an Astor library.

While the remains of the original John Jacob now rest with those of his children and grandchildren, his great-grandson Waldorf has become a resident of England, and another grandson, John Jacob, is voyaging in southern waters in his splendid yacht, the Nourmahal. Hence New York at present contains no direct representative of the family. Waldorf is self-exiled, but John Jacob's absence is due to business enterprise, as he has important interests in Honduras. He is indeed displaying a greater resemblance to the original John Jakob than any other of the family. This is shown by his extensive purchases of land in Bronx as well as by the Honduras movement. A few years ago he was simply

Men Who Want An Opportunity

to make their families happy, will find that the best way is to protect them by a policy of Life Insurance in THE PRUDENTIAL.

SPORTING.

CYCLING COMMENT.

Miss Kittie Albert, of East Fourth street, has purchased a Pennant wheel.

W. H. Rogers, the wheelman, is making a special run on bicycle sundries.

Charles Greer, of Woodhull & Martin's dry goods store, has returned from a two weeks' wheeling trip.

Despite the recent heavy rains West Front street beyond Grant avenue is in excellent condition for wheeling.

A big road race will be held on the Hudson county boulevard Labor Day morning. Ray Poole and several of the other local riders are intending to enter.

Harry K. Lister will hold one more road race this season. He is planning to hold it some afternoon in the first week in September. The entry blanks will be out for the event in a short time.

Henry Angerbauer met with hard luck in Thursday evening's road race. Just as he rounded the turn at Campbell's road house, the chain to his wheel snapped. In less time than it takes to tell it, the spectators had seized him and hoisted him on another wheel and started him off. Angerbauer went right on and made a plucky finish, showing up well despite the change in wheels.

It was a matter of great regret that John Cunningham, the Perth Amboy rider, who started from scratch in Thursday's road race, met with such hard luck. Cunningham is considered as fast a man as Hanson but he has an excellent spurt which Hanson lacks. Had he remained in the race to the finish, Poole would have found a formidable rival for honors in the bunch. He hopes to start in the next race that Lister arranges.

ROD AND GUN.

Recorder Long, Dr. Charles R. Thiers and W. J. R. Thiers returned from a fishing trip to Amboy Thursday with twenty weakfish as the result of their catch.

AMONG THE STEPPERS.

George Watson, of Belvidere avenue, has purchased a pneumatic-tire road wagon.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

At Stillman Music Hall next Friday night John L. Sullivan will appear with his own specially engaged vaudeville company, opening with the rollicking musical comedy, "A Trip Across the Ocean," introducing the entire company. The champion appears in a natty yachting costume, looking the picture of health, and when he comes upon the stage the applause is deafening. The comedy is replete with catching songs, taking specialties and every member is competent, all working with a vim and dash which makes the piece go with a rush. In the olio which follow are a number of very stirring acts.

Superintendent Donnelly Resigns.

James Donnelly, superintendent of the Lehigh Valley Railroad, has resigned without assigning any reason. The resignation will take effect Sept. 1st. Mr. Donnelly has been in the employ of the Valley Company since 1852, and was very popular.

—A meeting of Miantonomo Tribe of Red Men was held last evening. After the regular business there was initiatory work, after which followed a good time.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

The waters in and about the mouth of the Rahway River are alive with a rare variety of "blue claw" crabs and other species of the crab family. More are now being caught than in what is considered the height of the season—about Aug. 15—and they are in excelent condition. On Tuesday two well known sports, Ernest Mintel and Robert Edmunds, caught five bushels of crabs in less than three hours at Central Railroad drawbridge, near Carteret. Crabbing parties are down the river daily, and none return with less than a hundred or more crabs. The last few years have been unusually poor ones for crabs in the waters of the Rahway River, and this year's abundance makes it more difficult to account for. The bursting of a tide-water oil pipe two years ago was considered the cause of the crabs leaving the river for the past two seasons. Weakfishing is quite good in the Staten Island Sound, near the Arthur Kull.

* * * * * *

The good folk of Somerset county who live in the vicinity of Somerville and Bound Brook have been able to stand face to face and converse with a real, live hero from the fight at Santiago. Fred Shaw, of Finderne, is the interesting character who is at present attracting so much attention. He is very much alive despite the fact that there is a hole in one leg made by a Mauser bullet at the fight around Santiago. Fred is a genial kind of a fellow, and while very modest, is willing to tell his numerous visitors something of the great battle in which he participated. Many of his friends have been at the house to see him and to make his confinement as pleasant as possible. He spends most of his time on the veranda lying on a sofa when the weather is pleasant. He wears his uniform trousers and blue blouse and is altogether a very interesting personage to the visitors of both sexes that call at his home. It is hardly necessary to say that Private Shaw is a perfect hero in the eyes of all the young women in the neighborhood. Despite all this attention, Fred's head does not seem to swell and he treats all comers with genial affability and relates his experiences as interestingly as when he first came.

Extending a Trolley System.

New Brunswick, August 6.—The New York and Philadelphia Traction Company is making progress with its plan to extend its road from Bound Brook to Trenton. The company has secured franchises for the extension from Bound Brook to New Brunswick, where it will connect with the system of the Brunswick Traction Company. This will form part of the line to Trenton, the road branching off some distance from this city and going to Middlebush. Surveyors are now at work staking off the line from Bound Brook to Kingston. From Kingston it is the intention to proceed to Princeton, and thence to Trenton. This will complete the system in Central New Jersey and be an important link in any trolley system crossing the State.

Ex-Warden Blore Sues.

(Special to The Daily Press.)

Elizabeth, Aug. 6. — Ex-Warden John C. Blore, of the Union County Jail, has brought a suit for over $300 against the county of Union for salary which he claims is due him. Blore was deposed Feb. 15th by the Board of Freeholders because he was a Democrat, and Charles W. Dodd, Republican, of Plainfield, was appointed. Blore refused to give up the keys, claiming that under the Veteran act he was entitled to hold the office. Recently the Supreme Court decided against him.

Park Avenue Baptist church, Rev. J. W. Richardson, pastor—Rev. Dr. A. J. Steelton, of Chicago, will occupy the pulpit at both morning and evening services.

Church of the Redeemer, Rev. W. Montgomery Downey, rector—11:15, morning prayer and sermon, Holy Communion.

Trinity Reformed church, Rev. Cornelius Schenck, Ph.D., pastor—9:30 a. m., Sunday-school; 10:45, preaching by Rev. Carlos Martyn, D. D., of New York, subject, "Christ and Christianity;" evening subject, "American Citizenship in the Light of Spanish War."

Reform Hall—4 p. m., John Cater will lead the temperance meeting.

German Reformed church — 10:30, Rev. Mr. Symonsky, of Bloomfield Seminary, will preach in German; evening, Fred Grant, of Grove street, will speak in English.

Grace M. E. church, Rev. G. W. Gardner, pastor—9:45, Sunday-school; 11, sermon, subject, "Paul's Autobiography;" 7, Epworth League vesper service led by Miss Mary Conroy, topic, "Giving to God;" 7:45, sermon, subject, "Steps to the Throne."

Christian church, Grove street, Rev. H. W. McKane, pastor—11, sermon, subject, "Sabbath Question;" 11:45, Lord's Supper; 3, Sunday-school; 8, address, "Spain's Defeat, or the Triumph of the Right." You are invited.

Mt. Olive Baptist church, Rev. E. E. Jackson, pastor—11, theme, "Return of the Wanderer;" 3, Sunday-school; 7:30, Theme, "Duty of Children to Parents, and the Highest Aim of Man."

Fillmore Baptist church, Rev. W. D. Johnson, pastor—Morning subject, "Uniformity in Religion;" 4, Communion; evening subject, "Floating Christians."

Great Day for the Juniors.

The annual exeursion of the Jr. O. U. A. M., to Asbury Park, August 18th, will go rain or shine. It is expected that there will be twenty thousand Juniors in the parade that is to take place on that day. The committee has arranged with the Central Railroad Company to leave the Park at 9:15 in the evening. There will be twenty-two excursions to the Park that day and they will all leave at 9 o'clock except the Plainfield one. This arrangement was made so that the Plainfielders can leave in comfort.

NEW WOOD PULP FACTORY.

Large One to Be Built in Bound Brook Will Employ Many Men.

Bound Brook, August 6—This place is to have another industry. Plans and specifications were completed today for a wood pulp factory, which will give employment to many men. The building, which will be of brick, will have a frontage of 200 feet and a depth of 63 feet. The company will manufacture all the various kinds of ware made from wood pulp.

Ex-Sheriff Young, of Monroe county, Pennsylvania, is at the head of the company, which is one of the largest in its line in the country. It has an extensive plant at Stroudsburg, Pa.

Mrs. E. H. Terry, of Watchung avenue, who has been seriously ill for the past month, is recovering under the care of Dr. Zeglio, and is able to visit Mr. Terry's parents at Westfield.

RUSSELL A. ALGER.

A BRIEF SKETCH OF THE LIFE OF OUR SECRETARY OF WAR.

Labored on a Farm from the Time He was Eleven to Eighteen Years of Age—Afterwards Taught School and Studied Law—Fine Record in the Civil Was.

No man of public prominence in the country to-day is a finer example of the possibilities of advancement and reward under free, republican government than the distinguished Secretary of War. Despite the early hamperings of poverty and hard luck and poor health, he has risen to great wealth and great political eminence by the sheer force of brains and well directed energy. His ancestors were of New England stock, but the parents of Russell Alexander Alger moved west to Medina County, Ohio, in 1835, where the future Governor, General and Cabinet Minister was born in the town of Lafayette, February 27, 1836. The force of his character was tested at a very early age. He was left an orphan without a dollar to his name, when only eleven, and the situation was made more distressing by a younger brother and sister, even more defenseless in the world than himself. But he knuckled down bravely to the responsibility. Finding places for the brother and sister, he worked on a farm for board and clothes till he was nearly eighteen, snatching what poor schooling he could in the winter months. Then he increased his income by teaching, studying law meanwhile and finally entering the bar in 1857. He had managed during this time, to help his younger relatives from his meager earnings. He entered on his chosen profession at Akron, Ohio, but soon removed to the larger and more promising place of Cleveland.

RUSSEELL A. ALGER.

But his health had been undermined by so much hard work and constant sacrifice, and, on the advice of friends, he moved to the lumber camps of Grand Rapids, Mich., in 1860, where he joined an acquaintance in a lumber enterprise. In 1861 he married Miss Annette H. Henry. The opportunity of his life came on the outbreak of the war, when he entered the service in the Second Michigan Cavalry, soon advancing to the captaincy of a company. It so chanced that Philip H. Sheridan was also a captain in the same regiment, under Gordon Granger, its colonel. When the latter was promoted to a brigadier, Alger induced Gov. Blair to make Sheridan a colonel and acting commissary on Halleck's staff.

Sheridan rose rapidly in promotion, and Alger went up with him. They served together at Boonesville, Mo., where Alger was wounded and captured, but escaped. In October, 1862, he was made lieutenant-colonel of the Sixth Michigan Cavalry, and Colonel of the Fifth in 1863. During the entire war he served with distinguished bravery under Sheridan, Kilpatrick and Custer. He was in more than sixty battles and minor engagements. On June 28, '63, his command was the first to enter Gettysburg, and, after this famous battle he was badly wounded at Boonsborough, Md. He was with Sheridan in the Shenandoah Valley in 1864 and captured a large force of Confederates, and in June of that year he was given the brevets of brigadier and major-general of volunteers. It was during the latter year that President Lincoln selected him for some confidential service that took him to all the armies in the field. His brevet came "for gallant and meritorious service."

At the close of the war Gen. Alger resumed the lumber business, with headquarters at Detroit. One of his pioneer enterprises was railroad extension to the forests for the rapid transportation of heavy logs to the market, and so keen and progessive were his methods that his wealth grew at a rapid rate, until to-day his fortune, made partly in other enterprises, is placed at twelve millions.

For the first time in thirty years the democrats in 1882 by a greenback fusion elected Begole Governor of Michigan. He was renominated in 1884, and Gen. Alger was prevailed to head the Republican ticket against him. By great energy and cool, keen political methods in the canvass, he won with the heaviest Republican vote ever cast in that State. He positively declined to run again, but had redeemed Michigan from the enemy's control.

When President McKinley came to select his cabinet advisers, Republican sentiment singled out Gen. Alger for the portfolio of War, and the President was prompt to tender him the honor. Though not in the best of health, he has been wise and brilliant in his conduct of the great trust in this crisis, and has increased the country's obligations for patriotic, well-directed and sagacious services. Secretary Alger is a genial, outspoken man, of great breadth of general knowledge and has a way of making his views clearly understood.—New York Mail and Express.

SPAIN ACCEPTS TERMS.

(From the Union Associated Press.)

London, August 6, 2 p. m.—Spain's reply was completed at Madrid this morning, accepting the terms of the United States.

PARTICULAR MENTION.

The Misses Winckler, of Park place, left today to enjoy their annual outing.

C. VanDeventer, of East Fifth street, will leave Monday for a business trip to Boston.

Edmund Rushmore, of Grove street, is spending his vacation in the Adirondack Mountains.

Mrs. Boesch, of Bedford Park, New York, is visiting her aunt, Mrs. John Betz, of Richmond street.

E. D. Hallock and family, of Washington Park, left town today for their annual summer outing.

The Misses Mamie and Nellie Winckler, of Park place, have gone to Asbury Park to spend a few weeks.

Mr. and Mrs. David Harbaugh, of Washington Park, are stopping at Point Breeze Camp, Wolfboro, N. H.

Mrs. Luckey and daughter, Miss Mary Luckey, of Orange street, have gone to the seashore for their vacation.

Miss Addie Weaver, of West End Park, has returned from a visit with Mr. and Mrs. Passmore, of Reading, Pa.

Mrs. W. B. Maxson and daughter, Miss Mabel Maxson, of West Sixth street, are registered at the Atlantic House, Belmar.

Mrs. Isabella Jackson and her daughter, Miss Addie Parker Jackson, of Arlington avenue, left yesterday for Patchogue, L. I.

Mr. and Mrs. Daniel E. Davis and family, of East Fifth street, left today for Southold, Long Island, to spend the month of August.

Mr. and Mrs. J. H. Cramer and daughter, of Grant avenue, left today for Asbury Park, where they will spend two weeks. On their return they will take a trip abroad.

EARLY INTELLIGENCE.

—There are a number of the local horsemen who will attend the races at the Gentlemen's Driving Park this afternoon.

—The Bound Brook and Somerville trolley is again running after a delay of twenty-four hours caused by an accident at the power house.

VALUABLE RELIC.

Section of Colon's Flag Sent Home by Plainfield Boy.

J. R. Bennett, of the borough, is in receipt of a very valuable relic from the naval battle fought off Santiago July 3d, when the entire Spanish fleet was destroyed.

It is a large piece of the signal flag that was flying on the Christobal Colon.

It was sent by Mr. Bennett's son, Frank, who is a member of the crew of the New York, Admiral Sampson's flagship.

The strip of yellow, red and white, the colors of Spain, does not show any evidence of the terrible rain of shot and shell through which it went.

Considering the fact that there are several hundred of the crew on the New York it is somewhat remarkable that young Bennett should have secured so large a piece of the flag.

It is probable toat the young man helped pull it down.

Corporation Notice.

PROPOSALS FOR FILLING DISPOSAL BEDS.

Sealed proposals will be received by the Committee on Streets and Sewers at their office, 109 Park Avenue, in the City of Plainfield, at 8 o'clock p. m., on Thursday, August 25, 1898, for doing the work of filling two disposal beds at the sewer farm, as provided for in the specifications on file in the office of the Street Commisioner.

Upon receipt of the bids or proposals the Committee will immediately proceed to unseal the same and publicly announce the contents thereof in the presence of the parties bidding or their agents, provided said parties or agents choose to be then and there present, and also to make proper record of said prices and terms.

The right to reject any or all bids is expressly reserved by the Committee.

Separate proposals must be submitted for each bed, endorsed "Proposals for filling disposal beds."

E. T. BARROWS, Chairman.

BAKER AND CONFECTIONER
Try my New England and Home Made Bread. Vienna Bread a specialty. Goods delivered to all parts of the city.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we don't carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2 25. Men's all wool bicycle suits in fine checks and plaids, worth $7.50, at $2 90. Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.50. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1.28. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $10, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's crash coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats at $2 30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4 75, worth $10. Boys' knee pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

ARMY SAILS NORTHWARD.

Seven Transports Will Have Sailed Tonight.

NO DELAY IN RETURN

TRANSPORTS WILL BE HELD AT QUARANTINE.

Will Prevent Any Outbreak of Yellow Fever at Montauk By a Careful Inspection at Quarantine at New York—The Ships.

(From the Union Associated Press.)

Washington, August 8, 1:20 p. m.—Seven transports will have left Santiago tonight with Shafter's army, bound for Montauk.

The Louisiana was the first to leave closely followed by three others, the names of which have not been given out. The Gate City left yesterday with five hundred calvarymen aboard.

The Maimi and Mattewan are expected to leave today. The Grand Duchess leaves tomorrow with a full regiment.

It is the intention of the department to have every shipload detained at the New York quarantine station long enough to have them thoroughly inspected.

This is done to guard against any outbreak of yellow fever at Montauk. After the investigation the troops will be hurried to Montauk immediately.

SWEEPING PORTO RICO.

American Army is Driving Spaniards to the Capital of Porto Rico.

(From the Union Associated Press.)

Ponce, Porto Rico, August 7, via St. Thomas, Danish West Indies, August 8, 1:47 p. m.—Amid the rumors of peace, the American army under the command of Gen. Miles is sweeping on toward San Juan from the east and the west.

This will compel the enemy to concentrate their forces at the capital of the island. The navy expects to be called upon for a little service.

The reconnoisance at Fajardo shows that there were no batteries there as reported. It is reported that San Juan will offer but little resistance.

NO ANSWER YET.

Spain's Reply to Peace Terms is Looked for Late This Afternoon.

(From the Union Associated Press.)

Washington, August 8, 12:05 p. m—Spain's answer to the terms of peace had not been received at the French Embassy this morning at 11 o'clock.

The belief is growing among the officials of the Srate Department that the formalities, the translation and reduction into cipher at Paris and the transmission to the Embassy here cannot be completed until this afternoon.

Oil Stove Exploded.

Last Saturday afternoon at 3:45 o'clock an oil stove exploded in the house of Charles Zimmer, corner of Pearl street and Watchung avenue. The fire was discovered by George Smith, who was working on the street near by. He ran to Powers' drug store and secured the fire alarm key, and sent in an alarm from Box 141 corner of Somerset and Pearl streets. Before the department arrived the fire was out and the firemen were not needed. The fire damaged the woodwork in the kitchen and scorched a blind on the outside of a near-by window. The stove was thrown out doors and thus further damage was prevented.

—Lewis Batson will lead the Wednesday evening meeting in the Monroe Avenue church in the absence of the pastor.

3,000 AT CAMP MEETING.

BIG ATTENDANCE AT RELIGIOUS SERVICES IN HYDE'S GROVE.

Biggest Portion of the Audience Made Up of White People—The Meetings to Continue for Another Week Yet.

Out in the grove at Netherwood there was a great gathering of people yesterday to attend the camp meeting. Services morning, afternoon and evening attracted many, and nearly three thousand people visited the camp during the day. It was not only the colored people who came. They were a small majority, while the white folks turned out in a crowd.

Rev. Dr. Coster, the pastor of St. Peter's A. M. E. Zion church, under whose auspices the meetings are being held, spoke at all the meetings yesterday. He was assisted by Rev. Dr. Carpenter, of Brooklyn, an eloquent speaker. They were aided by a male quartette in the leading of the singing.

The services will be continued until after next Sunday evening, at least. At that time a Grand Army service will be held. During the week services will be held every evening. All of the local colored pastors have been invited to participate, without reference to creed or belief. Wednesday night Miss Lizzie Babbitt, the great colored woman evangelist, will speak. She will be present the rest of the week and assist in the services. Several of the leading preachers in the New York conference of the Zion church have promised to speak during the week.

So far the camp meeting has been a great success. The attendance has been remarkably large; five have professed conversion and eight asked for prayers. The collections taken, which are for the benefit of the new church, have been very good, and a large portion of the debt has been paid off.

Pastor Coster says that in all his experience in camp meetings he never saw one so orderly as this one There has been no trouble so far with any disturbing element.

HORSE THRUST HIS HEAD IN A HOUSE

Fractious Steed Frightened Charles Lippincott's Family.

A lively runaway occurred yesterday afternoon about 3:45 o'clock on Elm place, when a horse owned by Policeman Patrick Kanan, of Woodbridge, broke his tie strap and ran through the above street into Chatham. When the animal reached the corner of Watchung avenue and Chatham street, he ran into a fence surrounding the house occupied by Charles Lippincott. A number of the pickets were broken and the animal's head was thrust inside of the back door of the house. The family inside were greatly frightened, thinking that the horse was coming all the way in the room. Mr. Lippencott caught the horse just in time to save further trouble. The wagon shafts were broken and that was all the damage. Shortly afterward the owner appeared and took charge of the rig.

Mr. Kanan was visiting Jeremiah Conners, of Elm place, and he tied his horse in front of the house. It is thought that some dogs in the neighborhood were tantalizing the horse and caused him to run away. Mr. Kanan was able to return home in safety.

LITTLE HOPE OF LIBERTY.

Maggie Belle and Her Mother Will Have to Raise $50 to Get Out of Jail.

Mrs. Rosa Jackson, Maggie Belle Jackson and the half-dozen other colored folks, who were committed to the Somerville County Jail recently by Recorder Long, of the borough, on charges of disorderly conduct, may secure their release if they can raise the necessary money.

While on the train enroute to Somerville that day they met Lawyer Robert M. Clark, to whom Mrs. Jackson related the trouble and expressed a desire to objain her release from imprisonment.

Mr. Clark said that if she could raise $50 he would get them all out on habeas corpus proceedings, claiming that the commitments at the trial were illegal. So far Mr. Clark has received $15 and is waiting for the remaining $35 before beginning proceedings.

Judgment for a Plumber.

Justice Nash this morning rendered his verdict in the Galbraith & Walsh against Barrett case which was tried last week, and gave judgment to the plaintiff for $8.88. The sum sued for was $17.75, money due on a mutual bill of exchanges. Irving L. Brady, represented the plaintiff and W. S. Angleman was for the defense.

Fell and Fractured Her Arm.

Miss Phillips, the young daughter of Richard Phillips, of West Front street, fell from the roof of a small out building in a neighbor's yard Saturday and fractured her arm. She is doing as well as could be expected.

RICHTER WINNER IN TWO EVENTS.

Carried Off Honors at Kenyon's Race Meet Saturday.

FOUR EVENTS WERE HELD.

SIMS, THE COLORED RIDER, MADE A GOOD SHOWING.

The Burkes Carried Off Coveted Places in Two-Mile Handicap — Westerfield Disqualified in Last Race—Bunch Finished Just Inside the Time Limit—Big Crowd Present—No Accidents.

Eugene Richter, the winner of Lister's last road race, carried off the honors in G. H. Kenyon's race meet, held at Maltby's track Saturday afternoon. He won the principal events of the afternoon, and might have won another but for a mistake on his part regarding the number of laps.

There was an audience numbering several hundred people who gathered to see the races. It was very decided evidence that the interest in bicycle racing is not dead by any means. Both sexes were well represented and everybody yelled and cheered at the finish as at any crack meet. The events were closely contested, and the rivalry among the contestants was sufficient to make the interest in the events intense. A dispute and a protest in the last race was the only unpleasant feature to mar the success of the day.

The first event was a one-mile open for boys under sixteen years. There were five starters and they plugged away from the very start in most delightful fashion. Of course, they did not make any startling time, but they rode hard, and that was what the crowd wanted to see. Ed Duck made a pretty little sprint and won by two lengths, while inches separated Arthur Chapman and Harry Condit, Chapman was second and Condit third. Joe Harkins fourth and Paul Otto fifth. The time was 3:04 1-5.

Then came a one-mile open with five starters. Unusual interest was shown, for it was the first meeting in a race of Peter Sims and Richter. Richter took the pace and held it most of the way as none of the other riders would come up and relieve him. As they neared the last turn, one of the Burkes went out. Then Sims jumped with Richter close behind. On the turn the white rider passed Sims and won by a length with Sims second, Charles Westerfield third, M. Burke fourth and Joseph Burke fifth. The time was 2:45.

There were nine starters in the two-mile handicap, with Richter, Sims, M. Burke, Charles Dodd and J. Burke at scratch. The race was well ridden and there was no loafing. The limit men set a hot pace to keep away from the scratch bunch, and the latter chased them in great shape. It was not until riding almost a mile and a half that the riders were bunched.

Richter misunderstood the signal for the last lap and spurted on the wrong lap. That left him out of the race. Joseph Burke won in a pretty finish, with his brother, M. Burke, close second, and Westerfield, 125 yards, third. Charles Dodd beaten by Sims on the spurt and Richter finished behind them. The time was 2:57 2-5.

None of the riders would take their handicaps in the five-mile handicap, but all seven gathered at scratch. To prevent a regular loafing match Mr. Kenyon put a time limit of 15 minutes on the event. Nobody would pace for the first few laps and the pace dragged on slower and slower until the officials told the riders that they would far exceed the time limit if they did not wake up, then Richter, Sims and the Burkes jumped in and alternated the pace. The Dodd brothers also assisted. Westerfield would not pace.

The last few laps were taken at a rattling pace, but still the bunch hung well together. On the far side of the last lap they began to string out. Richter came right to the front at once with Sims and William Dodd close behind. They came down the finish in great shape with Richter forged ahead and won by nearly a length. It came near being a dead heat between Dodd and Sims, but the judges decided that Dodd crossed the line first. Westerfield finished fourth. The time was 14:56 3-5.

Charles Dodd immediately entered a protest against Westerfield, claiming that Westerfield pushed him as they were coming down the stretch together. One of the other riders saw it as did three small boys in the crowd. Westerfield vigorously denied it. The judges allowed the protest and dis-

CONTINUED ON PAGE 8.

HONORS INSTEAD OF PAY

QUEER ARRANGEMENT PROPOSED FOR THE FIRE DEPARTMENT.

Suggested That J. W. Murray, Jr., be Made First Assistant, but That Andrew Jennings, as Second, Receive Best Pay.

Now that there is a vacancy in the fire department in the office of first assistant chief there is considerable guessing as to how the vacancy will be filled. The friends of J. W. Murray, Jr., who is second assistant chief, claim that it would be an insult to appoint anyone else to take the position except Mr. Murray. They claim that he has served the city well in the department and is entitled to the position.

In view of these facts it seems that Mr. Murray will be promoted to the position. The plan is to give him the place and increase his pay from $100 per year to $200. The additional $100 will come out of the $600 which was paid to James Martin when he was first assistant.

This will leave a vacancy in the office of second assistant chief, and the plan is to appoint Andrew Jennings to that position at a salary of $500 per year, which means that he is to do the work of the first assistant, receive the largest part of the salary, while Mr. Murray is to have the honors of being first assistant chief.

This seems to satisfy most of those interested, and it is quite likely that the plan will go through without any trouble. The matter is, however, in the hands of Mayor Fisk and he will probably make the appointments at the next regular meeting of the Council.

WHAT THE WAR SHOWS.

AMERICAN CITIZENSH P IN THE LIGHT OF THE PRESENT TIME.

It is the Same in the Millionaire as in the Artisan—One Blessing is the Closer Unity of the Anglo-Saxon Race.

Considering the warm weather there was a good congregation present at Trinity Reformed church last evening to hear Rev. Dr. Carlos Martyn, of New York, deliver a discourse on the subject "American Citizenship in the Light of Spanish War." A display of a large American flag around the pulpit and of two smaller ones over the organ looked appropriate. Arthur Titsworth played patriotic airs on the organ.

The speaker cited some of the great blessings to be derived from the present war, and among them were a closer unity of the Anglo-Saxon race, a stronger fraternity of the north and south. He said that it is surprising to see the strong expression of affection for Old Glory on the part of southern boys when an opportunity was given for them to put on a suit of blue and fight side by side with their northern brothers.

The great point made by Dr. Martyn was that American citizenship is just the same, whether uncovered in the millionaire or the artisan, and that this country is on the eve of the greatest era ever known. "Let us make our country great," continued the speaker, "and lose no opportunities God has given us. We have shown that we are descendants of worthy heroes, and I believe that we can do even better than the heroes of old."

USED A HORSEWHIP.

McCann Became Exasperated at the Conduct of Waldron.

Lewis McCann and a young man named Waldron, both residents of Lincoln place, engaged in a quarrel last Saturday afternoon which resulted in McCann using a horsewhip to advantage on Waldron. The latter had been continually causing a disturbance around McCann's home and patience ceased to be a virtue, so says McCann. Saturday Waldron resumed his practice and annoyed his neighbors. McCann appeared and attacked Waldron. The young man related what had happened to his father, who appeared before Justice Mattison and made a complaint. McCann appeared in court and after a discussion the matter was settled amicably with the understanding that Waldron is in the future to keep away from his neighbors.

Came Here to Recover Health.

Upon the arrival of the 8:44 Philadelphia train from New York, this morning, Mr. and Mrs. Jackson, formerly residents of this city, alighted from the train and remained in the waiting room for some time. Mr. Jackson was taken ill in New York and his wife was bringing him to the home of her parents in this city. He was apparently quite ill and unable to walk. Later he was taken to the home of his wife's parents on West Fourth street.

Mrs. J. A. Haynes, of North avenue, has returned from a sojourn in Hunterdon county.

A WOUNDED SOLDIER TOLD OF HIS BATTLE.

Member of the Seventy-first Heard at the Y. M. C. A.

HIS ARM CARRIED IN A SLING

PRIVATE KEUHNLE A BRAVE AND CHRISTIAN FELLOW.

He Was in the Assault on San Juan and Underwent a Thrilling Experience, Which Resulted in His Crawling From the Battlefield With the Bone in One of His Arms Shattered by a Mauser.

Fresh from the stirring scenes in Cuba, Private Fred Keuhnle, of Co. D, Seventy-first Regiment N. Y. Volunteers, has taken up the work of saving souls which he laid down to go to the front at his country's call. Private Keuhnle was a worker in the Christian Mission, in New York, and at the request of the Y. M. C. A. came to this city yesterday afternoon and addressed the young men's meeting.

The message he brought with him was sincere and from his heart. While relating his experiences at the battle of San Juan Hill, in which he received a bad wound, Private Keuhnle deeply interested his hearers, and urged them to prepare their hearts so that they would not be afraid to meet death, whether it comes on the battlefield or elsewhere.

The speaker is rather tall and as he addressed the meeting, clad in the army uniform, with his right arm in a sling, his soft and well-modulated voice made a deep impression. He told about his experiences on June 30th which was the day before the memorable battle. He and several other privates went away from camp to Siboney early in the day, on special duty, and upon their return found the camp in a turmoil, each soldier packing up three days' rations, a piece of bacon, forty two hardtack and some coffee, and preparing to take the field.

Early the next morning, the speaker said, they were on the way to San Juan Hill. After a march of ten miles over a rough country, the Seventy-first reached the scene of battle. Private Kuehnle was deployed in the skirmish line, and some part of his person was struck by the Spanish bullets three times.

The first was only a flesh wound on one of his lower limbs; the second bullet went through his hat, narrowly missing his head, and the third struck the bone in his right arm, shattering it and giving him intense pain. Through a boggy country, his whole body aching and paining from his wound, Kuehnle made his way back to Siboney, where his arm was dressed by surgeons on the hospital ship in the harbor. Later he was sent home to New York.

The attendance at the meeting was very large, and close attention was paid to the speaker. At the request of F. H. Martin, who led the meeting, Kuehnle made a few supplementary remarks after he had given his address, and described at length the famous battle. He also showed a handful of Mauser cartridges, and compared them with one of those used by the Volunteers. The latter are much the larger and more deadly.

War is a terrible thing, he said, but the hand of God is in it as well as in times of peace. He said that many of the boys who formerly spurned religion, were only too glad to listen to him in camp as he read from his little Bible, stained with his own blood from his wound, and which was more precious to him than gold because of its associations. He said that his miraculous escape from death, when men were falling all around him, was due to God's care over him.

Camp Life is Easy.

Private George Bolsterli, of Company K, Third New Jersey Volunteers, returned to duty at Fort Wadsworth this morning after a forty-eight hour furlough. He says that camp life, at present, is comparatively easy. They have plenty to eat and it is pretty good. At first, when the cooks were not accustomed to the work, the meals were not very pleasant, but they have greatly improved and are all that can be expected in army life.

Complaints About a Street.

The bad condition of West Fourth, from New street to Liberty, is becoming a common cause of complaint of the property holders along that thoroughfare, particularly now that the street has been macadamized from New street east. The gutters are filled with water continually, and the street is scarcely passable for a wheel except between the car tracks where the ground is hard.

CHRISTIAN WOMAN DEAD

MRS. W. C. BURT PASSES AWAY AFTER A TEDIOUS ILLNESS.

Death of Her Husband Was a Shock From Which She Never Fully Recovered—She Was Active in Church Work.

After a prolonged illness, Mrs. Sarah Maria Burt, widow of the late Wm. C. Burt, passed away this morning at her home on West Seventh street. The end came very quietly and peaceably. Mr. Burt died a little over a year ago. His death was a great shock to his wife who never fully recovered. She has been confined to her home for several months.

Mrs. Burt was born in 1845 in New York. She was the only child of the late Chauncey Shaffer, one of the best known criminal lawyers of his time. She was married to Wm. C. Burt, who held the position of teller in the Seaman's National Bank in New York up to the time of his death. They moved to this city twenty years ago and have lived at their present residence, 912 West Seventh street, ever since.

Mrs. Burt was one of the prominent workers in the Monroe Avenue M. E. church and took an active interest in the growth of the church from the chapel until her ill health prevented. Before the chapel was started she was a regular attendant at the First M. E. church. Her membership was afterwards transferred to the Monroe Avenue church.

Mrs. Burt leaves eight children, Warren S., of New York, Clara M., Florence G., Chauncey H., Edith L., Amy G., Jessie A. and Charles C., of this city.

Mrs. Burt has a large circle of friends in this city, among whom she will always be remembered as a Christian woman, a true wife and a kind and loving mother.

WORKED TOO HARD FOR UNCLE SAM.

Arthur Jackson Broke Down Under Too Hard Work at Newport News.

Arthur Jackson, a middle-aged man, whose residence was formerly in this city, was brought home this morning by his wife from Newport News, Va., where he has been employed as a machinist for the Government. The rush of work has kept Jackson busy and his health droke down. His wife has been living at Newport with her husband and when the crisis came she nursed him and finally decided that it would be better for him to come north. The couple arrived in Plainfield this morning on the 8:44 Philadelphia train from New York. It was with difficulty that Mrs. Jackson was able to get her husband from the train to the waiting room at the station.

She decided to have him removed to Muhlenberg Hospital, where he is now being cared for. There is a suspicion that Jackson has typhoid fever, but the physicians in charge have not yet determined that to be a fact. The case will have to be watched for a few days to await developments. Jackson is a large man and looks as though sickness had considerably reduced his weight.

DIED AS HE REACHED MANHOOD.

Max Miln, a Promising Young Fellow, Couldn't Survive Appendicitis.

Max Miln, grandson of E. V. Shotwell and nephew of J. J. Shotwell, of this city, died at his home in New York yesterday. His death was caused by appendicitis. He was just of age.

He lived here for a number of years, residing on Central avenue. Five years ago he, his mother and two sisters, moved to New York. His mother died in New York two months ago and was buried in this city. His sisters are still living. Both are unmarried.

The remains will be brought to this city, where the funeral will be held. Notice of the funeral will be given hereafter.

Max Miln was well-known here and had a large circle of acquaintances among the Plainfield young people. He attended the Plainfield High School while living here.

Enjoyed Fifty Years of Married Life.

The funeral services of the late Mrs. William Rebmann, of South Stirling, were held at the Mt. Horeb Congregational church yesterday afternoon. They were largely attended by friends from all that section. Mrs. Rebmann was seventy-nine years of age. Last year Mr. and Mrs. Rebmann celebrated their golden wedding which was made the occasion for a great gathering of relatives and friends.

Fell From a Building.

Charles Wilson, of West Sixth street, the young son of Charles M. Wilson, the builder, fell from a scaffold while working on the Hygeia Ice Company's new plant Friday and injured his hand. Wilson fell fifteen feet, and cannot raise his hand on account of its being badly sprained.

NEW CANDIDATES IN LOCAL STABLES.

Made Good Showing at Saturday's Matinee Races.

WOVEN WIND'S VICTORY.

IT WAS RATHER LATE WHEN THE HORSES WERE STARTED.

Judge Coddington's New Gelding Did Some Fast Work, But Was Beaten by a Nose by Osborn's Charge—Three-Minute Event Postponed a Week—Fast Horses and Some Close Finishes.

The prospect of something new in the contests between the local horses brought out a large attendance at the matinee races at the Gentlemen's Driving Park. The event announced for the day, the contest in which the different horsemen were to see who could drive the mile nearest to three minutes, was postponed a week on account of the absence of J. W. Johnson, president of the Driving Club. Instead, there were a number of matches arranged that furnished plenty of excitement.

There was some delay in starting the racing and it was 3:30 o'clock before the horses were out on the track warming up preliminary to the fast work. W. F. Williams, secretary of the Driving Club, acted as starter. Thomas Brantingham and Bert Darby were the judges.

There were a number out exercising during the afternoon before and while the matches were in progress. Robert Fairbairn's fast pacer, "Paul," 2:07, was out warming up under the guidance of Blume. C. C. Brower had Will Thiers' trotter out for an exercise mile that was made in 2:47. Frank Edwards drove "Mollie Prince" for several turns but took no part in the contests of the day.

Former Judge W. A. Coddington had his new brown gelding, "Sam B," out on the track, Brower up. He was matched against Douglass Darby's "Sunday." It was evident that the Judge's horse outclassed Darby's for Brower obtained a lead early in the heat and had to hold "Sam B" most of the time. He won easily in 2:28. In the next heat, the Judge substituted "Belle" for "Sam B." "Belle" won in 2:33½. In the next heat, "Belle" broke constantly and Darby won in 2:33.

One of the closest finishes of the day was seen in a heat between N. B. Smalley's recent purchase, "Katie Rue," a pacer, and Woodbrook Farm's "Woven Wind," driven by John Osborne. All the way around the track they kept together, most of the time neck and neck. Osborne drew a little in advance on the last half but Smalley came up on the turn and they came down the stretch, "Katie Rue's" nose at the throat latch of her opponent. "Woven Wind" took the heat in 2:29½.

Another new horse, John G. MacLaughlin's "Charles Tammany," driven by "Jersey" Campbell, and Judge Coddington's new trotter, "Sam B," started with those two horses in the next heat. It was another close finish but this time "Woven Wind" and "Sam B" were in the lead. They came down the stretch in great shape, Osborne's charge winning by a head. MacLaughlin's horse took third after a dash with "Kitie Rue." The time was 2:28½. That ended the racing for the afternoon. Next week, unless something unforseen happens, the three-minute contest will be held. Already there is a prospect of a large number of contestants. A prize has been offered by President Johnson who is also expected to drive one of his own horses.

It has been decided to have the three-minute contest next Saturday afternoon. The event will be open only to horses owned by members of the Plainfield Driving Club, owners to drive.

All who wish to take part in the event are requested to send their entries to W. F. Williams, secretary, corner of Somerset street and Jackson avenue before Friday.

No entries will be received after that time, and no one will be allowed to contest who has not duly entered.

Wheelmen Were Mixed-up.

Before the race meet at Maltby's track Saturday afternoon, there were a number of riders out on the track. Owing to some careless riding of the men in front of the bunch, there was a collision on the far-stretch and Lindley M. Hillman, of Sherman avenue, was thrown heavily from his wheel. He struck on his head, but was not seriously injured.

Mr. Blazier, of Grove street, in the employ of Woodhull & Martin, is taking his summer vacation out of town, accompanied by his wife.

SPAIN WANTS PEACE

Terms and Conditions Imposed by the United States Accepted.

REPLY IS SENT BY CABLE

A Conference With the Queen Regent Held at Noon Yesterday. A Cabinet Meeting at Night at Which the Final Approval is Recorded. The Answer is Drawn Up by Spain's Minister of Foreign Affairs.

Madrid, Aug. 7.—Senor Sagasta at noon concluded his conference with the queen regent, who approves the general line of Spain's answer to the United States' peace terms.

The council of cabinet ministers called to draw up a reply to America's peace terms held a meeting in the morning and adjourned until six Sunday evening.

Senor Sagasta went at once to the queen regent and submitted for her approbation the reply to the United States as approved by the cabinet.

The city and the entire country are quiet to-day and there are no premonitions of an outbreak.

The cabinet yesterday approved the basis of the reply to the peace conditions proposed by the United States.

Duke Almodovar de Rio, the minister of foreign affairs, was charged with revising the reply, to be read and approved at the cabinet council.

It is stated on good authority that the Spanish reply will give no occasion for further response from the United States.

Spain Sends Reply.

Washington, Avg. 8.—Spain has sent her answer to the United States.

She accepts the conditions laid down by President McKinley as precedent to negotiations for peace.

It is expected by leading officials of the Spanish government that hostilities will cease within a day or two and an armistice agreed upon.

The Spanish ministers believe the negotations for a final and permanent peace will begin within ten days, the selected representatives or commissioners of the two governments meeting in Paris in the latter part of August and discussing the matter in controversy with each other directly and without the assistance of French diplomacy.

It is even hoped that the negotiations will be completed before the opening day of the fall sessions of the Cortes, and that the peace treaty will have been agreed upon by the middle of September.

Besides the fate of the Philippines the mixed commission will discuss any other point which either side may bring up, and which was not included in the preliminary conditions stated by President McKinley as prerequisite to the consideration of any proposals for peace.

The Spanish commissioners will undoubtedly strive to convince the American commissioners that it would be manifestly unfair to saddle Spain with the $350,000,000 bonded debt of Cuba, imposing upon her a burden she is ill prepared to assume in her present half bankrupt state. They will urge that this would be unfair to the holders of Cuban bonds in France and other European countries, and there is a hope at Madrid that some of these countries may try to influence the United States to this view.

The Spanish commissioners will not ask that the United States shoulder this debt, nor even that the United States shall become sureties. What they will ask is that Cuba be made to pay this enormous load of debt, nearly the whole of which has been incurred by Spain in her efforts to maintain Spanish rule in Cuba. It will be urged that the United States, in the character of protector of Cuba in her new independence, might, without effort or prejudice or injustice, compel Cuba to assume the debt.

Meanwhile it will be offered, until the island government is thoroughly reconstructed, and her resources are sufficient to meet the obligation, Spain will advance money enough to pay the interest and the monetization of the Cuban debt.

This is the plan as it is skillfully spread before the Spanish people by the Imparcial, in an inspired article.

The Spanish cabinet agreed upon the form of the acceptance of the American conditions after the most remarkable wholesale consultation with political leaders of all shades of politics, high army and navy officials and leaders of thought.

It was an adroit coupe which Premier Sagasta accomplished. To each of these great Spaniards called in council was put the question:

"If an acceptance of the conditions does not meet your approval, will you kindly formulate a better way out of the dilemma?"

And at the end of thirty-six hours of consultation Senor Sagasta was able to say that not one of his callers had been able to offer a more agreeable solution of the problem confronting Spain.

A few men had stood aloof, refusing the invitation to the general conference. Among these was Weyler.

Every point but one was carried by Senor Sagasta's clever play, and that one is causing the government much mortification and annoyance. Many of the high personages called in consultation, though they offered no better plan than that informally agreed upon, did not conceive that they would prefer to place the peace negotiations in the hands of a stronger government, even a government taken from the iberal ranks, and that a majority of those called in consultation urged the immediate convocation of the cortes in order to ventilate the delicate question of responsibility for the present situation and for the war. The generals opposed this and offered the acceptance of the peace terms. They were in favor of a continuance of the fight.

The outcome of it all was that Premier Sagasta felt that he had assured himself that popular opinion favored peace and that none of the statesmen had any feasible substitute to offer. He felt that he had proved that none of the opposition leaders had any practical plan to offer for the continuance of the war or to secure better peace terms. He had said to the queen that only in the event of one of these two cases would he consent to withdraw from the premiership.

He communicated the result of the conferences to the queen regent, and, having obtained her consent, called a council of the ministers at which a definite reply to President McKinley's note was drawn up and approved.

Senor Sagasta will not resign until peace is concludded. Then he will withdraw, relieving the queen regent from embarrassment and permitting the selection of a cabinet by Senor Silvela for the reconstruction of Spain and such possessions as are left to Spain by the final treaty.

Awaiting the Reply.

Washington, Aug. 8.—That peace is near at hand no official of the administration seems to doubt.

All are universally of the opinion that Spain's answer will be received in a few hours and that it will be of a most favorable character.

No diplomatic fighting over the terms will be allowed by the United States. Spain's answer must be either a full acceptance of the terms offered or a decided refusal.

The government is willing to meet Spain half way, but no further.

An official of the administration said to-day that this government would not attempt to have Spain hurry her troops out of either Cuba or Porto Rico. If the Spaniards remain in Cuba until October 1 the authorities at Washington will not complain.

The reason for this is most evident. President McKinley does not wish to send an American army into Cuba until most of the danger from yellow fever has been eliminated from the campaign.

Sooner or later the secretary of war will direct that not less than 50,000 men be ordered as an army of occupation into Cuba.

The experiences at Santiago have shown the authorities, however, that American troops cannot stand Cuba during the rainy season.

St. John Wants the Job.

New York, Aug. 8.—It is asserted by Joseph L. St. John of No. 310 Broadway, who was the lowest bidder for the government contract to carry back to Spain the prisoners surrendered in Santiago by General Toral, that J. M. Ceballos, to whom the contract was awarded, has forfeited the guarantee of $250,000 which was pledged for the prompt fulfillment of the agreement.

Mr. St. John has made a renewal of his offer to transport the prisoners from Cuba to Spain and expects an answer to his proposition to-day.

His figures were $37.37 for officers and $24.87 for men. The bid tendered by Mr. Ceballos and accepted was much in excess of the figures given, being $60 for officers and $30 for the men.

Eighth Illinois for Santiago.

Springfield, Ill., Aug. 8.—The Eighth Illinois volunteer infantry (colored) has started for New York, where it will be transported by the Yale direct to Santiago. Governor Tanner received a dispatch from Adjutant General Corbin directing that the troops start in time to take the Yale on Tuesday. The quartermaster general has sent to the quartermaster in Chicago instructions as to railroad transportation. The adjutant general says that the principal trouble with the American troops now in Cuba is that they are suffering from exhaustion and exposure incident to one of the most trying campaigns ever known.

Fate of Transport.

Washington, Aug. 8.—Although it was stated at the war department yesterday that no special news had been received concerning the reported wreck of the transport Gussie on the west coast of Cuba, it is said here that the vessel has been heard from.

The story goes that a cable has been received from Porto Rico that the Gussie has arrived at Ponce.

It was generally supposed that the steamer started with troops and supplies for Santiago on July 23.

The Cuban Debt.

London, Aug. 8.—The Madrid correspondent of the Sunday Times says:

Spain's answer will accept all the American terms except that regarding the Cuban debt. The government will fight this point on the ground that in all other cessions of territory by one nation to another, the ceded territory has carried with it its own debt, or the proportion belonging to the nation whence it was ceded.

Canada's Good Feeling Shown.

Ottawa, Ont., Aug. 8.—The Dominion government Saturday granted the request of a section of the Grand Army of the Republic to attend the celebration in Hamilton, Ont., carrying their arms. As soon as the request was made it was answered, the permission being granted with pleasure.

FIRST ARRIVALS FROM THE FRONT.

Forty Officers and Privates Arrive on the Louisiana.

New York, Aug. 8.—With eight officers, thirty-two privates and one camp follower, the transport Louisiana reached ew York Saturday from Santiago.

When the Louisiana was sighted off the Highlands at 1 p. m., it was thought she had on board the first detachment of troops from Santiago for Montauk Point. This was the opinion at Washington, where for five days it had been supposed that the transport had several hundreds of Gen. Wheeler's cavalry aboard. When she was boarded at quarantine by Dr. Doty she reported that she had only forty convalescents, and knew nothing about any orders to bring home a portion of General Wheeler's cavalry. The men on board were overjoyed to know that the troops had been ordered from Santiago and one of them said:

"Thank God! That is the most welcome order the boys ever had. Malaria, typhoid and yellow fever are rapidly killing them off."

The transport is the best of the transport that have arrived in this port. She was as clean as a pin and every man aboard her was in excellent health. Some were weak, but none was ill enough to be reported sick. As a precaution Dr. Doty decided to fumigate the ship and clothing of the passengers.

At 8 p. m. the doctor's boat took off the officers on board, landed them at Clifton, and they arrived in New York at 8.45.

NEW ARMS FOR THE ARMY.

Smokeless Powder and 20,000 Krag-Jorgensens Sent to Porto Rico.

Washington, Aug. 8.—General Miles' army is to be rearmed with Krag-Jorgensen rifles and smokeless powder. The war department has shipped 20,000 of these rifles and the necessary ammunition to Porto Rico. Armed in this way, the American army, should there be a fight at or near San Juan will escape some of the difficulties and dangers which beset their brethren at Santiago.

The arming of these troops with modern rifles and modern ammunition is only the beginning of the change which will extend throughout the entire army. Secretary Alger said today that Krag-Jorgensen rifles and smakeless powder would be furnished the army as rapidly as they could be shipped. He will also send smokeless powder for use in the old Springfield rifles until the new guns are in the hands of every soldier.

Secretary Alger says that the black powder used by the Seventy-first New York at Santiago made this regiment a target for the Spanish fire.

The Red Cross Ready.

New York, Aug. 8.—With the establishment of the camp at Montauk Point, L. I., the Red Cross Society will be in readiness to organize and equip a hospital there, provided Surgeon General Sternberg will accept it. This was made known by Stephen E. Barton yesterday.

At the present time the Red Cross is in readiness to furnish twenty-five nurses for the treatment of sick soldiers. In addition to the nurses, the Red Cross will, if the occasion arises furnish a corps of experienced physicians and surgeons.

Influence of Telegraphy.

"There are more free thinkers in religious matters among telegraphers as a class than any other trade or calling that I know of," observed a prominent electrician to a Washington Star reporter, "and many of them grow to be the most pronounced in their views, without being able to explain it. There is nothing about the telegraph business that is irreligious in any way. Of course, telegraphers have to work on Sunday, but so do printers, drug clerks, railroad men and hosts of others, who, as a rule, stick close to their early religious training. There seems to be something in the telegraph business that cuts men lose, as it were. It may be from he fact that Morse, the inventor of the telegraph, was decidedly independent in his religious views, and that his followers absorb his ideas without being conscious of it. But the fact that there are more free thnkers among telegraphers than in any other calling, in proportion to their numbers, is indisputable. This is no new or sudden discovery. It has always been so, and though there have been a number of explanations given none of them have thoroughly explained as yet."

Little Pitchers.

"I don't think my papa loves me as much as he loves my mamma. Mamma says papa tells her fairy stories. He never tells any to me."—Boston Transcript.

BUT NO EGGS.

Mr. Scratcher—I hear Henrietta is a splendid manager; always planning, etc.

Husband—Yes; she is better at laying plans than anything else.

New Jersey's Greatest Store.

HAHNE & CO.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

Don't wait for announcements in newspapers, but come in and enjoy countless rounds of pleasant surprises. The list includes almost everything, from a Hassock to a Parlor Suit, from a Pin to a Bonnet and a Shirt Waist to a Suit.

WE shall close our store evenings at 6 p. m. and on Saturdays at 12 noon, beginning July 8.

FREE deliveries at all New Jersey railroad stations. No extra charge for packing.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

SHERIFF'S SALE—In Chancery of New Jersey. Between Mary E. Embury, complainant, and Clarence J. Rice, et al., defendants. Fi. fa. for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the court house, in the city of Elizabeth, N. J., on

WEDNESDAY, THE THIRD DAY OF AUGUST, A. D., 1898,

at two o'clock in the afternoon of said day, all that certain tract of land and premises, situate, lying and being in the city of Plainfield, in the county of Union and state of New Jersey:

Beginning at a point in the northwesterly side line of East Second street in line of property belonging to Rockwell; thence running southwesterly along the said northwesterly side line of East Second street a distance of two hundred (200) feet, more or less to the northeasterly side line of Church street; thence along the northeasterly side line of Church street northwesterly a distance of three hundred and fifty (350) feet more or less to the southeasterly side line of East Front street; thence along the southeasterly side line of East Front street northeasterly a distance of one hundred and twenty (120) feet more or less to property now or formerly belonging to Manning; thence with that line southeasterly a distance of one hundred and sixty (160) feet more or less to the south corner of said Manning's lot; thence still with said Manning's property and properties now or formerly of Job Meeker and Mary Wilson a distance northeasterly of one hundred feet more or less to Rockwell's line; thence with that line southeasterly a distance of two hundred (200) feet more or less to the beginning. Together with the land in front of said premises to the centres of East Second street, Front street and Church street, subject to the easement of the public therein as public highways forever. Excepting therefrom the following described two tracts of land, viz: The first tract: Beginning at a point in the northeasterly side fence line of Church street, said point being distant northwesterly one hundred and twenty-five feet from the intersection of the northwesterly side fence line of East Second street with the northeasterly side fence line of Church street; thence in a northeasterly direction at right angles to said Church street and parallel with East Second street one hundred and twenty-five feet to a point; thence northwesterly parallel with said Church street fifty feet to a point; thence in a southwesterly direction parallel with East Second Street one hundred and twenty-five feet to the northeasterly side fence line of Church street; thence southeasterly with said fence line of Church street fifty feet to the point or place of beginning.

The Second Tract. Beginning at a point in the northerly side line of East Second street and in line of land belonging to Rockwell; thence with Rockwell's line northwesterly two hundred feet more or less to property now or formerly of Mrs. Manning; thence southwesterly parallel with said East Second street a distance of fifty feet; thence southeasterly parallel with the first course herein two hundred feet more or less to the westerly side line of East Second street; thence along said line of East Second street northeasterly fifty feet to the beginning.

PLANS AT WASHINGTON

No Abatement of Activity at the War Department.

MOVEMENTS NOW ON FOOT

No Change in Regard to Sending Wade's Army to Porto Rico. Fresh Meat to be Sent the Army Regularly Hereafter. Troops Will Be Detained Before Entering Montauk Camp.

Washington, Aug. 8.—No change has been made in the plan of the government to send General Wade's army to Porto Rico. Although this army is to be sent to Porto Rico largely for political purposes, it may be that the men will be needed. At any rate when the troops return to the United States they will be seasoned veterans, and will make good material from which to draw if it is decided to increase the size of the regular standing army.

The steamer Mohawk, loaded with fresh beef for the army, has reached Porto Rico. From this time on vessels will leave the United States each week for Porto Rico, with fresh provisions for the army commanded by General Miles.

Adjutant General Corbin says that the first large detachment of the Santiago army will reach Montauk Point this week. All the troops will be held at the detention camps for about two weeks before being allowed to go to the regular camp at Montauk Point.

Adjutant General Corbin has cabled General Shafter to direct all the transports bringing troops to the United States to go directly to Fort Pond Bay, Montauk, L. I. They will be unloaded at that place. The United States steamers Resolute, St. Paul and St. Louis have been but at the disposal of General Shafter. He has been especially instructed to take every precaution to prevent yellow fever from getting on the St. Paul and St. Louis. The Resolute is now in Santiago bay and can be used immediately.

General Shafter in a cablegram to Adjutant General Corbin says: "I think five immune regiments a sufficient garrison for the cities of Santiago, San Luis, Guantanamo and the other towns on the north coast which were surrendered."

General Shafter in this same dispatch strongly recommends that General Wood be left in command of the forces at Santiago. He says that the Spanish prisoners are longing for the arrival of the vessels which will take them to Spain.

"The prisoners,' said General Shafter, "are the most orderly, tractable and generally best behaved men I've ever seen."

General Shafter has taken possession of all money and stamps in the branch bank of Spain at Santiago. In the bank there were $25,000 worth of Spanish bank notes and $45,000 worth of stamps. He has been directed to hold this money subject to orders from Washington.

This cable message was sent yesterday to General Miles by the adjutant general: "A part of General Grant's brigade sailed from Newport News yesterday. 1,300 more will sail to-morrow. The secretary of war desires an early report of how many troops, if any, you require to prosecute the campaign in Porto Rico. He wishes to hurry forward every man you require, but no more than you need.

CORBIN."

General Grant has been directed to go to-day in person to Porto Rico. He will sail on the Obdam, which will carry the 1,300 additional troops mentioned by General Corbin in his dispatch.

Secretary Alger has authorized Major General Breckinridge to expend $20,000 for sanitary measures at Chickamauga.

First Sergeant William J. Bishop, of Company C of the Third New Jersey volunteer infantry, has been commissioned by the president as a captain in the Eighth United States volunteer infantry.

The Spanish Poisoners.

Washington, Aug. 8.—The war department looks for the arrival of the first ship to carry Spanish prisoners from Santiago at that point to-day. This will be the Alicante, which left Martinique two days ago. The St. Augustine is expected to reach Santiago on August 14. She is a hospital ship and will relieve the distress existing in the Spanish hospitals. Within the next week the department hopes to see the embarkation of Spanish prisoners well under way.

Dr. Angell Coming Home

Constantinople, Aug. 8.—Dr. James B. Angell, who resigned in May, and who has been succeeded as United States minister here by Oscar S. Straus of New York, had a farewell audience with the sultan yesterday. Dr. Angell leaves here on August 13.

Hobson Goes to Washington.

New York, Aug. 8.—Lieutenant Hobson, accompanied by his mother and sister, left the Waldorf-Astoria Saturday afternoon and wen to Orange, N. J. They remained with friends until midnight, when the lieutenant proceeded to Washington.

New York State Democrats.

New York, Aug. 8.—State Democratic committee will meet at Saratoga Thursday. It seems probable that they will fix upon October 4 as the date for holding the state convention.

ARMY MOVEMENTS ON THE PACIFIC.

Two Transports With Volunteers Sail from San Francisco for Honolulu.

San Francisco, Aug. 8.—The transport steamers Lakme and Charles G. Nelson, bearing five companies of the First New York volunteers and the Second United States volunteer engineers, sailed for Honolulu Saturday. The ship Tacoma, with horses and mules for the Philippines, for the use of the United States forces, started for Manila, but later was detained in the harbor for a few necessary repairs.

Colonel J. C. Loper in command of the Fifty-first Iowa volunteers, has received a telegram from Congressman Hull of that state advising him that his regiment certainly would be sent to Manila. As soon as the news was communicated to his command the band paraded through the streets of the camp.

The ships of the first transport fleet to Manila are expected to return in about ten days, and, with the Scandia and Arizona, will form the second expedition for Manila, which is to be in command of Brigadier General King. The Scandia and the Arizona will take the Seventh Arizona regiment, two battalions of the Eighteenth and 23rd regiments and 900 recruits for the regiments which have departed. Before September 15 all of the troops in camp here probably will have been dispatched to Manila, for, with the return of the first transport fleet and its second departure, the bulk of the men in camp will be taken care of.

The second fleet probably will return before the end of August, and these ships, consisting of the China, Colon, Zealandia and Senator, will more than suffice to take the troops remaining in camp after the Australia, Pekin and Sydney have sailed.

NEWS FROM EASTERN CUBA

Sampson Anxious to Take Aggressive Action on the South Coast.

Playa del Este, Cuba, Aug. 6, evening.—The auxiliary cruiser St. Louis has arrived here from Porto Rico under orders to assist in taking the United States troops home from Santiago. Captain Goodrich, however, thinks his ship is too long to enter the harbor and he will remain here until the matter is settled.

The transport San Juan arrived from Santiago with troops and provisions and proceeded for Caimanera. The Armeria has sailed for Key West.

The fleet still remains here awaiting orders from Washington.

Rear Admiral Sampson expresses the hope that the peace negotiations will come to a quick conclusion. He is anxious to take aggressive action on the south coast without delay, or, in the event of peace being concluded, immediately to relieve the suffering imposed by the rigor of the blockade. Throughout the campaign Admiral Sampson's keen appreciation of the sufferings of the half starved Cubans and his endeavors to afford them relief have been a marked feature.

The Potomac has recovered $10,000 from the Infanta Maria Teresa, which was driven ashore at the time Admiral Cervera attempted to escape from Santiago.

The transport Resolute, with marines aboard, is still here. The shore is deserted, save for the cable operators, and the marines who are on guard.

Relief for Shafter's Army.

Philadelphia, Aug. 8.—The steam yacht May, carrying sixty tons of supplies sent by the national relief commission to the American army in Porto Rico, left pier 28, this city, at daybreak Saturday. The May is the property of Mr. and Mrs. Alexander Van Rensselaer who placed the yacht at the disposal of the national relief commission about a week ago.

The luxurious state rooms and the dining room were converted into freight rooms and piled high with boxes of food and barrels of bacon. The cargo of the May includes all kinds of medical supplies and surgical instruments, all sorts of edibles, underwear, stockings, 300 pairs of shoes, 500 pajamas, port wine, blackberry brandy, 100 hammocks, 50 distilling plants, each capable of furnishing fresh water daily sufficient for a company, smoking tobacco and corn cob and briar root pipes, an ice machine and plant having a capacity of 500 pounds of ice daily and cold storage facilities; 500 flags were also taken.

Ice Plant Donated.

Washington, Aug. 8.—Some time ago Nathan Strauss of New York wrote the war department offering to furnish an artificial ice plant, capable of producing thirteen tons of ice a day, and the apparatus necessary for filtering twenty thousand gallons of water a day. In addition to the machinery itself, which Mr. Strauss offered for the use of the American soldiers at Santiago, the offer included the salaries of the men to operate it. The offer has been accepted by the department. These associated with Mr. Strauss in making the offer are J. Pierpont Morgan, Perry Belmont and President Stewart of the United States Trust Company.

Park Board's Offer Accepted.

New York, Aug. 8.—President Clausen of the park board has received a letter from Surgeon General Sternberg accepting the offer of the park board of the use of the West End hotel, in Fort Washington Park, near Washington Heights, for convalescent soldiers. The offer was made several days ago by President Clausen. A number of prominent citizens in the neighborhood of the park offered to furnish the hotel for the accommodation of the soldiers.

NEWS FROM GEN. MILES

The Conquest of Porto Rico Proceeds Very Smoothly.

A SLIGHT FIGHT REPORTED

The Krag-Jorgensen Rifles Are Being Distributed. Army Will Move on San Juan by Two Ways. The Surrender of Guayama. Three Americans Slightly Wounded and Several Spaniards Shot.

Ponce, Porto Rico, Saturday, via St. Thomas, D. W. I., Sunday.—The troops are moving forward. General Wilson's headquarters have gone to the front. The cavalry and artillery follow.

Most of the rations and equipments have been landed.

Several reconnoitreing parties of the Sixteenth Pennsylvania were fired upon by Spanish pickets to-day, but were uninjured.

Krag-Jorgensen rifles to arm the volunteers have arrived and are being distributed as rapidly as possible.

General Guy V. Henry commands a separate expedition and our troops will move on San Juan by two ways.

While reconnoitreing near Cosma last night Major Flagler was fired upon by Spanish pickets. Thirty shots were fired, but without effect.

Later particulars show that the capture of Guayama by General Hains was accomplished after a sharp skirmish outside the town with four hundred Spaniards, in which three Americans were wounded.

Our men had to fight their way through Spanish bullets in order to get into the town, and they were forced to repel an attack made by the Spaniards soon after the town had fallen. This they did with marked success.

All of the three Americans who were wounded in the skirmish before Guayama are privates in the Fourth Ohio regiment. John O. Cordner of Company C, was shot in the right leg below the knee; C. W. Riffee of Company A was shot through both thighs and W. Walcott of Campany D was injured in the foot. None of the men is dangerously hurt. One dead Spaniard and two wounded have been found by our men. It is not known what other casualties the enemy had.

The Fourth Ohio, Colonel Coit, and the Third Illinois, Colonel Bennitt, with two dynamite guns, all under the command of General Hains, composed the expedition that moved out on the Guayama road from Arroyo at eight o'clock in the morning. General Hains ordered his men to advance cautiously and their progress was slow.

When the Americans had reached a point about three miles from Arroyo they were viciously attacked on both their right and left flanks. Colonel Coit's Ohio troops, who were leading the advance, were splendidly handled and did splendid work against the enemy. The Spaniards for a time managed to conceal themselves behind barricades, but the Americans soon got at them and poured a terrific fire in their direction.

It was impossible for the Spaniards long to withstand this fire, and they soon retreated.

As the American troops entered the town they found it practically deserted. All of the houses had been closed and the Ohio regiment raised its colors over the town hall.

A crowd of citizens soon gathered about the invading troops and welcomed them with enthusiasm.

While this demonstration was under way the Spaniards returned, making a heavy attack on the town from the north. The Fourth Ohio was sent out to engage the enemy and a hot fight between the two bodies of troops took place during the next two hours. Two dynamite guns finally were put in position by the Americans and five shots were fired. These completely silenced the enemy, and our men are now holding the town securely.

General Hains has been very considerate in his treatment of his men and has matters here well in hand. He says he does not need reinforcements at present in order to retain the advantages gained in the day's operations.

The conduct of the Ohio men under fire was admirable. When the first attack came they displayed no evidence of nervousness. Being armed with Krag-Jorgensens, they considered themselves a match for the Spaniards.

The dynamite battery, in charge of Captain Totter, Company F, Fourth Ohio, did excellent service.

United States Consul Hanna has received information that the foreign consuls at San Juan, the capital of Porto Rico, advised the Spanish authorities to surrender the island to the American troops. The Spaniards, however, in reply, announced that they had resolved to fight. Thereupon the consuls notified the Spanish commander, Captain General Macias, that they would establish a neutral zone between Bayamon and Rio Piedras in which to gather the foreign residents and their portable property, in order to insure their safety in the event of a bombardment of the place by the American forces.

The consuls sent a similar notification to General Miles. In spite of this brave talk, it is understood that the Spanish officers of minor rank have refused to fight or imperil their lives in defence of San Juan.

Earthquake Shock in Sicily.

Messina, Sicily, Aug. 8.—There was a severe earthquake shock here yesterday morning. The inhabitants were panic stricken, but no damage was done.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

Watch New Brunswick.

Here and there once in awhile we hear of women being given the advantage of the ballot in school elections. Usually the privilege is accepted and fulfilled in a thoroughly conscientious way by the fair ones, who, if they are capable of management of any sort of public affairs, certainly should show their ability in school matters.

Strange as it may seem we hear of women's emancipation over in New Brunswick—a place with a reputation for political ways that are as dark and as crooked as any section in New Jersey. Woman's influence is not generally welcomed in public affairs where politicians of the Brunswick stripe hold forth, but however their recognition may have taken place it is a fact that H. Brewster Willis, County Superintendent of Public Schools, has decreed that the women have a perfect right to participate in the action of choosing a site for the new public school building to be erected in that city.

The decision of Superintendent Willis has aroused considerable interest. We doubt not but what the women will acquit themselves at the election in a way that will show that they have got more gumption than a good many of the men whose right to a vote has never been questioned.

Predicament for the Freeholders.

The proposed widening of the county road and the construction of a trolley road thereon has already developed contrary phases in two communities whose interests in the proposed improvement would seem to be identical. While in Cranford the citizens are bitterly opposed to the widening of the thoroughfare, on the ground that the damages will exceed the benefits, in Westfield an opposite condition of the public mind prevails. Westfield is just as bitterly opposed to the plan which leaves North avenue at its present width through that town as Cranford is opposed to the project of widening the same street through that place.

The opponents in both towns are prepared to fight the scheme on their own lines of argument, and thus it would seem that the Board of Freeholders are between the devil and the deep sea.

As Citizen and Capitalist.

John Kean is a shrewd business man if he is anything, but that trait does not of necessity mean that he is remorseless in driving a bargain with the people in acquiring public franchises or using his wealth for the advantage of the community in which he lives. At least that bright writer who conducts the "Freeholder" column in the New York Press doesn't think so. Here is what he says of Mr. Kean as a citizen and a capitalist:

Union county is playing in great luck to have John Kean as a citizen. Offering a fortune for a trolley franchise is not the first specimen of Mr. Kean's generosity toward his native heath. When he took the Elizabeth bonds under 3 per cent. when other capitalists wanted more, he exhibited his practical goodwill and helped to place the old town on her feet again.

Fiery Emma at Summit.

The weavers in the silk factory at Summit, who are dissatisfied with the treatment of a couple of their coworkers, and are becoming agitated in a way that threatens trouble for the proprietors of the mills, have resorted to the poorest plan that we know of to have the matter adjusted amicably and in their favor. That is by the invitation of the notorious Emma Goldman to address them. The anarchistic harangue which the fiery Emma is capable of delivering bodes no good to laborers who are inclined to be dissatisfied with their present conditions.

What Fame Can Do.

Lieut. Hobson has secured everything in the way of fame. Having won the admiration of the wide world for his heroism in the sinking of the Merrimac, he has lately been kissed, the smack of which was heard at least half way around the world, and now, to cap the climax, we have the chance to drink a foaming glass of soda water known as "Hobson's Kiss." Indeed, fame brings with it many tribulations.

Not For Rent Receipts.

Receipts for money paid for rent which were supposed to require a 25-cent revenue stamp, it is now stated will not require stamping. This matter has caused considerable anxiety.

American Ordnance.

Among the improvements made in American ordnance none has excited the interest and hopes of experts equally with the Brown segmental tube wire gun now building in its larger and smaller sizes at Reading, Pa. This remarkable invention returns in its primitive idea to the original form of the cannon. The artillery used by Mohammed II at the siege of Constantinople by the Turks in 1453 and by Edward III of England in his French wars consisted of iron staves hooped together. Mr. Brown builds his cannon of steel segments, fitted together on beveled planes to make a circular core. This core is wound with square steel wire under a high elastic tension. A rifled firing tube, which can be removed when too much worn, is inserted in the core, and the breech is blended with a solid steel jacket shrunk on. Assuming that the work of the gun is equally effective with that of the solid built up gun now mostly in vogue, it has several great advantages in construction. Every part of the gun can be thoroughly tested in building, which is impossible with the forged gun. It can be built in many private plants throughout the country and with great rapidity at pressure of need, whereas the solid gun demands special equipment of enormous value. Its cost is less than half of that of the ordinary gun.

As to its power of work, the tests already had under the supervision of government are most convincing. As compared with other guns, the Brown gun will show (on the basis of the 5 inch gun already tested) in its 10 inch form a muzzle energy of 38,410 foot pounds and muzzle velocity of 2,998 feet against 15,531 foot pounds and 2,099 feet respectively of the 10 inch naval gun now in use. The Brown gun, on account of its relative power of resistance to powder pressure, can easily be carried up to 4,000 feet of muzzle velocity. The 10 inch gun is claimed to be superior to even our 13 inch solid gun as an effective tool of destruction. There is no gun in the world which can compare with the Brown gun, so far as tests have been made, in muzzle, energy and velocity, in strength, in cheapness of cost and rapidity of building. The wound wire system has been adopted in England by the Armstrongs with great success, but in a degree far less than that attained by the American inventor. The company are now building a 10 inch gun and twenty-five 5 inch and twenty-five 6 inch rapid firing guns for our government. If the final tests soon to be made at Sandy Hook proving ground equal the acknowledged success of the 5 inch gun already proved, the Brown system will revolutionize the big ordnance of the world and another triumph of American mechanical genius be added to a long and splendid procession.

The recent Confederate reunion at Atlanta was one of the most interesting occasions in the history of that progressive city. The hotels, railways and all the abundant means of southern hospitality were taxed to the utmost to entertain the many thousands of visitors who thronged there to renew their memories of the great war. It is probable that America's new war, which brings north and south together under such different conditions, had something to do with the enthusiasm of the occasion. Allusions in the speechmaking, pointing the antithesis that while sons now fight side by side the fathers faced each other in battle, were received with the wildest applause. The north feels now the heartiest sympathy with these occasions. Mutual pride in each other's valor during that fierce struggle is the dominating sentiment. Forty years ago that famous phrase, "Mason and Dixon's line," occurred every day in the newspapers. Every one, from 16 to 60, had it on the tip of his tongue. Now most people would needs stop and think to realize its meaning. That line has been effaced from mind and fact. Soldiers' meetings have been very effective in this effacement.

It isn't every one named Schley who always hits the mark and never wastes powder. Miss Jessie of that cognomen, reputed to be a distant relative of our fighting commodore, has been snubbed by Queen Christina at Madrid for asking an interview that she might suggest peace proposals. The queen regent did not wish to complicate affairs doubtless, as she herself was on the verge of popping the question to President McKinley.

Now that Mr. Ferdinand W. Peck of Chicago, a man of great ability and experience, has been appointed commissioner general to the Paris exposition of 1890, we may expect energetic action in providing for an adequate American representation at the great show. There should be no delay, for it will take the full 18 months of preparation to do justice to our great land, the mightiest producer among nations.

President Andrews, who at one time was requested by the trustees of Brown university to resign, "has finally found a congenial position as superintendent of public instruction" in Chicago. From the standpoint of responsibility and influence this change must be considered promotion. To direct the public school system of so great a city, with its million children, is to outrank even a college president.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

We do not know Adam Fritz, the Plainfielder who was arrested last week for profane swearing, but we known altogether too many young men and boys in Westfield who are guilty of the same silly, senseless, and wicked habit. It might be a good idea if a few of these fellows were made to feel that there is a State law as well as a Divine law against it.—Westfield Republican.

* * * * *

So far-reaching will be the benefit of a two-track trolley system between Elizabeth and Plainfield that its construction should be completed at the earliest possible date. The larger city will not draw trade from the smaller one, but each will attract a larger class of purchasers from the intervening villages, while the pleasure which a ride through the richest section of Union county will more than repay the thousands who will patronize the Westfield avenue line for no other reason. As a rule suburban trolley lines are not paying more than the interest on the investment, but this particular branch of the great system in this State will give promise of rich returns to its projectors within a few years.—New York Press.

* * * * *

The bottom appears to have fallen completely out of the patriotism of the people of Plainfield. There was a time when their love of country spouted like a geyser, but that was "befo' the wah." Then they were falling over one another to get into the service of Uncle Sam, but when the time came for putting on soldier clothes the Plainfield contingent of fighters was not to be found. Their courage had fallen. And now it is said that they are refusing to pay the cost of erecting a 50-foot liberty pole. The City Council appropriated $150 for that purpose, but the work cost about twice that amount. The merchants had promised to furnish the excess, but they haven't yet found their pockets. What can be the matter with the Plainfielders? Haven't they found out that New Jersey has been admitted to the Union?—Trenton State Gazette.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

"The noblest Roman of them all." John L. Sullivan, will appear at Stillman Music Hall next Friday night. This is his first visit to our town, but year after year he makes his appearance in all the big cities, and is always a welcome visitor. Others have tried to follow in his footsteps, but all have failed, for a favorite Sullivan is a wonder. This is his debut in a vaudeville line, and he is making it a success long to be remembered. The farce "A Trip Across the Ocean" is extremely funny in itself, and when seen in the hands of such comedians as Begley and Lee, Francis and Lowry, and Pitching Brothers, it is declared the funniest half-hour of mirth and jollity ever spent. John L. is introduced as the captain, and he is a picture in his natty yachting suit.

—One week from next Thursday Franklin Council, No. 41, Jr. O. U. A. M., will run an excursion to Asbury Park, rain or shine.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 8.—During the past three nights the borough has been without electric lights, and the residents are beginning to think that they would like to have lights again. Manager Sebring will no doubt attend to the matter and soon have the system working satisfactory.

A very successful sale of homemade ice cream was held Saturday afternoon under the auspices of the W. C. T. U. in their rooms on Washington avenue. During the afternoon a large number of friends of the union called and patronized the affair. Those in charge consisted of Mrs. Vail, Mrs. Gise, Mrs. Lowe and Mrs. Todd. The sale was given for the benefit of the union, and a goodly sum will be realized.

Last Saturday afternoon there was bowling on the green at the home of Mr. Schepflin, and there was a good attendance of the members. The play was excellent and good scores were made by all who bowled. The day was a perfect one, and the genuine hospitality of the host was proverbial.

Mrs. Charles Carpenter received word Saturday telling her of the death of her mother, who lived at Pennington. Mrs Carpenter left at once for that place, and will remain there until ater the funeral.

The Electric Light Company has decided to replace their old poles with longer ones, and thus the present difficulty with the wires coming in contact with the trolley wire will be overcome.

Mrs. Lottie Taylor has returned from Bayonne, where she has been spending six weeks. She was accompanied by Miss Ira VonBuskirk, who will visit her for awhile.

The trolley officials visited the town Saturday afternoon and held a conference. It is expected that cars will be running through the borough this week.

Mrs. Clarence Oakley, of New Brunswick, who has been visiting Mr. and Mrs. R. J. Swackhamer, of Church street, has returned home.

Mr. and Mrs. Manning Randolph, of Piscataway, have been visiting Mr. and Mrs. A. N. Randolph, of Washington avenue.

Mrs. Florence Matthews has returned to her home in Brooklyn, after spending two weeks with Mrs. Charles Dickason.

Miss Mary Martine and Miss Lizzie Martine, of Church street, are spending the month of August at Nyack, N. Y.

Mrs. Josephine Dunham has returned from Asbury Park, where she has been spending a week.

Mr. and Mrs. Calvin H. Rugg, of North Plainfield, have been visiting borough relatives.

G. W. Churchill, of Asbury Park, who has been in town on business, has returned home.

W. H. Terry has returned from Metuchen, where he has been visiting his mother.

Miss Dunham, of Sandford avenue, Plainfield, has been visiting friends in town.

Mrs. DeWitt Smith, of Somerville, has been visiting relatives on Church street.

Miss Emma Marlow has returned from a visit with friends at Peekskill, N. Y.

Charles Mattis and Miss Carrie Fisher are visiting at Saratoga, N. Y.

The Misses Marlow have been entertaining Fred Richter, of Roselle.

Charles Carpenter has returned from a business trip to Easton, Pa.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 8.—Yesterday, Rev. Frank Fletcher, pastor of the First Baptist church, went to Scotch Plains and officiated at the Baptist church in that place. In the morning a communion service was held.

Rev. Frank Fletcher and wife have not gone to the seashore, as reported in the News of Plainfield, neither do they intend going for any length of time.

Tomorrow afternoon the Piscataway Township School Board will meet at Nelson's Hotel.

A literary meeting was held at the Seventh-Day Baptist church last Saturday evening.

The Misses Gaskill have been visiting friends in Plainfield.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, August 8.—John Stillger has returned from a pleasant trip to Maine.

Rev. Frank Fletcher, of New Market, occupied the pulpit in the Baptist church yesterday morning and also preached at the union service in the Methodist church last evening. Mr. and Mrs. A. D. Budon entertained Mr. Fletcher during his stay in town.

Mrs. Monte and daughter Miss Florence, who have been spending two weeks with Miss Susie Parse, have returned to their home in Brooklyn.

The chattel mortgage sale of Clark against Taintor & Hunter, the liverymen, will be held at Walpole's Hotel Thursday, August 18th.

Arthur Chapin won second prize in the one-mile bicycle race held at Maltby's track Saturday afternoon.

Frank Putnam, of Plainfield, spent Sunday with Mr. and Mrs. A. L. Frentz.

Miss Alida Hueston, of New York, visited relatives in town Saturday and Sunday.

John Wade has returned from a visit with his grandparents at Lyons Farms.

Mr. Virtue, of Newark, spent Sunday with his family at Mrs. Hosinger's.

LINCOLN.

(Special Correspondence of The Daily Press.)

Lincoln, August 8—Henry Herlick, of Warrenville, visited friends here during the past week.

Mrs. Peter Schultez, of New York, was a visitor at the home of Mrs. Gearing Wednesday. She returned home Thursday accompanied by her daughter Etta, who has spent the past month with her cousin, Miss Lizzie Gearing.

Mrs. Olivia Hazard and daughter Ethel, of Buffalo, are guests of the former's aunt, Mrs. W. H. Smock, during the present week.

C. F. Wortman, of Dunellen, has been engaged as coachman for Mayor Drake.

M. H. Close and N. M. Giles visited Trenton during the past week.

WESTFIELD.

(Special Correspondence of The Press.)

The Westfield Club baseball team was defeated by the Arlingtons, of Rahway, Saturday by the score of 7 to 4. George Bolsterle, of Plainfield, who is a member of Company K, Third Regiment, played with the Westfield team and he was cheered every time he came to the bat as he was in full uniform. McLarty, of Plainfield, pitched for the home team but was out of shape and could not control the ball.

PARTICULAR MENTION.

Miss Nora Rockwell, of East Front street, has gone on her summer outing.

Clarence VanDeventer, of East Fifth street, left today on a business trip to Boston.

Benjamin O. Bowers, of Franklin place, has returned from a business trip to Eastport, Me.

John H. VanWinkle, Jr., of Duer street, leaves tomorrow to spend two weeks at Asbury Park.

Mr. and Mrs. Chas. B. Clifton, of West Seventh street, have returned from the Clifton House, Patchogue, L. I.

Mrs. Burton Jones, of Grove street, who has been visiting relatives at Atlanta, Ga., for some time past, returned home today.

Wilson W. Smith and daughter, Miss Evelyn Smith, of East Seventh street, have gone to Lake Placid, N. Y., on their summer outing.

Chief Marshal Wilson, of the borough, has again resumed his position, after being off for a time on account of the illness of his wife.

Horsley Barker, of Grove street, spent yesterday at Staten Island. He returned home last evening with Mrs. Barker, who has been visiting friends at that place.

Mr. and Mrs. Burton Jones, of Grove street, are entertaining Mrs. Jones' brother, of Atlanta, Ga., who holds a responsible position with the Southern Railway Company.

Edward White.

WASHINGTON NOTES.

Special Correspondence.

It is doubtful whether the list of endeavors to elevate the lives of the poor and the unfortunate contains the record of any institution which accomplishes more in proportion to its means than what Mrs. Anna Lowell Woodbury modestly terms her "school of cookery" in this city. Mrs. Woodbury is a niece of the late James Russell Lowell, and it is her two brothers, Col. Charles and Lieut. James J. Lowell, who heroic deaths are commemorated with those of four other young men, in the soldiers' field at Cambridge.

When Mrs. Woodbury came to Washington after the war she saw the tremendous need on the part of the newly franchised colored people of some domestic training. Their girls were growing up without the restraints and the instruction of the slave regime, and the new civilizing tendencies had not yet become operative. So, in fact of great opposition, Mrs. Woodbury opened what is still known as a "cooking school," although it aims to teach those things which will improve the home life of its pupils. Plain cooking, without reference to hygiene or chemistry, which Mrs. Woodbury believes belong elsewhere, and the elements of good housekeeping are, of course, the fundamentals, although the school goes much farther and aims to elevate the intellectual and moral standards of its pupils.

Army and Navy Letters.

There is a postal regulation which has been in force for many years. It provides:

"Letters written by officers, commissioned or non-commissioned, and privates in the military, naval, or marine service of the United States, to be transmitted unpaid must be plainly marked 'soldier's letter,' 'sailor's letter,' or 'marine's letter,' as the case may be ,and signed thereunder with his name and official designation by a staff or field officer, post or detachment commander, to whose command the soldier belongs, or by surgeon or chaplain at a hospital where he may be; and .n the navy and marine service by the officer in command of the vessel, or surgeon on board, or officer commanding a naval hospital or detachment on shore. Letters so certified will be forwarded charged with postage due at single rates only, to be collected on delivery.

This was provided to overcome the difficulty in the field or on naval stations of getting postage stamps. The provision for payment on delivery at single rates is to overcome the statutory provision that all first class matter shall be prepaid, or else fully paid with a penalty on delivery.

Second and third class mail will be forwarded to soldiers in the same manner as letters. Papers and packages will be forwarded from place to place until they reach the soldier.

Senator Gorman's Future.

The Democratic friends of Arthur Pue Gorman in Washington and Maryland have mapped out a future for him. He is to be succeeded on March 4 next in the United States Senate by a Republican, Judge McComas. Some of his old adversaries have believed that with the advent of Senator-elect McComas Mr. Gorman will be retired forever from public life. The Democratic friends of Mr. Gorman say that he has still a future before him, and that he is too valuable a citizen in public life to be retired incontinently.

Mr. Gorman has been in public life since 1852, so that for nearly fifty years he has been in public life.

His friends do not believe that he should now be retired. Already there is a plan arranged to have him run for Congress this fall in the Fifth Maryland district, to succeed Sidney Emanuel Mudd, and if Mr. Gorman consents to the arrangement and is elected over Mr. Mudd, the Democrats are determined to make him speaker of the House of Representatives, should the Democrats capture Congress next fall. This is a very pretty plan all around and it has been arranged in order to keep Mr. Gorman in public life. He has become accustomed to Washington life and to affairs of great public moment.

Senator Gorman, it was made known, has the personal friendship of Senator Murphy of New York and of all the Democratic senators and Democratic congressmen now in Washington. Senator Gorman also has the personal animosity of some of the friends of William J. Bryan of Nebraska. But animosities in politics are very frequently changed in order that victory may be accomplished, and the fact remains that the Democratic friends of Mr. Gorman propose, if he will consent to the arrangement, to have him run against Congressman Mudd, and if the Democrats capture the House of Representatives, and if Mr. Gorman defeats Mr. Mudd, to make him the next speaker of the House of Representatives.—SENATOR.

The Origin of Toast.

The word "toast," used for describing the proposal of a health in an after-dinner speech, dates back to mediaeval times, when the loving cup was still regarded as an indispensable feature of every banquet. The cup would be filled to the brim with wine or mead, in the centre of which would be floating a piece of toasted bread. After putting his lips to it the host passed the cup to the guest of honor on the right hand, and after it had circulated around the table it came back to the host, who drained what remained and swallowed the piece of toast in honor of his friends at the table.—Chicago Times-Herald.

New Arrival (Dawson City)—You seem the only happy man in the town.

Native—I am, sir. I've got dyspepsia so bad I can't eat anything.—Judge.

CURRENT COMMENT.

A New York clergyman, after watching a Broadway policeman talk to a pretty girl on his beat for twenty minutes, walked over and inquired why the bluecoat was behaving like that. The policeman promptly arrested him and locked him up. It doesn't pay to be too inquisitive in New York.

A Havana paper says Americans "are industrious because of a lack of charitable feeling, for all starve in the United States who become penniless." No one but a Spanish philosopher would have thought of coupling industry with a lack of humane feeling. It is a new line of argument for the constitutionally tired.

The attorney general of Colorado has furnished an opinion that there is no law authorizing women in that state to drop their maiden name on the simple excuse of a wedding. The question calling for the decision came from a woman notary public who was recently married. She asked under what name she should continue to exist officially, and was gratified with the announcement that she must sign all documents as before marriage, for, the attorney general says, "there is no authority for a change of name at marriage or any other time."

When the advocates of equal rights for women have made their crusade successful, such difficulties as that in which Nellie Grant Sartoris now finds herself will not exist. The daughter of President Grant was an American born, but when she married Algernon Sartoris, who was a British subject, her nationality was changed by that act to that of her husband. Now her husband is dead, she has returned to her native land and wishes to be restored to American citizenship; but the only way it can be done is by having congress pass a special act in her behalf. Probably it will be done without demur. But why need it be done at all? If an American man should marry an English woman, and go to live in England, that would not make him an Englishman or forfeit his American citizenship. Why should there be a different law for the woman?

The decision of the trustees of the University of Pennsylvania, in Philadelphia, to admit women as students to the university, will gratify all who believe in the higher education of women. To assist in carrying out the action of the board, Colonel Joseph M. Bennett presented to the university a short time ago four houses on Walnut street, adoining Bennett hall, located at Thirty-fourth and Walnut streets, the estimated value of which, including the ground, is said to be $80,000. For the present these houses will be used as they now stand, but in course of time it is expected to raze these to the ground and in their place to raise a structure to be devoted exclusively to the needs of the women students. The carrying out of the proect, it is said, will result in property and building worth about $500,000. The gift of Colonel Bennett adds to his liberality of eight years ago, when he presented to the institution the structure now named Bennett Hall, in honor of the donor, and an endowment fund of $17,500 for fellowships.

Commodore Dewey's opportunity at Madrid came to him rather late in his career, but not too late to enable him to wear his honors for a little while. Under the law, he will be retired for age on December 26, 1899, about two months after the retirement of Commodore Howison. Dewey will become a rear admiral before the end of this year and will have an entire year in which to exercise the authority and enjoy the prominence of the highest rank of the navy. The present list of rear admirals will be wiped out this year. It is probable that in 1899 the list of rear admirals will include Schley, Dewey, Sampson and John Crittenden Watson. Commodore Watson ranks Sampson, who has been jumped over the entire list of commodores to give him supreme control of the forces he organized for the campaign. In the ordinary course he will get into the top list early next year. Unless some accident should happen to him, Watson will retain his place until 1904. Commodore Watson was an officer under Farragut at the time the war admiral passed the forts to reach New Orleans. Farragut had a high opinion of the courage and coolness of the then young man. It was Watson who directed and assisted the lashing of Farragut in the shrouds of the Hartford so that he could observe the operations of the fleet without exposure to the danger of being swept away in the confusion. He is a careful captain. Naval officers who know him well say that he always had a most "happy ship," because it was a "strict ship." At the time of the naval rendezvous and subsequent parade to celebrate the anniversary of the discovery of America, Captain Watson commanded the San Francisco. He had just become entitled to a new sea tour, having for three years been in charge of the Naval Home at Philadelphia.

NEW YORK LETTER.

Special Correspondence.

At that busy corner, Grand street and the Bowery, there may be seen cars propelled by five different methods of propulsion—by steam, by cable, by underground trolley, by storage battery and by horses.

Overhead, running up and down the Bowery, are the cars of the elevated railroad, drawn by steam locomotives. Running up and down the Bowery on the surface are the cars of the Third Avenue Railroad, drawn by cable. The Madison avenue cars, which turn into the Bowery at this point, coming along Grand street from the West, are run by the underground trolley system. The cars of the Second Avenue Railroad, which come up the Bowery and turn into Grand street going east, returning around the same corner going down, are still drawn by horses, as are also nearly all the cars of the Grand street Crosstown line, which crosses the Bowery going east and west. But there are four cars now running on the Crosstown line that are run by power from a storage battery.

High Prices for Portraits.

Carolus Duran, the French artist, seems to have advanced his price since he saw such a tendency to luxury among the American gentry. At first it was announced that $3,000 would be the highest fee, but now he wants $4,000 for a mere bust, and double that sum for a full length. Rather tall figures, but not lofty for New York high flyers, and he has all the commissions he can execute. Another foreign artist of some distinction is the Swiss Benziger, who has met much encouragement. He has painted President McKinley and Vice President Hobart, with other magnates, and will have a full share of patronage, especially as his terms are much less than the exorbitant demands of his French rival. As Benziger is the first Swiss artist to visit America, his particular style will attract much attention, and in this manner foreign painters carry off both wealth and distinction while American genius is neglected.

H. Walter Webb.

The resignation of H. Walter Webb is a real loss to the Central-Hudson road, which he so ably served as vice president. It is also a lesson to ambitious business men to moderate their intensity. Walter Webb is a man of ardent temperament and great mental activity, and he devoted himself so closely that the result is such impaired health that he is obliged to retire. All this has taken place before he has reached middle life.

James Watson Webb, his father, was bred a soldier, but became editor of the Courier and Enquirer, which he conducted for more than a quarter century. He married into the rich Stewart family and his oldest son, Alexander Stewart Webb, became distinguished for heroism while serving in the Union army and won the rank of general. He is now president of the College of New York. James Watson Webb's second wife was a daughter of Jacob Cram, the rich distiller, and their children are Seward Webb and H. Walter Webb. Seward was named after Governor William H. Seward, who pardoned Webb for violating the anti-duelling law. Webb challenged Tom Marshall and was wounded and also indicted. The wound healed and he pleaded guilty to the indictment, but was saved from the penitentiary by the clemency of the governor. Later on Webb employed Raymond as chief editorial writer, which increased the power of his paper; but eventually Raymond left and started the New York Times, after which the two editors often exchanged keen personalities. When the civil war began Webb sold the Courier and Enquirer to the World and took a foreign mission. His paper is now almost forgotten, but in its day it was a power in Wall street and an acknowledged leader in the old Whig party.

Aaron Burr's Tank on View.

For the first time in more than one generation, Aaron Burr's old tank in Center street was on public view the other day. The east wall of the building at the intersection of Center and Reade streets, in which it has been housed since the aqueduct was built, was taken down to let the new Elm street through, and the big tank on its stone foundation was in full sight.

The tank was built a hundred years ago by the sham water company whose charter Aaron Burr engineered through the legislature of 1799. Masquerading as a proposition to introduce good drinking water into New York, at that time its greatest need, it was really a scheme to establish a bank in the city. There were only two here and there was a strong political prejudice against chartering more. The trick was successful. The Bank of the Manhattan Company grew great and powerful, and to keep up the pretence of being a water company, upon which its charter rested, the company dug a big well at Reade and Center streets and built the tank to hold the water pumped out of it. The well is still there under the sidewalk and the tank is always kept pumped full. The charter of the big bank rests yet upon it, though even the pretence of carrying water was given up when the acqueduct was built in the forties.

Opposite the well is 11 Reade street, the last of the old houses of a day when fashionable New York lived down town. Tradition has it that Aaron Burr had his law office in it. It even points out the spike holes in the wall by the door where his shingle swung in sight of his legislative triumph, but as to that there may be some doubts. Of the genuineness of the tank there is none.

CYRUS THORP.

The cultivation of sunflowers in swampy places effectually checks malarial fever in those parts.

Lokal-Nachrichten aus der alten Heimath.

Aus der Rheinpfalz.

Speyer. Sämmtliche Schulen wurden hier wegen Auftretens einer ansteckenden Augenkrankheit unter den Schülern geschlossen.

Haardt. Aus Furcht vor Züchtigung durch seine Eltern hat sich der 15jährige Sohn des Winzers Zinkgraf in eine mit Wasser gefüllte Lehmgrube gestürzt und ist ertrunken.

Ludwigshafen. Wieder zurückgekehrt ist die Ehefrau Kugler, die am 23. April mit ihren beiden Kindern angeblich den Tod im Rhein gesucht hat. Bei der ganzen Geschichte war es auf die Täuschung des Ehemannes abgesehen.

Neustadt. Den 63 Jahre alten Winzer Martin Theiß aus Mußbach fand man dieser Tage in Neustadt-Ost an einem Baume erhängt.

Württemberg.

Stuttgart. Im Beisein der Herzogin Vera, des Kultusministers, der evangelischen Geistlichkeit und eines zahlreichen Publikums ist hier das Gerok-Denkmal enthüllt worden.—Wegen Meineids und betrügerischen Bankerotts ist der Kommissionär Eiseler von hier vom Schwurgericht zu zwei Jahren sechs Monaten Zuchthaus und zehn Jahren Ehrverlust verurtheilt worden.—Die hiesige Kunstschule zählt im laufenden Sommerhalbjahr 59 Schüler (gegen 51 im vorjährigen Sommersemester).

Ellwangen. Das hiesige Schwurgericht verurtheilte den Wirth Georg Joas von Unterriffingen wegen Mordes zum Tode. Joas hatte den Schlosser Albert Woike aus Pommern auf der Landstraße mit einem Knüppel erschlagen, weil er diesen als Zeugen in einer gegen ihn wegen Kuppelei anhängigen Anklagesache fürchtete. Der von dem Angeklagten versuchte Alibibeweis mißglückte.

Gmünd. Die Schwestern von St. Elisabeth werden auf einem an der Klösterlesstraße erworbenen Terrain ein Haus mit Kapelle erbauen, welches den Namen Elisabethenpflege führen wird. Der gesammelte Baufonds beläuft sich auf 36,000 Mark; außerdem stehen Legate im Betrage von 25,000 Mark zur Verfügung.

Kösingen. Auf einer Wiese wurden hier Münzen gefunden. Die Rolle des Schatzgräbers spielte ein Maulwurf, der ein glänzendes Goldstück zu Tage förderte, welches den Wiesenbesitzer zu weiterem Suchen anreizte, das dann auch durch den Fund von sechs anderen Stücken belohnt wurde. Es sind sieben ungarische Goldgulden: vier von Ludwig dem Zweiten, 1342 bis 1382, zwei von dessen Tochter und Nachfolgerin Maria der Zweiten, einer von Sigismund, dem späteren Kaiser.

Riedlingen. Hier erhängte sich im Amtsgerichtsgefängniß ein Heimathloser. In Amerika von deutschen Eltern geboren, konnte er in Deutschland weder Papiere noch Arbeit erhalten. Dazu war der Wandermüde von Krankheit befallen, und dies scheint ihn schließlich in den Tod getrieben zu haben.

Ulm. Dieser Tage stieß eine von hier kommende Lokomotive auf einen auf dem freien Geleise zwischen Jungingen und Beimerstetten in dem Einschnitte in der Nähe der Blockstation stehenden Materialzug. Die Maschine und drei Wagen des Materialzuges wurden aus dem Geleise geworfen. Ein Oberbahnwärter wurde leicht verletzt, einem Italiener beide Beine, einem zweiten Italiener ein Bein abgefahren, ein dritter Italiener wurde leicht verletzt.

Baden.

Karlsruhe. Die Strafkammer verurtheilte nach zweitägigen Verhandlungen den 54 Jahre alten Kaufmann Kraushaar aus Rödelheim wegen Betrugs (Anfertigung von Kellerwechseln mit Strohmännern als Acceptanten) zu einem Jahr zehn Monaten Gefängniß. Kraushaar hatte unter Anderem von einem einzigen Strohmann 100 Kellerwechsel im Gesammtbetrag von 200,000 Mark bezogen. Die Mitangeklagten wurden zu Gefängnißstrafen von einem bis zu fünf Monaten verurtheilt.

Freiburg. Ein gemüthliches Waldfest veranstalteten neulich Universität und Bürgerschaft aus Anlaß des 1500. Studirenden, der im laufenden Semester die Freiburger Hochschule bezogen hatte. Noch in den 40er Jahren war die Zahl der Studirenden nicht höher als 300, im Sommer 1885 feierte man bereits die Ueberschreitung der Frequenzziffer 1000, und im laufenden Semester ist, wie gesagt, die Zahl 1500 erreicht, ja, übertroffen worden.

Mannheim. Der Bürgerausschuß wählte den Regierungsrath Robert Ritter in Karlsruhe zum zweiten Bürgermeister.

Pforzheim. Der Edelsteinhändler G., dem nach seiner Angabe am 30. Juni um annähernd 40,000 Mark Edelsteine gestohlen wurden, ist unter dem Verdacht, den Diebstahl fingirt zu haben, verhaftet worden.

J. M. HETFIELD, P. M

RACHEL'S TRIAL.

BY VICTOR GAGE KIMBERT.

The child stirred in her sleep and moaned uneasily. Rachel awakened instantly from her light slumber and went to the side of her little one. The baby had been feverish and fretful through the day and she was anxious for scarlet fever was in the neighboring village, and though little Marion had not been in danger, the ever anxious mother-heart throbbed uneasily.

There was a terrible storm abroad—a summer one that was liable to cease almost as suddenly as it had come up, but none the less dreadful. The great trees in the yard swayed and bent, but resumed their uprightness in the very teeth of the wind the instant its power relaxed. The lightning flashed blindingly, followed by heavy, roaring thunder, as if all the elements were furiously contending for supremacy.

Rachel went to the window when the child had fallen off to sleep, and peered out into the darkness. A neighbor, worried over a sick horse, had come after her husband in the early part of the evening, and she felt nervous at his absence after the coming of the storm. As she looked out, she saw by a sudden blinding flash her husband coming from the barn, leading Dandy, the thoroughbred young colt, upon whom so many hopes were placed. The horse, high strung at the best, was worse during a storm, and reared and plunged frightfully.

The sight lasted only an instant, but long enough to fill Machel Moore with miserable forebodings. What could be the reason for removing Dandy to the other barn in the midst of such a storm? She resolved to ask Richard the instant he returned, but she waited a long half hour for him, and then he busied himself in the kitchen, getting a lunch before ascending the stairs. Her impatience grew apace; when he at last came up, she was just about to inquire about Dandy when the loud cry of "Fire!" smote upon their ears, and almost instantly they saw that the large barn near the house was in flames.

Then Rachel's lips were silenced. A terrible fear of something which she did not dare voice filled her heart with terror. She watched apathetically the heroic efforts of the quickly gathered neighbors to save the building, but after the first five minutes it was apparent that it must go, and the house itself was in danger. Richard worked like a madman trying to save his beloved horses. By strenuous efforts four of them were saved, but the cries of the poor creatures who could not be reached in time rang in Rachel's ears for years afterward whenever a summer storm arose.

Rachel did not know—for Marion, almost frantic with terror, required her constant attention—that Richard's most desperate efforts were made to rescue Dandy, and when the roof fell in amid a great shower of sparks it was with difficulty they kept him from rushing into the gravest danger, so intense was his love for the fine animal which his friends already thought had cost him dearly.

The barn burned like tinder. In spite of the rain, which ought to have extinguished it under ordinary circumstances, the fire raged with such intensity that in a brief time only ruins remained.

Richard Moore sat down, crying like a child. Afterwards, when suspicions were aroused, they said it was done for effect, but no one was conscious of that thought at the time. Poor Richard! his misfortunes crowded swiftly on him. He had become greatly involved during the few years previous to the fire, and his own better judgment accused him of investing too much in horse-flesh. It was a passion with him, and he had neglected his farm and devoted himself to horse-breeding in a very reckless fashion. Dandy, the pride of his heart, had won a race in the fall, and his hopes had been buoyed up by the occurrence; but several valuable mares had died and among the trotters some fatality had been present that prevented their being the success their owner anticipated. He expected the farm would have to go before long. The man who held the mortgage had been kind, but he could not expect further indulgence.

Then like a flash it came to him that the insurance on the building and horses would put him on his feet again. To be sure there was a mortgage on every animal on the place except Dandy, but the three thousand on him would go far toward helping to get a home for Marion and Rachel, and then and there he resolved to let horses alone.

Marion was very sick; there was no question about that, and, absorbed and anxious, Richard only half realized the manner in which his wife bore everything. To him she was simply frozen; no other word would half express it; but he believed Marion's critical condition to be the cause of her changed manner, and was, if possible, kinder and more thoughtful than ever for her comfort.

Another dreadful thing had happened. The suspicions which at first were whispered cautiously, took a louder tone, and many were ready to affirm that the building must have been well saturated with oil or some other inflammable substance, to burn with such rapidity in a drenching rain. In the thorough investigation which the insurance companies made, it was learned that no trace of the horse Dandy could be obtained. This would not have been remarkable, ordinarily, but the peculiar shoes which he always wore, with the great "D" so curiously engraved, ought to have been found in the debris; but they were not, and when the blacksmith declared he had shod him the previous Saturday things looked dark for Dick Moore. There were remains of the other horses known to have perished, but no trace of Dandy, and almost before he knew how adverse public opinion was, Richard Moore found himself arrested for arson.

Moore swore positively that he had not been in the barn since early in the evening, just before going to his neighbor's, and asserted that some enemy must have set the fire, if, indeed the building had not been struck by lightning; but when asked if he knew anyone who would do such a thing, his reply was characteristic:

"Before God, till this thing came up, I didn't suppose I had an enemy in the world."

Little Marion grew worse and finally died, and although her death could make no manner of difference as to the guilt of the father, a change in public sentiment ensued, prompted, probably, by excess of sympathy for the mother; so no one was displeased when, after much deliberation, the jury failed to convict.

Settlement was made for the barn and its contents, with the exception of the horse Dandy, which was insured in a different company, and which absolutely refused payment except at the end of a lawsuit. Moore promptly prosecuted, but with small hope of recovery, and, broken up and discouraged, he attempted to gather together the fragments of his property. He settled with the creditors who held mortgages on the burned animals, and applied the rest of the insurance to the mortgage, so that he might remain in his home, if he wished. But, with little Marion gone, and his wife apparently on the verge of insanity, for to nothing else could he attribute her inexplicable conduct, it seemed to matter little to him where he should live.

Mrs. Moore had acted strangely since the fire. At some times she was silent and apathetic; at others hysterical, almost violent, and always evincing a strange antipathy to her husband's presence. The physician, having no key to the problem, of course invented one to suit himself, which fitted about as well as fact and theory usually fit. He declared that the excitement of the fire, the consequent arrest of her husband and the death of little Marion had combined to produce a state of nervous prostration bordering on mania, which could be cared for more successfully in some sanitarium which made a specialty of such cases.

Rachel Moore, however, rebelled so against leaving home that Richard would not insist, though she scarcely gave him a word and shrank from his presence. He saw that she was carefully looked after and prevented from doing herself harm, had she so wished, and gave his time and strength to providing for her comfort.

And Rachel? Well, probably there was much truth in the physician's view of the case, though he was altogether wrong as to the cause which produced it. It was not the death of her child, well as she loved her, nor the disgrace of the public arrest which had unbalanced her mind. It was the fact that she knew the baseness of her husband's conduct.

Yet she loved him through it all, and while despising herself for the fact, felt the conflicting emotions tearing her to pieces.

A year passed by—the longest, saddest year Richard and Rachel had ever known—and then the light fell upon them as suddenly as had fallen the shadow. Some boys hunting in the Weldon Woods, a forest not three miles away, came upon the remains of a horse and rider pinned to the ground by the half of a fallen tree which the lightning had cleft in twain. Whether the bolt had struck them, too, or whether they had simply been crushed beneath the tree, it was too late to determine.

"Moore's Dandy, by all that's great," exclaimed Ned White, as he rose after examining the shoes. And they ran with all speed to report their discovery.

Investigation was quickly made and it was decided that the man was a Canadian who had worked for Moore the autumn previous to the fire, and had exhibited an extraordinary fondness for Dandy. Moore was fully exculpated and many an old neighbor offered an apology for his suspicion, while the insurance company settled the suit without delay. But the greatest joy and sorrow of his life came to Richard when his wife met him, trembling and weeping, and begged him to forgive her.

He could not understand for a time, though he recognized the great change in her, but at last, when she repeated over and over, "I saw you, you know—I mean I thought I did when it lightened," he caught a glimmer of her meaning and asked:

"You saw some one take Dandy out? Is that what you mean? Why in heaven's name didn't you say so at the time, so we could have searched for him?"

"Oh Dick, how could I, when I was sure it was you? I knew Dandy would never have let a stranger handle him. How could I tell others what you had done—what was killing me?"

"So you thought I—" he began sternly, but stopped short.

She had called him Dick after a year's silence, and he knew that she was very weak, with life and reason trembling in the balance. So he gathered all the strength of his manhood to protect her weakness, and taking her in his arms kissed the color back to her cheeks, though his own were pale as death.

A TRUE WOMAN.

The woman who holds a man's heart is
her hands
Need not be pretty nor possessed of rich
lands.
She needn't wear clothes just teeming with
style;
She needn't possess the first worldly wile
Her eyes may be brown, her eyes may be
blue,
To him she's a beauty away through and
through—
If she's true.

It's her soul that he cares for, her steadfast devotion,
Her love as unbounded, as free as the
ocean,
The touch of her hands, the glance of her
eye,
The swift rush of color that comes when
he's nigh;
The thousand and one little things she can
do
That show him so plainly right through and
through
That she's true.

What does it matter if others are fairer?
She possesses a virtue that makes her far
rarer
Than professional beauties, cold-hearted
and vain.
She would give him her all and care not to
gain.
Aught but a smile, a low "I love you,"
Which thrills her whole being away
through—
For she's true.

Days may be dark, days may be fair,
In sickness, in health, in joy, in despair,
She proves in each crisis that her love is
real;
It shines on serenely, come woe or weal.
The world counts for nothing, what can it
do
If she belongs to him utterly all through
and through
And is true?

—Philadelphia Times.

FATE TAKES A HAND.

"Come, Bess, pluck up courage, we are almost there."

"But we've been 'almost there' for the last five miles, and if it were not for offending your august dignity I declare that you don't know the road yourself."

"Oh, I say, Bess, that's too much Haven't I been up to Rule's forty times and don't I know every pine needle and fern frond on the trail? Of course things look a bit queer in this half light, and it gets dark so confoundedly early in this redwood thicket; but I couldn't miss the—Whoa, Mollie!"

This to the mare, which had stumbled over a hidden log, and brought up all standing at one of those airy fairy barb wire fences that seem to approach a traveller like a thief in the night.

It was on the trail to the Rule ranch away up on the Russian river, where the old Duncan mill used to be, and Bess and I had started out blithely that afternoon, thinking nothing of the sixteen miles "cross country" we had to ride in order to reach the ranch. 'Twas not in the gladsome summer time, by any means, being well along toward October, and it wasn't a very brilliant move on my part to propose such a trip, but the thought of having Bess all to myself for a few hours' romantic ride through the redwoods, made me foolish enough to venture it; and right here I want to ask any self-respecting young man if he wouldn't have done the same?

Bess had a jolly, kind little way of comradeship that made me uncertain whether I could ever get her to think seriously of something that was fast reducing me to a "state of mind," as the old ladies expressively put it. To save my life I couldn't bring her to the point of listening to a few very personal remarks. Before we left San Francisco in the same camping party (thanks to a deep laid plot of my Machiavelian mentality), I had been unable to get more than a tantalizing glimpse of the fair damsel, owing to her multitudinous engagements for lavender weddings, afternoon receptions, pink teas—verily, she was a little pink tease herself.

But to return to our muttons, which speedily resolved itself into a pretty kettle of fish—a barb wire fence across the trail and two people without the vestige of an idea between them as to where they were or in which direction lay their destination. It looked like an all night camp then and there, for the sun had already set behind the tall redwoods—at least what beams could struggle through the gathering rain clouds. But it would never do to let Bess know of my deep, dark forebodings, so I put on a sickly grin and pretended that I had been looking for the last half hour for that identical section of barb wire fencing.

Of course the elements were in collusion against us, and before we had decided on the next move rain drops came pattering down upon us in most gladsome fashion, as if heaven wanted to take a hand in this little game of hide and seek.

"Don't you remember the redwood that was burned through last year when we were up here on a picnic Bess? Well, wasn't that on Dick's land? Of course it was, and—"

"Yes, but I have counted at least ten tall redwood skeletons since we turned off the main road. I'm firmly convinced that we're on the wrong side of the river—there, isn't that a boat on the other side?"

"'Nuf said, Bess. See me do the Leander act and cross the Hellespont, only we're reversing things a trifle, Hero?"

"For heaven's sake don t get sentimental, or I shall better it and become hysterical! It's getting as dark as Egypt, and there's only one thing—that boat must be hypnotized over here."

"So be it. Get your gravy turned and light up, while I cross the Rubicon of our destiny."

Saying this I rode gingerly down the rocky bank and urged Mollie into the water. It was a case of swimming when midstream was reached, and once across there was some difficulty in making a landing; but finally the boat was unmoored—a leaky affair which some thoughtful person had provided with a tin lard pail for bailing purposes.

The trip back safely accomplished Bess was handed in with all pomp and ceremony, and we towed her nag along, getting a most unexpected shower bath when the beast made a plunge to scramble up the bank.

What with the water from above and below, and a moonless night close upon us, the situation wasn't extremely mirthful. I tried to kindle a fire, we having forlornly come to the conclusion that we must stay where we were for the rest of the night, as the underbrush was too thick on that side to penetrate, and we had given up all hope of coming upon human habitation. My efforts at striking matches were not a success, for they had been soaked, and both they and my patience gave out at the same time.

But when Bess began to look serious, and a little droop came to the corners of her lips, and an almost imperceptible quiver to that pretty round chin, I cursed myself mentally for a selfish brute, and tried to make light of our dilemma—seeing I could not accomplish it with the matches.

"I've a bright idea," I began.

"Keep it, Fred," she suggested, with a feeble attempt at gayety. "Use it for a torch to illumine our way."

"Frivolous woman," I responded, intensely relieved at seeing the threatened shadows flee, "you don't deserve to hear my plan, so instead—keep your eyes open," I ended in a mysterious whisper.

Finding some dry sticks and grass I took the last cartridge from my gun and struck off the powder, getting a blaze in short order. Involuntarily I also added a side show to my circus.

"Oh, Fred, look at your moustache And oh, see your eyebrows!" exclaimed Bess. Truly a feminine remark, and so easily acted upon.

"I think feeling is quite sufficient, thank you," came as icily as circumstances would permit from my denuded lips, as I tenderly caressed the place where my pet blond moustache had erstwhile been.

It is a dangerous thing to speak to a man when he has been shorn of half a moustache, the end of an eyebrow and most of his eyelashes at one fell swoop. But I had builded better than I knew and our camp fire was a great success.

I wrapped Bess in my big topcoat, not without some demurring on her part at what she called her highway robbery, and so it took some little time to accomplish the feat, you may surmise. Then, breaking boughs for a cosy resting place for my ladye faire I went off in search of firewood, not caring to venture beyond the flickering circle of light, which seemed to constitute our little world.

I don't mind mentioning in strict confidence that it required considerable self denial not to—well, make a fool of myself and spoil my chances by putting the momentous question then and there; but no one could ever call me a cad, and it would have been caddish—not to say undiplomatic, eh?—to hazard all my future happiness when the girl was so nervous and frightened. She had kept up so bravely, too, plucky little woman, and tried her best to keep awake and help speed the lagging hours until dawn; but nature vetoed that, and soon she was fast asleep on the bosom of Mother Earth.

Just as I was beginning to be desperately sleepy myself, I heard the sound of some animal and was wide awake in an instant. A high-pitched, shrill call, then a low growl, and all was still. It was a little shivery. The last of the powder was gone; not another cartridge. I glanced at Bess. Her eyes were open and their startled expression showed that she had heard the sounds I started toward her and tried to look careless and happy, but 'twas a most dismal travesty on mirth. Bess said not a word, but, impeded by my coat, floundered toward me and dropped in a heap in my arms.

I solemnly aver that just then I did not care if all the denizens of the forest chose to consider this my reception night. I even had the traitorous hope that the mysterious beast would growl again, so that she would involuntarily cling closer. Still, it wasn't at all an hilarious situation, nor yet, strictly speaking, a blissful one, with the possibility of having a fainting girl on my arm and a wildcat or bear claiming my attention at the same time. There are moments when we wish to be alone.

However, there was no recurrence of the nerve-destroying serenade, and we spent the next half hour chatting; but a little incident had occurred while Bess was brooded under my wing that had carried me into the seventh heaven of delight. I could swear that I heard her murmur—well, if you think I am going to tell you just what, you are very much mistaken; ladies' secrets are inviolate, and besides, it was only a little word, and not of the slightest interest to outsiders, I assure you; but it made me feel secure of what her answer would be when fate gave me a chance to ask.

Now the gray dawn broke, and—what was that? Again the shrill call that, in the light of day, sounded very like the cry of a guinea hen, and swift following it came a watch dog's bark of welcome to some one who had come out with a rollicking whistle, striking up "Ev'ry niggah had a lady but me." A rattle of tin pans, a mooing of kine anticipating their morning mash, and then we looked at each other and burst into a laugh that made the welkin ring and brought the whole family to the door. We had camped all night just forty yards from Rule's corral.

A TELECTOSCOPE.

AN INVENTION WHICH TRANSMITS A PICTURE FROM ANY DISTANCE.

From Chicago One Can See San Francisco or New York Bay With Moving Ships in the Harbors—Will Also Take the Place of the Mail it is Said.

Jan Szczepanik's wonderful invention, the telectroscope, will, if all accounts be true, realize all that Edward Bellamy predicts about twentieth century entertainments in his latest book, "Equality." Szczepanik is a Galician schoolmaster turned inventor. The wonders of his telectroscope are to be fully brought out at the Paris exposition of 1900. Meanwhile the now distinguished Pole can look back upon the few years of his past life in which he was heroically struggling to win an education. He was fortunate enough to get into the Universiy of Cracow, where he spent three years. Lack of funds compelled him to retire before he had finished his education. His new invention, he says, will take the place of the post, or the mail, of the future. By it any scene can be perfectly reproduced, pictorially, at any desired distance. For example, one might sit in Chicago and have a fine view of San Francisco or New York bay, with all its brilliant colors, moving and anchored ships and water sparkling in the sun. Mountains and cities, in fact, any natural or artficially arranged scene can be reproduced true to life at a distance. All that is needed is to suggest the improvement certain to come in telephonic communication and

JAN SZCZEPANIK.

the imaginaton can do the rest. Herr Szczepanik says his machine will reproduce letters perfectly, thereby taking the place of the post and the telegraph. Roughly speaking, the picture is broken up into a number of points. Each point is reflected in mirrors, and the reflected ray of light is converted into an electric current, which can be transmitted any distance. At the receiving end the current is again transformed into the corresponding ray of light. This ray of light is reflected in mirrors and the reflection thrown upon a screen. Now it follows that if all the points of a picture are taken in very rapid succession the resultant reflection on the screen will be the entire picture. There are many ways of converting light rays into electric currents already known to men of solence. An electric battery with a selenium cell is used. The battery is connected by wire with an electro-magnet at the receiving end, where the currents are to be reconverted into light rays. The electro-magnet will move in sympathy with the current sent out from the transmitting apparatus, and its movements will correspond with the nature of the ray reflected. The magnet will move a prism placed in front of a strong white light—either electric or sunlight. The prism will resolve the white light into its primaries. The primary colors spread out into a spectrum and the prism responding to the movements of the magnet will bring the required color itno view. Szczepanik has made arrangements with a syndicate for the showing of the telectroscope at the Paris exposition. The syndicate will build an annex to the exposition with a 10,000 seating capacity. The admission will be 3 francs. The inventor will get 60 per cent. and his backers 40 per cent. of the gross receipts. Szczepanik will not sell the telectroscope until after the close of the exposition.—Chicago Times Herald.

WHEN WOMEN VOTED.

Privilege Extended to Unmarried Owners of Property.

Kentucky, which in 1845 made voters of widows and spinsters who were holders of property, only followed the footsteps of Maryland, which had done the same thing thirty years before. About the year 1820 unmarried women who were holders of real estate to a given amount were entitled to vote, and did very generally exercise the right of franchise.

In colonial days the States of the South generally made the ownership of property a requisite to the exercise of the right of franchise, while the New England colonies generally made church membership a necessary qualification of the voter. Following the idea that only property holders should vote, it was a natural step to conclude that all property holders should vote. Maryland, therefore, decided that where the ownership of property was vested in a woman who had not a husband to represent her she should be a voter.

This fact shows that Maryland, which was the first colony to guarantee religious liberty to all her people, and which took the first steps toward securing the present Constitution of the United States, was also the first to give the ballot to woman.—Boston Transcript.

Have You Seen

The Fancy Timothy Hay that we are now receiving? It is all last year's crop and far superior to most that we have seen.

BALED BY OURSELVES—which means large bales, free from dirt.

Don't Risk New Hay.

CYCLING COMMENT.

The bicycle squad attached to the Christian Endeavor society of the Park Avenue Baptist church will take another run tonight, and will go to Westfield to attend the meeting at the Fresh Air Camp. The start will be made from the Crescent Avenue church at 7:15 o'clock.

ROD AND GUN.

Next Saturday afternoon there will be a shoot at Bound Brook in the Central New Jersey Trap Shooters' League series.

Edward Smith and Jeremiah Van-Winckle, of West Fourth street, spent Friday crabbing at Carteret and returned at night with 166 between them.

F. C. Langhorne, of LaGrande avenue, returned today from Barnegat Bay, where he has been spending ten days fishing. His many friends in this city can attest to his good luck, for they frequently received a mess of fish while he was away.

Miss Ethel Bond, of New York, spent Saturday and Sunday in town.

RICHTER THE WINNER.

CONTINUED FROM PAGE 1.

qualified Westerfield. There was much rivalry between Westerfield and Dodd.

Lindley M. Hillman acted as starter. The judges were Dr. Luckey, Chauncey M. Stout, Charles B. Morse and Edgar I. Serrell. The timers were Charles E. Vail, J. H. Green, Dr. Pocock, and R. P. McCullough.

At the conclusion of the races it was decided to settle the dispute between Dodd and Westerfield by allowing them to ride a lap together. Westerfield happened to be first and tried to get out of it. Dodd would not take the lead and they rode slower and slower until Westerfield turned to one side. Then Dodd passed him in a rush and secured a big lead. Westerfield never caught him until they reached the last turn and then Dodd ran away from him. The fourth prize for the five-mile race was then given to Dodd.

Former Mayor Miller Dead.
(Special to The Daily Press.)

Fanwood, August 8.—George C. Miller, formerly Mayor of Fanwood, a well-known New York business man, died at his home in East Ninety-first street, New York, Saturday afternoon. He removed to New York a year ago. He was only sick for a few days with pneumonia. During his residence in Fanwood he was a member of the Union County Board of Freeholders and also a town committeeman. In politics he was a Democrat. He was fifty years of age and leaves a widow.

Tempered Justice With Mercy.

In the City Court this morning Mrs. Bridget O'Donnell, of Richmond street, who was convicted by a jury several weeks ago of using profane language, came up for sentence. When the jury rendered their verdict at the time of the trial, they recommended mercy, and this recommendation the City Judge followed this morning, and suspended sentence.

Life on a House Boat.

Miss Ethel Green, of Mercer avenue, and Meredith Dryden, of Watchung avenue, returned Saturday afternoon after spending two weeks on a house boat on the Chesapeake river. They attended a house party given by friends and cruised along the shores of the Chesapeake. It was delightfully cool there and they had a very enjoyable trip.

A Day on the Yacht.

Richard P. Simpson, Carroll L. Runyon, Albert Finch, Roy T. Phillips and Carl L. Walz, of this city, rode to Perth Amboy on their wheels Saturday and spent the day in a yacht there sailing about Raritan Bay. They met with sundry adventures that were sufficiently exciting to satisfy them.

Bicycle Riders in Court.

Two wheelmen were arraigned in the City Court this morning for violations of the bicycle ordinance. Chas. Sheppard was caught riding on the sidewalk at Netherwood Saturday and was fined $2. Fred Dealaman rode through West Front street last night without a light and paid $1 for the privilege.

Endeavorers Go to Westfield.

The Endeavorers of the Park Avenue Baptist church will have charge of the meeting at the Fresh Air Camp at Westfield tonight. They were given three Monday nights during August, and still have one more meeting to lead the latter part of the month.

—Water melon cutting and ice cream sociable, together with a free entertainment, will be held at the home of Mrs. David Bush, 39 Pearl street, Saturday evening.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss M. M. McKissich, of Manning avenue, is at Rocky Hill.

Edwin I. Vroom, of Roselle, visited friends in town yesterday.

Charles A. Haynes, of First place, is out of town on his vacation.

Miss Henrietta Boyd, of Brooklyn, is visiting Miss Martha Syckle.

Mr. Huchinson, of J. H. Leggett's pharmacy, is away on his vacation.

Miss Adella Runyon, of West Fourth street, spent Sunday at Asbury Park.

Among the visitors last week to Red Bank, was Miss Stephenson, of Plainfield.

Mrs. E. D. Moffett, of Orchard place, has returned from a visit in Jersey City.

Miss Delmar, of New Brunswick, is visiting Miss Leora Wenzel, of Clinton avenue.

Amos Moffett and John Stryker, of West Sixth street, spent yesterday in Jersey City.

Miss Condit, of Boonton, is visiting her friends, the Misses Thompson, of Rockview avenue.

Miss Florence Robins, of Paterson, is visiting Miss Charlotte DeMeza, of West Second street.

Miss Carrie Froehling, of Liberty Corner, is visiting her aunt, Mrs. J. Hoffman, of Park place.

Mrs. Wm. Addis and family, of East Second street, have returned from a sojourn in New York State.

B. A. Hegeman, Jr., of Washington Park, will not return to Point Breeze Camp until the last of this month.

C. E. A. Heywood, physical director at the Y. M. C. A., is spending his vacation in Duchess county, N. Y.

Miss Evelyn Henderson, daughter of J. J. Henderson, of Rockview avenue, is visiting friends out of town.

Stanley Krom, of Jersey City, spent yesterday with his parents, Mr. and Mrs. S. R. Krom, of Madison avenue.

Miss Etta Raybert, of North avenue, returned home today from Ocean Grove, where she has been for two weeks.

Miss Julia Clark, of North avenue, has returned from Annandale, where she has been spending two weeks for her health.

Miss Alice Thompson, of Rockview avenue, has returned from Martha's Vineyard, where she has been spending a few weeks.

H. N. Holder has resigned his position with Sheriff Kirk and started business as contractor for structural iron and steel work, in his own name.

J. H. Leggett, the druggist, has granted a two weeks vacation to his head clerk, J. P. Hutchison, and he left for Eastport, Maine, his former home, yesterday.

Marshal Campbell, of the borough, has returned from his vacation and will go on duty this evening. Marshal George Wise started on his vacation of one week today.

Mr. and Mrs. Wm. M. Sandford and daughter, Miss Pauline May Sandford, of East Front street, leave today for New Castle, N. H., where they will stop at the Wentworth.

Robert E. Speer, of Elizabeth, who preached at the Crescent Avenue church yesterday, was the guest, while in town, of Mr. and Mrs. Fred H. Andrews, of Central avenue.

Adam Neuman, of the firm of Neuman Brothers, the Watchung avenue grocers, has taken a business trip up through Warren and Hunterdon counties to purchase peaches.

Mrs. E. E. Hann, of Somerset place, is spending a month with relatives in Hunterdon county. Mr. and Mrs. A. D. Pope, of Lincoln place, are also spending a few days at the same place.

Sergeant Kiely is on his vacation and Roundsman Frederickson is acting sergeant. Officer Mattox is acting roundsman and takes Roundsman Frederickson's place during the day.

While in this city, Private F. Keuhnle, of Co. D, 71st Regiment, N. Y. Vol., was the guest of Fred Martin, of West Front street. He spoke at the Y. M. C. A. meeting for men yesterday afternoon.

Joseph W. Fitton and his two children, of Worcester, Mass., are visiting Councilman Walter Hetfield and family, of East Front street. Mr. Fitton is superintendent of the consolidated freight depot at Worcester.

Miss E. Sanders, of Orchard place, the efficient saleswoman at Peck's, accompanied by her brother, George Sanders, clerk in Howell's grocery, leave tomorrow for a week's rest at the Cataract House, Delaware Water Gap.

Miss Hillyer and C. H. Husted, of Washington, D. C., left this morning for Long Island after a visit at the home of Irving Waters, of East Third street. Miss Beulah Waters, of East Third street, accompanied them, and will spend her vacation with them on the shore of Long Island Sound.

LAWYER TALKED FIVE HOURS.

Exhaustive Appeal that Lawyer Swackhamer Made in a Divorce Case.

The argument in the Corey divorce suit before Advisory Master Washington B. Williams in Vice-Chancellor Stevens' chambers in Newark, was continued Saturday, but was still not finished. The argument will be continued next Saturday.

A week ago Saturday Lawyer Wm. Newcorn opened the argument for the petitioner, Henry H. Corey, and last Saturday S. S. Swackhamer summed up the case for the defendant. Mr. Swackhamer began his argument at 9:30 o'clock in the morning, and with a short intermission at lunch time, talked continuously until 3 o'clock.

Those who heard Mr. Swackhamer's speech were emphatic in their praise of his powers of oratory. He referred to his notes but seldom.

Ex-Judge W. R. Codington followed Mr. Swackhamer, and in a few concise sentences completed the testimony in one of the most able speeches, it is said, that was ever delivered before the Master.

Lawyer William Newcorn started his argument and spoke for over three hours. He will continue his argument Saturday.

PARTICULAR MENTION.

Miss Essie Thompson, of Belvidere avenue, spent yesterday at Asbury Park.

Miss Etta L. Neuman, of East Fifth street, is spending her vacation in Long Branch.

George A. Neuman, of East Fifth street, has returned from Long Island where has been on a visit.

Fred A. Pope, of the law firm of Pope & Runyon, will leave tomorrow for Atlantic City where he will spend his vacation.

Mr. and Mrs. Charles Randolph, Mr. and Mrs. Frank Wickoff and Mr. and Mrs. Harry C. Runyon, have returned from their summer camp near Raritan.

EARLY INTELLIGENCE.

—For those afflicted with corns there is nothing like Randolph's corn cure.

—There was one candidate initiated into the mysteries of Columbia Lodge, A. O. U. W., Friday night.

—John P. Mosher, Lewis T. Rogers and Wm. H. Rogers rode to Boynton Beach yesterday on their wheels and spent the day crabbing. They returned with forty crabs.

Fred Breem's Boy Died.

The six-weeks-old son of Mr. and Mrs. Fred Breem, of East Second street, died at their home early yesterday morning. The baby had been very ill for a week. Mr. Breem is driver of the hook and ladder truck.

It is reported now that Japan looks with favor on the proposal for an Anglo-American alliance, and would like to make it a Dreibund, with herself as third partner. This renders the prospect all the more brilliant for an ambitious nation. If we wish to extend our possessions, as well as our influence around the globe; if we decide to annex Hawaii, to keep the Philippines and extend our territory elsewhere as circumstances may open the way—then we could not do better than to take in England and Japan as partners and establish the greatest empire the world ever saw. In that event Japan's alliance would be by no means contemptible. She could keep watch and ward on the whole Asiatic coast and give no small assistance in dominating the Pacific. But until we are ready to adopt a policy so diametrically opposite to the one we have hitherto pursued, Washington's caution about "entangling foreign alliances" will still hold good.

There has been much dispute, in which both sides quoted apparently good authority, as to whether the completion of the trans-Siberian Railway would result in the export of Siberian grain from or the import of American flour into Vladivostock. The road is not completed, but the imports of American flour have begun.

It is interesting to note that the market for the flour is along the line of the railroad now being built from Vladivostock to meet the line in construction from the west. This does not settle this interesting question. The supposed Siberian wheat belt is far south and west of this northern port, and there is still a gap, estimated at a thousand miles, between the unfinished ends of the road. Hence transportation across the Pecific may well be cheaper and quicker than from the Russian interior

But it is at least encouraging that the American product has got such a long start. With the cheapness of water carriage, and the marvelous economies of American milling plants, it ought to be able to extend it and to maintain it for a long time. There is a great deal in being first. People like to eat, drink and wear the things to which they have been accustomed. Hence the stubborn hold of British goods in many quarters of the world against German persistence and American ingenuity.

JOTTINGS OF THE DAY.

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Press want ads pay—try one.

—Queen City Lodge, I. O. O. F., will hold a regular meeting this evening.

—The subject of the "Two Covenants" will be presented at the Adventist tent tonight.

—Rev. Mr. Armstrong preached two strong sermons at the Monroe Avenue church yesterday.

—Fresh stone is being distributed along South avenue, filling up the holes in the roadbed.

—During the absence of Organist Daniel Davis, W. R. Brokaw, of West Front street, is presiding at the organ at the Park Avenue Baptist church.

—The Ladies' Mizpa Circle of King's Daughters of the Monroe Avenue church will hold a peach festival Tuesday evening, August 16, in the chapel.

—Willett & Son, 107 Park avenue, are selling Hanan & Son's tan shoes at a cut price, $3 89, and there's no more reliable shoe on the market than Hanans'.

—The flagging on West Sixth street in front of the Catholic Club is being relaid, and new flagging is being laid on the Liberty street side of the clubhouse. The gutters are also being curbed.

—Assistant Superintendent Edwin Beekman had charge of the Sunday-school exercises at the Monroe Avenue church yesterday in the absence of the regular superintendent, Walter McGee.

—As soon as the new schoolhouse to be erected in the borough is completed the work of laying stone walks in the vicinity will be commenced by the borough. At present there are no walks in that locality.

—The work of laying pipes underground for the surface drainage on Plainfield avenue was completed Saturday. Today the work will be started on Front street from Plainfield avenue and continued through Giraud avenue to the brook.

—The Royal Santiago Circle, Mothers' of American Protectors, will hold their prayer and praise service this evening at the home of Mrs. Stewart, on John street, near Fourth street. Mr. Bowden will lead the meeting. Subject, "Trusting In God."

Wouldn't Admit Using Profanity.

Mrs. Maria Honan pleaded not guilty in the City Court this morning of using profane language on West Third street, and her trial was set down for Saturday morning.

L. N. Lovell, of Crescent avenue, has returned from his vacation, and he occupied his place as superintendent at Warren chapel Sunday-school, yesterday.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we don't carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2 25. Men's all wool bicycle suits in fine checks and plaids, worth $7.50, at $2 90 Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.50. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1.28. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $10, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's crash coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats at $2.30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4.75, worth $10. Boys' knee pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

FIGHTING AT MANILA.

Spanish Column Was Defeated With Great Loss.

ATTACKED AT NIGHT.

TRIED TO OVERPOWER THE AMERICANS AT MALATE.

The Americans Had Never Been Under Fire Before, But They Stood Their Ground and Drove the Spaniards Back to Manila.

(From the Union Associated Press.)

Hong Kong, August 9, 10:50 a. m.—Details have just been received by a special despatch boat from Manilla, telling of a terrific battle that took place on the night of July 31, between the Americans and Spaniards at Malate.

The battle was fiercely contested for several hours. It finally resulted in the repulse of the Spanish forces with great loss.

Malate lies on Manila Bay, near the city of Manila, and there was stationed the outpost of the American army. The insurgents have been operating between Cavite and Manila.

The Spaniards chose a dark night for the attack, hoping to turn the Americans and retake the position by hurling a superior force of three thousand men against it.

There were less than 2,000 men of the American troops stationed at Malate. They comprised the first battalion of the Tenth Pennsylvania Volunteers, the First California Vols., a battalion of the Third United States Artillery and Battery A, of Utah.

The attack was meant to be a complete surprise, but the American sentries saw the approach of the Spaniards and the Americans were up and ready to receive them when they reached the American intrenchments.

The Spaniards attacked the Americans several times but the latter stood firm and their rapid fire broke the centre of the Spanish line, compelling them to retreat.

The Spanish forces made a second charge on the American line but again retreated to the bushes, keeping up an incessant fire on the road. It took three hours to drive the Spanish back to the fortifications around Manila.

The American loss consisted of nine killed and forty-four wounded. The Spanish loses amounted to over two hundred killed and three hundred wounded.

Scarcely any of the American troops engaged had ever been under fire before but they behaved splendidly and stood their ground like veterans, firing carefully and accurately as the large list of casualties on the Spanish side show. The Spanish soldiers shot wild.

Death of a Little Boy.

William Wallace Warnock, aged two months, son of Mr. and Mrs. Charles Alexander Warnock, of 646 South Second street, died this morning after a short illness. The funeral services will be held from the house tomorrow afternoon at 1:30. Rev. Floyd Appleton, of Grace P. E. church, will officiate. Interment will be in the Plainfield Avenue cemetery.

Preparing for Special Services.

The pastor of the Park Avenue Baptist church is looking forward to a stirring spiritual campaign this winter, and plans are already on foot for holding special evangelistic meetings during the winter, which, it is hoped, will result to much good to the church.

Arthur Mosher, who formerly resided in this city, has returned and taken a position with S. C. Baker, of West Fifth street.

ROBBED THE RETREAT.

JAMES LOUGHLIN'S ENTERPRISE ATTRACTS SNEAK THIEVES.

Theft Was Committed Sometime During Yesterday—Borough Police Notified and Try to Find Out the Depredators.

Sometime during yesterday thieves looted the Mountainside Park Grove retreat and carried away everything of any value, consisting of soft drinks, a rifle, tables, chairs, tubs, etc. The theft was not discovered until late in the afternoon when Manager James Loughlin and some friends went to the place.

The retreat is located in North Plainfield township not far from the trolley line, but its position is such that depredations can be committed without the knowledge of anyone. Mr. Loughlin has no idea as to who paid a visit to the retreat, and he has little hope of recovering his lost articles.

It is not so much the value of the articles taken that Mr. Loughlin objects to, but they were just what he needed for the place, and he will now have to secure new furnishings. The matter has been placed in the hands of the police and an effort will be made to discover who the thieves are.

CAR STRUCK A WAGON.

Horse's Shoulder Dislocated, but Occupants of Carriage Uninjured.

A trolley accident occurred last Saturday evening on West Front street in the neighborhood of the eight row, when a car collided with a wagon in which Mrs. Earl and her daughter, Miss Gypsy Earl, together with the coachman, were seated. The wagon was on the tracks and the driver says that he did not hear the motorman ring his bell.

The wheels of the wagon were spread apart, and the horse dislocated a shoulder. Fortunately, the occupants of the wagon were not injured. The Earls live at Dunellen and they were on their way home. The accident happened about 9:15. It is said that the trolley company will settle all damages satisfactorily.

Excursion to the Beach.

The Central Railroad of New Jersey announce an excursion to Pain's "Fall of Manilla," at Manhattan Beach, Wednesday, August 10th. Train leaves Plainfield at 5:54 p. m. Fare for the round trip, including admission to the fire works, $1.25. A special ferryboat will meet the train upon arrival at Jersey City and transfer them directly to Thirty-ninth street, South Brooklyn, at which point train will take the party direct to Manhattan Beach.

Councilman Moffett Presided.

President John T. Baker, of the City Council, was not present at the meeting last evening and Councilman Moffett filled the position pro tem with ability and credit. Mr. Buckle was the only other member absent, but as there was more than a quorum present there was no difficulty in considering the business of the evening.

Frank Fulton Writes Home.

Druggist J. H. Leggett has received a letter from Frank Fulton, who is on board the Badger off Havana harbor, the first he has received for three weeks. Fulton tells of blockading life and describes it in all its phases, and speaks particularly of the joy at the arrival of the boxes from home gives the boys.

Chief Doane Helped the Council.

At the solicitation of the fire and building committee of the City Council, Building Inspector Doane was present last evening at the meeting and was given the courtesy of floor to assist in explaining some of the amendments made to the building ordinance by the committee.

Collided on Front Street.

Charles Hummer, who is emloyed by the Paul T. Norton Co., on East Front street, collided with a woman cyclist on the corner of Park avenue and Front street this morning. The lady came out of the collision unhurt, but Mr. Hummer's wheel was broken.

Speakers at the Y. M. C. A.

Next Sunday afternoon Rev. Dr. Carlos Martyn, of New York, who is occupying the pulpit in the Trinity Reformed church during the summer, will address the young men's meeting at the Y. M. C. A. The following Sunday Robert E. Speer will speak.

Wind Causes Some Damage.

Part of a large tree in front of Captain Phillips' property on Central avenue, between Fourth and Fifth streets, was broken off during the storm last night and obstructed the road. Street Commissoner J. W. Gavett's men cut it away early this morning.

A Fine Voice.

E. W. Groeschel, who will be heard at The Hunterston next Saturday evening, has a voice of unusual range and fine quality. In all large cities where Mr. Groeschel has appeared, his voice, style and artistic feeling have been highly praised.

EXCITING TIMES FOR BOYS ON THE BADGER.

Frank Smalley Tells How Spanish Prizes Were Taken.

PROSPECT OF PRIZE MONEY

FOUR PRISONERS ALSO CAPTURED BY THE JERSEY TARS.

Many Spaniards and Cubans Voluntarily Gave Themselves to the Americans—Men are Ready to Volunteer for Hazardous Duty—Blustering Spanish Captain is Scared by a Sight of the Badger's Guns.

When anything big is going to happen New Jersey in some way always succeeds in getting her share of the glory, so when the news reached Plainfield that the Jersey tars on the U. S. S. Badger, some of whom are Plainfield boys, had captured some prizes, the above saying was verified. In a very interesting letter written to Mr. and Mrs. David C. Smalley, of East Front street, by their son, Frank Smalley, who is on the Badger, he tells something of what has happened near Cuba of late. The letter is as follows:

U. S. S. Badger,
Off Nuevitas, Cuba,
July 25, '98.

There is quite a good deal going on here now so I thought that I would let you know about it. The excitement began about three days ago. Three Cubans came along side in a little boat and told that they had just arrived from some town south of Nuevitas. It appears that the Spanish army is centering in Puerto Principle in the middle of the island. This leaves all the coast towns an easy prey to the American ships. It is a regular hand out. Spanish and Cubans came out and gave themselves up and told us that all we needed to do was to go to the lighthouse, put up the American flag and everybody in the town, including three gunboats, would be ours in less than an hour.

Those women, children and men on shore now are starving. All the Spanish men and soldiers who gave themselves up, are brought on board here. We have nine now and I don't know how many more are coming. They were left behind by the other garrison in their march to the interior to blow up the lighthouse. But contrary to orders, they overpowered the lighthouse keeper and made him bring them aboard.

They gave up their arms and ammunition and took everything very quietly. They were astonished that we were fed three times a day and the government furnished us with more than one suit.

When they reached the deck they watched us like cats, afraid that we were going to commit some heinous barbarity. When we gave them some food and clothing to those that needed it, their surprise and gratefulness was unbounded. They were allowed the freedom of the deck midships, and so they were not confined.

Here we are outside of the Spanish city, every one in it ready to give up. The gunboats would surrender at the sight of ours. The people and the Spanish soldiers were begging us to take them while we are outside waiting until some flagship comes along and sends us to some obscure position and get the glory of taking the town themselves.

The captain would only have to wait an instant for a prize crew or a landing party. Every man would volunteer, and the captain knows we would, but then he laughs in his sad, disgusted way, and says "I can't do it against orders."

There are many schooners passing, bound for the Bahama Islands. Of course we stop them, but they are allowed to proceed.

June 27th, 1898.

I have a very good reason to write this time. Yesterday afternoon about 4:30 o'clock we sighted smoke rising from a big ship in the harbor. We knew that this was one of the auxiliary cruisers because the prisoners on board had told us. The captain showed how funny he was by going to starboard at full speed so as to make the ship, which was towing two brigatines, think that we were running away.

By the time we had made the circle, the ship was steaming north at full speed. We then went ahead at full speed so as to get between them and the harbor.

This done, the captain ordered a blank shot to be fired to bring them to. They stopped at once and a boat load of armed men, with an officer, was sent to board the brig. He found that all three vessels carried Spanish flags with a red cross underneath, indicating yellow fever. They claimed

ADVANCE ON CAPITAL.

General Movement Toward San Juan By Americans.

THEY MAY NOT FIGHT

PEACE NEGOTIATIONS WILL PROBABLY STOP CONFLICT.

Gen. Miles Will Then Be the First to Enter San Juan and Take Peaceful Possession—A Slight Skirmish Is Reported.

(From the Union Associated Press.)

Ponce, Porto Rico, August 8, via St. Thomas, Dutch West Indies, August 9, 1:15 p. m.—Gen. Henry with the Sixth Illinois and the Sixth Massachusetts will move tomorrow by the way of Adjuntas on Arecibo.

The roads are in very bad condition. Practically all of our troops will then be in motion towards San Juan.

Gen. Schwan is at Yauco. Gen. Wilson is near Coamo and Gen. Brooks near Guayamo. The Porto Ricans, led by Gen. Stone, skirmished with the Spaniards near Apjuntas last night and a Spanish officer was killed.

Gen. Miles with several troops of cavalry expect to follow Gen. Henry soon.

If peace is declared promptly Miles will be the first to enter San Juan. In view of the news received relating to peace negotiations, the army officers appear to believe that there will be no more fighting.

GEN. MERRITT'S REPORT.

Tells Briefly of the Attack on American Outposts and the Defeat of Spanish.

(From the Union Associated Press.)

Washington, August 9, 12:13 p. m—The War department gives out the following despatch received from Gen. Merritt:

"Hong Kong, August 8—McArthur and troops arrived on July 31. There is no epidemic of any sickness. Five deaths are reported. Lieutenant Kerr, of the Engineers, died.

"The landing at the camp was delayed on account of the high surf. To gain the approach to the city Greene's outposts advanced to continue our lines to Camino.

"Sunday night, the Spanish attacked sharply with artillery. The outposts behaved well and had such a strong position that it was unnecessary to call out the rest of the brigade.

"The Spanish loss is rumored to have been heavy. Our loss consisted of nine killed, nine seriously wounded and thirty-eight slightly wounded.

"Merritt."

To Organize an Auxiliary.

Early in the fall the associate members of the Catholic club, who are all ladies, will meet to organize as an auxiliary association. Officers will be elected and the auxiliary will be a valuable adjunct to the club.

General Freight Agent Wyckoff Dead.

(Special to The Daily Press.)

Elizabeth, August 9.—P. H. Wyckoff, general freight agent of the Central Railroad of New Jersey, died at his home in Elizabethport this morning.

Wm. M. McCutchen, of Rockview Terrace, has returned to Belmar, after spending a few days in Plainfield.

Mr. and Mrs. G. M. Rittenhouse and children, of East Sixth street, are spending several weeks at Asbury Park.

Edward Waring, of Park avenue, is the guest of his sister, Mrs. L. G. Timpson, at her summer home at Belmar.

Harry Maxson, of West Sixth street, has gone on a cruise in Long Island Sound with a party of friends from New York.

TROLLEY TRACKS GO ON EAST SECOND ST.

From Richmond Street to Eastern Limits of City.

FRANCHISE WAS GRANTED.

ONLY ONE REMONSTRANCE AND THAT WAS NOT HEEDED.

Street Railway Company File Consents and Maps of the Route, Which Will Run Over Richmond Street From East Fifth Street—The Building Ordinance is Amended—Other Business.

The adjourned meeting of the City Council held last evening was comparatively a tame one. The very warm weather had a depressing effect on all business, and it was transacted in a reasonable amount of time. A feature of the evening was the application of the Plainfield Street Railway Company for a franchise to operate a trolley from East Fifth street through Richmond street to East Second street, and through the latter street to the city line. The company filed the required number of consents, representing all but 131 feet of the entire street. A map was also filed by the company. On motion of Mr. Barrows an opportunity was given for anyone present to speak for or against the granting of the franchise. J. B. Coward presented a remonstrance on behalf of Walter Scott and others, representing a number of feet on Richmond street, asking the Council to refuse to grant the asked-for franchise.

Thomas Nevins, Jr., of the Street Railway Company, was present, but he had nothing to say on the matter. Mr. Barrows then made a motion that the Plainfield Street Railway Company be granted a franchise to extend their tracks as petitioned for. This motion was adopted, after which Mr. Barrows offered an ordinance similar to the one granting the other franchise. He moved that copies of it be sent to each member and that the ordinance be laid over till the next meeting when the members could decide upon the conditions to be required of the trolley company.

Another feature of the meeting was the introduction of the building ordinance, amended by the fire and building committee, to meet the requests of citizens who previously appeared before the committee. By the adoption of the ordinance, as amended, the fire limits are materially reduced and other advantageous changes are made for the benefit of the people. There was considerable discussion on the ordinance as changed, but it was finally adopted and ordered advertised.

The bond of Collector J. A. Martin was presented, and after inspection by the finance committee was ordered filed, it being correct. The bond of George White for $500 as security for the keeping in repair of Sycamore avenue was also presented, but it was not wholly correct and was referred to the corporation counsel. Residents of South avenue petitioned for a fire hydrant and the same was referred with power.

Mr. Runyon brought up the matter of installing a new system of hot-water heating in the fire headquarters, and he presented specifications and a resolution for the carrying out of the work. Bids will be advertised for according to the specifications and the work that is to be done at once.

Mr. Hetfield took exception to the expenditure of several hundred dollars, and thought that it was useless. His opinion was that the present system should have lasted longer and that it ought not to require so much money to provide for the heating.

Mr. Runyon pressed his point, however, and stated that the matter was a necessity, and the point was gained.

Mr. VanHerwerden offered a resolution that when Council adjourn it be to meet one week from this evening. He then gave notice that the meeting would be held for the purpose of examining the books of the assessors.

A resolution offered by Mr. Barrows gave the commissioners on assessment an extension of time for one month to complete their report. Another resolution by the same Councilman provides for the setting of the curbing on Albert street to the proper grade as petitioned for by the property owners on that street.

After the bills, which included the one for the city flagpole, were approved, the Council adjourned to meet one week from tonight.

One Track in Use.

Owing to the fact that surface drainage pipes are being laid on Front street near Plainfield avenue, one of the tracks of the trolley is out of use. The cars are using the west-bound track temporarily.

SPANISH UNIFORM HERE

DR. SIMPSON SENDS HOME SEVERAL INTERESTING RELICS.

A Token of the Appreciation Presented by a Spanish Captain—A Number of Other Interesting Relics on Exhibition.

It brings the war much nearer home when various articles from the battlefield arrive here. A package from Dr. M. S. Simpson, surgeon of the U. S. S. Badger, was received by Druggist T. S. Armstrong this morning, containing a Spanish uniform, and a number of other articles of interest.

The uniform is one of a captain of infantry in the "Regimente de Alfonso XIII," who was a patient of Dr. Simpson, being captured by the Americans on that ship after he was shot. The uniform, which is now to be seen in the window of Armstrong's Pharmacy, is composed of a blue coat, resplendent with brass buttons and lots of braid, and red trousers with blue stripe. It is of cloth, the heaviest uniform in the Spanish army. It was presented to Dr. Simpson by its owner who felt very grateful to the doctor for his care and treatment. The Spaniard was shot right through the body with a Remington ball.

The Doctor also sent the answering pennant of the International signal code, captured on the Spanish brig, "Safe," of which Dr. Simpson was one of the boarding officers.

The package included a piece of Spanish hardtack, labeled "La-Canonera." It was of the best quality like that furnished the officers. The men get a very inferior article. It has not a particularly inviting appearance however. There was also a Mauser cartridge, the kind used by the Spaniards, also some black beans, "faijoles," which form the main food of the Spanish and Cuban people.

These curios are now to be seen in the window of Armstrong's Pharmacy.

WANT A STREET MACADAMIZED.

West Fourth Street Residents Prepared to Petition the Council.

Residents and property-holders on West Fourth street, between New and Liberty streets, are circulating a petition, which will be presented to the Common Council, asking that that portion of the street be macadamized. Jeremiah VanWinkle is obtaining signatures, and has already secured the names of all except six property-holders. The petition was submitted to the Street Commissioner last month, but as there were only a majority of the owners' names signed to it, the Commissioner suggested that the others be asked to sign, thus making the petition unanimous and entitled to more consideration.

Lawyer Sued for His Fee.

Judgment was rendered in Justice Mosher's court yesterday afternoon in the case of W. K. McClure against Jacob Sadosky, of Scotch Plains, for $21.13, the amount claimed by the plaintiff as a balance on a bill for services rendered. Sadosky is a wealthy land owner at the Plains, and has retained Mr. McClure in several suits as his lawyer. In settling up the accounts this balance of $21.13 could not be agreed upon, and Sadosky refused to pay it. William Sweeney appeared for the plaintiff.

Biggest Meeting Yet.

Sunday afternoon's meeting for young men, at the Y. M. C. A., was the largest meeting of its kind held in the Y. M. C. A. since those services were instituted. According to actual count there were 243 present. This is considered a very good attendance, especially as it occurred in the month of August, the worst month in the whole year for churches and religious organizations.

To Attend the Convention.

It is the intention of Mrs. W. S. Lowry, president of the Christian Endeavor Society of the Park Avenue Baptist church, to induce as many members of her society to attend the State convention in Asbury Park this fall as possible. It is probably that a large number will go, as the entire cost of the trip will be only $5.50, including board.

The Consents Are All Right.

The consents obtained by the Plainfield Street Railway for the right of way through Richmond street, which were filed at the meeting of the City Council last evening, were attested correct by H. C. Van Emburgh, who has examined each consent and found that they are all right.

Cut by a Scythe.

The little son of Walter Freeman, of First place, was badly cut with a scythe yesterday afternoon. The man employed to cut the lawn had just completed his work and was dragging away the scythe while the lad was playing about it. The wounds, while serious, are not dangerous.

CENTRAL MEN SAY THAT TRAINS ARE TOO HEAVY

Railroad Employes Talk Over Their Differences.

NO LIKELIHOOD OF STRIKE.

DISPUTED MATTER WILL BE ADJUSTED SATISFACTORY TO ALL.

Past Grand-Master Wilson, of the Brotherhood of Locomotive Firemen, Discusses the Matter and Does Not Apprehend Any Serious Trouble—What Legislation is Wanted for Laboring Men.

(Special to The Daily Press.)

Wilkes-Barre, Pa., August 9—Another meeting of the New Jersey Central Railroad men was held at Ashley Sunday night, and, after a public entertainment, the members of the five orders met in secret session. The members will say little as to what was done, beyond the fact that the object of the meeting was to talk over the differences that now exist between the Central and its employes, and to arrange matters for the acceptance of a plan to support men for the Legislature and Congress who will legislate in favor of the laboring men.

C. H. Wilson, Past Grand-Master of the Brotherhood of Locomotive Firemen, and chairman of the general grievance committee, expressed himself as feeling confident that the differences between the Central Railroad Company and the railroad men would soon be adjusted in a manner satisfactory to all concerned. Referring to the troubles now existing, he said: "Of course we do not wish to dictate to the company just how many cars it shall put on a train, but we do say if the company wants big trains hauled it should put enough men on to protect the employes. Trains have been leaving Penobscot for tidewater with 22 cars, with an aggregate weight of 2,100 tons. With a train of this kind the employe must assume too much responsibility, and, besides, it makes his occupation more hazardous. I understand the company has in the last few days reduced the weight of these trains to 2,000 tons, but this is still too much for the crew. There should be a brakeman for every twenty-five cars."

In answer to a question as to what the present policy and object of the organization which he represent is, he said: "There are three bills which we want passed: First, to create railroad commissioners, the injury bill, and limiting a certain number of cars for each train. The injury bill provides that in the event an employe is hurt while in the service and should suffer the loss of a limb he shall receive a monthly salary of $50. We also want ten hours to constitute a day's work."

DR. PETERS AT CAMP MEETING.

Noted New York Divine Consents to Talk Thursday Evening.

There was not a large audience at the camp meeting in Netherwood last evening, probably owing to the threatening storm. Despite the lightning that was frequently illuminating the western horizon, Rev. Dr. Coster conducted the meeting as usual. The service was rather short, however, to allow the audience to depart before the rain came.

Tomorrow evening Miss Lizzie Babbitt, the great colored woman evangelist, will be present and speak. Thursday evening will see a particularly important service. Rev. Dr. Madison C. Peters, the celebrated New York divine, who is spending the summer in Plainfield, will address the meeting. The Hunterston orchestra will be present and will assist in the music. Besides there will be some of the real old-fashioned camp meeting hymns by a colored male quartette.

Didn't See the Signals.

A mixed coal and freight train going west this morning broke in two near Church street. The engineer did not see the frantic signals given by Edward Martin, the porter, and kept on as far as Dunellen where he was stopped by a telegram and was forced to back down and pick up the cars. Another train, directly behind the first one, was forced to wait until the first train got out of the way.

Feared the Policeman.

Last Sunday afternoon, Mr. Angleman, of West Front street, found a lot of young loafers congregated back of his house near the brook and they were using indecent language. He asked them to desist and to move, but they refused. Finally, Mr. Angleman was obliged to get the services of Patrolman Flanagan. When the latter arrived the boys were missing. Mr. Angleman is determined to break up the daily occurrence.

TO CAPTURE SAN JUAN

A Concerted Movement Is Begun on the Porto Rican Stronghold

BRIEF CAMPAIGN ASSURED

It is Expected That in Ten Days the Entire Island Will Be Under American Control Some Fighting is Expected. The Natives Would Like to Help. The People Want American Rule

Ponce, Porto Rico, Aug. 7, via Sa. Thomas, Aug. 8.—The movement of the American army to San Juan and Arecibo began to-day, and the beginning of the end of the Porto Rican campaign is at hand. In ten days at the longest, unless all signs fail, the entire island of Porto Rico will be occupied and San Juan itself reduced.

The belief in Ponce now is that there may be one or two fights, but nothing like the fight before Santiago. The first troops to move to-day were the Second and Third Wisconsin of General Ernst's brigade.

The Sixteenth Pennsylvania of General Ernst's brigade moved yesterday to the Descalabrado river, and the two regiments of Wisconsin troops were ordered to support them. At the same time General Wilson, with his staff, moved his headquarters from Ponce to Juan Diaz, near the front. Troop C of the New York cavalry preceded General Wilson, and at 1 o'clock this afternoon the City Troop of Philadelphia started on a forty mile march along the coast road to join General Brooke at Guayama. Troop H of the Sixth cavalry accompanied them. Gen. Brooke has moved the Fourth Pennsylvania volunteers up to Guayama to join the Fourth Ohio and Third Illinois.

Schwan's brigade, the Eleventh and Nineteenth regulars and two batteries of light artillery, started at 2 o'clock for Arecibo. One battalion of the Nineteenth infantry and Colonel Black, with 500 Porto Rican laborers, took the Adjuntas road. Their ultimate destination is Arecibo, but they will repair the road on the way. All the expeditions were under way before dark. General Schwan was accompanied by Colonel Fajardo, who has been commissioned by General Miles to command the First regiment of Porto Rican volunteers. General Schwan has gone to Yauco, thence to Sabana Grande and San German. The last named place is an important city, with 30,000 inhabitants in its jurisdiction, and its people are noted for their intense loyalty to Spain.

From that place he will go west to Cabo-Rijo, and from there to Mayaguez, the third city of importance on the island, and having the third largest Spanish garrison. The garrison there includes a battalion of the Alfonso XIII regiment. Reports from Mayaguez say that the Spaniards there will make a stiff fight. There are some fortifications there and the place is easy to defend.

Up the coast the next place is Aetasco, an important coast town, and then Aguadilla, on the northwest coast, where there is another big Spanish garrison. This is composed mostly of volunteers, however.

The town is situated in a valley and mountains surround it. There is a fort on the north side. The population is three-fourths Spanish.

A fight is expected there, but the big fight of this division, if there is any, will come when General Schwan reaches Lares, in the interior. This is an important strategic point and an ideal place to defend.

Reports have been received from many sources that the Spaniards are preparing to make a stand there. The troops have been summoned from the surrounding country and what modern guns they have are being mounted. From Lares General Schwan will go direct to Arecibo, where he will meet Colonel Black's battalion.

Thus the island west of a line drawn from Ponce to Arecibo will be entirely occupied by the Americans. General Schwan took with him 2,000 rifles and 200,000 rounds of ammunition.

Colonel Fajardo asserts that the people of the island, even in the Spanish towns, want American rule. In each city visited while American government is being established he will organize a company of volunteer guards.

To Welcome the Victors

New York, Aug. 9.—Initial preparations for the grand welcome home to the troops at the front were made at a meeting of veteran soldiers held at the Waldorf-Astoria.

They had been called together to take the first steps in arranging for a mammoth demonstration in honor of the boys who wear the blue.

General C. H. T. Collis presided at the meeting, which was attended by officers who fought during the late rebellion.

A committee consisting of Major Daniel E. Sickles, General Daniel Butterfield and the chairman of the meeting, were appointed to confer with the president, the governor of the state, and the mayor of the city, with a view to arranging for a fitting welcome to the troops returning to their homes, to take place after they have rested at Montauk Point.

Labor day was suggested as a favorable date for the big reception.

Camp Black Men Expect Discharge

Camp Black, Hempstead Plains, L. I., Aug. 9.—The shower baths were in demand yesterday and the soldiers were cooled off in squads after they had finished drilling.

The men discussed the prospects of their being mustered out of the service on account of peace being almost certain.

Many of them would like to be sent to Cuba, Porto Rico, the Philippines or Hawaii, to do garrison duty when the war ends, but they do not consider their chances bright.

Commisoners Arrive in San Francisco.

San Francisco, Aug. 9.—The Hawaiian commissioners, Senators Cullom and Morgan and Representative Hitt, have arrived and will sail for Honolulu on the Mariposa on Wednesday.

The party, which embraces several members of the commissioners' families, and secretaries and clerks, was heartily welcomed along the route.

DULL DAYS IN CAMP.

Practice Marching, Target Shooting and Waiting on Paymaster at Chattanooga.

National Military Park, Chickamauga, Aug. 9.—After a nine mile march to Ringgold, Ga., yesterday, the Signal Corps, which has been stationed at Camp Thomas for some time, left on a special western and Atlantic train for Newport News. The train goes via the Atlanta and the Seaboard Air line. The seven regiments included in General Wade's Porto Rican expedition are still awaiting moving orders.

The paymasters began their work to-day. This work will be done as rapidly as possible, but probably will consume at least ten days. During the next few weeks a strong provost guard will be maintained at Chattanooga to prevent disorder.

A novel target practice was commenced in the Second brigade, Second division, First Corps, to-day. Colonel Smith, acting brigade commander during the absence of General McKee, who is commanding the division, has ordered six companies to fire each day. Instead of firing at the regular targets they will fire at pictures of men in a prone position. In other words they will be trained in shooting at men in trenches.

Work on the new George M. Sternberg hospital was begun to-day. This hospital is being arranged under the supervision of Colonel Hoff, an officer especially qualified for the work. It is located at the foot of Lytle Hill, close to General Breckinridge's headquarters.

TROOPS TO LAND IN MONTAUK.

Transports Will Not Come to This Port.

New York, Aug. 9.—According to information received here from Washington the war department has abandoned its plan of having the troops from Santiago come to this port. The Rough Riders and all other soldiers who have been ordered north will go direct to Montauk Point, landing at Fort Pond. Should the weather be unfavorable upon their arrival, they will lie at anchor in Gardiner's bay until they can go ashore safely.

Sigsbee to Command the Texas

Washington, Aug. 9.—Two important changes in the command of vessels of the navy were announced last evening by Secretary Long. Captain Charles P. Sigsbee, who commanded the battleship Maine when she met her fate in the harbor of Havana, and who has been in command of the cruiser St. Paul since the war began, has been ordered to relieve Captain John W. Phillip in command of the battleship Texas, now undergoing repairs in New York. It is understood that Captain Phillip will be assigned to shore duty, probably the command of the Mare island navy yard, at San Francisco.

Spanish Prisoners Embark

Santiago de Cuba, Aug. 8.—General Shafter and the Spanish general, Toral, held a consultation in the palace this afternoon with regard to the embarkation of the Spanish prisoners of war. As a result, 1,000 of the Spanish sick and wounded will be taken on board the Alicante to-morrow morning and sent to Spain as soon as the vessel is properly loaded.

There is to be no bunching or waiting of transports. Each will sail as soon as it can be loaded after arrival here.

Three Transports Sail from Santiago

Santiago de Cuba, Aug. 8.—The transports Miami, Matteawan and Vigilancia, loaded with United States troops, sailed for the United States this morning.

To-morrow the transport Grand Duchess will sail, with 742 men and officers of the Thirteenth infantry and six companies of the Seventy-first New York, aggregating 458 men and officers.

Doubts About Saving the Colon

Playa del Este, Province of Santiago de Cuba, Aug. 8.—The Merritt & Chapman wrecking steamer Potomac has arrived at the scene of the battle of July 3, and has visited the Cristobal Colon. The wreckers report her to be in a bad situation and they fear it is impossible to save her.

Has Its Advantages.

"I suppose you are very glad that Mrs. B.: "I wish you'd pay a little attention to what I say."

Mr. B.: "I do, my dear—as little as possible."

PERSONAL NOTES.

Sir John Herschel's opinion of great novels was put into these words: "The novel, in its best form, I regard as one of the most powerful engines of civilization ever invented."

Jules Verne, now 70 years old, is living at Amiens, France, in robust health and spirits. He recently told a friend that the hardest work he ever had to do was to read up the stories of travellers in order to write his own stories, for he has travelled very little.

The inventor of Volapuk, Johann Martin Schleyer, is a retired Catholic priest at Constance, Germany. He first advanced his ideas in 1879. He was born in 1831 at Oberlauda, in Baden, Germany. At present he lives in Constance. His first grammar of Volapuk appeared in 1879. Schleyer is said to be more or less familiar with fifty languages and to be a poet as well as a musician.

Dr. Ida M. Stevenson, a Methodist missionary physician in Tientsin, China, sometimes has two hundred and fifty patients to treat in a single day. The strain on the strength, the sympathies and the skill of a medical missionary, brought into contact day by day with dreadful cases of poverty, suffering, vice and degradation, cannot be imagined.

Admiral Sampson is a religious man. He is a member of the Presbyterian church of the Covenant in Washington, and the Men's society, which is a literary club connected with the church. He was always regular in his attendance during the several years he was stationed in Washington and took a great deal of interest in philanthropic work.

THE ANSWER OF SPAIN

Received at French Embassy in Washington Yesterday.

AWAITED BY THE CABINET

Said to Be Subject to the Approval of the Cortes. Apprehensions of Possible Complication Through Further Correspondence. A Conference at the White House.

Paris, Aug. 9.—Senor Leon y Castillo, the Spanish ambassador, has presented to the French minister for foreign affairs, M. Delcasse, Spain's reply to the peace terms of the United States, and it was cabled to Washington yesterday.

Madrid, August 8.—The Liberal this morning, speaking of the reply of the Spanish government to the American peace conditions, which was approved by the cabinet council and queen regent yesterday and ordered telegraphed to Senor y Castillo, the Spanish ambassador at Paris, for transmission to M. Cambon, the French ambassador at Washington, says: "The government accepts the United States' conditions ad referendum, believing it is not authorized to cede territory without the vote of the Cortes. If President McKinley objects, the Cortes will be convoked this month. A fresh note from President McKinley, replying to Spain's reply, is expected during the course of this week."

The Liberal expresses the opinion that "certain passages of Spain's reply may lead to an exchange of cable messages of a critical nature, possibly creating fresh difficulties."

London, Aug. 9.—Although there are fears of possible complications, the acceptance of the peace terms by Spain strengthened prices all around on the Stock Exchange, especially in the case of American and Spanish securities, though the business done was not extensive, in view of the settlement.

Washington, Aug. 9.—At the conclusion of the cabinet meeting yesterday it was announced that the official notification of Spain's acceptance of our terms had not yet been received. The president's expectation is that he will receive the formal acceptance early to-day.

At 2.40 p. m. a dispatch was received at the French embassy, and it is believed to be Spain's answer.

Spain's answer is coming with a slowness almost painful in view of the earnest desire to know whether the acceptance is complete or qualified. The French ambassador and his staff awaited it until a late hour Sunday night.

No less than five translations, four of them cipher, are involved in the transmission between Madrid and Washington. After the Spanish cabinet meeting last night the response was reduced to the Spanish cipher, and then sent to the Spanish ambassador at Paris, Senor Leon y Castillo, by whom it was to be deciphered and translated into French, after which Senor Leon y Castillo was to deliver it to the French foreign office, for transmission to the French ambassador here.

These moves, including work on the cipher code, calls by Senor Leon y Castillo on the foreign office at Paris, and time required for cabling, were calculated to take about eight or ten hours. Under the circumstances the impression prevailed in all official quarters up to midday that the response would not be placed in the hands of the president until quite late to-day at best, and more likely not before to-morrow.

The impression is growing in official quarters that the Spanish answer, while in the nature of a concession of the American demands, is not a brief and simple acceptance without reservation or condition. There is no direct official advice on this point, but all the press advices from Madrid indicate that the response is a document of considerable length, prepared with laborious care, and that it has several features which may not appear in the conditions presented by the United States. Whether an acceptance of this character will be regarded by the authorities here as sufficiently responsive to the American demands is a matter exciting much conjecture to-day. In some quarters it is urged that so long as Spain accepts the essential principle required by the United States, the disposition here will be to deal with the defeated enemy in a generous spirit on minor details. It is probable that this will be the view presented by the French ambassador in case the Spanish reply is not a simple, categorical acceptance of the American terms.

It is probable that the Spanish reply will be in the hands of the government in time for consideration at the cabinet meeting to-day, when the sufficiency or insufficiency of the response can be determined.

Gen. Poland Dead.

Asheville, Aug. 9.—Brigadier General John S. Poland died here yesterday of fever contracted at Chickamauga.

The remains will be taken to his home in New York state.

General Poland was formerly colonel of the Seventeenth infantry, receiving his brevet rank of general when war was declared. He was born in Indiana and entered the service in 1856. He gained distinction during the war of the rebellion, being promoted in 1862 to the rank of major for gallant conduct at Antietam, and to colonel in 1863 for gallant and meritorious services at Chancellorsville.

Fatal Railroad Accident.

Canton, Mass., Aug. 9.—Three men were killed and a number of mail clerks badly injured and badly shaken up in an accident at Canton Junction, on the New York, New Haven and Hartford Railroad, Monday morning, in which an express mail special from New York to Boston jumped the track.

Silver Dollar Counterfeiter Arrested.

Marshall, Mich., Aug. 9.—William S. Kulp has been arrested here for making counterfeit silver dollars. His complete outfit of dies, furnace, milling machine, metal, etc., was secured. Kulp has served one sentence for passing counterfeit money, being convicted in the United States court at Grand Rapids.

New Jersey's Greatest Store.

SPRAGUE & CO. ARK.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

PROPOSALS

To construct, maintain and operate a Street Railroad in North Avenue from Orchard Street in the City of Elizabeth, to Richmond Street in the City of Plainfield, etc.

The following resolutions were adopted by the Board of Chosen Freeholders of the County of Union, N. J., at a meeting on Thursday, July 14th, 1898, viz:

RESOLVED, That it is the intention of this Board to widen, straighten and change the grade and otherwise improve Westfield or North Avenue between Orchard Street in the City of Elizabeth and Richmond Street in the City of Plainfield, in order to provide for the construction and convenient operation of a street railroad thereon; said proposed widening, straightening and change of location being shown on a map, consisting of fifteen sheets, this day adopted and filed in the office of the Clerk of the County, and be it further

RESOLVED, That propositions to construct, maintain and operate a street railroad on North Avenue from Orchard street in the City of Elizabeth to Richmond Street in the City of Plainfield, and on Orchard Street in the City of Elizabeth from Westfield or North Avenue to Morris Avenue, and in Plainfield on Richmond Street from North Avenue to Third Street and thence on Third Street to Watchung Avenue, and on West Jersey Street and Barway in the City of Elizabeth from the present terminus of the street railroad on West Jersey Street to Westfield Avenue, will be received and considered by this Board on the Fourth day of August, 1898, at the hour of half past two o'clock in the afternoon of that day, at the Court House in the City of Elizabeth, N. J., in pursuance of an act of the last legislature entitled "An act to authorize boards of chosen freeholders to widen, straighten, grade and otherwise improve highways under control, and to provide for the construction of street railroads thereon," and that at said time and place all parties interested in said matter may be heard; and be it further—

RESOLVED, That this resolution shall be published in the Elizabeth Daily Journal and the Daily Leader, published in the City of Elizabeth, N. J., the Cranford Citizen, published in Cranford, N. J., the Union County Standard, published in Westfield, N. J., the Courier-News and Daily Press, published in Plainfield, N. J., once in each week until said Fourth day of August.

7 3 oaw-tu S. RUSLING RYNO, Clerk.

In Chancery of New Jersey.

To Samuel H. Kellogg and Sarah C. Kellogg, his wife, and Caroline M. Coolidge and Henry L. Coolidge, her husband

By virtue of an order of the Court of Chancery of New Jersey, made on the day of date hereof in a cause wherein Phebe M. Sprague is complainant, and you and others are defendants, you are required to appear, plead, demur or answer to the bill of said complainant on or before the twenty-seventh day of September next, or that in default thereof such decree will be made against you as the Chancellor shall think equitable and just.

The said bill is filed to foreclose a mortgage given by Samuel Kellogg and Eliza S. Kellogg, his wife, to Gottlieb Fritz, dated October 25, 1876 and recorded in book, No. 40, of mortages for Union County, on page 573, etc., on lands in the city of Plainfield, in Union County, New Jersey, and held under assignment by said complainant, and you, Samuel H. Kellogg and Caroline M. Coolidge are made defendants because you own said lands or some part thereof, and you, Sarah C. Kellogg, are made defendant because you are the wife of said Samuel H. Kellogg and may thereby claim an inchoate right of dower in the portion of said mortgaged lands owned by your said husband.

And you, Henry L. Coolidge, are made defendant because you may claim an interest as tenant by the curtesy in the portion of said mortgaged lands owned by your wife, Caroline M. Coolidge.

Dated July 26, 1898.

JOHN H. VAN WINKLE,
Solicitor of Complainant,
Plainfield, N. J.

TAMPA TROOPS EMBARK.

Rough Riders Leave for the Northern Camp. The Porto Rico Expedition.

Tampa, Aug. 9.—The movement to Montauk from Tampa is about complete. The last troops to leave for that point were about 450 of the Rough Riders who did not go to Cuba. They got away yesterday.

The only troops remaining here now are those designated to go to Porto Rico. The city is still excited by the raid made on the city and county jails on Saturday night by a number of the negroes belonging to the Ninth cavalry. A race riot was almost precipitated.

Governor Bloxham has taken the matter up and will demand the return of the offenders by the general government.

Three transports are now at the docks at Port Tampa loading for Porto Rico. The work is being pushed as rapidly as possible, and the troopships Clinton, Yucatan and Santiago may be ready to sail to-day. Four others were released from quarantine to-day and will take the place at the docks of those now loading. The Fifth infantry has already begun to go aboard ship and General Coppinger will go aboard today, unless orders from Washington change the present programme.

PLANS FOR EASTERN SQUADRON.

Vessels Will Sail for Spain If Her Answer is Not Satisfactory.

Washington, Aug. 9.—The auxiliary cruiser Yosemite is being held at Newport News, Va., awaiting orders to convoy several colliers to wherever the government may direct. According to information obtained to-day the sailing of the eastern squadron to which the Yosemite is attached, is dependent upon the character of the Spanish answer to the American peace terms.

It is understood that if the Spanish response is not satisfactory the eastern squadron will leave Guantanamo and the Yosemite will leave Newport News to meet at a rendezvous not a great distance from the continent of Europe, the Yosemite convoying the colliers to that place.

The navy department will neither affirm nor deny the report that Admiral Sampson has been assigned to the command of the squadron, with Commodore Watson in charge of the second division.

Sixth Cavalry Arrives.

New York, Aug. 9.—About 600 members of the Sixth United States cavalry, representing the remnant of the regiment kept in camp at Tampa, Fla., reached Jersey City at 3.30 o'clock yesterday morning and were transferred to Montauk Point during the day. These are the first of the troops to be installed at that place, in accordance with the orders issued at Washington several days ago. The men and their horses and camp equipage were sent from Jersey City to the Sixty-fifth street ferry, and by noon two trains, one of twenty-three and the other of seventeen cars, had left the yard of the Long Island Railroad Company at the foot of Sixty-fifth street and were speeding toward Montauk. In these trains were taken about 1,400 horses and all of the tent and camp equipage. The remainder of the troops were sent to the ferry later in the afternoon.

The Blue and the Gray.

Philadelphia, Aug 9.—The week's encampment of the Confederate survivors of Pickett's division and Union veterans of the Philadelphia brigade on the New Jersey side of the Delaware river, was opened yesterday.

The veterans held a short street parade in this city and visited Independence hall, where they were welcomed by Mayor Warwick. Speeches were made by Comrade Frazier of the Philadelphia brigade; Colonel A. K. McClure of the Philadelphia Times, General William A. Hemphill of the Atlanta Constitution and Congressman John Lamb of Virginia.

Mrs. Pickett, widow of General Pickett, accompanied the veterans to Independence hall and the camp grounds.

Texas Nearly Ready.

Brooklyn, Aug. 9.—The work of repairing and overhauling the battleship Texas has progressed with such rapidity and success, since she was floated into dry dock last Tuesday, at the navy yard, that it is said that she will be out of dry dock by the end of the week. The work of cleaning her under boy of sea growth and barnacles is practically completed, and as soon as the bottom can be sandblasted and painted she will be ready to be floated out of dry dock. After she is taken out of the dock she will take on stores and ammunition, when she will be ready for service again. Captain Phillip said today that he had no idea what the destination of the Texas would be when she left the yard.

Death of Dr. James Hall.

Albany, Aug. 9.—A telegram has been received here announcing the death of Dr. James Hall, one of America's best known scientists, and the state geologist of New York since 1837. The aged scientist died Sunday in Echo Hill, up among the White Mountains, in the town of Bethlehem, N. H., where he had gone three weeks ago alone, but apparently in his usual health.

Dr. Hall, though 87 years of age, had but recently returned from a trip to Europe, where he attended a conference of the leading scientists of the world, held at St. Petersburg, Russia.

New Japanese Gunboat.

Chicago, Aug. 9.—Nine Japanese officers passed twenty-four hours in Chicago on their way to Philadelphia, where they will place in commission the nearly completed cruiser Kasagi. The party includes three commissioned officers and six petty officers.

Captain Kosiwayujhema, who will command the Kasagi, has been in Philadelphia since his ship was launched, supervising its completion, accompanied by a few officers. The rest of the officers and a crew of 260 seamen will pass through the city six weeks hence, when it is believed the ship will be ready.

Prisoners Embark for Home.

Washington, Aug. 9.—The quartermaster general has received a dispatch announcing that the Spanish transatlantic liner Alicante had arrived at Santiago. The Alicante is now loading with Spanish prisoners for Spain. She will carry 1,900 men.

THOSE HOSPITAL SHIPS

Shafter Says He Is Not at Fault For their Terrible Condition.

ACCUSES GEN. STERNBERG

The Report on the Concho and Seneca Received. Shafter Blames the Quartermaster and Medical Department. The Army Has Never Had a Sufficient Supply of Medicines.

Washington, Aug. 9.—A full explanation from his standpoint of the neglected condition of the sick and wounded carried from Santiago to New York on the transports Concho and Seneca has been made to the war department by General Shafter. The adjutant general has received a telegram from the general which throws some light on the conditions existing in Santiago at the time the transports left there.

Almost unqualifiedly he puts the blame on Surgeon General Sternberg for the suffering which attended the voyages to New York, and he declares in no uncertain language that he will not submit to criticism for unfulfillment of responsibilities which belong to the surgeon general.

General Shafter distinctly answers the repeated statement of General Sternberg that the commanding general or "line officers of the army" have failed to allow the prompt shipment of medical supplies, and he declares that at no time was ample provision made by the medical department for the needs of the army.

The commanding general reports that the Seneca and the Concho were ordered to stop at Siboney and report to Dr. La Garde to carry convalescents home.

The water supply, he says, should have been attended to by Colonel Humphrey, the officer of the quartermaster's department in charge, but that Humphrey had since reported that the captains of the ships did not ask for water.

This is an admission on the part of the quartermaster that he left the question of water supply for the sick soldiers entirely to the captains of the ships, who of course were interested only in the water for their crews. General Shafter further says that acting assistant surgeons Hicks and Bird, who accompanied the Seneca, were supplied "with such medicines as could be spared," and that Dr. La Garde says "the best was done that could be done under the circumstances."

Dr. La Garde has told the commanding general that the Medical Corps was short of help and nearly everything else, but that the officers in charge did all they could.

General Shafter says that the army has never had enough supplies for its needs, and that on three occasions the command has been totally without medicines.

He says distinctly that this was the fault of the administration of the medical board.

General Shafter says that the shortage of water was inexcusable, and the blame for this he places distinctly with the quartermaster's department. This statement is striking, in view of the fact that Colonel Humphrey was accused of inefficiency while at Tampa in charge of transportation.

The telegram of General Shafter has this concluding paragraph: "Referring to the convalascents on the Yucatan, the same remarks apply as to medicine and attendants. There is no excuse for lack of food, as there has at all times been plenty of that. I have no doubt that many more were put on the ship than should have been owing to the great desire to get home, as they had the fear of yellow fever and were almost wholly without hospital accommodations. The sick and wounded had only the clothing on that they wore into the battle, and of course that was ragged and worn out by the time they reached home. There was none to issue to them at the time they left, and their own extra clothing they could not get at.

"There has never been a case of suffering here that could be remedied by the means at hand that was not attended to. The surgeons have worked as well as any men that ever lived, and their complaint has been universal of lack of means and facilities. I do not complain of this, for none could have foreseen all that would be required, but I will not quietly submit to having the onus laid on me for the lack of general states that if men came away these hospital facilities. I understand from the public prints that the surgeon unsupplied it was the fault of the commanding general. Such is not the case."

This message is not the only one of the kind which the war department has received in regard to the bad administration of the Medical Corps, but the dispatches are being carefully suppressed by the authorities.

Curzon to Be Viceroy.

London, Aug. 9.—The Evening News says it learns positively that Mr. Geo. N. Curzon, the parliamentary secretary for the foreign office, has accepted the vice royalty of India, in succession to the Earl of Elgin.

The India office informs the Associated Press that it is unable to definitely confirm the report, but the indications point, it is said, to Mr. Curzon's appointment as viceroy of India.

Five Persons Drowned.

Portsmouth, N. H., Aug. 9.—Five persons were drowned by the capsizing of a boat in the Piscataqua river, near Dover Point, yesterday. The drowned were Mrs. Wolfgang Geiger and her two children and two children of Alexander Green, all of this city. The body of Mrs. Geiger was recovered this morning.

Gen. Wheeler Leaves Santiago.

Santiago, Aug. 8.—General Wheeler has sailed on the Miami.

Seven hundred and fifty men of General Kent's division, the Sixth infantry and the Thirteenth infantry, sailed today by the Vigilancia.

No Grace for Colombia.

Rome, Aug. 9.—The Italian government has decided not to grant any further extension of time to Colombia in the settlement of the Italian claims.

SICKNESS IN THE ARMY.

Shafter Says 75 Per Cent of the Men Had Malaria.

Washington, Aug. 8.—The following telegram from General Shafter was made public to-day by the president;

"I can very readily see what intense excitement the publication must have occasioned; a great deal more than the situation warranted. Situation is greatly aggravated from the fact that before any of the men were taken ill they were thoroughly exhausted. At least 75 per cent. of the command had been down with malarial fever, from which they recover very slowly and are in no condition to stand an attack of yellow fever or dysentery. Placed here now in the same condition in which they were when they came here, I do not believe they would be in any particular danger. The regiment of immunes that recently arrived is not suffering at all, and I don't believe they will. They can keep out of the sun, are well fed and well clothed. What put my command in its present condition was the twenty days of the campaign when they had nothing but meat, bread and coffee, without change of clothes, without any shelter whatever, and during the period twice as stormy as it has been since the surrender. Fresh troops reaching here in the middle of August with good camps, good water, abundance of tentage, which they will find here, need not apprehend serious danger. I thank you for the high regard in which you hold my command and the value of the services they have rendered. It pays for all the sufferings we have endured. I have read this to Generals Wheeler, Lawton, Bates and Kent, who concur with me in the view expressed above."

What General Shafter refers to in the first sentence of the dispatch is the publication of the general's round robin demanding the removal of the troops from Santiago, and also Colonel Roosevelt's letter to General Shafter in which he asked that the troops be sent north.

From Camp Merritt.

San Francisco, Aug. 9.—The big transports Scandia and Arizona may sail for the Philippines by the end of the week, but not before. There is a growing belief that they will not carry as many men as was at first intended and that the beginning of peace negotiations will mean the mustering out of most of the troops remaining at Camp Merritt and the Presidio.

General Merritt has now with him or on the way to Manila 15,000 men.

Nearly five thousand tons of commissary stores will go on the Scandia and Arizona.

The only movements of troops during the early part of the week will be the beginning of their march to the Yosemite of the Utah cavalry, and perhaps the sailing of 150 members of the First New York regiment on the transport Mariposa.

No arrangements have been perfected yet for the rest of the regulars, and they are likely to remain here for several weeks, unless some vessel not now in sight takes them.

Major General Merriam himself is anxious to get to Honolulu to look over the new territory added to his department, but he states positively that he will not leave here until the way is clear to send all the troops ordered to sail for Manila.

The Cubans Will Keep on Fighting

Santiago, Cuba, Aug. 8.—General Calixto Garcia and his twelve hundred insurgents have stopped drawing rations, and Garcia has left the province in high dudgeon because the United States authorities refused to permit him to take up the reins of government of the province. The last heard of him he was west of Holguin, proceeding toward Nuevitas, in the province of Puerto Principe. His purpose is probably to form a junction with General Gomez, who is supposed to be in Santa Clara province.

Gomez proposes to continue his guerilla warfare regardless of any armistice between the United States and Spain. It is understood that Gomez and Garcia will send to Washington a joint protest on behalf of the so-called Cuban government against General Shafter ignoring the claims of the insurgents to administer the affairs of the conquered territory.

To Start a Big Felt Plant.

Chicago, Aug. 9.—Armour & Co. have decided to go into the manufacture of felt on a large scale. They have made common felt for some time, and having all the material necessary for it, they are enabled to do it cheaply. The recent failure of the works at Dolgeville, N. Y., has induced the packer to enlarge his works and make them the largest felt manufactory in the world. All grades of piano and tailoring felt will be made. The new factory will employ 300 men. A number of workmen formerly employed at Dolgeville will come here.

Shamrock Will Cost $300,000.

London, Aug. 9.—Will Fife, Jr., the boat designer, to whose designs the new racing cutter Shamrock, ordered by Sir Thomas Lipton, is to be constructed, confirmed in an interview today all of the details concerning the yacht which have already been cabled to this country.

He added that the cutter would cost 60,000 pounds and that he was confident she would win the America cup.

Pope Writes to Italians.

Rome, Aug. 9.—A papal encyclical letter has just been issued, addressed to the bishops of the various dioceses of Italy. It deplores the suppression of the Catholic clubs and societies, which was ordered by the government as a sequel to the recent riots, and confirms the papal veto upon Catholic Italians participating in political elections.

Adolph Sutro Dead.

San Francisco, Aug. 9.—Adolph Sutro died this morning. He had been in ill health for a year or more, physically and mentally.

He was the builder of the now famous Sutro tunnel and at one time mayor of this city.

Novelist Ebers Dead.

Munich, Bavaria, Aug. 9.—A dispatch from the Villa Ebers at Tutzing near this place, announces the death of Geo. Maurice Ebers, the Egyptologist and novelist. He was born in Berlin in 1837.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

The New Trolley Franchise.

The Plainfield Street Railway Company has finally found a successful route for its eastern extension. Since it acquired considerable more than the number of feet of right of way needed along the proposed route, and the protests were neither aggressive nor so very well founded, the Common Council viewed the interests of the city in a good light when it granted the franchise and advanced the ordinance so that the improvement can be made as early as possible.

But in the light of recent developments in extension of trolley systems in this section the granting of this franchise takes on a new phase which heretofore has been shrouded in uncertainty. The offer of $250,000 by John Kean for the franchise between Elizabeth and Plainfield certainly makes an entering wedge for the question "Is not the franchise granted last night worth as much, in proportion, to the Plainfield Street Railway Company as the franchise across the county is regarded by the shrewd business intellect of John Kean?" We think it is.

But perhaps in view of the fact that these public transit franchises in this section have only lately come to be regarded as something more valuable than to be given away and the public and official minds have not yet thoroughly appreciated the new principle, it would not be fair to criticise the Council for not having secured a liberal cash bonus for the franchise.

We have not yet seen the ordinance granting the rights to the trolley company, but a knowledge of the makeup of the street committee, which has the matter in charge, suggests that the city has not been entirely left out in the cold in the matter of gaining advantage by the deal.

No Likelihood of Trouble.

The fact that at least 2,000 Plainfielders depend upon the uninterrupted service of the Central Railroad of New Jersey every day as a part of their business life, makes any differences between the company and its employes of supreme interest in this city. In the news columns of The Daily Press today appears a story telling of a meeting of the employes of the railroad company, at which their grievances were aired. It seems that freight and coal crews feel that two much work and responsibility is being shifted to their shoulders, and they are moderately protesting against what they think is unjust.

A perusal of the Wilkesbarre despatch, however, does not disclose violent feelings on the part of the railroad employes. The statement of Past Grand Master Wilson, of the Brotherhood of Locomotive Firemen, who is chairman of the grievance committee, and therefore a very important personage in the matter, shows that the railroad employes are not at all aggressive in their agitation for a modification of the system under which they are working.

The well-known fairness of the Central Railroad officials pre-disposes of the probability of friction between the officials and the employes growing to the extent of severing the relation of employer and employe to one another.

A Story That Is Worth Reading.

After all there is nothing so thoroughly acceptable in fiction as a real good love story. Kate Jordan has succeeded in supplying one in "A Circle in the Sand." This does not mean that it is a sentimental tale, devoid of all else but the billings and cooings of ardent young lovers.

It is a strong story, depicting the incidents in the lives of strong characters. The heroine, a courageous and talented girl, seeks a livelihood in newspaper work in New York city. She has a difficult, exciting time of it. She succeeds, against great odds, not only in establishing herself as a valuable newspaper helper, but in falling in love with the managing editor under whom she worked.

But these are only incidents in a story that is full of incidents and stirring scenes. It is well written and will hold the interest of any reader who begins it.

This interesting story will be commenced in The Daily Press in a few days.

Two Interesting Facts.

A State insurance inspector recently visited this city to inspect the properties that are mortgaged in the Mutual Life Insurance Company. He says that in all his official work he has never before come across properties which averaged as well in actual value as those in Plainfield.

Usually, he finds it necessary to go over every property thoroughly to determine if it is worth the value of the mortgage, but here he was relieved of that irksome duty. A casual sight told him that they were all worth more than the face value of the mortgage.

The inspector's trip, however, disclosed some rather surprising facts among men who are supposed to be very wealthy. Scores of houses owned and occupied by Plainfielders who maintain fine establishments, with plenty of horses, servants and other details of luxurious living, are blanketed with heavy mortgages.

M. JULES CAMBON.

M. Jules Cambon, the ambassador of France at Washington, has come prominently before the world because of the confidence placed in him by Spain in arranging terms of peace. At home M. Cambon is regarded as one of the ablest of those who have attained high position under the Republic.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

We observe that Rev. Carlos Martyn, D. D., is to occupy the pulpit of Trinity Reformed church in Plainfield during August. This is the gentleman who came to Westfield by invitation twice last year, and who was instrumental in starting the Christian Citizenship League. Wonder if he will call around this year to view the League's remains! — Westfield Republican.

* * * * *

What the Union county Freeholders will do with John Kean's offer of $250,000 for the trolley franchise between Elizabeth and Plainfield is uncertain. There is opposition to it, but the exact extent and weight of it cannot yet be measured, nor is it certain whether the objectors oppose the trolley scheme on general principle, or some local feature of the plans, or on the ground that the bid is inadequate. The conditions, as viewed by outsiders, are these:

A trolley line between Elizabeth and Plainfield is inevitable.

The line, when built, should not be allowed to damage or encroach upon the fine highway between the two cities.

The franchise ought to bring enough to cover all the costs of widening the thoroughfare and making a cycle path.

The rights of the various municipalities along the route should be regarded and their demands conceded as far as possible.—Tribune.

* * * *

There is no special reason why the interests of New Jersey should be taken in special charge by editors of New York newspapers. It is only within a dozen years past that any of them condescended to note other than in the briefest manner any happenings in Jersey. Therefore the editors who have fought year in and year out for the interests of the State do not take kindly to the rather offensive criticisms and suggestions in reference to a proposed renewal of the statute providing for some method of making known the laws which the people are expected to obey. The fact that copies of laws may be obtained from Custodian Bonnell, on application, does not better the situation. After wading through the mass of verbiage, a citizen would need to go to a lawyer to have it explained, and then would not know where he was at. There is no demand for the old law, but one by which an intelligent compilation of the acts will be furnished to every legitimate newspaper in the State. Lawyers secured the repeal of the old statute; the people never asked for its repeal.—Sussex Register.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

John L. Sullivan's Comedy and Vaudeville Company has scored a success, judging from the reception which the star and his splendid organization are receiving everywhere. Reports from the road show that the company has been doing a phenomenal business everywhere and press criticisms from different cities in which he has appeared have been most flattering. Of course Sullivan has been given a big reception eyerywhere, but the company has made a great reputation and the entertainment has pleased every one who has witnessed it. Every appearance of Sullivan upon the stage is cheered again and again, and when he stands dressed in his handsome yachting suit, looking the picture of health, the enthusiasm of the spectators is unbounded. The show has been so designed that it gives him every opportunity to display himself to advantage. There is a clever comedy entitled "A Trip Across the Ocean." Sullivan is introduced in the part of the captain putting him before the public in a new role, that of a light comedian.

PARTICULAR MENTION.

Stanley Walter, of Newark, is visiting in town.

Arthur Talmage, of Belvidere avenue, left yesterday for the Adirondacks, where he will be the guest of Fred Shepherd, of this city.

Miss Evelyn M. Lewis, of West Seventh street, left yesterday for Chicago, where she will spend several months as the guest of her sister, Mrs. B. F. Langworthy.

George F. Coard, of East Ninth street, who has been sojourning at Milford, Conn., has gone to J. W. Johnson's cottage at Alexandria Bay, Thousand Islands.

Mr. and Mrs. J. B. Dumont, Miss Marion Dumont, and Morris Dumont, of East Seventh street, have gone to the White Mountains to spend the remainder of the summer.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 9.—James W. Low, aged 66 years, a resident of Hunterdon county, died yesterday morning at the home of his son, J. Edward Low, very suddenly. Mr. Low came to the home of his son last Saturday to participate in the festivities attendant upon the anniversary of his son's birthday. Early in the day he was taken suddenly ill and was obliged to go to bed. He gradually grew worse until he died yesterday morning at 9:15. The cause of death is given as paralysis. He leaves a wife and three children. The funeral services will be held Thursday afternoon next at 2 o'clock and interment will be at Somerville.

Prof. Whitney, formerly principal of the borough schools, has secured a position as principal of a school at Deerfield, Mass., where he and his family are spending the summer, and in a few days his household goods will be moved to that place.

The Borough Board of Education has not yet selected a man to take the place resigned by Prof. Whitney, but a Mr. Banks, of Guttenburg, Hudson county, is looked upon as a favorable candidate for the place.

Last Saturday evening James McElivar gave a gramaphone entertainment at the home of Mr. and Mrs. W. H. Terry to a few friends. The evening was much enjoyed by those present.

The mother of Mrs. Charles Carpenter, who died recently at Pennington, was interred yesterday at Easton, Pa. The funeral services were held last Sunday at Pennington.

Mr. and Mrs. Charles VanArsdale, of Flemington, who have been visiting Mr. VanArsdale's sister, Mrs. Emily Apgar, of Front street, have returned home.

Mr. and Mrs. Isaac Laing, of Front street, will leave in a day or two for Mt. Pocono, Pa., where they will remain for Mr. Laing's health.

Miss McAllister, of Camden, who has been visiting Mrs. James Bowyer, has gone to New York to visit Miss Mallory, her friend.

The board of directors of the M. E. church Sunday-school will hold a meeting this evening to arrange for a picnic.

Clarence Tucker, of Massachusetts, is visiting his uncle and aunt, Mr. and Mrs. R. J. Swackhamer, of Church street.

Miss Lillian Van Middlesworth has returned from Bayonne, where she has been visiting relatives.

Wesley Blaine and Harry Swackhamer rode their wheels to Plucka-min last Sunday.

Edward Apgar, of Philadelphia, who has been visiting Willard Apgar, has returned home.

Frank McElivar, of Washington avenue, has been presented with a new bicycle.

Mrs. Howard Giles and children are spending the week with Brooklyn relatives.

Leonard Dorsit, of Elizabethport, was the guest of riends in town last Sunday.

Mr. and Mrs. Thomas Todd spent last Sunday with relatives at Mt. Horeb.

William Mead and children spent Sunday with friends at Atlantic Highlands.

Miss Mary VanArsdale, of Somerville, is the guest of Mrs. Sutphen.

Frank Bowyer, of New York, spent Sunday in town with his mother.

Mr. and Mrs. Robert Giddes are spending a week at Asbury Park.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 9.—There will be an important meeting of the Piscataway Township Protective Association at the Newton schoolhouse next week Monday, August 15th, at which time officers will be elected for the ensuing term. A full attendance is desired.

Miss Bertha Giles, of Plainfield, who has been visiting friends in town, has returned home.

The Misses Gaskill have returned from a visit with friends in Plainfield.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Aug. 9.—Ed Johnston, George Dunn and W. R. Buckley spent Saturday and Sunday at Seawaren fishing for weakfish.

Miss Hattie Wilcox, who has been spending several days with her mother, has returned to her home in Brooklyn.

Miss Pauline Buckley has returned to her home in Plainfield, after a week's visit with her cousin, Beula Coles.

Mr. and Mrs. A. L. Jimerson, of Westfield, were the guests of their daughter, Mrs. George Marsh, Sunday.

Mrs. T. M. Paff and children have returned from a short visit with relatives in Brooklyn.

Mrs. Nancy Wilcox entertained her brother, Mr. Ryno, and daughters, of New York, Sunday.

Mrs. James Ritchie, spent Monday with Dr. and Mrs. Lowrie in Plainfield.

Fanwood Council, No. 744, R. A., meet in their rooms this evening.

Wm. B. Noble is enjoying a week's vacation.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 9. — Jacob J. Holmes, of Mountainside, was arrested yesterday on a charge of malicious mischief in gathering oats on the High property. Holmes claimed that he had a lease on the property and was gathering only what belonged to him. He was held in nominal bonds to appear before the Grand Jury.

Sunday night about 12 o'clock, when Louis Miller was returning home, he noticed a bright light burning in the cellar of the residence of Mrs. J. L. Dewey, of Central avenue. Thinking that something must be wrong he went toward the house and found that three men were in the cellar and were trying to force the door which led to the room above. Mr. Miller drew his revolver and then asked the men what they were doing, but they climbed out of a window on the opposite side without answering him. He tried to discharge his weapon but it missed fire until the men were at a safe distance.

At a meeting of the Township Committee of Cranford, held last evening, A. A. Gaddis, of the Westfield and Elizabeth Street Railroad Company, asked that the public hearing on that company's petition for a franchise for a trolley road through the township be adjourned until September 12th. On motion the request was granted.

R. M. Stickle, local editor of The Standard, was a rider of the goat which Court Provident, No. 3130, I. O. F., keeps to amuse new members with, last evening.

LINCOLN.

(Special Correspondence of The Daily Press.)

Lincoln, August 9—Chas. Wulfing, of Greenbrook Farm, entertained Fritz Brugger and family, Mr. and Mrs. Henry Othmer and friends, of New York, Sunday last. The programme of entertainment was rendered by Mrs. Fritz Brugger and Mrs. and Miss Othmer. After an enjoyable day the guests departed all saying that Host Wulfing was certainly a genial man, and an excellent caterer of refreshments.

The Steel Tool Works will begin taking on new hands Wednesday, after an idleness of five weeks.

Joseph Bohm, of Harris avenue, spent Friday with friends in Somerville.

Phillip Sphear has been taking an enforced vacation on account of illness.

Van Polhemus spent Saturday and Sunday with his parents in Princeton.

Jersey Day at the Beach

Jersey Day at Manhattan Beach will take place tomorow. There will be an excursion over the Central Railroad of New Jersey to Pain's Fireworks Amphitheatre, Manhattan Beach, including a sail down the bay to Thirty-ninth street, Brooklyn, and a ride on the Long Island Railroad. The train will leave Somerville, 5:26; Finderne, 5:31; Bound Brook, 5:36; Dunellen, 5:46; Plainfield, 5:54; Netherwood, 5:57; Fanwood, 6:01 and Westfield, 6:06. Returning immediately after the fireworks so that home can be reached at a reasonable hour.

CASTORIA

AN IMPORTANT COIN.

THE CENT IS NOW MORE IN DEMAND THAN EVER BEFORE.

The Penny-in-the-Slot and the Bargain Counter Responsible for Its Increased Use—One Automatic Machine Company Takes in Half a Million a Day.

Notwithstanding the rumpus raised by the disputing friends of gold and silver, the most useful and hard-working member of the coin family is of neither of these materials. It consists of 95 per cent. of copper and 5 per cent tin and zinc and bears on its face the legend "one cent."

Two recent devices have been largely responsible for the increased use of our only copper coin. One is the penny-in-the-slot machine, which has spread over the land like the locusts of Egypt within the last two or three years. A single automatic machine company in New York City takes in half a million pennies a day. As there isn't a crossroad village in the country that hasn't a chewing-gum, kinetoscope, music or weighing machine operated in this way the number of coins required to keep them all going is enormous. The other invention responsible for the rise of the cent is the "bargain counter." The craze for 49-cent and 99-cent bargains makes work for a lot of pennies. Superintendent Milman of the New York Sub-Treasury said the other day that it was no unusual thing for one of the great department stores which make a specialty of "bargains" to take $10,000 worth of cents—one million pieces—at a time. The penny newspapers and in some places three-cent street-car fares have also increased the field of operations of the one-cent piece.

"The cent is really the most interesting and least known of our coins," said Mr. Milman, "and there are some very curious facts about it. The Sub-Treasury is the clearing-house for the pennies in circulation in the metropolitan district, and the penny is for us a barometer, a calendar and an accurate index of business conditions.

"Why, in the middle of July there was a week or more of cold, rainy weather and the supply of pennies coming in for exchange into larger denominations fell off one-third. A heavy storm or the sudden coming of cold weather, anything that keeps the penny-spending part of our population at home, is accurately reflected in the falling off in the supply of cents coming to us for exchange. All through the summer the pennies accumulate on our hands, but when cold weather comes and the children get back to school, and retail trade revives, there is a great demand for them.

"Come this way," said Mr. Milman, "if you want to see the way we handle pennies," and he led the way to the minor coin division, where half a dozen clerks were busily at work. In one corner of the room was a stack of canvas bags reaching nearly to the ceiling and making a good-sized pyramid. "Those are all pennies," said the director. "I suppose there are some one hundred million pieces there, and we have more below." In another corner of the room was a stack of loose coins piled high above the heads of the clerks, who were busily counting them off into the canvas bags. The pennies are kept in bags of one thousand each, and when they come in they are all counted over.

There are several unique features about the coinage of pennies, and the work is managed in a somewhat different fashion from the turning out of gold and silver coins.

In the first place, although the United States Government is the only authority entitled to indulge in the manufacture of coins, our Uncle Samuel does not prepare the blanks from which pennies are made. He finds it cheaper to let out the work by contract than to do it himself, and it is at present in the hands of a Cincinnati firm. They prepare the copper blanks in sheets large enough to turn out one hundred pieces each. It is not known exactly how much the Government pays for these blanks, but the price is in the vicinity of $1.25 per one thousand, or a trifle over one mill for each unstamped cent.

When the copper sheets ready for stamping reach the Philadelphia mint, where all our minor coins are made each one is tested to see that the alloy is in the right proportion. Thence they pass directly to the coining room. Here the sheets are cut into strips, from which the round blanks, called "planchets," are first punched, and these are run directly through the stamping machines, where they receive the impressions from the dies.

Pennies are not counted by the laborious process of handling each piece, but by a device known as the "counting board," by which five hundred are counted at a time. The counting board is an inclined plane, with columns the exact width of a cent, separated by copper partitions in height exactly equal to the thickness of the coin. The cents are spread over this board and fall into the grooves prepared for them, all surplus coins falling off into a trough. Then the counting board is emptied into the canvas bags, which are carted away to be shipped to any part of the country.—Washington Star.

What Would Bring Heat.

Warwick—That man Wilkins is a genius. He has the finest plan I ever heard of for raising the temperature of Alaska.

Wickwire—What's his scheme? Going to fasten an aurora borealis in position so it will keep off the north winds during the day?

Warwick—No; he's going to build a hotel and advertise the place as a cool summer resort.—Puck.

CURRENT COMMENT.

It must have been before the game of golf and its awful caddy was invented that the phrase "no man is a hero to his valet" was coined.

Porto Rico is unusually well watered for a small island. Forty-six streams appear on the map, and some are navigable for a short distance by small merchant vessels. Venomous snakes and insects are few. The greatest animal pest is an army of immense rats, which are especially destructive in the sugar cane fields. There are numerous harbors in Porto Rico where a military expedition might be conveniently landed.

A western exchange calls attention to the fact that in the early part of the civil war the volunteer army contained an Illinois colonel, an Ohio major, an Ohio staff officer, a New York State adjutant general, an Indiana captain and an Ohio private, each of whom afterward became President of the United States. Is this the subtle starting of a continuous boom for Dewey, Miles, Merritt, Hobson and so on?

It is probable that the most impressive development of the war thus far to the professional military man is the accuracy attained in the aim of heavy guns. The rapidity and precision with which the sharpshooters of the American ships can pick off the objects at which they fire would be creditable even to small arms. The nicety of mechanism has much to do with this. But there is also much in the cool head, the practiced eye, and the steady hand of the gunner.

In nothing is the patriotism of the American people more conspicuous than in the very general display of flags that was made after the war broke out. This is patriotism that costs something, since even the smallest flag is worth money, and there is no compulsion about it; no man is criticised by his neighbors if he fails to make the same display that they do; yet flags are everywhere and float alike from the rich man's mansion and the poor man's cottage. It is a beautiful exhibition, and one that cannot fail to impress valuable lessons on the minds of the rising generation.

The excellent suggestion is made that the Government could help the good roads movement materially, with profit to itself, by simply putting broad tires on the wheels of its army wagons. It is a constant cause of complaint in all military movements that the immense number of wagons required is one of the greatest, if not the very greatest, hindrances to celerity, and one principal reason for this is that the wheels cut up the roads, and, after a time, render them almost impassable. Broad tired wagons tend to smooth the roads and make them better, rather than to spoil them, and the effect of their use would be to expedite movement and to promote economy of transportation; while the object lesson thus taught the soldiers, who will return to civil life, and many of them to sections of the country where good roads are badly wanted, cannot but be beneficial. This is one of the minor but important details that still remain to be learned in the art of war.

The New York canal commissioners have discovered that an indefinite amount of excavation, which was classed as "rock cutting," and paid for as such, was really soft earth, which dissolved into mud when treated with water. There is nothing strange about the discovery, but there should be. It is one of the few sinister marks on the American form of government that the people have become so much accustomed to rascality in public affairs that they expect more or less of it, as a matter of course, and instead of rising in indignant protest at its first manifestation, treat it rather as a joke and begin to grumble only when it has passed from petty theft to downright robbery of the treasury on a large scale.

There may be—doubtless there are—instances in which men are getting rich by Government contracts, just as they did during the Civil War, but it is not probable that they are doing so to any such scandalous extent. There are many indications that the civilian side of this war is being conducted more economically, not to say more honestly, than was the case in that one. For instance, railroad transportation is done at the lowest of excursion rates, and Congress has very properly put a stop to one species of extortion which promised large profits in the matter of ocean transportation. American ship owners, confident that they had a monopoly, were disposed to make the Government pay very dearly for the ships it needed to carry troops to Cuba and elsewhere, but the simple process of granting American registry to the vessels which foreign owners were willing to let the Government have on reasonable terms put a sudden stop to that scheme. It is believed, too, that there is no such scamping in equipments and supplies as characterized the opening of the war between the States.

NEW YORK LETTER.

Special Correspondence.

While it is true that no man is indispensable, there are some men who cannot well be replaced. The late Anton Seidl was undoubtedly the greatest interpreter of Wagner since the death of the composer himself, with whom he once had close personal relations. As a conductor in Wagnerian opera Mr. Seidl gave much of his attention to the more delicate characteristics of the score, and avoided anything in the nature of coarseness in the stormiest passages. He died in his prime at the age of forty-eight. His last work was to engage in the organization of a permanent orchestra for New York, and funds to support it for several years had already been guaranteed.

Asphalt Kept Dry.

The bicycle riders in New York have made an energetic and apparently successful effort to have a strip of each asphalted street left dry for their accommodation. Wet asphalt is a great nuisance to the wheelmen, and also to the horseman, because of its slipperiness; but dry asphalt, under the conditions prevailing in most American cities, is an equal, if not greater nuisance to the citizens generally. Dust vies easily over its smooth surface, and arises in annoying clouds upon every disturbance. There is a judicious medium by observing which the asphalt can be kept damp but not wet, and in this condition it is good for footmen, wheelmen and horsemen alike.

Thursdays in Brooklyn.

Traffic on the Brooklyn Bridge takes an unusual direction on Thursday evenings, when a crowd of unusually large proportions sets out toward the Manhattan side. This Brooklyn contingent is concerned with a matter no less important than dinner. Thursdays and Sundays are critical days in the existence of every Brooklyn family. Then the "girl"—as the present elevation of her position requires her to be called—goes out. That means that dinner goes out with her and it must be sought. So the patient procession of hungry Brooklynites starts toward New York and scatters itself among the uptown restaurants. There are not many restaurants in Brooklyn, and the citizens who are obliged to search for dinner abroad prefer to make the trip to New York and combine some festivity with the necessity of the occasion. It is on Thursday and Sunday nights that those Brooklyn clubs which provide table d'hotes are most crowded, and their liberality in admitting women to the club restaurants is said to be due to the strictness of the ancillary outings. It certainly sends a small crowd to New York as surely as the apostles walk around the Strassburg clock whenever the hour strikes.

Sage's Dissatisfaction.

Such haste has been made by that ever admirable patriarch, Mr. Russell Sage, to express his dissatisfaction with the offers of the Rapid Transit Commission, that it is not unfair, perhaps, to suspect the existence of some apprehension on his part lest the other Manhattan directors should be disposed to give the proffered franchises careful, if not favorable, consideration. Mr. Sage, of course, is opposed on principles to the spending of money for any purpose whatever, his ideal corporation being one with receipts as large as possible and no expenses at all. It is not probable that he expects even the elevated railway to attain this degree of perfection, but he has kept the lofty mark ever before the eyes of its managers, and naturally objects to a plan which plainly hints that public convenience and interest must be put almost on a level with the dividends of stockholders. This is a view which several of the Manhattan directors have shown a disposition of late to take, and Mr. Sage can hardly be blamed for getting in an anticipatory argument against any such weak yielding to popular clamor. He is well advanced in years, and prospective profits have no such attraction for him as do those which are immediate. Extensions of the elevated road into parts of the trans-Harlem region where vacant lots still abound do not promise instant returns, and therefore he opposes them. His partners in this business of selling pink tickets are younger, and it is just possible that his arguments will be no more impressive when uttered in the board room than they are when printed in the newspapers.

Change of Editors.

Henry Dumars has resigned the editorship of the Criterion, his successor being J. I. Clarke, who has won an acknowledged position in the profession. He was at one time on the Herald, after which he was managing editor of the Journal, and hence is well fitted for his present position. The spring brings many removals, in which journalism bears its share, and Outlook has left its narrow office in Astor place for better accommodations in Fifth avenue. Hearst also, it is said, wants more room for the Journal, and this led to the report that he had bought Hammerstein's opera house. He would no doubt like to purchase somewhere, for all the leading newspapers own the buildings they occupy, which gives them great advantage. Pulitzer's building proves a fine investment, notwithstanding its enormous cost. He paid $600,000 for the land and then erected a half-million sky scraper, but the latter brings such an enormous income that the World may be said to be rent free, while the Journal is under a rent of $10,000 a year and perhaps more. The Tribune Association also has such a benefit from the rent of offices that all the paper occupies is free. Bennett, however, did not desire any tenants in the new Herald Building, and he is thus an exception to all other newspaper men, the Herald Building indeed being the only one in the city solely devoted to the paper.

CYRUS THORP.

Lokal-Nachrichten aus der alten Heimath.

Elsaß-Lothringen.

Colmar. Das hiesige Schwurgericht sprach einen geständigen Todtschläger frei. Der Schmiedemeister Anton Widemann in Bollweiler versetzte im Zorn seiner Schwiegermutter einen Schlag, daß sie zusammenstürzte und legte dann brennende Holzstücke auf die Bekleidung der Todten, um den Eindruck zu erwecken, daß sie verbrannt sei. Er war geständig. Die Erschlagene war übel beleumundet, ihr Mann war durchgebrannt. Die eigene Tochter, die Frau des Widemann, hat sie in dessen Abwesenheit verkuppelt. Sie hatte auch versucht, dem Angeklagten Phosphor in den Kaffee zu thun. Die Geschworenen verneinten die Schuldfragen, worauf das Gericht zur Freisprechung kommen mußte.

Mülhausen. Die Strafkammer verurtheilte den Monteur Michael Pfeifferl aus Bayern, zuletzt in St. Ludwig, wegen Majestätsbeleidigung zu zwei Jahren Gefängniß! Die Staatsanwaltschaft hatte nur 18 Monate beantragt.

Oesterreich.

Wien. Der Schriftsetzer Barisic, der im vorigen Jahre in der Uniform eines Oberlieutenants in internationalen Schlafwagen zahlreiche aufsehenerregende Diebstähle verübte, ist aus dem hiesigen Garnisonsarrest entsprungen. — Bei der Einkehr einer Prozession in der Pfarrkirche des Wiener Vororts Ottakring entstand durch die unvorsichtige Handhabung geweihter Kerzen durch Burschen aus Mariazell ein kleiner Brand, der unter den Andächtigen eine starke Panik verursachte. Die Folge war, daß mehrere Personen verletzt wurden, doch nur eine, eine Greisin, schwer.

Bozen. Beim Abstiege vom Schlern nach Bad Ratzes verunglückte der Tourist Erhardt aus Köthen. Er wollte die Serpentine am Touristensteige abkürzen, fuhr über den Schnee ab und kam zum Sturze, wobei er sich schwere Verletzungen am Kopfe zuzog.

Budapest. Bei der Donau-Dampfschifffahrtsgesellschaft sind seit Jahren betriebene Defraudationen entdeckt worden. Zahlreiche Oberbeamte sind arg kompromittirt. Die sofortige Revision ergab ein Manko von über 100,000 Gulden, der Schaden ist jedoch beträchtlich höher.

Innsbruck. In Langkampfen (Unter-Innthal) wurde beim Kaiser-Jubiläumsschießen der Zieler Johann Meixner durch einen Schuß in den Kopf getödtet. Meixner, ein lediger Fabrikarbeiter, ist seiner eigenen Unvorsichtigkeit zum Opfer gefallen. Er war die Stütze seiner Eltern.

Mohacs. Die hiesige Gendarmerie verhaftete eine Fälscherbande, welche mehrere tausend Silbergulden fälschte und dieselben auf den Märkten verwerthete. Die Bande besteht aus sieben Mitgliedern, darunter Wirthe und Grundbesitzer.

Senftenberg. Hier hat sich der talentirte junge Bildhauer Gottlob Wolf, 19 Jahre alt, auf dem Grabe seines Vaters erschossen, weil ihm eine Bildhauerarbeit mißlang. Die Mutter, eine arme Wittwe, verfiel aus Verzweiflung über das tragische Ende ihres Sohnes in geistige Umnachtung.

Zara. In Trilj und Sinj wurden dieser Tage mehrere leichte Erdstöße und außerdem ein starker Erdstoß verspürt. Zur Aufnahme der Bewohner der Ortschaften wurden durch Militär 100 Zelte aufgestellt.

Schweiz.

Bern. Es sind Unterhandlungen im Gange, um die seit 2½ Jahren getrennten Fraktionen der hiesigen sozialdemokratischen Partei, „Arbeiterunion" und Arbeiterbund „Vorwärts," unter gewissen Vorbehalten wieder zu vereinigen. Die Sache wird gegenwärtig in den einzelnen Organisationen erwogen.—Die erste diesjährige Besteigung der Jungfrau wurde am 2. Juli durch den Engländer Weedon unter Führung von Ulrich Fuhrer aus Innerkirchen und Chr. Kaufmann aus Grindelwald ausgeführt. Der Aufstieg von der Burglihütte bis auf die Spitze erforderte bei den ungünstigen Schneeverhältnissen zehn Stunden.

Luzern. Im Fremdenverkehr von Luzern ist auch der Einfluß der Kriegszeit spürbar. Nach der Luzerner Fremdenliste ist der Besuch aus Nordamerika (Ver. Staaten und Canada) im Juni d. J. mit 584 Personen hinter dem letztjährigen (1116) zurückgeblieben, dagegen ist der Besuch aus allen anderen Ländern dem letztjährigen ziemlich gleich.

Basel. In Basel fand die 14. internationale Konferenz der christlichen Jünglingsvereine statt. Auf derselben waren 24 Länder durch etwa 800 Vereinsdelegirte vertreten.

Aargau. Das längst projektirte Elektrizitätswerk Beznau in der Aare bei Döttingen soll in nächster Zeit durch die Gesellschaft „Motor" in Baden erstellt werden. Die Ausführung ist Herrn Nationalrath Zschokke in Aarau übertragen. Mit einem Bauaufwand von 5,000,000 Francs werden 6000 Pferdekräfte gewonnen.

Ladies desiring

KNIFE-PLEATING or PINKING

done, will please leave orders with Mrs. Force, 291 Watchung avenue, and it will receive prompt attention. 10 2et

We Insure Your Shirts.

We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. This is the time of year when the second-class laundry ruins your Paris Percale or Glasgow Cheviot and tells you "It was the fault of the goods" Let us call for your work.

Hillier & Co.,
179 North Avenue.
Telephone 30 M.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

Another Victory.

In Plainfield—This Comes from West Front Street and Endorses What Others Are Saying.

The wonderful success of the "little conqueror" has astonished our citizens. All over the city people are talking about it. At first many wise heads were shaken and doubters were numerous. This is not surprising as so many claims have been made under similar circumstances with nothing to back them. In the face of these difficulties the work has gone steadily onward, until now the public are showing their appreciation and the endorsement of our citizens right here at home drives away the doubts of every skeptic. Here's another victory that has stood the test of time.

Mr. Jepp Zensen, of 728 W. Front street, Pattern Maker by trade, says:— "For the last year I was troubled with symptoms of kidney trouble. A sort of grinding pain across my back at times extended up to my shoulders and there was a lameness over my kidneys and severe headaches. When I stooped I always felt dizzy and sometimes was fairly blinded. In the mornings I felt stiff and sore until I got some exercise. I saw Doan's Kidney Pills advertised in my city paper and so highly recommended for kidney complaint that I went to L. W. Randolph's drug store and got a box. They did me a great deal of good. I am ever so much better. The pain in my back seldom if ever troubles me now and the headaches and dizziness have left me entirely. From my experience with Doan's Kidney Pills I cannot do otherwise than endorse them."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S.

Remember the name Doan's, and take no other.

Doesn't take Much Money for MEDICINES

CURRENT COMMENT.

Boasting seems to be Spain's strongest card in the game of war. To be strictly fair one must admit that the "Yankees" are a close second in this same line. In fact, the habit of "crowing" before the battle is a characteristic not confined to any one nation or people.

A new X-ray apparatus made for a Harvard professor furnishes a light which penetrates tendons and bones for surgical uses. It produces in the air lightning flashes from 6 to 7 feet in length, and sparks from 30 to 40 feet long in glass tubes in which the atmospheric pressure is reduced.

A new law in the State of New York offers a reward, ranging from $3 to $15, to any person destroying a fish net found in State water not duly licensed. This looks like a good way to solve the problem of illegal fishing, which has bothered the authorities of many States. A law which makes every man a detective for his personal gain is much more likely to accomplish its object than one which makes it the duty of one or two men to prevent violations over a wide stretch of territory.

If she had not a money reason for supporting Spain, as well as a motive in Latin conceit, France could find little inducement in history to take the course she is following. It has been pointed out that Spain has always been harmful to France. It was owing to Spain that Louis XIV.'s troubles began; it was in Spain that Napoleon I. lost a splendid army and so was compelled to abdicate, and the disaster of Sedan was directly due to Spanish succession. Besides, the present little King's father insulted France by becoming colonel of a Uhlan regiment.

There are signs of a new movement in China. Patriotic clubs are being formed in various parts of the country, having for their object the preservation of the ancient empire from the encroachments of foreigners, and efforts are being made to extend a systematic organization for this purpose throughout the empire. It had its origin in the recent assemblage of 10,000 literati at Pekin for the purpose of taking their doctor's degrees. These men drew up a plan of organization for patriotic clubs, and are now working to kindle patriotic sentiments in the breasts of the people. The plan is working well, so far, and threatens to become a formidable movement in a short time. If so, the partition of China will not be, after all, such a smooth and easy proceeding as is now expected.

There has been a movement on foot to induce women to boycott Paris goods on account of the sympathy with Spain shown by the French. This does not seem to be a very direct method of reprisal, and dressmakers and milliners say that it will fail, because American women do not regard themselves as well-dressed unless their garments come from Paris. It is true that most young women about to be married think themselves disgraced if they do not have a Parisian trousseau. The truth is that that feeling is disgraceful. American women ought not to buy French goods simply because they are not American. As for French sympathy with Spain, let the American ladies dismiss that from their minds. They can find something more interesting in the epithets which the Parisian newspapers are applying to them. These things cannot be reprinted, but it should be sufficient to say that no name is too vile for a Parisian paper to apply to the American woman. If the ladies desire to make reprisals for something, they ought to consider that as a cause.

In late years more and more attention has been paid to the condition of the teeth of candidates for life insurance, and now the report of the dentist is considered of equal value with that of the physician in determining the value of the "life." So important are the indications afforded by the teeth of the general health and strength of constitutions of candidates for the United States navy that unless a would-be cadet can pass a creditable examination at the hands of the dentist he must make up his mind to look for another calling. It is urged that if the teeth are not in good trim, the digestion, and eventually, of course, the general health, and, consequently, the professional efficiency of the candidate must be impaired. These restrictions are now likely to extend to the army. One of the first signs of this movement is the announcement that a bill is to be passed to establish a dental corps in the United States army. It is proposed to make the army dentist a part of the medical corps, assigning one surgeon dentist, with the rank of major, to each brigade, and one surgeon dentist, with the rank of captain, to each regiment. The army dentists are to be graduates of reputable dental colleges. The teeth of the rank and file of the army are to be periodically inspected and kept in order, and the soldier himself is to be instructed how to second the efforts of the dentist.

THE INDIANS' BATH.

Sweathouses Where British Columbia Natives Cleanse Themselves.

The N'hia-Kanmuh Indians of the interior of British Columbia have sweathouses and indulge in a treat somewhat similar to our Turkish bath. By the side of streams of melted snow at some distance from the village, among the pines and firs, are two curious structures. One is made of small poles set up like the roof of a house. These are covered with fir boughs, and finally with earth, the door, facing the setting sun, has a blanket hanging over it. Within, on the south side, is a circular hole (in the ground) about two feet in diameter and one foot deep, filled with burned and crackled stones. The remainder of the floor is covered deep with a soft bed of fir twigs. In front of the door one will see traces of a good-sized fire, and many stones, both those that have been burned and blackened in the fire and those brought near, but still unused. This is the men's sweathouse, or part of the bathing outfit of the village.

The other structure is similar to this in essentials, but at this particular village it is not covered with soil. It is roofed with blanket mats or skins when in use. This is the sweathouse for the women.

When the N'hia-Kanmuh wants to take a bath he builds a fire, and heats a number of stones. These he rolls into the hole in the floor of the village sweathouse. He then enters, closes the door with his blanket, and reclines on the new bed of fir boughs. Here he lies until in the close small hut, with no opening for ventilation, and close to the roasted rocks, he perspires as freely as do the stokers in the hold of an ocean liner. He then rushes from the house and leaps into the melted snow of the mountain torrent. Returning to the sweathouse he repeats the operation until satisfied that every pore of his skin has been cleaned by this vigorous treatment.

These Indians say they take this bath about once a month, and we may well imagine that that is sufficient, for it is not hard to believe that the absence of sick people at the village is due to this trying custom.—Chicago Inter-Ocean.

REAL CHAMPAGNE USED.

Realism on the Stage that is a Part of the Progress of the Drama.

One of the features of a much-discussed play once running at a Broadway theatre was the breaking of a bottle of champagne in the second act. The bottle looked like the imported article and the fluid that poured from it resembled champagne. A man who knew it all sat with a woman in orchestra seats near the stage one night, and when the champagne incident was introduced she said:

"Why, just look at that! He has broken a bottle of real champagne. Isn't that realistic?"

"It's a good imitation," said her escort in a superior way.

"Do you mean that it isn't champagne?"

"No, it isn't," said the escort. "It is either weak tea or a preparation of ginger ale. They never use the real thing."

His statement carried conviction to it was not a theatrical novelty, either, the people who sat within sound of his voice and every one of them expressed admiration at the cleverness of the counterfeit. As a matter of fact, according to the manager real champagne was provided for the scene, and Stage realism has been the making of many plays, and managers now know that in well-staged performances it should not be neglected for the sake of a slight saving in expense. The time when tea could serve as a substitute for champagne has passed. An actor who is as well known because of his many quarrels as because of his acting introduced real champagne in a supper scene ten years ago, and, what is more, he starred it on the bill. Underneath the cast was a line stating that "the champagne used in this play is imported by the well-known wine firm of Fizz & Fizz," or words to that effect. This served the double purpose of calling the attention of the audience to the realism of the scene and of advertising the wine.—New York Sun.

A Chinaman's Endurance.

The Chinaman, it is said, can write all day, work all day, stand in one position all day, weave, beat gold, carve ivory, do infinitely tedious jobs and discover no more weariness and irritation than if he were a machine.—Indianapolis News.

Human Nature.

SECRETARY LONG.

HIS POSITION AT THE HEAD OF THE NAVY DEPARTMENT NO SINECURE.

Is Chief of the Bureaus of Ordinance, Equipment Accounts and Construction—An Immense Amount of Business Accomplished Each Day.

A day at the Navy Department, such as the writer recently spent, is full of instruction as to what it means to be the head of the navy in war time. The place is assuredly no sinecure. Secretary Long reaches his office promptly at 9 o'clock every morning. After thirty minutes with his mail, the stream of people who are waiting in the large ante-room begins to pour in upon him. It is the etiquette of the department that whenever a Senator arrives he has the right of way over all others, no matter how long they may have been waiting there before him. A Representative in Congress also has precedence of general callers.

Dispatches of all sorts are continually coming in, and the Secretary is kept busy dictating answers to them. Communications from the department of navigation, which deals with the personnel of the service, detailing the officers to the various ships and ordering the ships hither and thither, have to receive prompt attention.

The bureau of ordnance makes another large daily demand upon the Secretary's time. This bureau deals with all matters relating to ammunition, projectiles, weapons, and armament generally.

SECRETARY LONG.

The bureau of equipment makes another considerable call on the Secretary's working hours. This is the bureau which furnishes all the equipments of the ship—the ropes, the sails, the anchors, and especially the coal. The coal buying for the navy is in itself an enormous business, and the providing of coal stations and the furnishing of a dozen coal lighters, at one point or another, to carry the coal to our war vessels, is in itself a large task.

The bureau of accounts is another branch of the naval service which gives Mr. Long a great deal of hard work. This bureau has to do with the purchase of supplies, which are all bought under bids, except in cases of emergency. Another new feature of Mr. Long's administration is the hospital ambulance ship, the Solace, a magnificent vessel of 4,000 tons, equipped and fitted with all modern surgical appliances. This ship will sail under the rules of the Geneva Red Cross association, and will be free from attack. The women of the country have shown great interest in this new departure, the like of which was never attempted in any previous naval war.

Yet another share of the Secretary's time is called for by the bureau of construction and repair, which has to do with the building and repair of our ships. All the new ships that we have been buying of late in other countries have had to be put into condition under the direction of this bureau.

At half past 2 o'clock in the afternoon, Mr. Long makes his escape from the flood of visitors—the department doors are closed to the general public at 2 o'clock—and then he begins to sign his mail. He is kept busy writing his signature for a full hour, during which time he writes his name about 300 times. Then the clerk of the department makes his appearance, bringing with him a large mass of papers, offers of service, requests for the naming of ships, suggestions for advice of all kinds. No letter addressed to the department on any of these subjects is left without a reply.

He lives in very modest style at the capital. His family consists of his wife, his oldest daughter, Miss Margaret Long, 24 years of age, who is studying medicine at the Johns Hopkins university; his younger daughter, Miss Helen Long, who is of great assistance to him socially; and his little son, Pierce Long, a bright boy of ten, who is busy with his schoolbooks and his bicycle. Mr. Long is a devoted husband and father, and the domestic side of his life has always been very happy. He is jealous of his evening leisure and callers at the family hotel where he lives, who come on business, are not cordially welcomed. He believes that after a hard day's work at the department the serenity of the lamplight hours should not be intruded upon, except for grave reasons. He enjoys walking very much, and is to be seen nearly every afternoon, after the cares of the Navy Department have been dropped, tramping sturdily around the beautiful squares and circles of the capital. Mr. Long is, by the way, a teetotaler, and almost a non-smoker, his limit being one cigar a day. He has always had a friendly side for woman suffrage and for civil service reform.—James W. Clarke, in Chicago Inter-Ocean.

PRETENDER TO SPAIN'S THRONE.

Don Carlos a Brave Man—Immensely Wealthy but Very Penurious.

Don Carlos, the pretender to the throne of Spain, may at any moment become a prominent personage in the affairs of that country. He lives, as he has for years, in Loredan Palace, on the Grand Canal, Venice, where he and his wife, the Duchess of Madrid, keep up a semi-royal state. The two ladies-in-waiting upon the duchess live within the palace, while the gentlemen in Don Carlos' suite club together and live in a mess, just as officers in the army do. The well-known penuriousness of Don Carlos is such that any one attached to his suite must live on as little as possible.

Before the death of his first wife, with whom he had not lived for many years, Don Carlos led a life well calculated to give the gossips plenty of material for their scandals. He seemed to enjoy making his escapades public, and even the Venetians, who are by no means prudish, were shocked.

Don Carlos' first wife, and the mother of his children, was Princess Marguerite, daughter of a murdered king. She was called queen "by birth and by the goodness of heart." She was a fair woman with soft blue eyes, and most gracious manners.

DON CARLOS.

Since his marriage to the Princess Bertha de Rohan, a rather pretty and stylish young woman, descended from the ancient sovereigns of Brittany, he has apparently led a most exemplary domestic life. He is often seen bathing on the Ledo, and going up and down the canal in a penny boat in a most democratic manner. In their gondola he and the duchess seem almost loverlike, both sitting under the shade of the duchess' parasol.

Notwithstanding this apparent democratic simplicity, they exact from their friends and acquaintances courtly homage when they "receive." The duchess' royal hand is extended to be kissed, and her manner could not be more ceremonious if she were reigning Queen of Spain. Perhaps she is practicing that she may be able to receive in good form when she does come to the throne—if she ever does.

It is said that the duchess is jealous of her position and will have no one forget it. Some of the Venetians whose pleasure it is to call upon her object to being reminded of their remissness when, for some reason, they have not gone as often as her court etiquette demands. When Sir Henry Laird settled in Venice he and Lady Laird left cards for Don Carlos and the duchess at Loredan Palace. What was their surprise to have their cards returned to them with a message to the effect that people calling upon royalty wrote their names in the visitors' book, and did not leave cards as they would when calling upon ordinary people.

Don Jaime of Bourbon, the only son and heir of Don Carlos, was educated at the Vienna Military Acedemy and is at present serving as a captain in the Russian army, practicing against the day of revolution in Spain, perhaps. He has an independent and adventurous spirit like his father, and is quite as gallant.

When Don Jaime heard of his sister's elopement with Count Folchi, a penniless artist, a cripple, and a married man, he obtained leave of absence from his regiment and went to the Spanish frontier, hoping to catch the couple on their way to France, and to kill the count; but he missed them and they still live to repent their hasty action. Don Carlos was naturally very much cut up over this escapade of Donna Elvira's. He addressed a communication to his followers announcing that his daughter was "dead" to him and asking them to pray for "her miserable soul." He would have nothing to do with her, notwithstanding Donna Elvira wrote to him from Barcelona imploring his pardon and making excuses for her conduct by saying that, since his second marriage, she had found life miserable with her stepmother, the duchess. Neither this letter nor the fact that the wife of Count Fillippo Folchi had obtained a divorce, so that the count was now free to marry his daughter, had any effect upon Don Carlos; he had buried his daughter and would not have her resurrected.

Don Carlos is immensely wealthy, and with increasing fortune he has grown avaricious. It is said that his household expenses are conducted on an economic scale that would do credit to a miser.

With all his faults, he is as good a man, and in many respects a better one, than the majority of royal personages. He is a brave and courageous soldier, daring to rashness. He is a fine horseman, and can, when he pleases, effectively assume that air of divinity which is supposed to be about a king.—Washington Star.

The Elder Matron—"You shouldn't mind the baby crying a little. It strengthens his lungs."

The Younger Matron—"Oh, no doubt, but it weakens his father's religion."

ARTIC STOREHOUSES.

CACHES ON WHICH THE TRAVELER RELIES FOR FOOD ON HIS REUTRN.

The Natives Never Disturb a House Except in a Case of Great Necessity—They Are Built to Keep the Animals from the Edibles.

As more and more news comes piecemeal from the Arctic regions and each new detailed map of the world has fresh lines and names put upon it in the nearly blank spaces marking the frozen zone, there is not a little interest felt in those primitive, temporary structures of the explorer without which a trip in the icy wilds would seldom be possible—the caches of the North. The books, the magazine articles, the lectures of the explorers of fame, rarely do more than casually mention these storehouses of their expeditions, and thus few realize the part the caches play in Arctic work. And still less is known of their actual construction.

Unlike other monuments of civilization and exploration, they leave no sign behind them once they have ceased to be of practical use. A heavy fall of snow or a windstorm comes and tears their last remnants to pieces. On occasions something of this sort happens to a cache even while it is serving as a repository and is being depended upon by some slowly toiling party far away. Peary was unable, on retracing his steps on one of his Greenland journeys to find several of the caches he had carefully established and plainly marked. Snowstorms and gales of wind had obliterated every sign of them, and no amount of searching was of avail. Had the Peary party at this juncture not happened to fall in with plenty of game starvation would have been certain.

A cache is an Arctic storage warehouse, made to keep provisions in until they are wanted. The word is the French word cache, meaning simply hiding-place. A hiding-place is precisely what it is, for while men are not to be feared on the score of theft in the Arctic lands animals of all sorts are. The great white bear that abounds in these regions will readily sniff out food and any supplies left behind, need to be hermetically sealed.

Thus the cache is the first outpost of civilization in the far North. When the Hudson's Bay region was being traversed and explored for the first time caches were set up everywhere. Now, the region being a fairly well-known and, permanent supply posts in the form of tiny villages, of perhaps but two or three buildings, have been established, and men are to be found settled there the year round.

The great Northern belt of the lands of perpetual ice circling the Pole has, however, none of these permanent settlemnts, though year by year the Danish Government is planting new supply villages still further north on the snowy coasts of Greenland. These Danish villages are intended primarily for the benefit of the Greenlanders, but no explorer is ever turned away from their hospitable doors. Food is given him outright, if he wishes it, or he is allowed to buy it at cost price. Each year sees the extension of these Danish villages further north, mainly on the west coast, really the only habitable part of the island.

Once beyond the last of these villages an exploring party must plan its own food supplies. This it does by establishing these caches along its line of march. An Arctic expedition moving overland practically always intends to return by the same route. Even in these days of compressed foods, the weight of several months provender for a large party is considerable. In caches it is, therefore, stowed along the route several days' journey apart.

What is simply a hole in the ground is first dug, a matter of extreme difficulty at times. Then, painfully digging elsewhere, earth is brought to the surface and a quantity of this is dumped into the hole. Ice is melted and the water from it poured upon the earth, the entire mixture freezing in a few moments into a compact mass. This is the bottom of the cache. On it the provisions the party want to put aside for a future day are laid, so many pounds for each man, carefully calculated. There should be just enough to support life comfortably until the next cache is reached on the return, with two or three days rations over for emergencies.

With stones, ice and snow the walls of the cache are now built up, water being poured over the snowy structure hermetically to seal it. It is a point of honor, among even the poorest natives, not to rifle a cache unless in cases of the direst necessity; but the provisions must be kept safe from the bears. Properly built the structure is impregnable, and it needs the work of pickaxes to tear it open.

It is marked by anything that the explorers can spare or find in the vicinity, generally by a staff of wood. In Siberia the tooth of a mammoth is not infrequently used. Despite this precaution, however, many caches can never be found again.

If rendered provisionless in this

Children and Fans in China.

Almost every child in China has a fan of its own. They are the playthings of Chinese babies, as children in this country delight in rattles. Chinese nurses amuse their young charges with their fans, which they are never without. The children learn to handle their fans very expertly, for the fan in the hands of a Chinese has a certain language of its own. Rich and poor alike, every boy and girl must have a fan. A poor little Chinese boy who has scarcely a whole garment and who rarely gets a good meal will still have a fan and use it constantly.

CYCLING COMMENT.

Stanley Mosher and George Main wheeled to Raritan Sunday where they were the guests of friends for the day. They returned awheel in the evening.

Wyatt Barnes, of Norwood avenue, returned yesterday from Asbury Park. He rode down there last Thursday on his wheel and found the roads in good condition. He returned by train.

Local L. A. W. Consul Thomas A Cuming and his brother, Harry, left early this morning for a ride to Philadelphia. They will also spend a short time visiting friends in South Jersey, and expect to return Wednesday night.

A new question of superiority has arisen in wheeling circles. Ray Pool and Eugene Richter have both defeated Simmonds and there is much interest expressed in the meeting of the two men. Simmonds is by no means out of the race yet, and between the three Plainfield ought to see some fast work. The question of honors is an open one among them yet to be settled. Last Saturday, however, Richter twice outsprinted Simmonds, or Simms, as he is often called.

There is considerable talk among some of the local wheelman of having the Crescent Oval put in some kind of shape and holding matinee races there once or twice a week for the local cracks. Such a series of races would undoubtedly meet with good support, for the people are just beginning to wake up to the loss of good racing. The races already held this season have attracted many. There is lots of rivalry among the local riders and an informal meet would give the riders a chance to show their ability.

The principal event of interest to racing men in this section Labor Day will be the big Diamond Race meet of the Brunswick Bicycle Club at New Brunswick. The races will be held on the New Brunswick Driving Association track, one of the fastest and safest of its kind in the country. The six events will be a one mile novice, one-half mile handicap, one mile handicap, two mile handicap, two mile tandem handicap and a two mile open for triplets. The last event will be the principal one of the meet and is bound to be a very exciting contest.

The next bicycle run of the Y.M.C.A. wheelmen is set down for Thursday night. According to the schedule the wheelmen go to Somerville, but as Somerville has withdrawn from the League. Captain T. A. Cuming has called an independent run to Perth Amboy. The wheelmen are requested to meet at the building in time to start at 7:30 o'clock sharp. They will ride to Perth Amboy via Metuchen, returning by way of Rahway. These roads are not used very frequently by wheelmen, as they have only recently been put in fit condition to ride over, but are fast becoming popular routes.

AMONG THE STEPPERS.

Local horsemen who expect to contest for the silver cup offered by J. W. Johnson, president of the Plainfield Driving Club, for the two mile heats driven nearest to six minutes for both heats, should enter at once with W. F. Williams, the secretary. The entries should be made in writing.

Myrtle Twig, Thomas Brantingham's fast mare, who was sick Saturday and unable to appear on the driving park track, was well enough to jog out a little yesterday. Her owner took her to the blacksmith shop, where light shoes, those in back weighing five ounces and those in front six, were put on her. Brantingham thinks she will be ready to take her place again on the track in a few weeks.

An excellent programme of races has been announced for the New Jersey State Fair at Waverley Park, Newark, Sept. 5-9. The entries close Thursday, Aug. 18th, with James M. Reilly, 764 Broad street, Newark. The programme is as follows;

MONDAY, SEPT. 5TH.		
2:26—Trotting stake (closed).....	Purse	$1,000
2:33—Pacing.....	"	400
2:34—Trotting stake (closed).....	"	500
TUESDAY, SEPT. 6TH.		
2:30—Trotting.....	"	300
2:25—Pacing stake (closed).....	"	800
WEDNESDAY, SEPT. 7TH.		
2:29—Trotting.....	"	500
2:28—Pacing.....	"	400
2:27—Trotting stake (closed).....	"	500
THURSDAY, SEPT. 8TH.		
2:17—Trotting stake (closed).....	"	1,000
2:16—Pacing stake (closed).....	"	1,000
2:21—Trotting.....	"	500
FRIDAY, SEPT. 9TH.		
2:40—Trotting.....	"	300
2:21—Pacing.....	"	400

ROD AND GUN.

A meeting of the Fish Game Protective Association is called for Friday night at 216 Park avenue. The shooting season is almost here, and much interest should be taken by the members in matters that are to come up for consideration at the meeting. This promises to be the best season for game that sportsmen have experienced for several years. Plenty of young game has been set out, rabbits as well as birds, and they have been multiplying rapidly. The new law, making a trespasser on another man's property for the purposes of shooting game liable to a fine of $100, meets with the approval of the association.

A matter that will come up for consideration Friday night is that of allowing dogs to run at large through the country, killing young game, etc. Some plans will be introduced to put a stop to it.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Horace J. Martin and family, of the borough, are out of town

J. C. Peck, of Washington Park, left today for a business trip.

E. D. Johnson, of Richmond street, has moved to East Third street.

John Hall, of Putnam avenue, is spending his vacation out of town.

Edwin Smalley, of Summit avenue, is spending a week at Asbury Park.

Mr. Greenwood, of Boehm's dry goods store, is away on his vacation.

John Ross, of East Sixth street, went to Elizabeth today on business.

Mr. and Mrs. Howard Pope, of Fifth street, have returned from their vacation.

Mrs. C. E. Rider, of East Front street, has gone on her summer vacation.

W. M. Sandford and daughter, of East Front street, have gone to New Dover, N. H.

Mrs. A. P. Smith, of Belvidere avenue, is summering at the "Sherwood," Portland, Me.

Miss Blanche Smith, of Jersey City, is a guest of Mrs. D. W. Rogers, of West Second street.

Mrs. T. E. Currin, of Summit avenue, has returned from a visit with relatives at Princeton.

J. W. Mundy's home on Summit avenue has been brightened by the arrival of a yong son.

Miss Grace Day, of Central avenue, has returned after a visit with friends at White Plains, N. Y.

Mrs. John Albert, of East Fourth street, who has been quite ill, is reported to be slightly better.

Miss Edith Scrymser, of Staten Island, is the guest of Mrs. Wm. Thiers, of Watchung avenue.

Mr. and Mrs. Frank H. Smith, of Madison avenue, have returned from a sojourn at Noyes Beach, R. I.

Mrs. E. P. Williams, of West Seventh street, is entertaining her brother, Mr. Bolton, of Chicago.

Mrs. E. N. Erickson and son, Eric, of West Eighth street, are stopping for several weeks at Asbury Park.

J. V. Rittenhouse, of East Sixth street, has gone to Morris Plains where he is the guest of relatives.

Clarence Thorn, of East Second street, rode to Asbury Park Saturday on his wheel, and spent Sunday and yesterday there.

BOYS ON THE BADGER.

CONTINUED FROM PAGE 1.

to be hospital boats, but as they didn't have a written permit from the Red Cross Society, our captain took them in the name of the U. S. as prizes of war. Of course, they got very hot about this, and it was comical to see the captain of the tug swell up and assume a dignified position, but it did no good. He was surrounded by a dozen armed men and with a hundred rifles of different calibre bearing on him from the Badger, he had nothing to do but surrender. It was found that there were about three hundred people aboard the three ships. Some were Spanish soldiers wounded and some were Spanish sympathiziers. All were taken as prisoners of war. There is some trouble, however, as they came out with a sick flag flying it is difficult to decide here whether they will be considered prizes or not. The value of the three ships is estimated at $190,000. We may get about $20,000 out of it and we may get "nit."

The brig is about four years old and in very good condition. We are now on our way to a little place up the coast, where we leave the prizes in charge of a prize-crew to go on to Key West, while we will go back to the station off Nuevitas until we get orders to go to Key West.

There are two more Spanish gunboats in the harbor that we want to get. I hope the old saying will come true that it never rains but it pours. You should have heard the cheers we gave when the order came to clear the ship for action. The Captain said that he was prouder of his men now than he had ever been before. He said that we went to work with such a will that we reminded him of pirates. As a reward he is giving us a holiday today to smoke, read and do anything we like.

I tell you it looked nice to see Old Glory go up on the foremast of the tug and see the good old American uniform around the decks.

We are on our way to Key West after that box, I hope, and for coal.

GOLF.

The new pins of the Hillside Tennis and Golf Club have been received. They are very tasteful combinations of gold and blue and white enamel in the design of the flag of the club. They can be obtained of C. A. W. Fox, the green-keeper.

DIDN'T TEAR UP THE TRACKS.

Summary Action That Dunellen Councilmen Intended to Take.

(Special to The Daily Press.)

Dunellen, August 9—Exasperated at the manner in which the Brunswick Traction Company connected their tracks with those of the Plainfield Street Railway Company at Dunellen, Councilmen Wyncoop, Wilcox, Gaston and Gaskill, of Dunellen, started out last evening with the full intention of ripping up the tracks at midnight.

The tracks form an S in the road at the point of the connections and the councilmen were especially displeased with this. The councilman thought that their suggestion of having the tracks laid in a straight line should be complied with.

They engaged the services of several men whom they intended to have tear up the tracks, but when midnight arrived the laborers failed to put in an appearance and the councilmen were unable to carry out their plans. The incident has caused a great deal of talk in Dunellen.

PARTICULAR MENTION.

Mrs. V. W. Laing, of East Front street, left Saturday for Asbury Park, where she will spend a few days.

Miss May Mowinkel, of North Plainfield, left this morning for a week's visit with friends in Morristown.

Mr. and Mrs. M. L. Ackerman, of Crescent avenue, are registered at the Manhasset House, Shelter Island.

Edward Moeher and family, of Elmwood place, who have been sojourning in Pennsylvania, returned home last evening.

Mr. and Mrs. Henry Thomas, of Martense Park, L. I., have returned home after a short visit with Mr. and Mrs. G. F. Watts, of the borough.

Mrs. Charles Dodwell, of Dunellen, and Mrs. James Radin, of North avenue, this city, went to Manasquan last evening to take part in an entertainment to be given by the Red Men, of that place.

Charles Hitchcock, Jr, of Pittsburg, Pa., who has been visiting Walter Place, of Grove street, has returned home. Mr. Hitchcock is one of the rising young business men of his city and is very popular.

George Wean and family, of Spooner avenue, are enjoying their annual vacation, and in consequence Mr. Wean was not present at the City Council meeting last evening to act in his position as stenographer.

Mrs. Sarah Fulton and nephew, Clarence VanNostrand, who have been visiting relatives on Jackson avenue for two weeks, expect to return to their home in Elizabeth Thursday. Master VanNostrand is the son of former Collector Van Nostrand, of the borough.

Misses Nellie Conway and Jennie Kilpatrick, of Watchung avenue, spent a few days last week with friends at Fort Wadsworth visiting South Beach. They were accompanied by John O'Neill and John O'Rourke, of Co. E. Third Regiment, Sandy Hook. They spent a very pleasant time.

BENJAMIN FRANKLIN.

Some of the Things Which the Great American Philosopher Did.

Franklin inspired and established the Junto, the pleasantest and most useful American club of which we have knowledge, says an exchange.

He founded the Philadelphia Library, parent of one thousand libraries, which marked the beginning of an intellectual movement of endless good to the whole country.

He first turned to great account the engine of advertising, indispensable in all modern business.

He published "Poor Richard," a record of homely wisdom, in such shape that hundreds of thousands of readers were made better and stronger by it.

He created the postoffice system of America, and was the first champion of a reformed spelling.

He invented the Franklin stove, which economized fuel, and he suggested valuable improvements in ventilation and the building of chimneys.

He robbed thunder of its terrors and lightning of some of its powers to destroy.

He founded the American Philosophical Society, the first organization in America of the friends of Science.

He suggested the use of mineral manures, introduced the basket willow, promoted the early culture of silk, and pointed out the advantages of white clothing in summer.

He measured the temperature of the Gulf Stream, and discovered that north east storms may begin in the southwest.

He pointed out the advantage of building ships in water-tight compartments, taking the hint from the Chinese, and first urged the use of oil as a means of quieting dangerous seas.

Besides these great achievements, accomplished largely as recreation from his life work as economist and statesman, Benjamin Franklin helped the whole race of inventors by a remark that has been of incalculable value and comfort to theorists and dreamers the world over. When some one spoke contemptuously of Montgolfier's baloon experiments, and asked of what use they were, the great American replied, in words now historic:

"Of what use is a new-born babe?"

HIS SECRET OF PERPETUAL YOUTH

Was Always the Lover and Not the Commonplace Husband.

One of our middle-aged citizens who surrenders himself entirely to business and looks older than his years, had been curious to learn how one of his neighbors, twenty years his senior, managed to retain his youthfulness of spirits and activity. The old gentleman has a florid face that seems to belie the crown of snow-white hair. His eyes are sparkling, his step is elastic, his form erect and his laugh contagious. When asked for the desired explanation he blushed like a schoolboy and occasionally stammered in his explanation:

"Of course," he laughed, "I'm regular in my habits, get out of doors a good deal, and try to take things just as philosophically as I can. That is, I won't permit myself to worry. But I wouldn't be telling you the whole truth if I withheld what I regard as the chief secret of my being so well preserved. I have courted my wife ever since I married her, and that was more than forty years ago. I pay her all the little attentions that I ever did when I was trying to win her, and which a woman never ceases to hold dear. I invite her to ride, ask her to go to the theatre or whether she would enjoy accompanying me to some social entertainment, and take her out into the country and rave over its beauties, just as we have always done.

"In that way, don't you see, we fail to note the passage of time. She is the same happy girl and I the same attentive lover. If we have a little tiff we act very much as we did when foolish youngsters and make it all up in the same way. Try it. It's the secret of perpetual youth."—Detroit Free Press.

SPAIN'S ROYAL PALACE.

It Is One of the Most Beautiful Structures in the World.

The royal palace at Madrid is one of the most beautiful structures in the world, being built by an Italian architect in the early part of the last century, at a cost of $5,000,000, and was intended to be a rival to the French palace at Versailles. The material is white marble and is 470 feet each way, with a court 240 feet square, roofed with glass. Few places are more tiresome to visit than palaces, with their long rows of gorgeously decorated chambers, gilt furniture and everlasting mirrors, but the Casa Real at Madrid is very interesting and contains a remarkable library of 100,000 volumes, including priceless papers, pictures, bronzes and marble, says the International Magazine.

The stairway of Spain's royal palace is a noble structure of black and white marble, and is guarded by four statues of Roman emperors who were natives of Spain—Trajan, Adrian, Honorius and Theodosius. On the first floor are thirty large saloons, the chapel and the library; on the second floor the royal family and the members of the court reside. The palace is said to contain over 700 clocks, which were collected by Ferdinand VII., no two of them being alike.

The throne room of Spain is a magnificent apartment of crimson and gold, with colossal mirrors and a chandelier of rock crystal that is considered the finest example of the kind in the world. Under the gorgeous canopy are two large chairs handsomely carved and gilded and upholstered in crimson brocade. These are the thrones of Spain, where the boy king and queen regent sit on occasions of ceremony. Sometimes the daughters stand beside their mother, when it is proper for all the royal family to receive the court.—Chicago Times-Herald.

IGNORANCE OF AMERICA.

Englishman Thought We Went to Market In a Cart.

Foreign ignorance of America has ceased to be surprising. It has come to be taken as a matter of course by Americans. But every now and then something happens that calls our attention to its crassness. A young woman who recently returned from a visit abroad relates an amusing instance:

"Just before I sailed for home," she told a party of her friends the other day, "I met a party of Englishmen who were intensely polite and showed great interest in me when they heard I was from Chicago.

"'Ah yes,' said one of them, 'I know all about America. You see I have some relatives over there. You have to go to market in a cart. It must be great fun.'

"That puzzled me for a minute, but I found out afterwards that his relative lived on a ranch somewhere out West, and I had great difficulty in persuading him that in Chicago we did not go to market in a cart. Indeed I don't believe I converted them to a belief in my denial."

AGED AND DESTITUTE WON'T LIVE APART.

Old Jim Clark and Wife Go Back To Their Ramshackle Hut.

MORE LIKE HOME TO THEM.

SNEAK THIEVES HAD STOLEN ALMOST ALL THEIR BELONGINGS.

The Old Couple Were Not Contented to Live Separate From One Another—Now Domiciled in the Shanty at Stony Hill Where They are Trying to Get Some Few Joys Out of Life.

"We hain't got long to live and we want to live together as long as we can." The bent and feeble form of the old man straightened up for the moment as he said it, facing his visitor from the doorsill of his shaky board shanty. Then he hobbled away leaving the stranger to wonder at old "Jim" Clark, who would rather live with his aged wife in their delapidated shanty in the woods than away from her in a far more comfortable home.

Several weeks ago, The Daily Press told of the extreme destitution of James Clark, an aged fish peddler, and his wife who lived all alone in a little board shanty near Stony Hill. Both were ill and then Clark fell down stairs and badly injured himself while his wife was too weak to relieve him. A well-known Plainfielder, who interested himself in the case and drove up there, said that the destitution of the elderly couple was even worse than The Press had described.

The popular feeling in the vicinity of Stony Hill was so strong that the poor authorities of New Providence township agreed to look after Clark and his wife. Clark was taken home by his son Elias, who has a small farm in Morris county. Clark's raw-boned horse and peddler's wagon accompanied him. Then the township authorities provided a home with a family in Stony Hill for Mrs. Clark. That happened a month ago.

Since then Clark has driven over to see his wife several times. He was not comfortable at his son's home. It did not seem like home to him. He wanted a home of his own, no matter how small it might be. Mrs. Clark was miserable. The family with whom she lived paid little attention to her, she said, and that they drank and went on in terrible fashion.

Saturday afternoon Clark appeared in Stony Hill with his horse and wagon. Mrs. Clark was waiting, her little bundle of clothing in her hand. She climbed in and away they went.

They drove at once to their little home in the woods, which had been locked up during their absence to protect it as far as possible from the weather. They had decided that their present mode of living was not a success and that they were going back to the old way.

When they arrived at the shanty in the woods, they found that some one had been there before them. Some dastardly thief had pried off the boards that covered one of the front windows, entered the house and robbed the old couple of almost everything worth taking. They are now destitute, indeed.

The bed clothing was gone. So were two feather pillows with cases, a relic of former greatness. Three sheets were missing. Several stone jars filled with preserves, which Mrs. Clark had laboriously put up, were taken. The cups, saucers, plates, knives, forks, spoons and tumblers, although but worth little, had been stolen. Even the basket with the clothes pins in it was missing.

Berries and a little bread constituted the main portion of the menu for the first meal. A few old dishes were found and the old couple had to get along without knives or forks. It was not an elaborate meal, nor was it elaborately served, but it was in their own home and they felt happy again.

They have now resumed life out there in the shanty, and the rain beats in the cracks in the wall as it used to do. The wind howls mournfully about the eaves and the "katy-did" in the woods keeps up its monotonous call. They are together once more, and all the loneliness of the place, the rustling of the branches, and the mournful sounds on every side affect them little. As the great gray owl down by the spring hoots sorrowfully at twilight, they sit on the steps to the shanty and feel that they are content.

Perhaps, at times, Mrs. Clark thinks of the days long ago when as the wife of her first husband, a letter carrier in the capital city of Washington, she took part in the gaiety of life at the National Capital. She may even think of that eventful night when she attended the inaugural ball of Presi-

COURT WON'T INTERFERE

JUDGE VANSYCKEL DECLINES TO STOP SALE OF TROLLEY FRANCHISE.

Opponents of the Bergen Plan in Cranford are Defeated in Their First Attempt to Prevent the Great Improvement.

(Special to The Daily Press.)

Elizabeth, August 10.—Judge VanSyckel yesterday refused to grant a writ of certiorari to review the proceedings of the Union County Board of Freeholders in the matter of the disposal of the franchise to construct a trolley line over the County Boulevard between Elizabeth and Plainfield. He also refused to issue an order to show cause why a writ should not issue, and plainly intimated that he would do nothing to obstruct the efforts that were being made to obtain rapid transit between Plainfield and Elizabeth, and the towns that lie on the line of the proposed boulevard and between the two cities.

The application was made in the name of Hannah Randolph and William M. Deutsche, and was argued before Judge VanSyckel yesterday at his summer home at Mantaloking, Ocean County, by Mr. Depue, for the applicants, and was opposed by Frank Bergen, who appeared for the Elizabeth Horse Railroad Company, which has made an offer of $250,000 for the franchise.

It is said that the real applicants for the writ of delay was probably the Elizabeth and Westfield Street Railroad Company, which has been trying for over a year to get a franchise from Elizabeth to Plainfield, on the old terms.

Mr. Bergen felt elated over the action of Judge VanSyckel, which, he declared, now leaves the way clear for the Freeholders to go ahead and award the franchise at their meeting tomorrow afternoon.

WAS WITH ROUGH RIDERS

FORMER PLAINFIELDER SHOT TWICE BY THE SPANIARDS.

George A. Moncton Joined Teddy's Terrors and Was Among the Wounded—Won't be Able to Fight For Some Time.

The friends of George A. Moncton, formerly of this city, who once enlisted in the regular army, will be pleased to learn that he is all right. For a long time no word could be obtained of his whereabouts and it was thought that he had been killed. Late information says that he enlisted in the southwest with the first troop of Rough Riders. While in battle in Santiago he was shot in the left arm and in the right leg.

He was picked up on the battle field and taken to a hospital within a mile of Morro Castle, and in a letter that he wrote recently to his mother, he says that he can plainly see the Castle. He does not think that he will be able to resume fighting very soon, although he would like to recover quick enough to continue fighing against the Spaniards.

CONUNDRUM SUPPER.

An Affair That Mt. Olive Church is Planning to Give.

Mt. Olive church people are making great preparations for the concert and conundrum supper August 25th, at Washington Hall. This entertainment bids fair to surpass any in the history of the church.

There will be contest drills between the companies of boys and girls, now in charge of Arthur Venable. Excellent music will be rendered by the choir of the church, and Black Hattie, who charms her hearers, will appear. She is styled "The African Mocking Bird."

The colored societies of the city will be out to listen to a twenty-minute address from Rev. E. E. Jackson, pastor of the church. There will be duets, quartettes, dialogues and other features, after which there will be refreshments. There will be a prize presented to the person who explains the bill of fare; also a cake containing the prodigal son's jewelry. Admission will be 35 cents, supper free. Mrs. Rosa Venable is manager of this affair.

Grace M. E. Parsonage.

The board of trustees of Grace M. E. church met last Monday evening and heard the report of the building committee regarding the erection of a parsonage on the same property that the church is located. The Board adopted the plans offered by the committee, and as soon as the detail work can be arranged the work of building the parsonage will be started.

Collector Martin's Bond.

The bond of Collector J. A. Martin was filed with the City Council last Monday evening. The bondsmen are Dr. O. L. Jenkins, L. B. Woolston, C. M. Raybert and Andrew Love, Sr. The amount of the bond is $25,000.

Mrs. Adam Fritz and daughter Miss Lucilla, have returned from Flagtown.

FACTORY EMPLOYING 150 MEN COMING HERE

Industry to Move From Connecticut to This City.

WORK OF BOARD OF TRADE.

PARKER-WISHART-HALL COMPANY EMPLOY 150 MEN.

They Will Consolidate Their Plant With the Aluminum Plate and Press Company—They Manufacture Machine Tools and Special Machinery—Works Now Located at Stamford, Conn.

Another industry is to be located in this city at an early date. It is The Parker-Wishart-Hall Company, manufacturers of machine tools and special machinery, whose present location is Stamford, Conn. They employ about 150 men and do a fine class of work.

The Board of Trade has for sometime past been endeavoring to get this company to come to Plainfield, but seemed unable to get a suitable place where they could erect a factory that would be convenient for the company. The efforts of the Board of Trade have been rewarded, however, and the company has decided to come to this city, as the following letter sent to the Board will show:

Stamford, Conn., Aug. 8th, 1898.

Dear Sir:—Owing to pending matters we have been unable to answer your letter of July 30th, until today, and regarding the same we would say we have consolidated our plant with the Aluminum Plate and Press Company, of your city, and will join our plant with theirs.

Please accept our thanks for the interest you have taken in this matter, and we trust we may be able sometime to return the compliment.

Yours truly,
The Parker-Wishart-Hall Co.

Now that the consolidation has been effected it is expected that the new company will come to this city in a short time, in fact arrangements are now being made for the change.

CAUGHT IN A CORNFIELD.

George O. Stevens Saw the Stalks Waving When There Was No Wind.

There was a waving among the corn that the blacksmith could see was not caused by any gentle zephyr. So he spoke to his employer, George O. Stevens, who was hard at work in his coal office on West Front street, near Grant avenue. Now Stevens owns a plot of ground in the rear of his coal yard and blacksmith shop which he devotes to the raising of corn fodder.

When the blacksmith notified Stevens yesterday afternoon that there were visitors in the corn field, Stevens armed himself with an order book and seven pencils and started forth. There was a great agitation in the far corner of the field of waving corn and then two boys dashed over the railway embankment. Then the genial coal dealer and corn grower caught sight of a small boy approaching with a large bag slung over his shoulder. Stevens captured the boy.

The small boy was Bennie Bloodgood, twelve pears old. Acting Roundsman Mattox was sent for and took the lad before City Judge DeMeza. John Adelmann gave bonds for the appearance of the youngster this morning.

This morning he came and told the City Judge how he had been called into the field by two other boys to hold a bag for them. Then they suddenly departed without warning, and he decided to take possession. He then started off and walked directly into the arms of George O. Stevens.

Judge DeMeza reprimanded the youngster and told him to be careful in the future how he visited other people's cornfields. Sentence was suspended.

Street Work.

Former Street Commissioner R. M. Meeker is repairing the road bed of Crescent avenue, which street has had but little work done on it since the sewer was put through. The property owners have been repeatedly promised that it would be macadamized. Mr. Meeker will also attend to any work requiring immediate attention while the street commissioner is taking his vacation.

To Organize a Quartette.

Clifford Braider, of Manning avenue, is organizing a quartette, to be composed of Horace J. Martin, Jr., first tenor; Clifford Braider, second tenor; Charles Dolliver, first bass, and Oscar Moore, second bass. The quartette will meet tonight at Braider's house to organize.

J. C. MacClymont and family, of Washington avenue, have returned from a three weeks' vacation spent at Fairport, N. Y.

DEFEAT WAS UNEXPECTED.

Spanish In Manila Demoralized By Our Victory.

THOUGHT MERRITT WEAK

EXPECTED THAT INVADERS WOULD BE DRIVEN IN SEA.

Manila Papers Gave Out Lying Reports of American Army and Raised False Hopes Among Soldiers and Spanish Residents.

(From the Union Associated Press.)

Manila, August 5, via Hong Kong, August 10, 12:15 p. m.—The Spaniards are stunned and demoralized by the great victory won by the Americans against such overwhelming odds on the night of the thirty-first.

According to the reports brought in by the refugees from the Spanish lines, all the advantages were so clearly on the side of the Spanish that the soldiers and residents of Manila expected nothing less than the driving of the Americans into the sea.

Their hopes have been buried that were raised so high by the Spanish press of Manila which published such lying reports as to the woeful condition and weakness of numbers of the Americans.

The Spanish loss was very heavy, including several officers of high rank. The exact number is not known.

The Spanish plan was to turn the American flank. They were to make a joint attack on the front and right of the American line of intrenchments with the intention of killing as many as possible and demoralizing the American force before the general advance on Manila.

They fought doggedly to this end, but the steady fire of the American rifles and batteries was so utterly unexpected that the Spaniards were forced to withdraw into the forests and trenches at Malate.

PEACE CONFERENCE.

Day and Cambon Met This Morning to Settle Certain Details.

(From the Union Associated Press.)

Washington, August 10, 1:10 p. m. A meeting was held this morning between Secretary of State Day and the French Ambassador at the State Department.

The meeting was to consider certain details of the Spanish reply, left open from yesterday's conference at the White House.

There is reason to believe that the Spanish Government is about to recede from certain conditions which were sought to be imposed yesterday and that the result will be an agreement upon the basis of the terms of peace.

The French Ambassador, accompanied by M. Thiebaut, arrived at the State department shortly after eleven o'clock this morning.

After a conference of fifteen minutes, Secretary Day drove to the White House to confer with President McKinley. Cambon awaited Day's return in the diplomatic room of the State department.

EARLY PEACE EXPECTED.

Generally Expected That Hostilities Will Cease in Twenty-four Hours.

(From the Union Associated Press.)

Washingtod, August 10, 12:24 p. m.—It is the general expectation that hostilities between the United States and Spain will be suspended within 24

PLAINFIELD TO HAVE GOOD BALL TEAM AGAIN

Riverdale Field Club Has Secured the Crescent Oval.

HEADQUARTERS TO BE HERE

NEW YORK ATHLETES TO HAVE PERMANENT GROUNDS

First Contest Will be Played Next Saturday Afternoon Between the Riverdales and the Team of the Montclair Athletic Club—Rivalry is Great Between Them Just Now.

After nearly two months of idleness the Crescal Oval will on Saturday resume its wonted activity. Baseball is coming to Plainfield again. Two of the strongest teams of this section of New Jersey are to meet here on a neutral ground and settle the question of supremacy. It will mark the re opening of the baseball season in Plainfield under entire new management and with a new team.

Twice have the nines of the Montclair Athletic Club and the Riverdale Field Club met. The Montclair boys won the first game. Last Saturday the second game was played at Montclair and lasted for eleven innings. Then the Riverdales won 11 to 6. Saturday of this week the deciding game will be played at the Crescent Oval, beginning at 3:30 o'clock. The grounds will be put in good shape and everything will be done for the convenience of the patrons, local and visiting.

There are a number of nines that hail from New York but have no grounds of their own. Of them, there is none better known than the Liverdale Field Club. It is largely composed of college men and crack players drawn from the principal athletic clubs of the neighborhood. The Riverdale team has been very successful this season but they have been without a home. Discovering that Plainfield had no baseball team, the management decided to find a home for themselves and a team for Plainfield at the same time. Hereafter, the Riverdales will play in Plainfield and in baseball circles, will hail from Plainfield. The name will also be changed after the completion of this series with the Montclairs.

The Riverdale Field Club has a mighty strong team this year. Harry Westervelt, the phenominon from Englewood, is in the box. Hayes, of Fordham College, catches him. Woods, the well-known Riverdale man, is at first. Fred Smith, an old Princeton man, covers second while Romig, who made his reputation on the New Jersey Athletic Club team when it played championship ball, will look after third. Reinecker, an old Orange Athletic Club player, will be at short. Easton, the great Princeton 'varsity left fielder, will play the same position for the Riverdales. Wm. Smith is down for centre field and Hardy for right.

Montclair has Teddy Smith, captain of the Wesleyan team, at second, and Wheeler, of Princeton, at short. Harrison, the well-known Princeton pitcher, will be in the box for Montclair. Their other men are all well known.

W. S. Haley, manager of the Riverdales, has the lease of the Crescent Oval for the remainder of the season and for next year. It is his intention to give Plainfield good baseball at popular prices. Stages are to be run to the grounds from the station, and the wheels of the patrons will be checked free at the Oval if they prefer to come awheel.

Games will be played every Saturday afternoon for the remainder of the season and some of the best of the nines in the Metropolitan district will be here to meet the Riverdales, who will then go under the name of the Plainfield Baseball Club.

Severe Case of Gastritis.

Robert H. Rushton has returned home from the Presbyterian Hospital in New York, where he has been undergoing treatment for stomach trouble. Mr. Rushton thought at first that there was a growth of some kind inside his stomach and had himself examined carefully by means of the X-rays. The examination lasted ten hours and was complete and thorough. It was found that Mr. Rushton's fears were unfounded, but that he had a severe case of gastritis. His health is much improved.

Star Course Entertainments.

The Star Course entertainments to be given at the Y. M.C. A. this season, have about been arranged for. The first one will be given October 31st, the entertainer being J. Williams Macy, of New York. Mr. Macy's entertainment consists of story-telling and songs.

DON'T LIKE DIRT PILES.

ALBURTUS SWALM AND JOHN HAVILAND INCENSED AT THE CITY.

Earth Excavated for a Sewer Has Been Thrown Up Alongside Their Land—Back Yards Only Way to Enter.

If there are two indignant people in Plainfield they are Alburtus Swalm and John Haviland, of West Front street, near Plainfield avenue. For some time past the work of laying surface drainage pipes through Plainfield avenue has been going steadily along. All went smooth until Front street was reached and the turn was made. The trench was run from the corner of Plainfield avenue down Front street as far as Giraud avenue. The side of the street chosen for it was alongside of Messrs. Swalm and Haviland's property. The trench was deep and dirt was thrown up on the sidewalk in front of the two properties mentioned to a height of several feet. As a result people were unable to walk along that side of the street, the grass in front of the properties has been practically ruined, and the whole affair has been a source of annoyance. Last Monday Mr. Swalm had company and they were unable to reach the house from the front entrance, but were obliged to walk down Plainfield avenue and go in from the rear.

Mr. Swalm told a Daily Press reporter that he thought it was a very cheeky piece of business. He said the dirt could have been thrown on the right hand side of the trench, inasmuch as the trolley company were unable to use one track. It is quite likely that Messrs. Swalm and Haviland will make a complaint about the matter and ask the city to settle with them for damages to the property.

WENT IN SPITE OF STORM

ST. MARY'S T. A. B. EXCURSION GOES TO HIGHLAND BEACH.

A Good Many of the Prospective Excursionists, Though, Stayed at Home When They Saw the Rain Falling This Morning.

There was not a very encouraging prospect when the special train, intended to carry the excursion of St. Mary's T. A. B. Society, of this city, lined up on the siding just west of the North avenue station. Some of the would be excursionists would not allow such a little thing as a storm spoil their pleasure and showed up at the station at the appointed hour, ready to go if the committee should so decide.

There was a hurried gathering of the committee at an early hour. When it rained so hard, the committee had about decided to get it up but a cessation of the pattering rain drops and an apparent breaking of the clouds persuaded them to hold the excursion after all.

Thirteen cars had been provided but the crowd that turned out would only fill five or six. Five cars were then left on the siding. It began to mist as the time to start drew near but it did not amount to much and the excursionists clambered aboard.

The start was delayed until 8:30 o'clock, following out the express. By that time, the mist had turned to a rain that was falling quite heavily. The train started, however, with the prospect of a wet time. The destination was Highland Beach, a resort near Sandy Hook, lying between the Shrewsbury River and the Atlantic Ocean.

Execution Secured.

(Special to The Daily Press.)

New Market, N. J., August 10.—Attorney Irving L. Brady, of Plainfield, has secured an execution from the Court of Chancery in a foreclosure suit for Mary E. Holton against the Alberti property on Prospect avenue. The decree is for $3,700.

Weeds Growing High.

The weeds have grown so high on the sidewalk on the southern side of South avenue, between Berckman and Richmond streets, that it makes walking unpleasant, especially in wet weather, when a person's clothes would be drenched by coming in contact with the wet weeds.

Five New Members.

At a regular meeting of Plainfield Council, O. C. F., last night, one candidate was initiated and five propositions for membership were received. The initiation was in charge of P. G., S. Reid, of Jersey City, assisted by P. C. Reid and D. P., G. C. Hopkins, also of Jersey City.

Extending the Mains.

Work was started this morning by the Plainfield Water Supply Company to extend their mains up Somerset street toward Johnston's Drive, so that a water pipe can be laid to the new clubhouse of the Park Golf Club.

Mr. and Mrs. William R. Mosher, of New street, have gone to Unionville, N. Y., for ten days.

SOMERSET CHARGES BAD FAITH TO MIDDLESEX.

Somerset Freeholders Had an Exciting Session Yesterday.

ABOUT BUILDING A BRIDGE.

IT IS IMPORTANT TO BRUNSWICK TRACTION COMPANY'S PLANS.

A Hitch About Building the Span Over Green Brook at Union Avenue in Bound Brook—Middlesex Shows a Disposition to Back Out of the Plan for its Share Part of the Expense.

[Special to The Daily Press.]

Somerville, August 10.—The regular meeting of the Somerset County Board of Freeholders was held at this place yesterday afternoon. It was one of the most exciting in the history of the Board. An exciting controversy arose over the construction of a bridge over Green brook on Union avenue. It will be remembered that the Middlesex County Board of Freeholders, together with the Somerset County Board, the Brunswick Traction Company and the Philadelphia Traction Company, agreed to erect a bridge on Union avenue, and each one was to pay one quarter of the cost. That plan seemed to satisfy all parties concerned when proposed a month ago.

Great was the surprise yesterday when the Somerset county members learned from the Middlesex County Board that the latter had backed down and refused to pay their share. It seemed to be generally talked about that some of the members of the Middlesex County Board are interested in the Brunswick Traction Company, and, therefore, do not care to put up the price.

The members of the Somerset County Board told Mr. Radel, of the Brunswick Traction Company, yesterday, that he owned the Middlesex County Board, according to his own words, and that he could go back and tell that Board that they can build that bridge if they want such a structure. The members from Somerset have decided to let the matter rest where it is, and they say that they will have no more trouble over the matter.

During the discussion some of the members became exasperated over the action of the members from Middlesex and some of them showed a disposition to withdraw from the plan entirely. Just how the matter will terminate is a question. It is evident that the trolley company would like to get out of erecting a bridge or paying their proportionate share.

Another important matter that came up for a lively discussion was that concerning the fact that Somerset County is now paying $2,000 more school tax than it should by rights. This matter was aired in the Legislative chamber by Senator Reed at the last session, and the Board decided yesterday to take some action.

It seems that Ocean county is not paying its proportionate share, and as Senator Reed stated at Trenton, there are wealthy people in that county who are not assessed within many hundred dollars of what they should. It was stated that one property owner alone in Ocean county was assessed for $2,000,000 when he claimed to be worth $10,000,000.

As a result of the discussion on the subject the director of the board appointed County Attorney Frecht, Freeholders Andrew Lutkins and Erasmus Ballentine a committee to go to Ocean county on August 22d and thoroughly investigate the matter, and report back to the board.

Tthe attention of the Board was also called to the fact that seven colored people residing in North Plainfield had been committed to the County Jail for ninety days, without having an opportunity of paying a fine for their violation of the borough ordinance. The director appointed Erasmus Ballentine and William Logan a committee to ascertain whether it is the duty of the county to keep the seven prisoners for ninety days.

Stopped a Runaway.

A horse belonging to a grocer in Metuchen stumbled this morning on West Third street, and, as soon as he recovered himeelf, set off on a run. One of the reins broke, and the driver was unable to do anything to stop the anuimal until Samuel Strong, of that street, ran out and caught the horse.

Miss Katie MacLaughlin, of Belvidere avenue, will leave Monday next to spend a few weeks at Troy, N. Y.

Andrew R. Stevens and family have returned to their home on Myrtle avenue after spending a month at the Neptune House, Belmar.

PRESIDENT HAS REPLY

Spain Accepts Our Terms but Asks Questionable Reservations.

TEXT IS NOT MADE PUBLIC

Ambassador Cambon Delivered the Document Late Last Night—Was With the President Two Hours—No Official Information Until After To-da.'s Cabinet Meeting.

Washington, Aug. 10.—Ambassador Cambon, bearing Spain's reply to the American terms for the basis of peace negotiations, went to the White House at 5.35 yesterday afternoon and remained with the president and Secretary Day until after 7 o'clock.

No official information regarding the character of Spain's reply has yet been given out at either the White House or the French embassy. It is known, however, that previous to his vis t to the White House and the formal presentation of Spain's reply, Ambassador Cambon told Secretary Day that he was certain that the reply would be satisfactory to the United States.

While nothing definite is yet known except by President McKinley and Secretary Day as to the text of Spain's reply, it is understood by members of the cabinet that Spain has accepted broadly the terms proposed by the United States as the basis of peace negotiations, but has submitted lengthy arguments in support of requests for provisions in the protocol to be drawn up and signed by Secretary Day and Ambassador Cambon which would amount to substantial changes and limitations in the terms.

It is understood that the Spanish government desires to havt this protocol provide for the time and manner of evacuation of Cuba by the Spanish forces, with the provision that they shall carry out their arms, and it is also understood that a provision in the protocol is wanted referring the question of the Cuban debt to the commissioners.

After Ambassador Cambon left the White House Secretary Day, who remained to dine with the president, said no statement regarding Spain's reply would be made. From this it is inferred that the president desires to confer with the cabinet before saying whether or not the reply is satisfactory.

At yesterday's cabinet meeting the general drift of sentiment was toward standing strictly on the conditions first laid down by the United States and requiring a direct answer, accepting or rejecting without any consideration of incidental questions which Spain's reply might raise.

But, on the other hand, there was believed to be a considerable and influential element of the administration desirous of a realization of the prospects of peace, so long as every vital and essential condition laid down by this government was accepted, even though the Spanish reply sought to dispose of other incidental points involved in a transaction of this vast magnitude.

So far as the reply itself is concerned, even the best informed government officials had no information, and there was little but conjecture as to its contents. But there were several points apparently established beyond question.

First of these was that the reply was so framed as to be considered by those who drafted it an acceptance of all the conditions laid down by the United States.

Second, it was established that this acceptance was a general characterization of the document as a whole, and that in making the acceptance Spain had presented elaborate views on each point involved and on questions which would naturally arise when the American conditions were carried into execution.

This raised a question as to whether the reply would be accepted as completely responsive to the American terms or as an indirect opening of negotiations on subordinate points.

If the points are purely incidental and formal, strong hope is entertained in official quarters that peace will bt realized as a result of the present negotiations, but if Spain seeks to impose important conditions, there is a prospect of delay, and possibly a refusal to accept the reply as responsive. The latter condition is hardly expected however, in any quarter.

Paris, Aug. 10.—A dispatch received here from Madrid via Barritz, says the Spanish reply to the United States expresses hope that the American government will not hand Cuba over to the insurgents but will retain control of the government of the island in order that the interests of Spanish property owners may be respected.

Spain also intimates her preference for the retention of Porto Rico, surrendering any of her Pacific possessions to the Americans instead.

The Spanish government is satisfied with the appointment of a mixed commission to settle the question of the disposition of the Philippines, and suggests that the meeting of the commission be held in Paris.

Suits Against Bank

Springfield, Mass., Aug. 10.—Receivers Bliss and Hyde of the defunct Bay State Beneficiary Association of Westfield and Boston have filed suits against former officials of the concern for amounts aggregating $300,000. The suits arise from the belief of the receivers that he former directors have failed to account for amounts aggregating over $100,000. The receivers allege that at one time Westfield officers sold rights of the company to a Boston clique for ninety thousand dollars and that later the rights were sold back to Westfield parties at $70,000, and in this way, the receivers claim, the rights of the many thousands of members were used for mere speculative purposes.

The Samoan Coaling Station.

Washington, Aug. 10.--Plans have been completed for the proposed coaling station at Pago-Pago, Samoa. It is estimated the work will cost $250,000, and the plant includes a steel pier running out some distance from the shore. At the end of the pier there will be a depth of 35 feet.

CERVERA BLAMES BLANCO.

Latter Held Responsible for the Loss of Spanish Fleet at Santiago.

Washington, Aug. 10.--Captain General Blanco is held responsible by Admiral Cervera for the destruction of the Spanish fleet. In his official report to Madrid, which has been transmitted to Spain through the French ambassador, Admiral Cervera calls attention to the orders issued by Captain General Blanco for his entrance into the harbor of Santiago de Cuba, and for his departure therefrom.

Admiral Cervera states that upon his arrival at Curacao he received instructions to proceed to Santiago de Cuba. Against his judgment he carried out his instructions, well knowing in advance that his fleet would certainly be blockaded. He received orders on July 1 to leave the harbor, and notwithstanding his telegram to Captain General Blanco showing the result of a sortie of the kind, he was ordered to obey instructions.

The navy department declines to make the report public on the ground that it is a confidential document and it is similarly regarded at the French embassy. Admiral Cervera feels that his report, having been addressed to the Madrid government, properly belongs to it, and should be suppressed or made public as it sees fit. It is a lengthy document, covering some sixty pages, and is a journal of the movements of the fleet from the time it left the Cape Verde islands until its destruction.

Accompanying the admiral's report are the reports of the commanding officers of all of the vessels of his fleet, with the exception of one ship, the report of which is made by the second in command, her commanding officer having been killed. The report of the commanding officer of the Colon, it is stated, shows that he really surrendered, to the battleship Oregon. Had it not been for the bursting of a steam pipe, which caused the revolutions of the Colon's engines to drop from eighty-six to fifty-four per minute, the Colon would never have been caught so easily.

ORDERS TO SHAFTER.

Troops for Montauk Must Be Isolated for Five Days and Great Care Used.

Washington, Aug. 10.--The following order has been sent to General Shafter for his instruction regarding the embarkation of troops from Santiago to Montauk Point:

War Department,
Adjutant General's Office, Aug. 9.

Commanding General Fifth Corps, Santiago de Cuba:

Recommendations of surgeon generals of army and Marine Hospital service as follows, should be accomplished as far as practicable:

1. Hold troops assigned to a transport under observation three to five days in separate camp not infected by fever.

2. Surgeons to inspect the same twice daily, isolating promptly suspected cases.

3. Bathe and freshly clothe or sterilize oil clothing of troops at the beginning of period of observation.

4. When not possible to detail troops in camps under observation, bathe them and freshly clothe or sterilize oil clothing before embarkation, excluding after searching inspection suspected cases.

5. Yellow fever convalescents or suspects should not accompany healthy troops.

6. No equipage or personal effects capable of conveying infection should accompany troops unless disinfected by steam or otherwise.

7. Arrange to embark by daylight under a careful supervision of surgeons who will control sanitary conditions of troopships en route.

By order of the secretary of war.

H. C. CORBIN,
Adjutant General.

The Key Monument Unveiled.

Frederick City, Md., Aug. 10.—The monument erected to the memory of Francis Scott Key, author of the "Star Spangled Banner," was unveiled yesterday at Mount Olivet cemetery here by his great granddaughter, Julia McHenry Howard of Baltimore.

Henry Watterson of Kentucky made the dedicatory address.

For a New Army Camp.

Washington, Aug. 10.—Major Mills of the inspector general's department has been ordered to inspect a tract of land in the vicinity of Tryon, N. C., for the purpose of ascertaining its suitableness for the establishment of an army encampment. If the site is favorably reported upon some of the troops now in Florida will go into camp there.

Red Cross Abroad.

Washington, Aug. 10.--The consul general at Berlin reports that an appeal for contributions to assist the Red Cross society in caring for the sick and wounded in the war between the United States and Spain has been issued by the Red Cross Society of Germany.

Another Prize in Port.

New York, Aug. 10.—The Spanish tug Humberto Rodriguez, which was captured as a prize of war by the Badger, has arrived in port. She will be sold at auction as soon as the necessary arrangements are completed.

Speaker Reed's Reply.

Speaker Reed recently wished to see a political friend on some very important business and telegraphed him to come at once to Washington. The friend took the first train, but a washout on the road stopped him. Going to a telegraph office he sent this message: "Washout on the line; can't come." To which, in due time, he received the following reply from the Maine statesman: "Buy a new shirt and come anyway."

High Lights.

Never despair; but if you do, just work on and call it malaria.

When a man saves a dollar for a rainy day it grinds him to have to spend it for an umbrella.

The truly considerate housewife will put off house cleaning until after her husband has gone to war.

Women treat men as they do their parlor palms; they give them either too much attention or too little.—Chicago Record.

BATTLE NEAR MANILA

American Advance on the Philippine Capital Stoutly Resisted.

VOLUNTEERS FOUGHT WELL

The Spanish Losses About 500 Men in Killed and Wounded. Our Losses Small. The Troops Engaged. No Part Taken by the Insurgents. Arrival of the Monterey and Three Transports.

Hong Kong, Aug. 9.—German steamer Petrarch, which left Manila on August 6, arrived here to-day and brought the first news of a severe engagement between the Spaniards and Americans near Manila.

The United States forces were victorious, and lost only eleven men killed and had thirty-seven men wounded. The Spanish losses are not definitely known, but they are reported to have been heavy, some estimates placing them at more than 500 men in killed and wounded. The insurgent forces remained neutral.

The attack was made on the American camp, between Cavite and Manila, during the night of July 31. The Spaniards, who numbered more than 3,000 men, made several desperate charges upon the American lines, but each time the fire of the American troops drove them back, and finally broke their center and they retreated.

Later the Spaniards made a second attack, but were again repulsed, and retreated into the bush, keeping up an incessant fire on the roads leading to Manila, over which they apparently expected the American troops to advance.

San Francisco, Aug. 9.—A dispatch to the Examiner from Manila, dated July 31, sent via Hong Kong, says:

"A heavy engagement took place tonight between the American and Spanish forces at Malate. The Spanish made an attack, attempting to turn our right. After an hour's fighting they were repulsed. The troops engaged were the First battalion California volunteers, Tenth Pennsylvania, First battalion Third artillery (regulars), and Battery A, Utah. Our loss was nine killed and forty-four wounded. The Spanish loss was upwards of 200 killed and 300 wounded. Our volunteers made a glorious defence against upwards of 3,000 of an attacking force. The battle raged for three hours."

A dispatch to the Call, from Cavite, August 6, via Hong Kong, August 9, says:

"The American forces engaged the enemy before Malate on last Sunday night and compelled them to retreat with heavy losses. Our troops lost thirteen killed and forty-seven wounded. It has been impossible to ascertain the exact losses of the Spaniards. The fighting lasted four hours. The American troops engaged were part of the Tenth Pennsylvania, First California and Third (regular) artillery.

"The Spanish led in the attack, attempting to dislodge our troops by a flanking movement from the strong position they have been holding near the enemy's lines. The position is still held by our troops."

A dispatch to the Call from Cavite, dated August 6, says:

"The three transports which sailed from San Francisco with General Merritt, but which were delayed at Honolulu, arrived to-day. The monitor Monterey also arrived."

Washington, Aug. 9.—A dispatch was read at the cabinet meeting to-day from Rear Admiral Dewey announcing the arrival of the monitor Monterey and the collier Brutus at Manila bay, and that there was plenty of coal and fresh provisions to last for three months.

CAPTURED SPANISH ORDINANCE.

Col. Borup's Report. 9,000 Rifles Thus Far Turned in.

Washington, Aug. 10.—Colonel Borup of the ordnance department has reported to the chief of ordnance of the army that he has received of the captured arms at Santiago 7,000 Spanish Mausers and 2,000 Argentina Mausers. It is estimated that there are 10,000,000 rounds of ammunition, but he has not had time to make an examination and count of this portion of the captured ordnance. The rifles which he has examined are in good condition and suitable to be issued at once to the troops. It is expected that as many more pieces of small arms will be received from outlying points near Santiago, the nine thousand being those taken with the troops in Santiago.

Two More Prize Ships.

Key West, Aug. 10.—Two Norwegian steamers have been added to the United States' collection of war prizes.

They are the Aladdin, captured by the auxiliary gunboat Hawk off Cadiz light isle of Pines, on Saturday, and the Bergen, taken by the auxiliary gunboat Viking, off Francis Key, on Sunday.

The Aladdin had cleared from Tampico, Mex., for Sagua la Grande, with a cargo of sugar. The Bergen was ostensibly bound from Santiago for the same port for the purpose, it is said, of taking off refugees.

Both steamers were seized without difficulty and were brought in here yesterday by prize crews, respectively under the command of Ensign Schofield and Lieutenant C. B. Bollos.

To Abandon Chickamauga Camp.

Washington, Aug. 10.--The war department has decided to abandon the big military camp in Chickamauga Park without delay and move the troops there further north.

Major Hopkins, who made an inspection of the camp last week, reported to the secretary of war that it was unhealthful and that there were a great many typhoid fever cases there.

Gen. Coppinger's Expedition.

Tampa, Fla., Aug. 10.—General Coppinger's expedition has not begun to move yet, and it is believed that it has been held back by the war department. The Fifth infantry, which was ordered to load on transports, was subsequently ordered to delay the movement. The headquarters ship has been changed from the Yucatan to the Santiago.

New Jersey's Greatest Store.

HAHNE & CO. NEWARK.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

NOTICE
to all interested in
Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

MANY IDLERS IN THE KLONDIKE-

More Than the Country Can Support and Mining Suspended.

Port Townsend, Wash., Aug. 10.--The steamer Rosalie has arrived here from Skaguay, Alaska, with one hundred passengers from Dawson City, who came up the Yukon river via the lakes.

They have advices from Dawson up to July 27 and bring considerable gold dust, estimated at $100,000. Joseph Barrett of Seattle, brought out about $25,000. Others brought out sums ranging from $2,000 to $15,000.

The steamer Monarch arrived at Dawson July 23 and steamer Sovereign July 26 from St. Michaels. The Monarch was last reported high and dry up the river, but the warm weather caused a sudden rise in the river and she was easily floated. The steamer Joseph Glosset, owned by Portland parties, and plying between Dawson and the lakes, while trying to run White Horse canyon struck a rock and sunk in six feet of water. No lives were lost and all the outfits were saved, though in a damaged condition. It is thought the steamer can be floated again and resume her runs.

The Dawson market is well supplied with fresh beef at $1.15 per pound, dressed.

Mining operations in the Klondike are at a standstill and will continue so until cold weather sets in. It is estimated that there are about 25,000 idle men in Dawson eagerly waiting for something to turn up. This number is being swelled every day by new arrivals from both up and down the river. There are now more people than the country can support.

ENGLAND'S FIRM STAND.

Promises Support to China if Threatened by Any Foreign Power.

Pekin, Aug. 10.—The firm attitude adopted by Great Britain in the matter of railroad concessions in China, which is giving general satisfaction in the British settlements, is maintained.

Sir Claude M. Macdonald, British minister to China, was present at the meeting of the Chinese foreign office officials (Tsungli-Yamen), yesterday and reiterated Great Britain's formal promise to support China if threatened by any foreign power on account of a concession granted to a British subject.

The French minister, M. Gerard, has complained to the Tsung-li-Yamen that owing to Germany's representations, China has compelled Yung Wing's Tsin-Tsin Chin-Kiang Railroad, to build which he has the support of an English syndicate willing to advance $25,000,000 to pass west of Shang Tung, thus, it is claimed, endangering the prospects of the Han-Kou-Peking Railroad concession, given to a Franco-Belgian syndicate.

To Colonize Cuba.

Topeka, Kan., Aug. 10.--A number of capitalists of Kansas and Missouri have organized and chartered the Cuban Land and Colonization Company, the business of which will be to run excursions to Cuba and Porto Rico, buy and sell lands on those islands and operate colonization schemes there.

The company has a colony of about 400 persons from Kansas and Missouri already formed, which it proposes to establish near Santiago. The company will have offices at Kansas City, Havana, Santiago and San Juan, Porto Rico. The company proposes to run excursions to Cuba and Porto Rico every month.

Strike of Trousers Makers.

New York, Aug. 10.—Knee trousers makers to the number of 1,500 in 100 shops in the boroughs of Manhattan and Brooklyn, are on strike. It is not the abolishment of the piece work system, but its perpetuation, that the strikers have revolted against.

Headquarters have been opened in Walhalla hall, in Orchard street, where a mass meeting was held yesterday afternoon.

It is claimed that prices within the last month, have fallen from 43 cents a dozen to 18 cents, so that now an expert at the business cannot average more than $7 a week of fifteen hours' work per day.

Troops to Move North

Washington, Aug. 10.—A large movement of troops northward is probable. It is the purpose of the war department, now that the Wade Porto Rico expedition has been abandoned, to move the troops at Jacksonville, Chickamauga and Newport News and perhaps those at Manassas, Va., further north.

Practice marches will be resorted to in a considerable degree in order to improve the health of the troops.

All the soldiers at the points named will not be moved, but a large part of them will receive orders.

End of Leiter's Wheat Deal.

Minneapolis, Aug. 10.—The famous Leiter wheat has practically all been sold. A representative of F. H. Peavey & Co., confirms this statement. "During Friday and Saturday of last week," said he, "we sold about 1,250,000 bushels to Minneapolis and Duluth millers, and to-day we have disposed o fabout 1,000,000 bushels, which has been purchased by Minneapolis millers, thus closing out the Minneapolis Leiter wheat, and leaving only a balance of about 250,000 to 400,000 bushels to close out at Duluth."

Resignations Accepted

Washington, Aug. 10.—The president has accepted the resignations of Colonel Charles F. Woodward, Lieutenant Colonel George E. Chaffin, Major Geo. H. Taylor and Captain U. A. Goodell, all of the Sixth Massachusetts, now on duty in Porto Rico. They have been discharged from further service.

No explanation concerning the matter is given at the war department, but press dispatches spoke of the trouble in the regiment.

A Post-Office Clerk Arrested.

Danbury, Conn., Aug. 10.—Gifford A. Smith, aged thirty, married, money order clerk in the Danbury postoffice, was arrested yesterday by United States Marshal Bishop on a charge alleging embezzlement of money orders. He was taken to the county jail at New Haven pending a hearing by United States Commissioner Wright.

MILES GAINING GROUND

He Sends Encouraging Statement of Prospects in Porto Rico.

HE NEEDS NO MORE TROOPS

Gen. Miles Thinks He Can Subjugate the Island and Keep it Under Control Without Additional Force. San Juan to Be Taken Immediatly. The Advance on the City of San Juan Covers 13 Miles.

Washington, Aug. 10.—The secretary of war received a telegram from General Miles, making a brief, encouraging statement in regard to the success and prospects of the Porto Rico campaign, and stating that he should need no more troops to accomplish the subjugation of the island and keep it under safe military control.

He indicated that the capture of San Juan would be accomplished immediately and that his present force was large enough to take the city without great loss.

The three detachments of General Miles's force operating in Porto Rico are now enabled to communicate with one another by telegraph.

General Greely, chief of the army Signal Corps, received a dispatch this morning from Lieutenant Colonel Jas. Allen announcing that the Signal Corps in Porto Rico had established more than 100 miles of land telegraph lines and that the several detachments of the army which were converging on San Juan were connected.

The lines were being extended, he said, as the army advanced.

The orders to General Wade's provisional division of eighteen volunteer regiments to go to Porto Rico were revoked to-day.

No more troops will be sent to Porto Rico, and from the present outlook for peace it is unlikely, in the opinion of the war department, that any further military expedition will be sent to any Spanish territory at present.

According to advices from Porto Rico, General Wilson advanced yesterday from Ponce to five miles east of Juana Diaz on his march toward San Juan, the capital city. His force covered in all thirteen miles. Reports reached him that the Spaniards were making a stand at Coamo. General Wilson decided not to make an attack immediately, but to wait until his wagon trains had been brought up from the rear.

After driving the enemy from Coamo it is General Wilson's intention to attack Abonito, where, according to many reports that have reached General Miles in the past week, the Spaniards have obstructed the highway to San Juan and have also mined it.

A reconnoitreing party, with General Wilson personally headed, made out a strong entrenchment one mile from Coamo, on the route that our troops must take to enter the town.

General Wilson has the Second and Third Wisconsin volunteers, two batteries of light artillery and cavalry troop C of Brooklyn and the Sixteenth Pennsylvania regiment, which had just been equipped with Krag-Jorgensen rifles. General Ernst is accompanying General Wilson.

A Despatch from Gen. Merritt.

Washington, Aug. 10.—The war department has received the following cable dispatch from Hong Kong:

Adjutant General, Washington:

MacArthur's troops arrived thirty-first. No epidemic sickness. Five deaths. Lieutenant Kerr, engineers, died of spinal meningitis. Landing at camp delayed on account of high surf.

To gain approach to city, Greene's outposts were advanced to continue line from the Camino Real to beach, on Sunday night. Spanish attacked sharply. Artillery outposts behaved well. Held position. Necessary to call out brigade. Spanish loss rumored to be heavy.

Our loss, killed: Tenth Pennsylvania, John Brady. Walter E. Brown Regular linfantry, William E. Brinton, Jacob Hull, Jesse Noss, William Stillwagon. First California, Maurice Just. Third artillery, Eli Dawson, First Colorado, Fred Springstead.

Seriously wounded: Tenth Pennsylvania, Sergeant Alva Walter, Privates Lee Snyder, Victor Holmes, C. S. Carter, Arthur Johnson. First California, Captain R. Richter, Private C. J. Edwards. Third artillery, Privates Chas. Winfield, J. A. McElrath.

Thirty-eight slightly wounded.

MERRITT.

Disastrous Fire in Bismarck.

Bismarck, N. D., Aug. 10.—Fire last evening burned a large portion of this city, causing a loss of several hundred thousand dollars' worth of property. The flames started in the agent's office of the Northern Pacific depot.

In a short time the building and the big warehouses of the company were in flames.

Every drug store in the city was burned and all the groceries but two or three, two newspaper offices and the great bulk of the business portion of the city, with several blocks of residences. Many people are homeless.

Loading Spaniards for Home

Washington, Aug. 10.—The following dispatch has been received here:

Santiago, via Hayti, Aug. 9.—Corbin, adjutant general, Washington: Alicante is now being loaded with Spanish sick. It is to carry 1,000. They will be loaded and the ship will leave this afternoon or early in the morning.

SHAFTER,
Major General.

To Free Cervera's Men.

Washington, Aug. 10.—It has been decided to parole the 1,600 Spanish naval prisoners confined at Portsmouth, N. H.

The offer to release the seamen will be made through the French ambassador, and will require Spain to bear the expense of transportation, shipping the men to Spain in neutral bottoms.

The offer to permit a return to Spain will not include the Spanish officers held at Annapolis.

AT MONTAUK CAMP.

There is Need of Great Haste in Preparing for the Army.

Montauk, L. I., Aug. 10.—At present the situation here is fairly satisfactory. It is true the United States army authorities were not prepared to take adequate care of the detachment of the Sixth cavalry which arrived Monday night. There were no tents on hand, and if the Long Island Railroad had not permitted them to sleep in the half completed restaurant building which is being put up near the station the two hundred sick men would have had a disagreeable and perhaps dangerous experience.

Another detachment of 325 troops from the Sixth cavalry arrived here yesterday. With them were thirty sick, making the total number of sick now in camp thirty-six. None of them is dangerously ill.

The noon train brought fifty sergeants and five officers of the Fifteen Pennsylvania, U. S. V., Signal Corps.

The tents and equipments for the troopers have arrived and morning found the plateau the business scene that Montauk has ever known. Carpenters who arrived during the night went to work early and before noon nearly all the tents for the Sixth were up. Reveille sounded at 6 o'clock and with it the Montauk camp began its existence. The following temporary order was issued from General Young's headquarters at Third house: Reveille, 6 a. m.; early mess, 7 a. m.; midday mess, noon; taps, 10.30 p. m.

The main problem, indeed the problem upon which everything depends, is that of transportation. So far as the railroad is concerned this problem has already been solved. Since Thursday two and a half miles of sidings have been laid and the railroad is in a position to receive at least two hundred carloads of supplies or of men a day. Where the difficulty will come is in unloading these cars and transporting the supplies and men to the camp, which is several miles away. Grave doubts are expressed whether it is possibit for the quartermaster's department to solve the problem. At noon to-day there were 1,500 mules on the ground, but there were practically no wagons. Every carload that has been delivered to the Long Island Railroad has been rushed to this point, and is now on the side tracks, but until to-day not one step had been taken for the unloading of these cars and the removal of tents, blankets, hospital stores, lumber, food, medical supplies and the thousand and one things which will be necessary unless Montauk camp is to be the scene of a great military tragedy and a great military candal.

The arrival of a few hundred cavalrymen yesterday showed how important adequate preparation will be. These men had not been in Cuba, they had not spent day after day on the firing line in the blazing sun and the chilling night rains. They had been in camp within the boundaries of the United States under the charge of officers who took the best possible care to preserve the health of their commands. Nevertheless one-third of the cavalrymen who arrived yesterday were practically helpless. They could not have marched one mile after they left the trains if their lives had depended upon it. They were lifted out of the cars by comrades hardly stronger than they, and lay upon the ground uncovered and unprotected until the railroad company offered them the use of the restaurant.

Unquestionably when the transports begin to arrive from Cuba and to unload 25,000 men who have been subjected not only to severe climatic conditions, but to the most strenuous test of endurance imposed in human experience, the problem will be a thousand fold more serious. The Cuban veterans will have spent a week on board crowded transports. There will be, undoubtedly, thousands of sick. For these there should be provided ambulances to transfer them from the landing place to the hospitals, hospitals to shelter them, doctors and nurses to attend to them, medicines to cure them, and delicacies to tempt their appetites. The solditrs who are not invalids will need tents and food and water, and the thousands of horses and mules at the camp will also need supplies. The first of the transports will, it is expected, arrive on Thursday, and within two weeks thereafter the war department states that from fifteen to twenty transports will steam into Fort Pond bay and unload their thousands of soldiers, both well and ill.

Unless the government works faster than it is working now the experience at Tampa will be repeated with the tragic additional fact that it will not be fresh and healthy troops whose lives will be at the mercy of the war department, but that it will be a broken and semi-invalid army which must be taken care of.

Suing the French Line.

London, Aug. 10.—In the suit for damages brought by the owners of the British ship Cromartyshire against La Bourgogne's owners, as a result of the collision on July 4, in which the latter sank with the loss of over 500 lives off Sable island, N. S., the Compagnie Generale Transatlantique petitioned the admiralty court to quash the writ served on their London agent, on the ground that they were a foreign corporation.

Sir Francis Henry Jeune, president of the admiralty, division of the high court of justice, has now ruled that the service of the writ is good and that the English court has jurisdiction.

Exodus From Santiago.

Washington, Aug. 10.--General Shafter sent the following dispatch to the war department last night:

Santiago, August 8.

General H. C. Corbin, Adjutant General, U. S. A., Washington:

Miami, Matteawan and Vigilancia sailed this morning, having on board First volunteer cavalry, First regular cavalry, Battery H, Fourth artillery, Thirteenth infantry and Sixth infantry.

SHAFTER,
Major General.

These troops are all bound for Montauk Point.

The Farragut's Trial Trip.

San Francisco, Aug. 10.—The torpedo boat destroyer Farragut, built by the Union Iron Works, made her official trial trip yesterday.

Last week she was tried by her constructors and made a speed of twenty knots at low pressure, but to-day she was run at top speed, as her specifications call for thirty knots an hour.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

The Glory of the Naval Reserves.

The State Legislature has always been parsimonious in providing for the Naval Reserves, as it has generally considered the Jackies as sort a side issue to the land forces. But the irony of war has shown the difference in the two forces to have been falsely viewed by the legislators.

Though the Jersey guardsmen were ready and anxious to go to the front in Cuba they have been kept back until now there seems a strong likelihood that the only taste of war which they will get is that to be found in the irksome and disagreeable duties abounding in camp. Not so with the Naval Reserves, however. They were put aboard of an auxiliary cruiser which has been ploughing through the waters that wash the shores of Cuba, here and there experiencing incidents of actual warfare though not having been under direct fire from the enemy. Yet they have met a boat load of Spanish soldiers and gathered them in as cleverly as if the navy had been their field of effort for years.

The Badger boys are entitled to the credit of bringing the only real glory to New Jersey during the war. Considering this it is gratifying to know that there are a number of Plainfield boys on the vessel.

The Spanish Hereafter.

One can scarcely avoid speculating what the future of Spain, so greatly shorn of territory and prestige, will probably be. It is not that the loss of her colonies, which have long been a drain on the parent country, is any organic impairment. But their possession has been a reminder of past glory and a buttress of national pride. Aside from this colonial loss is but release from an intolerable burden, leaving Spain far more free for healthy internal development, if that is conceded to be possible. In spite of so many elements which make Spain a decadent people one is inclined to think that there may be immense vitality yet at the roots and that the main thing will be the cutting away of the dead wood.

In the first place, Spain has a most hardy, industrious and thrifty peasantry. In this lowest stratum may lie the seed of ultimate regeneration instantly the light of education begins to shine on its life. It is a country of ample natural resources sufficiently varied in character. It makes less difference whether the government be Carlist, Alfonsist or Republican than that it should be stable and appeal to the affectionate support of the people. That there is a rich intellectual life in Spain of today is shown in its literature, which in some respects is not unworthy of the land which produced Calderon, Lope de Vega and Cervantes. The contemporary school of Spanish fiction is one of the most delightful in Europe, and there could be no better test than this of a wholesome intellectual vigor. Spain will never sink to the level of Portugal. It may be that in retrenchment and concentration she is still destined to a noble future.

Merchants Versus Express Companies.

The suit proposed to be brought through the Merchants' association of New York against the express companies will determine an important question which has arisen under the war tax law. The country from one end to the other will find its interests affected. According to the wording of the law, the express company on receiving a parcel must affix and cancel the stamp, but at whose expense no definite statement determines. The carrier companies assume that the stamp cost shall be paid by the merchants and refuse to accept business otherwise. Law is supposed to be the embodiment of common sense, and the evident intent is the rule by which such matters must be construed. The philosophy of taxation seems to be that a business pays for the privilege of making money in its special fashion and under the machinery of work which it has devised for that purpose. A receipt for a parcel is merely the acknowledgment of the express company that the property has been intrusted to its hands and the acceptance of responsibility therefor. That is a part of the essential machinery of the express business. It does not belong, one would naturally conclude, to the essential work and methods of the merchant. If this analysis is sound, the cost of the stamp should rest on the carrier company. The decision when given will involve many hundreds of thousands of dollars in the outcome. Most merchants do business now on a very small profit, and the receipt tax would be seriously felt by those of them who are obliged to use the express companies on a large scale in sending small parcels.

The bombardment of earthworks by ships offshore always proves waste of powder. Sampson's fleet fired $2,000,000 worth of big ammunition at the batteries defended by the earthworks of Santiago harbor without dismantling a gun or doing more than knocking a few harmless holes in the earth. But it made the Spanish artillerymen take to subterranean shelter very rapidly. The Spanish defenses were examined by the American naval officers after the surrender and found intact.

High speed has won in the battleship contention. Secretary Long's circular to shipbuilders that in the bids for the new battleships "highest rate of speed and greatest coal endurance" will be the winning factors, other things being equal, will insure us warships equal or superior at all points to any in the world. Twenty knot battleships are already smoking on the horizon.

Not every Frenchman is quite callous to shame over the Dreyfus scandal and the miserable things which have come from it. Emile Zola has been expelled from the Legion of Honor, in which he was a commander. At once several prominent men in the order sent in their resignations and published their reasons in bitterly eloquent words.

Certain enterprising citizens of a keenly financial turn have made applications to the comptroller of the currency for permission to establish national banks at Honolulu, Manila, San Juan and Havana. This is "taking time by the forelock" with a vengeance and illustrates the true Yankee hustler.

It is an interesting fact to know that the most loyal of Spanish colonies, Porto Rico, has received General Miles' army with such ardent enthusiasm. Marching has been an ovation from first to last, and fighting mostly a desperate attempt to avoid the consequences of too much hospitality.

[Copyright by James Gordon Bennett, 1898.]

AN AMAZING SWINDLE.

Here is a portrait of Rev. P. F. Jernegan and a sketch of his method of extracting gold from sea water. The scheme was to have a diver substitute "loaded" quicksilver in the experiment pans under water. The New York Herald published a complete exposure of the reverend swindler and the plan by which he robbed his victims of large sums of money.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

United States Senator William J. Sewell is suggested by "The Newark Advertiser" as Secretary of War in President McKinley's Cabinet. In case Mr. Alger retires, as is rumored, the President may be induced to give serious consideration to this suggestion. It is needless to say that all Jerseymen, regardless of political affiliations, concede General Sewell's fitness for the office. As a soldier and as a man of proved executive capacity, he would fill the bill.—Tribune.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

John Dalziel, principal of the Plainfield Manual Training School, is enjoying the bracing air of Denver, Colo. Mr. Dalziel went west with the intention of attending the Omaha Exposition, and will do so on his return home. He writes that he has enjoyed a tramp up to the summit of Pike's Peak and back, has examined the wonderful mineral resources of the State, and also tasted the delicious products of its orchards. Mr. Dalziel visited the Denver Normal Institute, and had the pleasure of lecturing to the 400 students there on "The Value of Drawing." He expects to be back soon and to take his place again at the head of the school with renewed health and a higher conception of the responsibilities of a teacher's life.

* * * * *

A strange sight might have been noticed in a pasture that lies not far from the city limits the other afternoon. A party of young men from this city wandered by and noticed two horses roaming about the field. With the hope of encountering a little excitement they climbed the fence and waded through the swamp that lay between them and the equines. The horses were surrounded and caught. Then the young men laid aside their coats and tried their hand at rough riding. The horses naturally resented at first such priviliges being taken with them, but finally gave up and took the treatment in a very docile fashion. After riding about for a time the young men left. It all happened in plain view of the home of the farmer who owns the horses, whose crabbed temper and dislike for trespassers is well-known. The witnesses of the rough riding expected to see a collision between the irate owner and the young men, but they were disappointed.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

The John L. Sullivan Comedy and Vaudeville Company will be the attraction at Music Hall, Friday night when will be witnessed a merry comedy entitled "A Trip Across the Ocean" in which the entire company will be introduced. The comedy is said to be bright, the action lively and specialties original and unique. In this comedy John L. Sullivan plays the part of the captain. In this play more is seen of John L. than anything he has ever played in before. It is to be understood that with this company Mr. Sullivan caters to the ladies as much as the men and they need have no fear that anything will be said or done that will offend. He has selected his company with great care from the best acts offered at Keiths.

Take Advantage of Our Closing out Prices.

On Shirt Waists, Crash Suits, Duck Suits, Pique Suits, Wash Skirts and Summer Goods of all kinds. We are already making preparation for New Fall Goods, and it is imperative that we close out Summer Goods to make room for them. We have several weeks of hot weather before us, and prices will be cut deeply enough to make it an object for you to buy even this late in the season. Of course the assortment of styles and sizes is much broken, but we have many excellent things yet well worthy your attention.

Sundry Good Things.

Careful scouring of the market late in the season has secured sundry special values.

A case of very fine Bleached Ribbed Vests with wing sleeves at 10c per garment is one. You have paid 25c for no better.

An odd case of Scotch Lawns overlooked in stock-taking and consequently almost given away to get rid of (about 4,000 yards of excellent styles) we bought to sell for 3c per yard. Won't last forever at the price.

Still another stunner—a large lot of extra fine Waitress Aprons, LARGE SIZE, at 25c. Real value is 50c.

One of the best things, perhaps, is an assortment H. S. Handkerchiefs in all white, mourning borders, embroidered, etc., at 5c each. We don't hope to get rich selling them, but derive a great deal of satisfaction from knowing we are giving our customers wonderful value.

Wash Goods Reduced.

Scotch Ginghams	that	were	25c	are	now	15c.
"	"	"	39c	"	"	25c.
French Organdies	"	"	25c	"	"	15c.
"	"	"	39c	"	"	25c.

And so it is all through the store. Good things in every department being cleaned out every day.

If interested in UMBRELLAS we suggest you take a look through our line. Have received during the past week a fine assortment fresh from the factory.

OUR BASEMENT.

A mecca for housekeepers. Housefurnishings, furniture and carpets. Reliable goods and low prices.

Mason's Fruit Jars.

Quarts are 40c per dozen. Pints are 36c per dozen. Above prices are not guaranteed for 24 hours. Jelly Glasses and Preserving Kettles at correspondingly low prices.

HAMMOCKS are going at cost.

LAWN SETTEES are going at 69c.

Visitors ALWAYS WELCOME.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 10.—Tomorrow evening the Board of Education will hold a special meeting to consider the appointment of a new principal to take the place vacated by Prof. Whitney. The question may be settled at this time, and the members may wait until the next meeting to decide it. A large number of applicants for the position have been received and it will probably be a difficult matter to select a suitable person.

Miss Staats, the efficient assistant at the postoffice, started today on a week's vacation. Miss Edna Coriell will assist at the office during the absence of Miss Staats.

The Bound Brook Electric Light Company has commenced the work of erecting longer poles in the borough so that their wires will escape the trolley wire.

The crushed stone placed between the trolley tracks is now being rolled down preparatory to the macadamizing of the street.

President Radel, of the Brunswick Traction Company, was in town yesterday looking after the interests of the company.

Mrs. John Wherley and children, of Somerville, are visiting Mr. and Mrs. R. J. Swackhamer, of Church street.

Adam Dealaman has returned from Asbury Park, where he has been spending a few days with his family.

W. H. Terry and his nephew George Moore, of Brooklyn, spent yesterday with out-of town friends.

Floyd Quick has returned from Harmony, N. J., after spending several weeks with friends.

Miss Libby Wilcox, of Westfield, is visiting Mrs. Jeremiah Dunham, of Front street.

Miss Ella Dunham, of Plainfield, has been visiting friends in the borough.

Mrs. W. Dunham, of Front street, is entertaining company from out of town.

Mr. and Mrs. Robert Giddes have returned from a short stay at Asbury Park.

Mrs. J. B. Conover is gradually recovering from a severe sprain to her ankle.

W. J. Winges is entertaining company from Hoboken for a few days.

There will be a class meeting at the M. E. church Friday evening.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 10 — Rev. Frank Fletcher, pastor of the Baptist church will spend Friday at Asbury Park.

Miss Kittie Ransom, of Plainfield, who has been visiting relatives in town, has returned home.

Mr. and Mrs. Maxson Dunham have been visiting friends in Plainfield.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, August 10.—Charles Frentz is spending the day at Tremleys Point crabbing. Charley went crabbing Friday last and caught about a hundred. After cooking them he put them on the ice in the cellar and during the night someone broke in and stole them, but did not seem to care for anything else. Charley promises to make it warm for anyone who is able to get today's catch.

During August the Christian Endeavor meeting held in the Baptist church Sunday evenings will be discontinued.

Fred Schmidt received a telegram Monday evening announcing the death of his sister in New York.

George Dunn and Ed Johnston had a fine catch of weakfish at Boynton Monday.

Goodwill Lodge, No. 101, K. of P., meet in their rooms tomorrow evening.

Phillip Radin visited friends in Plainfield Tuesday.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Mrs. Frank Rowley, of Washington Park, left for Asbury Park yesterday.

Miss Elsie Horne, of Willow avenue, is the guest of friends in Philadelphia.

William Holmes, of West Front street, is enjoying a vacation of two weeks.

Rowland Cox and family, of West Seventh street, are sojourning in Maine for the summer.

Miss Fanny Rafferty, of Sandford avenue, has returned from a short visit with out of town friends.

Peter B. Hodge and family, of Plainfield avenue, are visiting relatives at Somerville for a few days.

Mr. and Mrs. D. W. Rogers, of West Second street, have been entertaining company from out of town.

Miss Lizzie Barry, of New York, is visiting friends in Plainfield after returning from Saratoga Springs.

R. B. Rogers, of Westervelt avenue, who is ill with typhoid malaria, is considered to be slightly improved.

Mr. and Mrs. Horace Huff, of Coddington avenue, are spending a short time with relatives at Centreville.

Mr. Coburn and family, of West Front street, are spending their vacation in the Adirondack Mountains.

Grace Vail, youngest daughter of Mr. and Mrs. E. E. Vail, of Elmwood place, is recovering from a recent illness.

Mr. and Mrs. Marshal Way, of Stone street, have returned home after spending a week visiting relatives at Weston.

Mrs. Carman and her daughter, Miss Amanda Carman, of Elmwood place, have gone to Asbury Park for the summer.

Mr. and Mrs. J. F. Parker have returned to their home on Grove street after a three weeks' outing at Sudbury, Vt.

Miss Marie Banco, of East Fourth street, left for Long Branch today, where she will spend the balance of the summer.

Mrs. D. J. Yerkes, of West Seventh street, and her sister, Mrs. S. T. Wilson, of Crescent avenue, went to Saratoga yesterday.

Mrs. Walter Walker and son, Walter, of Jackson avenue, left yesterday for a few days' visit at Bayonne, at the home of relatives.

Among the guests registered at Pannachi's Hotel, Seabright, are R. M. Shepard, of "The Gables," and T. F. Sykes, of Scotch Plains.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 10—The large lawn at the home of Mr. and Mrs. Joseph Purcell, at Cranford, presents a gala appearance this afternoon as the Cranford Red Cross Auxiliary is holding its long-talked-of lawn fete. Everybody is there and everybody is having a good time. The proceeds of the entertainment are for the benefit of the sick and wounded soldiers who have been serving their country in Cuba. The fete will be continued this evening. The grounds are strung with wires and over 500 electric lights will help to make them bright and pleasant this evening. The different booths are presided over by Cranford's prettiest girls, and the man who escapes without buying something is hard-hearted and no admirer of Cranford's charming girls who are known all over the county as the fairest of the fair. Among those who are taking part are: Misses Mabel Thornton, Merrill, Cromwell, Miller, Littell, Dohrman, Osburn, Grace Crane, Ethel Wood, Alice Vorhis, Sallie Miller, Sadie Helleker, Alice Oldham, Katherine Imhorst, Alice Hale, Edna Teller, Florence Plummer, Edna Hart, Nellie Traylor, Florence Krouse, Mabel Crane, Susie Brundage, Vera Merrian and Louise Jones; Mesdames Vegalius, Robert Mix, W. C. MacCodnell, Cardoza, George Damon, Spencer Damon, Harry Martin, Fred Martin, Charles Littell, Copleton, Starr and Stratton. After the various entertainments this evening, the large barn will be thrown open to the dancers.

Rev. Charles M. Anderson, pastor of the Methodist church, has been granted a vacation of one month, and he and Mrs. Anderson will go to Ocean Grove.

The Junior Epworth League of the Methodist church held their annual picnic at Embree Crescent yesterday.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Miss Hand, of Elmwood place, has recovered from a slight illness.

Miss Etta Blatz, of Somerset street, has returned from a visit to New York

Mrs. H. Boeman, of this city, is registered at the Grammery, Asbury Park.

Mr. and Mrs. Charles A. Haynes, of First place, have gone to Vermont on a visit.

V. W. Nash, Jr, of Prospect avenue, is spending his vacation on Long Island.

Miss Moss, matron at the hospital, will not take her vacation until September.

Arthur H. Serrell, of Myrtle avenue, has returned from a business trip to Chicago.

Roundsman Flynn, of the police department, is off on his annual vacation of ten days.

Mrs. William G. Anderson, of Franklin place, has gone to Asbury Park for a few weeks.

C. A. Storen and wife, of this city, are sojourning at the Coleman House, Asbury Park.

Robert M. Clark, of Washingtonville, has been stopping at the Lyndhurst Asbury Park.

Lawyer John H. VanWinkle and family, of the borough, are summering at Asbury Park.

Charles G. Davis, of Park avenue, who has been sojourning in Wilmington, has returned home.

Private Frank Carver, of Co. H, has returned to his post after a short visit with Plainfield relatives.

Mrs. C. E Horne and son Rowland, of Willow avenue, are spending several weeks at Asbury Park.

Miss Young, of Fifth street, and Miss Ross, of Prospect place, are visiting friends in the country.

Miss Emma Gee, of Bayonne, has been visiting her cousin, Miss Lucy Westphal, of South Second street.

Miss Persis Snodgrass, of Central avenue, returned yesterday after a visit with relatives in Connecticut.

Raymond A. McGee, of Orchard avenue, Washington Park, is visiting friends at Paul Smith's, New York.

Sergeant Kiely is now enjoying his vacation of ten days. Roundsman Frederickson is acting in his place.

Mrs. Julius Williams and family, of Elmwood place, are spending a few weeks with relatives at Warrenville.

Willard M. Miner and family, of East Sixth street, leave this week to spend their vacation at Brewster, N. Y.

Miss Julia McCann, of West Third street, has returned from Saratoga, where she has been visiting friends.

Rev. J. O. McKelvey, of the Warren chapel, has gone to Southold, L I., where he will spend a part of his vacation.

Rev. Dr. D. J. Yerkes, of West Seventh street, left town today for Saratoga, where he will spend his vacation.

Mrs. Fred Caspar and daughter, Miss Lucy Caspar, of East Front street, have gone to Asbury Park for two weeks.

George W. F. Randolph, of West End Park, still continues to improve each day. His friends will be pleased to hear this good news.

Howard Jellemy, of Passaic, who has a number of friends in this city, is now with Gen. Merritt at Manila. He is a member of the Astor Mountain Battery.

Richard Everett Dwight, of Rockview avenue, is now en route for Porto Rico. He is a member of Warburton's Battery A, the crack artillery organization of Philadelphia.

The condition of Arthur Jackson, who was removed to the hospital a few days ago suffering with a fever, seems to be about the same. He is no worse, and no improvement can be noted.

Fred Shepard, of East Front street, and Arthur Talmage, of Belvidere avenue, have both successfully passed all the entrance examinations for Harvard University which they will enter in the fall. In the entrance examinations Talmage secured one honor.

How's This.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Unity Lodge, K. of P., will hold an important meeting tonight.

—Putnam & DeGraw are making a special run on ladies' white kid belts.

—Attorney Wm. G. DeMeza has purchased a new set of office furniture.

—Stone Square Lodge, F & A. M., will not hold another meeting until September

—The bridge over the brook at Grant avenue has been treated to a coat of paint.

—The regular meeting of Unity Lodge, Knights of Pythias, will be held this evening.

—Transports of troops for the north. Transports of delight in the summer offering of women's wear at Peck's.

—At a meeting of Plainfield Council, Royal Arcanum, Monday evening, Frank Richards, of this city, was initiated into membership.

—The members of the Primary Teachers' Union are considering the advisability of holding a "rally day" service in the near future.

—W. W. Rowley, delinquent tax collector of the borough, is looking after Collector Brown's work while the latter is enjoying his vacation.

—Considering the recent great amount of rain Somerset street in the borough is in good condition. There are a few very muddy places, which are not pleasant to travelers.

—Don't forget the excursion of the Methodists of Plainfield to Asbury Park tomorrow. The weather promises to be fine and it is hoped that a large crowd will enjoy the day at the shore.

—The excursion of the First M. E. church to Asbury Park goes tomorrow. The train leaves Plainfield at 8 o'clock and returning leaves Asbury Park at 5:30 o'clock. The posters give the latter hour as 6 o'clock, but it is a mistake.

—Street Commissioner A. J. Gavett stopped two men who were driving wagons loaded with manure through Front street yesterday, and ordered them to pack the wagons better, as they were spilling their loads along the street

—A colored man employed at the City Hotel had quite a time yesterday morning to untangle a flag which had caught in the guy ropes. It took him over an hour before the job was done, and furnished amusement for all the clerks near by.

—Woodhull & Martin have begun making preparations for fall goods and are now advertising their summer goods at reduced prices to make room for their new stock. It will pay you to take advantage of this sale. See advertisement.

—J. Berger, the eminent cornet soloist, who will appear at The Hunterston next Saturday evening, has won an enviable reputation among artists of the first rank. His performance displays wonderful tone, quality and marvellous execution.

Edward White.

HIS TURNING POINT IN LIFE.

Raffled All His Effects and Then Sold Chances on Himself.

"I encountered the strangest man I ever knew while I was doing some government work in Missouri," said the retired contractor.

"He was smart enough, so jolly that everyone liked him, and apparently in the best of health. But he made a few bad deals, had to mortgage some of his property, and seemed to throw up his hands. He vowed that he had ceased to be his own man, and would drift along until he found out what the world wanted to do with him. He never tried to dispose of any of his possessions by auction or private sale, but nearly every day held a raffle, at which the chief attractions were his jokes and odd sayings. All this time he was not trying to earn a dollar and in a year or so it was thought that he had come to the end of his string. When he had disposed of the family clock and there seemed to be nothing left, he coolly announced that the next day he would raffle himself. He did not know whether the boys would care to buy chances, but he meant business, and would work faithfully for the man who drew him. Tickets sold for good figures, but there were two left, and he laughingly said that he would take a couple of shots at himself. When the drawing came off he held the lucky number. Well, sir, the fellow turned loose and went to making money hand over hand. He became one of the greatest rustlers in the West, paid off the mortgage, bought everything there was money in, and is as rich now as a river bottom farm. When he drew himself at the raffle he made up his mind that he was his own man again, and, besides, he had agreed to do his best for the winner. It was a strange case."

SAVED FROM BEING COMMONERS.

Letters Patent Issued for the Duke of York's Children.

An interesting writer has lately pointed out that the children of Prince Arthur, the only son of the Duke of Connaught, who is himself third son of the Queen, will no longer be "Royal Highnesses," but merely nobles; and should these children have children, they will be obliged to content themselves with the common prefix "Mr." It is this fact that has induced the Queen to issue letters patent, under the seal, declaring that the children of the eldest son of the Prince of Wales shall have and at all times hold and enjoy the style, title or attribute of "Royal Highness." Hitherto these children of the Duke of York had no right to being so termed. They were just plain Princes, and their children would fare no better than their cousins of Connaught. This state of affairs results from the Queen of England living to see three generations of her direct heirs, and it doubtless set her to thinking how Grandpapa Wales would like having an untitled great-grandson with no place in the royal procession. Until the issue of these letters patent, Little Eddie, David and Baby Victoria were nothing but commoners in the eyes of the law. It seems odd to Americans that this decree of the Queen's should have lifted quite a weight from the Waleses' and Yorks' hearts; but what say the Connaughts to being left out in the cold with their plain "your grace" and "Mr."? They haven't been benefitted, and what is to become of them 100 years hence?—Boston Herald.

How Eagles Ingeniously Fish.

Down among the oaks and other timber that lines the shores of Merry Meeting bay a colony of eagles have lived for generations. During the summer months they subsist largely on fish. The mode of procuring them is very ingenious. Most any day they may be seen perched on a convenient stump or bough near the water's edge, like gray, grim sentinels, silently waiting for something to turn up. That something is a fish hawk, and when he makes his appearance and slowly circles around in search of his prey, the eagle eye is following him, and when at last he succeeds in bringing up a fish, the eagle starts in pursuit. Being swift of wing, he soon overtakes the hawk, who makes a slight effort to get away, but without avail. The eagle scales under the hawk, who by this time becomes so thoroughly frightened that it drops the fish, which is easily caught in the talons of the eagle, who flies swiftly to the shore and devours the stolen meat.—Kennebec, Me. Journal.

Buried the Gun Metal.

A curious story is told in the British War Office. Some years ago a workman was engaged in casting metal for the manufacture of ordnance at the Woolwich arsenal, when he lost his balance and fell into a huge caldron containing twelve tons of molten steel. The metal was at white heat, and, of course, the unfortunate man was utterly consumed in an instant. The War Department authorities held a conference, and decided not to profane the dead by using the steel in the manufacture of ordnance, and the enormous mass of metal was actually interred and Church of England clergymn read the burial service over it.—St. Louis Globe Democrat.

A Chinese Passport.

A Chinese traveller applying for a passport must have his palm brushed over with fine oil paint, and then press it on thin, damp paper, which retains an exact impression of the lines of the hand. Transference of the passport is then impossible, for no two persons have the same lines on their palms.

It is estimated that there are no fewer than 70,000,000 Europeans who wear wooden shoes. Basswood is ordinarily employed for sabots, but willow is the best material.

CURRENT COMMENT.

Twelve girl friends of the bride at a Kansas wedding supplied the music by whistling the Wedding March. And nobody, we are pleased to add, was rude enough to remark about crowing hens.

France has had thirty-six ministries in less than twenty-eight years, and so many Cabinet crises that the count has been lost. The chief qualification for keeping up with French politics is activity.

An American flag, with eighty-three stars, which floats over a tug in New York harbor has a history. Each star stands for a life saved by Captain Grace, commanding the boat, during the forty years he has served as captain and pilot on the river and Sound.

Maceo, the great Cuban leader, died too soon. He rode all over the island, pretty much at his will, with less than a thousand troopers. He outwitted, outflanked and, when it was necessary, outfought the Spaniards at every turn. He would have laughed at the idea of marshalling 100,000 seasoned troops to drive the Spaniards off the island.

"Old Ironsides" may be called our luckiest as well as most famous battle-ship. In her hardest fight, that with the new British frigate Java in 1812, she lost but nine killed and twenty-five wounded; though the total loss on her adversary was 161. In destroying the Guerriere, Cyrene and Levant, the Constitution's casualty list was eight killed, seventeen wounded, while that of the defeated vessels was fifty killed, 105 wounded. The London Times said in 1813: "The fact seems but too clearly established that the Americans have some superior mode of firing."

The Society for the Preservation of Historic Places and Objects wants to have the railway stations of this State beautified. It points out that "the avenues of steam traffic through the cities and villages of the State are, in the nature of things, almost invariably bordered by unattractive conditions, which, unless counteracted by more agreeable surroundings at the halting places of trains, create in the minds of the traveller an unfavorable impression of the community through which he is passing." So far so good, but wouldn't it be better for the society to begin by attending to the ugly adverising signs that border the tracks?

The announcement that Hayti has decided to live up to her agreement regarding the taxation of Americans within her borders must be taken to mean far more than appears on the surface. To be sure, it is an important success for the American Minister, Powell, to secure rights for which this country has been working for years, and by which our citizens receive the same treatment at the hands of the Haytian Government that is accorded to citizens of that land. This was a diplomatic victory, but those who have watched the course of events in the Black Republic are satisfied that had Commodore Dewey's squadron met with a reverse instead of a complete success the news from Port au Prince would have been far different.

Our diplomatic relations with Hayti are of a peculiarly intimate character. The treaties between the two countries practically make Hayti an ally in time of war, and when the President of that republic thinks, he generally turns his face toward Washington. These relations have been solidified by years of honorable and friendly dealing, both politically and commercially.

When, after the blowing up of the Maine, war between Spain and this country became imminent it was an open secret that Hayti strongly favored the renunciation of her treaties with us. Not that she was against our cause, but because she desired to assume a more neutral attitude toward the belligerent powers. There was perhaps a feeling of pique that this country had not interfered in her little affair with Germany. In any event, her executive objected to standing in the light of an ally of this country. Definite action was postponed from time to time, and now comes the announcement that Hayti has conceded the only point that she has ever contested in the treaty.

A lump of sugar is a mighty small thing. It takes 100 to make a pound, which we can buy from our grocer for 7 cents. The anual consumption in the United States is 1,500,000 tons, equal to 3,000,000,000 pounds and worth at retail $210,000,000. The Sugar Trust pays 12 per cent. on $36,968,000 of common stock and 7 per cent. on $36,968,000 of preferred. It does a business of over $100,000,000 a year. Its profit on refined sugars is less than 1 cent a pound, according to Mr. John E. Searles, its treasurer. As the total dividends on the capital stock amount to only $7,023,920, and the trust is said to be lending $30,000,000 on call, there must be a good-sized melon to cut somewhere.

SQUARE MEAL IN A CAPSULE.

Take One with a Drink of Water and You Are Full of Soup.

The samples of various things devised for the comfort of soldiers and the models of implements to be used in warfare received by the President would, if placed on exhibition, eclipse the sights in the National museum. The Secretary of the Navy is also deluged with all sorts of contrivances and devices, as well as samples of improved methods of cooking and clothing. In one of the rooms of the Navy Department are shown some of these "supplies," and they are more interesting to see than the famous Hotel Cluny in Paris. One man has actually "bouillon capsules" that you swallow at one bolt, then drink some water, and lo and behold! your stomach is full of soup. Another genius has sent to the department specimen bottles of prepared castor oil, to be used in connection with the edibles. A benevolent old gentleman of Pennsylvania sent a recipe, there are sixteen pages of it, for preparing all kinds of food for soldiers sans teeth, who have only their gums to depend upon and who must either swallow soup or starve.

In the War Department the same story is told. One bright genius has put up specially prepared packages of paris green and wants Secretary Alger to require every soldier to carry one in his knapsack. The idea is that all the bugs of Cuba will thus be kept at bay, as if the troops were tomato plants. Some of the patent medicine men have evolved "yellow pills," which are warranted to cure yellow fever. Then there are patent splints for setting broken limbs, which almost dispense with a doctor, and litters on wheels. This last invention is the work of a well known artist, Mr. Remington. It is nothing more nor less than the ordinary bicycle wheel, carrying the framework for a cot, upon which the wounded are placed and pushed to the hospital. Another curious invention offered to the government is an apparatus for peering into the depths of the ocean to hunt for cables, and keep a sharp lookout for submerged mines and torpedoes. The invention is called an aquascope.--Army and Navy Journal.

How a Panic was Averted.

The tales of the panic on board the Burgogne, which was sunk recently, brings to mind a story the Hon. Ben. Cable of Illinois, tells of an experience of his in midocean. The day was foggy, and most of the passengers were below listening to two evangelists who were holding a particularly fervid gospel meeting in the saloon. Suddenly and without the slightest warning there was a terrific crash and the engines stopped. Every one rushed on deck. The steamer had run into an iceberg. Nobody knew what damage had been done, and everybody was ready to fly into a panic. The boats were lowered, and then for the first time the two evangelists who had been forgotten in the saloon, appeared on deck. They wore their overcoats and their hats and they carried rugs and handbags. They elbowed their way rudely to the rail, with the evident intent of securing for themselves first places in the boat. It was just at a time when a breath would have sent the passengers panic-stricken into the boats. The sight of the two evangelists was about to undo the work of cool-headed officers when a pert little cockney stepped up to the gentlemen with the rugs and handbags.

"Beg pardon," said he, tipping his cap, "'ave a cab, sir?"

And in the general laugh the danger of panic was averted.—Washington Post.

A Material Amendment.

A brace of Mormon elders have recently been carrying on a mission in Los Angeles county, says the San Francisco News Letter. In a locality where the residents are very orthodox, according to the New England standard, these Utah missionaries obtained the use of a school house for their meeting by calling themselves "Latter Day Saints," which sounded very evangelical in the ears of the good Protestants of the section.

At the meeting one of the elders declaimed very fervently on the unity of faith, maintaining that there is only one right religious way--of course, Brigham Young's way--and nailing his argument by quoting very frequently the biblical text, "One Lord, one faith, one baptism."

Then the speaker invited remarks or questions from anyone present, with a view of clinching his proselyting expedition.

A sweet faced old lady arose, but completely spoiled the effect of the Mormon's oration by remarking, demurely:

"There are, no doubt, three New Testament units--one Lord, one faith, one baptism. But there is also a fourth--one wife."

A Bull Fight for the S. P. C. A.

It has never occurred to the average Spaniard, who in all ranks of life is a courteous and obliging gentleman, that his barbarous bull fight is anything but a form of dramatic entertainment, as legitimate as those of the Lyceum or Comedie Francaise. They tell a story which may probably be true, that when the Society for the Prevention of Cruelty to Animals proposed to establish a branch in a leading city of Spain the municipal body courteously accepted the proposal and offered to hold a grand bull fight at once to furnish the funds.—London Review.

"I wish that I could acquire a reputation for being bright," said Willie Wishington.

"There is nothing easier," said Miss Cayenne. "All you need do is to say you have heard it before whenever any one says anything clever."—Washington Star.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. In der hiesigen „Vossischen Zeitung" erklärt Dr. Brakebusch, daß im Durchschnitt in 2½ Prozent amerikanischer Schinken Trichinen gefunden werden. Früher seien Millionen von Trichinen in nicht untersuchten amerikanischen Schinken verspeist worden, trotzdem sei kein Fall amerikanischer Trichinen-Infektion erwiesen. Er schließt daraus, daß die Trichine das Schwein nur kurze Zeit überlebt. —In der Schwartzkopff'schen Fabrik in der Chausseestraße war der 54 Jahre alte Arbeiter Wilhelm Schmidt mit dem Richten eines neun Centner schweren Eisenringes beschäftigt, als der Ring plötzlich ausglitt, dem Schmidt auf den Kopf stürzte und ihm die Schädeldecke zertrümmerte. Der Tod trat sofort ein.

Jüterbog. Ein hochinteressanter Theil der jüngsten Uebung der Gardefeldartilleriebrigade auf dem hiesigen Schießplatz war das Schießen nach dem Luftballon, das allerdings nur kurze Zeit dauerte. Der Fesselballon war bis zu einer Höhe von 350 Meter aufgelassen worden. Die 6. Batterie des 2. Regiments stellte ein gewöhnliches Feldgeschütz auf eine sehr große Entfernung ein und feuerte so nach dem Ballon. Nach dem dritten Schuß begann dieser schon zu sinken, und mit 18 Schüssen war er so zerfetzt, daß er sehr bald niederkam.

Provinz Hannover.

Lautenthal. Der Schaden, der hier durch Hochwasser angerichtet wurde, ist sehr beträchtlich, und hauptsächlich arme Leute wurden davon betroffen. Von den Kurgästen in Hahnenklee wurde sofort eine Sammlung veranstaltet, deren Ergebniß—123 Mark—sie dem Bürgermeisteramt übermittelten. Menschen sind glücklicher Weise bei der Katastrophe nicht umgekommen.

Torfhaus. Auf der Chaussee nach Harzburg, an den sogenannten Lerchenköpfen, wo fast alle Jahre Radfahrer verunglücken, wurde kürzlich ein Hamburger von einem schweren Unfall betroffen. In Begleitung eines Freundes fuhr derselbe im schnellsten Tempo den steilen Berg hinab, als plötzlich das vordere Rad seiner Maschine zusammenbrach, und der Fahrer in großem Bogen auf die Chaussee flog. Der Verunglückte trug schwere Verletzungen im Gesicht davon. Nach Anlegung eines Nothverbandes wurde der Verunglückte mittelst Fuhrwerks nach Harzburg zur ärztlichen Behandlung transportirt.

Provinz Hessen-Nassau.

Kassel. In Oberkaufungen wurden bei den Ausschachtungsarbeiten zum Neubau einer Lungenheilanstalt drei Arbeiter verschüttet; einer war sofort todt, die anderen beiden wurden schwer verletzt. Der Getödtete war verheirathet und Vater von vier unmündigen Kindern.

Cronberg a. T. Ein seltenes Fest feierte in den Tagen vom 31. Juli bis 7. August die Cronberger Schützengesellschaft, nämlich das Fest ihres 500jährigen Bestehens. Im Jahre 1398 urkundlich in's Leben getreten, hat sie seit dieser Zeit bis heute ununterbrochen bestanden, wie die zur Ausgabe gelangende Festschrift des Näheren darthut.

Marburg. Als neulich Abends die Frau eines hiesigen dem Trunke ergebenen Tagelöhners Becker nach Hause kam und in die Wiege nach ihrem halbjährigen Söhnchen sah, fand sie dieselbe leer. In seinem Bett aber lag sinnlos betrunken der Ehemann und unter ihm die Leiche des Kindes. Becker, der das schreiende Kind zu sich genommen und dann erdrückt hat, ist verhaftet worden.

Provinz Pommern.

Stettin. Dieser Tage hat der dritte für Rechnung der chinesischen Regierung auf der Werft des „Vulkan" in Bredow erbaute Kreuzer „Hai Shen" diese Werft verlassen und die Reise nach China angetreten.

Leba. Mit dem Ausbau unseres Fischereihafens geht es jetzt im lebhaften Tempo vorwärts. Nachdem bereits vor einiger Zeit ein Dampfbagger hier eingetroffen ist, welcher zum Einspitzen der Pfähle und zum Ausbaggern der Untiefen verwendet wird, ist nunmehr auch eine große Dampframme hier angelangt und sofort in Betrieb gesetzt. Fast täglich treffen mehrere Fuhrwerke mit zugespitzten gewaltigen Bäumen zum Einrammen hier ein. Die Ostmole ist bereits weit in die See hinein vorgeschoben und dadurch die Einfahrtsrinne wesentlich verbessert. Mit dem Bau der Westmole ist jetzt auch der Anfang gemacht.

Provinz Posen.

Bromberg. In einer außerordentlichen Magistratssitzung ist die Suspension des Brandmeisters P. von seinem Amte und die seines Gehilfen N. der städtischen Feuerwehr hierselbst ausgesprochen und sofort ausgeführt worden. Sie erfolgte, weil Unterschlagungen von Markengeldern im Betrage von circa 900 Mark vorliegen sollen. Der Brandmeister der städtischen Feuerwehr ist gleichzeitig Vorsteher der städtischen Straßenreinigungsanstalt und hat als solcher die Invaliditätsversicherung der ihm unterstellten Beamten durch Aufkleben der Marken zu besorgen. Das Geld für diese Marken gibt der Magistrat. P. soll nun zwar das Geld empfangen, aber nicht zum Ankauf von Marken verwendet haben.

Krone. Durch allerhöchsten Erlaß begnadigt wurde der Strafgefangene Kindler, der wegen Raubes zu lebenslänglicher Zuchthausstrafe verurtheilt und am 1. Februar 1869 in die königliche Strafanstalt Kronthal zur Abbüßung der Strafe eingeliefert wurde. Kindler hat also 29 Jahre im Kronthaler Zuchthause zugebracht.

We Insure Your Shirts.

We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. This is the time of year when the second-class laundry ruins your Paris Percale or Glasgow Cheviot and tells you 'It was the fault of the goods" Let us call for your work.

Hillier & Co.,

Corporation Notice.

Proposals for the Installation of a New Hot-Water Boiler and Alteration in the Old System in Fire Headquarters Building on East Second Street.

Pursuant to resolutions of the Common Council of the City of Plainfield, adopted August 1, 1898 and August 8, 1898, notice is hereby given that the Committee on Fire and Buildings will meet on Monday, August 15, 1898, at 8 o'clock p. m., at the Chief Engineer's office, Fire Department Headquarters, on East Second street, in the city of Plainfield, at which time and place said Committee will receive sealed proposals for doing the work and furnishing the materials for the installation of a new hot water boiler and alteration in the old system in said fire headquarters building according to the plans and specifications now on file and open to the inspection of bidders in the office of the city clerk, No. 109 Park avenue, Plainfield, N. J., the work to be completed on or before September 15, 1898.

Upon receipt of the bids or proposals, the said committee will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding or their agents, provided said parties or agents choose to be then or there present, and also make proper record of the prices and terms upon the minutes of the Committee.

Each proposal must be accompanied by a certified check for $50, payable to the treasurer of the city of Plainfield. Copies of the plans and specifications may be had upon application to fire headquarters on East Second street.

The right to reject any or all bids is expressly reserved by the said committee.

All proposals should be endorsed "Proposals for New Hot Water Heating System for Fire Headquarters."

WILLIAM N. RUSYON, Chairman.
Committee on Fire & Buildings.

Dated August 8, 1898.

MAJOR GEN W. R. SHAFTER.

Was Considered Just the Man to Free Cuba from the Spaniards.

Major General William Rufus Shafter, commander of the United States army of invasion into Cuba, was recently described by his life-long friend, Senator Julius C. Burrows, as "every inch a soldier, and just the man to clean the Spaniards out of Cuba."

The son of a pioneer farmer, William R. Shafter was born in the town of Galesburg, Kalamazoo county, Mich., October 16, 1835. With scant educational opportunities, the future general toiled on his father's farm until he attained his majority. By that time he had saved sufficient money to carry him through the winter term at the Prairie Academy. He returned to agricultural pursuits, but the monotony of a farmer's life was irksome to his ambitious spirit, and the outbreak of the civil war found him ready and willing to become a soldier. At the first opportunity that presented, young Shafter tendered his services as a private. He was a fine specimen of manhood physically, hardy, athletic, a dashing rider, and very handy with a gun. Persons in local authority appreciated his worth, and he was commissioned first lieutenant in Company I of the Seventh Michigan infantry. He was mustered into service a few days after the repulse of the Federal troops at Bull Run, and from that time to the present he has been in the military service of the United States.

MAJOR W. R. SHAFTER

One of the first engagements in which Lieutenant Shafter's company participated was the battle of Ball's Bluff, which resulted in disaster for the Union forces. Fortunately the Michigan militia emerged from the battle in fair condition and rendered effective service with McClellan in the peninsula campaign. At the battle of Fair Oaks Shafter was wounded, but he so distinguished himself that the commanding general said in his official report: "Lieutenant Shafter of the Seventh Michigan volunteers, in charge of the pioneers, was slightly wounded, but kept the field and furnished a beautiful exhibition of gallant conduct and intelligent activity."

In the summer of 1862 the Nineteenth Michigan regiment was organized and Shafter was assigned to it with the rank of major. The regiment joined the western army and for a year or more saw a great deal of hard service in Kentucky and Tennessee. In the official reports of the middle Tennessee campaign Major Shafter is praised for meritorious conduct and specially mentioned as "one of the most deserving officers of the Nineteenth infantry." Together with other Federal officers, he was captured by the Confederates, but his gallantry in battle had been so conspicuous that his captors allowed him to retain his horse and side arms. He was a prisoner of war for three months and was exchanged in May, 1863.

Soon after Shafter's return to his command he was commissioned lieutenant colonel of the Nineteenth regiment and this promotion was speedily followed by two successive brevets, the first as colonel in recognition of his gallantry at Fair Oaks, and the second as brigadier general for "gallant and meritorious conduct" at Thompson's Station. He served for about a year as lieutenant colonel of the Nineteenth and was promoted to be colonel of the Seventeenth regiment of colored troops. He remained in this latter command until the close of the war, and was mustered out of the volunteer service November 2, 1866.

Prior to his retirement from the volunteer army, however, Colonel Shafter was commissioned lieutenant colonel of the Forty-first United States infantry, and his connection with the regular army has been unbroken ever since.

In every station of responsibility he has acquitted himself with credit.

With the development of plans for the invasion of Cuba the president and secretary of war began to look about for suitable leaders. Prominent among the eligibles was General Shafter. President McKinley made him a major general of volunteers on the fourth of last month, and he was assigned to command the troops in the Santiago de Cuba campaign. "Put Shafter on the island," said Senator Burrows to Secretary Alger, "and I will guarantee that he will speedily clean out Cuba from end to end."--New York Times.

RICHARD IS A FIGHTER.

Lieutenant Commander Wainwright is a Rival to "Fighting Bob."

Contemporary naval annals are now threatened with a "Fighting Dick" in addition to a "Fighting Bob," and surely Captain Evans would not grudge this meed of glory to his junior in the line.

From that awful moment on the night of February 15, when Wainwright stood beside his captain on the sinking quarterdeck of the Maine and gave the order to lower away the boats, he had looked forward to some such opportunity as that which linked his name with the Gloucester as indissolubly as Hobson's is linked with the Merrimac.

Not that Wainwright is a man to brood on vengeance. He has a heart too big to cherish malice. Only his dearest desire was that he might have the good fortune to be an instrument of retaliation.

No man knew better than he the ghastly horrors that followed that night in Havana harbor. No man was more certain than he that the Maine disaster was not an accident, and none was better qualified to reach a just conclusion. During all the long weeks following the disaster it was Wainwright who toiled beside the wreck, and above it, from dawn till dark, directing the divers' work, recovering the bodies of the dead, familiar with every development of evidence, the confidant of every grim secret brought to light by the submarine research.

April 5, long after Captain Sigsbee and all his other subordinates had been relieved of their painful task, Wainwright, the sole surviving officer of the Maine left in Havana harbor, pulled down the weather stained flag that had floated day and night from the shrouds of the wrecked battleship. When Wainwright left Havana the United States government relinquished its sovereignty over the Maine.

"DICK" WAINWRIGHT.

Mr. Wainwright was in Havana harbor continuously for seven weeks after the Maine was blown up. During all that time he was never known to set his foot in Havana city. "I don't care about shore leave," he used to say, when his friends asked why he never appeared in the Ingleterra hotel with his fellow officers. If you invited him to a little dinner or a quiet game of poker you got the same answer, or else he was too busy to spare the time or too tired after his day's work on the water. Then, if you watched him, you might see him go below into the cabin of the Fern, where he had his quarters, and, lighting his pipe, he would spend half the night pouring over sectional drawings, perhaps with Ensign Powelson, or studying out some new bit of submarine divers' evidence that seemed to clinch the truth about the Maine.

This taciturn lieutenant commander, moreover, so it was whispered by his friends on the Fern, had registered a mental vow never again to enter Havana city unless at the head of a battalion of bluejackets.

Verily, if ever a man remembered the Maine, "Dick" Wainwright did. Big-hearted, as are most brave men, the death of 266 of his gallant subordinates left a wound that would not heal. He was as popular with them as with his fellow officers. Though a strict disciplinarian, the Maine's executive officer during the two months he had been attached to the ship in that capacity had won his way to their hearts.

Lieutenant Commander Wainwright has coined one phrase that will probably live in the traditions of the navy, "Fighting cannot be made a safe business."

The battle of the Yalu river had called the attention of naval experts all over the world to the terrible execution wrought by splinters from small boats and portions of the superstructure of ships of war when struck by modern projectiles. Mr. Wainwright, among other officers, was detailed to write a treatise discussing the following question: "If about to go into action what disposition would you make of your small boats with a view of securing the greatest safety of your men?"

Wainwright's reply was an able one. The pith of it, however, was substantially contained in the following:

"If about to go into action in comparatively shallow water, I should, if time permitted, strip the vessel clear of her small boats and moor them safely at a distance until after the fight. If pressed for time, I should simply put them adrift. If about to go into action in deep water, I should set my boats adrift anyhow, leaving the ship and her officers and crew to take the chances of war. Fighting cannot be made a safe business."

Mr. Wainwright probably inherits his fighting instinct. He is the son of old Commodore Wainwright and comes of good fighting stock. His appointment to the Naval Academy was from the District of Columbia.--Chicago Times-Herald.

College Athletes Begin Their Work.

With the advent of April, the college teams begin the out-door practice in real earnest, and at all the leading universities the crews and the base ball managers begin the work of sifting. At Princeton, with the continued improvement of the pitchers the outlook for a strong team is becoming more encouraging. Thirty men are still kept on the base ball squad, though within the next few days there will be a material reduction in the number of candidates.

At the University of Pennsylvania the crew has now been pretty thoroughly sifted and Mr. Ward hopes to have only three squads at work before the end of April. The base ball diamond at the west end of the old athletic field has been stripped of sod, and the surface will be leveled and rolled. the 'Varsity team usually plays on this diamond until Franklin Field has been put in order, shortly before the opening of the season.

At Yale this year's team will have no difficulty in proving itself superior to that of last year. The fielding is today of a high order and the batting is improving steadily. The lack of a battery, which was the weak point last year, will probably not appear. Fearey who had the making of a good pitcher in him last season, but turned out poorly because of his own inexperience and the miserable support of the team

behind him, has been working hard, and to his good speed and curves has added an excellent control. He will be an effective man in the box. Hall has been doing equally good work, but he is not a strong man, and cannot be counted upon to last out a game. Cadwalader, a freshman and centre on the 'Varsity foot ball team, has been tried and is improving slowly. The team's trip begins on April 6 and should be eminently successful.

Pacemakers in Great Demand.

Pacemakers will be in great demand this year, and judging by the efforts at breaking records made on southern tracks this winter, most of the riders ought to be in trim to change the existing marks. Each track intends to secure possession of its own machines and maintain pacing teams. Opinions vary as to the value of the different style of machines for pacing. Some racing men favor the use of the huge six-seated machines, manned by speedy riders; others are inclined to the view that "quads" and triplets are the best. There has been some talk of restricting the use of the machines to certain types. This plant is not regarded favorably. W. D. Gash, a Chicago rider, in talking on the question of prohibiting the use of "quints" and sextets in middle and long distance paced races, says:

"The only reason stated in favor of such a measure is that large machines are more dangerous. Statistics show, however, that accidents have been no more frequent with quintets and sextets than with smaller machines. Large machines are much more interesting to the public, and that they are faster is proven by the fact that they were used in all our middle-distance pacing races last year. They are much more expensive, both in original cost and in operating expenses than the smaller ones, and if they were not faster this additional expense would certainly not have been encouraged by the managers of our middle-distance men. They have been and will be used very extensively in Europe, and if the L. A. W. should discriminate against them it would result in all paced records going across the Atlantic. Such action on the part of the League would, I believe, be against the best interests of the organization; against bicycle racing as a sport, and against the wishes and interest of every one who is interested in bicycle racing, except those few who wish to control cycle racing without the necessary expenses incident to the use of the giant machines."

Cholly—Bah Jove, but Miss Rocks holds her age well!

Algy—Aw, how old is she?

Cholly—Well, I can soon tell. Knew her when I was a—aw—child, you know. Let me remember. When I was eight she was sixteen. I recollect it because she was just twice my age. I am twenty-seven now. Bah Jove! that would make her fifty-foah. Well, she don't look it!—New York Journal.

YOUNGSTERS WHO ARE MARVELS.

Some Remarkable Feats Performed by the Little Ones on the Wheels.

Of late efforts have been made to discover the smallest rider in the world, and in the person of Master Henry Shining, of Chicago, he has been found. When this little fellow learned the art of balancing he was but 16 months old. He is now 2 years old. It is said that he has the smallest practical machine ever made, the frame being 7 1-2 inches in height, the diameter of the wheels 10 inches and the weight 5 5-8 pounds. It is perfect in every detail, and runs with very little effort on the part of the youngest rider.

Another Chicago cyclist of tender age is Master Clark, son of a merchant. He rides with his father in the boulevards and park, and is a familiar sight to the pedalers of the metropolis of the Middle West.

Nickey Gilroy is said to be the smallest and younger rider in New York.

His father is an engineer, and has charge of a big apartment house uptown. In the basement of the building are long corridors, about five feet in width, and in these Nickey has ridden daily through the winter. His machine is a cumbersome affair, weighing 48 pounds, and having a handlebar that is much too wide for the little fellow. However, he can push the pedals like a veteran, and when it comes to dodging trucks and pedestrians in crowded streets he is as unconcerned as an old hand. This season he will appear on a new wheel.

One of the sights of Philadelphia is a tiny triplet, ridden by three brothers of the name of Adams. Their mount is perfect in every detail, and on a straight stretch they sometimes strike a fast clip. Lester, the elder of the three brothers, is 5 1-2 years of age, while the other two, Edward and Jessie, are each 4 years old. Theirs is one of the few multicycle built for juveniles. It tips the scales at 25 pounds and has 18-inch wheels. It is geared to 53 inches. Another multicycle of small dimensions is used by the Benner brothers, also of Philadelphia. They are somewhat older than the Adams brothers, and for several seasons have appeared on the track at race meets in

exhibitions of speed. They can ride well, and have taken part in a number of centuries, riding always like veterans. Their tandem weighs 16 pounds, and is geared to 50 inches.

A youngster who may claim the distinction of being the youngest trick rider in the world is Willie Hoefler. His father is a trick rider himself, and, in watching him at practice, the little fellow got the idea that he could do as well as his nimble parent, and attempted some of the feats. And, while he does not approach anything like perfection, he accomplishes a number of feats that seem remarkable on account of his age. He is 3 1-2 years old and small for his age. One of his tricks consists of riding on the rear wheel with the front wheel raised in the air. He balances perfectly and has no fear in attempting any trick known to professionals. Another trick in his repertory consists in sitting on the handlebars and pedaling in either direction.

A remarkable case exists in London. It is of a boy 5 years of age who was born blind. Accompanied by a sister he rides often in the less frequented streets of the city and rarely takes a tumble. Two little sisters and a brother ride much in South London. The eldest of the tria is 7 years of age. The father of this cycling family says that none of the children has met with an accident. Indeed, each is a master of the wheel, and a fast rider as well. Of course, they have not ridden long distances.

New Zealand is the home of a "youngest" rider. He is Master Freddy Howard. When 2½ years of age he learned to ride and became a member of a bicycle club of which his father was the vice-president. On a wheel geared to 30 inches he last season astonished a crowd of people by riding a quarter of a mile on the Napier track in 2:13. Living in Muncie, Ind., is a "youngest" cyclist, Freddy Kaiser by name, who is known throughout that section. The frame of his machine is twelve inches high and the wheels are twelve inches in diameter

READY TO PLAY BALL.

The Base Ball Season Opens With Practice Games in April.

The base ball season opens with the practice games in the early part of April, and the rooters are keeping their eyes open for a line on the team's possible standing. The year 1898 promises to be memorable in several respects. First of all the game is put upon a higher plane by the penalties attaching to rowdy ball, and the only question now to be decided is: "Will

CHAS. H. EBBETTS.

the new rule be enforced?"

If the new rule regarding stolen bases is strictly observed by all official scorers in the National League cities this year, it will be found that the best men in that line will have a smaller record for pilfered bases than for several years past. According to the interpretation of the new rule by Hart and Reach of the Rules Committee, a stolen base shall be credited to a runner only when he actually takes a chance to reach the next succeeding base unaided by a base hit or an error. In a word, if a man on first makes a break for second while the pitcher is in the act of delivering the ball and reaches that bag in safety, despite the catcher's throw, he will receive credit for a clean steal. The same thing applies to an attempt to steal third from second under similar conditions, as well as a trial to get home from third. But that is all. The recent method of giving steals to runners who started for second base just as the ball was hit through the infield will not hold good.

B. S. MUCKENFUSS.

It was pushed to the limit last season, so that stolen bases were, in some cities, scored for almost any burst of base running, no matter how it was prompted. The new system is not new at all, for it was the original plan adopted fifteen years ago to register stolen bases. It is the only precise way by which to determine the real ability of base runners, and the rigid enforcement of the rule will make the competition in this particular department of the game much more interesting. On form the best base runners this year, should, therefore, include Davis of New York, Hamilton of Boston, Griffin of Brooklyn, Cooley of Philadelphia, Keeler, Jennings and Kelly of Baltimore, Doyle of Washington, Lange of Chicago, Burkett of Cleveland, Clark of Louisville, Miller of Cincinnati, Dowd of St. Louis, and Donovan of Pittsburg.

W. H. WATKINS.

The most notable disappearances of the year will be those of Anson from the Chicago diamond and of Chris Von der Ahe from the St. Louis management.

B. S. Muckenfuss is the successor of the unfortunate Chris Von der Ahe, as President of the St. Louis Club.

W. H. Watkins, President of the Pittsburg club, succeeds W. W. Kerr in that position. Watkins is also man-

THE HARVARD BASE BALL CAGE.

ager of the team, and it is said that he will have full, free and absolute charge, not only of the team, but of all the affairs of the club. He thinks he can give Pittsburg a winning club. Watkins has been a team manager for many years.

Charles H. Ebbetts, President of the Brooklyn Club, has been connected with that club since its organization, in 1883. He was secretary of the club for ten years, and until the death of Charles H. Byrne, when Mr. Ebbetts was elected to the presidency. On February 1 he purchased from F. A. Abell enough stock to give him control of the club.

CYCLING COMMENT.

There will be a number who will ride to Asbury Park tomorrow, returning with the excursion train.

The Y. M. C. A. cyclers will hold a regular run tomorrow night, meeting at the Y. M. C. A. building at 7:30 o'clock.

Mr. and Mrs. Augustus Wilson, of North avenue, are enjoying a wheeling trip through the western part of the State.

Members of the L. A. W. can secure copies of the New Jersey Division road book from Local Consul T. A. Cuming on application. The new road books cost only 25c. and are worth much more.

Harry K. Lister has decided to hold the last of his series of roads Thursday afternoon, September 1st. It will be a fifteen-mile race over the same course as last time. The entry blanks will be out the last of the week. The date was selected so as not to conflict with the road race on the Hudson county boulevard or the fairs at Waverly and Somerville.

If West Seventh street, from Clinton avenue west as far as the bridge over the New Market pond, were macadamized, it would make one of the most pleasant rides for wheelmen anywhere about. From Seventh street and Clinton avenue, where the macadam stops, it is only a couple of mile to Nelson's Hotel, in New Market, where wheelmen strike the Stelton road, and this "back" road, as it is called, would be used in preference to Front street. As the road is now, it is not possible to wheel over it because of the sand which is at least four inches in depth. There is not even a side path, as is generally the case along country roads.

THE UNSANCTIONED RACE MEET.

G. H. Kenyon Explains Why He Did Not Secure the L. A. W Approval

In looking over last night's Courier my attention was called to an item headed, "Race Meet Makes Trouble for Riders." I wish to say that I did not wish to make trouble for any of the boys and do not think that I have. They all knew that it was not a sanctioned race. I was notified by T. A. Cuming, local consul for the L. A. W., and I immediately called on Mr. Cuming in regard to the matter. He informed me I could have the sanction by asking for it and he also told me the fee would be $1, as it was a purely local affair. He gave me the address of the chairman of the racing board at Baltimore, Md. I wrote the gentleman and received a reply from him, saying that I could have the sanction as soon as I forwarded the fee, which would be $5 instead of $1 as the local consul had said. I felt that they were trying to rub it in by charging me $5 for a little local race, so I went ahead without their sanction. I informed the boys to that effect, and the statement that several of the boys withdrew after entering is false. I do not think that there was an L. A. W. member in any of the races, and I think the local consul of the L. A. W. is making a great big howl over nothing.

G. H. Kenyon.

THE BIG FAIR.

Inter-State Exhibition Will be Opened September 26th.

(Special to The Daily Press.)

Trenton, August 10.—In a few days more the big fair will again be with us, and the management guarantees that this, its eleventh annual exhibition, will be one that cannot fail to be attractive to exhibitors and satisfactory to a patronage educated to expect more from the great Inter-State than from any other fair. It will open September 26th and close September 30th. The Trenton fair has come to be looked upon all over the country as the greatest carnival in the Eastern portion of the United States. It has been, without any question, a great institution. One of the secrets of its greatness is its up-to-dateness. Every year something entirely new is introduced, and what were features last year are brought right up-to date for this.

While the fair is, of course, intended as a comprehensive exposition of everything pertaining to the farm and the farmer, there is no end of high class special attractions in the way of sporting events and entertainment—vaudeville and otherwise, during the week.

All Invited to Hear Dr. Peters.

To the Editor of The Daily Press:—I desire to extend to the clergy and their congregations in this vicinity a cordial invitation to attend the special services at the camp ground at Netherwood, Thursday evening, August 11th, at which time Rev. Madison C. Peters, D. D., will be the speaker.

W. R. G. Coster, pastor,
St. Peter's A. M. E. Zion church.

Want a Larger Chapel.

(Special to The Daily Press.)

Garwood, August 10—The members of the Garwood mission are considering plans for the enlargement of the chapel, and establishing it as a regular church with a pastor in charge. The nearest churches to Garwood are at Westfield or Cranford, and owing to this the mission has grown so that its present accommodations are inadequate.

Miss Josephine Fritz, of Somerset street, has gone to Flagtown for two weeks.

AGED AND DESTITUTE.

CONTINUED FROM PAGE 1.

dent Buchanan, but she seldom speaks of it. Sometimes, when the olden times are recalled, she will consent to tell of that wonderful event and how she has treasured the dress she wore that night until it was destroyed by fire, two years ago, that burned up all their other belongings.

Both husband and wife are now in far better health than they have been for some time and can move around slowly as they wish. Mrs. Clark is just past seventy years and her husband is eighty-three years old.

PARTICULAR MENTION.

Mrs. S. R Robinson, of West Second street, has gone to Asbury Park for a few days.

E. T. Douglass and family, of Washington avenue, left Monday for Buffalo, where they will be the guests of Mr. Douglass' parents.

Miss Agnes Morse is expected to arrive at her home in the borough today, after a months' visit with her sister, Mrs. W. Allen Schutt at Bayonne.

George D. Hallock and family, of Willow avenue, left yesterday for Ghent, Columbia county, N. Y., where they will remain during the month of August.

W. B. Van Lew, who left Plainfield eight years ago and has since been engaged in herding cattle on western ranches, is spending a few days in town visiting old friends.

Roundsman John Flynn is on his vacation of ten days. During his absence Roundsman Frederickson is doing night duty and Patrolman William Mattox is acting roundsman and is doing day duty.

Emily, the young danghter of Mr. and Mrs. F. Hartgrave, of Somerset street, is seriously ill at the home of her grand parents in the Catskill Mountains, where Mrs. Hartgrave and children are spending a few weeks.

John A. Gledhill, a pattern maker at Ball & Wood's engine works, has accepted a position with the Pond Tool Company, Plainfield, and will go to that city to reside. He had been here only a short time, but made many friends.—Elizabeth Journal.

DONATIONS FOR THE PASTOR.

Rev. E. E. Jackson Pleasantly and Substantially Surprised.

After the missionary meeting held at Mt. Olive Baptist church last night, a large number of the parishioners called unexpectedly on the pastor, Rev. E. E. Jackson, and gave him a donation party. They brought groceries and many useful articles for home comfort. Rev. and Mrs. Jackson expressed their heartfelt gratitude to the donors, and said that during their short stay of three months they were happy to know that the members had found them worthy recipients.

Some of those present at the donation party who so kindly remembered the pastor and his wife, were Mrs Joanna Fisher, Miss Frances Kline, Mr. and Mrs. D. H. Brown, Mrs. Mary Doyle, Miss Jennie Henderson, Miss Susie Reede, T. J. Wilson, Miss Josie Green, Miss Susie Washington, Miss Anna Binn, Miss Anna Fields, Miss Rosa Wyckoff, Mr. and Mrs Sheldon, Miss Sarah Freeman, Mrs. Wm. Manning, Miss Cora Morris, Miss Mary Myers, Mrs. Rosa Venable, Wm. Geter, Oscar Green, A. S. Venable, Mr. and Mrs. Reuben Jones, Willie Dunham, Deacon F. W. Reede and many others.

Death of a Faithful Servant.

Miss Kate A. Walsh, aged 36 years, died yesterday afternoon at the home of her sister, Mrs. Samuel J. Robinson, 744 West Third street, after an illness lasting eight weeks. When Miss Walsh was taken ill she was in the employ of Mr. and Mrs. J. Fred MacDonald, of East Front street, as a domestic. She had been with this family for sixteen years, and was employed by them from the day they commenced housekeeping. They feel deeply grieved over the death of such a faithful servant and friend. The funeral service will be held tomorrow morning from St. Mary's church at 8 o'clock and friends and relatives are respectfully invited. The interment will be at Elizabeth.

Peace Fleet at Asbury.

(Special to The Daily Press.

Asbury Park, N. J., August 10.—Colonel H. Hadley's peace fleet will sail on Wesley Lake this evening. The novel pageant was devised in honor of the peace negotiotions now pending between this country and Spain. There will be 200 singers, a band of musicians and a fleet of decorated small craft, extending from one end of the lake to the other. Founder Bradley will supply Colonel Hadley's flagship, and Southern veterans are invited as guests of honor. Two meetings will be held during the water display, at which addresses will be made by prominent evangelists.

—Rev. A. E. Main, of the Seventh-Day Baptist church, will preach Sunday in Grace M. E. church.

—Rev. Dr. Madison C. Peters, of New York, will have charge of the preyer meeting at the First Presbyterian church tonight.

WAR NEWS.

hours by the formal order of President McKinley.

The President is reported to be satisfied with the general terms of Spain's note of acceptance. He expects M. Cambon to meet Secretary Day today with full authority to finally prepare a complete proctorol.

STRIKE AT MONTAUK.

Workmen Refuse to Complete Camp For Shafter's Men—Troops Without Shelter.

(From the Union Associated Press.)

Montauk Point, L. I., August 10, 1:03 p. m.—In the midst of the heavy storm this morning, workmen employed in preparing the camp for Shafter's returning army, struck for higher wages and shorter hours, and utterly refused to work.

The camp is in great confusion and the troops are without tents or shelter of any kind. The Government is for the time unable to prepare for the arrival of the soldiers.

TO ATTACK MANILA.

Preparations for Joint Movement By Land and Sea are Almost Complete.

(From the Union Associated Press.)

Cavite, August 4, via Hong Kong, August 10, 1:03 p. m.—Now that the monitor Monterey has arrived, action against Manila by the land and sea forces will come quickly.

The ships of Rear Admiral Dewey's fleet have been stripping for action during the last few days and nearly all their boats have been sent ashore and hauled up at the Cavite navy yard.

The army preparations are yet incomplete as the surf has been too heavy to land the troops in the transports. It has been blowing a gale for the last two days making it impossible to communicate with Camp Dewey.

EXPECT FALL OF SAN JUAN.

A Speedy Conclusion Of Porto Rican Campaign Looked Forward to by Officials.

(From the Union Associated Press.)

Washington, August 10, 1:20 p. m.—The War Department expects to hear within a few days of the fall of San Juan. All the recent despatches of Gen. Miles indicate that three distinct detachments are advancing steadily toward the capital under circumstances which give hope of a speedy and successful close of the Porto Rican campaign.

Has He Stolen the Rig?

A man from New York, who used to drive the New York Biscuit Company's wagon through here, hired a horse and buggy from Liveryman Roberts Monday afternoon to drive to Metuchen.

Nothing has been seen of the rig since, and this afternoon Mr. Roberts notified the police. The man gave his name as Mills.

He Stopped to Think

Anybody who delights in a first class love story would not stop after he had begun Kate Jordan's new story, "A Circle in the Sand." He would keep on until the end if he could. But we have

Looked Out for That

We are going to print it in this paper, but it will be run in installments. Look out for it. Kate Jordan wrote "The Other House" and "The Kiss of Gold." They are both good stories. "A Circle in the Sand" will be voted just as good.

CURRENT COMMENT.

Drinking water is so costly at Key West that hundreds of persons there are drinking bottled beer as a matter of economy. The strangers assembled in the place feel that they made a great mistake in not taking a few artesian wells along with them.

Lord Wolseley, who says that the United States can whip any nation in Europe in the long run, must not be taken literally. Lord Wolseley's long run from away up in the Red River country to Winnipeg, during the Louis Reil rebellion, was one that he need not be ashamed of, so far as length is concerned.

French representatives who insist that their country is friendly toward the United States explain the hostile utterances of the Paris press by stating that the newspapers of that city are nearly all subsidized by Spain. This explanation is almost as monstrous as the offense itself.

A year hence the American navy will be in good shape for any contingency. The Navy Department is ready for bids on three first-class battle-ships, four harbor-defense monitors, sixteen torpedo-boat destroyers and twelve torpedo boats. Five heavily armored cruisers of the swiftest class will probably be added. The torpedo boats are to be as fast as any in the world. All these are in addition to the formidable vessels now under construction.

In England, hereafter, the Victoria Cross, which heretofore has bought to its recipient honor and fame, but nothing more, will carry with it an annual pension of $250. It will thus keep its proud wearer out of the poorhouse, and make those who have it not strive harder than ever to earn it. Such a method of rewarding merit has several excellent arguments in its favor, but they are of more weight in England than here, where a pension awaits every soldier who deserves one.

One point to remember about heavily armored battle-ships is that they must be coaled more frequently than cruisers built for long, swift runs. Their business is to take the hard knocks of offense and defense, and their great weight reduces their speed. But some of the latest enormous English battle-ships are good for nineteen knots.

Though the battle-ship Massachusetts is incased in a steel armor 18 inches thick she has a speed of fifteen knots, or 360 a day, and a fleet composed of our five battle-ships, if pushed, could make that distance. The Maine was the swiftest American battle-ship, with a record of 17.4 knots.

The orders for warships placed by the Russian government in this country include not only the first-class battleship and first-class cruiser, but also ten torpedo boat destroyers. Vessels of the last named type have not yet been constructed in American yards, although some are now under way and others have been ordered, but it is evidently the belief of the imperial naval officials that the Yankees are fully equal to building successful ships of any type. And that is true enough. There has never been a time in the history of American shipbuilding that we did not excel European competitors. Not content with imitating, we always improve, if we do not create.

The formal recognition by this government of the legal status of the American National Red Cross settles all doubts as to the comprehensive functions of that organization in caring for the sick and wounded soldier, and clears the way for the concentration and unification of all efforts to that end. Thus the proper and efficient channel is opened for collecting and distributing contributions from all classes of individuals and from every variety of auxiliary association.

The American National Red Cross Relief Committee, acting directly under the auspices of the American National Red Cross, has virtually succeeded, in view of the recent negotiations with the government, in becoming the properly accredited financial representative of the parent organization. In view of the high business standing of the members of the committee there can be no question that the funds will be properly appropriated for the purposes intended, and it only now remains for the Red Cross, through this committee and its numerous and energetic women auxiliaries, to rise to its opportunities and to prove its fitness for the emergency by prompt and useful work.

There is now no longer any question where the Red Cross stands and what are its privileges. It not only takes the place in this country of the Sanitary Commission of bygone times, but is more expansive in its aims and more amplified in its purposes. With its grand mission of humanity and neutrality there is no benevolence it cannot compass, no charity it cannot broaden, no sympathy it cannot deepen and no mercy it cannot stretch. Its flag, protected by international treaty, is the sacred emblem of helpfulness for every form of suffering, and proudly floats at the fore of advancing Christian civilization.

MUST BE SOLD.

Our entire Spring and Summer stock of high grade Suits, Trousers, Coats and Vests and Summer Coats must be sold in the next two weeks, beginning July 23d at 8 a. m. sharp. Our prices will be cut down so low that it will pay you to buy a suit and keep it for next summer. Remember, we don't carry over stock from one season to the next, and in order to sell out so large a stock we are compelled to offer our stock for less than at any time since we are in Plainfield. Here are a few sample prices.

Men's fine grey or brown serge suits, strictly all wool, worth $12, at $4.75. Men's linen crash suits, hand shrunk, worth $6, at $2 25. Men's all wool bicycle suits in fine checks and plaids, worth $7.50, at $2 90 Men's suits in fine blue serge, fast color, half silk lined, worth $14, at $5.50. Men's trousers, all wool in checks and stripes, neat patterns, worth from $3 to $4, at $1.75. Boys' 2 piece suits, all wool, ages from 5 to 16, worth $3, at $1.28. Youth's long pant suits, very fine cheviots, in light or dark colors, worth $10, at $3 and $4. Men's or boys' mohair coats, worth $1 50, at 35c. Men's crash coats at 65c. Men's linen pants, worth $1, at 45c. Men's blue serge coats at $2 30. Men's bicycle trousers at 40c, 50c, 75c and $1, worth more than double. Men's black clay diagonal coats and vests at $4.75, worth $10. Boys' knee pants at 21c, very good. A large stock of men's furnishing goods for hot weather must be sold. Come early and get your choice as these prices will bring a large crowd of buyers, and remember there are 500 more bargains.

Goods are guaranteed as represented or your money back.

BY THE LIGHT OF FLARING TORCHES.

Description of the Camp Meeting Now Held at Netherwood.

NEGRO MELODIES ARE SUNG

ON RUDE BENCHES MANY LISTEN TO COLORED PREACHERS' WORDS.

The Camp Meeting Has Lasted Nearly Two Weeks—Large Crowds Gather When the Weather is Pleasant—How the Grove Looks at Night—Torches are the Only Lights Used.

It is night. The venerable oak trees of the grove seem in the darkness to tower above to an enormous height. Between their leafy boughs a star now and then shows its twinkling light. A circle of flaring oil torches illuminates the centre of the grove. There is gathered a great concourse of people. Out into the darkness from that ring of light comes a weird melody, full of plaintive minor strains, a sort of chant it seems, to which the increasing voice of the "katydid" forms a strange accompaniment. It is a camp meeting, a real negro camp meeting, and the dusky worshippers are singing. The music is of that type distinctive of their race, and it is sung as only the dusky singers know how.

To such sights and such sounds have the good folk of this city been able to listen for nearly two weeks. Out in the grove of oaks and chestnuts that stretches along LaGrande avenue from Woodland avenue to Belvidere, a camp meeting has been in progress. It was gotten up by Rev. Dr. Coster, pastor of the St. Peters A. M. E. Zion church. A week ago Sunday it started and has been continued every night since, the audiences varying according to the weather. When the nights have been pleasant, there have been many who have wandered in that direction and attended the meeting out in the open air. The white folk have come. In fact they have usually formed the large portion of the audience.

A negro camp meeting has long become famous in song and story. The fact that one was in progress in this very city attracted many to the grove where it was held. And they found a strange sight.

There is particularly impressive sights among the place in the day light. Trees, plenty of weeds and rows of board seats do not make a very picturesque scene. At night, it is all different.

A funny little covered pulpit, open at the ends, stands at one side of the open space. Two lanterns with reflectors, cast their light on the speakers and singers who occupy it. Then some dozen oil torches are crudely fastened to the trees about the gathering. Every little breeze sets the blaze trembling and the yellow uncertain flame casts a flickering light about. The seats in this outdoor auditorium are crude indeed. Boards set inside with other boards nailed along them form the backless seats. Some two score camp chairs are ranged in a semi-circle close about the speaker's stand. They are for the chosen ones of the church itself.

All the noises of the woods are to be heard. Then the air itself seems laden with a woody fragrance. The branches above rustle in every passing breath of air. The new arrival is impressed at once with the solemnity of the scene.

As the audience arrives in couples and groups, the powerful voice of the tall stalwart negro, the pastor of the little congregation, rings out. He has a sonorous voice that rings through the grove and can be faintly heard far away in the outer darkness. There is nothing deep in his discourse. He just lays down the facts before his hearers and calls upon them to heed them. So far, there has been little demonstration on the part of the colored portion of his audience. Once in a while, at some particularly pointed sentence, a deep "Amen" or "Hallelujah" rings out. There is comparatively little of that, however.

The audience is an attentive one, nevertheless. Dr. Coster is an interesting talker and a powerful one. Then there is something in the air that quiets the most uproarious spirit. The benches are generally well filled. Other people stand in the rear and listen. Others pass by slowly or converse in whisper.

It is the singing that many go to hear. Those quaint old plantation melodies, all of them of a religious character, are sung some times by a quartette, again by a number of the colored folk. Some are soft and sad, largely in a minor key, all have that weird attractiveness of the negro

UNCLE DAN'S RIG GONE.

MAN ENGAGED HORSE AND BUGGY TO DRIVE TO METUCHEN.

Has Been Gone Since Monday Afternoon—Chief Grant Notified and He is Now Trying to Locate the Thief.

"Uncle Dan" Roberts, the liveryman, is mourning the loss of a horse and buggy which he hired to a man Monday afternoon to drive to Metuchen, and which has not been returned. Mr. Roberts has come to the conclusion that the rig is stolen and has notified Chief Grant, who has had circulars sent out in all directions, in this way hoping to discover the whereabouts of the missing horse and buggy, as well as the man who hired them.

Mr. Roberts knows that the party who hired the rig is called "Mills," but that is all. He used to drive the delivery wagon for the New York Biscuit Company, and each time he came to this city would put up his team at Roberts' stable and then hire a rig to drive to New Brunswick and back.

So when Mills walked into the stable Monday, right after dinner, and asked for a rig, Charles Roberts, who was in charge, did not hesitate, but ordered his men to hitch up an iron grey horse to a black buggy, and turned the rig over to Mills without any misgivings.

When night came and Mills did not return Mr. Roberts grew uneasy, but supposed everything was all right. Tuesday afternoon, the rig still being out, he drove over to Metuchen and made some inquiries. A colored man there finally said that he had seen a man and rig answering to the description given, but could furnish no further clue, so Mr. Roberts drove back.

Mills is described as being about five feet ten inches tall, rather stout, dark complexion, with a brown mustache and well dressed. He is supposed to have come from New York.

THEY HELP SICK BABIES.

AN APPEAL FOR FUNDS TO SUPPORT THE SUMMER CAMP.

Admirable Work That the King's Daughters are Engaged in Needs the Help of Charitable Plainfield People.

The City Union of the King's Daughters wishes to call the attention of the public to the children's camp on the mountains. This camp is a small frame structure located on Johnston's Drive, about a mile from the Mountain Park Inn. It commands a beautiful view of the surrounding country for miles around.

Several times a week during the months of July, August and part of September, the little sick children of Plainfield are taken up to the camp for the day, and it is surprising to see what a benefit this little change is to them. This work is carried on by the King's Daughters, of Plainfield. Miss Hartranft, the city nurse, is manager of the camp.

The physicians endorse our efforts to help the little ones, but there is more or less expense attached to this work, which is carried on by voluntary contributions, which are greatly needed at present.

Donations of money will be appreciated by the committee and can be sent to the treasurer, Mrs. W. A. Coddington, 409 East Second street.

FUNERAL OF MRS. BURT.

Large Gathering of Friends Paid Tribute of Respect to Her.

A large gathering of relatives and friends gathered to pay the last respects at the bier of Mrs. William C. Burt yesterday afternoon, showing in what high esteem she was held by all who knew her. The funeral was held at 3 o'clock from the house, and was in charge of Rev. Dr. William C. O'Donnell and James McGee, both of the Monroe Avenue church, to which the deceased belonged.

The service was a simple one. A selection from the Scripture was read, prayer offered, and a few remarks made by Mr. O'Donnell and Mr. McGee. Interment was in Bound Brook.

The bearers were C. C. Crawford, A. C. Stebbins, Thomas Crab, of Newark, Adam Neuman, L. L. Manning, John Praed, T. B. King and Blanchard Randolph. The flowers were very beautiful, and were sent in great profusion. As they were strewn over the casket they almost hid it from view.

At the Camp Meeting Tonight.

It is expected that tonight will be the biggest one yet at the camp meeting of the St. Peter's A. M. E. Zion church in Hyde's grove at Netherwood. Rev. Madison C. Peters, D.D., of New York, will deliver an address. Rev. Mr. Coster, who has charge of the meetings, has made arrangements for a large canopy to be erected to protect the audience from the night air.

—Press want ads pay—try one.

KEAN'S OFFER STIRS UP MANY ARGUMENTS.

Board of Freeholders Considered the Matter Yesterday.

BERGEN'S STRONG APPEAL.

THE BOARD POSTPONE DECISION UNTIL NEXT MONDAY.

Speakers Think a Boulevard and Trolley Would be a Great Improvement, But Some of the Objectors Fear the Cost—They Doubt if $250,000 Will Pay the Expense of the Improvement.

[Special to The Daily Press.]

Elizabeth, Aug. 11.—The Union County Board of Freeholders held a meeting yesterday afternoon to give a hearing to all citizens of the county who are opposed to or in favor of the proposition made by John Kean to pay $250,000 for a franchise to construct a trolley line through Union county, from the Staten Island ferry, at Elizabethport, to Plainfield. There was a large attendance of well-known property-owners, and there were numerous expressions of opinion.

Lawyer Paul Oliver, of Westfield, said he represented that township. He asked the Board to go slow in the matter, and said the objections in Westfield were that the Township Committee did not think the amount—$250,000—was large enough to do all the work contemplated, and another objection was that the trolley was to run through Westfield for one thousand feet without the avenue being widened for this distance.

Lawyer Depue said he spoke for residents of Cranford and Elizabeth who objected to granting the franchise. They thought all legal questions should be settled before the road was torn up. His chief point was that the company applying for the franchise had no legislative power to construct a trolley line outside of the city of Elizabeth, where the company secured a franchise in 1869, but only to be operative within the limits of Elizabeth. Mr. Depue wanted the Board to delay action until November, when the Supreme Court would pass upon all disputed questions.

Mr. Welsh, of Westfield, said he wanted the boulevard on which the trolley was to run to be the same width its entire distance.

Mr. Squire, of Springfield, was opposed to the trolley, because he believed the estimate of the cost of the proposed boulevard to be too low.

Freeholder Robison, of Fanwood, thought that the company applying for the franchise should agree to pay the entire cost of the improvement, and give a bond to the county to this effect.

Speeches in favor of the improvement and of awarding the franchise to Mr. Kean's company were made by Surrogate Parrot, Henry H. Isham, Lawyer John F. Brown and James McMasters, all of whom argued that the trolley line would greatly enhance valuations of property in its immediate vicinity, and would largely help to build up and develop the resources of the county.

Short remarks were made by Postmaster H. B. Rollinson, of Rahway; Alexander Kerr, builder; Lewis F. Hersch, merchant; A. D. Mulford, real estate dealer, and Johnson Yates, builder, all of Elizabeth, who declared they, and all those they had talked to, thought Mr. Kean's bid was fair and liberal, and that the county should accept his offer.

Former Freeholder Pierson, of Westfield, said he was opposed to bonding the county, and thought the money received for the franchise should pay for the whole improvement. He said the Westfield people were not opposed to the boulevard, but wanted it made the full width through that township, and, in fact, for the entire distance.

Frank Bergen closed the discussion with a vigorous speech. He said it was high time that Union county woke up and took a long step forward in the march of improvement. He pointed out that Essex and Hudson, with no better facilities than Union, had far outstripped it in the race for wealth and population, solely because the people in those counties are alive to this being a progressive age. Mr. Bergen dealt with the point raised by Lawyer Depue, and said that when the Squire trolley law was framed it was for the express purpose, as a perusal of it would show, to give anybody who had the money to invest a chance to bid for a trolley franchise. Mr. Bergen said there was not the remotest prospect of the improvement costing the county one cent, and that it would be madness to reject Mr.

WAR MAY END TODAY.

Spain Has Accepted Our Peace Terms.

NO OFFICIAL NOTICE YET.

BUT WASHINGTON EXPECTS IT VERY SHORTLY.

Madrid Advices Say That Spain is Satisfied with the Terms—Peace Negotiations to Be Made in Paris—Nothing Official Known.

(From the Union Associated Press.)

Washington, August 11, 1:30 p. m—Advices have been received in official circles that Spain is satisfied with protocol proposed by the United States. It is understood that formal approval on the part of Spain will be cabled to Cambon today.

Secretary Alger denies that despatches have been sent to General Miles, Shafter and Merritt that the war is officially at an end.

Further action dependent upon receipt, before 12 o'clock tonight, of formal instructions from Madrid for Cambon to sign protocol. In note sent to Spain time limit was made forty-eight hours for an answer, and the limit expires at midnight tonight.

Madrid, August 11, 12:15 p. m.—In official circles the reply of the United States to Spain in matter of peace negotiations is considered satisfactory. Premier Sagasta denies that he has authorized the French ambassador at Washington, as representative of Spain, to make change in Spanish answer as regards certain conditions which might create difficulty during progress of negotiations. Sagasta adds that if any changes are to be made the Spanish Government will make them best itself. The reply of the United States will not be made public till after the coming cabinet meeting.

FRANCE IS HONORED.

Negotiations for Peace Will be Conducted in Paris, President Decides.

(From the Union Associated Press.)

Paris, August 11, 4 p. m.—The following despatch has been received by Del Casse from Ambassador Cambon:

"President McKinley has consented that peace negotiations take place in Paris, giving as his reason that it is his desire to pay France a compliment."

French minister highly appreciates McKinley's having waived original request that Washington be the theatre of peace negotiations. Preparations to receive peace commissioners began today.

IN THE PHILLIPINES.

The Junta Insists That Insurgents Have Been Faithful to Americans.

Hong Kong, August 11, 11:30 a. m.—A delegation of the members of the Phillipine Junta, with authority to represent the insurgent government, has called on United States Consul Wildman to protest against the report that Gen. Aguinaldo, at the head of the insurgents, had declined to aid the Americans in the battle with the Spanish forces July 31st. It has been claimed that Aguinaldo had deserted the trenches without warning the American troops of the approach of the Spanish forces.

The Junta representatives claim that Aguinaldo retired his forces from trenches below Malata at request of Gen. Merritt as they had retired from

Fond Friends Once They Found Themselves Jabbing at Each Other in a Vicious Manner With the Forks—Farmer Wersing Didn't Like the Plan that Frazer Had Arranged.

"Just got married. And gracious sakes alive, I didn't want to be killed then." So says Farmer Joseph Frazer, of Stony Hill, in telling about it.

"Ach, mein Gott," exclaims his erstwhile friend, August Wersing, whose farm lies just above Washingtonville, on the road to Union Village, "the villain." A characteristic Dutch gesture adds more than words can express.

It was another happening on the Kenney farm that will be handed down to posterity as one of the events of a life time, a real duel between two well-known farmers armed with pitchforks. That it did not result in, perhaps, the fatal injury of one of them, was due only to the opportune arrival of the neighbors.

Frazer and Wersing had long been friends. They are both past middle age, but are hale and hearty still. Until this incident took place they were quite intimate and were frequently to be seen together.

The Daily Press told some time ago of the purchase of the Kenney farm, back of Washingtonville, by Phillip Rorckwick, and the decision to cut it into building lots, calling the intended settlement Somerset Park. The grass was high and to Wersing was given the contract for cutting it, he to receive the grass in payment for the cutting.

Now it so happened that Wersing had no reaper, but Frazer did. Wersing lacked a horse-rake, while Frazer owned one. So it was that Wersing went to see his old friend and agreed to give him half the grass if he would give the use of his mowing-machine and horse-rake. The bargain was then made.

Frazer purchased another mowing machine and last Saturday the two farmers with the necessary machines went to the Kenney farm and cut the grass. Monday they raked it up and started to haul it home.

The first load was taken in Frazer's hay wagon to Wersing's barn. The second went to Frazer. The two men then returned for the third. Then the idea began to dawn upon the brain of Wersing that he was coming out at the "little end of the horn," as the saying is. Frazer said that he would take the third load and Wersing the fourth.

The trouble began. Frazer divided the hay-cocks into two lots, one lot for himself and the other for Wersing. For the third load, they began to take those that Frazer had picked for his own. Wersing decided that he had not been treated fairly and that his neighbor was trying to get the best of him by taking the largest hay-cocks. He frankly said so.

The quarrel took on a more exciting phase. Wersing started for Frazer with blood in his eye and his pitchfork in his hand. Now Wersing had a pitcher's fork, eight feet long, and Frazer carried a loading fork which was only three feet long. Deeming discression the better part of valor, Frazer ran around the wagon, whereat Wersing followed, wildly waving his pitchfork. This chase continued until it was evident that Wersing could not catch the other.

Finding Frazer beyond the reach of his vengence, Wersing, it is said, turned on the horses and began to prod them with his fork. Frazer ran back and ordered him to stop. With a twist worthy of the famous "Little John" and his single stick, Wersing swung round his long fork and made a jab for his neighbor's neck.

Warding off the blow with his short fork, Frazer stood ready. Wersing's fork was so long as to be unwieldy and he could not recover himself in a moment. Then the other farmer tried to spear him with a vicious lunge of his trident.

The fork was going straight for the Dutchman's face when he ducked. Instead of spearing him the tines of the fork passed through Wersing's broad-brimmed straw hat, lifting it from off his head, Then Frazer dodged back out of the reach of the long fork now ready for action.

With a fearful yell Wersing started for his old companion. It looked as if

SAUCY TO THE JUDGE.

PRISONER'S SENTENCE DOUBLED ON ACCOUNT OF HIS IMPUDENCE.

Mike Gleason Said He Didn't Give a —— if He Went to Jail for Six Months, so the Judge Made Fine $20 Instead of $10.

If Michael Gleason had kept a civil tongue in his head this morning, when arraigned before City Judge DeMeza on a charge of being drunk and disorderly, he would have escaped with a fine of $10 or imprisonment in the county jail for 30 days. Instead, his sentence was just doubled, and unless Gleason can raise $20 somewhere, he is destined to spend the next two months with Warden Dodd at Elizabeth.

Gleason was very drunk last night. Officer Myers saw him staggering around in "Tinkers' Alley" as the little lane that divides the rows of houses in Battle Row is called. He was cursing and swearing, and when the policeman took hold of him to lead him to the station house, Gleason struck out with both fists, and tried in other ways to escape from the grasp of the law.

Gleason had been handling barrels of ashes, and his hands were not very clean. He left his marks on Myers' clothing wherever he came in contact with it.

When arraigned in court Gleason denied the charges, but was found guilty.

"Ten dollars or 30 days," was the sentence of the court.

"I don't give a —— if you make it six months," growled Gleason as he was led away.

"What's that you said?" called out the Judge. "I'll make it $20 or 60 days, and when you get out maybe you'll be better natured," he continued.

Gleason did not make any reply to this, fearing probably that the Judge would double the dose once more.

LOCKJAW PROVED FATAL

EIGHTEEN-YEAR-OLD BOY RUN A NAIL IN HIS FOOT A WEEK AGO.

The Wound Caused Him Intense Pain and He Was Brought to Muhlenberg Hospital—Died in Convulsions.

While the suffering with the terrible malady of lockjaw and wreathing with convulsions, Raymond H. Fordyce, aged eighteen years, died at Muhlenberg Hospital yesterday morning, after an illness lasting just one week.

The young man was employed by Charles Calloway on his place at Fanwood, and had worked there for three years. Tuesday of last week, while working about the place, Fordyce stepped on a nail which penetrated his foot. For the time he managed to get along without any trouble, but Monday last he was obliged to give up work. His employer told him to remain in the house and attend to the injury. The young man did so, but he suffered intense pain continually. Mr. Calloway wanted to send for a doctor, but the boy insisted that it was not necessary.

Tuesday morning Fordyce was in such terrible agony that his employer decided to send for a physician. Dr. Westcott was sent for and determined at once that the boy was suffering with lockjaw, and said that he must be taken to the hospital, where he could have proper treatment. Fordyce was removed to the hospital Tuesday and continued to grow worse until he died yesterday morning.

The young man's father, Jacob Fordyce, a hard-working blacksmith, residing at Dover, Morris county, had previously come to Plainfield, and was with his son when he died. He was heartbroken over the son's death.

The body was taken charge of by Undertaker George Cole, who will take it to Dover today. The funeral services will be held from the father's house tomorrow afternoon at 1:30 o'clock, and interment will be at Mt. Freedom Cemetery, that place.

PYTHIAN FIELD DAY.

Knights Will Gather in Jersey City This Year.

Pythian Field Day will be celebrated in Jersey City this year, and large delegations of good and faithful Knights from all over the State are expected to be in attendance. The Field Day comes on Labor Day, September 5th. There will be a parade of Uniformed Ranks division, and contested drills. Jersey City Knights are making great preparations to receive the visitors.

Last year the exercises were held at Perth Amboy, and about eight years ago were held here. It is the intention of the order to visit every city in the State in turn, so that there can be no charges of partiality.

—A clip-as-you-go entertainment will be given in Mt. Zion A. M. E. church this evening.

JOY OF BADGER BOYS TO GET DELICACIES.

Dr. Simpson Expresses Appreciation for the Recipients.

MAKES LIFE EASIER NOW.

WHILE ON BLOCKADE DUTY THEY WERE IN SAD WANT.

Nothing But Coarse Food and Warm Water For the Sick Previous to the Box Being Sent From Plainfield—First Use of the Delicacies Was to Nourish One of the Spanish Prisoners Who Was Sick.

Dr. M. S. Simpson, surgeon on the Badger, writes the following interesting letter to The Daily Press as a means of conveying the thanks of the Plainfield boys on the Badger for the box of delicacies and comforts which was forwarded to them a few weeks ago:

U. S. S Badger
Off Fort Taylor, Key West, Fla.,
August 5th 1898.

Personally and in behalf of the ships company I express our sincere gratitude for the kind contributions to our "Sick Bay" received today by express. The boxes were delivered aboard ship by a government tug and our bayman soon had the lids off and the contents unpacked. We have now an assortment of delicacies for the sick that we have heretofore sadly needed.

A feverish patient at sea in the tropics, the vessel rolling and pitching, the very thought of food detestable, mouth clammy, nauseated, beadaching and throbbing finds it a hard matter to get nourishment from hard pilot bread, baked beans and warm water as we have often had it during the past two months. At one time we had a few limes, some canned fruits and saltines, but these disappeared with the ice—our cruise being protracted between the time intended.

I assembled the Plainfield boys in the bay after "turn to" (3.00 p. m.) and let them get the many little presents that were included and specially designated, and it was like opening a Christmas box. Could the donors have seen the pleased faces that alone would have repaid all trouble and expense. Each very generously shared with his comrade and now they are as happy as larks stowing the canned goods in the lockers.

The "Naval Reserve Library" we will carefully lay aside until our present reading matter is exhausted. Kind friends in Plainfield, too modest to favor us with their names, have sent us files of Courier and Press and as this has been accumulating here during the past four weeks we have considerable now but will have very little in a few days as we start for a cruise around Cuba.

As for myself, I found a delightful letter in the box from a little Plainfield patient—Ralph Runyon—and, appropriated the small silk flag, to the unknown donor of which I return thanks. It is very small but is now the only Federal flag the medical department of this ship possesses and I am going to carry it through the balance of the war and keep it as a souvenir.

We have aboard all the small boats that were left behind by Sampson's fleet and are to land them at Guantinamo where we await further orders—Porto Rico, we think, and it may be sometime before our friends get mail from us.

Among the many friends who have taken active interest in sending us this blessing, we recognize Mrs. Lawrence Myers, Mrs. Marie L. Mead, M. Estil, Mrs. Clinton Randolph, Miss Cora A. Sheppard, Mrs. J. Craig, M C. Dobbins, Edward White, David Smalley, Mrs. F. H. Keller, Miss Olive and Miss Emma Wikoff, Mr. and Mrs. Geo. A. Dunham, Miss Anna C. DeKlyn, Miss Helen Fulton, Mrs. VanDeventer, G. W. Rockfellow, Harry Boyce, W. J. Ford, Wm. Paine, R. J. Shaw, F. W. Randolph, Scheuer & Sons, Mrs. J. H. Force, Woodhull & Martin, Tommy Timbo & Co. These, and to all others whose names we have been unfortunate enough not to obtain, and to the Courier-News and Press who have been so kind, we again thank most heartily.

In closing this I will add that the first use made of the Plainfield contribution was to make something palatable for a very sick Spanish soldier whom I have under my care.

Very respectfully,
Maxwell S. Simpson,
P. A. Surgeon U. S. N.

Second Adjourned Meeting.

Next Monday evening the City Council will hold its second adjourned meeting for this month. The session will be held to examine the books of the assessors.

ALL READY FOR ACTION

Dewey Has His Ships Cleared for the Attack on Manilla.

AGUINALDO ON THE WANE

Though the Navy is Ready for the Bombardment of the City the Preparations of the Army Are as Yet Incomplete Additional Details Concerning the Fight at Malate.

Cavite, Aug. 4, via Hong Kong, Aug. 9.—Now that the monitor Monterey has arrived action against Manila by both the navy and army will come quickly. The ships have been stripping for action during the last few days. Nearly all the boats have been sent ashore and hauled up at the Cavite navy yard. The army preparations are incomplete. The bay has been too rough lately to land troops.

It has been blowing a gale for two days, making it impossible to communicate with Camp Dewey. No reports have been received for the past two nights. The Third expedition arrived from San Francisco on Sunday after a quiet passage. Many men are still aboard the transports, owing to the difficulties experienced in making a landing.

Admiral Dewey said yesterday that he was waiting for the arrival of the monitors. He would do nothing until the Monterey came and perhaps not until the Monadnock arrived.

When the Monterey arrived to-day she was received with great rejoicing aboard the vessels of Admiral Dewey's squadron.

Father McKinnon of the First California regiment had made preparations to go to Manila to see the archbishop, to try to persuade him that resistance was useless. He was to meet a representative of a foreign power outside of Manila on Tuesday, who was to accompany him to the city. The foreigner failed to come. As the chaplain was riding toward the camp a Spanish shell burst close behind him and smothered him with dirt. A fragment of the shell struck him in the back, but did not penetrate his clothing.

Cavite, Manila Bay, Aug. 3, via Hong Kong, Aug. 9, delayed in transmission.—The American field hospital worked splendidly, under a galling fire, at the battle of Malate, and the remarkable courage and steadiness of all ranks, regulars and volunteers, caused General Greene officially to thank the troops. The Spaniards used Mausers and Remingtons with brass coated bullets.

The Americans are disgusted with the conduct of Aguinaldo, the insurgent leader, whose power is weakening, owing to the fact that the Filipinos are realizing the unsubstantiality of his promises. Two insurgent steamers are now in Manila bay provisioning, in order to insure Aguinaldo's escape, if necessary.

London, Aug. 11.—The afternoon newspapers comment upon the battle of Malate as being a repetition of the now familiar story. The Spaniards, brave and incompetent, firing wildly, and attacking too late, and the Americans brave, cool and skillful, notwithstanding that their operations were conducted in the midst of a tropical monsoon."

Mail Delayed at Tampa.

Tampa, Fla., Aug. 11.—More than 40,000 letters and four bags of papers from Santiago, for persons in the United States, have been lying in quarantine at Egmont Key since August 1. This discovery was made yesterday afternoon by C. S. Beaver, chief clerk of the railway mail service, who went down to quarantine to look into the matter.

He insisted that the mail be released at once and it was sent over to the emigrating station, and will be sent out to-night. The mail arrived on the transport Comal, and the captain of that vessel in vindication of the long delay says that he had made repeated requests that it be fumigated and released.

Spanish Mausers to Be Brought Here.

Washington, Aug. 11.—It is proposed to send to the United States the surrendered Mausers of the Spanish in Santiago. General Flagler, the army chief of ordnance, has advices from his ordnance officer with General Shafter that the weapons are deteriorating and it will not be advisable to keep them in Cuba. There are 8,000 of these guns, with several thousand of other patterns. The war department will order the arms to the national armory at Springfield, Mass., for overhauling, leaving in Cuba only a sufficient number to equip the army which remains there.

Off for Honolulu.

San Francisco, Aug. 11.—The Hawaiian commissioners were entertained by the Union League Club and left for Honolulu on the steamer Mariposa yesterday.

While in this city they have learned the sentiments of the business community regarding the future government of Hawaii.

Prisoners Leave Santiago.

Santiago, Aug. 10.—One thousand wounded Spanish soldiers, prisoners of the American army, left here for the Canaries on board the steamship Alicante to-day. This was the first lot of prisoners to leave under the terms of the surrender of Santiago. The wounded men had the preference in the embarkation.

German Foothold in China.

London, Aug. 11.—The Birmingham Post is informed that a direct regular service of steamers is to be established between Hamburg and Vladivostock and Port Arthur, and that German consulates are to be created at these two Chinese ports on September 1.

European Treaties with Japan.

Tokio, Aug. 11.—The Japanese government has notified the European powers that their respective treaties with Japan will go into effect on July 1, 1899.

MORE MEN FOR MERRITT.

Gen. Merriam Ordered to Send 10,000 Men to the Philippines

Washington, Aug. 11.—The war department will for some time to come continue the dispatch of troops to reinforce General Merritt's command in the Philippines, unless some developments in the peace negotiations shall cause a change of policy.

Orders have been sent to General Merriam, commanding the department of the Pacific, directing him to embark as soon as transportation can be provided 10,000 more troops to reinforce General Merritt.

This will increase the force now in the islands or already on the way to about 80,000 men. This is all that will be done at present to comply with General Merritt's request for an army of 50,000.

The 10,000 men which are to be sent are now on the Pacific coast.

The Arizona, one of the largest and best ships chartered by the war department, will leave San Francisco for Manila the last of this week, carrying a regiment of troops and a quantity of supplies of various kinds. Next week the Scandia, a ship capable of carrying 1,900 men, will leave for the same destination loaded to her full capacity.

Within a few days the vessels which carried the first detachment of troops to Manila will be due in San Francisco and it is said at the war department that these ships will start as soon as possible with another armed expedition for the Orient.

HONORS FOR NAVAL HEROES.

Sampson to Be Advanced Eight Numbers Schley Six.

Washington, Aug. 11.—The president has decided upon the rewards for the chief officers who took part in the naval battle off Santiago on July 3. Sampson is promoted eight numbers, Schley is promoted six numbers and both are made rear admirals. Captain Clark will be promoted one number more than the other captains and Lieutenant Commander Wainwright goes up more numbers than any other officer.

The addition of Sampson and Schley to the list of rear admirals, the retirement of Admirals Kirkland and Norton and the recent promotion of Commodore McNair will make the list of rear admirals on the active list consist of Miller, Sicard, Matthews, Bunce, Dewey, McNair, Sampson and Schley. Up to July 1 Schley was ninth on the list of commodores and Sampson was first on the list of captains, although he had the rank of rear admiral while commanding the North Atlantic squadron. Captain Clark of the Oregon was thirty-fourth on the list of captains, and Wainwright of the Gloucester was twenty-third on the list of lieutenant commanders.

AGREAT WHEAT CROP.

Government Figures for the Month Give a Percentage of 96.5.

Washington, Aug. 11.--The monthly government crop report shows a percentage of 96.5 for spring wheat, as against 95 per cent. last month and 86.7 per cent. for the corresponding month of last year.

This promises the largest crop in the history of this country.

The condition of corn was reported at 87 per cent. as against 90.5 last month, and 84.2 for the corresponding period last year.

The condition of corn, 87, is 3.5 points lower than last month, and 2.8 points higher than on August 1, 1897, but 8 points lower than on August 1, 1896, and 6-10 of 1 point below the August average for the last ten years. The principal state averages are as follows: Ohio 89, Indiana 86, Illinois 72, Iowa 92, Missouri 86, Kansas 69 and Nebraska 85.

The condition of spring wheat, 96.5, is 1.5 points higher than last month, 9.8 points above the average on August 1, 1897, 17.6 points above that for August 1, 1896, and 13.5 points above that for August average for the last ten years.

Will Bombard Cartagena.

Washington, Aug. 11.—The Italian government has informed the state department that Colombia will be required to comply with every provision of the award in the Cerruti case.

This is in answer to Colombia's offer to place a million pesos in the hands of the president of the United States, to be disbursed to any creditors of Cerruti, whose claims may be proved.

The Italian government wants about one-third of that sum paid into the hands of the Italian admiral, otherwise it proposes to bombard the city of Cartagena.

The president is doing all that lies in his power to settle the controversy amicably.

A Passenger Train Wrecked

Middlesboro, Ky., Aug. 11.—While a north bound train was coming from Norton, Va., yesterday, it struck a landslide near Pennington, and two coaches attached rolled down an embankment sixty feet. About twenty passengers were aboard, all of whom were more or less injured.

Brass Collars for Drunkards.

It is said that in Manitoba when a man has been twice or thrice convicted of drunkenness in the police courts he is sentenced to wear a brass collar, which marks him out among his fellows as a person to whom no publican can with impunity serve liquor. The drastic measure often proves a cure. On the authorities being satisfied that the branded individual has served a sufficiently long term of probation, he is uncollared and endowed with the liberty of drinks.—Tit-Bits.

By the Woodpile.

Mrs. Charitable—But when I gave you your breakfast you said you were willing to work.

Weary Willie—Yessum. I am; but not between meals.—New York Journal.

A Universal Brother.

"Henry, do you believe in the universal brotherhood of man?"

"Believe in it? I should say so; down at the seashore this summer I had thirty-five sisters."—Detroit Free Press.

THE DAWN OF PEACE

Basis of Negotiations Settled and Agreement Drawn.

NO DEVIATION IS ALLOWED

Protocol for the Cessation of Hostilities and the Appointment of a Commission Drawn Up. Spain's Arguments and Requests Ignored and the Original Demands Adhered to. Rumors of a New Spanish Cabinet to Negotiate Peace.

Washington, Aug. 11.--In a brief conference held at the state department yesterday the terms of the protocol for the cessation of hostilities and the assembling of a peace commmission were arranged between Secretary Day and M. Cambon, the French ambassador. M. Cambon, who agreed to the protocol, subject to approval from Madrid, immediately cabled to Madrid through Paris for authority to sign the protocol in behalf of Spain. When that authority is received, probably to-day, hostilities will end, but peace will not be declared until the commissioners have drawn up and signed the necessary treaty. The administration does not anticipate any refusal on the part of Spain to accept the provisions of the protocol.

No concessions have been made to Spain, according to the best information obtainable. The president and Secretary Day construe the answer delivered at the White House yesterday by M. Cambon as an acceptance of all the American terms, and the protocol was drawn in accordance with that construction. In other words, the arguments and suggestions used by the Spanish government about the Cuban debt and other details were simply brushed aside by this government and the protocol drawn strictly on the lines of the demands made by the United States after Spain had presented her request for the arrangement of a peace. An officer of the government said after the conference between M. Cambon and Secretary Day was over, that the statement given to the press at the White House after the American note had been delivered to M. Cambon, was a skeletonized form of the protocol, which, however, contains in addition provisions as to various details, such as the place of meeting of the peace commissioners and the number each side shall appoint. Spain, therefore, consents to cede Porto Rico to the United States and to withdraw her forces from that island, to withdraw her forces from Cuba, to cede an island in the Ladrones to the United States, and to surrender to the United States the city, bay and harbor of Manila pending the negotiations of a treaty of peace.

M. Cambon called at the state department by appointment shortly before noon, accompanied by M. Thiebaut, the first secretary of the French embassy. With Assistant Secretary Moore also present, and participating in the conference, the draft of the protocol prepared last night and this morning was read and a copy furnished to M. Cambon. The ambassador was with the others for about ten minutes only, when he hurried away presumably to have the protocol put into cipher for transmission to Madrid through the French foreign office and to telegraph also to the Spanish minister of foreign affairs for authority to sign the protocol in behalf of Spain. He returned to the state department in less than half an hour and remained for a short time. M. Thiebaut did not leave with the ambassador.

New Cabinet to Negotiate Peace.

Madrid, Aug. 10.—The Imparcial today says in regard to the political situation: 'The political and military personages who have conferred with Senor Sagasta are generally of the opinion that a new cabinet should negotiate peace. Senor Sagasta, having declared war, would find difficulty in negotiating peace."

Continuing, the Imparcial announces that it favors changes in the cabinet and demands that the cortes be summoned and that the suspension of the constitution be ended, in order that the press may be free to express public opinion.

The Tiempo remarks: "Spain's sovereignty over the Philippines should not be abandoned and American exactions should be resisted. But, if a surrender is deemed necessary, it should be done so as not to deprive the country of liberty of action in the future.

The Ministerial Globe expresses the opinion that the Cortes should be summoned immediately "to approve so grave a departure as contained in the peace negotiations."

Papal Nuncio Confers With Sagasta.

Paris, Aug. 10.—The Madrid correspondent of the Temps, telegraphing from the Spanish capital, says:

"The papal nuncio has had a long conference with Premier Sagasta in behalf of the religious orders in the Philippine islands.

"Senor Sagasta replied that the Vatican had nothing to fear, while the islands remained under the sovereignty of Spain, but he could not answer for the treatment of the religious orders in the territories occupied by the natives or Americans, and could not give any engagements for the future, as the fate of those communities depended on the outcome of the peace negotiations and the decisions of the commission which would be appointed to deal with the regime of the archipelago."

Report That Carlists Are to Take Action.

Brussels, Aug. 11.—An exceedingly doubtful story is published by the Soir of this city in a dispatch from Barcelona, which says that at a recent meeting of the Carlist leaders it was decided to immediately take action and that orders were issued for the Carlists to assemble.

It is further said to be reported that Don Carlos personally enters Spain on Monday or Tuesday next and that in the meanwhile 180,000 rifles and quantities of ammunition have reached the Carlists.

New Jersey's Greatest Store.

HAHNE & CO.

AUGUST BARGAINS.

These great bargains are such as we can give only in August and such as no other store in or out of New Jersey can offer.

Don't wait for announcements in newspapers, but come in and enjoy countless rounds of pleasant surprises. The list includes almost everything, from a Hassock to a Parlor Suit, from a Pin to a Bonnet and a Shirt Waist to a Suit.

WE shall close our store evenings at 6 p. m. and on Saturdays at 12 noon, beginning July 8.

FREE deliveries at all New Jersey railroad stations. No extra charge for packing.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

RUDOLPH SPEIGEL, Proprietor

The Clearing Sale of Shirt Waists.

With the close of July comes the greatest price-cutting—the most attractive values ever offered. The remaining stock is divided into two lots, 49c. and 75c., former prices ranged from 75c to $1.50. There's not 200 waists in the entire assortment, so we advise an early call for the best selection.

Sailor Hats and Untrimmed Hats 49c.

This means that each and every hat, irrespective of former price, will be 49c. Of especial interest should the price be, as none have been less than 75c, and the styles offered are all of this season's production.

Men's Negligee Shirts 59c.

Sounds cheap, but the hundred or more shirts that go on sale have been selling at 75c., 85c. and $1. The patterns are all new and desirable, the kind that you would like. Clearing time is here, and the new price, 59c., will be the means of their quick disposal.

Men's Summer Underwear 20c.

Nearly 600 pieces gauze underwear to be 20c. This is ordinarily the best 25c underwear sold, but 20c will be the clearing price.

I. LEDERER.

AT MONTAUK CAMP.

More Troops Arrive—Supplies in Abundance

New York, Aug. 11.—Five trains bearing the men and horses of detachments from three regular cavalry regiments arrived in Jersey City yesterday from the South. They came over the Pennsylvania railroad. Three of the detachments of men came from Fort McPherson, near Atlanta, Ga. They were composed mostly of recruits for the First regular cavalry and recruits for the two negro regiments, the Ninth and Tenth regular cavalry. One detachment of the Ninth regular cavalry came direct from Tampa, Fla.

Train No. 1 arrived at 4 o'clock in the morning with fifteen cars of horses, one car of camp equipments and one coach containing twenty-one men in charge of the outfit. The seventeen cars were put on Pennsylvania railroad floats and sent to Bay Ridge, South Brooklyn, where the Long Island Railroad took charge of them and sent them on to the camp at Montauk.

Train No. 2 arrived at 5.55 o'clock. It consisted of two baggage cars, with camp equipage, and nine Pullman tourist cars containing detachments for the Ninth and Tenth regular cavalry. There were 190 negro recruits of the Ninth cavalry in charge of Lieutenant Lanning Parsons and fifty-nine recruits of the Tenth cavalry in charge of Major S. L. Woodward.

After the men had eaten breakfast they marched on board a ferry boat at the foot of Bay street, Jersey City, near the freight yards, and were taken to Long Island City, where they boarded a special train for Montauk Point.

Supplies for Montauk

Colonel Charles A. Woodruff of the commissary department has returned from Montauk Point, where he has been for several days arranging for the subsistence of the troops. Colonel Woodruff has been appointed as chief commissary at the camp.

"There will be 70,000 rations there tonight," said he this morning, "which will be ample provision for several days. The troops from Fort McPherson will bring rations to last over Sunday, and before that time the system of sending supplies will be in good working order.

"The first car load of fresh beef, 20,000 pounds, will be sent from Jamaica on Saturday, and the second on Wednesday next. Thereafter a car load a day will be sent. Refrigerating cars will be used. The contracts for supplying fresh vegetables and fresh bread are to be awarded to-day, to go into effect at once. The meat is what is most important, as the men from Cuba will be pretty beef hungry probably."

A Desolate Place

There is nothing to be purchased, and except for the unoccupied cottages belonging to the Montauk Association, there are but three residences to be found for a distance of ten miles. These are known as the First, Second and Third houses. Amagansett, thirteen miles from here, is the favorite rendezvous for would be shoppers and Amagansett has but one store, a combination postoffice, druggist and bargain counter establishment. Without the troopers Montauk Point would be as bleak and desolate as the Cornish coast in midwinter.

Because of the non-arrival of the majority of the necessary tents, about 400 of the 700 troops were last night obliged to roll themselves in blankets and sleep in the open. Many of those who had tents were without cots and other necessaries. They had a tough experience of it, the second night they spent out of doors since their arrival here. The hospital kitchen was finished last evening and a fire started in one of the ranges. Another range was set up and fire was started in it this morning. Six other ranges are to be set up during the day.

The Bids for Battleships

Washington, Aug. 11.—The bids for battleships will be opened by Secretary Long on September 1, as was originally intended. The board of construction has had a meeting and decided to allow the shipbuilders to present bids in the hope that proposals will be received for constructing vessels of 18-knot speed.

This could be done, the experts say, by amending the specifications so far as the machinery is concerned. It would not then be necessary to ask Congress for an additional appropriation. The naval engineers favor entirely new plans, which shall call for ships of greater displacement, 13,500 tons, instead of 11,000 tons displacement; greater speed, 18 instead of 16 knots, and heavier armament, 8 instead of 5-inch guns.

Russia Won't Provoke War.

London, Aug. 11.—Referring to the situation in China, in the House of Commons, Sir Charles Dilke said that Russia was not prepared for war and would make no move in that direction until her success was assured. France and Germany, he said, were closing the doors of their own spheres of influence in China and enjoying the benefit of Great Britain's in other districts.

It was a case of "heads they win, tails we lose." Soon, he declared, China would become one of the string of protected empires surrounding Russia.

London's Lord Mayor Will Sail on Aug 17.

London, Aug. 11.—The statement cabled yesterday that Lieutenant Colonel Horatio David Davies, lord mayor of London, and his daughter, would sail for New York on board the steamship Teutonic on September 17, was erroneous in respect of the date. The lord mayor and Miss Davies will sail on August 17 instead.

Troops Start for Cuba.

Savannah, Ga., Aug. 11.—The Second battalion of the Fifth regiment, United States volunteers, has left for Cuba on the government transport Leona. There are 300 men in the command. Major Money of Mississippi, a son of Senator Money, is of this regiment.

Gen. Grant Off for Porto Rico.

Newport News, Va., Aug. 11.—The Alamo sailed at three o'clock yesterday morning for Porto Rico with half of the First Kentucky regiment and General Grant and staff aboard. The Obdam is still loading.

ANOTHER TOWN YIELDS

Gen. Wilson Plans and Executes a Successful Attack.

SEVEN AMERICANS HURT

Some Sharp Fighting in Which the Spaniards Had Th Chief Officers Killed and All of Their Force Captured Except the Cavalry. Our Losses Seven Men Wounded.

Coamo, Porto Rico, Aug. 9, 12 m., via St. Thomas, D. W. I.—General Wilson took the town of Coamo this morning with a loss of only seven men wounded, all members of the Sixteenth Pennsylvania regiment.

Corporal Barnes of Company E was mortally wounded, Corporal Varnes of Company D and Sergeant Wishart were slightly wounded, Private Frank Whitlock was struck in the groin and Private Clyde Frank was struck in the leg. Privates Jolly and Herbert Lubold, both of whom were shot in the arm, were the others wounded.

The Spanish are known to have lost their commander, Major Yellescas, Captain Ecante, Captain Lopez and nine privates, all killed, and to have had 35 men wounded.

The Americans captured 180 prisoners, practically the whole force of the Spaniards, except the cavalry.

The capture of the town and garrison was neatly planned and splendidly executed. The Sixteenth Pennsylvania volunteers moved to a point off the north of the town last night, and by a forced march of eight miles across the mountains, arrived at the rear of the town about seven o'clock this morning, just in time to cut off the enemy's retreat.

At daylight the Third Wisconsin and Troop C of New York moved by the right flank; and the artillery, supported by the Second Wisconsin, advanced in the center. The Fourth Cavalry took up a position from which it could gallop to the field and sweep the valley leading into the town.

At seven o'clock fire was opened upon the block house, which was hammered with shot and shrapnel. The Spaniards replied with a few shots from their Mausers and then fled. The block house was soon ablaze, and the artillery fire in front ceased at 7.45 a. m.

Almost immediately volley firing was heard in the rear of the town. The Spaniards, in seeking to escape ran straight into Colonel Huling's regiment posted on the hills commanding the road. The Spaniards sought protection in trenches, but they could not withstand the deadly fire. With their commander and two captains killed they were compelled to surrender.

A troop of fifty Spanish cavalry escaped through the mountains, our cavalry being unable to pursue them.

The Spaniards had destroyed the stone bridge across the river Coamo, leading into the town, but it was evident that they were not prepared to make a strong resistance, as no artillery was posted there.

The natives received the Americans with delight. General Wilson immediately after taking the town pushed the Wisconsin troops a mile out beyond, where they went into camp for the night.

Spaniards Glad to Surrender.

Ponce, Porto Rico, Aug. 9, via St. Thomas, Aug. 10.—There is much surprise that the enemy at Coamo did no more damage than to wound seven of the United States soldiers. They had all the advantage at first sight, but they fought punctorily and were not sorry to surrender the town, the houses of which were all shuttered and closed.

Garcia is Fighting

Santiago, Aug. 10, 10 p. m.—Lieutenant Colonel Jane of General Calixto Garcia's staff has just arrived from the front with dispatches announcing the occupation of Gibara, on the north coast of the province of Santiago, by General Garcia's troops.

Gibara was evacuated by the Spaniards. They left behind 1,000 sick and wounded, who are being taken care of by the Cuban commander.

General Garcia, with 8,000 troops, is besieging Holguin, now occupied by the Spanish general Luque, whose surrender has been demanded.

Washington, Aug. 11.—General Luque commanding the Spanish garrison at Holguin, has offered to surrender to General Calixto Garcia. This surprising information was received here in a private dispatch last night.

General Luque commanded a corps. He had 10,000 Spanish soldiers under him at Holguin when the surrender took place at Santiago. Since then his forces have been disintegrating rapidly hundreds going over to the side of the Cubans.

Finding himself without any hope of relief, his soldiers being on the verge of starvation, General Luque has sent to General Garcia a proposition to surrender.

Judge Hayward Nominated for Governor

Lincoln, Neb., Aug. 11.—Senator Thurston was made permanent chairman of the Republican state convention held here yesterday. Senator Thurston's appearance was the signal for applause, which became tumultuous as he referred to the war and the administration of President McKinley.

Nominations for governor brought out the names of Judge M. C. Hayward of Otoe county and Judge Baker of Douglass. Judge Hayward was nominated on the first formal ballot and a recess was taken.

Carranza in Montreal.

Montreal, Aug. 11.—Lieutenant Raymon de Carranza, who was supposed to have sailed for England three weeks ago, in accordance with an order from the Canadian government to leave the country, appeared here again yesterday.

He refuses to say where he has been.

Curzon Accepts Viceroyalty.

London, Aug. 11.—Mr. Balfour yesterday, in the House of Commons, announced Mr. Curzon's acceptance of the viceroyalty of India, in succession to the Earl of Elgin.

SAILING OF THE MARINES.

Capt. Clark Coming from Guantanamo on the St. Paul.

Guantanamo Bay, Aug. 9, 10 p. m.—The Newark, Scorpion, Suwanee and Resolute, with the marines, sailed this afternoon.

The St. Paul has arrived here from Porto Rico, and will proceed to Santiago de Cuba in order to embark troops. Like the St. Louis, which has gone to Santiago, she will embark trops outside the harbor entrance on account of her length.

Captain Clark, formerly of the battleship Oregon, is going north on the St. Paul, owing to bad health. Captain A. S. Barker, formerly of the Newark, commands the Oregon, and Captain C. F. Godrich, formerly of the St. Louis, commands the Newark. The latter, with the Detroit, Suwanee and Scorpion, accompany the Resolute to the Isle of Pines. Captain Goodrich is in charge of the expedition, which will sail to-day or to-morrow. The Niagara's sailing for Key West, via Porto Rico, has been delayed until to-day.

A speedy conclusion of the peace negotiations, one way or the other, is earnestly hoped for throughout the fleet, as the state of inaction and suspense is trying to officers and the men, though the health and discipline of the naval forces are good. There are only 170 men on the sick list out of 5,900 men on the ships in this harbor, and none of the cases is serious.

Chief Engineer C. J. MacConnell, the fleet engineer, of the flagship New York, will go north in a day or so on sick leave. He has been suffering from rheumatism almost since the war began, but has stuck to his duty. The doctors, however, now positively order him home. The splendid work done by the New York's engines, not a single break down being recorded, is largely due to Chief Engineer MacConnell.

THE NEXT MANILA EXPEDITION.

Troops to Sail With Gen King. A Death in the First New York.

San Francisco, Aug. 11.—It may be stated almost officially that the troops to sail Saturday with General King are the Eighteenth and Twenty-third regulars, recruits for the Tenth Pennsylvania and First Colorado, and recruits for one other regiment not yet decided upon, to bring the number up to 1,400 men, which can be accommodated on the transport Arizona. Secretary Alger has telegraphed that the First Iowa regiment has been ordered to Manila.

There are 328 military patients in the hospitals here. Private Harry Reed of Company E, First New York volunteers, has died of pneumonia, the first death in that regiment. The body will be taken to Utica, N. Y.

Company M, Tenth Pennsylvania volunteers, composed of recruits for Companies C and D, now at Manila, has broken out in open mutiny. After the noon meal forty-five men of the full quota of sixty-two informed the acting commander, Sergeant Shaw, that they would not drill on the scant fare furnished them. Sergeant Shaw reported to Lieutenant Colonel Barnett, who promptly ordered all the malcontents under arrest. Up and down the camp they were marched for three hours. They have been stripped of their arms and are guarded on all sides by sentinels from the other companies. A court martial may follow.

WORK ON SPANISH WARSHIPS.

The Maria Teresa He'd by a Rock.

Guantanamo Bay, Aug. 10.—The Badger and the I. J. Merritt have arrived here. The latter, after coaling, will proceed to the wreck of the Cristobal Colon. The Merritt & Chapman wreckers now think the Infanta Maria Teresa is held in position by a rock through her bottom forward, but they expect to haul her off soon.

Washington, Aug. 11.—Assistant Secretary Allen, who is directly in charge of the operations looking to the raising of the Spanish cruiser Cristobal Colon, has not been advised of the return to Norfolk of the third expedition sent down by the wreckers for that purpose. He has not ordered the abandonment of the attempt to save the vessel, and it is conjectured here that the wreckers returned to Norfolk owing to the fear of a tropical hurricane off Hatteras, to which they would be peculiarly exposed owing to the fact that they were towing pontoons and were otherwise unprepared to encounter severe weather. It is believed that they will proceed again as soon as the weather conditions will permit.

New Army Camps.

Washington, Aug. 11.—The war department has under consideration the establishment of army camps at Lexington, Ky., Knoxville, Tenn., and Tryon, N. C. Army officers have been detailed and are now examining into the suitability of these places, and if their reports are satisfactory the camps will be established and orders issued directing various commands now at Chickamauga to move to the new camps.

Ordered to Porto Rico.

Tampa, Fla., Aug. 11.—The doubt relative to the sailing of General Coppinger and the other troops now here to Porto Rico has been practically dispelled by an order for the Fifth United States infantry to go aboard the transport Santiago with all possible speed. Loading was begun at once and the transports will sail to-day.

Secretary Long to Take a Vacation.

Washington, Aug. 11.—Secretary Long has left here for a brief vacation. He will first go to his country home in Hingham, Mass., where Mrs. Long and his son now are. It is not certain how long he will be away, but probably a week or ten days.

Floods In Formosa.

Yokohama, Aug. 11.—Violent storms and floods, it is announced in advices just received here from the island of Formosa, have resulted in the loss of hundreds of lives at Taipeh. Great damage has been done to the property there.

Alger's Aid Sent to Montauk.

Washington, Aug. 11.—Major George H. Hopkins, military aid to the secretary of war, left Washington for Montauk Point last night on special duty connected with the establishment of the military camp there.

FOR THE VACATION SEASON.

Subscribers leaving the city for the summer season can have The Daily Press sent to their new address by notifying the buisness office. The address will be changed as often as desired. "Home news" will prove most interesting while you are away.

COMING EVENTS.

August 14—Rev. Carlos Martyn, D. D., will address the Y. M. C. A. meeting at 4:15 p. m. Subject: "The American Sunday." Fans and iced lemonade will be provided.

After the Tax Shirkers.

When George Gould and sundry other millionaires of New York sought to escape the remorseless and wary tax assessors of New York by taking up their legal residence in New Jersey it is not likely that they reckoned on the Jersey farmer rising up in his wrath and make a condition of affairs the same as they had encountered in New York. But such a thing has come to pass, and very shortly the wealthy New Yorkers will be acquainted with this new idea in Jersey.

The Board of Freeholders of Somerset county, which represents a distinctly agricultural section, has taken the initiative under Senator Reed's law and appointed a committee to visit Ocean county, where many of these wealthy tax shirkers live, and endeavor to show the inequality with which the complacent assessors of that bailiwick record the plutocrats as persons of very modest means. Once brought to the attention ef the proper authorities it is expected that the erring assessors will put a higher and truer estimation on the wealth of those who have heretofore laid the bulk of the taxes on the poor farmer. Thus Mr. Gould and others of his class will be made to wince under the fairness of New Jersey law, slow of coming but severe of stricture when enforced.

If Mr. Reed has succeeded in drafting a law that will bring these wealthy tax shirkers up with a round turn, he will have accomplished something that no other legislator has yet found the key to

Depends on Harmony.

Harmony in the Democratic ranks with good candidates for office, perhaps, would mean the election of a Governor, a Legislature and four Congressmen of their political faith. If party lines were drawn now as they had been six or eight years ago that result would be likely. All depends upon the Democrats themselves as to whether their party is to be returned to power or buried in obscurity as it has been during the last four or five years in New Jersey.

Long Terms Now the Custom.

It is getting to be the custom in New Jersey for Republicans to renominate their Congressmen for third and fourth terms. Formerly no Congressman was given more than two terms. The present Congressional delegation is considered very strong and the Republicans see the wisdom of not making any change in its personnel at the present time. But the Democrats may change it for them.

Nobility For Sale.

The commercial spirit is the great characteristic of the age. To buy and sell in the best market seems to be the spirit of the intellectual and social market as well as that ruling the mart of material products. Many of the phases of this merchandizing are necessary, many are repulsive, and some are ludicrous. Some again are both repulsive and ludicrous. To the latter category belongs the revelation of social rottenness in London made by the speculator and promoter, Ernest Hooley, in his examination before the bankruptcy court. This typical business buzzard was not many months ago reputed to be a multimillionaire, and he has told the story of his rocketlike rise and downfall with a cynical frankness which is naive. The promotion of wind bag schemes, whereby the hard earned money of the great public is beguiled into the pockets of cunning and unscrupulous promoters—that is an old story in every country where speculation is rife. The feature which gives the Hooley confession its vile smack is the shameless indifference with which men of the highest rank and social status have sold their names for great sums to be used as lures to tempt the honest investment of money into worthless or greatly overcapitalized enterprises. The British masses, in spite of their democratic tendencies, dearly love a lord, and the bourgeois class, the shopkeeper and his kind, bow down before him as before an idol. It is easily conceivable, then, that such names may have a considerable financial value on the prospectus of a company. Hooley and his kidney have long known it and worked it as astutely as professional card sharpers. Impecunious noblemen have found it out to the great advantage of their bank accounts. And the public have discovered it, too, with widespread results of misery and disaster.

Of course there is no reason why a man with a title should not go into business as the honest trustee of a stock company. But there are few pieces of disreputable scoundrelism more vicious than the act of one who vends his honorable name as a means of swindling the public. If the Hooley statements are one-half true, and the defense against them seems to be somewhat feeble prevarication, it is time that these titled sharpers should be held to the strictest account. What makes the accusation more plausible is the well known fact that the use of distinguished names as figureheads for a consideration has not been unknown before in London finance. The Hooley transaction is only an extreme case. Noblemen should draw the line with selling their name for millionaire wives.

The Volunteers.

This title does not allude to our gallant fellows who have given America fresh cause to be proud of her heroic children, but to the Volunteers who wage daily and nightly war against "the world, the flesh and the devil." It is said that Ballington Booth, their leader, proposes to abolish all difference in garb which distinguishes them from other American citizens and put them on the basis of ordinary missionary toilers. The boom of the drum, the squeal of the fife and the other fantastic usages which they have in common with the Salvation Army workers are to be discontinued. With the abolition of the picturesque elements of method and appearance one fears that something of the effectiveness of the organization will also go. Mr. Booth, it may be, in his desire to diverge as far as possible from the ways of the organization made by his father and to assimilate his religious machinery to American notions overlooks an important consideration. The special value of the Salvation Army and of the Volunteers who seceded from it is found in its appeal to the lower classes. In this field the reformatory and religious work done has been immense. It is a field which peculiarly needs this grade of missionary influence. Anything which can attract attention and heighten the force of appeal has a peculiar fitness. Grotesque as the whole thing may be from the standpoint of good taste and even of the higher religious intelligence, the fantastical features of these nondescript apostles are well adapted to the end in view. Shorn of them, they would sink to the commonplace. Mr. Ballington Booth risks a great mistake if he plucks the plumes and changes the methods of his marching and singing bands. It was that great man and profound student of human nature, St. Paul, who desired to be all things to all men that he might win souls.

THE SHOT THAT PHILIP ESCAPED.

One of the narrowest and most marvelous escapes recorded in accounts of the fighting in and around Cuba was that of Captain Philip of the Texas. He had but just stepped from the pilot house of his ship when a shot passed through it. Had that shot struck a minute earlier Captain Philip would have been killed.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

Mrs. H. Stevens and Mrs. Stella Stevens, who have been visiting their brother on Grandview avenue, Plainfield, have returned.—New Brunswick Home News.

* * * * *

One of Congressman Charles N. Fowler's friends asserts that the Congressman is a candidate for United States Senator to succeed James Smith, and he says that the Congressman is his authority for the statement. It is probable, however, that Mr. Fowler's address for the next two years will be House of Representatives, Washington, D. C.—Tribune.

* * * * *

When we hear that Union county is to receive not less than $250,000 from ex-Congressman John Kean's syndicate in return for a trolley franchise from Elizabeth to Plainfield, it makes us wonder what on earth the city and county were thinking of when they gave franchises between Passaic and Paterson and Newark for next to nothing. The knowledge that Newark collects $80,000 of a tax upon the receipts in the city of the Consolidated Traction Company, adds to the belief that we did not get all that the railroads would have been willing to give us.—Passaic News.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Disappointment won't be the lot of those who go to Stillman Music Hall tomorrow night with the expectation of seeing a clever, refined vaudeville show, with such cards as John L. Sullivan and the stars he surrounds himself with. Those who have already enjoyed one of its entertainments declare it worth going miles to see. Mr. Sullivan, well understanding that though vaudeville may be the fad of the day, knows, too, that to have it up-to-date he must have the best of performers, and to that end he has engaged such talent as Petching Brothers, musical artists; Begley and Lee, talented comedians; Sarmody, the great club juggler; Lowery and Francis, in an athletic sketch; Miss Irene McKey, the wonderful little lady with two distinct voices, both of rare merit, and Routherfort and May, clever singers and dancers. A pleasing little comedy, entitled "A Trip Across the Ocean," introducing the entire company, also John L. Sullivan in a new role, that of a light comedian. The play is one that anyone may witness without being offended at anything to be seen or heard. This is one of Mr. Sullivan's great points—to have his show clean and above reproach. This being Mr. Sullivan's first visit to our city a big reception will be afforded him.

—The Borough Council seems to be making excellent progress in examining the books of Assessor French. The Council meets every evening and will continue to do so until the work is completed.

Boynton Beach

Great Salt Water Day,

Saturday, August 13.

GOOD BATHING ALL DAY.

Daily Orchestra.

DANCING—Afternoons free. Evenings, 25 cents.

Sunday Afternoon Concerts at 4 o'clock.

Take Advantage of Our Closing out Prices.

On Shirt Waists, Crash Suits, Duck Suits, Pique Suits, Wash Skirts and Summer Goods of all kinds. We are already making preparation for New Fall Goods, and it is imperative that we close out Summer Goods to make room for them. We have several weeks of hot weather before us, and prices will be cut deeply enough to make it an object for you to buy even this late in the season. Of course the assortment of styles and sizes is much broken, but we have many excellent things yet well worthy your attention.

Sundry Good Things.

Careful scouring of the market late in the season has secured sundry special values.

A case of very fine Bleached Ribbed Vests with wing sleeves at 10c per garment is one. You have paid 25c for no better.

An odd case of Scotch Lawns overlooked in stock-taking and consequently almost given away to get rid of (about 4,000 yards of excellent styles) we bought to sell for 3c per yard. Won't last forever at the price.

Still another stunner—a large lot of extra fine Waitress Aprons, LARGE SIZE, at 25c. Real value is 50c.

One of the best things, perhaps, is an assortment H. S. Handkerchiefs in all white, mourning borders, embroidered, etc., at 5c each. We don't hope to get rich selling them, but derive a great deal of satisfaction from knowing we are giving our customers wonderful value.

Wash Goods Reduced.

Scotch Ginghams	that	were	25c	are now	15c.
"	"	"	39c	" "	25c.
French Organdies	"	"	25c	" "	15c.
"	"	"	39c	" "	25c.

And so it is all through the store. Good things in every department being cleaned out every day.

If interested in UMBRELLAS we suggest you take a look through our line. Have received during the past week a fine assortment fresh from the factory.

OUR BASEMENT.

A mecca for housekeepers. Housefurnishings, furniture and carpets. Reliable goods and low prices.

Mason's Fruit Jars.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, August 11.—Prof. Whitney and wife, who have been spending their summer vacation at Deerfield, Mass., returned to the borough yesterday for the purpose of packing their household furniture to have it removed to Deerfield.

The funeral services of the late James Low were held this afternoon from the home of his son, J. Edward Low. Rev. Frank Fletcher, pastor of the Baptist church, officiated. There was a large attendance of relatives and friends. The interment took place at Somerville.

One week from next Sunday Rev. Mr. Skellinger, of Washington, D. C., a former pastor of the Presbyterian church, will preach at the church. Many of his old friends will be glad of the opportunity to hear him again.

It has not yet been decided who will preach at the Presbyterian church next Sunday, and the question as to who will preach at the M. E. church has not yet been settled.

Tonight the Board of Education will meet to consider the applications of a number of persons for the position of principal of the schools.

There will be a meeting of Rockview Council, Daughters of Liberty, next Monday evening, when several new members will be elected.

Mrs. Sherman Cooley and children, of Flemington, are visiting Mrs. Emily Apgar, of Front street, for a week.

The trolley poles in the borough have been painted a dark green, which is preferable to the unsightly red color.

William Craig has presented his son, Arthur Craig, with a handsome new wheel, of which he is very proud.

R G Crandall, of North avenue, who has been visiting New York friends, has returned home.

Mrs. J. W. Griggs is visiting her parents, Mr. and Mrs. P. A. Staats, of North avenue.

Squire Luckey and family have been visiting Plainfield friends for a time.

George Diamond, of Bayonne, is visiting Isaac Stites for a few days.

Work on the trolley was stopped yesterday on account of the rain.

Mrs. Giddes has returned from a visit with friends in Plainfield.

Mr. Bird has been visiting out-of-town friends for several days.

NEW MARKET.

(Special Correspondence of The Press.)

New Market, August 11.—The Middlesex County Board of Elections held a meeting at New Brunswick yesterday afternoon for organization, preparatory to the fall elections. All the members were present. They were H. H. Brown, of Old Bridge; Dr. J. L. Suydam, of Jamesburg; St. George Kempson, of Perth Amboy, and J. L. Elmendorf, of New Brunswick. H. H. Brown was elected chairman, and J. E. Elmendorf secretery. The board will meet again on August 23, when the election officers for the county will be appointed from the lists furnished by the two county executive committees.

PLAINS AND FANWOOD.

(Special Correspondence of The Daily Press.)

Scotch Plains, August 11.—Mrs. J. P. Stevens, of Fanwood, is summering among the Massachusetts hills.

Scotch Plains residents do not seem to be very much agitated over the action of the Plainfield Common Council in granting a franchise to the trolley people by way of Richmond street. They take it for granted that the road is coming anyway. So they thought there was no use in showing any surprise when it was granted.

Mr. and Mrs. Robert Radford, of Plainfield, are spending a few days with their daughter, Mrs. T. M. Paff, Sr.

Ira Gage Walker has been entertaining his brother from New York

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

E. E. Runyon, of Madison avenue, left this morning to join his family at Asbury Park.

J. S. Johnson, of Woodhull & Martin's, is spending his vacation at his old home in Hackettstown.

Patrolmen McCue and Flanagan were off duty yesterday and they report having had a good time.

Miss Jennie Frentz, of Scotch Plains, is visiting her sister, Mrs. Frank Putnam, of Elm place.

W. A. Freeman, of Plainfield, is registered among the patrons of the Delevan House, at Sayville, L. I.

Will Hartpence, one of Manager Mills' U. S. Express drivers, is keeping bachelor's hall, his wife having gone to Asbury Park this morning for a couple of weeks.

Among the lecturers at Chautauqua this season is Rev. B. Rush Rhees, Professor in the Theological Seminary at Newton, Mass. Professor Rhees was a Plainfield boy and has relatives and many friends here.

Victor Christofferson, of Passaic, visited Plainfield friends yesterday. He was a former resident here, but moved to Passaic several months ago to accept a position with an electrician there. Next week he will start in permanently with the Passaic Electric Light Company.

State for several days.

Cory Johnson and family are spending two weeks with relatives in New York.

Mrs. George Stiliger had a night blooming cereus in bloom last evening.

Twilight Council, Junior O. U. A. M., meet in their room tomorrow evening.

Roger Haskard is spending a few days with his brother in Plainfield.

Miss Fanny Haskard is enjoying a two weeks' vacation.

WESTFIELD.

(Special Correspondence of The Press.)

Westfield, August 11.—The residents of Mountain avenue are talking of organizing an association to be known as the Mountain Avenue Preservation and Improvement Association. Although the to-be members refuse to state what the purpose of the organization is, it is supposed that it is for the purpose of protesting against the granting of a franchise to any trolley company which may wish to run their tracks through this avenue. The Westfield and Elizabeth Street Railway Company now has consents to run to Rahway, and it was the purpose of the company to run from here to Springfield, via Mountainside and Mountain avenue. Mr. Gaddis stated at a meeting of the Township Committee held recently that he had most of the consents on Mountain avenue. This cross-town line would be a great benefit to the traveling public, as it would connect with five railroads, the New Jersey Central, the Pennsylvania, the Lehigh Valley, the New York and Long Branch and the Delaware, Lackawana and Western Railroad. All the business men of the town are in favor of granting any franchise for a line over this route.

Friday evening, August 19th, has been set as the time for the public hearing on the petition of the Westfield and Elizabeth Street Railway Company for a franchise for a trolley road through the township.

The work of repainting and decorating the Methodist church has been completed, and this old house of worship now looks bright and cheerful.

LINCOLN.

Lincoln, August 11—Thos. Wrench has been busy during the past few days completing details for the opening of a temperance hotel in the building formerly occupied by the Mayor, who has moved to more commodious quarters further west on the Boulevard.

James Donnelly, superintendent of the Lehigh Valley Railroad, was a visitor at the Mayor's office Wednesday, and no doubt his visit augurs well for a siding on the south side in the near future, now that two factories are nearly completed there.

How's This.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Former Mayor Alexander Gilbert is home from his vacation.

Harry Cuming, of Putnam avenue, is visiting in Philadelphia.

Patrolman Saffron is now doing day duty in the West End of the city.

Henry Richards, of Prescott place, is spending the week in Atlantic City.

Miss Ida Dunham, of Arlington avenue, is visiting Miss Wilbur, at Noank, Conn.

Mr. and Mrs. Alexander M. Runyon, of Madison avenue, are at Asbury Park.

Miss Angleman, of East Front street, is spending three weeks at Asbury Park.

Miss Moynihan, of the Trading Stamp store, has been onjoying a vacation.

Andrew Cox, of Liberty street, has returned from a visit with relatives at Orange.

Harry Rogers, of West Front street, will go to Jersey City tomorrow for a short time.

Miss Nellie Brown, of Dunellen, has been visiting relatives on East Fourth street.

Miss Etta Neuman, of East Fifth street, has returned from an outing at Long Branch.

Horsely Barker, of Grove street, has recovered from a severe sick spell of short duration.

Mr. Becker, of Somerset street, has resigned his position with J. R. Blair, of Park avenue.

Miss Josie O'Brien, of Troy, who has been visiting Plainfield friends, has returned home.

Miss Nellie Schutt, of Duer street, leaves shortly to spend several weeks at Asbury Park.

J. C MacClymont and wife, of Washington avenue, have returned from their summer outing.

Howard Armstrong, of Brooklyn, is visiting at the home of Mrs. L. J. Denton, Prospect Hill.

George Proctor Smith, of Putnam avenue, is spending his summer vacation at Warwick, N. Y.

Miss May Hughes, of White's dry goods store, will return from her two weeks' vacation this week.

Mrs. William N. Tier, of Bank place, who has been visiting Brooklyn friends, has returned home.

Mr. and Mrs. Daniel Ginna, of Watchung avenue, will spend their summer vacation in the White Mountains.

Clarence Thorn, of East Second street, has returned from Asbury Park, where he has been for a few days.

Miss Sadie Randolph, of West Eighth street, left yesterday for Asbury Park, where she will spend her vacation.

Mr. and Mrs. J. L. Mooney, of South Second street, are entertaining Miss Margaret Bonnel, of New London, Conn.

R. A. Becker, of Central avenue, has leased Lawyer Charles L. Moffett's new house in Westfield, and will move there soon.

Mrs. Fred E. Smith, of West Fourth street, accompanied by Helen and Fred E. Jr., go to Asbury Park today for a couple of weeks.

Rev. Charles Dunn and family, of Freeport, Ill., are stopping with Mr. Dunn's parents, Mr. and Mrs. Solomon Dunn, of Park avenue.

Mrs. John Wehrly and family, of Somerville, who have been visiting Mr. and Mrs. C. H. Rugg, of Fairview avenue, have returned home.

Dudley S. Miller and family, of Orchard place, will leave next week for Seabright, where they will spend a portion of their summer outing.

Next Sunday Rev. Mr. Steelman, of Illinois, will again preach at the Park Avenue Baptist church. His sermons last Sunday were much enjoyed.

Rev. Dr. D. J. Yerkes, of West Seventh street, left yesterday for Saratoga, where he will spend several weeks. He will be registered at Congress Hall.

Mrs. Biswanger, J. H. McVey's daughter, is recovering from an operation performed recently. There now seems to be no doubt but what she will entirely recover her health.

Fred Sebring, of Division street, who was hurt in an accident at Newark two weeks ago, as told in The Press, is not yet able to take his position in William H. Rogers' on account of a sprained foot.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—There will be an important meeting of Perseverance Lodge, Knights of Pythias, tomorrow evening.

—Surface drainage pipes are now being laid from West Front street and Giraud avenue to Green brook.

—Patrolman W. R. Mattox has been placed on day duty, and he covers a good deal of ground with his wheel.

—It is very gratifying to the borough officials to see how promptly many of the delinquent taxpayers are settling their accounts.

—Tomorrow evening there will be a meeting of the members of the New Jersey Central Building and Loan Association in the Board of Trade rooms.

—Frank Hedden recently received a fish-hawk from a man at Barnegat, with directions to mount it for him. The bird measures eight feet from tip to tip.

—There will be a meeting of the Councilmanic street committee this evening to discuss the new trolley ordinance preparatory to its introduction in the Council.

HEEDED NOT DARK CLOUDS.

Methodist Excursionists Off for Seashore Despite Threatening Weather.

Threatening weather made no difference to the Methodist Sunday-school excursionists this morning, for, in spite of the tendency of the clouds to pour down heavy showers every minute, a large number were at the depot early to take the train.

The excursion train pulled up as usual, but at 8 o'clock, the time scheduled for it to leave for Asbury Park, only five of the fourteen cars were filled. But between that time and 8:20 o'clock, when it finally pulled out, all the cars were filled although no one seemed to know where the people had come from.

Preparations were made to carry a much larger number, and this excursion, always a popular one, bade fair to be the largest of the season, combining, as it did, the Sunday-schools of the First, Monroe Avenue and Grace Methodist churches. The excursionists leave for home at 5:30 o'clock.

ABUSED HIS SISTER.

William Saunders Will Think Over His Mean Acts in Jail.

William Saunders, of West Third street, who was arrested last night on complaint of his sister, Mrs. George Cassett, who said he had been abusing her and calling her names, admitted all the charges that his sister made, saying that "he guessed it must be all so." He was fined $10 or thirty days.

Mrs. Cassett has made a home for her brother and he has repaid her by heaping abuse upon her head and calling her vile names. Last night she stood it as long as she could, then when it became more than she could bear, she sallied out and meeting Officer Myers asked him to arrest her brother. He went to jail.

Honeyman Tourists Home Again.

The Honeyman party that has been touring through England, Scotland and Wales, returned to New York last Tuesday evening, and Mr. Honeyman arrived in Plainfield yesterday morning. The party left New York on the outward journey June 23d, and had a thoroughly delightful trip both ways. Mr. Honeyman will leave Plainfield next Monday with a party to make a tour of the Great Lakes. The start will be made at 12 o'clock noon from New York by Lehigh Valley "Black Diamond Express," and will return to New York Saturday, August 27th.

Real Estate Transfers.

The following real estate transfers have been recorded in the Somerset County Clerk's office during the past week:

Tunis J. Carey to Marion C. West, North Plainfield, $1. William J. Hudson et al to Plainfield B. and L. Association, North Plainfield, $1. Fred G. Johnson et ux to Plainfield B. and L. Association, North Plainfield, $1,000. William H. Baker et ux to Goldson W. Smalley, North Plainfield, $1,000. Nellie P. Lyman and husband to Robert Clark, Jr., North Plainfield, $1. Robert H. Cook et ux to Charles J. Fisk, North Plainfield, $1. Robert H. Cook et ux to Charles J. Fisk, North Plainfield, $1.

Edward White.

THE WOMAN'S WORLD

A Portable Wardrobe.

A lady going abroad has made herself what she calls a portable wardrobe. She frankly says that the idea is not original with her, but is an English notion, and that she has only copied an article which she once saw in London. The thing is so convenient and easily made, and the woman who travels or who in summer has a room in the average boarding house with the usual lack of closet space, may be glad to know exactly how this portable wardrobe is designed.

It is made of a large piece of waterproof cloth or canvas such as one sees used for gun cases, game bags and men's mackintoshes. This piece is five feet long by four wide, and is lined with brown holland. On the right and left sides of the canvas are stitched flaps of holland like the lining, each flap being the same width as the canvas and a little over half as long. Across the top of the canvas is fastened a rod with dress hooks. The wardrobe is hung against the wall with the rod at the top, gowns are suspended from the hooks and the flaps are then fastened over the gowns which are thus securely protected against dust and dampness.

At the back of this canvas dress preserver are straps and a handle attached, after the fashion of a shawl strap. When the owner of the dresses wishes to travel, she spreads her portable wardrobe on the bed, lays her skirts and waists in smoothly, buttons the flaps, rolls up the whole thing, straps it securely, and behold! it is ready to be carried or checked to the owner's destination.—Harper's Bazar.

Children With Nerves.

A word about nervous children. Of course there might be none, but there are thousands. Never scold them nor "make fun" of them. They suffer enough without your threats or sarcasm. Pretend not to see their awkwardness when in company, nor their grimaces when alone. A case was discussed the other day of a boy of ten years old, who, on being vexed, and often without any apparent provocation, will clench his hands and make the most frightful contortions of the muscles of his face and head. His poor mother fears he is idiotic. By no means. He is the brightest boy in his class at school, fond of reading and of natural history, but he is of a highly nervous temperament and has not been taught to control the little wires, so to speak, on which he is strung. This is no single case. There are thousands of children who give way to their nerves in a like fashion. Talk to them about these curious little fellows that should be their servants, not their masters. Never chastise them. The man or woman who chastises a nervous child is on a level with brutes that have no reason. Encourage them. Help them. Be patient with them. They are the making of our future successful men and women, for they will work hard at whatever they undertake. Brace up your own nerves first and then be indulgent toward the capers of your over-nervous children.—London Mail.

Expensive Cooking Utensils.

There is no better proof of the increased interest that women are taking in culinary matters than the dainty and costly cooking utensils to be found at the house furnishers. A saucepan made of the best copper, silver lined, and costing $42, tells its own story. Never before in the history of house-furnishing goods has an assortment of culinary ware so expensive been put on the market. There are long handled frying pans of the best grade of copper, lined with silver, and costing as much as most people would give for a handsome sugar dish or a piece of bric-a-brac for the drawing room. Dainty little stew pans cost from $4.40 up to $12.50, according to size. The smallest are hardly larger than a muffin ring. There are water boilers just as shapely and costing just as much as a handsome vase or drinking cup, and what women would be inclined to class as "dear little receptacles," of make and quality so fine that terrapin stew made in them can be set before the diner in the same vessel that it is cooked in. Yet a half dozen of these terrapin stew pans, made of copper and silver lined, cost $20—fitting holders for food so rare and far famed as Long Island and Chesapeake terrapin at $3 and $5 apiece.—New York Sun.

To Oversee Music Practice.

A young girl who is studying with one of the best known pianists has hit upon a plan to perfect herself in methods of teaching by going from house to house and supervising the practicing of her teacher's younger pupils. She is a sort of travelling musical governness. This is not only a great help to her in her musical studies, but also a great advantage to beginners and to their parents. The great burden of responsibility for musical progress of their children rests upon the parents. For, no matter how great the teacher, he cannot enforce practicing when he is absent.

Many parents do not understand music, and so they do not know whether their children are practicing their music correctly or not. In the latter case they are perhaps acquiring habits which will retard their musical progress. And so the student governess has found a niche which has been waiting for her for some time.—New York Sun.

SALVATIONIST A NUN.

MISS SUSIE F. SWIFT WILL TAKE THE BLACK VEIL.

Is a Graduate of Vassar College and After Becoming a Brigadier In the Salvation Army Joined the Catholic Church. Will Enter the Sacred Heart Monastery.

Miss Susie F. Swift, formerly a brigadier in the Salvation Army, whose conversion to the Catholic faith a year and a half ago caused a commotion in the army, is about to devote herself to a religious life by retiring from the world and entering a convent. Miss Swift is the daughter of a lawyer of Poughkeepsie and is a graduate of Vassar college. After graduation she went to Morristown, N. J., to teach higher mathematics and English in a girls' school there. On account of illness she went abroad afterward for rest. While in England she became interested in the work of the Salvation Army, and she attended the army training school in the east end of London. There she became the editor of All the World, the organ of the Salvation Army, and in that capacity traveled on three continents and spoke in many countries. She had charge of the work among the waifs of London and opened the Newboys' home in Fleet street.

At the time of the split in the Salvation Army in New York Miss Swift had charge of the Auxiliary league in England. She volunteered to come to the United States, an example of one American who had been contented under the rule of General Booth, and was ordered to sail immediately as secretary to Miss Eva Booth. Here she was retained as the national auxiliary secretary.

"It was in my work in the Auxiliary league," said Miss Swift at the time of her conversion, "that I was naturally forced to examine more closely the grounds of my own faith, coming, as I did, in contact with hundreds of inquiries and with ministers of all denominations. Before that I had been so busy at the work of the Salvation Army that I had little time for reflection. I had always regarded the army as a mission and not as a church or denomination. Of course I had always been familiar with the main teachings of Roman Catholicism, but when I came to examine I grew satisfied that Christ did establish a visible church on earth and that the Catholic church was that visible church. For that reason I embraced the Catholic faith."

Miss Swift found her new faith in the Paulist church, and she went under the instruction of the fathers of that order previous to her final submission. When fully determined as to her course, she left the United States to go to London to notify General Booth. While in Liverpool she partook of the holy communion in a Catholic church, the first Salvation Army member to go before a Catholic altar. In London her friends of years in army work begged her to renounce her intention, but she remained firm in her purpose and changed the uniform of a Salvation Army lassie for the ordinary dress of a woman.

On her return to New York Miss Swift resumed literary work, accepting a place in the office of The Catholic World Magazine, published by the Paulists. She devoted herself heartily to her duties and became a devout member of the parish. For a long time the desire to enter a convent had possessed her, and she finally determined to enter the mother house of the congregation of St. Catherine de Ricci of the Third Order of St. Dominic, a famous American convent at Albany. This convent was established in 1880 by Lucy Eaton Smith, daughter of Edwin Smith of New York, who was a civil engineer and was widely known for his work in connection with the laying out of New York city in the first half of the century. In some respects the work of these sisters resembles that of the French Order of the Ladies of the Cenacle, a congregation of nuns which was established in New York a few years ago.

Life at the monastery of the Sacred Heart, which name the convent bears, is not as austere or restricted as that in the houses of the nuns of the Second Order of St. Dominic, whose devotees are altogether shut out from contact with the outer world in their cloisters, like those in the Corpus Christi Convent of the Perpetual Adoration at Hunt's Point, New York. The sisters live what is known as a "mixed life." They do not go away from their own grounds, but the world comes to them freely.

Miss Swift will enter upon the life of a religious in the latter part of August. She said recently, when asked about her contemplated withdrawal from the life of the world, that her doings had little of interest for the general public, and that only a few friends would give the matter a thought. She said she would enter the convent with the purpose of studying, in the hope that she would some time be fitted to give spiritual instruction and retreats to women. She will enter the monastery as a postulant and will undergo a novitiate of one year, at the end of which period she will assume the white veil. The black veil will be taken at the termination of the second year. Then will follow a period of five years in the life of the convent, at the end of which perpetual vows are taken.

"The community there," she said, "devotes itself to the mental and spiritual uplifting of women of the world. It is a hospital for sick souls. Although the sisters do not mingle with the world, the world comes to them, and every evening the place is full of those who have come for religious instruction and help." Mother de Ricci, the foundress of the congregation, who took the religious name of the patron saint, died in 1894, and Mother M. Loyola, O. P., the present prioress, succeeded her. Miss Swift is deeply attached to Mother Loyola.—New York Sun.

AN AGED PRIEST.

Father Parsons Has Completed His Seventy-eighth Year and Still Officiates.

The Rev. William D. Parsons, chaplain of the Mount de Sales Academy of the Visitation, conducted by sisters of the Order of Visitation and situated near Catonsville, Md., is 78 years of age. He is the oldest Catholic priest in point of service in America. On July 6, 1895, he completed the fiftieth year of his service in the priesthood. Father Parsons' many friends, both the clergy and laity, were desirous that his golden jubilee should be celebrated with imposing ceremonies worthy of such a notable event, but with his characteristic modesty he was immovable in his decision that there should be no public services on the occasion.

Although infirm in body, Father Parsons' mind is active, and he converses with fluency and relates many interesting anecdotes of his early days. Speaking of his active sympathy with the south during the war, he said it was always misunderstood. He never favored slavery, but advocated the freeing of the slaves gradually by peaceful means. Father Parsons is a typical Maryland gentleman of the old school. As a priest, he is loved for his piety, kindness and charity. He has devoted all of his private fortune to benevolent purposes.

A touching incident is related of Cardinal Gibbons' respect for Father Parsons. When a bishop visits a priest's house, it is always customary for the latter to kneel and receive his superior's blessing. When the cardinal visits Mount de Sales, he never allows Father Parsons to do this, but kneels down himself and invokes the venerable priest's blessing.—Baltimore American.

MISSIONARIES IN HAITI.

Strong Influence of the French Catholics In the Black Republic.

A correspondent of the New York Tribune writes gloomily in a recent issue of "Life In Haiti," but has these good things to say of the Catholic church and her religious orders: "There is not a more dominant influence in the Black Republic than that of the Catholic church as exercised through the French priesthood, through the religious orders of both men and women, whose schools and charities, admirably conducted, are centers of beneficent influence. So trying is the climate and so exhausting is the labor of the French missionaries (for the spiritual care of Haitians is no trivial task, nor the education of Haitian boys and girls—even those of better class) that a system has been established by the mother church of calling home the missionaries after three years' service and giving them successors trained by themselves for the work. The community houses of these religious orders, their walled in gardens under the great palm trees, the methodical, scholarly, peaceful life of the brothers and sisters in the midst of squalor and revolting degradation, make bright spots in a somber picture, and therein lies the secret of prosperity of the Catholic missions. When the Protestants have learned to gather their coworkers as families into community houses, making these head centers missions for charitable and educational influence and keeping the control of the mission in the hands of the white race, then the Protestant missions may bear comparison with those of the Catholic church, but hardly before."

Protestant Tribute to Leo XIII.

In a recent sermon the Rev. Dr. Parker, pastor of the South Congregational church of Hartford, said: "Again, as a Christian and Protestant minister, I wish to say that I regard with unbounded pride and gratitude that venerable prelate, the Roman pontiff, for the strenuous, noble and magnificent efforts he has made in his old age to avert war. The head of a church numerous and powerful in almost every land, he has shown himself to be animated by the spirit and actuated by the principles of that Lord to whom all Christians profess allegiance. He has crowned himself with unfailing honor. Not only they who believe him to be the vicar of Christ on earth, which we do not, but all who profess and call themselves Christians, may well do him their homage and reverence. Would to God that the leaders of the churches other than the Roman church had spoken and acted as he has!"—London Tablet.

Catholic Church Notes.

The St. Vincent de Paul societies during 1895-6 distributed nearly $2,000,000.

During the recent disturbances in Sierra Leone ten missionaries were murdered.

The Irish Rosary is the name of a new magazine conducted by the Dominican fathers of Ireland.

The conversion to Roman Catholicism of Mr. Justice Hawkins has excited considerable interest in England.

Mr. Patrick Donnelly of Waterloo, England, near Liverpool, has left over $50,000, most of which falls to the Catholic charities of Liverpool.

Mgr. Chisholm, rector of Blairs college, Aberdeen, has been appointed vicar capitular of the diocese of Aberdeen, vacant by the death of Bishop Macdonald.

The Rev. Patrick Dunne, principal of St. Patrick's college, Jaffna, has published through the St. Joseph's Press, Jaffna, an adaptation of Pitman's shorthand to the Tamil language.

The Franciscan order has charge of 150 parishes in the Philippine islands. They belong to the province of St. Gregory, from which the glorious martyrs SS. Peter Baptist and companions left for Japan to meet their death in 1597.

There are some old Catholic families in China. Tching-ta-jen, the new Chinese embassador to France, is a Catholic who comes from a family which was converted 200 years ago and has adhered to that faith ever since.

Lokal-Nachrichten aus der alten Heimath.

Provinz Ostpreussen.

Königsberg. Die hiesige Strafkammer verurtheilte den Regierungshauptkassenboten Hellwig, welcher aus dem Haupttresor in mehreren Fällen zusammen 32,000 Mark in Goldrollen stahl und dafür Rollen mit minderwerthigen Geldmünzen unterschob, zu fünf Jahren Gefängniß.

Insterburg. Eine Wasserhose wurde dieser Tage im Insterthal von dem Fischereibesitzer Urbschat-Abschruten beobachtet. Eine gelbgraue Wolke zog mit starkem Sturmwind im Westen auf, das im Insterthal recht hoch stehende Ueberfluthungswasser bei Sprindt begann sich auf der Stelle des Flußlaufes in rotirende Bewegung zu setzen und einen sich mehr und mehr erhebenden Kegel zu bilden, während die Wolke sich in umgekehrter Kegelform herabzusenken begann. Unter sausendem Geräusch stürzte das Phänomen nach kurzer Zeit am flacheren Uferstrand zusammen. Bisher sind übrigens nur zwei ähnliche Fälle auf den masurischen Seen bekannt geworden.

Provinz Westpreussen.

Danzig. Wegen Körperverletzung im Amte verurtheilte die hiesige Strafkammer den Fischereiaufseher Stenzel aus Schlewkau zu zwei Jahren Gefängniß. Stenzel hat bei Beaufsichtigung des Radunesees einen Bauernsohn ohne Grund angeschossen, so daß dieser lebenslänglich zum Krüppel geworden ist.

Elbing. Kommerzienrath Ziese hat anläßlich des Jubiläums 100,000 Mark für eine Arbeiterwohlfahrtsstiftung geschenkt.

Flötenau. Die Altsitzerin Schöltan wurde in ihrer vollständig ausgeraubten Wohnung ermordet aufgefunden. Ein der That Verdächtiger ist bereits verhaftet.

Rheinprovinz.

Aachen. Die kürzlich verstorbene Frau des Werkmeisters Blees fügte dem früher von ihrem Gatten der Stadt Aachen gestifteten Kapital von 200,000 Mark weitere 100,000 Mark hinzu. Nach dem Willen der Stifter soll die Gesammtsumme für künstlerische und musikalische Zwecke verwendet werden.

Bodenbach. Der Spinnereibesitzer und Waffenfabrikant Biegel, Inhaber zahlreicher Ehrenämter, ist unter Mitnahme einer großen Geldsumme mit seiner Geliebten flüchtig. Seine Ehefrau, Mutter von vier Kindern, hat sich vor Gram das Leben genommen.

Gemünd. In der Nähe von hier fanden Landleute auf einem Baum einen Luftballon, in dessen Gondel sich drei völlig erschöpfte Franzosen befanden; sie waren in Lille in einem Fesselballon aufgestiegen, der sich losriß. Seine Insassen wurden nach dem Kloster Maria-Wald geschafft.

Provinz Sachsen.

Magdeburg. Neulich Nachts brach im Friedrich Krupp'schen Grusonwerke Feuer aus, das die umfangreichen Gebäude der großen Montage gänzlich zerstörte. Es gelang jedoch, die anstoßenden Gebäude der Geschoßdreherei, Abtheilung Rumänien, zu erhalten. Der Schaden wird auf 1,000,000 Mark taxirt. Achtzehn Versicherungsgesellschaften haben den Brandschaden zu ersetzen. Die durch Störung des Betriebes brodlos gewordenen etwa 250 Arbeiter sind inzwischen schon in anderen Abtheilungen des Grusonwerkes untergebracht worden.

Erfurt. Die hier stattgehabten neun Aufführungen des Gustav Adolf-Festspiels haben circa 12,465 Mark an Einnahmen gebracht, die Ausgaben belaufen sich auf etwa 9460 Mark, der Ueberschuß beträgt demnach 3005 Mark, der in kleineren Posten an verschiedene evangelische Zwecke zur Vertheilung kommt.

Provinz Schlesien.

Hirschberg. An der Lehne der „Sturmhaube" im Riesengebirge ist in einer wilden Felsschlucht eine heilkräftige Quelle entdeckt worden, deren Wasser nach Meinung von Fachverständigen von außerordentlicher Wirkung ist. Es ist stark eisen- und kohlensäurehaltig. Aus der unzugänglichen Schlucht muß das Wasser 200 Meter gehoben und an manchen Stellen über steile Felsen geleitet werden. Die Vorbereitungsarbeiten haben bereits begonnen.

Pleß. In der schlesischen Sprengkapselfabrik zu Alt-Berun erfolgte eine Explosion von Dynamitpatronen, durch die ein Arbeiter und mehrere Arbeiterinnen schwer verletzt wurden.

Provinz Schleswig-Holstein.

Altona. In Ottensen wurde ein Handlungskommis bei Verausgabung eines falschen 5-Markscheines verhaftet. Die Nachforschungen führten zu der Entdeckung einer Falschmünzerwerkstätte in der Eimsbütteler Chaussee, wo Lithographiesteine zur Herstellung falscher 5-Markscheine und Zehnpfennigpostmarken gefunden wurden. Falsche Postmarken und 150 falsche 5-Markscheine wurden beschlagnahmt.

Kiel. Angesichts des Kohlenmangels im Pachtgebiet Kiaotschau sind bisher annähernd 10,000 Tonnen Kohlen, fast ausschließlich deutscher Produktion, nach Ostasien abgegangen. Die ersten Ladungen wurden auf Veranlassung der Reichsregierung abgesandt. Neuerdings hat die Kieler Firma H. Diedrichsen den Transport übernommen und beabsichtigt, einen ständigen Verkehr zwischen Deutschland und Kiaotschau herzustellen.

Provinz Westfalen.

Dortmund. Der Oberpräsident hat die Verordnung über das Blenden der Schaufenster an Sonntagen aufgehoben.

Hagen. Der Bau einer festen Rheinbrücke Wetter ist endgiltig beschlossen und der Eröffnungstermin auf den September 1899 festgesetzt worden.

Riesenbeck. Die erste Schiffsladung auf dem Dortmund-Ems-Kanal ist hier eingetroffen. Dieselbe bestand aus sieben Doppelladungen Bauholz. Die Ladung, für deren Beförderung auf der Eisenbahn 225 Mark hätten bezahlt werden müssen, kostete an Fracht 105 Mark.

We Insure Your Shirts.

We are the first laundry in the U. S. to advertise in the daily papers, guaranteeing not to spoil colored shirts in laundering them, and backing that guarantee up with a promise to pay for all we spoil. Another Victory.

In Plainfield—This Comes from West Front Street and Endorses What Others Are Saying.

The wonderful success of the "little conqueror" has astonished our citizens. All over the city people are talking about it. At first many wise heads were shaken and doubters were numerous. This is not surprising as so many claims have been made under similar circumstances with nothing to back them. In the face of these difficulties the work has gone steadily onward, until now the public are showing their appreciation and the endorsement of our citizens right here at home drives away the doubts of every skeptic. Here's another victory that has stood the test of time.

Mr. Jepp Zensen, of 728 W. Front street, Pattern Maker by trade, says:— "For the last year I was troubled with symptoms of kidney trouble. A sort of grinding pain across my back at times extended up to my shoulders and there was a lameness over my kidneys and severe headaches. When I stooped I always felt dizzy and sometimes was fairly blinded. In the mornings I felt stiff and sore until I got some exercise. I saw Doan's Kidney Pills advertised in my city paper and so highly recommended for kidney complaint that I went to L. W. Randolph's drug store and got a box. They did me a great deal of good. I am ever so much better. The pain in my back seldom if ever troubles me now and the headaches and dizziness have left me entirely. From my experience with Doan's Kidney Pills I cannot do otherwise than endorse them."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S.

Remember the name Doan's, and take no other.

Corporation Notice.

Proposals for the Installation of a New Hot-Water Boiler and Alteration in the Old System in Fire Headquarters Building on East Second Street.

Pursuant to resolutions of the Common Council of the City of Plainfield, adopted August 1, 1898 and August 8, 1898, notice is hereby given that the Committee on Fire and Buildings will meet on Monday, August 15, 1898, at 8 o'clock p. m., at the Chief Engineer's office, Fire Department Headquarters, on East Second street, in the city of Plainfield, at which time and place said Committee will receive sealed proposals for doing the work and furnishing the materials for the installation of a new hot water boiler and alteration in the old system in said fire headquarters building according to the plans and specifications now on file and open to the inspection of bidders in the office of the city clerk, No. 109 Park avenue, Plainfield, N.J., the work to be completed on or before September 15, 1898.

Upon receipt of the bids or proposals, the said committee will immediatly proceed to unseal the same and publicly announce the contents in the presence of the parties bidding or their agents, provided said parties or agents choose to be then or there present, and also make proper record of the prices and terms upon the minutes of the Committee.

Each proposal must be accompanied by a certified check for $50, payable to the treasurer of the city of Plainfield. Copies of the plans and specifications may be had upon application to fire headquarters on East Second street.

The right to reject any or all bids is expressly reserved by the said committee.

All proposals should be endorsed "Proposals for New Hot Water Heating System for Fire Headquarters."

WILLIAM N. RUNYON, Chairman.
Committee on Fire & Buildings.

A Circle in the Sand

By Kate Jordan

Author of "The Kiss of Gold," "The Other House," Etc., Etc.

COPYRIGHT 1898, BY THE AUTHOR

CHAPTER I.

The office boy stood beside David Temple's desk, a slip of paper on which a name was written in his hand. He knew better than to interrupt the editor when his pen was racing in that aggressive way, so he stood fingering the bit of pink paper with grimy fingers while speculatively regarding a fly running unmeaning races from a dusty map of the United States to the big ink bottle occupying the center of a very untidy desk.

The day was breathless and humid. From the earliest hours of the morning the sun's rays had swept the streets like destroying glances from a malevolent eye. The dusty, ink spattered offices of the New York Citizen were stifling. Beyond the open windows could be seen sun baked roofs, spires and chimneys swathed in a hot mist. Every man in the editorial rooms was in his shirt sleeves. Some had discarded moist collars. All were working hard.

David Temple laid down his pen and glanced over the hastily written page, his expression determined.

"That'll make them hum," he said, and without looking up he touched the bell, at the same instant becoming aware of the boy beside him.

"Here you are. Take this down, Pete, just as fast as you can. Eh? What's this? Some one to see me? All right. Tell them to wait. Come back at once."

He picked up the paper, the kind in use in the office, bearing the directions: "Name ——. State business." "Anne Garrick" was written in lead pencil upon it. The latter request was unheeded.

David laid it down, lit a cigar and went over to the window. It was a still, maddening day; the horses toiled between their shafts; the springs of life moved wearily even on Park row. He looked at his watch. It was half past 4. At 6 he was due at the Players' to dine with an actor who by means of a haunting voice and a pair of fine eyes enjoyed an income that equaled the vice president's. He had promised to go to a dance on board a yacht anchored in the sound. He began to wish he could escape the latter and instead find his way to the hammock on his roof top, where he could smoke under the stars. At 36, with hair whitening, he was getting past dances.

"The young lady"— commenced Pete timidly at his elbow.

"Oh, there is a lady. I'd forgotten. Show her in," and he slipped on the alpaca coat lying across the chair.

The swinging door was pushed back, and Anne Garrick came toward him. She seemed in the first inattentive glance tall, slenderly made, her face showing marks of care or illness, yet pretty enough to be interesting. Her eyes were long, very bright, yet soft, and they were a deep brown, like her hair. Her gown was of mourning cloth, and she wore a black sailor hat.

David drew a chair forward for her, and seating himself opposite let his great shoulders rest easily, while he regarded her, as was his fashion, through half veiled eyes.

"Miss Garrick?" he said, glancing at the slip. "What can I do for you? You'll pardon me if I tell you now I have a dinner engagement at 6 and have only a few moments to spare."

This was said with one of David's confidential smiles.

"I shan't keep you long," she said, leaning forward. "Dr. Ericsson, my uncle, sent me to you."

"Oh, yes. How is he? I've not seen him for a month."

"He's very well, thank you."

"So you come on business from him?" and David breathed freely. "Do you know, Miss Garrick, I was afraid you were here as an applicant for work on the paper?"

"So I am," she said, her eyes amused. "Is it quite useless?"

"You mean you really want newspaper work?" and his tone was almost reproachful.

"I think I know what you mean."

"I really do. I want it more than anything else in the world. Indeed I want nothing else," she said earnestly.

"You have some illusions about it perhaps?"

"I don't think so, and I must work."

The words were spoken lightly, but with an urgent note. David was interested. His fingers fell from the fob he had been twisting in regard for the passing moments. He noticed the line of impatience between her straight brows, the intensity in the bend of her mouth, the paleness of her worn yet youthful face, her intent attitude.

He had met many women demanding just such martial struggles in the battle of existence. Here was another. What should he say to her—the old objections, the old warnings? He was disinclined for the task more for some reason now than ever before. But The Citizen did not want women among its workers. That was one of his father's prejudices he had never set aside.

He returned to the argument, but his tone was still persuasive. This surprised himself, yet he felt it was because Miss Garrick came from Dr. Ericsson, and his liking for the old Swedish physician was a very deep one. He would not admit to himself that there was another reason—the youth, the charm of this woman, making the plea he had rejected so often.

"The work is terribly hard, Miss Garrick, and really," he said as if making an admission almost against his will, "I don't regard the newspaper as a field for women."

"Don't you? Why not?"

"Oh, it's a blistering atmosphere, and women were never meant to find nourishment in hard facts. I advise you to do something else—write a book or teach or anything."

"Oh, Mr. Temple," she said with sudden earnestness, "I don't feel that way about it. I want to be a journalist."
